PARLIAMENTARY DEBATES

(HANSARD)

SIXTH SERIES—VOLUME 474 (Part 2)

HOUSE OF COMMONS

OFFICIAL REPORT

THIRD SESSION OF THE FIFTY-FOURTH PARLIAMENT
OF THE UNITED KINGDOM OF GREAT BRITAIN
AND NORTHERN IRELAND
FIFTY-SEVENTH YEAR OF THE REIGN OF
HER MAJESTY QUEEN ELIZABETH II

SESSION 2007–2008

COMPRISING PERIOD
25 March 2008—25 April 2008

HER MAJESTY'S GOVERNMENT

MEMBERS OF THE CABINET

(FORMED BY THE RT. HON. GORDON BROWN, MP, JUNE 2007)

PRIME MINISTER, FIRST LORD OF THE TREASURY AND MINISTER FOR THE CIVIL SERVICE—The Rt. Hon. Gordon Brown, MP
CHANCELLOR OF THE EXCHEQUER—The Rt. Hon. Alistair Darling, MP
SECRETARY OF STATE FOR FOREIGN AND COMMONWEALTH AFFAIRS—The Rt. Hon. David Miliband, MP
SECRETARY OF STATE FOR JUSTICE AND LORD CHANCELLOR—The Rt. Hon. Jack Straw, MP
SECRETARY OF STATE FOR THE HOME DEPARTMENT—The Rt. Hon. Jacqui Smith, MP
SECRETARY OF STATE FOR DEFENCE AND SECRETARY OF STATE FOR SCOTLAND—The Rt. Hon. Des Browne, MP
SECRETARY OF STATE FOR HEALTH—The Rt. Hon. Alan Johnson, MP
SECRETARY OF STATE FOR ENVIRONMENT, FOOD AND RURAL AFFAIRS—The Rt. Hon. Hilary Benn, MP
SECRETARY OF STATE FOR INTERNATIONAL DEVELOPMENT—The Rt. Hon. Douglas Alexander, MP
SECRETARY OF STATE FOR BUSINESS, ENTERPRISE AND REGULATORY REFORM—The Rt. Hon. John Hutton, MP
LEADER OF THE HOUSE OF COMMONS, LORD PRIVY SEAL AND MINISTER FOR WOMEN AND EQUALITY—The Rt. Hon. Harriet Harman, QC, MP
SECRETARY OF STATE FOR WORK AND PENSIONS—The Rt. Hon. James Purnell, MP
SECRETARY OF STATE FOR TRANSPORT—The Rt. Hon. Ruth Kelly, MP
SECRETARY OF STATE FOR COMMUNITIES AND LOCAL GOVERNMENT—The Rt. Hon. Hazel Blears, MP
PARLIAMENTARY SECRETARY TO THE TREASURY—The Rt. Hon. Geoffrey Hoon, MP
SECRETARY OF STATE FOR CHILDREN, SCHOOLS AND FAMILIES—The Rt. Hon. Ed Balls, MP
MINISTER FOR THE CABINET OFFICE AND CHANCELLOR OF THE DUCHY OF LANCASTER—The Rt. Hon. Edward Miliband, MP
SECRETARY OF STATE FOR CULTURE, MEDIA AND SPORT—The Rt. Hon. Andy Burnham, MP
SECRETARY OF STATE FOR NORTHERN IRELAND—The Rt. Hon. Shaun Woodward, MP
SECRETARY OF STATE FOR WALES—The Rt. Hon. Paul Murphy, MP
LEADER OF THE HOUSE OF LORDS AND LORD PRESIDENT OF THE COUNCIL—The Rt. Hon. The Baroness Ashton of Upholland
CHIEF SECRETARY TO THE TREASURY—The Rt. Hon. Yvette Cooper, MP
SECRETARY OF STATE FOR INNOVATION, UNIVERSITIES AND SKILLS—The Rt. Hon. John Denham, MP
CAPTAIN OF THE HONOURABLE CORPS OF GENTLEMAN-AT-ARMS—The Rt. Hon. The Baroness Royall of Blaisdon

DEPARTMENTS OF STATE AND MINISTERS

Business, Enterprise and Regulatory Reform—

SECRETARY OF STATE—The Rt. Hon. John Hutton, MP

MINISTERS OF STATE—
Minister for Trade Promotion and Investment—The Lord Jones of Birmingham
Minister for Employment Relations and Postal Affairs—Pat McFadden, Esq, MP
Minister for Energy—Malcolm Wicks, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Gareth Thomas, Esq, MP
The Baroness Vadera

Cabinet Office—

MINISTER FOR THE CABINET OFFICE AND CHANCELLOR OF THE DUCHY OF LANCASTER—The Rt. Hon. Edward Miliband, MP

MINISTER OF STATE—
Minister for the Olympics and London (Paymaster General)—The Rt. Hon. Tessa Jowell, MP*

PARLIAMENTARY SECRETARIES—
Phil Hope, MP (Minister for the East Midlands)*
Tom Watson, Esq, MP

Children, Schools and Families—

SECRETARY OF STATE—The Rt. Hon. Ed Balls, MP

MINISTERS OF STATE—
Minister for Schools and Learners—Jim Knight, MP
Minister for Children, Young People and Families (Minister for the North West)—The Rt. Hon. Beverley Hughes, MP*

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Kevin Brennan, MP
The Lord Adonis

Communities and Local Government—

SECRETARY OF STATE—The Rt. Hon. Hazel Blears, MP

MINISTERS OF STATE—
Minister for Local Government—John Healey, MP
Minister for Housing—The Rt. Hon. Caroline Flint, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Baroness Andrews, OBE
Parmjit Dhanda, Esq, MP
Iain Wright, Esq, MP

Culture, Media and Sport—

SECRETARY OF STATE—The Rt. Hon. Andy Burnham, MP

MINISTER OF STATE—
The Rt. Hon. Margaret Hodge, MP, MBE

PARLIAMENTARY UNDER-SECRETARY OF STATE—
Gerry Sutcliffe, Esq, MP

Defence—

SECRETARY OF STATE—The Rt. Hon. Des Browne, MP

MINISTER OF STATE—
Minister for the Armed Forces—The Rt. Hon. Bob Ainsworth, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Rt. Hon. The Baroness Taylor of Bolton
Derek Twigg, MP

Environment, Food and Rural Affairs—

SECRETARY OF STATE—The Rt. Hon. Hilary Benn, MP

MINISTERS OF STATE—
Minister for Sustainable Food and Farming and Animal Health—The Rt. Hon. The Lord Rooker
Minister for the Environment—Phil Woolas, Esq, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Joan Ruddock, MP
Jonathan Shaw, MP (Minister for the South East)*

Foreign and Commonwealth Affairs—

SECRETARY OF STATE—The Rt. Hon. David Miliband, MP

MINISTERS OF STATE—
Minister for Europe—Jim Murphy, Esq, MP
Minister for the Middle East—Dr. Kim Howells, MP
The Rt. Hon. The Lord Malloch-Brown, KCMG
The Lord Jones of Birmingham

PARLIAMENTARY UNDER-SECRETARY OF STATE—
Meg Munn, MP

Government Equalities Office—

MINISTER FOR WOMEN AND EQUALITY—The Rt. Hon. Harriet Harman, QC, MP

MINISTER FOR EQUALITY—Barbara Follett, MP*

Health—

SECRETARY OF STATE—The Rt. Hon. Alan Johnson, MP

MINISTERS OF STATE—
The Rt. Hon. Dawn Primarolo, MP
Ben Bradshaw, Esq, MP (Minister for the South West)*

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Lord Darzi of Denham, KBE
Ann Keen, MP
Ivan Lewis, Esq, MP

Home Office—

SECRETARY OF STATE—The Rt. Hon. Jacqui Smith, MP

MINISTERS OF STATE—
Minister for Security, Counter-Terrorism, Crime and Policing—The Rt. Hon. Tony McNulty, Esq, MP
Minister for Borders and Immigration—Liam Byrne, Esq, MP (Minister for the West Midlands)*

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Vernon Coaker, Esq, MP
Admiral The Lord West of Spithead, GCB DSC
Meg Hillier, MP

Innovation, Universities and Skills—

SECRETARY OF STATE—The Rt. Hon. John Denham, MP

MINISTERS OF STATE—
Minister for Lifelong Learning, Further and Higher Education—Bill Rammell, MP
Minister for Science and Innovation—Ian Pearson, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
David Lammy, Esq, MP
The Baroness Morgan of Drefelin

International Development—

SECRETARY OF STATE—The Rt. Hon. Douglas Alexander, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Gareth Thomas, Esq, MP
Gillian Merron, MP
Shahid Malik, Esq, MP

Justice—

SECRETARY OF STATE—The Rt. Hon. Jack Straw, MP

MINISTERS OF STATE—
The Rt. Hon. David Hanson, Esq, MP
Michael Wills, Esq, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Lord Hunt of Kings Heath, OBE
Bridget Prentice, MP
Maria Eagle, MP

Law Officers' Department—

ATTORNEY-GENERAL—The Rt. Hon. The Baroness Scotland of Asthal, QC

SOLICITOR-GENERAL—Vera Baird, QC, MP

ADVOCATE-GENERAL FOR SCOTLAND—The Lord Davidson of Glen Cova, QC

Leader of the House of Commons—

LEADER OF THE HOUSE OF COMMONS, LORD PRIVY SEAL AND MINISTER FOR WOMEN AND EQUALITY—The Rt. Hon. Harriet Harman, QC, MP

DEPUTY LEADER OF THE HOUSE OF COMMONS—Helen Goodman, MP

Northern Ireland—

SECRETARY OF STATE—The Rt. Hon. Shaun Woodward, MP

MINISTER OF STATE—
Paul Goggins, MP

Privy Council Office—

LORD PRESIDENT OF THE COUNCIL AND LEADER OF THE HOUSE OF LORDS—The Rt. Hon. The Baroness Ashton of Upholland

Scotland Office—

SECRETARY OF STATE—The Rt. Hon. Des Browne, MP

MINISTER OF STATE—
David Cairns, MP

Transport—

SECRETARY OF STATE—The Rt. Hon. Ruth Kelly, MP

MINISTER OF STATE—
The Rt. Hon. Rosie Winterton, MP (Minister for Yorkshire and the Humber)*

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Jim Fitzpatrick, MP
Tom Harris, Esq, MP

Treasury—

PRIME MINISTER, FIRST LORD OF THE TREASURY AND MINISTER FOR THE CIVIL SERVICE—The Rt. Hon. Gordon Brown, MP

CHANCELLOR OF THE EXCHEQUER—The Rt. Hon. Alistair Darling, MP

CHIEF SECRETARY—The Rt. Hon. Yvette Cooper, MP

FINANCIAL SECRETARY—The Rt. Hon. Jane Kennedy, MP

EXCHEQUER SECRETARY—Angela Eagle, MP

ECONOMIC SECRETARY—Kitty Ussher, MP

PARLIAMENTARY SECRETARY—The Rt. Hon. Geoffrey Hoon, MP

MINISTER OF STATE—Liam Byrne, Esq, MP (Minister for the West Midlands)*

LORDS COMMISSIONERS—
Frank Roy, Esq, MP
Steve McCabe, MP
Alan Campbell, Esq, MP
Dave Watts, Esq, MP
Claire Ward, MP

ASSISTANT WHIPS—
Siobhain McDonagh, MP
Michael Foster, Esq, MP
Tony Cunningham, MP
Alison Seabeck, MP
Ms Diana R. Johnson, MP
Mark Tami, MP
Sadiq Khan, Esq, MP
Bob Blizzard, Esq, MPs
Wayne David, Esq, MP

Wales Office—

SECRETARY OF STATE—The Rt. Hon. Paul Murphy, MP

PARLIAMENTARY UNDER-SECRETARY OF STATE—
Huw Irranca-Davies, MP

Work and Pensions—

SECRETARY OF STATE—The Rt. Hon. James Purnell, MP

MINISTERS OF STATE—
Minister for Pensions Reform—Mike O'Brien, Esq, QC, MP
Minister for Employment and Welfare Reform—The Rt. Hon. Stephen Timms, Esq, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Anne McGuire, MP
James Plaskitt, Esq, MP
The Lord McKenzie of Luton
Barbara Follett, MP (Minister for the East of England and Minister for Equality)*

Her Majesty's Household—

LORD CHAMBERLAIN—The Rt. Hon. The Earl Peel, GCVO, DL

LORD STEWARD—The Duke of Abercorn, KG

MASTER OF THE HORSE—The Lord Vestey

TREASURER—The Rt. Hon. Nicholas Brown, MP (Minister for the North East of England)*

COMPTROLLER—The Rt. Hon. Thomas McAvoy, MP

VICE-CHAMBERLAIN—Liz Blackman, MP

CAPTAIN OF THE HONOURABLE CORPS OF GENTLEMAN-AT-ARMS—The Rt. Hon The Baroness Royall of Blaisdon

CAPTAIN OF THE QUEEN'S BODYGUARD OF THE YEOMAN OF THE GUARD—The Rt. Hon. The Lord Davies of Oldham

LORDS IN WAITING—The Lord Bassam of Brighton, The Lord Truscott, The Lord Bach

BARONESSES IN WAITING—The Baroness Farrington of Ribbleton, The Baroness Crawley, The Baroness Morgan of Drefelin, The Baroness Thornton

**Regional Ministers. Full list:*

Ministers for the English Regions—
Ben Bradshaw, Esq, MP (Minister for the South West)
The Rt. Hon. Nicholas Brown, MP (Minister for the North East of England)
Liam Byrne, Esq, MP (Minister for the West Midlands)
Barbara Follett, MP (Minister for the East of England)
Phil Hope, MP (Minister for the East Midlands)
The Rt. Hon. Beverley Hughes, MP (Minister for the North West)
The Rt. Hon. Tessa Jowell, MP (Minister for the Olympics and London)
Jonathan Shaw, MP (Minister for the South East)
The Rt. Hon. Rosie Winterton, MP (Minister for Yorkshire and the Humber)

SECOND CHURCH ESTATES COMMISSIONER, REPRESENTING CHURCH COMMISSIONERS—Sir Stuart Bell, MP

HOUSE OF COMMONS

THE SPEAKER—The Rt. Hon. Michael J. Martin, MP

CHAIRMAN OF WAYS AND MEANS—The Rt. Hon. Sir Alan Haselhurst, MP

FIRST DEPUTY CHAIRMAN OF WAYS AND MEANS—Mrs. Sylvia Heal, MP

SECOND DEPUTY CHAIRMAN OF WAYS AND MEANS—Sir Michael Lord, MP

CHAIRMEN'S PANEL

David Amess, Janet Anderson, Peter Atkinson, Hugh Bayley, Anne Begg, Joe Benton, John Bercow, Sir John Butterfill, Martin Caton, Christopher Chope, Frank Cook, John Cummings, Janet Dean, Roger Gale, Mike Hancock, Jim Hood, Joan Humble, Eric Illsley, Martyn Jones, Robert Key, Dr. William McCrea, Eric Martlew, Edward O'Hara, Bill Olner, Greg Pope, David Taylor, Joan Walley, Mike Weir, Hywel Williams, David Wilshire, Ann Winterton, Sir Nicholas Winterton

HOUSE OF COMMONS COMMISSION

The Rt. Hon. The Speaker (Chairman), Sir Stuart Bell, MP, The Rt. Hon. Harriet Harman, QC, MP, Nick Harvey, MP, The Rt. Hon. David Maclean, MP, The Rt. Hon. Mrs. Theresa May, MP

SECRETARY OF THE COMMISSION—Andrew Kennon

ASSISTANT SECRETARY—Jenny McCullough

ADMINISTRATION ESTIMATE AUDIT COMMITTEE

The Rt. Hon. Mrs. Theresa May, MP (Chairman), Nick Harvey, MP, Sir Thomas Legg, KCB, QC, David Taylor, FCA

SECRETARY OF THE AUDIT COMMITTEE—Tracey Garratty

MANAGEMENT BOARD

Malcolm Jack, PhD (Chief Executive), Douglas Millar, CB (Director General, Chamber and Committee Services), John Pullinger (Director General, Information Services), Andrew Walker (Director General, Resources), John Borley, CB (Director General, Facilities), Joan Miller (Director of Parliamentary ICT) (External Member)

SECRETARY OF THE MANAGEMENT BOARD—Philippa Helme

SPEAKER'S SECRETARY—Angus Sinclair

SPEAKER'S COUNSEL—John Vaux

SPEAKER'S CHAPLAIN—Rev. Canon Robert Wright

MEDICAL ADVISER TO THE SPEAKER—Dr. Ron Zeegen, OBE, FRCP, MRCS, DObst, RCOG

PARLIAMENTARY COMMISSIONER FOR STANDARDS—John Lyon, CB

PARLIAMENTARY SECURITY CO-ORDINATOR—Peter Mason

Written Ministerial Statements

Tuesday 25 March 2008

COMMUNITIES AND LOCAL GOVERNMENT

Ministerial Group for Regeneration in Manchester

The Secretary of State for Communities and Local Government (Hazel Blears): I am today reporting on the ad hoc ministerial group on regeneration in Manchester that met for the first time on Monday 17 March 2008. This fulfils the commitment made by the Secretary of State for Culture, Media and Sport during the debate on gambling policy on 26 February 2008 that the group would produce its first report by the end of March.

The group, which I chair, includes the Secretaries of State for Culture, Media and Sport; Innovation, Universities and Skills; Work and Pensions; Transport; Business, Enterprise and Regulatory Reform; and Health, as well as the Regional Minister for the North-West, the Leader of Manchester city council and the chair of the North-West Development Agency. Other Secretaries of State or the chairs of key partner organisations (such as English Partnerships) may be invited to take part in the group.

The Government are committed to further regeneration in Manchester, and the group exists to co-ordinate this task. The aim is to help generate an equivalent number of jobs to those that a regional casino could have delivered and to foster greater long-term growth that benefits the people of east Manchester. The agenda is therefore an ambitious and wide-reaching one which will offer real benefits to the residents of east Manchester and beyond.

The knowledge economy and innovation

The group supports Manchester's emerging role as a centre in the international knowledge economy, and believes that the residents of east Manchester should be a part of this. The Secretary of State for Health announced on 19 March 2008 that a national Biomedical Research Centre (BRC) will be created in Manchester, attracting top-flight research expertise, generating jobs and improving outcomes for local people. The group will look at how residents of east Manchester can benefit from improved health outcomes and jobs from this investment.

The NWDA is developing plans to improve higher speed broadband provision and access, targeted at those places, such as Manchester, which are internationally competitive in the knowledge economy. NWDA and its partners will work to ensure that the residents of east Manchester benefit from any improvements.

Regeneration through sport

The group has prioritised development of the Sportcity area of Manchester and supports the creation of a partnership between Manchester city council and English Partnerships to oversee public investment in this. CLG and EP have worked together to secure an additional £10 million funding so we can see early and substantive progress.

Housing-led regeneration

Increased spending on housing will be a vital ingredient of this regeneration. Some £52 million additional funding is available for housing market renewal in Manchester and Salford in 2008-09, bringing the total to £230 million since 2003. The group will look at further additional funding, and Ministers are currently considering an application for growth point status.

A world-class workforce

The Government's ambition is that residents of deprived areas should compete at the highest level in filling current vacancies, setting up new businesses and attracting inward investors. The group will prioritise work on a potential National Skills Academy for Hospitality in Manchester, which could provide 9,000 training places and 200 jobs. Additional Skills Academies are a possibility, although as with the proposed Hospitality Academy, the process is competitive and so the outcome cannot be guaranteed.

HEFCE are undertaking an important study of demand for higher education in east Manchester, and the group expect to receive that report by September and will take forward its recommendations.

The highly successful Urban Regeneration Company (URC), New East Manchester Ltd, has created and safeguarded 3,000 jobs. The group supports plans to extend its life so that it can build on this success and ensure that east Manchester residents benefit from further new jobs and opportunities.

Government and the Greater Manchester local authorities are working hard to create a multi-area agreement, one of the aims of which is to improve the way people are supported from worklessness into employment. The group cannot pre-empt these discussions, but would factor the MAA into its work. There are major potential benefits to the people of east Manchester from a successful MAA.

The bigger picture

The ambition of the group is to join up the many ways Government and the public sector already work to ensure better outcomes for the people of east Manchester. This is not another "strategy", but practical co-ordination and leadership to make the most of opportunities and build on existing strengths. For example, the group will take an active interest in the Network Rail study of the Manchester Rail Hub, given the potential regeneration benefits. The group welcomes the creative thinking from Manchester about further developments, for example a possible BMX centre and rugby centre of excellence. All proposals obviously need to find funds according to relevant criteria, but the group is there to offer support and ensure that the process is co-ordinated.

The group will be alert to other opportunities that may arise. For example, if any public agency decides to relocate in accordance with the Lyons review the group will be supportive of Manchester city council and its partners in seeking to maximise the benefits for east Manchester.

We must learn the lessons from this work with Manchester so other cities and communities can themselves advance their regeneration plans. Some of what works for east Manchester may work as well in other places, and we are grateful to Manchester for engaging with us in this exercise.

DEFENCE

Surface Ship Support

The Secretary of State for Defence (Des Browne): The House will wish to be aware of an update to the alternative contracting arrangements for surface warship maintenance and repair. These arrangements were signalled as part of the wider defence industrial strategy and today's announcement is an important step towards ensuring that the capability requirements of the Royal Navy continue to be met now and in the future.

In 2004, the Ministry of Defence (MOD), in consultation with industry, launched a study (the Surface Ship Support Study) to identify the optimum approach for the future maintenance and repair of surface warships (aircraft carriers, major amphibious vessels, destroyers, frigates and mine warfare vessels) that would deliver the most efficient, effective and sustainable support policy and offer best value for money for defence as well as to taxpayers. Previously, surface warship upkeep contracts had been awarded following competition while operational (or fleet) time support was delivered through partnering arrangements under the Warship Support Modernisation Initiative. While these arrangements have delivered value for money to the MOD, force level reductions coupled with over-capacity in the surface ship repair market prompted a review.

In 2005, the study concluded that the option best able to meet the needs of both the Department and industry would be the formation of a surface warship support alliance, which would include current providers of surface warship upkeep and fleet time support. To take this forward, the MOD entered into detailed dialogue with industry to explore the feasibility of delivering such support through an alliance. My predecessor's written ministerial statement of 14 February 2006, *Official Report*, column 72-73 WS, announced this exploratory phase. During this time, competition policy would be suspended to enable the alliance concept to be developed and tested progressively in a controlled manner.

An order was made by the then Secretary of State for Trade and Industry (now Business, Enterprise and Regulatory Reform) excluding the maintenance and repair of surface warships from the UK Competition Act 1998. While good progress has been made on exploration of the options, it has been necessary to review these in the light of emerging findings from the naval base review and the formation of Babcock Marine and the joint venture between BAE Systems and VT. As a consequence, the exploratory phase has been extended for up to one year. This extension will have no impact on current and future support of complex warships.

An MOD project team will continue to take this work forward with the clear objective of identifying the optimum solution that would provide effective, affordable and sustainable support to Royal Navy surface warships.

The new contracting arrangements promote a sustainable industrial base that retains key operational support and system upgrade capabilities within the UK, and are therefore vital to our ability to maintain and support the Royal Navy. We will continue to work closely with industry in a spirit of transparency and trust to improve the delivery of surface ship support, securing the capabilities of the Royal Navy into the future.

HEALTH

Health and Adult Social Care Providers

The Minister of State, Department of Health (Mr. Ben Bradshaw): Today we are publishing a consultation document, which is the latest stage in the development of the new system we are introducing for the regulation of health and adult social care.

"The Future Regulation of Health and Adult Social Care in England: A Consultation on the Framework for the Registration of Health and Adult Social Care Providers" takes forward our commitment to provide a clear and refocused approach to regulation of the health and adult social care systems.

Subject to parliamentary approval, the Health and Social Care Bill will establish the Care Quality Commission. From April 2009, the new Commission will take over the functions of the Healthcare Commission, the Commission for Social Care Inspection (CSCI) and the Mental Health Act Commission (MHAC).

The Care Quality Commission will be an organisation responsible for regulating services across the health and social care sectors that spend over £100 billion of public money and involve about 2.9 million people employed in delivery of services in over 25,000 establishments.

Integration of care pathways—across different health care providers and between health and social care—and variety in types of service provision are both increasing. Greater joined-up working will provide better outcomes for patients and service users.

But service users and patients want to be assured that all the services they receive are fair, personal, effective and safe, wherever they are provided. An integrated and flexible regulatory system that focuses on the needs of service users will help provide the consistency and assurance that the public expects and enable local service innovation.

The Bill defines the functions of the Care Quality Commission in safety and quality assurance, periodic review of commissioners and providers, monitoring the operation of the Mental Health Act and ensuring that regulation and inspection activity across health and adult social care is co-ordinated and managed.

This consultation seeks views on: which health and adult social care services should require registration with the Care Quality Commission; and what the requirements for registration should be. Without registering with the Care Quality Commission, it will be illegal for health and adult social care organisations to provide services that come within the scope of registration. The registration requirements will therefore cover essential levels of safety and quality. The scope and requirements for registration will be set in secondary legislation, following a further consultation on regulations later in the year.

The consultation also seeks views on when providers of regulated services should be required to have a registered manager, and how primary care services

should be included in the new registration system. The document sets out plans for transition to the new registration system: the new registration system will come into force from April 2010 with the exception of regulations on healthcare-associated infections, which will come into force during 2009-10.

The registration system will operate alongside a wider quality improvement framework that encourages not just good care, but excellent care. The Care Quality Commission's general role within that wider quality improvement system is clear from the Health and Social Care Bill and includes provision for its periodic reviews to provide information to the public about the general quality of service providers across health and adult social care. The rest of the system around the new Commission—the role of standard setting for improvement, knowledge management, incentives, commissioning and other "levers"—is the subject of the NHS next stage review, which is due to report by the end of June.

This publication will be of interest to anyone working in health and adult social care and to patients and service users who are interested in how the reforms are going to improve the services they use.

I commend this document to the House.

Today's publication and the impact assessment have been placed in the Library. Copies of the publication are available to hon. Members from the Vote Office.

INNOVATION, UNIVERSITIES AND SKILLS

Education (Student Support) Regulations

The Secretary of State for Innovation, Universities and Skills (Mr. John Denham): On 7 February, I informed Parliament that I had identified a long-established but unjustifiable provision in the student support regulations that allowed prisoners on full-time courses in higher education to receive financial support in the form of loans and grants for maintenance.

Following my statement, revised Education (Student Support) Regulations came into effect on 28 February and prevent anyone who is, or has been, a prisoner during the 2007-08 academic year from receiving further payments of maintenance loans or grants. We are working to ensure that, from the 2008-09 academic year, maintenance support for any student who has spent part of a year in prison is reduced pro rata.

At my request, the Student Loans Company and officials have now identified and reviewed cases where maintenance payments were made to prisoners. This investigation has shown that, in many of the cases provisionally identified in my statement, the individuals in question did not receive any student support payments while in custody. Our assessment of the number of prisoners who have received support, and the sums of money involved, have therefore been revised downwards significantly.

Based on a search of the SLC's database using prison postcodes, and a survey of prison governors, we have identified that 154 individual prisoners received some form of maintenance payment while a full-time student since 1998. In total, these prisoners received £570,000 in maintenance loans. They also received £160,000 in maintenance grants. By comparison at the time that I made my statement on 7 February, preliminary investigations suggested that approximately 250 prisoners had received up to £250,000 in maintenance grants since 1998. There is also evidence of some maintenance payments made to prisoners between 1990 and 1998.

In the current academic year, the review has identified 44 prisoners who have received some form of maintenance payment while in prison. All further maintenance payments to these individuals have been stopped. Where appropriate, payment of tuition fees to higher education institutions have been reinstated.

The review has shown that assessments for student support were carried out in accordance with the rules that applied at the time.

I will be considering the future management of financial support for offenders in higher education, based on recommendations from my Department and the Ministry of Justice.

NORTHERN IRELAND

Devolution of Policing and Justice: Report of the Northern Ireland Assembly

The Secretary of State for Northern Ireland (Mr. Shaun Woodward): In accordance with section 18(2) of the Northern Ireland (St. Andrews Agreement) Act 2006, I have today laid before the House a copy of the report submitted to me by the Assembly under section 18(1) of that Act.

The report is another important step towards the transfer of responsibility for policing and justice to the Northern Ireland Assembly, and the completion of devolution in Northern Ireland.

The transformation of Northern Ireland from conflict to peace has progressed with speed and confidence since the restoration of the Assembly on 8 May last year. I have no doubt that all parties, and the people of Northern Ireland, are committed to maintaining the momentum of change and to completing the formal process of devolution by transferring policing and justice powers from Westminster to the Assembly. The first steps towards this were taken last year with Sinn Fein taking up seats on the Policing Board and on District Policing Partnerships. The next step is for the Assembly to agree a date on which they will accept their responsibility for the delivery of local policing and justice services as they did last year in respect of other local public services and in respect of the Northern Ireland economy. The Assembly report, which I am today laying before Parliament, helps to pave the way for such a decision.

The report sets out in some detail those subject matters that all parties agree should transfer to the Assembly as part of the policing and justice package. The Assembly also agreed that there should be a single Department of Justice overseeing these matters once they devolve. I welcome this important progress.

The Assembly's report calls on the political parties to continue discussions on the outstanding issues of timing and ministerial structures, agreement on which will enable the handing over of those policing and justice powers that the Assembly have agreed should transfer.

The Government support this call for further discussions and stand ready to assist the parties in reaching agreement on the completion of devolution at the earliest possible date. To this end my Department will have ready the practical arrangements required to make the transfer once the Assembly requests it, including a first draft of the necessary legislation, made available to Members of the Assembly to facilitate their debate.

In laying the report, I want to pay particular tribute to the work that Members of the Assembly's Assembly and Executive Review Committee, chaired until recently by the right hon. Member for Lagan Valley (Mr. Donaldson), have done to get us to this point.

SCOTLAND

Strengthening Devolution in Scotland

The Secretary of State for Defence (Des Browne): I am pleased to announce today that Professor Sir Kenneth Calman has agreed to serve as Chair of a Commission to review the Scotland Act. Such a Commission was proposed in and approved by the Scottish Parliament. The Government welcome that Parliament's support for the aim of strengthening devolution, and securing Scotland's place in the Union. We are therefore giving our full support to this cross-border, cross-party review.

The terms of reference for the Commission, which have also been approved by the Scottish Parliament, are:

> "To review the provisions of the Scotland Act 1998 in the light of experience and to recommend any changes to the present constitutional arrangements that would enable the Scottish Parliament to serve the people of Scotland better, that would improve the financial accountability of the Scottish Parliament and that would continue to secure the position of Scotland within the United Kingdom".

The Government and the Scottish Parliament will work together to provide support for the Commission, which will be asked to make an interim report by the end of this year. Its report will be submitted to both the Government and to the Scottish Parliament.

I hope that there will be full engagement by people in Scotland and elsewhere in the UK with this review, which will provide an opportunity to assess the successes of devolution to Scotland, and identify ways in which the devolution settlement can be developed to work better for the people of Scotland within the United Kingdom.

The other members involved in the Commission will be announced in due course.

Written Ministerial Statements

Wednesday 26 March 2008

ENVIRONMENT, FOOD AND RURAL AFFAIRS

DEFRA's Central Science Laboratory and Pesticides Safety

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Jonathan Shaw): My hon. Friend the Member for Exeter (Mr. Bradshaw) made a written statement on 20 June 2006, *Official Report*, column 91WS on DEFRA's Laboratory Strategy. I am now able to announce the decision on the future of DEFRA's Central Science Agency (CSL). I am also taking this opportunity to report to the House changes to DEFRA's Pesticides Safety Directorate.

These decisions pursue the aim of securing a long-term sustainable future for DEFRA's laboratories, in the case of CSL, and the earlier decision to consolidate a number of regulators as part of the Government's implementation of the Hampton review of regulatory inspections and enforcement of March 2005. These regulators include PSD and also DEFRA's Plant Health and Seeds Inspectorate (PHSI) and Plant Variety Rights Office and Seeds Division (PVS).

As part of the work to develop a new business plan for CSL which better reflects DEFRA's future changing demand requirements and wider Government needs referred to in my earlier statement, we recognised there might be potential benefits to customers and to Government from creating a new regulatory science agency from PSD, PVS, PHSI and DEFRA's Plant Health Division (PHD), and combining them with CSL.

Having considered the detailed business case for the new agency last year alongside an alternative option for PSD of merger with one of Hampton's seven thematic regulators, the Health and Safety Executive (HSE), we concluded that the best option for the future of PSD was for it to join the HSE. The principal reasons were:

the regulatory scientific synergies that exist between PSD and HSE are much stronger than between PSD and those other bodies in the new agency;

the preference expressed by PSD's customers as part of an informal high level stakeholder engagement exercise we undertook in 2007; and

concerns over conflicts of interest if PSD joined the proposed RSA, which would inevitably result in some loss of business for both CSL and PSD.

Accordingly, in the case of CSL, a new DEFRA executive agency will be created from CSL, PHSI/PHD and PVS. It will be established formally on 1 April 2009, but will operate in shadow form from 1 April 2008 under a newly appointed chief executive, Adrian Belton. This organisation will benefit customers of the respective constituent parts and taxpayers through improved effectiveness and compliance with the Hampton principles of better regulation and overall value for money.

Following a public consultation that ended on 14 January 2008, PSD will become part of the HSE from 1 April 2008.

In joining HSE, PSD will become part of an organisation that is already responsible for the regulation of both biocides and chemicals. This will enable further exploration of the potential synergies between regulatory science and policy in order to identify options for further improvements in customer service and efficiencies. In the meantime PSD will retain its distinct identity within HSE.

Strategic policy responsibility for pesticides will remain with DEFRA Ministers and sit alongside strategic policy responsibility which DEFRA has for chemicals under the EU chemicals assessment and approval regime REACH (Registration, Evaluation, Authorisation and restriction of Chemicals). Governance arrangements are being put in place to ensure that all departmental and cross-departmental interests are fully represented.

A summary of responses to the consultation on PSD and the Government's detailed response to these will be made available on the DEFRA website.

Food from Britain

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): In reaching decisions on allocations to individual budgets arising out of DEFRA's CSR settlement it has been decided to reduce the amount of grant-in-aid available to Food from Britain (FFB) for 2008-09 to £4 million, with the expectation that the funding will come to an end before the conclusion of the CSR period. We concluded that maintaining a subsidised consultancy service for British food exporters was a lower priority than ensuring adequate funds were available for dealing with the consequences of animal diseases, providing for a full programme of food and farming research (including work on identifying animal disease strains and vaccines) and continuing to improve the service the Rural Payments Agency provides to farmers.

In taking the decision to reduce DEFRA's grant-in-aid to FFB we were conscious of the extent to which the organisation is dependent on that source of funds to pay for its operations. Following consideration of these matters by FFB's Council, we have therefore agreed with the Council that subject to formal confirmation by Ministers in the devolved Administrations, FFB should wind down its activities over the coming year with a view to it ceasing operations by 31 March 2009 in anticipation of its formal dissolution in law when a suitable legislative vehicle can be found.

Over the years FFB has provided excellent support to exporters for food and drink and I would like to pay tribute to the staff, Council members and office holders who have made this possible. We are considering with FFB, the devolved Administrations and other interested parties whether there is scope for alternative arrangements for dedicated export support for the food and drink sector. This might, for example, involve the licensing of the FFB brand, or transfer of certain elements of the FFB business to the private sector. We would welcome any expressions of interest from organisations which might wish to take over elements of FFB's business. In

the meantime, FFB will continue to provide support over the coming year. Support for food and drink exporters will also continue be available from UKTI. UKTI provide services to all types of businesses including those in the food and drink sector. Over many years, UKTI have funded FFB to take groups of companies to exhibitions and trade fairs—this will continue.

TRANSPORT

Royal and Ministerial Air Travel

The Parliamentary Under-Secretary of State for Transport (Jim Fitzpatrick): Every year members of the royal family and senior Government Ministers undertake a number of journeys to fulfil a wide range of important public engagements and other essential commitments. The large majority of that travel is undertaken by road, rail and scheduled flights. However, there are times when these parties need to use non-scheduled or dedicated flights, for example when these engagements involve several commitments in different parts of the country on the same day.

In 2006, Sir Peter Gershon, in his review of the royal and ministerial air travel service, recommended that the existing arrangements—currently provided by 32 (The Royal) Squadron of the RAF and, where RAF planes are unavailable, the charter market—be replaced with a new dedicated service. Over the last 12 months the Department has worked closely with the Royal Household, Number 10 and the Foreign and Commonwealth Office on plans to establish this new service.

The Department has now completed an outline business case for the new service, in line with Government procurement guidelines. This supports the analysis carried out by Sir Peter Gershon two years ago and its assessment of the need to improve the existing service. It also identifies a number of recent developments, some of which have significantly affected the nature of the service required.

In particular, the new Ministerial Code, published in July 2007, contains a clear presumption in favour of using scheduled flights rather than using RAF or chartered aircraft. An increasing proportion of overseas journeys, including a number of those undertaken by the Prince of Wales and the Prime Minister, are now routinely made on scheduled flights. Since 2006, more use has been made of the charter market in place of RAF aircraft provided by 32 (The Royal) Squadron. In addition, a number of concerns highlighted by Sir Peter Gershon's team in relation to charter provision—such as value for money—have now been addressed. Over the same period, there have been substantial above-inflation increases in the cost of buying and operating commercial aircraft, with high price premiums currently being demanded and paid for early delivery.

The Department is today recommending that the needs of these users can best be met through procuring a small aircraft for official travel within the UK, chartered air services for longer journeys involving small parties and a continuation of existing arrangements with UK airlines for journeys involving large parties. This approach provides the best solution for all users whilst minimising the financial cost and environmental impact of the new service.

The Royal Household will be responsible for taking forward any procurement activity to support these recommendations separately. The new arrangements are expected to be in place when the service currently provided by 32 (The Royal) Squadron is withdrawn on 1 April 2009.

I would like to thank Sir Peter Gershon and his team for their work on the review and for the officials, industry experts and service suppliers who have supported completion of the business case. I also wish, on behalf of the Government, to thank 32 (The Royal) Squadron for the service that they have provided to the Royal Household and Ministers for the last 70 years.

WORK AND PENSIONS

Luton Borough Council (Benefit Fraud Inspectorate Report)

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI inspection report on Luton borough council was published today. Copies will be placed in the Library of the House.

The BFI report details a range of strengths and weaknesses in the housing benefit service provided by the council and makes recommendations to improve the security and efficiency of benefit delivery.

My right hon. Friend the Secretary of State, is considering the report and may ask the council for proposals in response to BFI's findings.

Written Ministerial Statements

Thursday 27 March 2008

CHILDREN, SCHOOLS AND FAMILIES

"Safer Children in a Digital World" (Byron Review)

The Secretary of State for Children, Schools and Families (Ed Balls): The Secretary of State for Culture, Media and Sport and I today welcome the publication of the report of the Byron review of the risks to children of potentially harmful or inappropriate material on the internet and in video games. A copy of the report, "Safer Children in a Digital World", will be placed in the Library.

In September 2007 the Prime Minister asked Dr. Tanya Byron to lead an independent review to help parents and their children get the best from new technologies while protecting children from inappropriate or harmful material. This review has been jointly sponsored by the Department for Children, Schools and Families and the Department for Culture, Media and Sport.

The objectives of the Byron review were: to undertake a review of the evidence on risks to children's safety and wellbeing of exposure to potentially harmful or inappropriate material on the internet and in video games; and to assess the effectiveness and adequacy of existing measures to help prevent children from being exposed to such material and help parents understand and manage the risks of access to inappropriate material, and to make recommendations for improvements or additional action.

Dr. Byron's final report published today sets out a detailed analysis of the evidence on the risks and benefits of new technologies and evaluates the work already being done to protect children online and ensure appropriate access to age-rated video games. In doing so, Dr. Byron recognises the need to develop a shared culture of responsibility with families, industry and Government all playing their part to reduce the availability of potentially harmful material, restrict access to it by children and to increase children's resilience and ability to understand and manage risk. We welcome and support this approach.

To achieve this, Dr. Byron recommends reforming how Government and stakeholders work to improve our children's safety when using the internet through the following measures:

The creation of a new UK Council for Child Internet Safety, established by and reporting to the Prime Minister, including representation from across Government, industry, children's charities and other key stakeholders. The Council is to be chaired jointly by the Home Office and DCSF. DCMS will play a key role given its important policy responsibilities and expertise in this area of media and content regulation. A range of other Departments will also be closely involved.

The development by the Council of a three-pronged national strategy for improving child internet safety:

Challenging industry to take greater responsibility in supporting families through: clearer advice; establishing independently monitored codes of practice on areas such as user generated content; improving access to high quality parental control software and safe search; and better regulation of online promotions.

Developing a comprehensive public information and awareness campaign on child internet safety, including an authoritative "one stop shop" on child internet safety. This is to be led by Government but using the support and expertise of all Council members.

Putting in place sustainable education and children's service initiatives to improve the skills of children and their parents around e-safety.

On video games, Dr. Byron recommends a range of high profile and targeted efforts to help inform parents and children of the appropriateness of different video games and to restrict inappropriate access such as:

Lowering the statutory requirement to classify video games to 12+, that is consistent with film classification and easier for parents.

Putting in place a hybrid classification system, using both PEGI and BBFC mechanisms with one set of symbols, from BBFC, for parents to understand.

Having clear and consistent guidance for industry on how games should be advertised.

Challenging industry to provide sustained and high profile efforts to increase parents understanding of age ratings and improved parental controls.

We accept Dr. Byron's recommendations in full and commend Dr. Byron for delivering a groundbreaking report that will make a real difference to children and young people's lives. In particular, we would like to congratulate Dr. Byron for conducting such a thorough and open process, giving all those with an interest an opportunity to engage with the review on this important debate.

Government will develop a comprehensive action plan in response to Dr. Byron's recommendations.

DEFENCE

Compensation Claims (Iraq)

The Secretary of State for Defence (Des Browne): It is proposed to serve a defence on 28 March 2008 in response to the claim brought in the High Court against the Ministry of Defence by Dawood Salim Musa Al-Maliki—on his own behalf and as executor of the estate of Baha Mousa—admitting a substantive breach of Articles 2 (right to life), and 3 (prohibition of torture), of the European Convention on Human Rights.

It is also proposed to serve defences in the similar High Court claims brought against the Ministry of Defence, admitting a substantive breach of Article 3, prohibition of torture, of the European Convention on Human Rights in the following cases:

1. Mohammed Dhahir Abdulah
2. Maitham Mohammed Ameen Challab Al-Waz

3. Satar Shukri Abdullah
4. Joad Kadhim Jamal Al-Faeaz
5. Dhahir Abdullah Ali Al-Mansori
6. Radif Tahir Muslem Alhawan
7. Baha Hashim Mohamed
8. Ahmed Taha Mosah

The Ministry of Defence further accepts that the admitted substantive breaches of the Convention give rise to claims for compensation.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture and Fisheries Council

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Jonathan Shaw): I represented the United Kingdom at this month's Agriculture and Fisheries Council in Brussels. The Scottish Cabinet Secretary for Rural Affairs and Environment, Richard Lochhead, also attended.

The Council unanimously adopted conclusions on the Commission's Communication on the "health check" of the common agriculture policy.

The Council also adopted by qualified majority, with the UK voting in favour, a proposal to increase national milk quotas by 2 per cent. in April 2008.

Under any other business, the Agriculture Commissioner also updated Council on the latest state of play in the WTO-DDA negotiations. Along with a number of member states, I expressed our support for the Commission's efforts to reach a balanced conclusion to the current WTO negotiations. France presented a memorandum for debate on competition policy in agriculture to address the organisation of the agri-food sectors. The memorandum calls for greater powers for producer groups to strengthen farmers' interests and ability to regulate supply in the food chain. Along with a number of member states, I underlined our concerns about the possible impact of the proposal on EC competition law.

Ireland expressed concerns about the future development of the sheep sector. Poland called for further relief measures in the form of export refunds to alleviate the difficulties currently being experienced in the pigmeat sector. I strongly opposed the use of such measures as there was no evidence on their efficiency in addressing the short and longer term EU pig sector problems, but favoured the use of market-based solutions to address difficulties faced in both the sheep and pig sectors.

Cyprus called on the Commission to address the effect of the recent increased feed prices on the production of agricultural products.

Carbon Reduction Commitment (Public Consultation)

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): In June last year, the Government launched a fifteen-week consultation on proposals for the CRC, inviting views on how the UK Government and devolved Administrations should implement the UK CRC. The overall response of stakeholders to the consultation document is positive. Stakeholders support the adoption of CRC as a UK-wide scheme and tended to agree with most elements of the Government's proposed approach.

The CRC, scheduled to begin operation in 2010, is a mandatory emissions trading scheme that will cover around 5,000 public and private organisations, including Government Departments, retailers, banks, water companies, hotel chains and local authorities. Combined, these organisations account for around 10 per cent. of the UK economy's CO_2 emissions.

There will be an introductory three-year phase in which the Government is minded that allowances will be sold at a fixed price of £12/tCO_2. In the second phase, starting in 2013, allowances will be auctioned. The revenue from both sales will be recycled to participants related to their performance in reducing emissions compared to others in the scheme.

The UK is committed to meeting carbon reduction targets and to policies that will deliver emissions savings. This new scheme, announced in the energy White Paper, together with the provisions of the energy performance of buildings directive, will have a significant impact on reducing UK CO_2 emissions.

The Climate Change Bill, currently going through Parliament, will provide the legal basis for the scheme. A further consultation on detailed regulations will take place in the summer of 2008.

Copies of the report will be placed in the Libraries of the House.

FOREIGN AND COMMONWEALTH OFFICE

Hong Kong

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): The latest report on the implementation of the Sino-British joint declaration on Hong Kong was published today. Copies have been placed in the Library of the House. A copy of the report is also available on the Foreign and Commonwealth Office website at www.fco.gov.uk. The report covers the period from 1 July to 31 December 2007. I commend the report to the House.

HOME DEPARTMENT

Independent Police Complaints Commission

The Secretary of State for the Home Department (Jacqui Smith): I am pleased to announce that Her Majesty has reappointed Nicholas Hardwick as Chairman of the Independent Police Complaints Commission under the provisions of the Police Reform Act 2002.

Nicholas Hardwick has been chairman of the Independent Police Complaints Commission since 1 February 2003 at which time it was operating as a

shadow organisation prior to its replacing the Police Complaints Authority with effect from 1 April 2004; the period of the reappointment is for a further 5 years, the maximum permitted period.

The role of chairman of the Independent Police Complaints Commission is a challenging one and I am sure that Nicholas Hardwick will continue to rise to those challenges to ensure that the Independent Police Complaints Commission is effective and plays a full part in further increasing public confidence in the police complaints system.

JUSTICE

Coroners Bill

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): The Government's plans to reform the coroner system were set out in the draft Coroners Bill, which was published in June 2006. Extensive consultation since then has helped to refine several policy areas. Today I am publishing a briefing note that explains the policy changes, and compares the revised policy with that set out in the draft Bill.

Some of the changes have been announced already, such as the addition of provisions to strengthen the public protection role of coroners, and a return to the current position on the reporting of inquests. Other changes, such as the scope of the appeals system and inspection arrangements for the coroners' service, will be announced for the first time in the briefing note.

The briefing note refers to the removal from the Bill of a provision on restricting the reporting of some inquests. Instead, I have been working with the Press Complaints Commission to produce a short discussion paper on how its press code can be improved to protect bereaved families. The discussion paper also considers how the code, and the role of the Commission, can be better brought to the attention of families. This paper is also being published today.

Copies of the briefing note, "Coroners Bill—Changes made resulting from consultation", and of the discussion paper on press reporting of inquests have been placed in the Libraries of both Houses, the Vote Office and the Printed Paper Office.

Copies of the briefing note are also available on the internet at: www.justice.gov.uk/publications/draft-coroners.htm

Copies of the discussion paper are also available on the internet at: www.justice.gov.uk/publications/coroners-sensitive-reporting.htm

CABINET OFFICE

Public Bodies 2007

The Parliamentary Secretary, Cabinet Office (Mr. Tom Watson): The Cabinet Office has today published "Public Bodies 2007" which lists all non-departmental public bodies (NDPB) sponsored by the UK Government as at 31 March 2007. "Public Bodies 2007" also provides summary information on the size and expenditure of the NDPB sector and statistical information on public appointments.

"Public Bodies 2007" can be downloaded from the civil service website at: http://www.civilservice.gov.uk/about/public/bodies.asp. Copies have also been placed in the Libraries of both Houses.

TRANSPORT

Highways Agency

The Parliamentary Under-Secretary of State for Transport (Mr. Tom Harris): The Highways Agency's Business Plan for 2008-09 has been published today. Copies of the business plan have been placed in the Libraries of both Houses.

WORK AND PENSIONS

Financial Assistance Scheme

The Minister for Pensions Reform (Mr. Mike O'Brien): This statement is an update for the House on the progress made in implementing the changes to the financial assistance scheme (FAS) following the Government announcement on 17 December 2007.

Progress made

The consultation for the first package of draft regulations finished on 20 March. Subject to parliamentary passage, those regulations will increase FAS payments to 90 per cent. of accrued pension, and will also enable us to pay people from their normal retirement age, subject to a lower limit of age 60. We are now considering the responses we have had to the consultation.

We have also consulted on changes we are proposing to annuity factors used in certain circumstances to convert cash sums into rates of notional pension to facilitate the calculation of assistance. This consultation is open until 18 April.

Next steps

We are now beginning the next stage of implementing the changes from the December announcement. Tomorrow we will be publishing a second set of draft regulations for consultation.

The second set of regulations contain provision for early reduced payment for certain qualifying members who are unable to work due to ill health; extending the FAS to members of certain schemes which wound up underfunded with a solvent employer; speeding up initial payments; enabling the board of the Pension Protection Fund to advise in the development of the new FAS arrangements; and removing the option to apply for reinstatement into the state additional pension for those eligible for FAS.

To reflect the particular nature of the content the written consultation period for these draft regulations will be a period of six weeks. Although less than the customary 12 weeks, we consider that a six-week period for written consultation provides an appropriate time for stakeholders to consider and respond fully, and will

allow us to make the changes as quickly as we reasonably can. We have been in regular contact with stakeholders including the pensions action group, and will be sending the consultation document directly to relevant pension scheme trustees.

Good progress continues to be made and we will maintain the effort required to ensure these changes, and therefore the assistance to scheme members, are in place with the minimum of delay.

The consultation documents are available on the Department's website at

www.dwp.gov.uk/publications/dwp/2008/Financial AssistanceScheme(MiscellaneousAmendments)2 Regulations2008.pdf, or alternatively via the FAS website.

In the first two packages of draft regulations we have focused on introducing the key parts of the reforms to FAS announced on 17 December 2007: payment at 90 per cent. from normal retirement age; allowing early reduced payment for those scheme members unable to work due to ill health; and allowing certain pension schemes with solvent employers to qualify for FAS.

There will be a third package of regulations published for consultation later in the year aimed at delivering all the remaining parts of the extension, which will move FAS to a position where financial assistance payments are calculated on a basis which is broadly comparable to that of the PPF.

Employment and Support Allowance Regulations

The Minister for Employment and Welfare Reform (Mr. Stephen Timms): On behalf of the Secretary of State for Work and Pensions, I have signed regulations made under Part 1 of the Welfare Reform Act 2007, which are laid before the House today. This is an important set of regulations which provides the benefit structure and rules for the new employment and support allowance (ESA) which will be introduced from 27 October 2008.

This is a further significant step in the Government's welfare reform strategy and addresses a key area for simplification by providing a single income replacement benefit for people who are not working and have a health condition or disability.

The Employment and Support Allowance Regulations 2008 prescribe the conditions of entitlement and benefit regulations for those who claim on the basis that their capability for work is limited by their physical or mental condition. ESA will be payable in respect of new claims arising from 27 October and will replace incapacity benefit and income support paid on the grounds of incapacity or disability. Incapacity benefit and income support will continue in payment to existing customers.

For ESA, new medical and capability assessments, collectively to be known as the work capability assessment, will focus on what a person can do and identify what steps they might take towards taking up work. We intend to apply the new medical test to existing claimants, as their benefit entitlement comes up for reassessment, starting in 2010. We expect all existing claimants to have been assessed using the new test by 2013.

For the majority of new claimants, ESA will provide, through a series of six mandatory work-focused interviews, the necessary personal adviser and other support to enable them to realise their potential and gain independence by moving into the job market. This will be delivered through the successful pathways to work initiative, which will be extended and available nationally from next month and which has already helped over 64,000 people into work.

ESA will be payable to those with the most severe health conditions or disabilities without them having to undertake any mandatory work-focused interviews—they will be part of the support group. However, no one in the support group will be written off. They will be able to volunteer to receive the same support as the majority of claimants, who will be in the work-related activity group.

The regulations set out the rates of new benefit and ensure that a single person in the support group claiming income-related ESA will be guaranteed an income of at least £102.10 a week—£17.60 a week more than the long-term rate of incapacity benefit. This will be done by automatically passporting them to the enhanced disability premium, as part of our commitment to fairness for the most severely disabled.

Agency Targets and Business Plans

The Secretary of State for Work and Pensions (James Purnell): I am today able to announce the annual performance targets in 2008-09 for the executive agencies of the Department for Work and Pensions. The targets I have agreed are set out below.

Further information on the plans of Jobcentre Plus and The Rent Service in 2008-09 is contained in their individual business plans which have been published today. Copies have been placed in the Library. The Child Support Agency's business plan has also been placed in the Library and will be published shortly. The business plan for the Pension, Disability and Carers Service will be published in due course.

Jobcentre Plus

2008-09

Job Outcome Target (JOT)[1]
To achieve a total points score 5% higher than that achieved in 2007-08

[1]The target will be a 5% increase on actual outturn for 2007-08 which will be calculated in the autumn when the end of year JOT performance figures for 2007-08 are available.

Interventions Delivery Target	
To make sure that specified Jobcentre Plus labour market interventions take place within set timescales in 86% of cases checked.	
Components	*Planning Assumption*
IS Lone parent Review/Trigger Work Focused Interviews	85
JSA Interventions (JSA 13 and 26, 52 and 78 week interventions)	90
IB Interventions (Initial IB WFIs)	85

Average Actual Clearance Times

To process claims within specified Average Actual Clearance Times (AACTs) for Incapacity Benefit (IB), Income Support (IS) and Jobseeker's Allowance (JSA)—15 days, 10 days and 11.5 days respectively.

Fraud and Error

To prevent and detect overpayments and underpayments of benefit consistent with DWP's aspiration for the proportion of expenditure overpaid and underpaid due to fraud and error as set out in the Department's Business Plan for 2008-09.

Customer Service Target

To achieve an 86% customer service level in the delivery of the standards set out in the Customers and Employers Charters.

Employer Engagement Target

At least 92% of employers placing their vacancies with Jobcentre Plus will have a positive outcome.

Pension, Disability and Carers Service

To deliver an annualised value of new successful Pension Credit applications of £767 million and to secure at least 250,000 successful new Pension Credit applications.

Achieve an accuracy rate of 92% on new claims and changes of circumstances to Pension Credit.

Achieve an accuracy rate of 98% on new claims and changes of circumstances to State Pension.

Clear new applications and changes of circumstances to Pension Credit within an average of 15 working days.

Clear at least 95% of new claims to State Pension within 60 days.

The number of Disability Living Allowance / Attendance Allowance cases referred to the Tribunal Service to be no more than 4.5 %.

Achieve 82 % of customers satisfied with the service they receive

Clear new claims for Disability Living Allowance within 38 days, Attendance Allowance within 16 days and Carer's Allowance within 13.5 days.

Reduce the cost of processing disability benefits to £34.35.

Achieve an accuracy rate of 94% on decisions on claims for Disability Living Allowance and Attendance Allowance.

Achieve a financial accuracy rate of 98% for Carer's Allowance.

To have at least 93% of calls answered by an advisor with less than 1% receiving an engaged tone.

To prevent and detect overpayments and underpayments of benefit consistent with DWPs aspiration for the proportion of expenditure overpaid and underpaid due to fraud and error. Prevent and detect fraud and correcting fraud and error in a minimum of 50,600 cases.

Reduce staff sickness absence to less than 8.2 average working days lost.

Child Support Agency

Number of children	Maintenance will be collected or have been arranged by the agency on behalf of 790,000 children.
Total Maintenance Collection (Arrears)	Collect or have arranged £1,080 million in child maintenance between 1 April 2008 and 31 March 2009; of which at least £220 million maintenance will be arrears.
Maintenance Outcomes	By 31 March 2009, in 69% of cases across both the new and old schemes in which a liability to pay maintenance exists, the non-resident parent has either made a payment via the collection service or a Maintenance Direct arrangement is in place.
Uncleared applications to the New Scheme	By 31 March 2009, the volume of uncleared new scheme applications will be no more than 90,000.

The Rent Service

Service Delivery

To determine 94% of Housing Benefit claims with an inspection in 15 working days.

To determine 94% of Housing Benefit claims without an inspection in three working days.

To determine 94% of Pre-Tenancy Housing Benefit claims within four working days.

To determine 94% of Redeterminations within 15 working days.

To determine 94% of Fair Rents within 40 working days.

Quality

95% of all Housing Benefit determinations that are checked as part of our quality assurance processes are verified as being accurate.

95% of all Fair Rent valuations that are checked as part of our quality assurance processes are verified as being accurate.

Customer Satisfaction

To ensure that at least 95% of our local authority customers rate our service as satisfactory or better during the year.

To ensure that at least 95% of our Fair Rent customers, and those Housing Benefit customers that we inspect, rate our service as satisfactory or better during the year.

Valuation Assurance

To review in the first year of LHA 25% of Broad Rental Market Areas.

Value for Money for Service Delivery Teams

Productivity

To increase productivity within the Service Delivery function by 2% by the end of the year.

Cost per case

To reduce the Service Delivery function cost per case by 1.5% in real terms by the end of the year.

Sickness Absence

To keep sickness absence below 8 working days per employee per year.

JUSTICE

Coroners' Recommendations (Government Response)

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): My right hon. Friend the Secretary of State for Children, Schools and Families and I wish to make the following statement to the House. It concerns the Government's response to recommendations made by the coroners following the inquests into the tragic deaths of Gareth Myatt at Rainsbrook secure training centre in April 2004 and Adam Rickwood at Hassockfield secure training centre in August 2004.

In reply to a letter from His Honour Judge Richard Pollard, who presided at the inquest into Gareth's death,

we promised a full response to his recommendations. To that end, we have drawn up an action plan which sets out the measures the Government and the Youth Justice Board have taken, and are taking, in response to Judge Pollard's recommendations and to those of Mr. Andrew Tweddle, who presided at the inquest into Adam's death.

We are placing copies of the action plan in the Library of the House. Copies have also been made available in the Vote Office and the Printed Paper Office. It can also be accessed on the publications section of the Ministry of Justice website at www.justice.gov.uk/publications/publications.htm, or the publications section of the Department for Children, Schools and Families website at http://www.dfes.gov.uk/publications.

The action plan demonstrates the volume and variety of work that is being done to enhance safeguarding and child protection in the under-18 secure estate. One important strand of that work is the independent joint review of the use of restraint, which is due to report to Ministers of State for Justice and for Children, Young People and Families by 20 June.

Written Ministerial Statements

Monday 31 March 2008

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Companies House Targets

The Parliamentary Under-Secretary of State for Business, Enterprise and Regulatory Reform (Mr. Gareth Thomas): I have set Companies House the following targets for the year 2008-09:

To achieve a score of more than 86 per cent. in each quarterly Companies House customer satisfaction survey.

To achieve a 26 per cent. increase in the volume of documents submitted electronically by the end of 2008-09.

To achieve, on average, a target that a search customer can access their requested electronic document on our systems within 60 seconds.

To ensure that Companies House Direct, WebCHeck and WebFiling are available for 99 per cent. of the time between the hours of 7 am and midnight, Monday to Saturday for April to December 2008 and between the hours of 7 am and midnight Monday to Sunday for January to March 2009.

To achieve, on average, a monthly compliance rate for accounts submitted of 95.3 per cent.

To resolve 97 per cent. of all complaints within five days.

The chief executive to reply within 10 days to all letters from members of parliament delegated to him for reply.

To ensure that, on average, electronic transactions received are available to view on the public record within 72 hours.

To ensure that, on average, paper transactions received are available to view on the public record within eight days.

To ensure that 99.5 per cent. of images placed on the Companies House image system are legible and complete.

To achieve a target that 90 per cent. of staff rate Companies House as a good place to work.

To decrease the weight of non-recyclable office waste by 15 per cent.

To reduce CO_2 emissions for the use of gas and electricity by 1.5 per cent. per person.

To achieve by 2010-11 a reduction, in real terms, of 15 per cent. compared to 2007-08 in the operational monetary cost of the registry per company on the register.

To achieve, taking one year with another, a 3.5 per cent. average rate of return based on the operating surplus expressed as a percentage of average net assets.

To pay all bills within 30 days, or on other agreed credit terms, on receipt of goods or services or a valid invoice, whichever is later.

Insolvency Service Targets (2008-09)

The Minister for Employment Relations and Postal Affairs (Mr. Pat McFadden): I have today agreed to the publishing of the Insolvency Service's Corporate Plan for the period 2008-11.

The Insolvency Service plans to deal with some 74,200 new insolvencies in the year to 31 March 2009 principally as a result of an increase in personal bankruptcies.

Its planning assumption for the level of redundancy payments and other insolvency-related claims is 80,000 in the year.

Action will continue to be taken against bankrupts and company directors in respect of financial misconduct or dishonesty and I have asked the Service to increase its enforcement output by 7 per cent. over that achieved in 2007-08.

Companies Investigation Branch will continue to investigate the affairs of companies in the public interest and I have set targets in relation to the timeliness of dealing with complaints made and the handling of investigations into live companies that follow from those complaints.

The Service's "Enabling the Future" strategy, a major programme of IT-led investment, will deliver savings over the period of the forthcoming comprehensive spending review and I have therefore set the Service a target to have reduced its case administration fees by 15 per cent. by 31 March 2011.

The Service's Corporate Plan 2008-11 will be available at: www.insolvency.gov.uk

Published Targets	*Target 2008-09*	*Target 2007-08*
Lower the fees for insolvency case administration in real terms from the 2007-08 level by 2010-11	15% (3 Year Target)	15%
User Satisfaction Index	92%	New Target
Level of public confidence in The Service's enforcement regime	66%	65%
To reduce the average time from insolvency order to the instigation of disqualification proceedings in appropriate cases	20 Months	22 Months
Increase the quantity of enforcement outputs in 2008-09 from 2007-08 baseline by	7%	7%
Complete consideration of vetting complaints about live companies within two months	90%	90%
Complete internal investigations into live companies within six months	90%	90%
Process Redundancy Payment claims for payment within:		
3 weeks	78%	78%
6 weeks	92%	92%

In addition to these targets the Service is required to meet centrally promulgated targets relating to replying to correspondence from hon. Members, making payments to suppliers. The Service will also look to maintain Charter Mark and Investors in People accreditation following reassessments during 2008-09.

Other Targets	*Target 2008-09*	*Target 2007-08*
Reply to correspondence from Members of Parliament within 10 days	100%	100%
Process payments to suppliers in 30 days	100%	100%

TREASURY

Northern Rock

The Chancellor of the Exchequer (Mr. Alistair Darling): On 18 March, *Official Report*, columns 53-54WS, I informed the House that the Government had formally notified to the European Commission proposals to continue to provide state aid to Northern Rock to support a restructuring of the company during the period of temporary public ownership. In addition, the board of Northern Rock plc set out in general its plans for the future direction of the business during the period of temporary public ownership. The Government's objectives in relation to Northern Rock remain the protection of taxpayers and consumers, and the maintenance of financial stability.

The board of Northern Rock plc has today published its annual report and accounts for 2007. These show that the Bank of England loan facilities to Northern Rock plc as at 31 December 2007 stood at £26.9 billion. Since then some £2.5 billion has been repaid and the gross loan stands at around £24 billion. These accounts also demonstrate that Northern Rock remains solvent and meets its regulatory requirements.

The board of Northern Rock has also published a more detailed business plan, which I have approved, based around four objectives:

Contracting to a smaller, sustainable business through a reduction of the asset base from £107 billion in 2007 to £49 billion in 2011, while maintaining on average around £5 billion a year of new mortgage origination over this period and continuing to treat customers fairly;

Repaying of the Bank of England loan by the end of 2010 and enabling the Government to release their guarantee arrangements gradually by 2011, subject to the Financial Services Authority being satisfied of the capital position of Northern Rock at that time. In the meantime, the existing Government guarantee arrangements remain in place. Depositors' money continues to be safe and secure. Retail deposits are projected to increase to £20 billion by 2011 providing closer to half the company's funding needs—but in total will remain below 2007 levels;

Restructuring the organisation and its operations so that these are aligned to the business objectives;

Strengthening risk management in key business areas.

This business plan meets the Government's objectives. As set out in the Budget, the Government will, during 2008-09, replace the Bank of England's loan to Northern Rock with direct Treasury funding. The Bank of England and the Treasury are agreeing with Northern Rock the terms of this financing. This will include a back-up liquidity facility, to meet the Financial Services Authority's requirements, that may remain in place beyond 2010 until sufficient alternative liquidity arrangements are in place. Northern Rock will maintain, but contract over time, its Granite securitisation vehicle.

Furthermore Northern Rock has published as part of its business plan a competitive framework, which is subject to European Commission approval, setting out its commitment not to take unfair advantage of Government support during the state aid period. It will commit to a series of steps, in particular Northern Rock will restrict itself from positions of market leadership on any product category for 2008.

I have also agreed with Northern Rock a shareholder agreement that sets out the framework within which HM Treasury will operate its shareholder relationship with Northern Rock. This sets out our intention to run Northern Rock on an arm's length, commercial basis, while approving strategy and holding the board to account for performance against the business plan.

I have placed copies of the accounts, business plan and shareholder framework agreement in the Libraries of both Houses.

CHILDREN, SCHOOLS AND FAMILIES

A Strategy for 14-19 Qualifications

The Secretary of State for Children, Schools and Families (Ed Balls): I am today publishing a consultation document, "Promoting Achievement, Valuing Success: A Strategy for 14-19 Qualifications". Building on the aim that we set out in the Children's Plan for a world-class education system for all 14-19 year olds, this strategy will help to ensure that we can unlock the talent of every young person—enabling all teenagers to pursue qualifications that are understood and valued and allow them to achieve and succeed. This strategy builds on the advice we have received from a group of independent experts from all parts of the education sector and employers.

The current qualification system is overly complex—it is often difficult for young people and their advisers to understand which will best meet their needs and support their aspirations. Not every qualification option has clear progression routes to further study or to skilled employment. Not all the qualifications currently on offer enable young people to develop all the skills and knowledge they need, and that employers and universities want. We want more comprehensive and coherent qualifications for young people, supporting better progression through a set of clear, well-valued qualification choices.

Building on the vision set out in the 2005 White Paper, "14-19 Education and Skills", there will be four key national qualification routes: GCSEs and A levels; Diplomas; Apprenticeships; and the Foundation Learning Tier. These will offer a range of choices from general education to job-specific learning, and will support young people of all abilities throughout the country. This clear new offer will build on the best of existing provision, but will also secure a coherent system of 14-19 education that is truly fit for the future, with the flexibility to meet the needs and aspirations of each and every young person. We have said that we will conduct a first full review in 2013 to consider how diplomas, GCSEs and A levels and any other general qualifications publicly funded for young people at that point, are combining to meet the needs of young people, employers and universities.

These proposals are an essential part of our plans to raise the education and training leaving age to 18, so that all young people have the right skills to meet the demands of a rapidly changing world and can continue learning throughout life.

Some key elements of the strategy are as follows:

We will simplify the system, with a new process to bring in the best of existing qualifications, while building towards the more streamlined offer;

We will establish a step-by-step process through which we can be assured that in simplifying the qualifications available, we are continuing to meet the full range of learner needs. This will ensure that we can bring in the best of what currently exists, while managing a process of transition to the future simplified system;

This will include the development of a set of criteria against which we will assess whether qualifications will be approved for use for young people in the future;

The appointment of an expert body of external advisers—the Joint Advisory Committee on Qualifications Approval—to advise on how these principles should be applied;

As we are developing new qualification options, we will make sure they are made as comprehensive as possible, to better meet the needs of all young people through:

The extended diploma, which will recognise a wider range of achievement within the diploma framework;

Plans to make the Extended Project an option for all young people who study A Levels;

An extension of the diploma entitlement from the first 14 to all 17 diplomas post-16 from 2013.

We are confident that these proposals will go a long way towards our aim of attracting more young people to learning, transforming standards in the basics and in the wider skills for employability, and enabling all young people to be taking qualifications that have a real standing with employers and the public at large, establishing a strong progression route to further and higher education.

The formal consultation process will allow us to take the views of all those interested in these proposals, and to ensure that we are moving in a direction which will make our qualifications system more robust and responsive to the needs of all.

I am placing in the Library copies of the consultation document. The consultation period runs from Monday 31 March to Monday 23 June.

"Staying Safe: Action Plan"

The Parliamentary Under-Secretary of State for Children, Schools and Families (Kevin Brennan): I would like to update the House on the work we have undertaken and the further action we plan to take to safeguard children and young people from forced marriage.

Keeping children and young people safe is a top priority for this Government and my Department. The Government are committed to improving the safety and welfare of all children and young people, whatever their background or circumstances. We are determined to do all we can to make the existing systems and guidance as effective as possible and to strengthen them where needed. We have introduced new legislation, new guidance and new structures to make children safer. And we are committed to doing even more as set out most recently in the cross-Government "Staying Safe: Action Plan" published last month.

I gave oral evidence to the Home Affairs Committee on 4 March in relation to the Committee's Inquiry into Domestic Violence. My letter to the Committee of 11 March set out the range of measures that this Department has already put in place and the further action we are planning to take in order to make children safer and to tackle all forms of abuse, including domestic violence and forced marriage. It also addressed the specific questions asked by the Select Committee on action to safeguard children and young people from forced marriage and how this relates to the local authority duty to make arrangements to establish the identities of children not receiving a suitable education. This was informed by data gathered from 14 local authority areas, via Government Offices. The Committee has placed my letter in full in the public domain.

This Department recognises the importance of doing more to raise awareness about these issues among children and young people and signpost them clearly to sources of advice and support. Working with the Forced Marriage Unit, we will develop materials on the issue of forced marriage specifically for use by schools and tailored to young people and we will actively encourage schools to use them. We will draw on our recent data gathering exercise which indicates that a range of different approaches can be effective.

Within the next few weeks, Ministers in my Department intend to write to all schools and local authorities reminding them of their responsibilities and of the existing guidance—both general safeguarding children guidance, which includes the issue of forced marriage, and the specific forced marriage guidance for education professionals, issued jointly with the Forced Marriage Unit. We will also set out our plans to consult on revised forced marriage guidance which will then be placed on a statutory footing this autumn.

In addition, I have written to Her Majesty's Chief Inspector to ask Ofsted to provide their view of how well the duty on children not receiving a suitable education is being implemented. Following advice from Ofsted, the Department will work with local authorities to share best practice and lessons that can be learnt about putting in place more effective mechanisms.

My Department will continue to assist the Home Affairs Committee with its important inquiry. I look forward to seeing the Committee's report and recommendations in due course.

COMMUNITIES AND LOCAL GOVERNMENT

Regeneration

The Minister for Local Government (John Healey): My hon. Friend the Minister of State for Employment Relations and Postal Affairs, the Member for Wolverhampton, South-East (Mr. McFadden), and I are today publishing a consultation paper: "Prosperous Places: Taking Forward the Review of Sub-national Economic Development and Regeneration"

We are consulting on three main issues—the implementation of new regional strategies; the creation of a duty on local authorities to carry out an economic assessment of their area; and options for a legal framework to encourage local authorities to collaborate on economic development.

This develops the plans set out in the review of sub-national economic development and regeneration that I announced to the House on 17 July 2007.

The consultation papers are available in the Libraries of both Houses and can also be accessed online at: http://www.bmgresearch.co.uk/SNR-Consultation.

The consultation will run until 17 June 2008. My hon. Friend the Minister of State for Employment Relations and Postal Affairs and I, and regional Ministers, will hold wide-ranging discussions over the next few months as part of this consultation.

DEFENCE

Chemical Weapons Convention

The Minister for the Armed Forces (Mr. Bob Ainsworth): The UK's chemical protection programme is designed to protect against the use of chemical weapons. Such a programme is permitted by the Chemical Weapons Convention, with which the United Kingdom is fully compliant. Under the terms of the convention, we are required to provide information annually to the Organisation for the Prohibition of Chemical Weapons (OPCW). In accordance with the Government's commitment to openness, I am placing a copy of the summary that has been provided to the organisation outlining the UK's chemical protection programme in 2007 in the Library of the House.

Future Strategic Tanker Aircraft

The Minister for the Armed Forces (Mr. Bob Ainsworth): I am pleased to announce that the Ministry of Defence has signed a 27-year Private Finance Initiative contract with AirTanker Ltd, to provide a replacement air-to-air refuelling and strategic air transport capability for our armed forces. The Future Strategic Tanker Aircraft (FSTA) service will replace our VC10 and TriStar aircraft from 2011.

FSTA is an innovative PFI programme that will provide modern air-to-air refuelling and passenger air transport capability. Since June 2007, the Department has been working with AirTanker to raise the necessary private sector funds. This work has now been completed and I congratulate all those involved in securing the deal.

The contract will provide a comprehensive and integrated service solution, based on new Airbus A330 aircraft modified to provide air-to-air refuelling capability. It will include provision of purpose designed training and maintenance facilities at RAF Brize Norton, together with through life training and maintenance support services.

Air-to-air refuelling and strategic passenger air transport are key capabilities in this era of expeditionary operations. This announcement is excellent news for our armed forces, for the taxpayer, for AirTanker, and for UK industry.

JUSTICE

Land Registry Targets (2008-09)

The Minister of State, Ministry of Justice (Mr. Michael Wills): The following list sets out the key performance indicators and targets that have been set for Her Majesty's Land Registry for 2008-09.

CUSTOMER SERVICE

Speed:

Percentage of Official Copy and Search applications processed within two working days: 98%

Percentage of all registrations processed within 18 working days: 80%

Accuracy:

Percentage of registrations processed free of any error: 98.5%

Overall Satisfaction:

Percentage of customers who rate the overall service provided by Land Registry as excellent, very good or good: Better than 95%

FINANCIAL

Percentage return on average capital employed: 3.5%

EFFICIENCY[1]

Cost per unit in cash terms[1] (*real terms*)[2] : £30.32 (*£20.07*)

STRATEGIC DEVELOPMENT AREA TARGETS

Customer Service

Establish a customer contact centre to support portal and e-conveyancing users.

Land Registration

Through voluntary registration, add a further 325,000 hectares of land to the total areas of registered freehold land in England and Wales.

Electronic Service Delivery

Introduce a prototype e-charge registration service (Land Registry's first e-deed—electronic charges in standard form (eCSF)).

Other Business Development

Achieve a contribution earned from commercial services sales, after taking account of direct costs and product development costs, of 8 per cent. of income.

Copies of the Land Registry's business plan will be placed in the Libraries of both Houses. Copies will also be available on the internet at: www.landregistry.gov.uk

[1] Based on the GDP deflator issued by HM Treasury on 13 March 2008 (base year 1992-93).

[2] The real term unit cost in the base year of 1992-93 was £30.65.

CABINET OFFICE

Power of Information Review (Government's Interim Progress Report)

The Parliamentary Secretary, Cabinet Office (Mr. Tom Watson): On the 25 June 2007, the Government published their response to the Power of Information Review (Cm7157). The review was an independent study by Tom Steinberg, director of mySociety and Ed Mayo, chief executive of the National Consumer Council to:

"explore new developments in the use and communication of citizen and state-generated public information in the UK, and to present an analysis and recommendations to the Cabinet Office Minister as part of the policy review"

The Government welcomed the findings of the review, agreeing to the majority of the reviewers' recommendations and outlined how they would be taken forward.

I am pleased to announce the publication of the Government's interim report into these recommendations.

This report takes stock of progress made by Government in the past six months and highlights the concrete actions departments are taking to implement the review.

Copies of this report have been placed in the Library.

NORTHERN IRELAND

Parliamentary Constituencies (Northern Ireland) Order 2008

The Minister of State, Northern Ireland Office (Paul Goggins): The Parliamentary Constituencies Act 1986, as amended by the Boundary Commissions Act 1992, requires that the Parliamentary Boundary Commission for Northern Ireland undertake periodical reviews of constituencies in Northern Ireland. The Commission are required to submit a report to the Secretary of State for Northern Ireland not less than eight or more than 12 years from their last report. The report was submitted to the Secretary of State on 14 September 2007. The previous report was submitted in October 1995.

I am pleased to announce that the Fifth Periodic Report on Parliamentary Constituencies has been laid before Parliament today with a copy of the draft Parliamentary Constituencies (Northern Ireland) Order 2008 to give effect to the recommendations of the report without modification. The recommendations of the Commission are that 18 constituencies should be retained for Northern Ireland with revisions made to the boundaries of the 12 Constituencies of Belfast East, Belfast North, Belfast South, Belfast West, East Antrim, East Londonderry, Foyle, Lagan Valley, North Antrim, South Antrim, South Down and Strangford.

Copies are available in the Library.

WORK AND PENSIONS

Discretionary Social Fund (Allocations 2008-09)

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): I am pleased to announce that the gross discretionary social fund budget for 2008-09 will be £682 million. This includes a £40 million injection of net funding, being the third of three which in total comprise a substantial £210 million boost to support changes to the loans scheme.

With the net funding available, I have been able to allocate a gross national loans budget of £540 million and a national community care grants budget of £141 million from 1 April 2008. £1 million will be retained centrally as a contingency reserve. For example it is available to provide help to Jobcentre Plus budgets facing unexpected and unplanned expenditure.

Details of individual budget allocations will be placed in the Library.

Written Ministerial Statements

Tuesday 1 April 2008

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Defence Exports

The Secretary of State for Business, Enterprise and Regulatory Reform (Mr. John Hutton): The Prime Minister's statement of 25 July 2007, *Official Report*, column 83WS announced a machinery of Government transfer moving responsibility for defence trade promotion from the Defence Export Services Organisation (DESO) to UK Trade and Investment (UKTI). As outlined in my ministerial statement of 11 December 2007, *Official Report*, column 16WS, this transfer takes place today, 1 April 2008, with the launch of the new UKTI Defence and Security Organisation (UKTI DSO).

This statement is made in close consultation with my colleagues the Secretary of State for Defence and the Secretary of State for Foreign and Commonwealth Affairs. With this transfer, ministerial responsibility for trade and investment in the defence and security sectors now rests with the Minister of State for Trade and Investment, a joint BERR and FCO Minister. Close links with MOD Ministers will be maintained.

The Government remain fully committed to supporting the defence sector and its continued export success. Defence equipment manufacture is highly important to our economy and the creation of the new UKTI Defence and Security Organisation (UKTI DSO) will allow us to develop our support for the defence sector building on the good work of DESO in the past and taking advantage of UKTI's experience in helping other sectors.

In line with normal machinery of Government transfers, the relevant resources transfer at current levels from MOD to UKTI (and its parent departments BERR and FCO). Some 240 posts and the associated resources transfer with effect from 1 April, 200 in the UK and 40 overseas. To ensure UKTI DSO has continued defence expertise, around half of the posts will be filled by military and civilian staff on loan from the MOD. The remaining posts will be filled by staff transferring permanently.

A new security directorate is being established within UKTI Defence and Security Organisation, to enhance the support provided to business in the military and civil security sector. This will bring together support previously provided separately by DESO and UKTI into a coherent and co-ordinated national effort to help UK companies in this increasingly important area of the economy to win business from overseas Government and business customers.

This transfer will also enable us to enhance support for defence exports in a way that emphasises our commitment to the highest business standards. UKTI Defence and Security Organisation will seek to assist the defence industry to achieve a more consistent performance across industry as a whole, demonstrably supporting good governance and responding to the compelling business case for transparency and ethical behaviour.

The UKTI Defence and Security Organisation will continue to have strong links to the MOD. Arrangements have been formally set out in a Service Level Agreement (SLA) between UKTI and MOD (published today, 01.04.2008, and a copy of which will be placed in the libraries of both Houses). The terms of the SLA include the provision support for overseas campaigns, ongoing engagement of Defence Ministers, and the loan from the MOD to UKTI of both military and civilian personnel.

In line with the Prime Minister's statement and my previous statement, no changes are envisaged to existing and planned agreements between the MOD and other Governments. The MOD export licensing function, previously part of DESO, is being retained within MOD.

CHILDREN, SCHOOLS AND FAMILIES

Schools Revenue Balances (2006-07)

The Minister for Schools and Learners (Jim Knight): Following my statement of 30 October 2007 on school finances, the Department for Children, Schools and Families has today published information on the end of financial year revenue balances of all local authority maintained nursery, primary, secondary and special schools for the year 2006-07.

This information is presented alongside information on schools' revenue balances for the financial years 1999-2000 to 2005-06, published on 15 March 2007. The information is taken from local authorities' published section 52 outturn statements for the years in question but presents this in summary form. Copies of the information have been placed in the Libraries and will be accessible from the TeacherNet website, with supporting information, at: www.teachernet.gov.uk/schoolbalances/.

COMMUNITIES AND LOCAL GOVERNMENT

Gypsies and Travellers

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Iain Wright): I am today publishing the Government's response to "The Road Ahead: The Final Report of the Independent Task Group on Site Provision and Enforcement for Gypsies and Travellers".

In 2006, the Government appointed Sir Brian Briscoe to chair a task group to examine the barriers local authorities face in taking effective enforcement action against unauthorised encampments and developments by Gypsies and Travellers. We were pleased to accept the task group's request that their terms of reference be amended to also include an examination of the barriers to effective site provision. The task group published their final report in December 2007 and

made 36 recommendations which covered the roles of central and local government as well as a range of other stakeholders.

The Government's approach balances firm but fair enforcement against those who camp on land without permission or who breach development control, with proactive measures to increase site provision. We are pleased that the task group agreed that this is the right approach.

In our response, the Government are today announcing our intention to provide an annual policy update to Parliament on Gypsy and Traveller issues, as well as to co-ordinate an annual meeting between Communities and Local Government and the organisations represented on the task group, or their successors.

Copies of the publication are available in the Libraries of both Houses.

DEFENCE

Executive Agencies

The Minister for the Armed Forces (Mr. Bob Ainsworth): With effect from 1 April 2008 the Defence Analytical Services Agency (DASA) and the Defence Medical Education and Training Agency (DMETA) will cease to have the status of executive agencies of the Ministry of Defence.

DASA was established as an executive agency in 1993 to provide professional analytical, economic and statistical services and advice to the Department, and defence-related statistics to Parliament, other Government Departments and the public. The case for a change in status arises primarily from its developing role in supporting the exploitation of the substantial information resource which new departmental systems will provide. For the Department to fully exploit the additional value of these new systems it will have to adopt a more co-ordinated, cross-MOD approach than previously. DASA's ability to play its full role in these future developments will require greater flexibility of role and responsibility than is compatible with agency status.

DMETA was established in 2003, as part of the Defence Medical Services. Its principal objective has been to make available secondary care personnel for deployments who are medically educated and trained, to meet military operational requirements. The agency has also taken on additional roles, beyond its original mission, in the delivery of secondary and tertiary healthcare and operational capability at the Royal Centre for Defence Medicine and the Defence Medical Rehabilitation Centre. As part of planned improvements to the structure of the defence medical services, we have decided to subsume DMETA's roles within a new joint medical command (JMC), which will be formed on 1 April. The JMC's wider role will in due course make it responsible for the delivery of all joint medical services, including joint medical and dental outputs, force generation, healthcare acquisition, training and education. We are planning for the JMC HQ, which will be established initially at Fort Blockhouse, Gosport, the current home of the DMETA HQ, to be re-located to Whittington Barracks, Lichfield as part of the Midland Medical Accommodation project.

FOREIGN AND COMMONWEALTH OFFICE

FCO Services

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): FCO Services today becomes a trading fund of the Foreign and Commonwealth Office. Mr Christopher Moxey was appointed as chief executive when FCO Services became an executive agency in April 2006 and will continue in that role for the FCO Services trading fund. The necessary statutory instrument comes into effect today (SI 2008/590).

FCO Services is our in-house support organisation, delivering key services to enable our global network to function efficiently. It protects our staff, buildings and communications from the wide variety of threats they continually face in many parts of the world and has particular expertise in secure logistics, secure IT and in the security of buildings. It is already a substantial business employing nearly 1000 staff and with an estimated turnover of around £125 million in 2007-08.

As an executive agency FCO Services has made real progress in customer satisfaction, internal efficiency and financial performance. I am now moving it to trading fund status where the additional commercial disciplines and freedoms will enable it to enhance service delivery and innovation and improve overall value for money. FCO Services will remain part of the FCO as a trusted partner under our overall strategic direction. The FCO will be assured of a continuing reliable supply of vital support services.

At the same time we will ensure that all the services FCO Services provides will be regularly tested and benchmarked for value for money; FCO Services will be encouraged to increase business with non-FCO customers, enabling it to finance its own investment plans and deliver economies of scale to the FCO. The more arms-length management arrangement will free up FCO resources to focus on the Government's strategic priorities abroad. This move is in the best interests of the FCO, the Government and the taxpayer.

In his written ministerial statement of 18 March, my noble Friend Lord Malloch-Brown announced a set of key targets for FCO Services in 2008-09 to encourage the creation of a stable business and improvements in performance. FCO Services will report to Parliament on its success against these targets in its 2008-09 annual report.

Copies of the new framework document covering FCO Services' role and responsibilities will be placed in the Library of the House. A copy will also be available on the Foreign and Commonwealth Office website at: www.fco.gov.uk.

HEALTH

NHS Foundation Trusts

The Minister of State, Department of Health (Mr. Ben Bradshaw): The chairman of Monitor (the statutory name of which is the independent regulator of NHS foundation trusts) announced this week that, in accordance

with section 35 of the National Health Service Act 2006, Monitor has decided to authorise the following NHS acute and mental health trusts as NHS foundation trust from 1 April:

The Mid Cheshire Hospitals NHS Trust;

Medway NHS Trust; and

Oxfordshire and Buckinghamshire Mental Health Partnership NHS Trust.

Monitor's announcement brings the total number of NHS foundation trusts to 92. A copy of Monitor's press notice has been placed in the Library.

The Government remain committed to offering all NHS acute and mental health trusts the opportunity to apply for foundation status as soon as practicable. Monitor is now authorising trusts on a monthly basis, and further waves of NHS foundation trusts are set to follow.

Vascular Disease

The Secretary of State for Health (Alan Johnson): The Prime Minister set out his vision for the NHS earlier this year: a more personal service supporting people to stay well and maintain good health. It placed individuals' centre-stage, engaged and taking greater control over their own health. He promised to set out plans for a "predict and prevent" approach to identify vulnerability to vascular disease—heart disease, stroke, diabetes and kidney disease.

I am pleased to announce the development of a systematic programme of vascular checks for everyone between the ages of 40 and 74. "Putting prevention first" explains this in more detail and has been placed in the Library. Copies are available to hon. Members from the Vote Office.

HOME DEPARTMENT

Independent Safeguarding Authority

The Parliamentary Under-Secretary of State for the Home Department (Meg Hillier): Further to the written statement made by my right hon. Friend the Secretary of State for Children, Schools and families on 17 March 2008, *Official Report*, column 36WS, I am pleased to announce plans for the work of the new Independent Safeguarding Authority (ISA), together with the fee to be charged for applications.

The Independent Safeguarding Authority was established in January this year under powers in the Safeguarding Vulnerable Groups Act 2006. It will meet the aims of one of the key recommendations made by the Bichard inquiry, which pointed to the need for a scheme to register those seeking work with children or other vulnerable groups.

The ISA's role will be to consider all relevant information relating to the risk of harm posed by persons seeking to work with children or vulnerable adults, in either a paid or voluntary capacity, and to bar those considered unsuitable for such work. The transition to the new scheme is now under way. From 31 March this year, the ISA began to advise the Secretaries of State for Children, Schools and Families and for Health in connection with new cases arising under the existing barring arrangements, in accordance with the provisions of paragraph 1 of schedule 8 to the Safeguarding Vulnerable Groups Act. From 7 April this year, cases will be referred to the ISA under the Safeguarding Vulnerable Groups Act 2006 (Transitional Provisions) Order 2008., under which ISA must include, or consider including, in the new barred lists those individuals who are barred under the current schemes.

From October 2009 the new ISA scheme will "go-live". From that point, the scheme will consider new applications in relation to persons seeking work with children or vulnerable adults. The fee charged for ISA scheme applications has been set at £28. This is based on cost recovery of the operational costs for the scheme over its first five years of operation, estimated at £246 million. The scheme will cost £84 million to set up.

Taken together with the fee required for a Criminal Records Bureau disclosure check, the total fee for an initial application will be £64. Under the planned arrangements, the ISA element of the fee will be payable only on first joining the scheme. Once registered, employers will be able to verify an applicant's registered status in the scheme by means of a free on-line check. No fee will be payable by those in unpaid voluntary work. The need for subsequent CRB checks will remain a matter for employers, except in those sectors where it is a legal requirement.

The establishment of the ISA plays an important part in the Government's agenda to meet the Bichard recommendations and ensure the most robust procedures are in place to safeguard children and other vulnerable groups.

JUSTICE

Probation Trusts (Implementation)

The Minister of State, Ministry of Justice (Mr. David Hanson): I wish to inform the House that from 1 April 2008, there will be established six new probation trusts operating in England and Wales: Dyfed Powys; Humberside; Leicestershire and Rutland; Merseyside; South Wales; and West Mercia. The Government will be continuing to work closely with and to support those first six probation trusts in the learning year of 2008-09 as they develop and evolve.

There remain 36 local probation boards that continue to operate in all other areas of England and Wales. The Government are currently assessing the performance of all the local probation boards while considering the implications of wider issues around efficiency and effectiveness. We will continue to learn from, and with, our first probation trusts during this time.

In accordance with sections 7, 8 and 10 of the Offender Management Act, my right hon. Friend the Secretary of State for Justice has published national standards for the management of offenders; his annual plan for discharging his functions in relation to the provision of probation services; and guidelines for the

qualification of officers supervising offenders. Copies have been made available in the Libraries of both Houses and are also available on the NOMS website at www.noms.justice.gov.uk/about-us/OffenderManagementAct/.

Child Care Proceedings System

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): Following a statement I made to the House on 26 July 2007, *Official Report*, column 103WS, and in agreement with my hon. Friend the Parliamentary Under-Secretary of State at the Department for Children, Schools and Families, the Member for Cardiff, West (Kevin Brennan) and the Deputy Minister for Health and Social Services in the Welsh Assembly Government (Gwenda Thomas), I am delighted to inform the House that two key reforms to the child care proceedings system have today come into force in England and Wales.

The Public Law Outline has been introduced to replace the existing Protocol for Judicial Case Management in Public Law Children Act Cases. This is underpinned by revised statutory guidance to local authorities in England and Wales issued under section 7 of the Local Authority Social Services Act 1970 to support them in preparing care applications to the court.

Together these key reforms, which arose from the recommendations of the "Review of the Child Care Proceedings System in England and Wales in May 2006", seek to ensure that vulnerable children involved in care cases have safety and stability in their lives and that decisions as to their future are made fairly and as speedily as possible. It is vital that all agencies work together collaboratively to establish safe, permanent and timely child focused solutions and reduce the stress caused by unnecessary delay in care proceedings.

In order to further inter-agency unity, a partnership of Government Departments and agencies commissioned Children Law UK to deliver training courses to support the introduction of the Public Law Outline and revised statutory guidance. Some 25 interdisciplinary seminars took place in England and Wales between January and March 2008, attended by nearly 2,000 people. Delegates included social workers, local authority legal advisers, legal practitioners, family court staff, and Cafcass and Cafcass Cymru staff. The seminars were delivered by family legal and social work experts who provided the attendees with the skills and knowledge necessary to cascade the training to their peers.

The revised statutory guidance places greater emphasis on the work undertaken by local authorities before care proceedings can commence. In particular, they are required to notify parents of their intention to make an application to the court and to set out the basis of their concerns and an outline of their future plans for the child. On receipt of this, parents have immediate access to non-means tested legal help from a solicitor, funded by the Legal Services Commission, with the aim of avoiding proceedings or narrowing the issues to be determined by the court.

Where cases do proceed to court, the Public Law Outline introduces a more streamlined court process (reducing the current six stages to four). It promotes better quality applications through following the revised local authority guidance; requires timetables for the court process to be set which are focused on the needs of the children involved; and, introduces enhanced case management procedures which include earlier identification of the key issues leading to better targeted and effective use of experts evidence in those cases where it is required.

The final versions of the Public Law Outline and local authority guidance have been prepared with input from a wide range of stakeholders. A full public consultation on the revised statutory guidance was undertaken during 2007, while the Public Law Outline was tested in 10 care centres and their linked family proceedings courts selected by Sir Mark Potter, president of the family division, in consultation with relevant designated family judges. The experiences of the 10 initiative areas have played a crucial role in helping to inform both final versions of these key reforms, and the nationwide implementation plans.

Copies of the Public Law Outline and the revised statutory guidance have been placed in the Libraries of both Houses.

Parole Board

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): The purpose of this statement is to advise the House as to changes I am making in respect of arrangements my Department makes for sponsoring the Parole Board, an executive non-departmental public body (ENDPB).

In its judgment handed down on 1 February in the case of "Brooke" the Court of Appeal ruled that, as a consequence of its current sponsorship arrangements, the Parole Board was not sufficiently independent of the executive to meet the requirements of article 5(4) of the ECHR. In reaching this conclusion the Court acknowledged that the Parole Board had evolved from an advisory body to a judicial body.

The Court of Appeal found that the Parole Board should not be sponsored by the National Offender Management Service as is currently the case and that the Secretary of State should ensure that the sponsorship responsibility for the board was placed in another part of the Ministry of Justice where its independence is not open to question. However, the Court of Appeal also ruled that the status of the board as an ENDPB is not incompatible with independence.

The Parole Board has an important role in determining whether to release some of potentially the most dangerous offenders within the criminal justice system. I fully recognise that its decisions in individual cases must both be and be seen to be free of interference by its sponsoring Department.

I have decided not to seek leave to appeal against the court's findings. Instead I have given careful consideration to how the Parole Board's sponsorship arrangements should be altered to meet the concerns of the court.

From 1 April sponsorship of the Parole Board will be transferred from the National Offender Management Service to the Access to Justice Group in the Ministry of Justice. Although responsibility for sponsorship of the Parole Board will remain within the Ministry, there

will be a clear separation between responsibility for the board's sponsorship and responsibility for the management of offenders.

These new sponsorship arrangements underline my commitment to enhancing and protecting the independence of the Parole Board and I commend them to the House.

Prison Policy

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): Further to my statement on prison policy on 31 January 2008, *Official Report*, column 37WS, I am pleased to announce that the evaluation of the Dedicated Drug Court pilots has now been completed. Copies of this, the "Dedicated Drug Court Pilots: A Process Report" have been placed in the Libraries of both Houses, the Vote Office and the Printed Paper Office. The report is also available online at: www.justice.gov.uk/publications/research010408.htm

The Dedicated Drug Court model establishes a new framework in the magistrates courts in dealing with drug misusing offenders committing low level crime to fund their addiction, aiming to reduce their drug misuse and therefore their associated offending behaviour. The model makes use of specialist panels of magistrates or district judges to provide continuity when sentencing and reviewing offenders' progress on drug treatment orders to completion or any breach, seeking to improve offenders' motivation to stay in treatment and so reduce drug use and related offending

Pilots were launched at Leeds and West London Magistrates Courts in December 2005. An independent evaluation of these pilots has now been completed. The process report published today provides positive indications of the impact of continuity of judiciary on several key outcomes, including offenders being less likely to miss a court hearing, less likely to be re-convicted and more likely to complete their community order.

The Dedicated Drug Court model will now be extended to up to four more sites. This will allow the viability of the model to be tested in an increased number of sites and the conclusions of the current evaluation to be strengthened with evidence from an increased number of cases. The new pilot sites will be selected through consultation with the judiciary, court staff and other key partners and the pilots will commence in October 2008.

Her Majesty's Courts Service

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): The Lord Chief Justice and I are today issuing the following joint statement:

In January this year we announced the main principles of a partnership between us, as Lord Chancellor and Lord Chief Justice, in relation to the governance, resourcing and operation of the courts. A new framework document for Her Majesty's Courts Service (Cm 7350) has today been laid before the House, which sets out our partnership in greater detail and gives effect to its provisions.

Our partnership builds on a series of recent developments including the concordat agreed in January 2004 between our predecessors, the creation of HMCS in April 2005, the Constitutional Reform Act 2005 and finally the creation of the Ministry of Justice in May 2007. The concordat contained provisions in paragraphs 24 and 25 for the engagement of the Lord Chief Justice and judiciary in the resourcing of HMCS. We have agreed that these provisions are superseded by the new and more extensive arrangements put in place by the HMCS framework document.

The new arrangements place the leadership and broad direction of HMCS in the hands of a new board with an independent non-executive chair. We are pleased to announce the appointment of Sir Duncan Nichol to this position with effect from today, for a period of three years. Sir Duncan has extensive experience in public service delivery within the justice system and more widely.

The founding principles of our partnership are a firm and shared commitment to the delivery of an efficient and effective 21st century justice system and upholding the independence of the judiciary. We look forward to working closely with Sir Duncan and the new board in achieving our shared aims and endeavours.

TRANSPORT

Maritime and Coastguard Agency

The Parliamentary Under-Secretary of State for Transport (Jim Fitzpatrick): I am pleased to announce the broad objectives and specific ministerial targets for the Maritime Coastguard Agency for 2008-09. These are:

Safety Objective—Through accident prevention and effective search and rescue co-ordination and response, improve the safety of ships and people at sea and at the coast.

Performance under this objective will be measured against the following ministerial delivery targets:

MT1. Conduct operational standards and training audits and secure year-on-year improvements in the average scores covering both exercise and individual assessment elements to maintain the quality of maritime emergency co-ordination and response by the Coastguard.

MT2. Helicopters tasked to respond to incidents will be airborne within 15 minutes during daylight hours and 45 minutes at night in at least 98 per cent. of cases.

MT3. Meet the internationally required target to inspect 25 per cent. of foreign vessels in UK ports under PSC arrangements, with an increasing emphasis on inspecting available ships judged to be high risk.

MT4. Maintain the quality of the UK ship register by reducing the level of deficiencies recorded on UK ships inspected abroad, and maintain a position on the Paris MOU white list which is comparable to registers of a similar size and reputation.

MT5. As a category 1 responder, continue to meet the provisions of the Civil Contingencies Act including increased engagement with Local Resilience Fora.

Under this objective the MCA will also take forward a three year programme of work in the following areas:

Seafarer Fatigue—working with the shipping industry and seafarer unions on a coherent strategy to reduce seafarer fatigue.

Fishing Vessels—working with the fishing industry to improve the safety of small fishing vessels (under 15m).

Lifejackets— working with the agency's partner organisations (including the Royal National Lifeboat Institute and the Royal Yachting Association), to promote the wearing of lifejackets within the leisure sector.

Environment Objective—Through our monitoring of ships and response to pollution incidents protect the marine environment.

Performance under this objective will be measured against the following ministerial delivery target:

MT6— Respond promptly to potential and actual pollution from ships around the UK coast, drawing effectively on resources including our emergency tugs, and following the procedures set out in the National Contingency Plan.

Under this objective the MCA will also take forward a three-year programme of work covering:

Vessel Traffic Management—Identifying the future requirements of sea space management and the role the agency may perform.

Beyond these objectives and targets are the agency's service standards and measured outcomes. Together these measures cover all aspects of the agency's work and provide continual assurance about the quality of our performance.

The agency will also continue to monitor its performance through a range of service standards and measured outcomes which will be reported in its published annual report and accounts.

WOMEN AND EQUALITY

Domestic Violence

The Minister for Women and Equality (Ms Harriet Harman): Last July I made a statement to the House setting out three key priorities for the Ministers for Women. One of these priorities is, "tackling violence against women and improving the way we deal with women who commit crimes".

We have done a great deal to step up action against domestic violence, sexual offences and human trafficking, but there is more to do. Domestic violence still results in two homicides every week. It not only harms women but has a devastating impact on children. Human trafficking takes many forms and blights the lives of men, women and children in many different continents. Britain is a major focus for the global trade in the sexual exploitation of women by traffickers, who trick or abduct young women and force them into prostitution.

We need to ensure that the substantive law is right and make it clear beyond doubt that domestic and sexual violence against women, and human trafficking for prostitution, will not be tolerated.

Today the Government is publishing "Tackling Violence Against Women: A Cross-Government Narrative". This report draws together work being done across Government to tackle violence against women and responds to the End Violence Against Women (EVAW) coalition's annual Making the Grade survey. EVAW campaign's work is a valuable part of the work to tackle violence against women, and I welcome both the challenge and opportunities which Making the Grade offers.

Copies of "Tackling Violence Against Women: A Cross-Government Narrative" will be available in the Commons Library.

WORK AND PENSIONS

New Deal

The Secretary of State for Work and Pensions (James Purnell): On 14 March 2008, *Official Report*, vol. 473, column 30 WS, I announced my plans for implementing the flexible New Deal to build on the success of the existing New Deals for jobseekers it replaces, helping to underpin our objectives for full employment and eradicating child poverty. Based on our previous experience in implementing successfully the commercially delivered Pathways to Work in just two phases, I announced that we would adopt a similar approach for the flexible New Deal with phase 1 being delivered from October 2009 and phase 2 from October 2010.

Following further consultation between my officials and the Welsh Assembly Government I have decided to make changes to the phase 1 contracting arrangements as they will affect Wales so that there will be two contracts wholly within Wales.

These changes take account of existing partnerships in Wales and by doing so the implementation of flexible New Deal should be enhanced.

The list of Jobcentre Plus districts to be included in each phase that I announced in my earlier statement now is:

Phase 1	*Phase 2*
Birmingham and Solihull	Merseyside
North and East Yorkshire and Humber	Forth Valley, Fife and Tayside
Tees Valley	Glasgow
South Yorkshire	West London
Derbyshire	City and East London
Surrey and Sussex	North and North East London
Kent	Essex
Leicestershire and Northamptonshire	Bedfordshire and Hertfordshire
Nottinghamshire	Berkshire, Buckinghamshire and Oxfordshire
Central London	Cumbria and Lancashire
Lambeth, Southwark and Wandsworth	South London
Devon and Cornwall	Dorset and Somerset
South Wales Valleys	West of England
South East Wales	Gloucestershire, Wiltshire and Swindon
South West Wales	Hampshire and the Isle of Wight
North and Mid Wales	Highland, Islands, Clyde Coast and Grampian
Black Country	West Yorkshire

Phase 1	*Phase 2*
Greater Manchester Central	Northumbria
Greater Manchester East and West	South Tyne and Wear Valley
Coventry and Warwickshire	Cheshire, Halton and Warrington
The Marches	
Staffordshire	
Lanarkshire and East Dunbartonshire	
Edinburgh, Lothian and Borders	
Ayrshire, Dumfries, Galloway and Inverclyde	
Cambridgeshire and Suffolk	
Norfolk	
Lincolnshire and Rutland	

Advertisements for organisations interested in bidding for phase 1 contracts will be published in the press from today.

Transforming Britain's labour market: "Ten Years of the New Deal" is available at: http//www.dwp.gov.uk/welfarereform/docs/PMNewDeal2-01-08.pdf.

DWP "Commissioning Strategy" is available at: http//www.dwp.gov.uk/publications/dwp/2008/com-strategy/cs-rep-08.pdf.

Written Ministerial Statements

Wednesday 2 April 2008

TREASURY

United Kingdom Coins

The Exchequer Secretary to the Treasury (Angela Eagle): The Royal Mint has today unveiled the definitive reverse designs for new United Kingdom circulating coins from the one pence to the one pound piece. The designs were chosen following a public design competition to which over 4,000 entries were submitted. Coins bearing existing designs will continue to circulate alongside those bearing the new designs. Copies of the new designs have been deposited in the Libraries of both Houses.

CHILDREN, SCHOOLS AND FAMILIES

Adoptions from Cambodia

The Parliamentary Under-Secretary of State for Children, Schools and Families (Kevin Brennan): I am today announcing the outcome of a review of the suspension of adoptions of Cambodian children by UK residents.

In June 2004, the then Minister of State for Children, Young People and Families, my right hon. Friend the Member for Barking (Margaret Hodge), announced the suspension of adoptions in response to concerns raised and investigated by officials from the DfES (now DCSF) who visited Cambodia, by the British Embassy in Cambodia and, separately, by other stakeholders about the intercountry adoption process in Cambodia.

A review of the suspension was announced last year and was carried out by my Department. The purpose of the review was to update the information on which the suspension was based, to find out what concerns, if any, remain valid and whether there are any other concerns about practices taking place.

The review work assessed the current situation in Cambodia regarding intercountry adoption, including what changes, if any, to practice and legislation have been made in the three years since the temporary suspension was introduced. The review also took account of Cambodia's accession to the Hague Convention (on Protection of Children and Co-operation in Respect of Intercountry Adoption 1993).

On 12 December, the UK lodged an objection to Cambodia's accession to the Hague Convention, in accordance with article 44 of the convention. Cambodia's accession to the convention therefore has no effect as regards relations between the UK and Cambodia.

Evidence from the review demonstrates that: adoption legislation, practice and procedure in Cambodia remain insufficient to ensure the proper protection of children and their families; lifting the suspension at the current time would expose Cambodian children and their families to an increased risk of improper practices that are contrary to the principles of the Convention on the Protection of Children and Co-operation in respect of Intercountry Adoption (the Hague Convention) and the United Nations Convention on the Rights of the Child.

The suspension of adoptions of Cambodian children by UK residents therefore still remains in place. I will of course consider the effect of any changes to adoption legislation and practice in Cambodia in keeping the suspension under review.

I am also announcing today the outline timetable for the implementation of the statutory provisions relating to the restrictions of adoptions from abroad in the Children and Adoption Act 2006. I intend to implement sections 9 and 10 and, in so far as they are not already in force, sections 11 and 12 of the 2006 Act in summer 2008.

Qualifications Regulation

The Secretary of State for Children, Schools and Families (Ed Balls): I announced plans last September to set up an independent regulator of qualifications and tests. In December, along with my right hon. Friend the Secretary of State for Innovation, Universities and Skills I announced, for consultation, more detailed proposals. Subject to legislation, the new Office of the Qualifications and Examinations Regulator (Ofqual) will act as independent guardian of standards across the tests and qualifications system in England. The Qualifications and Curriculum Development Agency (QCDA) will develop curriculum, assessment and qualifications. I wish to update the House on progress with these plans.

As we develop and reform qualifications and tests, it is critically important not only that they are of the highest quality, but also that they are seen so to be. The new arrangements that we are putting in place will help to achieve this, underpinning high quality qualifications and tests with high levels of confidence. In making this change, we are building on the principles that underpinned the establishment of, for example, the Monetary Policy Committee and the Statistics Board, which have improved public trust in the systems they regulate through a combination of independence, clarity of remit and a transparent accountability framework. The joint command paper (Cm 7281) "Confidence in Standards: Regulating and Developing Qualifications and Assessment" published in December sought views on the roles and powers of the independent regulator and of the development agency for curriculum, assessment and qualifications into which QCA will develop. The consultation period closed on 10 March. The proposals were generally well received, and there were lots of valuable and detailed points on which we will need to reflect as we develop our detailed proposals. We will publish a formal response to the consultation paper by mid-June.

In the meantime, we will continue as planned to make those changes we can achieve within the existing legislative framework, so that we can secure benefits from the

reforms as soon as possible. As a first step the Office of the Qualifications and Examination Regulator will shortly be established on an interim basis carrying out the QCA's regulatory functions across this spring and summer test and examination period. While working within current legislation, Ofqual will be operationally independent. These interim arrangements will be an important step towards the new regulatory landscape that we are developing, and in themselves will contribute to confidence in the standards of the tests and qualification system in England.

In the consultation paper on the reforms we confirmed that we were setting in motion an appointments process for a chair of the regulator. Following a process overseen by the Office for the Commissioner of Public Appointments, I am delighted to tell the House that Kathleen Tattersall OBE has been appointed to be the first chair of the new independent regulator. Kathleen is the chair of the Chartered Institute of Educational Assessors (which today receives its Royal Charter). Until 2003 she was director general of the Assessment and Qualifications Alliance (AQA), having been chief executive of a succession of awarding bodies over the previous 20 years. She will join the QCA Board and lead Ofqual in its interim form. Subject to legislation, she will become the regulator's first chair when it is established as an independent statutory body. Kathleen Tattersall and Ofqual's acting chief executive, Isabel Nisbet, will play critical leadership roles in setting up the new organisation, setting its strategic direction and developing the new regulatory framework which it will operate.

Setting up a new regulator will help ensure that learners of all ages and their teachers feel that their hard work and achievements are properly recognised. We are confident that these reforms to the regulatory landscape will both provide greater transparency in the arrangements for regulating and developing qualifications and tests, and secure the confidence in standards on which they depend.

School Admissions System

The Secretary of State for Children, Schools and Families (Ed Balls): I made a statement on 11 March in which I set out concerns about compliance with the school admissions code and admissions legislation, based on an internal review of the published admission arrangements of schools in a sample of three local authorities. I explained that my Department was verifying the findings with the local authorities and schools concerned, and that we would present the detailed information to Parliament once we had given them the opportunity to respond.

I have today passed the results of this exercise onto the schools adjudicator to inform the work he is doing to ensure full compliance with all statutory requirements for admissions in 2009. A copy of my letter and a report including tables summarising the results of this exercise have been placed in the Library of the House.

I have also today published draft amendments to the Education and Skills Bill for consideration at Commons Report. The effect of the amendments will be to require local authorities to report to the schools adjudicator on admission arrangements in their areas; to extend the adjudicator's powers so that he can act where he considers that any admission arrangements are not compliant with the statutory requirements; and to improve the process of consultation on admission arrangements in order to ensure that parents and communities can contribute to the development of admissions policies for their schools. Copies of the draft amendments have been placed in the Library of the House.

We are publishing today a step-by-step guide to the admissions and appeal processes for parents. A copy has been placed in the Library of the House. The guide contains straightforward advice for parents on all aspects of choosing a school place for their child, and sets out what they can do if they have concerns about the legality of a school's admission arrangements. A copy of this guide will be made available for every parent applying for a school place in 2009.

My Department will publish further detailed proposals in the early summer to improve the application and allocation process for parents and to further strengthen the admission system so that it works for all children. This will include an improved process for ensuring that parents and communities are consulted on admission arrangements for their schools and improvements to admission forums.

The steps I have taken today will help ensure that every parent has a fair chance of getting their child a place at a school of their choice, and that no parent or child will be disadvantaged by unfair admission arrangements.

School Playing Fields

The Parliamentary Under-Secretary of State for Children, Schools and Families (Kevin Brennan): Before October 1998 there were no checks in the system to prevent the sale of school playing fields. Local authorities could sell school playing fields and use the proceeds for whatever purpose they saw fit.

Since 1998, under section 77 of the School Standards and Framework Act 1998, all local authorities and maintained schools in England have needed the consent of the Secretary of State before they can dispose of a school playing field or any part of a school playing field.

Published guidance sets out the criteria for giving consent and makes it clear that a disposal will only be allowed if the sports and curriculum needs of schools and their neighbouring schools continue to be met. Community usage of school playing fields is considered in decisions and any sale proceeds must be re-invested in outdoor sports facilities where possible, or, if not, in indoor sport or education facilities.

In addition, since July 2001 all applications to dispose of school playing fields have been scrutinised by an independent School Playing Fields Advisory Panel. The Panel comprises representatives from Fields in Trust (formerly the National Playing Fields Association), the Central Council of Physical Recreation, Learning through Landscapes, the National Association of Head Teachers and the Local Government Association.

The Panel advises the Secretary of State on the extent to which applications meet the published criteria for giving consent. The Panel brings a rigorous independent scrutiny to the assessment process.

In November 2004 the rules governing the sale of school playing fields were tightened so that the sale of a playing field is an absolute last resort with local authorities having to demonstrate that they have exhausted all other sources of funding. Sale proceeds must be used to improve outdoor sports facilities where possible and new sports facilities must be sustainable for at least 10 years.

This Government have not committed itself to end the sale of surplus school playing fields in any circumstances. What we did commit to end was the previous position of putting local authorities in a position where they had to sell those fields simply to pay for essential repairs. Our record levels of capital investment in schools - from under £700 million in 1996-97 to over £8 billion by 2011 - have also helped bring that situation to an end. 1,100 completely newly rebuilt schools have already been built - with brand new sports facilities and outdoor play areas. Another 2,450 schools have made massive improvements to sports provision, with newly built sports halls, all- weather pitches, gyms, playgrounds or changing rooms.

This Government legislated to ensure that school playing fields are sold only where they are genuinely surplus to local needs, including those of neighbouring schools. This Government have ensured that the proceeds of sales are invested mainly in providing new sports facilities, including new grassed pitches, all-weather pitches and sports halls. Where no sports improvements are needed the money from sales must be used to improve educational facilities.

The attached table shows details of the 19 applications which were approved on this basis in 2007.

Approved Applications to Sell an Area of Land Capable of Being Used as a Small Sports Pitch of 2,000m² in 2007

School	*Local Authority*	*Approved*	*Details*
Beanfield Community College	Northamptonshire	17 May	Closed school—proceeds used to improve sports at other schools. All-weather hockey and tennis pitch. Floodlit, all-weather, multi-use games court. Four-court sports hall.
Blackdale Middle School	Norfolk	2 November	Closed school—proceeds used to improve outdoor sports at four other schools. Two multi-use games courts. One new grass pitch. One new playing field. One tennis court. New outdoor cricket facilities.
Cliftonville Middle School	Northamptonshire	8 May	Closed school—proceeds used to improve sports at eight other local schools. New all-weather, multi-use games courts. New grass pitches. Upgrade gymnasium facilities.
Deedmore School	Coventry	20 April	Closed school—proceeds spent on new school. New hydrotherapy pool. New outdoor classrooms. New sensory garden. New all-weather pitch.
Eastwood Comprehensive	Nottinghamshire	24 May	Sale of part of playing field at closed lower site—proceeds used to improve sports provision on upper site and other local schools. Improved outdoor facilities and indoor sports facilities at upper school site. New sports pitch.
Green Lanes Primary	Solihull	12 March	Closed school—proceeds spent on sports at other schools. Grading and levelling of grass pitches. Improved grassed pitch. New hard play area. New sports hall.
Harefield Primary	Southampton	13 December	Surplus playing field sold to fund sports hall. New sports hall. New hard games court.
Hayesfield School and Technology College	Bath and NE Somerset	12 March	Off-site playing field sold to fund new on-site sports provision. New sports Hall. New dance Studio. New all-weather pitch. New running track. New netball and tennis court.
Highbury Primary	Wiltshire	16 May	New build—surplus playing fields sold to fund new sports facilities. New hard play area. New games court. New sports hall.
Leigh C of E Primary	Wiltshire	5 April	Closed school—proceeds used to improve sports at other schools. New hard play area. New sports hall.

Approved Applications to Sell an Area of Land Capable of Being Used as a Small Sports Pitch of 2,000m² in 2007

School	*Local Authority*	*Approved*	*Details*
Meadway School	Reading	4 April	Closed school—proceeds used for sports facilities at new SEN school. New grass pitch. New game court. New outdoor play space. New sports hall. Therapy and hydrotherapy pool.
Pembroke Primary School	Wiltshire	8 May	First school site sold—proceeds used to fund sports facilities at new primary schools. New external play area. Improved sports hall. New reception play ground. Refurbished playground. New netball court. New sports hall.
Portland School	Nottinghamshire	8 January	Surplus playing field sold to fund new on-site sports facilities. New all-weather pitch. New multi-use games court. Improved running track. New sports hall. Improved grassed pitches.
Senacre Technology College	Kent	4 September	Closed school—proceeds used to fund sports facilities at two new academies. New multi-use games court. Improved grassed sports pitch. Two new gymnasiums.
Sir Bernard Lovell	South Gloucestershire	30 January	Sale of part of detached playing field to fund new on-site sports facilities. Two improved grass pitches. Two floodlit, all-weather, multi-use games courts. Two six-court sports halls.
St. Michaels C of E Controlled School	Wiltshire	8 May	Closed school—proceeds used to fund sports and education at other schools. New hard games court. New soft games area. Two classroom extensions.
St. Thomas of Canterbury Catholic Primary	Surrey	17 May	Sale of part of detached playing field to fund on-site sports facilities. New all-weather games court. Improved grassed pitches. Refurbishment of two sports halls.
Tyning Hengrove Junior School	Bristol	8 May	Closed school—proceeds used to fund sports at other schools. Purchase new school playing fields. All-weather, multi-use games court. New sports hall.
Warblington School	Hampshire	20 November	Sale of surplus playing field to fund new sports facilities. Floodlit, all-weather, multi-use games court. Refurbished school tennis court. New sports hall.

COMMUNITIES AND LOCAL GOVERNMENT

Local Government

The Minister for Local Government (John Healey): On 4 February 2008, *Official Report*, column 47WS, I laid before Parliament a written ministerial statement about payments under the Local Authority Business Growth Incentives scheme (LABGI) in the light of legal challenge. I am now in a position to announce the methodology the Government intend to use, to make additional payments to local authorities for years 1 and 2 of the scheme and to make payments for year 3 of the three-year scheme.

For years 1 and 2, the Government propose to make additional payments to eligible local authorities using all Valuation Office Agency change codes which record an increase in rateable value and which were not previously used in LABGI calculations. This will ensure that all codes that could contain elements of business growth are taken into account. As a result, we propose that additional payments totalling approximately £50.9 million should be made to authorities (approximately £13.5 million for year 1 and £37.3 million for year 2).

For year 3, the Government intend to replicate the revised methodology for years 1 and 2 of the scheme in year 3. As I indicated in my statement of 4 February, it is necessary at this stage to retain a portion of the year 3 funding as a contingency and I intend to retain £100 million.

A further announcement about the distribution of the remaining funding will be made in due course. This funding will be allocated to local authorities in full, in line with the policy purposes for which LABGI was designed. The exact methodology will be confirmed once any uncertainty associated with legal challenges has been resolved.

The Government, therefore, are able to allocate around £246 million to authorities at this stage for year 3 of the scheme. As in previous years, it will be necessary to apply a scaling factor to the calculated allocations in year 3 to ensure that the funding distributed does not exceed the amount available. Each authority's allocation will be scaled back to 28 per cent.

Further details of the methodology used for calculating the latest payments for all three years of the scheme can be found in a technical note which is being published today on the Communities and Local Government website at: http://www.local.communities.gov.uk/finance/labgi/technote0708.pdf

Details of the proposed funding for each qualifying authority under the Government's proposals can be found at: http://www.local.communities.gov.uk/finance/labgi/draftdtmn0708v2.pdf

Copies of these documents are available in the Libraries of both Houses.

Authorities will now have until 16 May 2008 to raise any queries or issues about the methodology. I intend to confirm and make payments to authorities as soon as possible after this period.

CULTURE, MEDIA AND SPORT

Draft Heritage Protection Bill

The Secretary of State for Culture, Media and Sport (Andy Burnham): I am today laying the draft Heritage Protection Bill and explanatory notes for pre-legislative scrutiny. Copies of the related Impact Assessment are available in the Vote and Printed Paper Offices.

This is a draft Bill for England and Wales, which sets out the legislative framework for a unified and simpler heritage protection system that will be more open, accountable and transparent. The new system will provide more opportunities for public involvement and community engagement in understanding, preserving and managing our heritage. As the Impact Assessment makes clear, the main benefits of the reforms introduced by the Heritage Protection Bill are not best expressed in terms of the financial balance sheet, but are better understood in terms of public value and sustainability. The reforms set out in this Bill will enable us to preserve the historic environment and manage its transition to the future, in the light of both present values and in the interest of future generations.

The draft Bill is based on the proposals set out in the White Paper, "Heritage Protection for the 21st Century" (March 2007), which itself was based on three key principles: the need to develop a unified approach to the historic environment; maximising opportunities for inclusion and involvement; and supporting sustainable communities by putting the historic environment at the heart of an effective planning system.

The draft Heritage Protection Bill contains provisions for a single system for national designation ("registration") of terrestrial heritage assets to replace the listing of buildings, scheduling of monuments and registering of parks, gardens, battlefields and, in Wales, historic landscapes. In England, we will be transferring responsibility for national designation of all these assets to English Heritage; in Wales that responsibility will remain with the Welsh Ministers. There will be new Heritage Registers, one each for England and Wales, containing details of all nationally designated heritage assets, as well as world heritage sites in England and Wales. There will also be formal appeals or review mechanisms for registration decisions, and provisional registration to give "interim protection" to historic assets while they are being considered for registration, as well as wider formal consultation on applications to register.

Alongside this unification of designation, we will be unifying and streamlining the associated consent processes, with the introduction of a new Heritage Asset Consent to replace Listed Building Consent and Scheduled Monument Consent, and the merger of Conservation Area Consent with planning permission. In England, the new Heritage Asset Consent will be administered by local planning authorities, allowing the management of the historic environment to take place at local level; in Wales, the draft Bill will provide flexibility to allow central decision making where appropriate, recognising the different levels of capacity in Wales.

We recognise the need for effective conservation and management of the historic environment at local level to be knowledge-based, and for the records of our historic environment to be available to as many people as possible. This Bill will secure the basis for informed stewardship of the historic environment, within and beyond the planning system, by placing local authorities under a new statutory duty to maintain or have access to an Historic Environment Record (HER). HERs are a comprehensive resource on the local historic environment, containing information on archaeological sites and finds, historic buildings and historic landscapes, complementing and enriching our existing collections of museum, archives and libraries.

In keeping with this drive towards greater accessibility, the new Heritage Registers will also be available online and new records will be simpler, clearer and more detailed.

The draft Bill will also introduce a new statutory framework for voluntary management agreements between the owners of heritage sites and structures and local or other authorities. These agreements will free owners from the need for repetitive consent applications for similar works, reducing the bureaucratic and administrative burdens for owners and local authorities alike, and providing greater certainty on the long-term management of the site.

Striking the balance between flexibility and the need to ensure protection alongside conservation and management characterises our proposals to reform the marine heritage protection system in England and Wales. We have broadened the range of marine historic assets that can be protected, ensuring that there is greater consistency—where appropriate—with the terrestrial system, and brought greater flexibility to the licensing system. As we have done for terrestrial designations, we have also built a formal consultation process into the registration of marine heritage sites and ensured protection for those assets formally being considered for designation.

These reforms will give us a heritage protection system that is open, flexible and accountable. Our heritage is an important source of national and community identity; people recognise its value and

work hard, voluntarily and professionally, to ensure its conservation and pass it on. We are increasingly recognising the value of the historic environment in contributing to the Government's wider agenda in terms of place-making and promoting economic prosperity through regeneration and sustainable use of existing resources. The proposals in the draft Heritage Protection Bill will enable us and future generations to benefit from a thriving, well-managed, sustainable and widely-enjoyed historic environment.

The draft Bill we are publishing today follows long and extensive consultation. We are publishing in draft to generate and benefit from the widest possible debate. If there are proposals for further changes, we will consider them carefully in the light of all the views expressed.

DEFENCE

Reservists (Balkans)

The Minister for the Armed Forces (Mr. Bob Ainsworth): A new call-out order has been made under section 56 of the Reserve Forces Act 1996 so that reservists may continue to be called-out into permanent service to support military operations in the Balkans. The order takes effect from 2 April 2008.

Over the next 12-month period we expect to have some 20 reservists in theatre at any one time filling a variety of different posts, including staff officers, specialists and members of the training teams.

INNOVATION, UNIVERSITIES AND SKILLS

Artist's Resale Right

The Minister for Science and Innovation (Ian Pearson): I am today placing in the Libraries of both Houses copies of a study by the Intellectual Property Institute (IPI) into the effect on the UK art market of the introduction of the artist's resale right (ARR).

The Directive 2001/84/EC on the resale right for the benefit of the author of an original work of art was adopted in 2001. This required a new right, "artist's resale right" (often referred to by its French name droit de suite) to be introduced into the United Kingdom by 1 January 2006.

Due to concerns over the potential impact that the introduction of ARR might have on the UK art market, the UK Government successfully secured a number of concessions within the directive to lessen its impact. These were:

A cap of €12,500 royalty on any one sale.

A commitment from the EC that they would make it a priority to negotiate internationally to make the relevant article of the Berne Convention mandatory so that the right would be introduced in the USA and Switzerland (on which little has yet been done nor it seems is likely to be done).

A derogation to 2010, extendable upon request to 2012, allowing the UK to delay applying the right to works by deceased artists.

The implementing regulations were brought into force in the UK on 14 February 2006. ARR entitles artists and, for 70 years after death, their successors in title, to a percentage of the sale price whenever original works of art are re-sold in transactions involving art market professionals.

The purpose of the study, commissioned by the UK Intellectual Property Office, was to provide:

An assessment of the impact on the UK art market of the introduction of artist's resale right (ARR).

An assessment of the costs, both to business and collecting societies of administering the right.

An assessment of the benefit to artists in the introduction of the right.

The Government are considering this evidence to develop our understanding of the impact of ARR on UK creativity and the UK art market.

INTERNATIONAL DEVELOPMENT

Palestinian Authority

The Secretary of State for International Development (Mr. Douglas Alexander): We are gravely concerned about the situation in Gaza. The closure of Gaza's crossings is contributing to the collapse of the economy. There are shortages of essential humanitarian supplies such as medicines, foodstuffs and hearing aids. Restrictions on supplies of fuel and electricity have led to widespread power cuts and water shortages. While we fully understand Israel's security concerns, we do not support the decision to close Gaza crossings. The Foreign Secretary and I have called on Israel to open them, and to lift all restrictions immediately on humanitarian supplies and electricity. While resolving the humanitarian situation is in the hands of the parties concerned, we are doing what we can to help alleviate the situation.

In order to address the humanitarian situation, to support the Palestinian economy and to meet the urgent funding needs of the Palestinian Authority, we intend to provide an additional £30 million in support to the Palestinians in 2007-08, taking our total contribution to £63.6 million for this financial year. This is part of the pledge of up to £243 million over three years, linked to political progress, which I announced at the Paris donor conference last December. The UK is leading the international community in following through on its Paris pledges promptly, providing funding when it is most needed before other pledges come through.

This new funding will strengthen the Palestinian Authority's ability to take forward reform at a critical time. It will help pay teachers, doctors and engineers, keep basic services running and meet the budget shortfall facing the government of Prime Minister Salam Fayyad. It will directly benefit Gazans, as well as Palestinians living in the West Bank.

All funding will be delivered through reputable international institutions and safeguards will be put in place to ensure it is properly used. Our support for the

Palestinian Authority will be routed through the World Bank and the EC's new aid fund known as "PEGASE".

DFID's support for Gazans includes our agreement to provide £100 million over five years to the UN Relief and Works Agency (UNRWA). UNRWA provides healthcare, housing, education and food to Palestinian refugees across the Middle East. Seventy per cent. of people in Gaza are refugees who will benefit directly from this assistance.

I also announced to the House on 12 March that we will provide £2 million to the International Committee for the Red Cross (ICRC) as a further response to the humanitarian situation in Gaza.

JUSTICE

Tribunals Service (Key Performance Indicators 2008-2009)

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): The following list of key performance indicators have been set for the Tribunals Service for 2008-2009.

1. 75 per cent. of tribunal applications will be dealt with within each individual tribunal's target time.

2. 72 per cent. of Tribunals Service customers are satisfied with the service they receive.

3. To reduce annually the operating costs of the Tribunals Service in real terms. The Tribunals Service is committed to achieving efficiency savings of £9 million in 2008-2009.

Copies of the Tribunals Service Business Plan for 2008-2009 have been placed in the Libraries of both Houses.

*More information on these and other supporting targets are published in the Tribunals Service Business Plan.

Legal Aid Reform

The Parliamentary Under-Secretary of State for Justice (Maria Eagle): My noble Friend the Parliamentary Under-Secretary of State, Lord Hunt of Kings Heath, has made the following written ministerial statement.

"The Legal Services Commission (LSC), the Ministry of Justice and the Law Society of England and Wales today reached agreement on the best way forward for legal aid providers following the Court of Appeal judgment on the Unified Contract (29 November 2007).

The agreement was achieved through a series of constructive discussions between the three organisations. The agreement is designed to provide a significant period of certainty and stability for civil legal aid providers to enable them to adapt to the changes to the legal aid system that have already been introduced, and to consider and plan for the future. The agreement also addresses a number of specific issues that the Law Society has identified to the LSC and Ministry as being of concern to civil legal aid providers and, where these issues require further consideration, sets up joint mechanisms to address these collaboratively.

The main points of agreement are:

in order to provide a period of certainty and stability for civil legal aid providers it is agreed not to terminate the existing civil Unified Contract until it expires in 2010, subject to the conditions set out in the agreement;

my Department and the LSC agree not to introduce any other changes to civil, family and asylum contracts for solicitors and Not-for-Profit providers before April 2010, other than those set out in the agreement;

the Law Society agrees not to pursue its current legal challenge to the new civil fee schemes introduced in 2007 and early this year, and not to support any further such challenges;

to assist providers in planning for the future, my Department and the LSC agree to publish details and a timetable of the future programme of civil legal aid reforms;

that all three organisations have a strong commitment to work together in the future to develop the reforms and to seek to resolve any disputes in this way rather than through litigation;

there will be a few targeted increases in some of the fees in the civil fee schemes already introduced; and

further practical issues, including arrangements for dealing with payments on account and claims on cases over six years old are set out in the agreement.

A copy of a joint statement agreed by all three parties has been made available in the Libraries of both Houses. Further details of the agreement will be available shortly on the website of the Legal Services Commission at www.legalservices.gov.uk.

The legal aid reform programme will continue. The Government remains fully committed to its objectives of improving client access to quality services and providing value for money for the taxpayer."

Probation

The Minister of State, Ministry of Justice (Mr. David Hanson): On Wednesday, 9 April, I will publish a consultation document about the introduction of a Best Value system into probation. The consultation period will run until 2 July 2008.

During the passage of the Offender Management Bill last year, the Government signalled a move away from a target-based regime in which probation areas had to outsource a proportion of their work to a model based on the principles of best value. In discussion with interested parties, we have drawn up a proposed model for how Best Value would work and we are now consulting publicly on this.

The proposed Best Value model would apply to all services funded by probation boards and trusts. It would enable boards and trusts to demonstrate, in a transparent way, the value for money of their services, and to drive improvements in the economy, efficiency and effectiveness of their service delivery. Best Value reviews would be based around five areas—consult, compare, challenge, collaborate and, where appropriate, compete. The reviews may result in the competition of services, but only if they have shown that that would be the most efficient and effective delivery option; the Best Value process is neutral as to the final result. By delivering efficiency savings, Best Value will provide value for money to the taxpayer and, by improving the effectiveness of service delivery to offenders, it will contribute towards our aim of reducing reoffending.

Copies of the consultation document will be placed in the Libraries of both Houses. Copies will also be available in the Vote Office and Printed Paper Office and on the internet at: www.justice.gov.uk/publications/consultations.htm

HM Chief Inspector of Prisons

The Minister of State, Ministry of Justice (Mr. David Hanson): Today I am delighted to announce that the appointment of Anne Owers CBE as HM Chief Inspector of Prisons for England and Wales has been extended until 31 March 2010.

Ms Owers' expertise and knowledge will continue to play a key role in enabling the prisons inspectorate to deliver a credible and effective inspection programme for prisons and immigration removal centres.

TRANSPORT

Transport Innovation Fund

The Minister of State, Department for Transport (Ms Rosie Winterton): In July 2005, in a written statement to the House, local authorities were invited to bid for £18 million of pump-priming development funding to bring forward packages of measures that combined better local public transport with hard demand management measures, such as road pricing. We also announced that we were prepared to ensure that up to £200 million a year would be available from the Transport Innovation Fund to support such packages.

So far 10 areas have benefited from this pump-priming funding, enabling them to analyse their current and emerging congestion issues and consider how demand management could form part of the solution. In March 2008, we announced that we were extending the commitment to make available up to £200 million a year up to 2018-19, in line with our long term funding profile for transport, and inviting authorities to bid for further pump-priming development funding for 2008 and 2009.

I am today announcing the first successful area to benefit from this additional funding. We are making up to £500,000 available to the West of England Partnership (covering Bristol City council, Bath and North East Somerset Council, North Somerset Council and South Gloucestershire Council) to take forward the development of their proposals for improved public transport and demand management.

I should be clear that receipt of this pump-priming funding is no guarantee that an authority will be successful in bidding for the main Transport Innovation Fund. We are, however, committed to working closely with the successful authorities to deliver the work programmes set out in their pump-priming bids and to support future decisions on the main Transport Innovation Fund.

Local authorities have until 30 May to submit bids for this additional pump-priming and I shall announce further successful authorities after that date. We will also work with other local authorities developing proposals for improved local transport and demand management and this decision does not affect their ability to bid for substantive TIF funding in the future.

Highways Agency (Roadside Facilities)

The Parliamentary Under-Secretary of State for Transport (Mr. Tom Harris): I have today published a new policy for roadside facilities on England's strategic road network, "Policy on service areas and other roadside facilities on motorways and all-purpose trunk roads in England."

The policy has been developed in the light of responses to a recent public consultation and is aimed at improving service to road users. The policy covers issues including:

- the location of motorway service areas (MSAs)—determining the need for such sites and the spacing interval between them;
- facilities at MSAs—the type of facilities, how they are signed and their standards;
- service areas on trunk roads;
- lorry parking and;
- the provision and use of lay-bys.

Copies of the policy and impact assessment have been placed in the Libraries of the House.

Bulk Mail Handling

The Parliamentary Under-Secretary of State for Transport (Jim Fitzpatrick): On 17 December, the Secretary of State for Transport announced to Parliament a number of immediate measures to improve the security of personal data handled by the Department for Transport and its Agencies. This included the precautionary requirement that any bulk transfer of personal data not by electronic transmission should take place through point-to-point transfer by a secure courier.

We have kept all security arrangements under active review, and continue to improve them as needed. We have also kept closely in touch with our customers, and with the Cabinet Secretary's ongoing review of data handling in Government.

In the light of this feedback, and the need for high standards of data security combined with greater operational flexibility to meet some customer needs, I have now agreed that the Driver and Vehicle Licensing Agency, and other Department for Transport Agencies where necessary, may use secure distribution services which are not restricted solely to point-to-point networks, providing that the security arrangements are high, including identification and tracking of each individual package at each stage of the journey, as well as the use of secure premises where necessary. This is a significantly higher standard than the position prior to December.

I will keep these arrangements under review in the light of practical experience and the Cabinet Secretary's continuing review.

Written Ministerial Statements

Thursday 3 April 2008

TREASURY

ECOFIN

The Chancellor of the Exchequer (Mr. Alistair Darling): The Economic and Financial Affairs Council was held in Brussels on 4 March 2008. The Chief Secretary to the Treasury attended for the UK. Items on the agenda were as follows:

Implementation of the Stability and Growth Pact. Stability and Convergence Programmes: Second series of Member States

Ministers adopted Council opinions on the stability programmes of Austria, Spain, Ireland, Portugal, Greece, Malta, Cyprus, Slovenia, and on the convergence programmes of the Czech Republic, Bulgaria, Estonia, Latvia, Denmark, and Lithuania. The UK supports a prudent interpretation of the Stability and Growth Pact (SGP) which takes into account the economic cycle, sustainability and the important role of public investment.

Preparation of the European Council (13-14 March)

i) Broad Economic Policy Guidelines 2008-10/11 and Country-Specific Integrated Recommendations

Following the orientation debate on these documents at the January ECOFIN and further drafting amendments in the Economic Policy Committee and Economic and Financial Committee, Ministers adopted reports which were sent to the spring 2008 European Council. These reports included reformulated draft texts which were endorsed by Heads as part of the launch of the next three-year cycle of the Lisbon strategy. The UK believes that implementation of the Lisbon strategy, including these recommendations, should now be a priority for member states.

ii) Financial stability

Ministers prepared the spring European Council's discussion on issues related to financial stability on the basis of a report drafted by the Economic and Financial Committee which examined the causes and possible policy responses to recent financial market turbulence, preparing a contribution for Heads of State and Government on the matter. Ministers agreed that key issues for discussion were: improving transparency, valuation of financial products, strengthening prudential requirements and making markets function better. The UK believes that as a key global marketplace, EU has an important role to play in the international response to market turbulence.

iii) Sovereign wealth funds

Ministers prepared the spring European Council's discussion on Sovereign Wealth Funds, following the publication of a communication by the European Commission on the framework for investments made by Sovereign Wealth Funds. The UK welcomes the Commission's recognition of the benefits of open trade and investment.

General Budget of the European Union—Council priorities for the 2009 budget

Ministers adopted conclusions agreeing the Council's budget guidelines for the 2009 EC budget. These guidelines are a set of broad principles which are designed to inform the subsequent and more detailed discussions on the level of appropriations required for the different areas of the budget. The subsequent negotiations throughout 2008 will determine the amounts to be spent under each budget heading. The UK supports the conclusions, which place appropriate emphasis on maintaining budget discipline and sound financial management.

Taxation

Fight against tax fraud

At the March ECOFIN, Ministers had an initial discussion of a Commission Communication on far-reaching changes to the VAT system to help counter fraud. The issue will be re-examined at a future meeting. The UK is strongly supportive of work that will help in the fight against Missing Trader Intra-Community (MTIC) and other VAT fraud, while remaining committed to minimising the burdens on legitimate businesses.

Taxation of savings

The European Commission updated ECOFIN on its discussions with Singapore, Hong Kong and Macao with a view to bringing them into the framework of the Savings Directive. The Savings Directive enshrines the principle of exchange of information on taxation of savings and extends beyond the EU through agreements with third countries and territories. The UK strongly supports the Commission's continued dialogue with these financial centres.

Ministers also discussed the problem of cross-border tax evasion in the context of recent developments concerning Liechtenstein. The Commission offered to bring forward its report on the operation of the Savings Directive and Ministers welcomed this. The EU has an important role to play in combating tax evasion and the Savings Directive is a key instrument in promoting transparency.

CHILDREN, SCHOOLS AND FAMILIES

Children's Plan

The Secretary of State for Children, Schools and Families (Ed Balls): In December, the Government published their Children's Plan and set out their ambition to make this the best place in the world to bring up children and young people. I am today making a number of announcements that will support the delivery of our vision:

to unlock the talent and promote the health and happiness of all children, and not just some;

to back parents and help them meet their responsibilities to bring up their children; and

to build a culture of prevention and early intervention so that no child can fall behind.

Play

The Children's Plan set out the biggest ever investment in play by Government of £225 million over three years. I have now been able to add an additional £10 million to this amount, making a total investment of £235 million. This will fund 30 new adventure playgrounds and up to 3,500 inclusive play sites, creating attractive play areas for children and particularly 8-13 year olds in disadvantaged areas.

I am today announcing the first 20 pathfinder local authorities who will this year begin spending this investment as play pathfinders. Each pathfinder will receive around £2 million capital funding plus approximately £500k revenue funding over three years. A further 10 pathfinder authorities will be selected in the autumn. In additional 43 other local authorities (LAs) will receive funding from this year to develop play areas in their communities. These LAs will receive capital funding of around £1million over three years. A list of the pathfinders and those LAs benefiting from capital funding this year is attached to this statement. This funding will help them transform play opportunities in their areas in partnership with children, families, communities and the third sector. Over the next three years every local authority will receive substantial capital funding to develop public play areas.

We want local authorities to give a high priority to supporting and promoting outdoor play, with play and public play space being seen as an essential characteristic of every healthy community. That is why, from 2009, we will introduce a new national indicator to monitor progress on what children think about the parks and play spaces in their local area.

The package outlined in the Children's Plan will be detailed in full in a national Play Strategy "Fair Play"[1] which I and my right hon. Friend the Secretary of State for Culture, Media and Sport are launching for public consultation today. I believe that this strategy and the investment underpinning it represents an excellent opportunity to improve local play opportunities, and support children's play across the whole country.

myplace—delivering world class places for young people to go

Young people in their teenage years also need interesting and exciting places to go where they can meet friends and take part in positive and enriching activities. This is particularly important in those areas affected by problems with anti-social behaviour and youth crime.

I am today announcing the launch of *myplace*, a £190 million programme delivered by the Big Lottery Fund, to invest in world class places for young people to go, delivering on our Children's Plan commitment to improve youth facilities. I want this funding to start making a difference to our neighbourhoods as soon as possible, so while *myplace* will open to applicants on 6 May 2008,1 am setting out today the timescales and criteria for the competitive bidding process.

By making grants of between £1 million and £5 million, I expect *myplace* to transform the way that facilities for young people are planned and delivered across England. In particular, I want the programme to support projects that:

reflect real cross sector partnership, maximising leadership from within the community while ensuring the strategic involvement of local authorities and encouraging support and backing from the private sector *myplace* will accept bids led by public, third or private sector partners;

demonstrate the active participation of local young people, particularly the most disadvantaged, in the development, design and future running of the project;

are sustainable in the long term and for third sector organisations, who often find this most challenging, we will provide £50,000 to fund development work in this area; and

are linked to wider corporate asset management strategies and Children and Young People's Plans for improving places to go in every local authority area ranging from ambitious flagship projects, as supported by the *myplace*, to smaller scale projects, particularly in the most deprived estates and communities.

The first round of funding will commit up to £160 million, of which up to £50 million will be available through a fast track route which will be open to applicants until the end of July. This will enable early investment in projects that are already well developed, starting to deliver impact for young people and their communities this year. The standard route, which will be open to applicants until the end of September, will also encourage applications from those with further to go. The Big Lottery Fund will ensure that funded projects receive the support they need to succeed.

I urge local partners to start preparations now to take full advantage of this opportunity. Further details about *myplace* can be found in a leaflet that will placed in the House library and available on the Big Lottery Fund website[2].

Children's Trusts

Children's Trusts should bring together all the key partners at local level to achieve our ambition. Making a reality of the vision for our children set out in the Children's Plan requires 21st century children's services that put the needs of children and families first and work across traditional professional and institutional boundaries. This is essential to unlocking the potential of every child and is especially important for the most vulnerable children with complex needs.

I am today launching a consultation on draft guidance for Children's Trusts[3]. It recognises the significant advances that have been made in many areas in the planning and delivery of services through Children's Trusts. But it also makes clear that all Children's Trusts need now to raise their game to ensure that strong and purposeful partnership activity leads directly to measurable improvements in the lives of children and young people, in the support given to parents and families and, in doing so, making the vision in the Children's Plan a practical reality. I would also welcome the views of Children's Trust partners and other interested parties on whether further changes, including to the legislative framework, are needed to enable Children's Trusts to fulfil the challenging remit the Children's Plan now gives to them.

Children's workforce

The people who work directly with children are at the heart of delivering our Children's Plan ambitions, whether they work in schools, the NHS, youth services, or children's social services. I am publishing today "Building Brighter

Futures: next steps for the Children's Workforce."[4] The document gives more detail about the implementation of our commitments in the Children's Plan to:

invest £73 million in a package of proposals to improve training, recruitment and professional development of social workers working with children and families;

invest £305 million in early years to provide greater graduate leadership of practice in private, voluntary and independent settings towards our ambition of a graduate early years professional in every full day care setting by 2015; and

invest £7.5 million in the play workforce including to give 4,000 play workers access to level 3 qualifications from September 2008.

To help ensure that the whole children's workforce is of the highest quality, I am also today announcing the creation of an expert group drawn from across the whole children's sector—including unions, other representative organisations and people who provide frontline services—to advise me on the creation of a long term strategy to bring the workforce together around the needs of children, young people and their families. The Children's Workforce document I am publishing today asks a number of key questions of the expert group which will be co-chaired by Maggie Atkinson, the incoming President of the Association of Directors of Children's Services.

Together, this package of measures—major improvements in play and youth facilities, and further steps to improve children's services—represents a significant step towards achieving our Children's Plan objectives and helping every child and young person to fulfil their potential.

I will be placing copies of all the documents referred to in this statement in the Libraries of both Houses.

COMMUNITIES AND LOCAL GOVERNMENT

Local Government

The Minister for Local Government (John Healey): The Local Government and Public Involvement in Health Act 2007 provides for a reformed conduct regime for local authority members in which responsibility for standards of conduct and dealing with allegations of misconduct by members is largely devolved to each council's independently chaired standards committee. The Standards Board for England will have the role of a light touch regulator, providing guidance to councils and their standards committees, monitoring the handling of misconduct allegations, and itself dealing with the most serious misconduct cases.

We intend this reformed conduct regime should be in force this May, following the local government elections. From this point all allegations of misconduct by council members will in the first instance be considered by the council's standards committee, which may thereafter pass the most serious cases to the Standards Board.

Accordingly, we will shortly be making the necessary order to commence the relevant provisions of the 2007 Act, and laying before Parliament regulations making provision about the procedures standards committees must follow when considering allegations of misconduct by Members.

Earlier this year we consulted local authorities and stakeholders about the provisions for such regulations. I am today placing in the Libraries of both Houses a summary of the 571 responses that we received together with the Government's response to the issues which have been raised.

Having regard to the consultation responses, we intend the procedure regulations will in particular make provision to ensure that standards committee members avoid any conflicts of interest when considering allegations; that given the personal nature of allegations that might be unfounded, there will be no public access to standards committee meetings or papers when allegations are being initially assessed; and to increase the maximum sanction available to standards committee from three to six months suspension from office.

Eco-towns

The Minister for Housing (Caroline Flint): In July last year, the Government published a prospectus outlining its intention to build up to ten "eco-towns".

Eco-towns are a response to the twin challenges of an acute housing shortage and climate change. They will test out new ways of designing and building towns to achieve zero carbon standards and promote more sustainable living.

The eco-towns prospectus outlined the criteria for a successful eco-town:

(i) That they should be new settlements of between 5,000 and 20,000 homes, separate and distinct from existing towns, but well linked to them;

(ii) The development as a whole should reach zero carbon standards, and each town should be an exemplar in at least one area of environmental sustainability;

(iii) It should include a good range of facilities—a secondary school, a medium scale retail centre, good quality business space and leisure facilities;

(iv) Between 35 per cent. of the housing should be affordable, with a particular emphasis on larger family homes;

(v) There should be a management body to help develop the town, support people and businesses moving to the new community, and to co-ordinate service delivery.

In response to our invitation, we received 57 proposals for eco-towns. There has been a rigorous cross-Government assessment of these bids, particularly focusing on the existing transport infrastructure and local environment. We have also looked at the likely benefits to existing communities, the contribution the eco-town would make to local housing needs, and the likelihood of the proposal being successfully delivered.

We are today publishing a short-list of 15 locations which will go through to the next stage of consultation. These are:

Pennbury, Leicestershire: 12,000 to 15,000 homes on a development incorporating brownfield, greenfield and surplus public sector land four miles south east of Leicester.

Manby and Strubby, Lincolnshire: 5,000 homes, largely on brownfield land including a former RAF base. The nearest town is Mablethorpe.

Curborough, Staffordshire: 5,000 homes on the brownfield site of the former Fradley airfield, 10 miles from Burton.

Middle Quinton, Warwickshire: 6,000 homes on a former Royal Engineers depot, six miles south west of Stratford upon Avon.

Bordon-Whitehill, Hampshire: 5,000 to 8,000 homes on a site owned by the Ministry of Defence. The nearest town is Guildford.

Weston Otmoor, Oxfordshire: 10,000 to 15,000 homes on brownfield land. Three miles south west of Bicester.

Ford, West Sussex: 5,000 homes on a site which includes the former Ford airfield. The nearest town is Littlehampton.

Imerys China Clay Community, Cornwall: Around 5,000 homes to be built on former china clay workings, industrial land and disused mining pits. Close to St. Austell.

Rossington, South Yorkshire: Up to 15,000 homes regenerating the former colliery village of Rossington, three miles south of Doncaster

Coltishall, Norfolk: 5,000 homes on a former RAF airfield, eight miles north of Norwich.

Hanley Grange, Cambridgeshire: 8,000 homes, incorporating a former science park.

Marston Vale and New Marston, Bedfordshire: Up to 15,400 homes, on both brown and greenfield land south of Bedford.

Elsenham, Essex: At least 5,000 homes north east of the existing Elsenham village.

Rushcliffe, Nottinghamshire: An eco-town proposal was submitted for Kingston-on-Soar, to the south of Nottingham. In response to representations from Rushcliffe Borough Council (RBC), this site is not to be pursued. However, the Government are proposing to carry out a further review in partnership with RBC to consider whether there is a suitable alternative location with the potential to be viable within the Rushcliffe local authority area.

Leeds City Region, Yorkshire: A number of eco-town proposals were submitted for locations within the area of Leeds City Region partnership of 11 authorities and principally between Leeds and Selby. The Leeds City Region Partnership has indicated support in principle for an eco-town within the sub-region. The Partnership has proposed a further study to compare the best alternative locations across the Leeds City Region partnership area. The Government have agreed to support this approach, on the basis that it will allow a further announcement to be made shortly of one or more sites for consultation.

These potential locations have been published as part of a consultation document "Eco-towns—Living A Greener Future", inviting views on both the broader objectives and benefits of eco-towns, and on those locations which we regard as the most promising.

We will also be looking at the proposed schemes from promoters and we expect each proposal to be further refined and improved over the coming months. We will be looking for clear evidence that each scheme:

achieves the highest possible environmental standards, not only mitigating the impact of development, but positively enhancing the site, as well as reducing the need for residents to rely on cars;

is clearly deliverable, with funding identified and proper management arrangements set out;

is affordable, with a clearly agreed basis for contributions from private investors and public sector agencies.

A panel of experts will advise and challenge those leading the proposals to improve the environmental credentials of each project. Government will also be providing support to the relevant local authorities, comparable to the support on offer to local authorities designated as growth points or growth areas. We will continue to work in partnership with local government and the LGA as we move forward.

This consultation is the first of four key stages in the planning process for eco-towns.

Stage One: Three month consultation on preliminary views on eco-town benefits and these shortlisted locations;

Stage Two: Further consultation this summer on a sustainability appraisal, which provides a more detailed assessment of these locations, and a draft planning policy statement;

Stage Three: A decision on the list of locations with the potential to be an eco-town as part of the final planning policy statement, later this year;

Stage Four: Like any other proposed development, individual schemes will need to submit planning applications which will be decided on the merits of the proposal.

Our objective is for five eco-towns to be completed by 2016, and up to ten by 2020. We expect work to begin on some sites by 2010.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Draft Marine Bill

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): As the next major step in delivering the proposals set out in the Government's Marine Bill White Paper—A Sea Change, a draft Marine Bill will be laid before Parliament today. Copies of the draft Bill will be available in the Vote Office.

FOREIGN AND COMMONWEALTH OFFICE

EU Foreign Ministers

The Minister for Europe (Mr. Jim Murphy): My right hon. Friend the Foreign Secretary represented the UK at the informal meeting of EU Foreign Ministers ("Gymnich") in Brdo, Slovenia on 28 and 29 March 2008.

The agenda items covered were as follows:

Middle East Peace Process

The Presidency and High-Representative Solana briefed Ministers on recent developments in the region. Ministers reiterated their commitment to the Annapolis process, and agreed that the EU, in its capacity as a member of the Quartet, should continue to focus on practical efforts to support the political process. The EU should focus particularly on continuing its work on Palestinian economic development and security sector reform, including capacity-building measures within the judiciary and police.

Ministers shared concern about Syria's policies in the Middle East and concluded that the EU needed to speak with one voice to Syria. While Ministers recognised Syria's importance in helping to resolve the conflict in the Middle East, my right hon. Friend the Foreign

Secretary emphasised the need to send a clear message that Syria's continued interference in Lebanon was unacceptable. He also called for the EU to do all it could to continue to support the Lebanese Government.

Russia

Ministers discussed how to take forward EU-Russia cooperation under the Medvedev administration. Ministers agreed that the relationship was strategically significant, not just in the context of economic sectors such as energy, but with regard to issues in the common European neighbourhood and promoting security and stability more broadly. The majority view was that swift progress on a mandate to open negotiations on a successor Partnership and Co-operation Agreement with Russia would therefore be useful in providing a framework for the relationship. My right hon. Friend the Foreign Secretary underlined the importance of maintaining EU unity when dealing with Russia.

Western Balkans

In a joint session with colleagues from the Western Balkans countries, Ministers focused on the region's prospects for joining the EU. The presidency's subsequent statement, which the Government broadly support, emphasised that it was important for the Western Balkans countries to make rapid progress on political and economic reforms, reconciliation and protection of ethnic minorities; welcomed the Commission's Communication on the Western Balkans; and called upon the EU to reaffirm its commitment to the success of enlargement within the region, so long as those countries aspiring to EU membership meet the established criteria.

Tibet

Ministers stressed their strong concern over events in Tibet. They stated that the EU condemned all violence and called for it to cease, while asking that those arrested be treated in conformity with international standards; wished to uphold the transparency of information and free access by the press to Tibet. Ministers also noted the Dalai Lama's recent public commitment to non-violence and to the autonomy not independence of Tibet; and called for substantive and constructive dialogue that addressed core issues such as preservation of the Tibetan language, culture and traditions. The Government supported this position.

Intercultural Dialogue

Ministers discussed the release of "Fitna", a controversial short film on Islam, by the Dutch MP Geert Wilders. They reaffirmed that the right of freedom of expression was a basic value of the EU but stressed the importance of respect for others' religious beliefs.

HEALTH

Pharmacy Services

The Minister of State, Department of Health (Dawn Primarolo): We are today laying before Parliament the Government's White Paper, "Pharmacy in England—Building on Strengths, Delivering the Future" (Cm 7341). This fulfils an undertaking I gave to the House on 24 July 2007. It also meets the commitment the Government gave in paragraph 4.47 of "Our Health, Our Care, Our Say" to develop pharmaceutical contractual arrangements in line with the wider ambitions of that White Paper.

This White Paper sets out our future proposals for developing pharmaceutical services. It demonstrates the Government's continued commitment to pharmacy, its place in the NHS and its role as a leading clinical profession in delivering better access to high quality services to patients and consumers.

It sets out how pharmacists will work to complement general practitioners in promoting health, preventing sickness and providing care that is more personal and responsive to individual needs. Pharmacists already play a vital role for local communities in dispensing medicines, and providing services such as supporting people who want to give up smoking. This extended role will see more pharmacists being able to prescribe for and deal with minor ailments on the national health service, as well as supporting those with long-term conditions and preventing illnesses through additional screening and advice.

This will enable pharmacies, many of which already open out of hours to provide increased access to the right medicines and the right care, in the right way—more personal and more responsive to individual needs.

Under the new proposals, pharmacies will:

become "healthy living" centres promoting health and well-being and helping people to take better care of themselves;

be able to prescribe certain common medicines and be the first port of call for minor ailments—saving every GP up to the equivalent of one hour per day or up to 57 million GP consultations a year;

provide support for people with long-term conditions—such as high blood pressure or asthma—50 per cent. of whom may not take their medicines as intended—especially those starting out on a new course of treatment;

be able to screen for vascular disease and certain sexually transmitted infections, such as chlamydia;

work much closer with hospitals to provide safe, seamless care; and

play a bigger role in vaccination programmes.

To support this important programme of work, the Department will appoint two new pharmacist clinical directors later this year who will champion change in hospitals and in the community.

The White Paper also provides the Government's response to a review of national health services pharmaceutical contractual arrangements led by Anne Galbraith, former Chair of the Prescription Pricing Authority. Her report, "Review of NHS pharmaceutical contractual arrangements", which was completed last year, has been placed in the Library and copies are available to hon. Members from the Vote Office. I am most grateful to Mrs Galbraith for the speed and efficiency in which she completed her report and her insights, which have helped shape our thinking as set out in this White Paper.

We have also taken account of the work of the All Party Pharmacy Group, which published its report "The Future of Pharmacy" in June last year.

The Government have concluded that a number of structural changes are needed—in terms of reforms which will enable appropriate action to be taken in the small minority of cases where performance is not meeting

accepted standards and to shift funding arrangements so that rewards are based on the quality, not the quantity, of the services provided.

We set out proposals to reform 100-hour a week pharmacies. We want the NHS to have adequate levers which ensure such pharmacies better meet local needs.

The White Paper also considers the position of dispensing doctors and appliance contractors—with proposals to allow dispensing doctors to sell over-the-counter medicines and for appliance contractors to meet professional and high quality standards.

We will proceed quickly with the next stages to support implementation of the actions set out here. We are holding a series of events around the country beginning on 1 May 2008, to hear views from the public, from the NHS and from the professions. We will then consult fully later this summer on some of the key proposals for structural reform needed. That consultation will take full account of the final "NHS Next Stage Review" report to be published in due course.

HOME DEPARTMENT

UK Border Agency

The Secretary of State for the Home Department (Jacqui Smith): In a statement to Parliament on the 14 November 2007, *Official Report*, column 667, my right hon. Friend the Prime Minister announced a wide range of measures to counter terrorism, increase the resilience of communities to resist extremism and to strengthen our borders. The statement announced the decision to establish a UK Border Agency, a global organisation that will improve the UK's security through stronger border protection while welcoming legitimate travellers and trade.

The new UK Border Agency is today established as a shadow agency of the Home Office. The agency's purpose and objectives are set out in its first business plan which I am laying in the House today. That purpose is clear: it is to secure our border and control migration for the benefit of our country; protecting our borders and national interests; preventing border tax fraud, smuggling and immigration crime; and implementing decisions quickly and fairly.

The UK Border Agency will unite the work of the Border and Immigration Agency, Customs detection work at the border from Her Majesty's Revenue and Customs (HMRC) and UK Visas from the Foreign and Commonwealth Office (FCO), to create an organisation with a budget of over £2 billion, 25,000 staff, and operating in local communities, at our borders, and across 135 countries worldwide. The agency will deploy unprecedented power in pursuit of its goals.

The new agency will deliver new powers to front line officers. I can announce that by the summer we will have cross conferred customs and immigration powers on over 1,000 front line staff. In addition, staff in England and Wales will be equipped with police-like powers as set out in the UK Borders Act. Passengers and goods will now be checked at a single primary line. Uniformed UK Border Agency officers will protect the UK searching for signs of smuggled goods or immigration abuse and will have new powers to improve their ability to detain suspected law breakers. Legislation to provide for full integration of customs staff will be presented to the House shortly. Wider powers demand tough accountability. The Independent Police Complaints Commission has therefore taken over investigation of individual cases from 25 February and we intend to appoint an independent inspector of the UKBA shortly.

Further, the new agency will unlock a new relationship with 1,600 uniformed police officers at ports and airports and the UK's 1,400 Special Branch officers for whom funding has been increased to around £75 million. Today I am placing in the Library of the House a new framework of co-operation between the police in England, Wales and Northern Ireland. The framework establishes strategic direction for intelligence sharing and delivery of frontline operations.

In a response to a recommendation in the Cabinet Office report "Security in a Global Hub—Establishing the UK's New Border Agency Arrangements" published last November, the Home Office is working with the Association of Chief Police Officers for England, Wales and Northern Ireland to consider how policing—which is currently delivered by the local force for each port and airport—may be best organised to deliver a fuller level of integration at the border, taking into consideration the drive for greater collaboration which is at the heart of the Governments programme for improving protective services.

We are discussing with the Scottish Devolved Administration and the Association of Chief Police Officers in Scotland ways of strengthening working relationships between the Scottish police service and the new agency taking into account the devolved nature of policing in Scotland.

By working in partnership with HMRC and the FCO, the UK Border Agency will contribute to the collection of £22 billion in tax revenue and the facilitation of international trade worth £600 billion per annum.

The agency will be more powerful than today's separate forces and will therefore deliver on tougher targets. It will:

Expel 5,000 FNPs from Britain, up from 4,200 last year.

Sustain last year's increase in the seizure of class A drugs by seizing at least 2,400 kg of cocaine and 550 kg of heroin by April 2009.

Increase by 50 per cent. the number of asylum cases concluded in less than six months.

Extend the UK's visas regime to cover a larger proportion of the world's population.

Increase our detention capacity by 20 per cent. over the next two years to help us increase the number of immigration offenders we can remove from the country.

Lin Homer as chief executive will be supported by a board including an HMRC Commissioner, Mike Eland, a senior FCO representative, James Bevan and a senior police representative, Roger Baker, the Chief Constable of Essex.

I am also placing in the Library of the House a memorandum of understanding (MOU) between the Home Office and the FCO which underpins the move of UKVisas into the new global agency.

The MOU sets out the respective commitments of the Home Office and the FCO. It details the financial, resource and management framework within which the UK Border Agency's overseas operations will function. From today UK Border Agency's overseas staff, drawn from the FCO, the Home Office and from external organisations will work as an integrated team to achieve the Government's objectives for immigration and border security.

Finally on 1 April my hon. Friends the Minister of State for Borders and Immigration, and the Minister for the Middle East wrote to the Home Affairs and Foreign Affairs Select Committees outlining the new procedures for dealing with correspondence on visa-related matters. On the same day my right hon. Friend the Financial Secretary to the Treasury wrote to the Treasury Select Committee about procedures for dealing with correspondence relating to frontier detection. I am placing a copy of these letters in the Library of the House today.

PRIME MINISTER

Council of Europe/Western European Union

The Prime Minister (Mr. Gordon Brown): My right hon. Friend the Member for Cynon Valley (Ann Clywd) has been appointed as a full member of the United Kingdom Delegation to the Parliamentary Assembly of the Council of Europe and the Assembly of Western European Union in place of my hon. Friend the Member for Morecambe and Lunesdale (Geraldine Smith), my hon. Friend the Member for Lanark and Hamilton East (Jim Hood) has been appointed as a full member in place of my hon. Friend the Member for Glasgow East (Mr. David Marshall) and my hon. Friend Baroness Gale has been appointed a full member in place of my right hon. Friend Baroness Taylor of Bolton.

ATTORNEY-GENERAL

Plea Negotiation (Fraud Cases)

The Solicitor-General (Vera Baird): My right hon. Friend the Attorney-General has made the following written ministerial statement:

"The Government have today issued a consultation paper on a possible Plea Negotiation Framework for introduction in England and Wales. The consultation period will run for three months and we are keen to hear from as many people as possible.

The consultation paper gives effect to one of the key recommendations of the Fraud Review published in July 2006, which was itself subject to a period of public consultation. The relevant recommendations in the review attracted a good deal of public support and my predecessor established a Working Group to devise an appropriate framework. That Working Group was chaired by Stephen Hockman QC, former chairman of the Bar Council, and consisted of representatives drawn from across the criminal justice system. The framework that group devised is the centrepiece of the consultation paper".

TRANSPORT

EU Transport Council

The Minister of State, Department for Transport (Ms Rosie Winterton): I will attend the first Transport Council of the Slovenian Presidency which takes place in Luxembourg on 7 April.

There will be a progress report and policy debate on three proposals in road transport: a recast regulation on common rules for access to the international road haulage market; a regulation on common rules concerning the conditions to be complied with in order to pursue the occupation of road transport operator; and a recast regulation on common rules for access to the market for coach and bus services. The Government welcome the intention to clarify and simplify the existing provisions. The proposed changes in the legislation should maintain and improve road safety while minimising the burdens on industry and they should help to reduce distortion of competition through greater levelling of enforcement and compliance between the UK and other EU road haulage and coach operators. However, we have some reservations, particularly in relation to the proposed definition of cabotage, the responsibilities of transport managers and the information to be included in the interoperable national enforcement registers. I will be raising these issues at the Council.

On rail freight, the Council will be asked to adopt conclusions on the Commission Communication "Towards a rail network giving priority to freight". The conclusions broadly welcome the Communication and invite the Commission to devise measures to achieve the efficient operation of international rail freight services along cross-border corridors, mainly through improved co-operation between national infrastructure managers. Key UK concerns with the communication have been addressed satisfactorily in the conclusions: the Commission's suggestion of giving "priority to international freight" over domestic rail traffic (a problem for the UK and many other member states with mixed, passenger and freight, traffic) has been substituted with a more general objective of "facilitating efficient flows of international rail freight"; the Commission's apparent preference for new legislation to achieve its objective has been mitigated by an invitation to consider also the consistent implementation and rigorous enforcement of existing EC legislation, alongside new legislation where this may be required; and the Commission has been invited to develop relevant alternative proposals on the basis of an appropriate analysis of their impact and their relative costs and benefits and in accordance with the principles of Better Regulation. The UK can be satisfied with this successful outcome which will enable it to support these Conclusions in Council.

In November, Ministers agreed conclusions on the Galileo satellite navigation programme defining the general principles for a public sector governance and procurement strategy for the programme. This Council will be asked to reach a general approach on the text of a regulation to implement the agreement reached in November. The Government have sought to ensure the current text of the regulation provides for the implementation of sound project management principles where the risks can be effectively managed, a fair and competitive playing field

for suppliers at all levels, including SMEs, and robust measures for the control of costs. I believe the current text meets the UK's objectives. A number of issues remain under negotiation including the role and responsibilities of the European Parliament and ensuring a clear division of tasks between the Commission and the Galileo supervisory authority in the programme. It is possible that some of these will have to be resolved in discussions at Council itself. The Government are keen to ensure an efficient decision-making process, project management and governance structure.

The Council will be asked to reach a political agreement on a directive on airport charges, which aims to establish a framework of common principles as to how airports determine their charges for aircraft landing, take-off and handling of passengers. As well as setting standards for transparency and consultation, the directive requires an independent supervisory body to intervene in the case of disagreement over a decision on charges. As part of a political agreement, the UK supports the adoption of certain amendments proposed by the European Parliament where they strike a balance between the interests of airlines and airports without imposing unnecessary or disproportionate regulation.

The Council will also be asked to reach a general approach on a regulation on a code of conduct for computerised reservation systems, to replace the existing Regulation 2299/89. The UK supports the proposed general approach that aims to update and simplify the existing code and bring it into line with other European legislation, while maintaining safeguards against anti-competitive behaviour.

The Council will be asked to adopt conclusions relating to a Commission Communication entitled "An agenda for a Sustainable Future in General and Business Aviation". The draft conclusions welcome the Commission's overview of the sector and its coherent position on the future development of general and business aviation. We welcome recognition of the need for proportionality in any future European regulation, given the diverse nature of general and business aviation activities. We support the conclusions, which recognise that general and business aviation provides important social and economic benefits, and that there should be a common set of data on this sector, in order to contribute to safety improvements and a better understanding of the sector.

There will be progress reports and policy debates on two current legislative proposals in maritime transport. These are a directive on compliance with flag state requirements and a directive on the civil liability and financial guarantees of ship owners. The Government have consistently argued that the Commission has yet to establish either a compelling need or a robust better regulation case for these proposals. We recognise that the Slovenian Presidency has made a significant effort to reach an agreed compromise on these proposals. Despite this effort, however, the majority of the member states, including the UK, are continuing to voice their strong concerns on both proposals and agreement is unlikely in the near future. There are five other maritime safety, measures (ship classification, accident investigation, port-state control, vessel-traffic monitoring and carrier liability) which risk being delayed due to the ongoing discussion on flag state and civil liability. The Government consider that it is more important to finalise these five other proposals rather than to continue to pursue agreement on flag state and civil liability at the present time.

TRANSPORT

Safety, Service Delivery and Logistics Group

The Parliamentary Under-Secretary of State for Transport (Jim Fitzpatrick): My right hon. Friend the Secretary of State for Transport has set a range of high-level targets for the 2008-09 year on behalf of the agencies within the Safety, Service Delivery and Logistics Group; the Driving Standards Agency, the Driver and Vehicle Licensing Agency, the Vehicle Certification Agency, the Vehicle and Operator Services Agency and the Government Car Despatch Agency. They are included in the Agencies' Business Plans together with their associated measures. The plans also include a range of management targets, performance indicators and key tasks which are appropriate to the agencies' businesses. Copies of the business plans will be placed in the Libraries of both Houses shortly.

The Key Targets for the Driving Standards Agency are:
Secretary of State Targets (target measures are italicised)

To achieve customer satisfaction with the overall service received at 90% for candidates and 73% for business customers.

To deliver 6,000 Arrive Alive presentations to include 10% or more targeted at special needs groups such as young offenders, older drivers and people with disabilities.

Initiate 5 pilot projects aimed at improving driver education and training and raining the driving standards of high risk groups such as young novice drivers.

Introduce new EU compliant CPC qualification for bus and coach drivers by 10 September 2008.

In order to deliver the new EU motorcycle test:
Develop a network of off-road manoeuvring areas for motorcyclists
By 29 September 2008 ensure that 51% or more of the population of Great Britain is within 45 minutes or 20 miles of such a facility

To reduce the level of impersonations we will progress to conclusion, by 31 March 2009, 750 investigations in relation to impersonation or identity fraud, and seek prosecutions where applicable.

Achieve online bookings of 65% for all existing services by 31 March 2009.

Deliver the first year of the Comprehensive Spending Review by achieving £6 million of efficiency savings. Maximise productivity by improved attendance management to reduce sick absence to an average of no more than 10 days per employee.

Secretary of State Targets (target measures are italicised)

The Key Targets for the Driver and Vehicle Licensing Agency are:

Maintain or improve customer satisfaction by private motorists to 90% and commercial customers to 90%.

Maintain or improve on the standard of services to the customer.
To achieve at least 16 out of the 18 customer service measures.

Accuracy (traceability)—increase the accuracy of the vehicle and driver register by being able to trace registered keepers from the record in 95% of cases.

Secretary of State Targets (target measures are italicised)

Launch 24/7 electronic access to vehicle and driver details for approved enquiries by Police Force or Court partners from September 2008.

Collect around £5 billion of VED and through enforcement action collect £30 million.

By restraining transaction unit costs and through other initiatives deliver financial savings of £19.5 million.

Increase customer take-up of electronic transaction channels by March 2009 to 42%.

Reduce average number of days absence for 2008-09 to 10.2.

Secretary of State Targets (target measures are italicised)

The Key Targets for the Vehicle Certification Agency are:

To provide a class-leading service in type approval and certification.
90% turnaround of system and component type approval certificates within 9 working days.
98% of appraisal reports on technical performance from independent panel members deemed to have no critical defects

Maintain or improve customer satisfaction.
Achieve an average of 85% of customer satisfaction ratings across all measures.

Delivery of services under the terms of the Recast Framework Directive
To have the systems and processes in place to deliver ECWVTA and National Small Series Type Approval under the Recast Framework Directive by March 2009

To ensure the continued consistency and quality of VCA's type approvals.
Carry out a programme of Conformity of Production verifications in accordance with the provisions of Directive 70/156.
Development of a mechanism so that a risk-based approach to Conformity of Production verifications can be implemented in 2009/10
To carry out a programme of conformity of production inspections for dangerous goods packaging

To monitor compliance of safety critical vehicle systems and components in the UK marketplace to meet EU standards.
To deliver the agreed 08/09 DfT test and enforcement programme.

To carry out and enforce an annual programme of in-service emissions testing.
Complete agreed 08/09 DfT in-service emissions test programme

To achieve efficiency savings consistent with the CSR07 settlement, whilst investing in VCA infrastructure and skills.
Delivery of the first year of the CSR 07 Efficiency plan of a reduction in DEL cover over 2007-08 of £300k by:
Increase utilisation to 62% or above in line with VCA's 10/11 end state of 65%
Invest £150,000 in professional skills and capability development.
Achieving a surplus on full cost basis in excess of £50,000.

The Key Targets for the Vehicle and Operator Services Agency are: Secretary of State Targets (target measures are italicised)

To maintain or improve overall customer satisfaction on 07-08 levels of 87%

Increase the range of electronic services available to citizens and businesses—4 new electronic services available by 31 March 09.
Book and pay for bulk annual tests online.
Receive updates on changes to legislation and standards.
Start application process for technical tests with forms available online.
Where requested, be reminded of private vehicle MOT test date by e-channels.

Improve the quality and availability of commercial vehicle tests
85% of tests at test station of choice within one working day of requested date, for tests booked at least 10 days in advance.

The Key Targets for the Vehicle and Operator Services Agency are: Secretary of State Targets (target measures are italicised)

Improve road safety through better targeting of non-compliant operators, vehicles and drivers
Deliver a programme of increased enforcement activities at hotspots on the strategic road network, contributing to a 15% increase in the number of dangerous vehicles and drivers being taken off the road compared with 07/08.

Improve the quality and consistency of vehicle testing
4% reduction in vehicles with a wrong MOT test result compared to 07/08
10% improvement in consistency of commercial vehicle tests compared to 07/08 national average
Implement a revised headlamp aim test.

Reduce the administrative burden of commercial operation.
Deliver DfT plan for graduated fixed penalties and deposits
Implement simplified fees structure for licensing and annual roadworthiness testing in readiness for implementation in April 2009.

Deliver 1st year of the 3 year CSR07 plan.
Reduce the cost base, excluding depreciation, by £4 million.
Reduce the average number of days lost per employee through sickness absence to 9.5 days (and 7.5 days by 2010/11)

Increase the take-up of existing electronic services available to customers to 32%.

Secretary of State Targets (target measures are italicised)

The Key Targets for the Government Car and Despatch Agency are:

Maintain a Customer Satisfaction index (CSI) score of at least 87

To maintain accreditation for ISO 9001
The quality of service is measured by means of ISO 9001, the internationally recognised standard for quality Management Systems

To maintain accreditation for ISO 14001.
Measured by means of ISO 14001, the internationally recognised standard for environmental Management Systems.

By March 2009 to reduce average CO2 tailpipe emissions of our fleet by at least 5% compared with March 2008 levels

To break even on an accruals basis.
As a not-for-profit organisation GCDA aims to recover costs. In delivering this target we will seek to ensure that our administration is as effective as possible, delivering excellent value for money to our customers

To reduce sickness absence rates to 8 days per employee per annum

To commission an online payment system for customers

Local Transport Bill

The Minister of State, Department for Transport (Ms Rosie Winterton): The Local Transport Bill will empower local authorities to deliver bus services that better meet the needs of their local communities. Among other things, it will enable quality partnership schemes to make more of a difference, by allowing them to cover frequencies, timings and maximum fares where there are no "admissible objections" from "relevant operators".

The Quality Partnership Scheme model was introduced by the Transport Act 2000 as a means by which a local authority agreed to invest in improved facilities at specific locations along bus routes (for example, bus stops or bus lanes) and operators who wish to use those facilities agree to provide services of a particular standard (for example, new buses, or driver training standards).

The Bill includes a power for the Secretary of State (and the Welsh Ministers) to make regulations defining the terms "admissible objections" and "relevant operators".

To assist the Public Bill Committee's consideration of the Bill, the Government will shortly be publishing a pre-consultation draft of these regulations, along with an updated draft of the supporting guidance which was first published in December 2007. The draft regulations and guidance relate to England only.

The draft regulations and guidance will be made available on the Department for Transport website, and copies will be placed in the Libraries of both Houses.

Biofuels and Tallow

The Parliamentary Under-Secretary of State for Transport (Jim Fitzpatrick): During the debate on the draft Renewable Transport Fuel Obligations Order in the House of Commons Seventh Delegated Legislation Committee on 23 October 2007, I agreed to commission a review of the likely impacts of the Renewable Transport Fuel Obligation (RTFO) on the other UK industries which use tallow as a feedstock. I said that in the light of the review's findings, the Government would consider whether changes needed to, and could, be made to the design of the RTFO.

The Government are keen to publish the review prior to the start of the RTFO on 15 April. The review will therefore need to be published during recess, and I will arrange for copies to be placed in the Libraries of both Houses.

The Government will take the findings of the review into account in EU negotiations on the renewable energy directive as well as in policy decisions on the future design of the RTFO. The Government will also ensure that the review's findings are fed into the review of the wider, "displacement" impacts of biofuels which was announced by Ruth Kelly on 21 February, and which will be reporting in June.

WORK AND PENSIONS

Disability Benefits (European Court of Justice)

The Parliamentary Under-Secretary of State for Work and Pensions (Mrs. Anne McGuire): I notified the House on 13 December that following the European Court of Justice decision of 18 October 2007 I would publish details of the eligibility criteria for payment of the disability benefits (Disability Living Allowance (care component), Attendance Allowance and Carer's Allowance) within the European Economic area and Switzerland (EEA). I have now arranged for information to be placed on the Directgov (www.direct.gov.uk) and the Department for Work and Pensions (www.dwp.gov.uk) websites. This sets out which categories of customers in receipt of the benefits may continue to be paid if they move to another EEA state.

The interpretation of the judgment is particularly complex as these disability benefits are different in some respects to the other benefits covered by the European Regulations. My officials are continuing their discussions with the European Commission on the eligibility of people already living in another EEA state who wish to claim from abroad. I will place further information on the websites once these discussions are complete.

A specialist section has been set up in the Pension, Disability and Carers Service to deal with queries. Customers who would like more information about the effects of the judgment should contact the address below:

Website: www.direct.gov.uk

Address: Exportability Co-ordinator,

Pension, Disability and Carers Service,

RoomB120D,

Warbreck House,

Warbreck Hill Rd, FY2 OYE.

Email: exportability.team@dwp.gsi.gov.uk

We anticipate that first payments will start to be made to eligible claimants from later this month.

Lone Parents

The Minister for Employment and Welfare Reform (Mr. Stephen Timms): The Government are committed to continuing their work to eradicate child poverty and help all individuals reach their full potential by moving from unemployment and welfare dependency to paid work.

We announced in the command paper "Ready for Work: Full Employment in our Generation" our intention to require lone parents with older children who can work to look for work. This means that lone parents will no longer be entitled to income support solely on the grounds of being a lone parent. Instead, those who are able to look for paid work will make a claim for jobseeker's allowance and be required to seek suitable employment actively.

We announced our expectation that this change would be introduced from October 2008 for lone parents with a youngest child aged 12 or over, and then from October 2009 and October 2010 when the youngest child turns 10 and 7 respectively.

I now intend that the arrangements for new and repeat lone parent customers with a youngest child of 12 or over will take affect a month later, in November 2008, to allow time to consider some additional flexibilities to jobseeker's allowance. The Government have been working closely with a range of groups who represent the interests of lone parents and has had early advice from the Social Security Advisory Committee. Additional flexibilities to jobseeker's allowance have been suggested to meet the specific needs of lone parents.

The Government intend to take forward a number of these suggestions in connection with proposals for regulations that I will provide to the Social Security Advisory Committee. I believe that the proposals will strike the right balance to ensure that jobseeker's allowance remains focused on helping people look for paid work while accommodating the varied and individual circumstances that lone parents will face.

As has been discussed with lone parent stakeholder groups, we intend that existing lone parent recipients of income support with a youngest child aged 12 or over will be progressively moved from income support from early 2009.

Written Ministerial Statements

Monday 21 April 2008

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Correction to Parliamentary Answer

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Joan Ruddock):

An error has been identified in the figures in the table to the written answer given to the hon. Member for Falmouth and Camborne, (Julia Goldsworthy), 31 March 2008, *Official Report*, columns 503-10W.

Instead of providing the municipal waste sent to landfill by each local authority, the total municipal waste for each had been presented. The text of the answer correctly referred to waste to landfill; the numbers were incorrect for all years.

The correct figures are given below.

Municipal Waste to Landfill, per Person (kg per year)

FOREIGN AND COMMONWEALTH OFFICE

Zimbabwe

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): The constitutional crisis in Zimbabwe continues as President Mugabe persists in his ambition to steal the election. It is over three weeks since the elections were held but the Zimbabwe Electoral Commission is yet to announce the presidential results. More worryingly President Mugabe and his ZANU(PF) party have unleashed a campaign of violence against those ordinary Zimbabweans, 60 per cent. of them, who in spite of everything voted against him. Political refugees from the rural areas that were once President Mugabe's heartlands but have had the courage to express their opposition peacefully through the ballot box have been pouring into urban centres to receive medical treatment and support. Local and international NGOs are highlighting these abuses daily. Evidence that they are taking place is irrefutable. I believe all would join the Government in condemning absolutely these acts of violence which are cynically intended to punish people for the choices they have made and to intimidate them into submission should any second round of the presidential election be called.

Meanwhile in spite of numerous legal protests by the opposition, the Electoral Commission has begun a recount in 23 constituencies. No one can have any faith in this recount. The ballot boxes have been kept in uncertain conditions. The Electoral Commission has seen 13 of their number arrested in a clear effort to threaten and punish those who did their job independently. The count itself is proceeding at a ludicrously slow rate. This only serves to fuel suspicion that President Mugabe is seeking to reverse the results that have been published, to regain a majority in Parliament, and to amplify his own count in the presidential election. If that is the case, then what we are witnessing is a charade of democracy. We can have little confidence that whatever is ultimately announced as the presidential election results will not have been sullied and contaminated by rigging during this recount.

We continue to engage intensively to resolve this crisis and our action is focused in three areas. First, we continue to work to support all those working for democratic change in Zimbabwe. In spite of the challenges they face, civil society in Zimbabwe remains committed to democratic and peaceful change. We applaud and support their efforts.

Secondly, we continue to work with states in the region. We believe they are still best placed to apply pressure on President Mugabe and those who surround him, many of whom recognise that it is time for change. I welcome the statements of the African Union and of the Southern African Development Community calling for the presidential results to be released. That SADC states met in an extraordinary session in Lusaka and discussed Zimbabwe and its crisis for over 13 hours shows their concern at what is happening and the threat that it poses to the stability and security of their region. But, as the former UN Secretary-General Kofi Annan said, it is important that African leaders do more to engage directly in this crisis to help resolve it. The reaction of South African dockers to the direction to unload arms they believed destined for Zimbabwe shows that ordinary Africans do not condone the way in which President Mugabe is clinging to power and beating his own people to death to ensure he retains it. If President Mugabe and those who keep him in office will listen to anyone, they will listen to their peers in the region and in Africa more widely. But if they will not, Africans and their organisations should be clear in their public condemnation of what is happening and should withhold their recognition of President Mugabe's regime. His actions pose a threat to democracy and to the values that the SADC and the AU espouse. Democratic legitimacy throughout Africa is at stake.

Thirdly, we are working through the international community as it remains united in standing up for democracy, it reinforces the confidence of democratic forces, and speaks with a clear voice about the value not just to Zimbabwe but to the whole region of following the will of the people. At the UN Security Council session in New York last week, my right hon. Friend the Prime Minister joined other voices from Africa, Europe and Latin America, along with the UN Secretary-General in calling for the election results to be released and in condemning the delay and violence. The UN Secretary-General has called for international monitors to observe any second round in Zimbabwe. We support that call and underline, as SADC leaders themselves did when meeting in Lusaka, that SADC observers must return now to observe the recount. They should be present in Zimbabwe until the election results are announced, so they may witness and ideally prevent the violence that is now occurring.

The European Union, the USA, Canada, Australia, New Zealand, Brazil and many other states have called both for restraint within Zimbabwe and for credible results now to be released. My right hon. Friend the Prime Minister, my noble Friend Lord Malloch-Brown and I continue to engage in intensive private discussions with African leaders and others with influence within Zimbabwe and the region. Our message is simple. Zimbabwe is on a knife edge: inflation is incalculable, life expectancy the lowest in the world and human rights abuses commonplace. Those metrics will all deteriorate if President Mugabe is allowed to steal this election. But if a Government that reflects the will of the people is allowed to emerge, Zimbabwe can begin the painful journey to recovery and once again become a full part of the international community.

Britain has always supported the Zimbabwean people. We are the second largest bilateral donor. We spent £45 million last year on support for the poorest and most vulnerable Zimbabweans. Our support helped feed up to 3 million people and provided treatment for more than 30,000 HIV/AIDS patients. That support will continue. It has become even more necessary in this period when President Mugabe has unleashed his youth militia on the people. But when there is positive change on the ground in Zimbabwe and a Government who are prepared to introduce sound governance and respond to the needs of ordinary Zimbabweans, Britain will play a full part in supporting recovery and development. It will be a huge task. But the Zimbabwean people will have the full support of the UK and the wider international community. The UK and other donors are ready to give that support when there is a return to real democracy and good governance within Zimbabwe.

I am sure the whole House will join the Government in committing themselves to working tirelessly for that day.

HEALTH

National Deep Clean Programme

The Secretary of State for Health (Alan Johnson): Further to the written ministerial statements given on 21 November 2007, *Official Report*, column 134WS and 17 January 2008, *Official Report*, column 38WS strategic health authorities (SHAs) have confirmed that 97 per cent. of trusts have now completed a deep clean as part of the comprehensive national programme of deep cleaning.

Three hundred and twenty eight trusts agreed plans with SHAs as part of this national deep cleaning programme. As well as all 170 acute trusts, this included many primary care trusts with inpatient facilities, mental health trusts, learning disability trusts and ambulance trusts. All 328 trusts had started their deep clean programmes and 308 trusts, (94 per cent.) had completed their deep clean by the end of 31 March.

Since 31 March 2008, a further 11 trusts have now completed their deep clean programmes, bringing the total to 319 trusts. Nine trusts are still undertaking their deep clean and all are due to complete by the end of May 2008. There are valid reasons for trusts to complete after 31 March 2008, such as significant refurbishments or reasons relating to patient safety.

Information provided by SHAs shows that they have all made available the funding they promised for the programme, as set out in the written ministerial statement on 21 November 2007. In addition, SHA North West increased its planned expenditure by £5.1 million, as primary care trusts in the north-west provided additional funding to improve local services. The final total funding therefore made available for this programme at a regional level was £62.6 million.

Clean hospitals are essential for high quality, comfortable patient care. High standards of cleanliness also encourage a focus on infection control and provide a platform for consistent hand cleaning and thorough cleaning of beds between patients. Deep cleaning is part of a comprehensive range of measures to improve cleanliness and tackle infections set out in the strategy "Clean, Safe Care: Reducing Infections and Saving Lives".

The NHS will maintain the high standards of cleanliness that the current programme has provided. This will be monitored and performance managed at a local level. Deep cleaning will be included in patient environment action team inspection programme from next year. Specialist Healthcare Commission inspections began this month against the code of practice for the prevention and control of healthcare associated infections so all acute trusts will be inspected every year on their clean environment. We will also publish best practice guidance on deep cleaning later on this year to help hospitals continue to achieve the best possible environment for patient care.

A list of the trusts which have undertaken or are undertaking a deep clean as part of this national programme has been placed in the Library and copies are available to hon. Members from the Vote Office.

Health Pay Review Bodies

The Secretary of State for Health (Alan Johnson): I am responding on behalf of my right hon. Friend the Prime Minister to the thirty-seventh report of the review body on doctors' and dentists' remuneration (DDRB) (Cm 7327) and the twenty-third report of the NHS pay review body (NHSPRB) (Cm 7337) which were laid before Parliament on 7 April 2008[1]. Copies of the reports are available in the Vote Office and the Library. I am grateful to the chairs and members of the review bodies for their hard work.

The DDRB has recommended that the national salary scales for all salaried doctors and dentists, and the top and bottom of the salary range for salaried general medical practitioners, should be increased by 2.2 per cent. for 2008-09. For general dental practitioners (GDPs), the DDRB has recommended a 3.4 per cent. increase in the gross earnings base. The DDRB intend this to result in an increase in GDPs' net income of 2.2 per cent.

With regard to independent contractor general medical practitioners (GMPs), DDRB have recognised in their report that there are significant, unwarranted variations in GMP income caused solely by the operation of the minimum practice income guarantee (MPIG) regardless of the workload and patient care provided by individual GMPs and their practices. They note the evidence presented to them that GMP income varied from £54.72 per patient (where there was no MPIG) to £120 per patient (where there was MPIG). In making their recommendations, including the 2.7 per cent. uplift to a GMP's global sum, the DDRB acknowledged, and therefore clearly intended, that the practical implication of their recommendations was that most practices would not receive any increase in their global sum. This is predicated on any increase in global sum being offset against the correction factor in MPIG. The Department estimates that implementing these recommendations means the 6 to 7 per cent. of GMS practices without any MPIG would receive an increase in their global sum payments of 2.7 per cent. in 2008-09. A further 2 per cent. of practices will receive some extra increase in payments as their current correction factor will be less than their increase in global sum.

In addition to any DDRB recommendations, we have guaranteed to the profession that once the costs of implementing the recommendations of the DDRB have been agreed with the British Medical Association, the Government will ensure up to 1.5 per cent. of new investment is available across all practices for providing more services or improving the quality of care and provision to existing patients.

The DDRB's pay recommendations have been accepted in full by the Government, without staging. However, in taking forward the DDRB's recommendations on GMP pay there remain issues that will require further consultation with the BMA before they can be implemented and that will delay payments to GMPs.

The NHSPRB has recommended an increase in the 'Agenda for Change' pay rates of 2.75 per cent. from 1 April 2008. The NHSPRB has also recommended that the high cost area supplements and existing national recruitment and retention premia should be increased by 2.75 per cent.

On 7 April 2008, I announced that the Department has agreed with NHS employers, UNISON and the Royal College of Nursing a proposed three-year pay package for all NHS 'Agenda for Change' staff which incorporates the acceptance of the NHS pay review body recommendations for 2008-09 in full. The proposed three-year package is now subject to consultation by members of all the trade unions covered by 'Agenda for Change'. It includes:

acceptance in full of the 2008-09 NHS Pay Review Body's (NHSPRB) recommendations for a 2.75 per cent. pay rise for staff on 'Agenda for Change' from 1 April 2008;

2.4 per cent headline award in 2009-10; 2.25 per cent. headline award in 2010-11; and

additional changes to the pay structure in years 2 and 3 that would give extra financial support for the lowest paid workers, allow quicker progression up the pay ladder and increase the earning potential for hundreds of thousands of staff.

If trade union members reject the proposed three-year deal, we will need to review the NHSPRB's recommendations and consider whether to accept, stage or abate them in the context of a one year settlement.

I apologise that we were unable to announce these decisions to Parliament in the normal way before making them more widely available. Unfortunately, it was not possible to do this before the Easter recess as pay negotiations had not concluded. I also felt that it would cause an unnecessary delay in the consultation process and thus the payment of the award to staff if we had waited until Parliament returned on 21 April before making these important announcements.

[1] Cm 7337 was laid on 7 April in its pre-publication form as the printed version was not available. This version has now been withdrawn and replaced with the printed version.

HOME DEPARTMENT

Prevention of Terrorism Act 2005 (Third Annual Report)

The Secretary of State for the Home Department (Jacqui Smith): In accordance with section 14 (3), 14 (4) and 14 (5) of the Prevention of Terrorism Act 2005, Lord Carlile of Berriew QC prepared a report on the operation of the Act in 2007, which the Minister for Security, Counter-Terrorism, Crime and Policing, laid before the House on 18 February 2008.

I am grateful to Lord Carlile for another considered review. Following consultation within my Department and with other relevant agencies, I am laying my response to Lord Carlile's recommendations before Parliament today.

I am also laying my response to the report on the renewal of the control order legislation by the Joint Committee on Human Rights (published on 20 February 2008) before Parliament today.

JUSTICE

Public Law Family Proceedings (Court Fees)

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): I am today announcing the outcome of the recent consultation on "Public Law Family Fees". The consultation published on 19 December 2007 and the consultation closed on 11 March 2008. One hundred and eleven responses were received from local authorities, law professionals, the judiciary and other stakeholder bodies.

After careful consideration of these, my right hon. Friend the Lord Chancellor and Secretary of State for Justice has decided to proceed with the increases proposed. The Statutory Instruments were laid before Parliament on 9 April 2008.

During the course of consultation, the Government introduced an adjustment into the local government finance settlement figures to make visible the sums attributable to these proposals. The purpose of this adjustment was to ensure that a valid comparison could be made between 2007-08 and 2008-09 for each authority's grant increase. The authorities generally now recognise that funding has been made available within the revenue support grant. Indeed, the total of £40 million is likely to exceed the total fees payable because it assumes that the maximum fee is paid in each case. In reality, some cases following the new 'Public Law Outline' procedure (implemented this month, introduces revised judicial case management procedures to be introduced in all family courts) will be resolved at earlier stages and pay a lower fee. I therefore believe that we have responded in full to those responses that objected to the proposals on the basis that it was not clear that authorities had been funded, or that they had been insufficiently funded, to pay these fees.

The second main theme of the responses was that authorities would be improperly influenced by financial considerations and would not always act in the best interests of children. Local authorities are under a statutory duty to protect children at risk of significant harm. Both the Local Government Association and the Association of Directors of Children's Services, in their responses to the consultation, confirmed that local authorities are not influenced by cost considerations in their approach to initiating proceedings or in their decisions about appropriate pre-proceedings work. The practical effect of the statutory duty in this instance is to require authorities to ensure that adequate budgetary provision is made to pay the necessary court fees, and to ensure that individual decisions are not affected by budgetary considerations. In practice, most local authorities pay court fees from a legal department or similar central budget, rather than from a children's services budget that is the responsibility of individual social workers making decisions on the ground, with the cost of court fees being a small proportion of the overall cost of child care proceedings. For these reasons, I am satisfied that the proposals do not in fact create a risk that local authorities will neglect their statutory duty causing children to be harmed.

These fee increases are necessary to ensure that the family courts are properly funded and are designed to

fit with wider reforms on child protection proceedings. They are a further step in our strategy to ensure that the system of court fees is fair and sustainable, and they reflect the long-standing policy of Governments of all persuasions that statutory fees should generally be set at a level that recovers the cost of the service provided (but no more).

The current proposals will only affect fees paid by public bodies and not individuals. Fees for applications by parents in care and adoption proceedings will remain unchanged.

The response to the consultation paper will be published in full within the next two months.

The Freedom of Information Act 2000 - Publication of Q4 2007 Monitoring Statistics

The Minister of State, Ministry of Justice (Mr. Michael Wills): Today I have deposited copies of "The Freedom of Information Act 2000—Statistics on Implementation in Central Government: Q4 October-December 2007" in the Libraries of both Houses. Copies are also available in the Vote Office and the Printed Paper Office.

This is the quarterly monitoring statistics report analysing the performance of central Government in the third full year of freedom of information.

CABINET OFFICE

Compact on Relations between Government and the Voluntary and Community Sector

The Parliamentary Secretary, Cabinet Office (Phil Hope): I am today placing in the Library of the House copies of the report of the annual meeting to review the compact held on 13 December 2007.

The annual meeting looked at the successes of the compact and the challenges for the coming year. The joint compact action plan for 2008-09 sets out a programme of work designed to:

- Strengthen relationships and partnerships at national level, to deliver the national compact
- Strengthen relationships and partnerships at local level, supported by local and regional compacts and action plans
- Increase understanding of the role of the compact in promoting equality and community cohesion
- Strengthen the independence, voice and campaigning work of the sector
- Ensure the compact and codes are fully up to date in a changing legislative and policy environment.

Following the annual meeting, we have drawn up a more comprehensive implementation plan, to support the joint action plan, with the commission, compact voice and key delivery partners. This is available on the compact website at www.thecompact.org.uk.

This year the compact will celebrate its tenth anniversary. The Government are committed to ensuring the compact is stronger than ever. It remains integral to better partnership working and better decision making. We need to ensure that the compact becomes embedded in our day to day thinking, and that it becomes a story of change to drive better outcomes for communities and the people they serve.

The independent commission for the compact is working with Compact Voice and the Office of the Third Sector, to oversee the operation of the compact. I have appointed Sir Bert Massie as the new Commissioner for the compact, who will push for greater compliance with the compact. I have also pledged an increased investment to the Commissioner for the compact of £6 million over the next three years and nearly £1 million to Compact Voice, which represents the sector interests. This will ensure we can drive forward better partnership between Government and the third sector.

The next compact annual meeting will hold partners to account on delivery of the actions in the joint compact action plan. The Commission, Government and the sector will report to the next meeting. As part of the compact annual review 2008 report, the Minister for the Third Sector will report on progress in meeting the Government's commitment to three-year funding for the third sector.

Written Ministerial Statements

Tuesday 22 April 2008

INTERNATIONAL DEVELOPMENT

Research Strategy 2008-13

The Secretary of State for International Development (Mr. Douglas Alexander): I have placed in the Libraries of both Houses a copy of DFID's "Research Strategy 2008-13".

This strategy sets out DFID's priorities for spending up to £1 billion on research for development. It is DFID's first five-year strategy for research, replacing the Research Funding Framework 2005-07. The strategy is the product of extensive consultation with research providers and users in developing countries, in the UK and internationally, including other funders of development research.

The strategy describes why research for development is needed and DFID's unique role in the global development research effort. It identifies four inter-dependent areas where DFID will ensure its research investment achieves results. In addition it describes six thematic areas that DFID research will cover: growth; sustainable agriculture; climate change; health; governance in challenging environments and future challenges and opportunities (i.e. anticipatory research). It describes in broad terms how funding for each of these areas is likely to evolve.

The document summaries the research management structures and funding mechanisms that DFID will use to implement the strategy, as well as the type of research partnerships DFID will build.

Finally, it sets out thirteen key areas where DFID will monitor and measure the outputs of its research and report on these publicly.

Rising Food Prices (International Impact)

The Secretary of State for International Development (Mr. Douglas Alexander): Food prices have risen sharply around the world in recent months, causing serious social unrest and balance of payments problems for some countries and major funding gaps for humanitarian programmes. Most importantly, poor and vulnerable families across the world are struggling to buy enough food to meet the most basic needs.

The UK Government are calling for a co-ordinated international response to this crisis. It must deal with both immediate needs and underlying causes. Such a response has to address a range of issues including trade reform; more and better support for agricultural and rural development in poorer countries; review of the wider economic and environmental impacts of biofuel production; social protection programmes which take people out of long-term dependency on food aid; and reform of international institutions such as the UN's Food and Agriculture Organisation of the United Nations, the World Food Programme, and the Consultative Group on International Agricultural Research (CGIAR)

The UK is already doing much to tackle this agenda. We will advance the payment of budgetary support to countries badly affected by high food prices, where appropriate, and will consider the need for additional payments. We have made substantial new allocations of humanitarian assistance in recent months, in the Democratic Republic of Congo, Sudan, Afghanistan and Yemen. Today the UK is pledging an additional £30 million to support the World Food Programme's work in some of the countries most affected by food price inflation, including Zimbabwe, Somalia and Kenya in response to recent appeals.

The UK is already spending some £50 million per year on social protection and safety net programmes in Africa alone. DFID is now willing to commit an additional £25 million to Ethiopia as part of our aid framework once the future structure of the programme is agreed. This will fund the national safety net programme which reaches 7.2 million of the most vulnerable people, providing a combination of cash and food transfers that provide food and livelihood security. Additionally, DFID is ring-fencing £4 million for nutritional monitoring across Africa to ensure early identification of problems, allowing prompt and effective response where need arises.

The announcement today of £1 billion of new funding for international research includes £400 million of new funds being made available over the next five years for agricultural research. This will help to make crops more climate-resilient; tackle the pests and diseases that blight tropical agriculture, forestry, fisheries and livestock production; and find ways of reducing the post-harvest losses that can destroy up to 40 per cent. of a poor farmer's produce.

Improving food security and livelihoods for the poorest people in the world is central to the achievement of the first millennium development goal. The UK calls on other donors to back a comprehensive international response to this challenge.

TRANSPORT

Airports (Economic Regulation)

The Secretary of State for Transport (Ruth Kelly): I am today announcing a review of the economic regulation of the UK airport system, supported by a panel of experts. This recognises the points made by the Competition Commission in their interim report this morning, together with those of the aviation industry and other key stakeholders, about the potential shortcomings of the current regulatory system. If legislation is required as a result of this work, it would be taken forward in a future legislative session. Therefore we will not make changes to the basis on which the current price caps at Heathrow and Gatwick airports are set. This also applies to the cap which will take effect at Stansted from 1 April 2009.

The UK aviation industry plays a critical role in our economy contributing more than £11 billion to our national wealth and directly supporting around

200,000 jobs. The industry has seen significant change in recent years with our more global economy increasing the need for international movement of people and goods; and greater airspace liberalisation allowing passengers to benefit from more choice of flight destinations at lower prices, which has opened up opportunities that for many simply did not exist before. But this progress does not come without challenges, not least the economic constraints created by a lack of airport capacity in the UK and the global impacts of climate change.

In 2003, the Government set out a sustainable framework for the development of airport capacity over the next 30 years in the "Future of Air Transport" White Paper. This recognised the need for some expansion of airport capacity, which is why my Department recently consulted on "Adding Capacity at Heathrow Airport".

Economic regulation can play an important role in maximising the effectiveness of scarce capacity at airports in the south-east, for example by providing the right incentives to deliver necessary investment and ensure that the owners of UK airports are able to finance that investment. I welcome the Competition Commission's views, among others, that the current system needs to be reviewed to ensure it is effective for the 21st century.

It has been over 20 years since the Airports Act 1986 put in place the current regime of economic regulation and as such it is one of the oldest economic regulatory systems in the country. Much has changed since then, and there is an urgent need to consider how the framework needs to be updated to reflect today's realities. In particular, this work will look at how best to provide incentives to:

improve the passenger experience;

encourage appropriate and timely investment in additional capacity to help deliver economic growth in line with wider Government policy;

address the wider environmental impacts of aviation on airport development.

In taking this work forward, I am keen that we identify and learn from best practice from the regulatory frameworks in other industries and the Government's better regulation strategy.

We have already said in the Government's response to the House of Lords Select Committee enquiry on Economic Regulation that, if particular issues were identified as part of the Competition Commission's inquiry, we would consult at the appropriate time on the wider economic regulatory role of the CAA including the way in which airport regulation operates.

The work I am announcing today will be taken forward to complement the independent inquiry of the Competition Commission on its market review of BAA and the independent strategic review of the CAA being undertaken by Sir Joseph Pilling. It will allow me to provide well-informed evidence to the Competition Commission for their inquiry, and allow me to respond to any relevant recommendations. My Department will be advised by a panel of independent experts led by Professor Martin Cave.

The Competition Commission's report also raised a number of other issues, to which the Government will respond in due course.

WORK AND PENSIONS

Child Maintenance and Other Payments Bill

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): The Child Maintenance and Other Payments Bill currently before Parliament provides for a non-departmental public body, the Child Maintenance and Enforcement Commission, to administer the statutory scheme of child maintenance in place of the Child Support Agency.

In order to avoid delay in the establishment of the Commission expenditure is required in advance of the Bill receiving Royal Assent. The cost of this work is estimated at £2,400,000, this will be met through repayable cash advances from the Contingencies Fund pending Parliamentary approval of the Bill and of subsequent Supply Estimates.

This will cover: the recruitment of key members of staff including executive board members; changes to IT systems so that customer communications are correct following the Commission's launch; and further development of the financial and human resources system necessary for the Commission to take on its functions.

Households Below Average Income

The Secretary of State for Work and Pensions (James Purnell): The "Households Below Average Income 1994-95—2006-07 Series" was due to be published on 2 May 2008. This date of the publication was announced on the National Statistics website, in line with the National Statistics code of practice.

In the course of validating the statistics, DWP statisticians identified a small but important inaccuracy in the 2006-07 data which impacts on some of the headline figures. As a result, the DWP Statistics Head of Profession has decided to delay publication of this series, along with the Family Resources Survey and Pensioner Incomes Series reports, which are traditionally published at the same time. The "Take-up of Income Related Benefits" publication may also be delayed.

The Head of Profession's decision has been agreed by Karen Dunnell, the National Statistician, and with the Institute for Fiscal Studies, who provide an independent quality assurance role for the Department in relation to the statistical series concerned.

Publication is now expected to be in June. As before, the date of publication will be announced on the National Statistics website, in line with the National Statistics code of practice. Further details can be found in a technical note on the DWP website.

Written Ministerial Statements

Wednesday 23 April 2008

BUSINESS, ENTERPRISE AND REGULATORY REFORM

EU Competitiveness Council

The Parliamentary Under-Secretary of State for Business, Enterprise and Regulatory Reform (Mr. Gareth Thomas): My noble Friend Baroness Vadera, Parliamentary Under-Secretary of State for Business and Competitiveness, has today made the following statement:

The following statement provides information on the Informal Competitiveness Council in Brdo, Slovenia on 16 April 2008, at which I represented the UK. The meeting was chaired by Andrej Vizjak, Slovenian Economics Minister.

The theme of the morning session was "From SME Policy to High Growth Innovative Enterprise Policy", with a discussion on the key challenges SMEs face in their growth phase. This session provided an opportunity for competitiveness ministers to give their views on the forthcoming EU "Small Business Act" before the Commission's proposal expected in July. The Council agreed that the growth potential and flexibility of small and medium-sized enterprises are key forces driving economic growth, productivity and improving competitiveness. There was also a large degree of consensus on the importance of tackling regulatory burdens on small business. I intervened to outline the UK response to the Commission consultation, and our priority areas:

An ambitious package of better regulation measures to bring about a step change in how the EU develops policy and legislation to better address the needs of SMEs, including through specific measures such as exemptions or simplifications in the 'think small first' policy, and other specific measures.

Increasing access to finance for SMEs through action to address supply and demand side market failures, underpinned by commercial solutions, focusing on removing barriers to cross border investment in venture capital and developing a common EU regime for private placement of investment funds.

Action to make it easier for SMEs to trade in the Single Market and beyond.

The importance of innovation and having a single speedy and low cost EU patent system.

In the afternoon session, there was a discussion of "The Business of Climate Change"—sustainable industrial policy and the commercial opportunities of climate change mitigation. The European Commission intends to publish a Communication on this subject in May 2008, including a number of directives related to environmental performance of products. I intervened to encourage a market-based approach, emphasise the opportunities for industry of a shift to a low carbon economy, and to stress the crucial role of the emissions trading scheme in internalising the price of carbon in the market and the importance of openness to international trade.

Commission Vice-President Verheugen also briefly updated the Council on the work of the Transatlantic Economic Council.

TREASURY

OGCbuying.solutions

The Exchequer Secretary to the Treasury (Angela Eagle): OGCbuying.solutions has been set four performance targets for 2008-09. These are as follows:

To facilitate at least £725 million value for money improvements for the public sector in 2008-09;

to achieve an overall customer satisfaction level of above 90 per cent.;

to make a return on capital employed of 6.5 per cent. over a five year period; and

to reduce by 5 per cent. the ratio of internal costs over value for money improvements with the outturn for the same ratio in 2006-07 proportionate to cashable savings.

INNOVATION, UNIVERSITIES AND SKILLS

Research Excellence Framework

The Secretary of State for Innovation, Universities and Skills (Mr. John Denham): I have decided on the next steps for the implementation and development of the Research Excellence Framework. We will move towards a single unified funding and assessment framework for all subject areas as originally planned, but within this, the balance of metric indicators, including bibliometrics, and light touch expert review will vary according to the subject. In order to allow sufficient time to develop this more flexible approach, the Higher Education Funding Council for England (HEFCE) will now build an additional 12 months into the timetable for designing the new framework.

The extra time allowed for testing and piloting will give maximum assurance that the new arrangements are workable, without compromising our overall objective of having them fully operational in time for the beginning of academic year 2014-15.

HEFCE have reported to me the outcome of the recent UK-wide consultation exercise on the assessment and funding of higher education research post-2008. The consultation responses indicated broad support for the proposals but highlighted some concerns about the timetable for developing and piloting the proposals as well as about the demarcation between the sciences and all other subjects.

Government Chemist Review

The Minister for Science and Innovation (Ian Pearson): The eleventh annual review of the Government Chemist has been received. The review will be laid before the Scottish Parliament and copies will be placed in the Libraries of the House plus those of the devolved Administrations in Wales, and Northern Ireland.

JUSTICE

Legal Services Board

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): The Legal Services Act received Royal Assent on 30 October 2007. Two of the key elements of the Act are the provision of a Legal Services Board (LSB) and the establishment of an Office For Legal Complaints (OLC). The LSB will be an overarching regulator and the OLC will deal with all complaints about regulated legal service providers.

I am pleased to announce that, in consultation with the Lord Chief Justice of England and Wales, I have appointed David Edmonds to the position of chair of the LSB. Mr Edmonds will take up post from 1 May 2008. The appointment will run for three years.

Mr Edmonds is currently non-executive chairman of NHS Direct and a Legal Services Commissioner. He has previously been Director General of Telecommunications (Oftel), Managing Director of Group Central Services at the Natwest Group, and Chief Executive of the Housing Corporation.

NORTHERN IRELAND

Northern Ireland Prison Service

The Minister of State, Northern Ireland Office (Paul Goggins): I have placed copies of the Northern Ireland Prison Service's corporate and business plan for 2008-11 in the Libraries of both Houses.

The corporate and business plan contains key performance targets I have set for the service for 2008-09. These are:

1. No escape for category A prisoners.

2. No more than three escapes per categories B, C or D prisoners.

3. The number of staff assaulted by prisoners is less than a ratio of three per 100 prisoners.

4. The number of prisoners assaulted by prisoners is less than a ratio of four per 100 prisoners.

5. An average of at least 20 hours constructive activity per week for each sentenced prisoner.

6. An average of at least 10 hours constructive activity per week for each remand prisoner.

7. To ensure 87 per cent. of prisoners serving six months or more are working to a resettlement plan and that 97 per cent. of lifers work to a life sentence plan, including preparation of the plan, within the first six months of sentence.

8. Each member of staff should receive an average of five training days.

9. Reduce the rate of absenteeism to 12 days per head by 2008-09 with an overall reduction to 11 days by 2009-10.

10. Lay the Annual Report and Audited Accounts before Parliament prior to the summer recess.

11. Ensure the average cost per prisoner place does not exceed £81,500.

Written Ministerial Statements

Thursday 24 April 2008

DEFENCE

Iraq

The Secretary of State for Defence (Des Browne): I explained to Parliament on 1 April 2008 (Official Report, columns 628 - 630) that, in the light of the operations launched by the Government of Iraq in Basra on 25 March, we would maintain our force levels in southern Iraq at around 4,000 while we worked with the Iraqis and our coalition partners to review the implications for our own plans. I undertook to provide a further update on our plans this month.

The Iraqi security forces' (ISF) operation to enforce the rule of law in Basra—known as 'Operation Charge of the Knights'—is continuing, with support from coalition forces. We welcome the willingness of the Government of Iraq to take responsibility for delivering security in Basra province and the progress of the ISF operations to date. We have been pressing for firm action since responsibility for Basra's security was transferred to the Iraqis in December.

The coalition's strategy in the area has been to encourage Iraqi solutions to Iraqi problems, and through outreach and reconciliation to isolate those people in Basra who refuse to follow a democratic road. This has helped to set the context for the recent successes, and it is evident that the ISF action against criminals and militia elements operating outside the law has the firm backing of the people of Basra. In the initial phases of operations, the ISF have consolidated control over all key routes in and out of the city and over large parts of the city itself. The ISF are continuing to locate and remove significant numbers of illegal weapons, in many cases thanks to information received from local residents. Further phases of operations are planned.

As I said in my statement on 1 April, it remains our clear direction of travel and our plan to reduce our force levels, as and when conditions allow, from the current number of around 4,000 for the next roulement, known as Operation TELIC 12. But while the situation on the ground continues to evolve rapidly, and while military commanders continue to assess the changing environment in Basra, it remains prudent that we take time to fully consider further reductions.

The focus of UK forces is on completing the task of training and mentoring 14th (Iraqi Army) Division in Basra so that it develops into an effective force, able to ensure security without the need for our assistance. 14 Division is still months away from becoming fully operational. We will continue to ensure that our support is tailored as effectively as possible to meeting its needs. Already, we have enhanced our advisory and operational support by embedding teams of UK personnel with headquarters and operational planning staff in Basra. Sustained improvements in security will also provide a sound basis for further economic development and political progress, including through provincial elections scheduled to take place in the autumn.

The TELIC 12 force package will see the lead formation, currently 4 Mechanised Brigade, replaced by 7 Armoured Brigade, which will provide the majority of the units serving in Iraq. 7 Armoured Brigade will take over the command of UK forces in early June. The forces deploying include soldiers from the following units:

7th Armoured Brigade Headquarters and Signal Squadron (207)

3rd Regiment Royal Horse Artillery

The Royal Scots Dragoon Guards (Carabiniers and Greys)

9/12th Lancers (Prince of Wales's)

32nd Engineer Regiment

1st Battalion The Royal Regiment of Fusiliers

2nd Battalion The Royal Anglian Regiment

The Highlanders, 4th Battalion The Royal Regiment Of Scotland

2 Logistic Support Regiment, The Royal Logistic Corps

3 Close Support Medical Regiment

2 Close Support Battalion, Royal Electrical and Mechanical Engineers

111 Provost Company, 1st Regiment Royal Military Police

Elements of 5th Regiment Royal Artillery

Elements of 16th Regiment Royal Artillery

Elements of 32nd Regiment Royal Artillery

Elements of 47th Regiment Royal Artillery

Elements of 170 (Infrastructure Support) Engineer Group

Elements of 33 Engineer Regiment (Explosive Ordnance Disposal)

Elements of 2nd Signal Regiment, Royal Corps of Signals

Elements of 10th Signal Regiment, Royal Corps of Signals

Elements of 14th Signal Regiment (Electronic Warfare),Royal Corps of Signals

Elements of 21st Signal Regiment (Air Support), Royal Corps of Signals

Elements of 24 Postal Courier and Movement Regiment The Royal Logistic Corps

Elements of 9 Supply Regiment The Royal Logistic Corps

Elements of 11 Explosive Ordnance Disposal Regiment The Royal Logistic Corps

Elements of 17 Port and Maritime Regiment The Royal Logistic Corps

Elements of 27 Transport Regiment The Royal Logistic Corps

Elements of 29 Postal Courier and Movement Regiment The Royal Logistic Corps

Elements of 104 Military Working Dog Support Unit

Elements of 1 Military Intelligence Brigade

Elements of 1 Regiment Army Air Corps

Elements of 28 Squadron, Royal Air Force

Elements of 78 Squadron, Royal Air Force

Elements of Tactical Supply Wing, Royal Air Force

Elements of Joint Helicopter Support Unit, Royal Air Force

Elements of Joint Medical Command

Members of the reserve forces will continue to deploy to Iraq as part of this force package, and we expect to

issue around 290 call-out notices in order to fill some 220 posts during the TELIC 12 roulement period. Prior to their deployment and on completion of their mobilisation procedures, the reservists will undertake a period of training and integration with their respective units. For the majority, their deployment to theatre will commence in May and most will serve on operations for six to seven months, although some may have shorter tours. The reservists will predominantly reinforce regular units and perform a wide range of activities including force protection duties, intelligence and logistic tasks. As part of this commitment, we also expect up to 50 members of the sponsored reserves to be in theatre at any one time.

Force levels will be kept under review, and we will look to make further reductions over the course of the TELIC 12 deployment if conditions allow and on the advice of commanders on the ground. I will, of course, keep Parliament informed of developments.

Northern Ireland Garrison Restructuring

The Minister for the Armed Forces (Mr. Bob Ainsworth): In May 2006, my predecessor announced the future garrison structure for Northern Ireland.

As part of our longer-term planning, we have decided to relocate 230 Squadron RAF, currently based at RAF Aldergrove and equipped with Puma helicopters, to RAF Benson. This will establish a coherent Puma force on a single site, enabling the improvement of Puma force capability. It will also entail the relocation of RAF support personnel and a reduction in the civilian personnel required at Aldergrove. We expect the relocation to be completed by the end of 2010.

The relocation of 230 Squadron will free up significant facilities at Aldergrove. It is therefore our intention to relocate 38 Engineer Regiment, who will move into Massereene Barracks, Antrim later this year, to Aldergrove as soon as practicable following the departure of 230 Squadron and to dispose of Masserene Barracks thereafter. A number of civilians will be offered the opportunity to relocate with the unit, but there will be a reduction in civilian personnel associated with site-specific activities.

These changes will not impact on our commitments in support of the civil authorities in Northern Ireland. Aldergrove will remain a military flying station for the Army Air Corps for the foreseeable future. The RAF will continue to utilise Northern Ireland airspace for training and a limited number of RAF personnel will remain in joint or specialist appointments in units within Northern Ireland. The relocation of 38 Engineer Regiment demonstrates our longer-term commitment to retain a base at Aldergrove. The ongoing relocation of 19 Light Brigade to Northern Ireland, announced in January 2006, demonstrates our longer-term commitment to basing in Northern Ireland.

HOME DEPARTMENT

Withdrawal of Enforcement-Related Marriage Policies DP3/96 and DP2/93

The Minister for Borders and Immigration (Mr. Liam Byrne): As part of our programme of reform in 2008 to tighten Britain's border security I am today revoking two pieces of guidance which could have helped a handful of overstayers—people here illegally in the United Kingdom (UK)—to obtain limited leave to stay in the UK as the spouse or partner of a British citizen rather than go home and apply for a marriage visa.

These policies only applied to people facing enforced removal but gave an unfair advantage to those unlawfully in the UK compared to those who complied with the immigration rules in seeking a marriage visa before arrival. Withdrawing the policies will simplify the handling of marriage cases.

The fact that an individual is married to or is the civil partner of a British citizen or someone settled in the UK will continue to be a relevant factor to be taken into account when considering removal. Each case will be considered on its individual merits in line with the Human Rights Act and the immigration rules.

LEADER OF THE HOUSE

Topical Debates

The Leader of the House of Commons (Ms Harriet Harman): In a written ministerial statement to the House on 7 February 2008 (Official Report Col. 83WS), I announced that I will be conducting a review into the operation of topical debates. The results of the review will be published before the House rises for the summer recess. Any Member wishing to submit their views is asked to do so by 23 May 2008.

I proposed a new system to publish, on a quarterly basis, a list of all subjects that have been proposed for debate, other than those discussed at weekly business questions, which are already a matter of public record. The attached table gives the second such set of information relating to the period of January to March 2008.

Subjects proposed—other than in business questions—for topical debates (January 2008 to March 2008)

Note that the list includes all requests and whether they have been submitted by letter, e-mail or another method. The list does not include requests made during business questions, or otherwise on the floor of the House, and which are already a matter of public record. Weeks where there were no such requests are not included.

Week commencing 7 January 2008:

Gas and electricity prices (e-mail)

Kenya (asked for in person)

Week commencing 21 January 2008:

Public family law (letter)

Week commencing 28 January 2008:

Northern Rock and banking reform (letter)

Treatment of minorities in Iran (e-mail)

Women's representation (by telephone)

Women in prison (by telephone)

US missile defence (letter)

Week commencing 11 February 2008:

BERR Committee Report on Post Office Closures (letter and email)

Week commencing 18 February 2008:

DNA Information Society (Letter)

Week commencing 3 March 2008:
100th anniversary of the Territorial Army (letter)

Week commencing 17 March 2008:
National DNA database (letter)

Business Questions 13 March 2008 (Correction)

The Leader of the House of Commons (Ms Harriet Harman): In my response to the hon. Member for Putney (Justine Greening), during business questions on 13 March 2008, I said (Official Report Vol. 473 Col. 419):

"..all decisions on adding capacity at Heathrow will be taken independently by BAA"

Further to my letters to the hon. Member for Putney (Justine Greening) and the hon. Member for Uxbridge (John Randall) on 14 March 2008, I would like to clarify that all decisions on adding capacity at Heathrow will be taken independently of BAA.

PRIME MINISTER

NATO Summit Meeting

The Prime Minister (Mr. Gordon Brown): I, my right hon. Friend the Foreign Secretary, and my right hon. Friend the Defence Secretary represented the UK at the summit meeting of NATO Heads of State and Government in Bucharest from 2 to 4 April 2008.

The meeting focused on Afghanistan, including a meeting involving President Hamid Karzai, contributors to the NATO-led military mission and our key international partners. The UK welcomed the clear and unambiguous reiteration by the representatives of the international community of their long-term commitment to work together with the Government of Afghanistan to build an enduring, stable, secure, prosperous and democratic state.

President Karzai demonstrated Afghanistan's readiness to assume greater ownership of this process by announcing that Afghan forces would take responsibility for the security of Kabul by August this year and would gradually assume responsibility for other parts of the country.

The UN Secretary General, Ban Ki-moon, reaffirmed the shared determination of the international community to help the people and Government of Afghanistan. He committed to closer UN co-ordination with President Karzai and the International Security Assistance Force (ISAF), through his new special representative to Afghanistan, Kai Eide, whom I met again in London last week. I fully support him in his important work and the UK Government will do all they can to help.

Heads of State and Government of all forty nations contributing to the UN-mandated, NATO-led ISAF, agreed a strategic vision declaration which committed to:

a firm and shared long-term commitment to Afghanistan;

support for enhanced Afghan leadership and responsibility;

a comprehensive approach which combines civilian and military efforts; and

increased co-operation and engagement with Afghanistan's neighbours, especially Pakistan.

The UK Government welcome this declaration, which reinforces the approach that we set out in the revised Afghanistan strategy, which I announced to Parliament on 12 December 2007.

President Sarkozy, as well as signalling France's welcome intent to re-engage fully in NATO's military structure, confirmed his decision to deploy an additional battalion of French troops to the east of Afghanistan. This allowed President Bush to announce the movement of a substantial US force from the East, to Kandahar in the south. A number of other allies—including Canada, Poland, Romania and Slovakia—also announced increased contributions of troops, trainers, and helicopters, which were all warmly welcomed.

The alliance also made important political decisions on enlargement. Albania and Croatia were invited to start their accession, recognising the progress that both countries have made in their internal reforms and the role that they are playing in the region and beyond, including in Afghanistan.

The summit welcomed the commitment shown by Macedonia to NATO's values and its contribution to NATO operations. The UK Government remain convinced that Macedonia's rightful place is as a member of NATO and will continue to work for that to happen. We were disappointed that the alliance was not able to issue a membership invitation, but the summit did agree that an invitation will be issued. NATO leaders urged Greece and Macedonia to reach a mutually acceptable solution to the question of a name soon.

The summit also gave a clear commitment that Ukraine and Georgia will one day become members of NATO and offered support for their request for membership action plans. The Government look forward to a period of intense co-operation between NATO and both countries until they are admitted into NATO's membership action plan.

The alliance had a frank and open exchange with President Putin on NATO-Russia relations. I and other NATO leaders welcome the Russian Federation's assistance to ISAF's efforts in Afghanistan, including through logistical support.

In partnership with President Sarkozy, we promoted the UK/France-led initiative to support helicopter capability upgrades and pilot training, aiming to make more helicopters available both in Afghanistan and for other multinational operations. Ten NATO partners made clear at Bucharest their intention to provide direct support for this initiative, and detailed discussions are now under way on the nature and extent of their involvement.

The Government remain convinced of the continued importance and relevance of NATO in international crisis management, but also that it must continue its process of reform to meet this challenge more effectively. I am therefore pleased that NATO accepted the UK's offer to host an informal meeting of Defence Ministers this autumn specifically focused on reform. This will be an important opportunity to drive forward the modernisation of NATO and its capabilities transformation agenda.

Further important work was set in hand on NATO missile defence, to support the planned deployment of a US missile defence capability in Europe.

Through all these actions at the summit, the alliance demonstrated its continued sense of purpose and contribution to European, transatlantic, and wider international security.

Working ever closer with other international organisations, notably the EU and UN, a strong and effective NATO remains at the heart of UK foreign and security policy, as was emphasised in the national security strategy announced to Parliament on 19 March. I look forward to the 60th anniversary of NATO next year and to a summit to be hosted jointly by France and Germany in Strasbourg and Kehl. The UK Government remain committed to playing a full role in the development of the alliance.

TRANSPORT

EU Transport Council

The Minister of State, Department for Transport (Ms Rosie Winterton): I attended the transport session of the Transport, Telecommunications and Energy Council, held in Luxembourg on 7 April. The Slovenian Minister for Transport and Communications, Mr Radovan Zerjav, was in the chair.

There was a progress report and policy debate on the current package of road transport legislative proposals, namely: a recast regulation on common rules for access to the international road haulage market; a regulation on common rules concerning the conditions to be complied with in order to pursue the occupation of road transport operator; and a recast regulation on common rules for access to the market for coach and bus services. The presidency presented a compromise package, including a Commission proposal on cabotage—three domestic deliveries in seven days following an international laden journey—and an amended proposal on interconnected national registers. On cabotage, a significant number of member states regretted that the proposal was not more liberal. I spoke in support of regulated cabotage, which was only an 'add-on' to international journeys, but stressed that it should not be regular or systematic, which the Commission proposal would allow. I stressed the need to address safety concerns and enforcement alongside market opening. I welcomed the agreement in principle to establish interconnected registers, to enable member states to help each other to protect road safety through effective enforcement when operators are working internationally. The presidency concluded that the majority of member states could support the proposed compromises on cabotage and the registers, and that it would now work towards achievement of political agreements on the three proposals in June. We will continue to work with them and other member states towards achieving an acceptable outcome for the UK.

On rail freight, the Council adopted conclusions on the Commission communication "Towards a Rail Network giving Priority to Freight". The conclusions are acceptable to the UK.

The Council reached a general approach on a regulation on implementation of the European satellite radio navigation programmes (EGNOS and Galileo). This follows on from the political guidelines set out in the November Transport Council conclusions on Galileo. This regulation sets the Community budget for the satellite navigation programmes between 1 January 2007 and 31 December 2013. It also aims to improve the governance of the programmes by applying a strict division of responsibilities. The text of the general approach is acceptable to the UK.

The Council reached a political agreement on a directive on airport charges. The directive aims to establish a framework of common principles to be respected by airport operators when they determine the charges to airlines for the use of airport services, as practices currently differ across member states. These measures aim to create a level playing field to avoid cases of discrimination and improve transparency. The agreed text of the directive is acceptable to the UK.

The Council reached a general approach on a regulation on a code of conduct for computerised reservation systems (CRS) to replace the existing regulation 2299/89. This aims to update and simplify the existing code of conduct and to promote competition between CRS providers, whilst maintaining safeguards against potential competitive abuses and ensuring the provision of neutral and comprehensive information to consumers. The text of the general approach is acceptable to the UK.

The Council adopted conclusions relating to a Commission communication entitled "An Agenda for a Sustainable Future in General and Business Aviation". The Conclusions are acceptable to the UK.

There were progress reports and a policy debate on two current legislative proposals in maritime transport. These are a directive on compliance with flag state requirements and a directive on the civil liability and financial guarantees of shipowners. These are the final two proposals of seven in the Commission's latest maritime package, the other five having already been agreed by the Council. I joined Ministers who spoke against proceeding with these two proposals, which are widely regarded as unnecessary. Many noted the importance of global rule-making in these two areas, under the auspices of the International Maritime Organization (IMO). The presidency will now reflect on the views expressed on these two maritime dossiers.

Transport items on the list of items adopted without debate—"A points"—were:

Adoption of a decision authorising the Commission to open negotiations with Israel on a comprehensive air transport agreement

Adoption of conclusions on the Commission communication "First Report on the

Implementation of the European Single Sky Legislation - Achievements and the Way Forward"

Adoption of decisions on the signature and provisional application of the agreements with Nepal and Australia on certain aspects of air services

Adoption of a directive on the inland transport of dangerous goods

These are all acceptable to the UK.

WORK AND PENSIONS

Pension Transfer Values (Regulations)

The Minister for Pensions Reform (Mr. Mike O'Brien): New regulations on the calculation of pensions transfer values were laid on 11 April. The regulations come into effect on 1 October 2008.

The regulations build on the very useful dialogue we have had with the pensions community about the way that pensions transfer values should be calculated.

The regulations are largely as we consulted on. However, the requirement that every assumption used in the calculation should be a "best estimate" has been changed in order to make the calculation more straightforward. The new requirement is that the assumptions, taken as a whole, should lead to a "best estimate" of the amount of the unreduced transfer value.

Written Ministerial Statements

Friday 25 April 2008

TREASURY

ECOFIN

The Chancellor of the Exchequer (Mr. Alistair Darling): The informal Economic and Financial Affairs Council (ECOFIN) was held in Ljubljana on 4 and 5 April.

The main discussion was on the economic and financial situation, with a particular focus on financial stability and supervision. Ministers discussed progress against the financial stability roadmap agreed at ECOFIN in October as well as the supervision of cross border institutions within the EU. This will be the subject of further discussion at ECOFIN in coming months. Ministers signed an updated memorandum of understanding on cross-border crisis management, and also discussed issues pertaining to financial market infrastructures, notably progress on improving clearing and settlement structures in the EU.

The informal Council also discussed optimising the quality of public finances, with a particular focus on social spending. This is a particular Slovenian priority, and a theme common to the German, Portuguese and Slovenian presidencies. Finally, Ministers discussed the forthcoming spring meetings of the IMF and World Bank, including reform of quotas and voice at the IMF.

The Exchequer Secretary to the Treasury represented the UK.

UK Debt Management Office (Business Plan).

The Exchequer Secretary to the Treasury (Angela Eagle): The UK Debt Management Office (DMO) has today published its business plan for the year 2008-09. Copies have been deposited in the Libraries of both Houses and from DMO's website, www.dmo.gov.uk.

FOREIGN AND COMMONWEALTH OFFICE

General Affairs and External Relations Council (Agenda)

The Minister for Europe (Mr. Jim Murphy): The General Affairs and External Relations Council (GAERC) will be held on 29 April in Luxembourg. My right hon. Friend the Foreign Secretary will represent the UK.

The agenda items are as follows:

EXTERNAL RELATIONS

Western Balkans

Ministers will discuss developments in the western Balkans over lunch. Discussion is likely to focus on Serbia ahead of the 11 May elections and on the situation in Kosovo. The Council is expected to agree conclusions on Bosnia and Herzegovina and on the Commission's 5 March communication on the region, 'Western Balkans - Enhancing the European Perspective'.

The Government support the communication's overall message reaffirming a European perspective for the western Balkans. The Government also support the individual initiatives set out by the Commission to make that perspective more tangible for the people of the region. On Bosnia and Herzegovina, the Government welcome recent reform progress, including adoption of important police reform legislation, which has brought Bosnia and Herzegovina much closer to the signature of its stabilisation and association agreement.

Burma

The Council is expected to renew the EU's strengthened common position imposing restrictive measures against Burma. The Government strongly support the common position and will want conclusions on Burma to highlight deep flaws in the regime's plans for a referendum and new constitution entrenching military rule. The Government believe the Council should also take this opportunity to confirm that work is under way on possible reinforcement of the EU's restrictive measures, so that the Council can respond quickly to developments.

Iraq

Iraq is on the agenda at my right hon. Friend the Foreign Secretary's request. There will not be conclusions, but the Government intend to use the April discussion to prepare for agreement at the May GAERC on a strengthened EU package of engagement, including greater Community activity before the Iraq compact meeting in Stockholm on 29 May.

Zimbabwe

The Government are pushing for robust conclusions, underlining the EU's deep concern at the delay in announcing the results of the presidential election and the escalation in state-sponsored violence and intimidation against opposition members and ordinary Zimbabweans.

Pakistan

The Council is expected to discuss priorities for increased EU engagement with Pakistan in light of the competitive parliamentary elections and establishment of a new democratic civilian Government. The Government believe it is important for the EU to engage with Pakistan in further work on democratisation, economic development, trade, human rights, regional co-operation and education.

Middle East

Council discussion is expected to focus on the political process, the latest developments in Gaza and southern Israel, the EU's practical and political support for the peace process and upcoming international events in support of the peace process. These include the ad hoc Liaison Committee meeting in London on 2 May, which will look at ways in which the international community

can strengthen the Palestinian economy, and the Berlin conference in support of Palestinian civil security and the rule of law on 24 June.

The Government fully support these international events and are committed to supporting the Annapolis process and the ongoing negotiations between the parties with a view to achieving a two-state solution.

European Neighbourhood Policy

The Commission is expected to present the annual ENP country progress reports. These accompanied the Commission's communication of 3 April, 'Implementation of the European Neighbourhood Policy'. The Commission's presentation may highlight the four ENP partners who have made most progress in implementing reform over 2007—Ukraine, Moldova, Morocco and Israel. The Government welcome the detailed round up of progress contained in the communication and its accompanying documents, and the contribution these have made to raising ENP's profile.

Uzbekistan

The Council is expected to consider whether there has been sufficient progress on human rights issues in Uzbekistan in the last six months to warrant continued suspension of the EU visa ban. The Government recognise the positive progress made by Uzbekistan in the last six months and welcome its commitment to hold a second round of the EU-Uzbekistan Human Rights Dialogue in May or June this year. In the light of this, and in order to encourage further positive progress from Uzbekistan, the Government are likely to join consensus in continuing the suspension.

Georgia

The Council will discuss developments, including the Russian directive signed by President Putin on 16 April, on strengthening Russia's bilateral relations with Georgia's two separatist regions, Abkhazia and South Ossetia. The Government are concerned by the Russian proposals, which appear inconsistent with Russia's stated commitment to respect Georgia's sovereignty and territorial integrity within its internationally recognised borders.

The Government welcome the Council discussion and believe it is important that the EU continues to make clear its commitment to Georgia's territorial integrity, including with Russia.

HOME DEPARTMENT

Justice and Home Affairs Council

The Parliamentary Under-Secretary of State for the Home Department (Meg Hillier): The Justice and Home Affairs (JHA) Council was held in Luxembourg on the 18 April 2008. My right hon. Friend, the Minister for State for Security, Counter-Terrorism, Crime and Policing my right honourable Friend the Attorney General and the Lord Advocate for Scotland attended on behalf of the United Kingdom. The following issues were discussed at the Council:

The Council opened with the Mixed Committee with Norway, Iceland, Switzerland and Lichtenstein. The presidency presented a progress report and document outlining outstanding issues on the implementation of the second generation of the Schengen Information Systems (SIS) II. The presidency also reported on its discussions with the European Parliament on the returns directive. The UK has not opted in to this directive.

The main Council agenda began with a brief discussion on Western Balkan visa arrangements, where the Commission circulated a letter urging Ministers to reduce bureaucracy for Western Balkan country visa applicants.

A political agreement was reached on the Europol Council decision, during which the UK congratulated all three presidencies that had taken forward the negotiations, noted the previous UK parliamentary concern on budget neutrality and other issues, and lifted the UK reserve.

The action plan on explosives was adopted. The Commission welcomed the efforts made, and said that it would make funding available to implement it. The UK welcomed the presidency's work on the action plan. The UK, however, indicated concern about ongoing discussions in another part of the Council on the level of ammonium nitrate in fertiliser, which we had experience of being an effective explosive precursor. The UK proposed that the article 36 director level Committee should discuss these serious security concerns. Interior Ministers needed to take control of the issue, though we recognised the need to balance this with agricultural interests. A number of member states strongly supported the UK, and France highlighted its presidency plans to take concrete action in the field.

On the directive on long-term residence for beneficiaries of international protection, the Commission and various member states supported a call by the presidency for a compromise in order to reach consensus. The presidency said they would prepare work for further discussion. The UK is not opted into this measure.

The presidency reported on the US visa waiver discussions. The Council agreed a negotiating mandate for the Commission to pursue discussion with the US on visa waiver arrangements.

Greece addressed recent criticisms of their application of Community law on asylum, admitting that there had been delays in implementing EU legislation but stating that by June 2008 they will have met all of their obligations. Greece argued that it was not practically possible for them to examine all the applications they received in the way that some other member states did as there were simply too many. The Commission thanked Greece for its recent efforts but asserted that the Commission would continue to uphold Community law.

The Council reached a general approach on the framework decision on counter-terrorism, pending parliamentary scrutiny opinions and the views of the European Parliament. The Commission welcomed the package the presidency had put forward and the speed at which progress had been made. The UK thanked the Commission for its proposal and the presidency for their hard work and welcomed the compromise package. The UK said that it had a parliamentary scrutiny reservation in place, but was in a position to participate in a general approach. Most member states intervened to thank the presidency for their hard work and welcomed the compromise proposal, which was felt to represent a well-balanced package.

The presidency sought views on the text of the draft framework decision on trials in absentia. There was strong support from almost all delegations and calls not to delay agreement. The UK noted that the text offered higher safeguards than the original proposal. However, three member states still had difficulties and were not in a position to agree the instrument. The presidency concluded that some issues remained outstanding and referred those issues to COREPER ambassadors for resolution, with a view to agreement at the June JHA Council.

The presidency asked the Council to endorse a package of articles in the draft Council decision on Eurojust concerning the composition of Eurojust, access to databases by national members, staff regulations, voting in the Eurojust college, and mediation in relation to conflicts of jurisdiction. The UK maintained its substantive reservation on article 7, concerning mediation in relation to conflicts of jurisdiction, and its parliamentary reservation on the entire text. All other substantive reserves were lifted. The presidency concluded that further issues would be put to the June JHA Council for agreement.

The presidency presented Council conclusions on a future common frame of reference (CFR) for European contract law. They stressed that the adoption of a Council position did not pre-empt future discussions on the CFR. The Commission welcomed the presidency paper and confirmed that it would be consulting academics and stakeholders. It plans to publish an impact assessment, followed by a White Paper, probably in 2009. France announced that they would hold a conference on the CFR under their presidency. The UK (Lord Advocate) supported the Council position as drafted. She stated that there was no appetite for a binding instrument and that the UK would strongly oppose any move towards harmonisation. The presidency said that the CFR conclusions would go to the European Council in June as an information point, and would similarly be sent to the European Parliament.

Under "any other business", the presidency reported on progress on the bilateral instruments implementing the EU-US agreements on mutual legal assistance and extradition and called on those member states who had still not completed their procedures to do so as quickly as possible. The Commission reported on the recent hearing on crimes committed by totalitarian regimes.

Over lunch delegations were asked for their views on the desirability of the draft Directive on the European Programme for Critical Infrastructure Protection (EPCIP). The UK did not see the added value in the draft Directive, and argued for a non-binding, non-legislative alternative. Other member states agreed but some were more interested in the content than form of the proposals. A compromise was suggested of limiting the scope of the Directive.

The Netherlands reported on its recent resettlement mission to Thailand with Belgium and Luxembourg in the wake of the letter the resettlement countries—including the UK—had sent to the JHA Council in January; Italy lobbied the Council for Luca Riccardi to become the EU candidate for Director General of International Organisation for Migration; and Germany proposed the EU take an initiative to resettle refugees from Iraq.

NORTHERN IRELAND

Local Government Elections

The Secretary of State for Northern Ireland (Mr. Shaun Woodward): The Northern Ireland Executive have recently agreed changes to the local government structure in Northern Ireland. I have since received a request from the Minister of the Environment in the Northern Ireland Executive to postpone the next local government elections, currently scheduled for May 2009, to ensure that they may be held under the new local government structure.

I have been informed by the Minister of the Environment in the Northern Ireland Executive that May 2011 is the earliest date that elections to the new councils could take place. I am mindful of my obligations under Article 3 of the first protocol to the European Convention on Human Rights to ensure that free elections are to be held at reasonable intervals. I believe that a postponement to May 2011 would be an exceptional but justified step in the circumstances and would be consistent with the Convention.

I intend to bring before this House an Order in Council under section 84 of the Northern Ireland Act 1998 to ensure that the next local government elections in Northern Ireland will be held in May 2011.

Petitions

Tuesday 25 March 2008

OBSERVATIONS

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Post Office Closures (Hampshire)

The Humble Petition of Mr Christopher Donnithorne retired and others,

Sheweth

That the Post Office is proposing to close Bury Cross Post Office at Gosport regardless of National Health Service plans to extend the Gosport War Memorial Hospital (immediately opposite said Bury Cross Post Office) to handle a minimum of 50,000 patients a year. That the potential customer base, for shops and services within 150 yards of this Post Office, will rapidly exceed the total population of the Gosport peninsula. That the Post Office closure proposal is based on inaccurate information, there being for example, no direct public transport links to either of the identified alternative venues. With the significant growth potential, good public transport link, and modern disabled facilities, closure of this busy Post Office at a bustling main road junction does not make sense, either in business or public service terms.

Wherefore your Petitioners pray that your Honourable House shall urge Post Office Ltd to reconsider this particular closure proposal.

And your Petitioners, as in duty bound, will ever pray, &c.—*[Presented by Peter Viggers, Official Report,* 16 January 2008; Vol. 470, c. 1047.] [P000089]

Observations by the Secretary of State for Business, Enterprise and Regulatory Reform:

The Government fully recognise the important social and economic role of post offices, particularly in rural and deprived urban communities. That is why they are determined to maintain a national post office network allowing people to have reasonable access across the whole country and have put in place a new policy and financial framework to achieve this. The Government have been investing substantial sums in the post office network, totalling £2 billion since 1999. That has, for example, paid for a computer link-up for every post office as well as support for non-commercial branches since 2003.

In their response to the consultation on the Post Office network the Government announced in May 2007 confirmation of their decision to extend funding of up to £1.7 billion to 2011, including provision of £150 million Social Network Payment to support the post office network up to 2011. The Government strategy includes provision for 2,500 compensated closures and 500 new Outreach services.

The 500 new and innovative Outreach locations, operated in partnership with other local services such as in pubs, village halls, churches or in mobile post offices, will mitigate closures, primarily in smaller and more remote communities. Nevertheless, to ensure sustainability, there will need to be up to 2,500 compensated post office closures within the defined access criteria.

Post Office Limited (POL) is responsible for implementing the network change programme at a local level. It is developing a rolling programme of some 50 local consultations on detailed area plans, based on groups of Parliamentary constituencies. The first area plans went out to local consultation on 2 October last year and these plans will continue to be rolled out at regular intervals until August with the whole programme scheduled to take around 15 months to complete. The consultation period for Hampshire ended on 26 November last year. POL has announced its final decision. Having considered all representations and the criteria for the network change programme POL confirmed that it has been decided that the Bury Cross branch will close. Post Office Ltd has published its decision in the Area Plan Booklet for the Hampshire and the Isle of Wight area, which is available on its website at www.postoffice.co.uk/networkchange.

POL develops its proposals with the participation of sub-postmasters, local authorities and the consumer watchdog, Postwatch, and takes into account the numeric access criteria set out by Government as well as local factors affecting ease of access, such as local geography: rivers, mountains etc when drawing up its implementation plans. POL is also required to consider the availability of public transport and alternative access to key post office services, local demographics and the impact on the local economy. Local consultations provide the opportunity to raise any specific concerns over particular proposals.

The Government do not have a role in proposals or decisions for individual post offices. No decisions on individual Post Offices are taken until after local consultations. Those decisions are made by POL in light of the responses to the consultation while subject to a four-stage appeals process involving Postwatch. The Review Process for closure decisions after public consultation process applies where Postwatch shows that, for an individual branch:

> POL has not given due consideration to material evidence received during the public consultation in coming to its decision or;
>
> where evidence emerges from the consultation that the proposal for the branch does not meet the Government's policy requirements.

The aim of the further review process is for POL and Postwatch to reach an agreed way forward by bilateral review with 3 stages available at increasing levels of seniority. A recent addition to the review process provides for very difficult cases which remain unresolved after stage 3. In this instance, Allan Leighton, Chairman of Royal Mail Group, will review the issues and reach a final decision.

FOREIGN AND COMMONWEALTH OFFICE

Palestinian Community of Jayyous

The Humble Petition of Ms Cate Mowat and others of like disposition,

Sheweth

That families within the Palestinian community of Jayyous are being forced off their agricultural land due to a lack of water from wells. Five of the groundwater wells which they previously had access to are now situated beyond the new Israeli wall. The Israeli authorities are refusing permits to drill new wells on Jayyous land.

Wherefore your Petitioners pray that your Honourable House shall urge the Foreign and Commonwealth Office to consider the plight of the community within Jayyous and to pressurise the Israeli authorities to allow new wells to be drilled on their land.

And your Petitioners, as in duty bound, will ever pray, &c.—*[Presented by Michael Connarty, Official Report,* 27 February 2008; Vol. 472, c. 1206.] [P000088]

Observations from the Secretary of State for Foreign and Commonwealth Affairs:

The Government are concerned at the impact the barrier has on the lives of Palestinians, and deplore the destruction of Palestinian homes and the confiscation of Palestinian land associated with its construction. We are concerned about the effects the building of the barrier has on the Palestinian community of Jayyous and their access to agricultural land and water. The Foreign Affairs Committee had a briefing on Jayyous during their trip to Israel and the Occupied Palestinian Territories from 28-30 March 2007. The EU has raised this issue with the Israeli Government. Our Embassy in Tel Aviv and Consulate-General in Jerusalem continue to monitor the situation in the West Bank and raise our concerns when appropriate.

The Government continue to make clear that Israel should halt the construction of the barrier on Palestinian land. This practice is contrary to international law and threatens the viability of an agreed two-state solution. The Israeli Government should not create facts on the ground, which might prejudice final status negotiations. We fully recognise Israel's right to self-defence and agree that a barrier is a reasonable way to achieve this. However, we call for the barrier to be built either on or behind the Green Line. The route, which the Israeli Cabinet approved on 20 February 2005, takes in a number of Israeli settlements, illegal under international law. It also contributes to the fragmentation of the West Bank, which in turn undermines prospects for a negotiated two-state solution.

Petition

OBSERVATIONS

HEALTH

Hospices

The Petition of residents of Chorley and others,

Declares that hospices do an excellent job in looking after the terminally ill and their families and therefore should receive more funding from central government.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Health to make it his policy to increase direct funding to hospices through the National Health Service.

And the Petitioners remain, etc.—*[Presented by Mr. Lindsay Hoyle, Official Report,* 27 February 2008; Vol. 472, c. 1208 .] [P000131]

Observations from the Secretary of State for Health:

The Government fully recognises and greatly appreciates the excellent work done by hospices in providing end-of-life care services and in supporting people with life threatening illnesses and their families.

Hospices are centres of excellence and the model of care that was first developed in the voluntary hospice movement is central to the delivery of good quality end-of-life care. We value our partnership role with the hospices.

The Government has delivered on the commitment in the 2000 NHS Cancer Plan to provide an extra £50 million per annum for specialist palliative care services for adults. Over half of this money went to the voluntary sector, mainly hospices. This money has now been made recurrent in the baseline allocations to primary care trusts ensuring it is available for specialist palliative care on a long-term basis.

In addition to this, last year we provided a £40 million capital fund, which adult hospices were able to bid for to improve their physical environments. The funding was made available as part of the Dignity in Care for Older People work, although it will benefit all adult patients using hospice facilities. 146 hospices, with 191 projects, have been allocated funding from the budget.

In recent years, the Government has moved away from running centrally funded programmes in favour of devolving funding to the front line. With funding devolved to local budgets, primary care trusts can make funding decisions and commission services based on the needs of their local population.

We do not centrally collate data on how much financial support voluntary hospices get from the NHS, although we do know this varies across the country. However, the level of funding a hospice receives is a matter for local negotiation between the local primary care trust and the hospice.

Through the Operating Framework 2007-08, we have asked primary care trusts, working with local authorities, to conduct a baseline review of local end of life care services to support the implementation of the Strategy. The baseline review will allow local commissioners to assess current services, identify gaps and obtain a much clearer view of local need, which will inform local commissioning activity.

The development of an End of Life Care Strategy for adults, this country's first, shows that the Government is committed to improving care at the end of life. The Strategy, due to be published in the summer, will address the needs of patients, carers and families and will consider, among other things, the role of, and funding for hospices. Both the End of Life Care Strategy and the NHS Next Stage Review will be key to raising the priority of end-of-life care locally.

Thursday 27 March 2008

OBSERVATIONS

HOME DEPARTMENT

Police Funding (North Yorkshire)

The Humble Petition of Mr G Dadd of North Yorkshire County Council and Black Bull Inn, Thormanby, York, North Yorkshire and others of like disposition,

Sheweth

That they fear the proposed Police Funding Formula review will result in cuts of £10m, £16m, and £19m in years 1, 2, and 3 respectively will mean cuts of 300 Officers or a massive change to local Council Tax payers. We wish to see our entitlement to fair and equitable funding for North Yorkshire.

Wherefore your Petitioners pray that your Honourable House urges the Government to withdraw the proposed Police Funding Formula review.

And your Petitioners, as in duty bound, will ever pray, &c.—*[Presented by Miss Anne McIntosh, Official Report,* 19 November 2007; Vol. 467, c. 1070 .] [P000056]

Observations from the Secretary of State for the Home Department:

The Government notes the petition of Mr. G Dadd of North Yorkshire county council and others about police funding in North Yorkshire.

However, the Government consider that the petitioners' concern is misplaced. The provisional police funding settlement for 2008-09 to 2010-11, announced on 6 December 2007 by the Home Secretary, provides for the North Yorkshire formula grant to be increased by 2.5 per cent. in each year.

OBSERVATIONS

HOME DEPARTMENT

Prostitution

The Petition of Susan M. Shutter,

Declares that the current laws on Prostitution in the UK are outdated for the twenty-first century. The problems with trafficking in the UK demonstrate how the current laws do not assist in reducing prostitution nor do they help to protect vulnerable women who have been coerced .or in many instances forced into prostitution. Although slavery was abolished in the UK almost 200 years ago, slavery still exists for many women in prostitution in the UK. We believe that serious action is now needed to combat this horrific human rights abuse.

The Petitioners therefore request that the House of Commons urges the Government to review the current laws on the supply of sex and prostitution. The undersigned request that new laws are introduced following the bold stance taken by the Swedish government in 1999 which made the demand, rather than the supply, illegal. We believe that prostitution is inherently an abuse of women and does not exist to allow women freedom of choice, but is a symptom of the lack of choice for many women. We believe that prostitution will only be reduced in the UK if the demand for prostitutes is tackled in a thorough and comprehensive manner.

And the Petitioners remain, etc.—*[Presented by Fiona Mactaggart, Official Report,* 8 January 2008; Vol. 470, c. 274 .] [P000104]

Observations from the Secretary of State for the Home Department:

The Government undertook a wholesale review of the law and wider policy issues relating to prostitution in 2004. This included a public consultation exercise which considered the issues including routes into and out of prostitution, associated drug and alcohol abuse, sexual and mental health needs, domestic violence and sexual abuse. It also included consideration on the existing legislative framework and the current criminal offences associated with prostitution.

In response to Paying the Price, and in consideration of the feedback received, the Government published its co-ordinated prostitution strategy in January 2006. This document focuses on disrupting sex markets by preventing individuals, and particularly children and young people, from being drawn into prostitution; by providing appropriate protection and routes out for those already involved; by protecting communities from the nuisance associated with prostitution; and by ensuring that those who control, coerce or abuse those in prostitution are brought to justice.

The strategy sets out our intention to reform the offence of loitering or soliciting to remove the outdated and stigmatising term "common prostitute". In addition it commits to introducing a new penalty for those convicted, to end the revolving door currently created when the courts issue a fine. These proposals have been developed and will be brought forward as soon as Parliamentary time allows. In relation to off-street prostitution, the strategy also sets out a commitment to make proposals to amend the definition of a brothel in order to improve the safety of those involved in selling sex indoors. This last commitment is subject to further consultation.

The Government has recognised that there is considerable support for more to be done to tackle the demand for prostitution, particularly given the links to human trafficking and sexual exploitation. A six-month review of how we can strengthen this element of the strategy was launched in January 2008. This will consider how we can raise awareness about the links between prostitution and sexual exploitation, including trafficking, as well as the options for legislative reform. It will look at the experiences of other jurisdictions where specific offences relating to paying for sexual services have been introduced, including Sweden. The Government will look at the impact this legislation has had on behaviours and attitudes of those who buy sex and the wider public, and will also consider what impact it has had on those involved in selling sex.

Petition

Wednesday 2 April 2008

Petition presented to the House but not read on the Floor

Post Office Closures (Ilford North)

The Petition of residents of Ilford, North and others,

Declares that we, the undersigned, being local residents, deplore the consideration being given to the closure of three of our local Post Office branches.

These closures will be a serious blow for the elderly and vulnerable people who will be faced with longer journeys to obtain services they need. It will also mean longer queues at the branches that remain.

The Petitioners therefore request that the House of Commons takes a note of their very strong objection to the loss of these vital services and urges the Secretary of State for Business, Enterprise and Regulatory Reform to instruct Post Office Ltd. to keep the Spurway Parade Woodford Avenue, the Fencepiece Road and the New North Road branches open.

And the Petitioners remain, etc.—*[Presented by Mr. Lee Scott.]*

[P000168]

Petitions

Monday 21 April 2008

OBSERVATIONS

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Deforestation

The Petition of Ellen Pisolkar and others,

Declares that in the next 24 hours deforestation will cause as much carbon to be released as eight million people flying between London and New York. The destruction of the rainforest is recognised as one of the main causes of climate change. Tropical deforestation accounts for one-fifth of all carbon emissions, more than the entire transport sector (including the aviation industry). The burning of trees is releasing as much carbon dioxide into the atmosphere as the United States and has pushed Indonesia and Brazil into the world's top four polluters. The Stern Review concluded that forests offer the single largest chance for cost-effective and immediate reductions of carbon emissions.

The Petitioners therefore request that the House of Commons urges the British Government to encourage nations to halt deforestation in the Tropics and adopt the following policies:

Ensure that carbon credits for reducing emissions from deforestation and the protection of standing forests are included in all national and international carbon markets, especially those created by the UN Framework Convention on Climate Change;

Simplify and expand carbon market rules, including the Clean Development mechanism, to encourage reforestation, afforestation and sustainable forest management;

Include topical forest and land use carbon credits in the European Union Trading Scheme, while maintaining strong incentives to reduce industrial emissions;

Encourage early action and new market mechanisms that recognise the value of carbon stocks and forest ecosystem services, and support appropriate voluntary carbon market standards;

Provide assistance for developing nations to build capacity to fully participate in the carbon markets, and to evaluate the ecosystem services their forests provide; and

Incentivise the sustainable use of degraded land and ecosystems, and remove incentives that encourage forest destruction.

And the Petitioners remain, etc.—*[Presented by Lynne Jones, Official Report,* 18 December 2007; Vol. 469, c. 824 .] [P000100]

Observations from the Secretary of State for Environment, Food and Rural Affairs:

The Government's advice and calculation is that emissions from deforestation every 24 hours are equivalent to approximately 25 million people flying across the Atlantic.

The Government worked with international negotiating partners to achieve a successful decision on reducing emissions from deforestation in developing countries at the UN climate change conference in Bali, in December 2007. The decision notes the need for stable and predictable resources in order to provide positive incentives for reducing emissions from both deforestation and forest degradation, and encourages early action through demonstration activities, to help build the capacity of developing countries to participate and to trial the approach. The UK is supporting early demonstration activity through the World Bank forest carbon partnership facility, and in Bali announced a contribution of £15 million to the scheme. We have also committed £50 million for deforestation and poverty reduction in the Congo basin.

The decision provides indicative guidance for these activities, consistent with sustainable forest management, and notes their potential recognition under a post-2012 climate agreement.

The Prime Minister has appointed Johan Eliasch as a special representative to review innovative financing mechanisms for avoided deforestation. The review will report on the development of carbon credits for avoided deforestation and sustainable forestry and how they could be introduced.

The Government are pleased about overall progress with the clean development mechanism (CDM). CDM projects that cover land use, land use change and forestry (LULUCF) are currently restricted to afforestation and reforestation (A/R) project activities—deforestation was not included because of the risk of project activity simply displacing deforestation within a country. To date there is only one A/R project registered by the CDM executive board. The reasons for the lack of take-up have been the subject of much discussion under the climate negotiations and are presented in developing parties' submissions to the UNFCCC ahead of COP/MOP3 in Bali. Lack of demand is thought to be the main cause, but forestry projects are also expensive—relative to the potential emissions saved—and time-consuming to set up. To facilitate the establishment of A/R CDM projects, parties agreed in Bali to raise the threshold for small scale A/R projects—which have reduced administration fees—from 8 $ktCO_2e$ to 16 $ktC0_2e$ per year. Parties also approved the use of non-renewable biomass in the CDM, meaning that projects encouraging the use of more efficient cooking stoves for example, are now possible through the CDM. These types of projects, together with recent guidance provided by the CDM executive board on programmes of activities under the CDM, will mean that project activities which were previously uneconomical to develop under the CDM can now be replicated on a large scale throughout the developing world.

The efficient and effective functioning of the EU emission trading scheme is dependent on a robust system for monitoring, recording and verifying emissions. The UK supported further consideration by the European Commission (the Commission) of including forestry credits in the EU emission trading scheme (ETS) as part of the discussions on the revised EU ETS Directive. The Commission have indicated that they will only consider new credits for inclusion that are capable of meeting the current standards of monitoring, recording and verification, but that forestry and land use projects do not currently meet these standards. Including credits from reforestation and afforestation would require a robust monitoring system, an understanding of the potential impact on the EU ETS allowance price, and assurance that non-permanent credits would not damage the environmental integrity of the scheme, before they could be included in the EU ETS. It is important that

access to the EU emissions trading scheme is considered in relation to wider international agreements, for example on how to incentivise reduced emissions from deforestation in developing countries.

On 19 February the Government announced the final framework for a code of best practice to set standards for how carbon offsets are sold to UK consumers. The code will be voluntary, and offset providers can choose to sign up to it. The code will allow the use of Kyoto compliant offsetting credits. The Government recognise, however, the value the non-regulated market can add, and are inviting the industry to agree and put into practice its own standard which can provide a similar level of assurance as the compliance mechanisms. This standard should address the principles of additionality, avoiding carbon leakage, permanence, verification, transparency and avoiding double counting. Once industry has reached a consensus on a standard and it has been fully operational for six months, the Government will conduct an audit to confirm whether credits approved under the industry standard can be included under the Government code.

FOREIGN AND COMMONWEALTH OFFICE

EU Constitution (Referendum)

The Petition of Cllr. Alan Wood and residents of Kirkcaldy and Cowdenbeath and surrounding areas,

Declares that the Prime Minister has no mandate to ratify the Treaty of Lisbon and cites as firm evidence a professionally conducted ballot in the constituency of Kirkcaldy and Cowdenbeath asking residents the unambiguous question: 'do you want a referendum on the EU Treaty of Lisbon, Yes or No?' to which the result was 81.6% in favour of a referendum, and that the result was accurate to + or - 7.8% at the 95% confidence level and that this result is remarkable considering that there was no pre-publicity and is yet another illustration of the people's concern about the breach of promises made at election times and the further and historically most significant erosion of the UK's parliamentary powers and democracy.

The Petitioners therefore request that the House of Commons urges the Government to consult the people on this question of fundamental constitutional importance.

And the Petitioners remain, etc.—*[Presented by Bob Spink, Official Report,* 27 February 2008; Vol. 472, c. 1206 .] [P000127]

Observations from the Secretary of State for Foreign and Commonwealth Affairs:

Our membership of the EU has brought real benefits in jobs, peace and security. Through it, we belong to the world's biggest trading bloc. Half the UK's trade is now within the EU, with an estimated 3.5 million British jobs linked to our membership. The Union allows Member States to co-operate effectively in tackling issues like organised crime and climate change, which do not stop at national borders.

But Europe could achieve more if it was not operating under out-dated rules drawn up for a different world and an organisation with less than half the members it has now. The Lisbon Treaty updates the framework for cooperation and aims to help the European Union work more effectively for the people of this country and other EU member states.

The Lisbon Treaty is not a constitution—the Governments of the 27 EU Member States have agreed that "the Constitutional concept... has been abandoned". Instead, the Lisbon Treaty follows the precedents of previous amending EU Treaties such as the Treaties of Maastricht, Nice and Amsterdam. Furthermore, the UK has moved further away from the defunct constitution than anyone else because of the unique set of arrangements, or 'red lines', which have been secured by the UK to protect our sovereignty.

No Government, Labour or Conservative, has ever held a referendum on an amending Treaty. Both the Single European Act and the Maastricht Treaty were more significant than the Lisbon Treaty, but no referendum was held then. The UK Parliament is the proper place for debate and decision on the Lisbon Treaty. As with all Treaties, Parliament must be satisfied that it is in the national interest, before it can be implemented in national law.

On 5 March, the House of Commons voted on a referendum amendment to the Bill. The amendment was defeated by 311-248 (a majority of 63). The Bill has now passed to the House of Lords for further detailed scrutiny.

The Petition of residents of Castle Point and others supporting the Telegraph EU Petition,

Declares that the EU Reform Treaty will significantly affect the constitutional arrangements between the UK and EU, and affect the way Britain is governed, permanently removing powers from Parliament to Brussels, particularly through a European Head of State, an EU diplomatic corps and Foreign Minister, a common system of criminal justice and a European Public Prosecutor, the abolition of 40 vetoes, bestowing a legal personality, treaty making powers and therefore all the trappings of statehood on the EU, and reducing Britain's strength on the Council of Ministers by 30 per cent, and that all the main parties promised a referendum at the last general election and that those MPs who now renege on their election promise will be held to account when they seek to make further election promises.

The Petitioners therefore request that the House of Commons urges the Government to consult the people before ratifying the Treaty.

And the Petitioners remain, etc.—*[Presented by Bob Spink, Official Report,* 5 March 2008; Vol. 472, c. 1884 .] [P000140]

Observations from the Secretary of State for Foreign and Commonwealth Affairs:

Our membership of the EU has brought real benefits in jobs, peace and security. Through it, we belong to the world's biggest trading bloc. Half the UK's trade is now within the EU, with an estimated 3.5 million British jobs linked to our membership. The Union allows Member States to co-operate effectively in tackling issues like organised crime and climate change which do not stop at national borders.

But Europe could achieve more if it was not operating under out-dated rules drawn up for a different world and an organisation with less than half the members it has now. The Lisbon Treaty is a good deal for the UK and a positive step for the EU—it will

enable an EU of 27 or more nation states to respond effectively to the challenges of globalisation and to deliver on key issues like jobs, growth, security, the environment and foreign policy.

The Lisbon Treaty is not a constitution—the Governments of the 27 EU Member States have agreed that "the Constitutional concept... has been abandoned". Instead, the Lisbon Treaty follows the precedents of previous amending EU Treaties such as the Treaties of Maastricht, Nice and Amsterdam. Furthermore, the UK has moved further away from the defunct constitution than anyone else because of the unique set of arrangements, or 'red lines', which have been secured by the UK to protect our sovereignty.

The Lisbon Treaty will lead to no transfer of power away from the UK on issues of fundamental importance to our sovereignty. Its impact will be less significant than the 1986 Single European Act (SEA) and the 1992 Treaty of Maastricht.

No Government, Labour or Conservative, has ever held a referendum on an amending Treaty. Both the Single European Act and the Maastricht Treaty were more significant than the Lisbon Treaty, but no referendum was held then. The UK Parliament is the proper place for debate and decision on the Lisbon Treaty. As with all Treaties, Parliament must be satisfied that it is in the national interest, before it can be implemented in national law.

On 5 March, the House of Commons voted on a referendum amendment to the Bill. The amendment was defeated by 311-248 (a majority of 63). The Bill has now passed to the House of Lords for further detailed scrutiny.

WORK AND PENSIONS

Means Tested Benefits

The Petition of FOCUS and the Richmond Fellowship Scotland,

Declares that the level of Permitted Earnings disregard for people on means tested benefits has not increased since 2001.

This £20 a week Permitted Earnings disregard has not increased in line with inflation or other benefits. The minimum wage increases have significantly eroded the value of Permitted Earnings. Similar to the minimum wage it is paid for by the employer, not the Government and not through Government public expenditure.

Permitted earnings enables people to increase their skills and confidence in the knowledge that their benefits will not be affected. In some cases this can be a stepping stone to future employment.

The Petitioners therefore request that the House of Commons urges the Government to introduce legislation making an adjustment to the £20 Permitted Earnings disregard to get it back to it's original value and that this revised amount is then increased each year in line with inflation.

And the Petitioners remain, etc.—*[Presented by Jo Swinson, Official Report,* 26 March 2008; Vol. 474, c. 294 .] [P000130]

Observations from the Secretary of State for Work and Pensions:

People have signed this petition because they wish to see an increase to the current £20 earnings disregard within the means tested benefits.

The earnings disregards can provide financial incentives by making work pay for those moving into work from a period of incapacity or unemployment. They postpone the point at which benefit will start to be withdrawn and ensure that income can rise immediately upon entering work.

Raising the current disregards, however, would narrow the gains to full time work in that we would reduce the incentive for people to leave benefit for work—the gap between in work income and out of work benefits becoming so narrow as to discourage people taking up full time work. Therefore there is a balance to be struck.

Any increase in the disregard levels within current DWP income-related benefits would cost money and much therefore depends on whether increasing the level of the disregard could succeed in commanding greater priority than other competing claims for expenditure. Alongside disregards there are other ways in which the benefit system recognises the value of allowing people to decide if they want to work either part or full time.

People can currently take part in approved schemes without there being any adverse impact on their Jobseeker's Allowance. For example, we allow longer-term unemployed customers to try out a job for two weeks whilst continuing to receive benefit. Similarly, volunteering is recognised within the benefit system and can play a key part in giving confidence to those who do not have recent experience of the labour market.

Tuesday 22 April 2008

OBSERVATIONS

CHILDREN, SCHOOLS AND FAMILIES

Finger-Printing in Schools

The Humble Petition of Councillor James MacCleary and others of like disposition,

Sheweth

That there is significant local concern that the government has failed to ban the practice of fingerprinting children in schools, that an average of 20 educational establishments in each Local Education Authority are fingerprinting pupils, that less than one-quarter of local education authorities have banned collecting fingerprints in schools and that, although encouraged to seek consent before taking biometric data, schools currently are not obliged to seek parents' permission before taking children's fingerprints.

Wherefore your Petitioners pray that your Honourable House shall urge the Department for Education and Skills to legislate in order that parental consent is required in advance of any fingerprinting of children in schools.

And your Petitioners, as in duty bound, will ever pray, &c.—*[Presented by Norman Baker, Official Report,* 18 May 2007; Vol. 460, c. 877 .] [P000175]

Observations from the Secretary of State for Children, Schools and Families:

Since the date of this petition both the Department for Children, Schools and Families (DCSF) in conjunction with the British Educational Communications and Technology Agency (Becta), and the Information Commissioner's Office (ICO) have published guidance on the use of biometric technology in schools.

These sets of guidance are available on the respective Becta and ICO websites.

Petitions

Wednesday 23 April 2008

Petition presented to the House but not read on the Floor

Complaints Against Churches

The Petition of Patricia Anne Davies,

Declares that the Christian Churches in the United Kingdom show enmity to those who have cause to complain against its' Ministers; asserts that the Methodist Church would not hear her complaint of mental abuse by a Methodist Minister; that upon appealing to the Minister herself for reconciliation, she was threatened by the Minister with legal action if she did not drop the matter, and that her subsequent complaint was ignored and that it was only after much correspondence and time that she was eventually heard through the churches quasi-judicial system.

The Petitioner further declares that the hearing refused to show the complainant evidence put forward by another Minister from her own church denomination (The URC) even though she was entitled to see it and in doing this breached Methodist Church rules, but that the Methodist church, to this very day, refuses to enforce those rules.

Further declares that she has twice called upon written submissions through the rules of the Data Protection Act but has never received a response to her request for personal data; has made two complaints about the church to the Information Commissioner's office and they have advised the church of their breaches of the Act, but that the church still refuses to disclose the required documents.

Further declares that she has evidence to support her claim that the churches hold 'secret files' and that they refuse to disclose these under the Data Protection Act.

Further declares that the law has proved ineffective and an inappropriate tool for resolving this case, and that the law is daunting and expensive and therefore out of reach of most normal people.

Further declares that abuse of any nature is damaging and abusing a mentally ill depression patient is dangerous and can push a sufferer to suicide; this being borne out by the suicide figures showing that seventeen people die of suicide caused by depression every day.

The Petitioner therefore requests that the House of Commons urges the Government to make time for a debate in the House on the subject and further gives consideration to the establishment of an independent body to hear complaints against the churches.

And the Petitioner remains, etc. [P000177]

OBSERVATIONS

HEALTH

Ankylosing Spondylitis

The Petition of Gillian Eames,

Declares that anti-TNF treatments are vital for patients with Ankylosing Spondylitis (AS). Such treatments will add quality to the lives of thousands of AS patients and will allow many to take control of their treatment at home.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Health to instruct the National Institute for Health and Clinical Excellence (NICE) to approve two anti-TNF treatments for patients with Ankylosing Spondylitis (AS); and calls to ensure that NICE guidance is implemented as quickly as possible so that these new treatments can be added to NHS services and treatments to improve the welfare of AS patients around the country.

And the Petitioners remain, etc.—*[Presented by Mrs. Jacqui Lait, Official Report,* 13 March 2008; Vol. 473, c. 7P .] [P000150]

Observations from the Secretary of State for Health:

The National Institute for Health and Clinical Excellence (NICE) is currently developing guidance for the National Health Service on adalimumab (Humira), etanercept (Enbrel) and infliximab (Remicade) for the treatment of ankylosing spondylitis. NICE issued a Final Appraisal Determination (FAD) for this appraisal in November 2007. NICE received two appeals against the FAD and an appeal hearing was held on 31 March 2008. The outcome of the appeal hearing is awaited. Subject to the outcome of the appeal hearing, NICE expects to publish guidance later in the year. The appeal stage is an integral part of NICE's guidance development process and NICE cannot issue final guidance until any appeals have been heard.

NICE was established as an independent body to issue evidence-based guidance to the NHS on the clinical and cost effectiveness of new and existing treatments. The Department of Health is a stakeholder in the guidance development process and that process must be allowed to run its course free from political interference.

Funding for licensed treatments should not be withheld simply because guidance from NICE is unavailable. In December 2006, the Department of Health issued refreshed guidance which asks national health service bodies to continue with local arrangements for the managed introduction of new technologies where guidance from NICE is not available at the time the treatment or technology first becomes available.

Clatterbridge Hospital (Wirral)

The Petition of residents of Wirral,

Declares that there is a local and pressing need for a Minor Injuries Unit and an Out of Hours service in South Wirral, and that the Clatterbridge Hospital Site is a prime location for such facilities.

The Petitioners therefore request that the House of Commons urges the Minister for Health to call upon Wirral Primary Care Trust to commission a Minor Injuries Unit and an Out of Hours service on the Clatterbridge Hospital site.

And the Petitioners remain, etc.—*[Presented by Ben Chapman, Official Report,* 19 March 2008; Vol. 473, c. 1049 .] [P000144]

Observations from the Secretary of State for Health:

Although the Department of Health provides strategic leadership to the National Health Service and social care organisations in England, it is for local NHS organisations to plan, develop and improve services for local people. Therefore, any proposals for improvements to services are matters to be decided locally.

Wirral Hospital NHS Trust

The Petition of patients, families and friends of the Department of Dermatology in Wirral Hospital NHS Trust,

Declares that the petitioners have most serious concerns about the proposed changes to the care of people with dermatological disease regarding managing their conditions in the community. The Petitioners believe that such changes to services without due consideration and discussion to the effects will be detrimental to the health and wellbeing of the patients involved. The Petitioners further declare that moving the majority of skin care management to the community has the consequence of reducing funding to hospital-based services. This potentially risks the loss of specialist treatments (both in- and out-patient based), diagnostic skills, opportunities for multidisciplinary clinics and valuable training for nurses and doctors.

The Petitioners therefore request that the House of Commons urges the Government to reconsider its decision and further urges the Secretary of State for Health to use his powers to reverse the continued scaling back of the aforementioned services at Wirral Hospital NHS Trust and to visit the Wirral Trust at his earliest opportunity in order to assess the views and opinions of the dermatology service users.

And the Petitioners remain, etc.—*[Presented by Ben Chapman, Official Report,* 17 March 2008; Vol. 473, c. 718 .] [P000151]

Observations from the Secretary of State for Health:

Although the Department of Health provides strategic leadership to the National Health Service and social care organisations in England, it is for local NHS organisations to plan, develop and improve services for local people. Therefore, any proposals for improvements to services are matters to be decided locally and is not appropriate for Ministers to intervene.

Written Answers to Questions

Tuesday 25 March 2008

COMMUNITIES AND LOCAL GOVERNMENT

Aerials

Keith Vaz: To ask the Secretary of State for Communities and Local Government (1) how many mobile phone masts were erected in 2007; and if she will make a statement; [195297]

(2) how many mobile phone masts were erected in the last 10 years; and if she will make a statement. [195298]

Mr. Iain Wright: The information requested is not held centrally and could be provided only at disproportionate cost.

However, the Mobile Operators Association estimates that at the start of 2008, there were around 50,300 base station sites in the UK, with two thirds of these on existing buildings or structures. This information is available at:

http://www.mobilemastinfo.com/information/fact_sheets/mobile_phones_and_base_stations.htm

The Office of Communications (Ofcom) operates Sitefinder, http://www.sitefinder.ofcom.org.uk/, a searchable database which shows the locations and operating characteristics of operational base stations in Great Britain and Northern Ireland. In addition, every autumn, the mobile phone operators share their annual roll-out plans with local planning authorities and list all the existing sites in the local authority area as well as proposed sites. Many local planning authorities also maintain mast registers, although this is at local discretion.

Aggregates: Standards

Mr. Hoban: To ask the Secretary of State for Communities and Local Government how the regional guidelines for land-won sand and gravel production set out in the National and Regional Guidelines for Aggregates Provision in England 2001 to 2016 were determined; and how they are monitored. [195811]

Mr. Iain Wright: The regional guidelines for the provision of aggregates, published in 2003 following public consultation, were based on a forecast of national demand for aggregates that was broken down to the regional level informed by regional data on aggregates consumption from the national survey of aggregate minerals. Targets for the use of secondary and recycled materials were taken into account, with the remaining demand to be met from primary aggregates.

The guidelines include arrangements for annual monitoring and reports are published on the Communities and Local Government website. Monitoring shows that at the national level forecast demand for aggregates for the period 2001 to 2016 remains as estimated previously. However, we propose to revise the guidelines to cover the period to 2020, and correct some minor regional differences. We will be consulting on proposed revisions shortly.

Chemicals: Teesside

Ms Dari Taylor: To ask the Secretary of State for Communities and Local Government what fire risk assessment has been carried out in respect of *(a)* the largest chemical industry installation on Teesside and *(b)* the proximity of chemical industry installations to urban settlements on Teesside. [188969]

Mr. Dhanda: Fire and rescue authorities (FRAs) are required by the fire and rescue service national framework to have in place and maintain an integrated risk management plan (IRMP) which reflects local need and sets out plans to tackle effectively both existing and potential risks to communities. The IRMP enables the authority to tailor cover to fire and other incidents to local circumstances—evaluating where risk is greatest and allocating resource accordingly. It is not for central Government to comment upon or intervene in the operational proposals in an authority's IRMP including, in this case, any assessment of the risks posed by chemical installations in Teesside.

The draft fire and rescue service national framework 2008-11, which has recently been out to public consultation, requires FRAs' IRMPs to have regard to the risk analyses completed by local and regional resilience forums including those reported in external community risk registers (CRRs). Cleveland FRA will therefore need to have regard to any chemical installation risks identified in the CRR.

Fire Services: Standards

John McDonnell: To ask the Secretary of State for Communities and Local Government how many and what proportion of Fire Service response times from time of call to time of first attendance were of a duration of *(a)* up to five, *(b)* six to 10, *(c)* 11 to 15 and *(d)* over 15 minutes in each year since 2000, broken down by fire authority. [193028]

Mr. Dhanda: *[holding answer 10 March 2008]:* The information requested has been deposited in the Library of the House.

Fires

John McDonnell: To ask the Secretary of State for Communities and Local Government how many fires were reported to the Fire Service in each year since 1978, broken down by *(a)* type, *(b)* brigade and *(c)* region. [193025]

Mr. Dhanda *[holding answer 10 March 2008]:* The information requested is available from 1981 to 2006, and has been deposited in the Library of the House.

Homelessness

Mike Wood: To ask the Secretary of State for Communities and Local Government (1) how many homelessness applications were rejected in the fourth quarter of 2007 in each of the English regions; and what percentage change that represented compared with the same period in the previous year; [194810]

(2) how many approaches for help to local authority homelessness units there are in each of the English regions in the fourth quarter of 2007; and what percentage change that represented compared with the same period in the previous year. [194811]

Mr. Iain Wright: Information about English local housing authorities' actions under the homelessness legislation (part 7 of the Housing Act 1996) is collected quarterly at local authority level.

Under the legislation, authorities must secure suitable accommodation for applicants accepted as eligible for assistance, unintentionally homeless and in priority need (or take steps to secure that accommodation does not cease to be available if the applicant is likely to become homeless within 28 days). CLG's quarterly homelessness Statistical Release refers to these duties as "the main homelessness duties" and relevant applicants are recorded as "homeless acceptances". Applicants who are accepted as eligible for assistance, homeless, but not in priority need must be provided with advice and assistance in any attempts they make to secure accommodation for themselves; they are not recorded as "homeless acceptances".

Local authorities report all decisions they make under part 7, but information about the total number of applications for housing assistance is not held centrally. The following table shows the total number of decisions made by English local housing authorities under part 7 of the Housing Act 1996. The totals shown differ from those in the Statistical Release, since they include applications by persons not eligible for assistance under the legislation.

Total number of decisions[1] made by English local housing authorities during Quarter 4 2007 under part 7 of the Housing Act 1996

	October to December 2007 (number)	*Change since October to December 2006 (percentage)*
North-east	1,610	-33
North-west	4,480	-24
Yorkshire and the Humber	4,270	-21
East midlands	1,920	-27
West midlands	4,680	12
East of England	2,680	-18
London	7,630	-16
South-east	2,590	-21
South-west	2,260	-23
England	32,110	-18

[1] Applications for housing assistance considered under the homelessness provisions of the 1996 Housing Act. This figure includes applicants found not eligible for assistance.

The following table below shows the number of decisions made under part 7 on applicant households between October and December 2007, where a main homelessness duty was not accepted. The table also shows the percentage change in this figure compared to the same quarter during 2006. Note that the figures include applications by households not eligible for assistance under the legislation.

Total number of decisions[1] made by English local housing authorities during Quarter 4 2007 under part 7 of the Housing Act 1996 where a "main homelessness duty" was not accepted

	October to December 2007 (number)	*Change since October to December 2006 (percentage)*
North-east	740	-39
North-west	2,470	-24
Yorkshire and the Humber	2,610	-25
East midlands	860	-30
West midlands	2,290	1
East of England	1,280	-21
London	4,200	-22
South-east	1,280	-21
South-west	1,140	-35
England	16,870	-23

[1] Applications for housing assistance considered under the homelessness provisions of the 1996 Housing Act. This figure includes applicants found not eligible for assistance.

Housing: Low Incomes

Jim Cousins: To ask the Secretary of State for Communities and Local Government what the take-up was of each category of Homebuy scheme in each county and region in each year the scheme has been available; and what the total value was of homes produced. [189537]

Caroline Flint: The following tables show the number of homes provided through each category of HomeBuy scheme by region and county or unitary authority from April 2006 to 31 January 2008.

Region	Social HomeBuy	Open Market HomeBuy	New Build HomeBuy/Shared ownership
North East	9	8	153

Housing Corporation Investment Management System and includes Local Authority Social HomeBuy completions

The Continuous Recording System data for 2006-07 show (based on returns from registered social landlords and local authorities) the total market value of homes sold under Social HomeBuy, Open Market HomeBuy and new build HomeBuy/Shared Ownership was £1,628 million.

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government when she will publish her Department's evaluation of Social HomeBuy. [196628]

Mr. Iain Wright: I refer the hon. Member to the answer I gave on 10 March 2008, *Official Report*, column 64W.

Lichfield District Council: Local Government Finance

Mr. Jenkins: To ask the Secretary of State for Communities and Local Government how much was spent by Lichfield district council in each of the last four financial years; and what revenue the council received from *(a)* Government grants, *(b)* (i) council tax and (ii) non-domestic rates, *(c)* the sale of assets and *(d)* other sources in each of those years. [193727]

John Healey: The information requested is shown in the following table.

				£000
	2003-04	2004-05	2005-06	2006-07
Revenue expenditure	11,600	10,753	12,353	12,603
Financed by				
Government grants	3,131	3,113	3,709	2,713
Redistributed non-domestic rates	3,253	2,538	2,711	4,853
Council tax	4,770	5,128	5,413	5,817

Other	5,070	639	2,179	922
Capital receipts in year	3,554	1,255	857	1,110

Source:
Communities and local government revenue and capital outturn returns

Revenue figures are produced on a non-financial reporting standard 17 (FRS17) basis.

Government grants within revenue expenditure are defined here as the sum of revenue support grant and specific grants inside aggregate external finance (AEF), i.e. revenue grants paid for council's core services.

Other within revenue expenditure includes: transfers and adjustments; appropriations to/from revenue reserves; collection fund surpluses/deficits; and community charge amounts transferred to/from collection fund.

Local authority council tax requirement is the council tax available to finance revenue expenditure, not council tax collected.

Revenue figures exclude grants outside AEF (i.e. where funding is not for authorities' core services, but is passed to a third party, for example, rent allowances and rebates), capital grants, funding for the local authorities' housing management responsibilities and those grant programmes (such as European funding) where authorities are simply one of the recipients of funding paid towards an area.

Comparisons across years may not be valid owing to changing local authority responsibilities.

Local Authorities: Debt Collection

Robert Neill: To ask the Secretary of State for Communities and Local Government what guidance has been issued to local authorities on the use of bailiffs to collect civil debts owed by residents to them. [191660]

Mr. Dhanda: No such guidance has been issued by Communities and Local Government. On 18 March 2008, the Ministry of Justice published its response to the consultation paper "Regulation of Enforcement Agents". The response recommended that bailiffs in England and Wales should be regulated by one body, the Security Industry Authority. The consultation paper and the response are available on the Ministry of Justice's website at:

http://www.justice.gov.uk/publications/cp0207.htm

Social Rented Housing: Construction

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government how many social rented properties the Housing Corporation plans to build in the 2006 to 2008 financial period; how many bids it has received for this period; what steps it is taking to encourage further bids; and in which areas fewer bids have been received than are required. [193724]

Mr. Iain Wright: Over the period 2006-08 we set the Housing Corporation targets to deliver an additional 49,000 social rented homes and 35,000 low cost home

ownership homes. These homes will be provided through new investment during the two years and through commitments already within the Housing Corporation's affordable housing programme.

During the 2006-08 bidding round, the Housing Corporation received bids totalling £8 billion for 160,000 units. They made allocations of over £4 billion to schemes to provide 97,000 homes, some of which will not be delivered until after 2008. During the course of the programme some schemes will be subject to delay. Under the terms of their partnership agreements with the Housing Corporation, housing associations and other developers are obliged to offer replacement schemes in these circumstances. In addition, as part of the Corporation's normal in year management of their programme, bids for deliverable schemes can be submitted at any time. This helps to ensure that national targets are met and resources committed.

HEALTH

Accident and Emergency Departments

Mr. Gordon Prentice: To ask the Secretary of State for Health how many and what percentage of the population lives more than 20 miles from an accident and emergency department in each primary care trust area in England. [195014]

Mr. Bradshaw: The information requested is not available centrally.

Baby Care Units: Inspections

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether the Healthcare Commission inspects neo-natal units. [195321]

Mr. Bradshaw: The Healthcare Commission (HC) may inspect neonatal units as part of the annual health check assessment of the national health service.

As part of the HC's annual health check, NHS organisations are required to declare the extent of their compliance with core standards, which are specified by the Government in "Standards for Better Health". The declarations are made annually.

Following the submission of declarations, the HC inspects approximately 20 per cent. of trusts to validate the data.

The Department has funded via the HC a project to develop and implement a national neonatal audit programme. The Royal College of Paediatrics and Child Health has been commissioned to take this project forward over the next two years, and are expected to provide data on the first year shortly.

Blood Transfusion Services

Justine Greening: To ask the Secretary of State for Health what criteria are used to assess a geographical area as having a poor level of blood collection as outlined in the review of the National Blood Service Strategy. [195124]

Dawn Primarolo: The review team, consisting of NHS Blood and Transplant, and supported by McKinsey and Co., used two criteria to assess the level of blood collection performance in a geographical area: donor penetration and donation frequency. Donor penetration is measured by the percentage of blood donors in the eligible population. Donor frequency is measured by the number of times donors give blood in a given period.

Blood: v CJD

Sandra Gidley: To ask the Secretary of State for Health what assessment he has made of the level of risk of transmission of vCJD infection posed by blood transfusions. [194324]

Dawn Primarolo: The Department produced two assessments of the risk of variant Creutzfeldt Jakob disease (vCJD) transmission via blood transfusion in 2002: "Exclusion of blood component recipients from donation: the impact on potential vCJD transmission risks", and "On vCJD transmission through blood components: reconciling modelled risks with case evidence".

The Department published a preface to these two documents, "Risk Assessments for vCJD and Blood Transfusion: Preface to Papers Produced by Dept of Health Analysts", in June 2006. This addresses the implications of the first three cases of vCJD transmission via blood transfusion. Copies of these three documents have been placed in the Library and can also be found on the Department's website at:

www.dh.gov.uk/en/Publichealth/Communicablediseases/CJD/CJDgeneralinformation/DH_4136944.

Sandra Gidley: To ask the Secretary of State for Health how many people have developed vCJD infection following a blood transfusion in each year since 1990. [194325]

Dawn Primarolo: There have been four cases of variant Creutzfeld-Jakob disease (vCJD) infection associated with blood transfusion, three of whom died of clinical vCJD, the fourth died from an unrelated medical condition. These patients received blood transfusions between 1996 and 1999, from donors who subsequently developed clinical vCJD. Since 1999 the Department has put a number of precautionary measures in place to prevent the possible transmission of vCJD by blood transfusion.

Bridlington Hospital

Mr. Greg Knight: To ask the Secretary of State for Health what recent representations he has received on Bridlington hospital; and if he will make a statement. [196228]

Mr. Ivan Lewis: In the last six months, the Department has received a number of written representations from members of the public regarding the consultations 'A Future Role for Bridlington Hospital' and 'A Future for Maternity Services' at the Scarborough and North East Yorkshire Healthcare NHS Trust.

There have also been a small number of representations from hon. Members, Bridlington Town Council, the Joint Health Overview and Scrutiny Committee of the

North Yorkshire and East Riding of Yorkshire councils as well as the Independent Reconfiguration Panel.

The Department received a 38,168 signature petition opposing changes to services at Bridlington hospital on 25 March 2008.

Childbirth

Mr. Amess: To ask the Secretary of State for Health what the survival rate of children born at 22 to 25 weeks gestation was in the UK in the most recent period for which figures are available; how many were *(a)* born alive and *(b)* still-born; how many subsequently (i) survived and (ii) died; when his Department last undertook an evidence review on the issue that drew on (A) UK and (B) international research; and if he will make a statement. [189017]

Ann Keen: The information requested is shown in the following tables. We have commissioned the National Perinatal Epidemiology Unit (NPEU) to take forward a programme of systematic reviews of the research evidence to identify and promote the key interventions that are most likely to contribute to meeting our target for infant mortality. The topics are likely to include the major medical causes of infant mortality (pre-term birth, congenital anomalies and sudden unexplained death in infancy) as well as generic health interventions.

Live births and infant deaths by gestational age at birth: babies born in England and Wales, 2005

	Births (number)	*Deaths (number)*				*Rates per 1,000 live births (percentage)*			
Gestational age (weeks)	*Live births*	*Under 7 days*	*Between 7 and 28 days*	*28 days and over but under 1 year*	*Deaths under 1 year*	*Under 7 days*	*Between 7 and 28 days*	*28 days and over but under one year*	*Deaths under 1 year*

Stillbirths by gestational age at birth: England and Wales, 2005

Gestational age (weeks)	*Number*
24	291
25	230

Notes:
1. The tables show figures for gestational ages 22 to 25 weeks for live births, deaths under seven days of age, deaths between seven and 28 days old, deaths at 28 days and over but under one year and deaths under one year old for babies born in 2005 in England and Wales (the latest year for which figures are available). Data are not available by gestational age at birth on survival beyond one year.
2. The tables includes figures for stillbirths at gestational ages 24 and 25 weeks as a stillbirth is defined as a baby born dead after 24 completed weeks gestation.

Source:
Office for National Statistics

Departmental Official Visits

David Simpson: To ask the Secretary of State for Health what the total cost was of overnight accommodation for *(a)* civil servants, *(b)* special advisers and *(c)* Ministers in his Department staying overnight in (i) mainland Great Britain, (ii) Northern Ireland, (iii) the Republic of Ireland and (iv) other countries in the last 12 months. [193531]

Mr. Bradshaw: We do not record the costs of overnight accommodation separately for Ministers, civil servants and special advisers, as this is not a requirement of our statutory reporting. Neither do we record this information by country of destination. To collect the information requested would incur disproportionate costs.

Details of the cost of overseas travel for Cabinet Ministers, including the cost of travel and accommodation are contained in the Overseas Travel by Cabinet Ministers list. The latest list for the period 1 April 2006 to 31 March 2007 was published on 25 July 2007 and is available at:

www.cabinetoffice.gov.uk/upload/assets/www.cabinetoffice.gov.uk/propriety_and_ethics/ministerial_gifts_0607.pdf

Details for the 2007-08 financial year will be published as soon as possible after the end of the financial year.

All ministerial travel is made in accordance with the Ministerial Code. Travel for staff and special advisers is made in accordance with the Civil Service Management Code.

Departmental Orders and Regulation

Mr. Paice: To ask the Secretary of State for Health how many regulations have been *(a)* introduced and *(b)* removed by his Department since 1997. [192825]

Mr. Bradshaw: The number of Statutory Instruments (SIs) made since 1997 is shown as follows:

	Number
1997	118
1998	180
1999	177
2000	214
2001	402
2002	389
2003	189
2004	162
2005	139
2006	135
2007	100

The number of SIs revoked in 1997 was 25, plus part of one other. The number of SIs revoked in previous years could be obtained only at disproportionate cost.

Departmental Public Expenditure

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 19 February 2008, *Official Report*, column 666W, on departmental public expenditure, how many doses of each of the vaccines listed were distributed in 2006-07; and what the shelf life of each such vaccine is. [191418]

Dawn Primarolo: The quantities of vaccines distributed in the UK in 2006-07 were:

Bacille Calmette Guerin (BCG) vaccine—1,359,400 doses were distributed for the targeted BCG vaccination programme;

measles, mumps and rubella (MMR) vaccine—1,732,356 doses of MMR vaccine licensed for use in the United Kingdom were distributed. No doses of the MMR vaccine in non-UK presentation were distributed;

combined diphtheria, tetanus and pertussis (DTaP) vaccine—none (as this vaccine was no longer used in the childhood vaccination programme);

diphtheria, tetanus, pertussis, haemophilus influenzae type B, (DTwP/Hib) vaccine—none (as this vaccine was no longer used in the childhood vaccination programme);

tetanus and diphtheria (Td) vaccine—24,155 doses. Although the Td vaccine was also no longer part of the programme, there remained a demand from private customers, for example as a travel vaccine;

pneumococcal conjugate vaccine—2,362,500 doses;

diphtheria, tetanus, pertussis, inactivated polio and haemophilus influenzae type B, (DTaP/IPV+Hib) vaccine—2,311,496 doses; and

meningococcal C vaccine—1,932,928 doses.

The shelf life varies for different vaccine types, brands and batches of vaccines. Generally the shelf life of BCG vaccine is 12 months. The other vaccines have a shelf life of between 18 months to three years.

Dietary Supplements

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 20 February 2008, *Official Report*, column 804W, on dietary supplements, how many nutritional support products were dispensed in the community in each year since 1997, broken down by primary care trust area; and what estimate he has made of the number of individual patients who required nutritional support items in the community in the last year for which figures are available. [195132]

Dawn Primarolo: Information on the number of nutritional support products dispensed in the community by primary care trust from 2003 to 2006 has been placed in the Library. Data for earlier years are not available. The Department has made no estimate of the number of individual patients requiring such items.

Doctors: Torbay

Mr. Sanders: To ask the Secretary of State for Health how many junior doctors were registered in Torbay constituency in the latest period for which figures are available. [192257]

Ann Keen: This information is not held in the format requested. Information is held for national health service organisations.

There are no doctors in training and equivalents within Torbay Care Trust. However, the following table shows doctors in training and equivalents by grade within South Devon Health Care NHS Trust. The latest available data are for September 2006.

Hospital and community health services: medical and dental doctors in training and equivalents within South Devon Health Care NHS Trust (as at 30 September 2006)

	Number
Doctors in training and equivalents	173
Registrar Group	52
Senior House Officer	68
Foundation Year 2	27
House Officer and Foundation Year 1	26

Notes:
1. Junior doctors are now referred to as doctors in training and equivalents.
2. Doctors in training and equivalents is the term used to refer to people in the registrar group, senior house officers and other staff in equivalent grades who are not in an educationally approved post.
3. All doctors are registered doctors. The doctors within foundation year 2, senior house officer and the reegistrar group have full registration status. Some house officer and foundation 1 year staff will have a full registration, although the majority of these staff will have provisional registration status.

The Information Centre for health and social care Medical and Dental Workforce Census.

Drugs: Rehabilitation

Lynne Jones: To ask the Secretary of State for Health how much money has been spent on cannabis cessation services in each primary care trust in each of the last five years; how much has been allocated for 2008-09; and whether he has plans to integrate such services with smoking cessation services. [195098]

Dawn Primarolo: Since 2001, the Department and the Home Office have provided specific resources for drug treatment in the form of the pooled drug treatment budget. This funding is allocated to the 149 drug action teams across the country to use, along with local mainstream funding, to provide for treatment and services according to the specific needs of each locality. We do not hold information on how much of this funding was spent on treatment and services for cannabis.

There are no plans to integrate cannabis cessation services within national health service stop smoking services.

Fertility: Health Services

Chris McCafferty: To ask the Secretary of State for Health what steps he has taken to *(a)* monitor and *(b)* encourage the implementation of National Institute for Health and Clinical Excellence guidelines on the assessment and treatment of people with fertility problems; and if he will make a statement. [195007]

Dawn Primarolo: The Department has recently carried out a survey of in vitro fertilisation provision and will publish the results in due course.

We are working with the patient support organisation Infertility Network UK to help primary care trusts (PCTs) share best practice in the provision of fertility services and move to the implementation of the National Institute for Health and Clinical Excellence recommendations. To build on the progress being made we are establishing an expert group to advise
the project and consider how to help PCT commissioners.

The Department will be monitoring IVF provision across the national health service on an on-going basis to see where further assistance may be needed.

General Practitioners: Manpower

Mr. Sanders: To ask the Secretary of State for Health how many *(a)* general practitioners and *(b)* NHS dentists there were per head of population in (i) England and (ii) Torbay constituency in each year since 1997. [192576]

Ann Keen: Information about general practitioners is not available at constituency level but is shown for Torbay primary care trust (PCT) which was formed in 2001. Prior to this the national health service was structured in health authorities which covered much larger areas than current PCTs.

General medical practitioners (excluding retainers and registrars)[1] per 100,000 population by selected area in England, 2001 to 2006

Numbers (headcount)

	2001	*2002*	*2003*	*2004*	*2005*	*2006*
England						
GPs (excluding retainers and registrars)[1]	28,802	29,202	30,358	31,523	32,738	33,091
GPs per 100,000 population	58.2	58.8	60.9	62.9	64.9	65.3
Torbay PCT						
GPs (excluding retainers and registrars)[1]	90	89	90	96	98	101
GPs per 100,000 population	69.2	68.1	68.3	72.5	73.8	76.1

[1] General medical practitioners (excluding retainers and registrars) includes GP providers and GP others.

Note:
Data as at 30 September 2001 to 2006.

Sources:
ONS Resident Estimates 2001 based
The Information Centre for health and social care General and Personal Medical Services Statistics

The information requested about NHS dentists is not available at constituency level.

Numbers of persons per NHS dentist in England as at 31 March, 1997 to 2006 are available in Annex F of the "NHS Dental Activity and Workforce Report, England: 31 March 2006". Information is provided by PCT and by strategic health authority (SHA).

This information is based on the old contractual arrangements, which were in place up to and including 31 March 2006. This report (published 23 August 2006) is available in the Library and is also available at:

www.ic.nhs.uk/statistics-and-data-collections/primary-care/dentistry/nhs-dental-activity-and-workforce-report-england-31-march-2006.

Numbers of NHS dentists per 100,000 population in England as at 30 June 2006, 30 September 2006, 31 December 2006, and 31 March 2007 are available in Table E1 of Annex 3 of the "NHS Dental Statistics for England: 2006-07" report. Information is provided by PCT and SHA.

This information is based on the new dental contractual arrangements, introduced on 1 April 2006. This report (published 23 August 2007) is available in the Library and is also available at:

www.ic.nhs.uk/pubs/dental0607.

Genito-Urinary Medicine

Christopher Fraser: To ask the Secretary of State for Health if he will take steps to ensure prostate assessment clinics are provided by urology departments of district general hospitals. [192641]

Ann Keen: In 2002, the National Institute for Health and Clinical Excellence (NICE) published "Improving Outcomes in Urological Cancers".

This guidance sets out recommendations on how services for patients with urological cancers, including prostate cancer, should be organised in order to ensure the best outcomes. In particular, the guidance recommends that prostate assessment clinics should be provided by urology departments of district general hospitals.

Strategic health authorities have submitted action plans to demonstrate how they will implement this guidance. The Department and the Healthcare Commission monitor progress against these plans.

Genito-Urinary Medicine: Waiting Lists

Christopher Fraser: To ask the Secretary of State for Health what the *(a)* median and *(b)* mean waiting times for patients (i) waiting for a first outpatient attendance and (ii) waiting to see a consultant urologist for a first outpatient attendance were based on (A) Korner and (B) hospital episodes statistics data in each year since 1997-98. [192235]

Ann Keen: The figures are shown in the following tables.

Out-patient mean and medians in weeks from 1998.

Waiting time from general practitioner referral to first out-patient appointment where the patient was seen during the quarter.

All specialties

Year ending	Korner aggregate returns		Hospital Episode Statistics	
	Median	Mean	Median	Mean
March 1998	6.4	9.2	n/a	n/a
March 1999	6.9	10.0	n/a	n/a
March 2000	7.4	11.1	n/a	n/a
March 2001	7.4	10.8	n/a	n/a
March 2002	7.3	10.4	n/a	n/a
March 2003	7.2	8.7	n/a	n/a
March 2004	7.0	7.9	n/a	n/a
March 2005	7.0	7.5	6.9	7.8
March 2006	6.5	7.0	7.0	8.3
March 2007	5.6	6.0	n/a	n/a
September 2007	5.0	5.2	n/a	n/a

Urology specialty

Year ending	Korner aggregate returns		Hospital Episode Statistics	
	Median	Mean	Median	Mean

Sources:

1. Hospital Episode Statistics: Outpatients, The Information Centre for Health and social care provider based).
2. Korner returns: QM08R quarterly return from primary care trusts (commissioner based).

Heart Diseases: Medical Treatments

Mr. Hands: To ask the Secretary of State for Health (1) how many percutaneous coronary interventions took place in the NHS using a bare metal stent in *(a)* England and *(b)* each NHS strategic health authority in each of the last five years; [189849]

(2) how many percutaneous coronary interventions took place in the NHS using a drug eluting stent in *(a)* England and *(b)* each NHS strategic health authority in each of the last five years. [189850]

Ann Keen: The information requested is not available in the format because of variations in the operational procedure codes that Hospital Episode Statistics (HES) use to collect their data.. Any data shown for other parts of the United Kingdom represent patients resident in those areas but treated in England.

Such information as is available has been placed in the Library.

Hospices: Finance

Willie Rennie: To ask the Secretary of State for Health what funding he provided to hospices for the provision of medicines for people in receipt of end-of-life care in 2006-07. [194653]

Dawn Primarolo: This information is not held centrally. Funding for hospices to provide medicines for people in receipt of end-of-life care is included in primary care trusts' unified allocations. Hospices should be reimbursed the full agreed pharmacy costs including costs incurred for medicines to be supplied, dressings, appliances and chemical reagents listed in part IX of the Drug Tariff and associated professional costs for treating patients for whom the hospices have clinical responsibility through contractual arrangements.

Hospitals: Fire Hazards

Sir Paul Beresford: To ask the Secretary of State for Health what assessment he has made of the combustibility of plastic foam composite panels used in the building of hospitals. [196301]

Mr. Bradshaw: The Department publishes guidance on fire safety for the national health service in England in the 'Firecode' suite of documents. This requires that all NHS organisations in England comply with legislation relating to fire safety. 'Firecode' is cited as best practice in the Building Regulations 2000 (Approved document B Volume 2 Buildings other than dwelling houses 2006).

The particular volume of 'Firecode' guidance dealing with composite panels, Health Technical Memorandum (HTM) 05-02 'Guidance in support of functional provisions for healthcare premises' suggests that in order to identify an appropriate selection of composite panels, a risk assessment approach should be adopted. It also states that

> "panel in-fill material...should not compromise the safety of the occupants remaining in the building...wherever possible cladding with a non-combustible core should be used."

A copy of HTM 05-02 has been placed in the Library.

HTM 05-02 gives examples of areas where mineral fibre in-fill (inherently non-combustible) panels may be appropriate and states that the use of composite panels in other circumstances should be the subject of a risk assessment where other appropriate fire precautions have been put in place.

Hospitals are designed on the principles of progressive horizontal evacuation in the event of a fire. The guidance about the use of composite panels in hospital construction reflects the more rigorous fire safety requirements that are needed in premises where occupants are not always able immediately to vacate a building.

Infectious Diseases: Disease Control

Norman Lamb: To ask the Secretary of State for Health what steps his Department is taking to reduce the spread of health care associated infections in the community. [187113]

Ann Keen: Health care associated infections (HCAIs) are infections acquired in hospitals or as a result of health care interventions. "Clean, Safe Care" is a comprehensive strategy to tackle HCAIs and improve cleanliness, published on 9 January 2008. The strategy draws together recent HCAI initiatives and details new areas that national health service organisations need to consider when developing local plans to tackle infections and improve cleanliness. It emphasises the importance of a whole health economy approach as infection control strategies are only going to be successful if all parts of the NHS work closely together with the shared aim of reducing infection. The Department's improvement team is supporting primary care trusts (PCTs), as well as acute trusts, in developing a whole systems approach to the reduction in HCAIs. Our approach to setting the latest public service agreement target for *Clostridium difficile* supports this whole health economy approach, as local targets will be set at PCTs level as a rate per 10,000 population.

The Department has produced a focused programme to support the NHS and the independent sector in tackling HCAIs in non-acute settings, including care homes and hospices. "Essential steps to safe, clean care" was launched in June 2006 and revised and re-launched in June 2007. It includes a strategy for local health economies and tools and guidance on areas such as movement of patients between organisations, managing methicillin-resistant *Staphylococcus aureus* in the non-acute setting, preventing the spread of infection, urinary catheter care and enteral feeding. We have disseminated this guidance widely and will continue to revise and update the guidance in line with emerging best practice.

Other initiatives include:

the National Patient Safety Agency (NPSA) piloting the extension of the clean your hands campaign into primary and community care;

the NPSA published "The National Specifications for Cleanliness in the NHS" for hospitals in 2007 and is currently in the process of producing national specifications for a variety of other health care settings such as general practitioner surgeries, health centres and clinics, and ambulances. The document is due to be launched in summer 2008;

benchmarks for the care environment concerns the environment within which the care of patients takes place. It is intended for all staff groups caring for patients across all organisations and settings, including patients' homes. It includes benchmarks for best practice for a clean environment, and for in infection control;

as part of the £270 million comprehensive spending review investment into tackling HCAIs and improving cleanliness, £45 million was identified for investment in additional staff. It is for local organisations to decide the best investment to meet their needs, but this level of funding could, for example, deliver additional infection control nurses in every community in addition to specialist staff in acute trusts; and

proposals in the Health and Social Care Bill mean that the "Code of Practice for the Prevention and Control of Healthcare Associated Infections" is expected to apply to care homes and non-NHS providers in the future.

Medical Equipment: Cleaning Services

Anne Milton: To ask the Secretary of State for Health what guidance he has provided to professionals who decontaminate medical equipment in the NHS. [191812]

Ann Keen: The Department's guidance on the decontamination of medical equipment in the national health service is set out in "Health Technical Memorandum 01-01: Decontamination of reusable medical devices Part A: Management and environment" published in 2007 and "A guide to the decontamination of reusable surgical instruments" published in 2003. Copies of both documents have been placed in the Library.

The Medicines and Healthcare products Regulatory Agency has a regulatory responsibility for the Medical Devices Regulations 2002 which control the reprocessing and re-use of medical devices CE marked for that status.

The condition of surgical instruments for re-use is defined in BS EN ISO 13485:2003 which is described in executive letter EL(98) 05. A copy of this letter has been placed in the Library.

The Department has an advisory committee in this area in the form of the Engineering and Science Advisory Committee (ESAC-PR) into the decontamination of surgical instruments, including prion removal. It has also worked with the National Institute for Health and Clinical Excellence (NICE) on decontamination. Both of these bodies have taken a special interest in the deactivation of prion infectivity on surgical instruments. The NICE guidance (November 2006) is available on NICE'S website at: www.nice.org.uk/guidance/index.jsp?action=byID&o=11332 and the ESAC-Pr 2006 annual report is available on the Department's website at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_072443.

Anne Milton: To ask the Secretary of State for Health what recent discussions he has had with the Institute of Decontamination Sciences on the practical application of decontamination sciences in health and social care services; and if he will make a statement. [192468]

Ann Keen: Departmental officials have regular contact with the Institute for Decontamination Sciences (IDSc). For example, the IDSc is represented on our advisory committee, the Engineering and Science Advisory Committee into the decontamination of surgical instruments including prion removal.

NHS

John McDonnell: To ask the Secretary of State for Health if he will publish a breakdown of the *(a)* costs to date and *(b)* estimated final costs of the NHS next stage review. [198926]

Ann Keen: I refer the hon. Member to the written answer I gave to the hon. Member for Cities of London and Westminster (Mr. Field) on 4 March 2008, *Official Report*, column 2379W.

NHS: Drugs

Mr. Lansley: To ask the Secretary of State for Health (1) by what mechanism he claws back excess payments to pharmacy contractors in respect of category M dispensing of medicines; and how much was clawed back in *(a)* 2005-06, *(b)* 2006-07 and *(c)* each quarter of 2007-08; [192654]

(2) when he expects to answer Question 192654, tabled on 4 March for answer on 6 March. [196392]

Dawn Primarolo: Since the introduction of the community pharmacy contractual framework in April 2005, the Department has undertaken a number of surveys of a stratified sample of invoices and statements of a sample of independent contractors. As a result of these surveys, the reimbursement prices of medicines paid to contractors are adjusted against the price levels that prevailed in March 2005 immediately prior to the implementation of the new framework.

In addition, adjustments are also made to reimbursement prices to take account of the reduction in market prices that usually occurs in the months after the introduction of a generic medicine following patent expiry of an in-patent medicine.

In the period 1 April 2005 to 30 September 2007 the target reduction in category M medicines expenditure was £1.05 billion by reference to March 2005 prices. The reduction calculated on that basis was £1.089 billion with the difference being balanced against an adjustment to practice fees payable by primary care trusts.

To include medicines joining category M since April 2005, the planned, further reduction of £100 million per quarter from 1 October 2007 was implemented by reference to July 2007 prices. A reduction of £96.9 million was achieved on this basis for the period 1 October 2007 to 31 December 2007, the last quarter for which data are available.

A survey for the period April 2007 to 2008 is currently in hand.

These reductions are summarised in the following table:

£ million

Period	Actual cost	Cost at March 2005 prices	Cost at July 2007 prices	Reduction
April 2005 to March 2006	1,087.7	1,412.1	0	324.4
April 2006 to March 2007	1,326.8	1,797.8	0	471.0
April to June 2007	378.1	494.7	0	116.6
July to September 2007	327.0	504.1	0	177.1
October to December 2007	261.9	0	358.8	96.9

NHS: Finance

Mr. Hepburn: To ask the Secretary of State for Health how much NHS funding has been allocated to *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since 1997. [195230]

Mr. Bradshaw: The Department makes revenue allocations to primary care trusts (PCTs) and not to constituencies. PCT revenue allocations were first made in 2003-04, prior to this, funding was allocated to health authorities.

The revenue allocations made to South Tyneside PCT, to the PCTs in the North East Strategic Health Authority (SHA) area and the England figures for the period 2003-04 to 2008-09 are provided in the following table:

	Allocation					
	2003-04	2004-05	2005-06	2006-07	2007-08	2008-09
	£000					
South Tyneside PCT	158,322	173,831	189,955	222,991	243,791	257,106
North East SHA	2,516,147	2,756,923	3,009,557	3,588,123	3,920,663	4,134,810
England	45,027,181	49,328,244	53,924,975	64,309,595	70,354,697	74,197,470

The revenue allocations made to Gateshead and South Tyneside health authority and the total England figures for the years 1996-97 to 2002-03 are provided in the following table.

	Allocation						
	1996-97	1997-98	1998-99	1999-2000	2000-01	2001-02	2002-03
	£000						
Gateshead and South Tyneside HA	170,856	178,359	187,624	255,537	278,161	300,845	332,463
England	20,886,002	21,816,441	22,895,307	31,192,915	34,234,888	37,157,382	41,468,469

Notes:
Comparisons between allocation rounds cannot be made for the following reasons:
Revenue allocations were made to health authorities for the period 1996-97 to 2002-03.
Changes are made to the weighted capitation formula for each allocations round, therefore, comparisons would not be on a like-for-like basis.
2003-06 revenue allocations were made direct to PCTs for the first time, and were on a three yearly basis, and
2006-08 is the first year that primary medical services were incorporated into revenue allocations.

NHS: ICT

Mr. Stephen O'Brien: To ask the Secretary of State for Health what assessment he has made of the effect on the timetable of the NHS IT programme of the buy out of iSoft by IBA Healthcare. [195347]

Mr. Bradshaw: The purchase of iSoft by IBA has not adversely impacted on the delivery time scales for the Lorenzo solution to the national health service. Computer Sciences Corporation, the local service provider are responsible for the management of their sub-contractors, and the delivering of the NHS Care Record Service solution in accordance with their contractual obligations. There have been no timetable changes attributable to the transfer of ownership from iSoft to IBA.

NHS: Internet

Mr. Hoban: To ask the Secretary of State for Health what the purpose of the NHS Choices website is; how many pages of content are currently available on the NHS Choices website; and how many unique visitors to the NHS Choices website there were in each month between June 2007 and February 2008. [195806]

Mr. Bradshaw: NHS Choices is the national health service's online service for the public - the digital wing of the NHS. It is a response to the 21st century challenges of achieving better health and delivering high quality personalised services for all, amid ever-increasing demands on a resource-constrained NHS.

As the online service for all communication with citizens on health, it has been designed specifically with the consumer in mind. The information on NHS Choices is all NHS accredited and written in plain English. It is accompanied by videos, user comments and a growing range of interactive tools which allow users to test and monitor their health and well-being. The information held on NHS Choices is designed so that general practitioners and others can print it off for people who don't have internet access.

There are in the region of 100,000 pages of content available on NHS Choices.

The total unique visitors to the NHS Choices website by month are as follows:

	Number
June 2007	[1]
July 2007	778,124
August 2007	811,947
September 2007	728,415
October 2007	885,071
November 2007	898,502
December 2007	653,236
January 2008	1,037,423
February 2008	1,090,331

[1] Not complete - service went live mid-June 2007

NHS: Manpower

Mr. Lansley: To ask the Secretary of State for Health what expenditure on non-NHS staff was (*a*) in total and (*b*) broken down by each NHS organisation in each year since 1997-98; and what proportion of the NHS pay bill this represented in each case. [192429]

Ann Keen: The information requested has been placed in the Library. Data by organisation are shown for 2000-01 onwards.

NHS: Medical Treatments

Anne Milton: To ask the Secretary of State for Health whether his Department plans to issue guidance to the NHS on the provision of information to patients on treatments not available on the NHS. [190519]

Ann Keen: The Department is considering the implementation of an information accreditation scheme. The scheme would be open to all producers of health and social care information including information on conditions and treatments, some of which might not be available on the national health service. Membership of the scheme would be based on compliance with a nationally developed standard for information production. This would help information producers improve the quality of information available to people and an associated quality mark would help information users to identify reliable sources of information.

Nurses: Schools

Mr. Lansley: To ask the Secretary of State for Health what the ratio of fully-qualified school nurses to the number of schools was in England in each year since 1997-98 for which figures are available. [188310]

Ann Keen: The Public Health White Paper, "Choosing Health: Making healthy choices easier", published in November 2004, includes the commitment to provide new funding so that by 2010 every primary care trust, working with children's trusts and local authorities, will be resourced to have at least one full-time, year-round, qualified school nurse working with each cluster or group of primary schools and the related secondary school, taking account of health needs and school populations.

The annual national health service work force census collected accurate information on the number of school nurses employed by the NHS in England for the first time in 2004. The ratios are shown in the following table.

	Headcount			*Full-time equivalent*		
	2004	*2005*	*2006*	*2004*	*2005*	*2006*
Number of secondary schools in England	3,409	3,385	3,367	3,409	3,385	3,367
School Nursing Service Nurses	2,409	2,887	2,968	1,619	1,913	2,053
Of which						
Nurses with a post registration school nursing qualification	856	943	1,129	607	665	815
Ratio (School Nursing Service Nurses)	0.71	0.85	0.88	0.47	0.57	0.61
Ratio (Nurses with post registration school nursing qualification	0.25	0.28	0.34	0.18	0.20	0.24

Sources
Number of schools from the Department for Children, Schools and Families
The Information Centre for health and social care, Non-Medical Workforce Census, General and Personal Medical Services Statistics.

Palliative Care: Finance

Harry Cohen: To ask the Secretary of State for Health if he will give guidance to primary care trusts on the proportion of their budgets to be spent on palliative care. [190630]

Mr. Ivan Lewis: Primary care trusts (PCTs) are responsible within the national health service for commissioning and funding services for their resident population, including end of life care. The NHS operating framework 2007-08 asked PCTs, working with local authorities, to undertake baseline reviews of their end of life care services. The reviews will allow local commissioners to assess current services, identify gaps and obtain a much clearer view of local need, which will inform local commissioning in preparation for implementing the end of life care strategy to be published in summer 2008.

Patient Choice Schemes

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) how many deployments of the web-based referrer for choose and book have been made, broken down by (*a*) local service provider and (*b*) practice; [195264]

(2) how many deployments of the general practitioner system for choose and book have been made, broken down by (*a*) local service provider and (*b*) practice; [195265]

(3) how many deployments of patient administration systems for choose and book have been made, broken down by (*a*) local service provider and (*b*) trust. [195266]

Mr. Bradshaw: The percentage of general practitioner (GP) practices that are technically live with choose and book is 98 per cent., that is the percentage of practices that have the technical ability to make electronic bookings. GP practices accessing choose and book through an integrated GP system amount to 84 per cent. with many using the web-based referrer as an alternative. The web-based referrer is not deployed to local service providers or practices, but is available to all referring organisations with web access. Out of 169 trusts with patient administration systems (PASs), 144 are technically live with a compliant PAS which represents 85 per cent. of all acute trusts. Figures are not available by local service provider.

Pharmacies: ITC

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many suppliers of IT pharmacy systems there are; and how many have achieved authority to roll out their system. [195779]

Mr. Bradshaw: There are 11 suppliers of pharmacy systems. These suppliers provide 13 systems to dispensing contractors. Of these, 11 systems have achieved nationwide roll-out approval for Release 1 of the electronic prescription service.

Of the two remaining systems, one is in the last stages of NHS Connecting for Health compliance and the other is to be withdrawn from the market.

Pharmacy

Mark Simmonds: To ask the Secretary of State for Health how many 100 hour pharmacies there were in each primary care trust area in each of the last three years. [195378]

Dawn Primarolo: We do not collect data on the number of 100 hour pharmacies in each primary care trust.

The only data held are for the number of applications relating to pharmaceutical services regulations (2005) under the four new exception categories, one of which is pharmacies intending to open more than 100 hours a week. It is not known how many granted applications resulted in the actual opening of a new 100 hour per week pharmacy.

Data are available only for 2005-06 and 2006-07 and relate to applications between 1 April and 31 March each financial year. The number of applications outstanding are those outstanding at 31 March each year.

Decisions on applications relating to pharmaceutical services regulations, number and percentage of exempt applications decided by application type: England only, 2005-06 to 2006-07

	2005-06		2006-07	
Number of applications	*Number*	*Percentage*	*Number*	*Percentage*
100 Hour Pharmacies[1]	199	100	319	100
Granted	156	78	259	81
Refused	28	14	39	12
Withdrawn	15	8	21	7
Outstanding	52		48	

[1] Figures have been revised from last year's publication. Figures listed in the 2005-06 publication were total number of applications received not the number actually decided upon by primary care trusts. Revised figures exclude those applications which were outstanding at 31 March 2006. It is assumed that these applications were outstanding as no decision had been reached on their final outcome.

Source:
General Pharmaceutical Services in England and Wales 2006-07. This document is available on the Information Centre for health and social care website at www.ic.nhs.uk/pubs/pharmserv0607

Polyclinics: Greater London

Kate Hoey: To ask the Secretary of State for Health what percentage of the population of London he estimates will live within (*a*) one mile, (*b*) three miles and (*c*) five miles of a polyclinic. [195020]

Mr. Bradshaw: No estimate has been made of the percentage of the population of London who will live within one, three and five miles of a polyclinic.

Proposals for the provision of services are a matter for primary care trusts (PCTs), working in conjunction with their strategic health authority and other stakeholders. The hon. Member may wish to raise this with her local PCT.

Prescriptions

Mr. Hancock: To ask the Secretary of State for Health (1) what recent estimate he has made of the number of people in England who are unable to take prescribed medicines because of the cost of prescriptions; and if he will make a statement; [195575]

(2) on what date he expects to publish the public consultation on prescription charges in England; and if he will make a statement. [196374]

Dawn Primarolo: We have made no such estimate. We agree it is vitally important that people get the medicines they need. That is why we will shortly be consulting on cost neutral changes to prescription charges and exemptions so that the public can contribute their views on any proposals prior to a final decision.

Prescriptions: ICT

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many deployments of the pharmacy system for the electronic prescriptions service have been made, broken down by (*a*) local service provider and (*b*) practice. [195262]

Mr. Bradshaw: The local service providers are not contracted to provide pharmacy systems to support the electronic prescription service (EPS). Existing pharmacy systems suppliers have developed systems that support Release 1 of the EPS. The service has been deployed to 8,159 (79 per cent.) pharmacies in England.

Prostate Cancer: Research

Christopher Fraser: To ask the Secretary of State for Health how much funding his Department has committed to the (*a*) NHS Prostate Cancer and (*b*) Prostate Cancer Risk Management programme in each financial year since each programme was initiated; and if he will make a statement. [192236]

Ann Keen: It is for primary care trusts (PCTs) working in partnership with their strategic health authorities (SHAs), local cancer services and local stakeholders to provide appropriate services for their local populations, including prostate cancer services. The majority of funding to improve prostate cancer services over recent years has therefore been in PCT allocation baselines.

Funding on specific national activity is shown in the following table:

	Funding (£000)					
Programme	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
National Health Service Prostate Cancer Programme		1,174.5	594.4	128.4	190	180
Prostate Cancer Risk Management Programme	170	168	131	120	117	200

Note:
The majority of funding for the NHS Prostate Cancer Programme in 2003-04 and 2005-06 came from the Modernisation Agency's (MA) Action On Urology project. When the MA closed in 2005, this funding was devolved to SHAs to fund local service improvements. In addition, the Cancer Services Collaborative Improvement Partnership has been funded by an annual budget of £2.9 million since 2001 to support service improvements, but this budget cannot be broken down by cancer type.

Radiotherapy

Bill Wiggin: To ask the Secretary of State for Health whether he plans to increase the number of patients who are able to receive proton therapy treatment *(a)* at Clatterbridge and *(b)* in England; and if he will make a statement. [192666]

Ann Keen: The Clatterbridge facility is used to treat a specific class of eye cancers. The number of patients needing therapy for this class of cancers is not increasing. The need for another proton therapy facility in the United Kingdom to treat other types of cancer is under consideration.

Sexually Transmitted Diseases

Sandra Gidley: To ask the Secretary of State for Health what steps he is taking to tackle drug resistant gonorrhoea. [194509]

Dawn Primarolo: The Department funds the Health Protection Agency to manage the Gonococcal Resistance to Antimicrobials Surveillance Programme (GRASP) which monitors gonococcal resistance and provides the evidence-base for treatment guidelines in the management of gonorrhoea. In 2002, this led to prescribing policy being updated to recommend that gonorrhoea should be treated with third generation cephalosporins, ceftriaxone or cefixime. A copy of the GRASP annual report 2006 has been placed in the Library.

Smoking: Public Places

Mr. Malins: To ask the Secretary of State for Health how many people in England have been *(a)* charged with and *(b)* convicted of smoking tobacco in a prohibited place since the introduction of the relevant legislation; and what range of sentences has been imposed. [196377]

Dawn Primarolo: Details on smokefree legislation enforcement activity are collected from local authorities and routinely published by the Department on the Smokefree England website at www.smokefreeengland.co.uk. The latest smokefree legislation compliance report covers the first six months of the new law being in effect, and has been placed in the Library.

Penalties for smokefree offences are set out in the Smoke-free (Penalties and Discounted Amounts) Regulations 2007.

Sunbeds

Mark Simmonds: To ask the Secretary of State for Health (1) what recent discussions he has had with representatives of coin-operated sunbed companies on their operation; [195374]

(2) which organisations he has consulted on tanning salon regulation in the last 12 months. [195375]

Dawn Primarolo: The former Minister of State (Caroline Flint) met representatives from Consol Suncenters plc, the leading tanning salon company, on 29 March 2007.

For organisations consulted on tanning salon regulation I refer the hon. Member to the answer I gave my hon. Friend the Member for Swansea, East (Mrs. James), on 20 February 2008, *Official Report*, columns 817-18W.

INNOVATION, UNIVERSITIES AND SKILLS

English Language

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills how many people obtained English for Speakers of Other Languages qualifications at level *(a)* 1, *(b)* 2 and *(c)* 3 in London in each of the last 10 years. [172492]

Jim Knight: I have been asked to reply.

The information can be provided only at disproportionate cost.

Unemployment: Stroud

Mr. Drew: To ask the Secretary of State for Innovation, Universities and Skills how many *(a)* 16 to 19 year olds and *(b)* 20 to 25 year olds in Stroud constituency were registered unemployed in January in each of the last five years for which figures are available. [193221]

Angela Eagle: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 25 March 2008:

As National Statistician, I have been asked to reply to your Parliamentary Question, how many (a) 16-19 year olds (b) 20-25 year olds in Stroud constituency were registered as unemployed in the last five years for which figures are available. (193221)

ONS compiles statistics for local areas of people claiming Jobseeker's Allowance (JSA). Table 1, attached, shows the number of people, aged 16-19 and 20-24 resident in the Stroud constituency, claiming JSA in January from 2004 to 2008. We have supplied figures based on the 20-24 age group due to these being the standard group used for JSA figures.

The latest JSA figures, along with other current and historical labour market indicators for the Stroud Parliamentary Constituency are available on the Nomis Website at:

https://www.nomisweb.co.uk/reports/lmp/pca/2030043388/report.aspx

Table 1:16 to 19 and 20 to 24 year-olds claiming jobseeker's allowance, resident in Stroud parliamentary constituency for the last five years

January	*16 to 19 year-olds level*[1]	*20 to 24 year-olds level*[1]
2004	75	145
2005	90	130
2006	110	145
2007	95	100
2008	100	120

[1] Data rounded to nearest 5.

INTERNATIONAL DEVELOPMENT

Afghanistan: Opium

Mr. MacDougall: To ask the Secretary of State for International Development what measures his Department is taking to reduce poppy production in Afghanistan; and if he will make a statement. [196276]

Mr. Malik: The Department for International Development's (DFID) livelihoods programme supports the Government of Afghanistan's National Drugs Control Strategy (NDCS). The NDCS aims to reduce poppy cultivation in Afghanistan, acknowledging that sustainable drug elimination takes time. It highlights key priorities where activity is likely to make the greatest impact in the short-term. One of these priorities is strengthening and diversifying legal livelihoods so that farmers and other rural workers are no longer dependent on poppy cultivation. This means tackling key constraints such as access to markets and credit, labour opportunities and training.

DFID has provided over £100 million over the last three years to support this aim. The majority of this funding has been channelled through the Government of Afghanistan's own national programmes, including programmes to:

rehabilitate rural roads, generating employment and improving access to markets (£18 million over three years, supporting rehabilitation of over 9,700 km of roads)

enable communities to implement their development priorities (almost £50 million over six years, supporting over 34,000 projects)

provide small loans to support licit businesses (£40 million over three years to support loans to over 400,000 Afghans)

DFID also supports research into a range of alternative crops including mint and saffron. Further information on DFID's livelihoods programme and other activities in Afghanistan is available on the DFID website at the following address:

http://www.dfid.gov.uk/countries/asia/afghanistan.asp

Mr. MacDougall: To ask the Secretary of State for International Development what estimate his Department has made of the volume of poppy production in Afghanistan in the latest period for which figures are available; and if he will make a statement. [196279]

Mr. Malik: The United Nations Office on Drugs and Crime (UNODC) conducts annual surveys of opium cultivation in Afghanistan. The following data are drawn from the UNODC surveys.

	Potential total volume of opium production (Metric tonnes)	*Estimated opium cultivation (Hectares)*	*Opium poppy as a percentage of agricultural land*
2007	8,200	193,000	4
2006	6,100	165,000	4
2005	4,100	104,000	2
2004	4,200	131,000	3
2003	3,600	80,000	2
2002	3,400	74,000	1
2001	185	8,000	[1]—
2000	3,276	82,172	[1]—
1999	4,565	91,983	[1]—
1998	2,693	64,674	[1]—

[1] Data not available.

Burma: Food Supply

Mr. Andrew Mitchell: To ask the Secretary of State for International Development what reports he has received of the adequacy of the harvest in Chin state, Burma; what discussions he has held with the World Food Programme and other humanitarian agencies on the adequacy of food supply in Chin state; what assessment he has made of the risk of famine there; and if he will make a statement. [196399]

Mr. Douglas Alexander: The United Nations Development Programme (UNDP), the World Food Programme (WFP) and non-governmental organisations have reported on the risk of food shortages in western Burma resulting from rodent infestations. The WFP has sent a mission to Chin state to assess the extent of the problem. The Department for International Development's (DFID) office in Burma is in contact with the UNDP and WFP about what humanitarian response may be required.

HIV Infection

Mr. Moore: To ask the Secretary of State for International Development (1) what representations he has made to his G8 counterparts to ensure that progress towards the G8 target of achieving universal access to HIV prevention, treatment and care services by 2010 will be discussed at *(a)* the meeting of G8 development Ministers in April and *(b)* the G8 summit in Tokyo in July; and if he will make a statement; [195028]

(2) what assessment he has made of progress towards the G8 target of universal access to HIV prevention, treatment and care services by 2010; what estimate he has made of the likely cost of reaching this target; what proportion of that cost he expects G8 countries to meet; and if he will make a statement; [195029]

(3) what assessment he has made of whether the G8 will reach its commitment of *(a)* $1.5 billion for the prevention of mother-to-child transmission services and *(b)* $1.8 billion for paediatric treatment by 2010; what proportion of these commitments will be met by funding from his Department; and if he will make a statement. [195030]

Mr. Thomas: I refer the hon. Member to the answer given to my hon. Friend the Member for Edinburgh, South (Nigel Griffiths) on 19 March 2008, *Official Report*, columns 1183-84W.

United Nations: Equality

Dr. Blackman-Woods: To ask the Secretary of State for International Development if he will make representations for inclusion of a discussion on gender equality and women's empowerment at the UN High Level Meeting on 25 September 2008. [194516]

Gillian Merron: My right hon. Friend, the Secretary of State for International Development has agreed to promote gender equality at the UN High Level Meeting on 25 September 2008 through supporting the Danish Government who are leading on co-ordinating international support for Millennium Development Goal (MDG) 3 (Promote gender equality and empower women) within the MDG Call to Action Campaign. The UK's contribution to the Danish initiative is to co-sponsor an event in Copenhagen in April which will discuss how to put gender equality and women's empowerment at the heart of the MDG Call to Action. The UK will also support Danish efforts to organise a side meeting on the importance of gender equality to the MDGs at the UN High Level Meeting.

TREASURY

Bank Services: Liechtenstein

Daniel Kawczynski: To ask the Chancellor of the Exchequer how much has been spent from the public purse to obtain information on British clients of Liechtenstein banks. [196258]

Jane Kennedy: I refer the hon. Gentleman to the answer I gave to the hon. Member for Twickenham (Dr. Cable) on 10 March 2008, *Official Report*, columns 115W-16W.

Carbon Emissions: Finance

Lynne Jones: To ask the Chancellor of the Exchequer what estimate he has made of the proportion of GDP that will be spent in the UK in the 2008-09 financial year on measures to reduce carbon dioxide emissions. [195240]

Angela Eagle: The Government use a package of policy instruments to reduce emissions. Spending measures are important, but form only one element alongside, for example, regulation, fiscal measures and trading schemes. These stimulate behaviour change and investment both here and outside the UK. The Government do not make an annual estimate of the amount spent in the UK on reducing carbon dioxide emissions, though they do publish annual emissions data.

However, modelling has been conducted for the Energy White Paper to assess the potential costs to the UK economy from meeting its long-term targets. Analysis for the 2020 target suggests that (under a hypothetical scenario and subject to appropriate caveats) acting unilaterally, UK GDP will be lower by 1.7 per cent. in 2020 compared with no action; that acting multilaterally reduces this impact to 1.3 per cent. of UK GDP in 2020; and that achieving a 30 per cent. reduction in carbon emissions would cost 0.6 per cent. of GDP in 2020 if the UK purchased abatement abroad.

The Stern review concluded that the costs of reducing emissions to levels that avoid the worst risks of climate change are significant but manageable, whereas delay will be costly and dangerous.

Child Benefit

Mr. Swayne: To ask the Chancellor of the Exchequer how much child benefit was paid in respect of children living outside the United Kingdom in each of the last five years. [195846]

Jane Kennedy: I refer the hon. Member to the reply I gave the hon. Member for North Down (Lady Hermon) on 10 March 2008, *Official Report*, column 116W.

Council Tax: Valuation

Mr. Pickles: To ask the Chancellor of the Exchequer what success fee was paid to Cole Layer Trumble for its work on the automated valuation model to assist council tax revaluation in England. [193846]

Jane Kennedy: Cole Layer Trumble (CLT) supported the development of an automated valuation model (AVM) for the now postponed council tax revaluation in England—the largest application of such technology in the world. The fee of £115,000 is equivalent to approximately 3.5 per cent. of accumulated payments under this contract; the making of such payments is in line with procurement best practice.

Mr. Pickles: To ask the Chancellor of the Exchequer pursuant to the answer of 19 February 2008, *Official Report*, column 613W, on council tax: valuation, if he will place in the Library a copy of the OGC Action Plan mentioned in the minutes of the Valuation Office Agency's Council Tax Revaluation 2007 programme board of 22 November 2005. [193919]

Jane Kennedy: This Action Plan, which is now closed, related to the outcomes of an OGC Gateway Review. The disclosure of such reviews is currently the subject of proceedings in the High Court in an unrelated case.

Data Protection

Jim Cousins: To ask the Chancellor of the Exchequer how many security specialists and security assurance and data protection and validation officers were employed by *(a)* HM Treasury, *(b)* HM Revenue and Customs and *(c)* other agencies in each region and county in each year since 2004. [189567]

Angela Eagle *[holding answer 27 February 2008]:* Security, data protection and validation responsibilities are spread over a number of different posts and no central record is maintained.

HM Treasury, HM Revenue and Customs, and other agencies follow security advice provided by the Cabinet Office. Departmental Security Officers have responsibility for the protective security measures, an area supported by other specialist staff as appropriate. External security consultants are employed when this provides best value for money.

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 27 February 2008, *Official Report*, column 1642W, on data protection, when each of the 37 data guardians was appointed; and how long each appointment is for. [195911]

Jane Kennedy: HMRC's data guardians were appointed in late 2007. The appointments are not time limited.

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 27 February 2008, *Official Report*, column 1642W, on data protection, what the civil service grade of each data guardian is. [195913]

Jane Kennedy: The role of each data guardian varies according to the size of the relevant business unit and the amount and type of data that it processes.

Of HMRC's 37 data guardians, 21 are SCS 1, 8 are Grade 6, and 8 are Grade 7.

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 27 February 2008, *Official Report*, column 1642W, on data protection, where each of the data guardians not in Tyne and Wear or London are based. [195914]

Jane Kennedy: Of the 11 HMRC data guardians not based in either Tyne and Wear or London, four are based in Manchester, four based in Nottingham and one each in Worthing, Telford and Preston.

Departmental Labour Turnover

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 27 February 2008, *Official Report*, column 1636W, on departmental labour turnover, how many civil servants voluntarily ceased employment, excluding redundancies, within his Department *(a)* since 1 July 2007, *(b)* between 1 November 2006 and 31 June 2007 and *(c)* in each month between October 2006 and the most recent month for which figures are available. [195903]

Angela Eagle: The number of HM Treasury employees who left employment due to resignation is as follows:

(a) for the period 1 July 2007 to 29 February 2008: 83.

(b) between 1 November 2006 and 30 June 2007: 53.

(c) in each month between 1 October 2006 and 29 February 2008:

	Number
2006	
October	6
November	4
December	5
2007	
January	5
February	3
March	9
April	9
May	9
June	9
July	10
August	18
September	17
October	9
November	7
December	7
2008	
January	7
February	8

Departmental Pay

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 27 February 2008, *Official Report*, column 1638W, on departmental pay, how many civil servants in his Department were in receipt of the *(a)* normal maximum and *(b)* high performance maximum in each pay range in each year since 1997. [195904]

Angela Eagle: To provide the information from 1997 to 2006 would be at a disproportionate cost.

The numbers as at 1 November 2007 are in the following table:

Range	*Staff in receipt of normal maximum*	*Staff in receipt of high performance maximum*
B	18	12
C	23	11
D	37	4
E	23	14
B(Nat)	0	1
C(Nat)	1	1
D(Nat)	2	0
E(Nat)	0	1

Departmental Sustainable Development

Norman Baker: To ask the Chancellor of the Exchequer when his Department plans to publish its sustainable operations policy statement. [195862]

Angela Eagle: HM Treasury published the sustainable development report and action plan in August 2007. This is updated regularly as appropriate and is available on the HM Treasury website.

Excise Duties: Alcoholic Drinks

Mr. Willetts: To ask the Chancellor of the Exchequer what estimate he has made of the likely change in the number of individuals consuming alcohol, and the quantity of alcohol consumed, as a result of the alcohol duties announced in the 2008 Budget; and what effect this had on his revenue assumptions for *(a)* 2008-09, *(b)* 2009-10 and *(c)* 2010-11. [194872]

Angela Eagle: No estimate has been made of the change in the number of individuals consuming alcohol as a result of the alcohol duty changes announced in the 2008 Budget. The difference against the underlying trend in total pure alcohol consumption in each year is estimated to be *(a)* 1.6 per cent., *(b)* 2.6 per cent. and *(c)* 3.5 per cent. The revenue effects, including behavioural effects, are set out in table 1.2 of the FSBR.

Excise Duties: Fuels

Mr. Drew: To ask the Chancellor of the Exchequer what his policy is on the differential between tax rates for petrol and liquefied petroleum gas; and what the duty charged on each fuel was in each of the last five years. [195712]

Angela Eagle: At pre-Budget report 2003 it was announced that the environmental benefits of LPG no longer justified the level of duty differential that it received, and that the Government would gradually increase the duty rate, setting differentials on a path towards a level commensurate with the fuel's environmental benefits.

Historical LPG duty rates appear in the UK Trade Information hydrocarbon oils bulletin, available at:

www.uktradeinfo.com

The duty rate for LPG was 9p per kilogram from 2001 until December 2006, when it rose to 12.21p per kilogram, as main road fuel duties were increased in line with inflation. It was then increased to 16.49p per kilogram on 1 October 2007, when main road fuel duties rose by 2p per litre.

Consistent with the Government's commitment to give three-year certainty on duty differentials for alternative fuels, Budget 2008 announced that differential tax rate for LPG until 2010. The differential will decrease by 1p per litre when main fuel duty rates change on each of 1 October 2008, 1 April 2009 and 1 April 2010.

Norman Baker: To ask the Chancellor of the Exchequer (1) what estimate he has made of the effect of the postponement of an inflation-linked fuel duty increase on the cost of travelling by *(a)* private car, *(b)* bus and *(c)* train in 2008-09; [195921]

(2) if he could estimate what the effect on the real cost of motoring would have been if fuel duty had been increased in line with inflation since 1997. [195922]

Angela Eagle: The Government's policy is that fuel duty rates should rise each year at least in line with inflation as the UK seeks to reduce polluting emissions and fund public services. It is estimated that, by April 2008, fuel duty will be about the same in real terms as it was in May 1997. Therefore, fuel duty has not made a substantive impact on the real cost of motoring since 1997.

Budget 2008 confirmed that main road fuel duty rates will rise by 1.84p per litre on 1 April 2009 and announced that they will also rise by 0.5p per litre above indexation on 1 April 2010. However, consistent with Government's stance of maintaining flexibility in responding to short-term economic conditions, Budget 2008 also announced that the planned 2p per litre increase in fuel duty due to take place on 1 April 2008 would be deferred for six months, until October 2008.

The impact of this deferral on the cost of travelling by private car will vary depending on the fuel efficiency of the car chosen, and the number of miles driven. The Government have not estimated the impact of a postponement of an inflation-linked fuel duty increase on the cost of travelling by bus or train in 2008.

Norman Baker: To ask the Chancellor of the Exchequer (1) what estimate he has made of the effect on carbon dioxide emissions of the postponement of the inflation linked fuel duty increase that had been planned for 1 April; [195931]

(2) what estimate he has made of the revenue forgone arising from the decision to postpone the planned fuel duty increase that had been planned for 1 April. [195932]

Angela Eagle: The Government's policy is that fuel duty rates should rise each year at least in line with inflation as the UK seeks to reduce polluting emissions and fund public services. Budget 2008 therefore confirmed that main road fuel duty rates will rise by 1.84p per litre on 1 April 2009 and announced that they will also rise by 0.5p per litre above indexation on 1 April 2010.

However, consistent with Government's stance of maintaining flexibility in responding to short-term economic conditions, Budget 2008 also announced that the planned 2p per litre increase in fuel duty due to take place on 1 April 2008 would be deferred for six months, until October 2008.

The estimated revenue forgone as a result of this deferral is shown in Table A1 of the Budget document, available on the HM Treasury website.

It is estimated that the three fuel duty increases announced at Budget 2008—for October 2008, April 2009 and April 2010—will lead to a reduction of 0.5 million tonnes of carbon dioxide a year by 2010-11. The deferral of the 2008 increase from April to October is expected to lead to an additional 0.1 million tonnes of carbon dioxide being emitted in 2008-09, than would have been, had the increase gone ahead in April. However, there is no impact in subsequent years, as the rate returns to the pre-announced levels.

Excise Duties: Motor Vehicles

Mr. Gregory Campbell: To ask the Chancellor of the Exchequer if he will consider reducing the excise duty on 4x4 vehicles which use biofuels. [196439]

Angela Eagle: The renewable transport fuel obligation (RTFO) takes effect from April this year. The RTFO will require fuel suppliers to ensure that 2.5 per cent. of all fuel they supply is biofuel. This will increase to 3.75 per cent. in 2009-10 and 5 per cent. in 2010-11. This will ensure that biofuels will account for an increased percentage of fuel used across road transport, including 4x4 vehicles. Therefore, there is not a case for a reduced rate of vehicle excise duty for 4x4 vehicles using biofuels.

Fossil Fuel Levy

Mr. Ingram: To ask the Chancellor of the Exchequer how much was transferred to the Consolidated Fund from the England and Wales fossil fuel levy in

(a) 2004-05, *(b)* 2005-06, *(c)* 2006-07 and *(d)* 2007-08; and whether such funds were ring-fenced for the purpose of promoting the use of energy from renewable sources. [196214]

Angela Eagle: No amounts have been transferred to the Consolidated Fund from the England and Wales fossil fuel levy since 2004-05.

Income Tax

Mr. Meacher: To ask the Chancellor of the Exchequer what the total value is of all the tax reliefs and allowances accruing to those with incomes over *(a)* £50,000, *(b)* £100,000, *(c)* £250,000 and *(d)* £500,000 in the latest period for which figures are available; and what the average value of tax reliefs and allowances accruing to persons in those income bands was. [196630]

Jane Kennedy: Information on deductions and reliefs and their mean values for various bands of total income can be found in Table T3.8 'Deductions and Reliefs' on the HM Revenue and Customs website at:

http://www.hmrc.gov.uk/stats/income_distribution/menu.htm

The table is based on the Survey of Personal Incomes of which 2005-06 is the latest year available.

Northern Rock

Harry Cohen: To ask the Chancellor of the Exchequer pursuant to the answer of 17 January 2008, *Official Report*, column 1431W, on Northern Rock, when he expects the annual report and accounts for 2007 to be published. [191334]

Angela Eagle: Northern Rock operates on an arm's length basis from Government as a commercial entity. It publishes its audited reports and accounts on a regular basis in accordance with statutory reporting requirements.

The publication of audited reports and accounts for 2007 will take place in due course; exactly when is a matter for the Board of Northern Rock.

Northern Rock: Compensation

Mr. Frank Field: To ask the Chancellor of the Exchequer if he will set out the basis on which compensation may be paid to those people who were shareholders of Northern Rock before the company was nationalised. [196274]

Angela Eagle: The Chancellor made clear from 21 January onwards that, if temporary public ownership were pursued, any compensation payable would be assessed by an independent valuer on the basis that:

the Government should not be required to compensate shareholders or others affected for value which is dependent on taxpayers' support; and the fact that

public sector ownership would be an alternative to administration for Northern Rock.

Accordingly, the Banking (Special Provisions) Act 2008 requires that the assumptions to be made in assessing the amount of any compensation payable in relation to a bank whose shares have been taken into public ownership are that all public financial assistance has been withdrawn and none is available in future (apart from the Bank of England's ordinary market assistance, on its usual terms). The Northern Rock plc Compensation Scheme Order 2008 sets out two further valuation assumptions to be made:

that Northern Rock is unable to continue as a going concern; and that

it is in administration.

Prices: Food

Dr. Kumar: To ask the Chancellor of the Exchequer what assessment he has made of the effect on domestic inequality of above-inflation rises in prices of necessary goods such as food. [195555]

Angela Eagle: Real household disposable incomes have risen strongly across the income distribution since 1997, and the previously sharp upward trend in inequality has been arrested.

Income growth for low-income households will be boosted in 2008-09 by increases in recent Budgets including increases in the child element of child tax credit and the tax credit income threshold. Low-income pensioner households will benefit from increases in the aged personal allowance and pension credit as well as a one-off payment of £50 to over-60s and £100 to over-80s.

As a result of these measures, households in the poorest fifth of the population will be £160 better off on average in 2008-09, compared with 2007-08, and those with children in the poorest fifth of the population will be £400 better off on average.

Real household disposable incomes are expected to grow by 1.5 per cent. to 2 per cent. in 2008, rising to 2 per cent. to 2.5 per cent. in 2009. The forecast takes full account of inflation overall, including those particular goods and services where price rises are currently stronger than the average. Changes in purchasing power for individual households will depend on individual spending patterns.

Tax Credits

Mr. Frank Field: To ask the Chancellor of the Exchequer pursuant to the answer of 18 March 2008, *Official Report*, column 1017W, on tax credits, what the highest possible income is that a family may receive while being eligible for the child care element of the working tax credit; and what child care costs this would involve. [196593]

Jane Kennedy: The income at which a family with maximum child care costs could benefit from the child care element depends on the number of children and whether the family claims the disability element for any children or adults in the family.

Taxation: Investment

Mr. Hoban: To ask the Chancellor of the Exchequer what estimate he has made of the effect on tax revenue of abolishing the distinction between trading and investment activities of open-ended investment companies. [196275]

Jane Kennedy: The Government have been considering the issue of the trading and investment boundary as it applies to open-ended investment companies through a joint Investment Management Association, Treasury and HMRC working group to consider the findings of the Investment Management Association/KPMG report on Taxation and the Competitiveness of UK Funds. Discussions are still ongoing. To help clarify the existing boundary, particularly as it applies to derivatives, a statement was issued by HM Revenue and Customs at PBR 2007.

Taxation: Scotland

Mr. Ingram: To ask the Chancellor of the Exchequer what recent discussions have taken place between *(a)* his Department and *(b)* HM Revenue and Customs and the Scottish Executive on HM Revenue and Customs' role in the collection of local taxes in Scotland. [196163]

Yvette Cooper: There have been no discussions between the Treasury, HM Revenue and Customs and the Scottish Executive on an HM Revenue and Customs role in the collection of local taxes in Scotland.

Unemployment: Greater London

Mr. Hoban: To ask the Chancellor of the Exchequer how many *(a)* unemployed and *(b)* economically inactive (i) women and (ii) men there were in each London borough in each year since 2000. [195848]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 25 March 2008:

As National Statistician, I have been asked to reply to your Parliamentary Question on how many (a) unemployed and (b) economically inactive (i) women and (ii) men there were in each London borough in each year since 2000. (195848)

The Office for National Statistics (ONS) compiles estimates of unemployment and inactivity for local areas for women and men from the annual Labour Force Survey (LFS) and the Annual Population Survey (APS) following International Labour Organisation definitions.

Tables 1 and 2 attached, show the numbers of people (split by gender) aged 16 and over who were unemployed and resident in each London Borough for the 12 month periods ending February 2001 to February 2004 from the annual LFS, and ending in March for 2005, 2006, and 2007 as well as June 2007 from the APS. The July to June 2007 APS dataset is the most recent for which figures are available, whereas a consistent time series is best provided using March and February data.

Tables 3 and 4 attached, show the numbers of inactive people (split by gender) of working age, resident in each London Borough, for the 12 month periods ending February 2001 to February 2004 from the annual LFS, and ending in March for 2005, 2006, and 2007 as well as June 2007 from the APS. The July to June 2007 APS dataset is the most recent for which figures are available, whereas a consistent time series is best provided using March and February data.

These estimates, as with any from sample surveys, are subject to a margin of uncertainty. Changes in the estimates from year to year should be treated with particular caution.

Source:
Annual Labour Force Survey and Annual Population Survey

Valuation Office: Cole Layer Trumble

Robert Neill: To ask the Chancellor of the Exchequer whether Cole Layer Trumble/Tyler Technologies, are providing advice or support to the Valuation Office Agency. [192323]

Jane Kennedy: I refer the hon. Member to the answer given to the hon. Member for Brentwood and Ongar (Mr. Pickles) on 8 January 2008, *Official Report*, column 507W.

Valuation Office: Documents

Robert Neill: To ask the Chancellor of the Exchequer whether data for which the Valuation Office Agency is responsible are *(a)* stored and *(b)* processed overseas. [192325]

Jane Kennedy: The VOA does not process or store information for which it is responsible overseas.

Valuation Office: Pay

Danny Alexander: To ask the Chancellor of the Exchequer what plans he has to equalise the pay and conditions of equivalent grades of staff in the Valuation Office Agency and the Rent Service once the organisations have merged. [193384]

Jane Kennedy: The Valuation Office Agency and the Rent Service are managing the Transfer of Functions as a joint programme. As part of this, the Valuation Office Agency is undertaking a detailed review of the differences in Terms and Conditions (including pay) between the two organisations to establish a future strategy for aligning these.

Voluntary Work

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 27 February 2008, *Official Report*, column 1490W, on voluntary work, what funding his Department has provided for the Volunteers Group in 2007-08. [195916]

Angela Eagle: During 2007-08, HM Treasury made provision of resources to support the HM Treasury Volunteers Group in a number of ways, including a flexible budget to support the administration of the group and relevant staff events; a significant proportion of one full-time member of staff; and the provision of extensive special leave allowances to allow all members of HM Treasury staff to take paid special leave to volunteer in the community for the public good.

The results of this investment have been clear, for example in 2007, HM Treasury won an award for its exceptional support of the School Governor's One Stop Shop (a small, successful charity that recruits volunteers to become governors in schools across England).

Welfare Tax Credits: Fraud

Danny Alexander: To ask the Chancellor of the Exchequer what his estimate is of the number of fraudulent claims for tax credits made in each year since 2003, broken down by the region in which claimants gave addresses. [194491]

Jane Kennedy: This information is not held in the format requested. However, I refer the hon. Member to the Child and Working Tax Credit Error and Fraud Statistics available on HMRC's website at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/error-fraud.htm

and to the Comptroller and Auditor General's Standard Report in the 2006-07 HMRC accounts, which is available on the HMRC website at:

http://www.hmrc.gov.uk/about/hmrgaccounts2007.htm

Danny Alexander: To ask the Chancellor of the Exchequer how much was obtained from tax credit fraud by *(a)* individuals and *(b)* criminal gangs who were prosecuted in each year since 2003. [194499]

Jane Kennedy: This information is not held centrally and could be provided only at disproportionate cost.

Welfare Tax Credits: Telephone Services

Danny Alexander: To ask the Chancellor of the Exchequer what the average cost per minute of calls made to tax credit hotlines from (*a*) mobile telephones and (*b*) landlines is; and if he will make a statement. [194472]

Jane Kennedy: The information requested cannot be provided as the cost of calls made to the Tax Credits Helpline, and indeed other HMRC Helplines which use 0845 non geographic numbers, is dependent on several factors. Calls are charged to the customer based on the tariff arrangements they have with their service provider, the device they use for the call and the location from which they call.

JUSTICE

Children: Abuse

Tim Loughton: To ask the Secretary of State for Justice how many people were charged with crimes involving violence against children in each of the last five years; and of those how many (*a*) pleaded reasonable chastisement as a defence, (*b*) were prosecuted successfully and (*c*) were found not guilty. [194164]

Maria Eagle: My Department does not hold information on "crimes involving violence against children" as we do not hold information on victims, unless specified within either the statute or offence description. There is also no specific offence that relates to "crimes involving violence against children."

My Department does not hold data where the defendant has "pleaded reasonable chastisement as a defence" as this level of detail is not held by the court proceedings database.

Information on charging is not held by my Department.

Domestic Violence: Staffordshire

Mr. Jenkins: To ask the Secretary of State for Justice how many (*a*) prosecutions and (*b*) convictions there were for offences involving domestic violence in (i) Tamworth constituency and (ii) Staffordshire in each year since 2000. [195454]

Maria Eagle: The Ministry of Justice cannot separately identify domestic violence offences from other offences of assault and violence against the person. As a result no data relating to prosecutions and convictions can be supplied.

Driving Offences: Prosecutions

Mrs. Ellman: To ask the Secretary of State for Justice how many drivers of vehicles carrying scrap metal were prosecuted for (*a*) dangerous driving, (*b*) careless driving and (*c*) causing death by dangerous driving in each of the last five years for which figures are available. [195725]

Maria Eagle: Breaches of road traffic legislations can be dealt with by written warnings (including formal cautions), fixed penalty notices and court proceedings.

Information collected centrally and held by my Department on motoring offences does not distinguish between the characteristics of the vehicles involved.

Drugs: Sentencing

Mr. Jenkins: To ask the Secretary of State for Justice how many people were (*a*) prosecuted, (*b*) convicted, (*c*) fined and (*d*) imprisoned for dealing crystal meth in each of the last five years for which figures are available. [195447]

Maria Eagle: Data showing the number of defendants proceeded against, found guilty, fined and imprisoned for supplying or offering to supply and having possession with intent to supply amphetamines or class B drugs in England and Wales from 2002 to 2006 are in the following table.

Prior to 18 January 2007 the possession with intent to supply and the supply of crystal meth "Methylamphetamine" were included with other class B drug offences. From that date Methylamphetamine was reclassified from a class B drug to a class A drug.

Data for 2007 will be available in the autumn of 2008.

Number of defendants proceeded against at magistrates courts, found guilty, fined and imprisoned for selected offences[1] relating to crystal meth: England and Wales, 2002 to 2006[2]

	Proceeded against	Found guilty	Fined	Immediate custody
2002	594	366	28	174
2003	553	402	19	201
2004	511	421	19	202
2005	461	378	16	180
2006	433	384	5	170

[1] The following offences and statutes have been used: Supplying or offering to supply a controlled drug (or being concerned in): Amphetamine - Misuse of Drugs Act 1971 Sec 4(3) [Class 'B' Drug]; Supplying or offering to supply a controlled drug (or being concerned in): Other Class 'B' - Misuse of Drugs Act 1971 Sec 4(3) [Class 'B' Drug]; Having possession of a controlled drug with intent to supply: Amphetamine - Misuse of Drugs Act 1971 Sec 5(3) [Class 'B' Drug]; Having possession of a controlled drug with intent to supply: Other Class 'B' - Misuse of Drugs Act 1971 Sec 5(3) [Class 'B' Drug].

[2] These data are on the principal offence basis.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Fatal Accident Injury System

Mr. Ingram: To ask the Secretary of State for Justice pursuant to the answer of 7 February 2008, *Official Report*, column 1433W, on the fatal accident injury system, what progress has been made on discussions between his Department and the Scottish Executive on the operation of the Fatal Accident Inquiry system in Scotland as it applies to armed forces personnel based in Scotland, who are killed in action overseas. [196164]

Bridget Prentice: Contacts between the UK Government and the Scottish Executive continue on this sensitive and complex issue. The UK Government are committed to ensuring that the death of every serviceman or woman overseas is subject to an independent inquiry. They are also committed to ensuring that the needs of bereaved service families are attended to sensitively and that where possible families do not have to travel excessive distances to attend inquests, including families based in Scotland.

My right hon. Friend will have noted the Scottish Executive's announcement on 7 March of a review by Lord Cullen of the overall working of the Fatal Accident Inquiry system which will have a bearing on this issue. In the meantime the UK Government will continue to work with coroners and families to ensure that inquests in England are held in the most appropriate place for those concerned.

Magistrates Courts: Leeds

Greg Mulholland: To ask the Secretary of State for Justice pursuant to the written ministerial statement of 11 March 2008, *Official Report*, columns 12-14WS, on Leeds Magistrates' court, how many outstanding cases remain of the 555 defendants whose warrants have been withdrawn by officials at Leeds Magistrates' court; what the status of those cases is; and when he expects all of these cases to be resolved. [195780]

Maria Eagle: The warrants of the 555 defendants that were withdrawn still remain outstanding. The withdrawn cases are being reviewed by a multi-agency Criminal Justice System team in Leeds, in accordance with the guidance previously issued by the Office of Criminal Justice Reform (OCJR) for the management of warrants and a view will be taken on which cases need to be brought back before the court, as soon as practicable. A practice direction is also being considered by the senior presiding judge to make the position clear that warrants will only be withdrawn by a properly constituted court in the future.

Greg Mulholland: To ask the Secretary of State for Justice pursuant to the written ministerial statement of 11 March 2008, *Official Report*, columns 12-14WS, on Leeds Magistrates' court, what the 62 offences were the results of which have been found and verified; and how many serious offences have yet to be found and verified. [195781]

Maria Eagle: The following table identifies the 62 offences where the results have been found and verified by the Inspectorate. In all of these cases the result could be found from other court records (e.g. those from the Crown court). Checks continue in relation to all outstanding offences where an adjudication is missing, including 1568 recordable offences.

Offence	*Number*
Attempted robbery	1
Conspiracy to rob	3
Robbery	13
Conspired to commit armed robbery	1
Attempted murder	1
Murder	1
Assault - racially aggravated	1
Racially aggravated threatening behaviour	3
Racially aggravated threatening and abusive behaviour	1
Buggery	1
Gross Indecency	3
Indecent assault	2
Rape	1

National Probation Service for England and Wales: Vacancies

Mr. Llwyd: To ask the Secretary of State for Justice how many vacant posts in the Probation Service he expects will not be filled in 2008-09, broken down by grade. [195664]

Mr. Hanson: Information is not available to answer this question as staffing requirements are currently being reviewed throughout the Probation Service.

To date, long-term workforce planning has been conducted in a limited manner within the Probation Service and has largely been undertaken in concert with the annual intake on to the Diploma in Probation Studies (DiPS), which is led by NOMS probation area co-ordination unit. Responsibility for all other recruitment and workforce planning rests with each of the individual probation areas. With the impending decision on the future of the DiPS and the development and

implementation of its replacement, the process by which workforce planning will be conducted nationally and locally, is currently being reviewed in order to align it to future arrangements.

Mr. Llwyd: To ask the Secretary of State for Justice how many vacant posts in the Probation Service were not filled in 2007-08, broken down by grade. [195705]

Mr. Hanson: Not all probation areas in the National Probation Service operate a set establishment against which vacant posts can be measured. As a more representative alternative, probation areas are required to report regularly on the number of active vacancies they have. An active vacancy is one which a probation area is actively trying to fill through a recruitment process.

Information on the number of active vacancies in the NPS is currently only available up to the end of quarter 1 2007-08 (June 2007).

The following table shows the number of active vacancies there were in each job group at the end of quarters 2 to 4 2006-07 and quarter 1 2007-08. As recruitment is the responsibility of each local area, information is not held nationally on how many of these vacancies were not filled.

	2006-07			2007-08
National Probation Service	Quarter 2	Quarter 3	Quarter 4	Quarter 1
Deputy Chief Officer	1.00	1.00	1.00	0.00
Assistant Chief Officer	0.00	2.00	2.00	2.00
Area/District Manager	2.50	0.00	2.00	2.00
Middle Manager	32.60	28.80	25.10	20.95
Senior Practitioner	23.33	2.40	10.90	6.70
Probation Officer	92.56	43.97	71.58	87.29
Professional Development Adviser	3.50	0.50	2.00	1.30
Trainee Probation Officer	205.00	80.00	0.00	0.00
Treatment Manager	1.00	2.00	2.00	3.50
Probation Services Officer	203.15	121.00	163.29	166.93
Psychologist	1.00	0.00	2.00	0.00
Other Operational Staff	41.80	15.22	14.55	11.66
Support Staff—Administration	265.22	73.51	130.59	128.73
Support Staff—Other	18.29	16.34	16.77	17.84
Other staff	8.80	3.00	1.20	4.60
Total	899.75	389.74	444.98	453.50

Information on vacancies in the trainee Probation Officer job group was no longer collected from quarter 4 2006-07 onwards as recruitment to the group was to a fixed number.

Prison Accommodation: Dorchester Prison

Mr. Garnier: To ask the Secretary of State for Justice how many spaces were available in the first night centre at HMP Dorchester on the first Friday of each month for the last 12 months for which figures are available, and how many first night prisoners were received on each of those days. [196401]

Mr. Hanson: There are a maximum of 24 spaces on Dorchester's first night centre (C wing). The following table sets out the number of new receptions to the prison and the number of vulnerable prisoners also held on C wing on the first Friday of each month since August 2007 (no records are available prior to that time). It is not possible to state how many spaces remained available though, as this would have been dependent upon the assessed cell-sharing suitability of those prisoners located there, information that is not available.

	Number of new receptions	Number prisoners of vulnerable held on C Wing
3 August 2007	5	3
7 September 2007	9	8
5 October 2007	12	1
2 November 2007	10	11
7 December 2007	7	6
4 January 2008	9	4
1 February 2008	10	10
7 March 2008	12	16

Mr. Garnier: To ask the Secretary of State for Justice how many vulnerable (*a*) remand and (*b*) convicted prisoners were accommodated at HMP Dorchester on the first Friday of each month for the last 12 months for which figures are available, and how many spaces designated for vulnerable prisoners there were at the prison on each of these dates. [196402]

Mr. Hanson: The following table sets out the total number of vulnerable prisoners held at HMP Dorchester on the first Friday of each month since August 2007 (no records are available prior to that time). It is not possible from the available records to differentiate between remand and convicted prisoners. The vulnerable prisoner unit at HMP Dorchester holds a maximum of 24 prisoners, with any overspill being located on the first night centre.

	Number of vulnerable prisoners
3 August 2007	27
7 September 2007	32
5 October 2007	25
2 November 2007	35
7 December 2007	30
4 January 2008	28
1 February 2008	34
7 March 2008	40

Prisons: Design

Mr. Garnier: To ask the Secretary of State for Justice pursuant to the answer of 30 January 2008, *Official Report*, columns 491W, on prisons, if he will publish the design, security and technical specifications and standards produced by the National Offender Management Service relating to the designs of (*a*) existing and (*b*) new prison places. [196153]

Mr. Hanson: The design, security and technical specifications/standards for existing and new prisons are not intended for general publication and it would be impracticable to do so. There are currently over 1,000 standard and design documents of which the vast majority are detailed technical drawings. Furthermore, security could be unnecessarily compromised by general publication. If credible interested parties, including the hon. Member for Harborough, wish to gain access to this documentation, suitable secure and controlled arrangements are already in place to facilitate such requests.

Road Traffic Offences

Hugh Bayley: To ask the Secretary of State for Justice (1) how many people aged under 18 were prosecuted for offences related to (*a*) fatal and (*b*) serious road traffic accidents in each of the last five years; [195412]

(2) how many (*a*) unlicensed and (*b*) unqualified drivers were prosecuted for offences associated with (i) fatal and (ii) serious road traffic accidents in each of the last five years; [195413]

(3) how many people unqualified to drive were prosecuted for taking and driving away motor vehicles in each of the last five years. [195415]

Maria Eagle: Available information held by my Department on the numbers of prosecutions for motoring offences that cause the death of, or cause bodily harm to, a person is provided in the following tables.

Serious and fatal road traffic collisions may be the result of, or associated with, some other offences, for example careless driving. However the information held centrally does not identify the circumstances of individual cases and in particular whether a fatality or serious injury occurred.

While the Department for Transport monitors details of road traffic accidents, this information is not linked with details of any subsequent prosecutions.

Table A Proceedings at magistrates courts by type of offence, and for offenders aged under 18: England and Wales, 2001-05

Offence type	2001	2002	2003	2004	2005
					Number of offences
Causing death by dangerous driving[1]	9	27	21	20	13
Causing death by careless driving when under the influence of drink or drugs[2]	0	1	2	0	0
Causing death by aggravated vehicle taking[3]	6	10	6	7	7
Causing bodily harm by furious driving[4]	9	4	8	9	4

[1] Offences under the RTA 1988 s. 1 as amended by RTA 1991 s. 1 and CJA 1993 s. 67.
[2] Offences under the RTA 1988 s. 3A as added by the RTA 1991 s. 3 and amended by CJA 1993 s. 67.
[3] Offences under the Theft Act 1968 s. 12A as added by Aggravated Vehicle Taking Act 1992 s. 1.
[4] Offences against the Person Act 1861 s. 35.

Note

Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Table B Proceedings at magistrates courts by type of offence, all ages, England and Wales, 2001-05

Offence type	2001	2002	2003	2004	2005
					Number of offences
Causing death by dangerous driving[1]	361	320	363	360	360
Causing death by careless driving when under the influence of drink or drugs[2]	66	78	85	68	77
Causing death by aggravated vehicle taking[3]	35	33	24	17	32
Causing bodily harm by furious driving[4]	83	65	56	46	33

[1] Offences under the RTA 1988 s. 1 as amended by RTA 1991 s. 1 and CJA 1993 s. 67.
[2] Offences under the RTA 1988 s. 3A as added by the RTA 1991 s. 3 and amended by CJA 1993 s. 67.
[3] Offences under the Theft Act 1968 s. 12A as added by Aggravated Vehicle Taking Act 1992 s. 1.
[4] Offences against the Person Act 1861 s. 35.

Note

Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Vandalism: Staffordshire

Mr. Jenkins: To ask the Secretary of State for Justice how many *(a)* prosecutions and *(b)* convictions there were for vandalism in (i) Tamworth constituency and (ii) Staffordshire in each year since 2000. [195443]

Maria Eagle: Data showing the number of defendants proceeded against and found guilty of criminal damage, which includes cases involving vandalism, are given in the following table.

Information is given in the table for Staffordshire police force area. Data are not available at parliamentary constituency level.

Number of defendants proceeded against at magistrates courts and found guilty at all courts of criminal damage[1] in Staffordshire police force area[2], 2000 to 2006

	Proceeded against	*Found guilty*
2000	1,505	891
2001	1,379	839
2002	1,435	876
2003	1,548	954
2004	1,487	916
2005	1,514	966
2006	1,248	926

[1] Includes indictable offences for criminal damage and summary offences of criminal damage, 5,000 or less, and in addition offences under section 19 the Allotments Act 1922.

[2] Staffordshire police force were only able to supply a sample of data for magistrates courts proceedings covering one full week in each quarter for 2000. Estimates based on this sample are included in the figures, as they are considered sufficiently robust at this high level of analysis.

[3] These data are on the principal offence basis.

[4] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Waste Management: Prosecutions

James Brokenshire: To ask the Secretary of State for Justice against how many people prosecutions have been brought for having unregistered scrap and salvage yards in each of the last three years. [193838]

Maria Eagle: The number of defendants proceeded against at magistrates courts for offences in relation to the Scrap Metal Dealers Act 1964, in England and Wales were five in 2004, seven in 2005, and five in 2006. From information held by my Department it is not possible to separately identify prosecutions for separate offences detailed within the Act.

These data are on the principal offence basis.

Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Court proceedings data for 2007 will be available in the autumn of 2008.

DEFENCE

Armed Forces: Cadets

Damian Green: To ask the Secretary of State for Defence how many young people are members of cadet contingents attached to Her Majesty's armed forces in *(a)* Kent and *(b)* Ashford. [195141]

Mr. Bob Ainsworth: The information is provided in the following table:

	Kent	*Ashford*
Sea Cadets	593	34
Combined Cadet Force	[1]2,596	Nil
Army Cadets	956	76
Air Cadets	1,105	40

[1] From 17 schools

Armed Forces: Drugs

Mr. Holloway: To ask the Secretary of State for Defence how many people in each of the armed forces have been *(a)* randomly tested for controlled substances, *(b)* tested positive as a result of the test and *(c)* discharged as a result of a positive random drug test in each of the last three years, broken down by rank. [196336]

Derek Twigg: A complete breakdown by every rank of armed forces personnel randomly tested for controlled substances, those tested positive and those discharged could be provided only at disproportionate cost. The relevant information available is provided in the following tables. Due to the administrative processes involved those who tested positive towards the end of a calendar year might not be discharged until the following year.

Royal Navy

	2007	*2006*	*2005*
Individuals tested	9,845	11,687	11,617
Number of individuals positive:	39	57	47
Officers/cadets	0	0	1
WO/Senior rates	1	1	0
Junior rates	38	56	46
Total discharged	43	47	39

Army

	2007	*2006*	*2005*
Individuals tested	54,172	69,195	66,197
Number of individuals positive:	677	770	795
Officers/cadets	3	2	1
WO/SNCOs	1	1	1
JNCO/Privates	673	767	793
Total discharged	610	608	573

Royal Air Force

	2007	*2006*	*2005*
Individuals tested	10,505	11,393	11,375
Number of individuals positive:	15	18	21
Officers/cadets	0	0	0
WO/SNCOs	0	0	3
JNCO/Airmen	15	18	18
Total discharged	12	14	20

Armed Forces: Foreigners

Dr. Murrison: To ask the Secretary of State for Defence what proportion of non-UK nationals who enter the UK to apply to join the armed forces were accepted in each of the last five years. [194692]

Mr. Bob Ainsworth: The following table shows the number of non-UK nationals who applied to join the UK Regular Forces[1] and the number of non-UK nationals who enlisted[2] in each of the last five years.

	Financial Year				
Force	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-083*
Navy[4]					
Non-UK nationals total applications	260	260	530	480	490
Non-UK nationals enlisted	100	80	100	190	180
Army[5]					
Non-UK nationals total applications	3,310	5,690	5,010	2,850	1,330
Non-UK nationals enlisted	1,550	980	650	800	1,080
RAF[6]					
Non-UK nationals total applications	180	140	100	110	160
Non-UK nationals enlisted	40	30	10	20	20

[1] UK Regular Forces includes nursing services and excludes Full Time Reserve Service personnel, Gurkhas, the Home Service battalions of the Royal Irish Regiment and mobilised reservists.
[2] The personnel who enlisted in a given FY did not necessarily apply in that financial year. Applications typically take a number of months to process.
[3] Data for the FY 2007-08 are for the period up to 14 March 2008.
[4] Navy defines a Ranks applicant as someone from whom they have received a completed application form and who has undertaken a RT test. They define an Officer applicant as someone from whom AIB have accepted an application form.
[5] Prior to July 2007 a soldier applicant was an individual who had completed initial eligibility checks and had completed an AFCO form 4. From July 2007 onwards it is someone who has also passed the British Army Recruit Battery (BARB) Test, Interview 1 and 2 and the initial British Army Health Questionnaire (RG8) screening, bringing it in to line with the definition used for Officer applicants
[6] RAF defines an applicant as someone from whom they have received a completed application form.
Note:
Numbers are rounded to the nearest 10.
Sources:
Policy Secretariat Fleet HQ, ARTD and RAF Personnel Secretariat.

Armed Forces: Manpower

Dr. Fox: To ask the Secretary of State for Defence what percentage of personnel in each pinch point trade in the armed forces exceeded harmony guidelines in the latest period for which figures are available. [193887]

Derek Twigg: The information requested is shown in the following tables:

Royal Navy

Operational pinch point trades	*Percentage of current population breaching harmony*
Harrier GR7 Instructors	None
Harrier GR7 Pilots	None
Merlin Pilots	None
Merlin Observers	None
Merlin Aircrew	None
Able Seaman Warfare Specialist (Sensors Submariner)	None
Able Seaman Warfare Specialist (Tactical Submariner)	None
Strategic Weapons Systems Junior Ra	None

Royal Navy

Operational pinch point trades	*Percentage of current population breaching harmony*
Leading Hand Warfare	None
Able Seaman Diver	None
Royal Marines Other Ranks	None
Sea King and Lynx Avionics Supervisor	None
Lead Hand Aircraft Controllers	None
Petty Officer Mine Warfare	None
Nuclear Watchkeepers	None

Note:
The figure for separated service reflects the percentage of personnel within that trade that has completed more than 140 days separated service in the last 12 month rolling period. The RN delivers Individual Harmony through a number of micro-managed processes to ensure that the Individual Harmony Guidelines are met.

Army

Operational pinch point trades	*Percentage of current population breaching harmony*
Infantryman Pte-LCpl	10.7
Vehicle Mechanic Pte-Cpl	33.5
Armourer Pte-Cpl	26.9

Army

Operational pinch point trades	*Percentage of current population breaching harmony*
Recovery Mechanic LCpl-Cpl	31.2
Operational Military Intelligence Cpl-Sgt	8.6
Clerk of Works SSqt-WO1	17.1
Military Engineer Fitter Spr-LCpl	14
Royal Artillery Gunner LBdr-Bdr	[1]

[1] Currently not available.

Note:
The figure for separated service reflects the percentage of personnel within that trade that has completed more than 415 days separated service in the last 30 month rolling period. There are a number of recruitment and retention incentives that specifically targeted at pinch point groups. Individuals are micro-managed by the Arms and Services Directors in order to maintain operational capability and Individual Harmony. Each Service has a Pinch Point Working Group and there is a quarterly Pinch Point Working Group that aims to deliver best practice across the Services.

RAF

Operational pinch point	*Percentage of current population breaching harmony*
Medical	3.1
Operations Support (Intelligence)	20.2
Operations Support (RRAF Regt)	18.5
Operations Support (Provost/Security)	11.7
Operations Support (Flight Ops)	12.1
Princess Mary's RAF Nursing Service	8.1
Weapons Systems Operator (Air Load Master)	4.7
Weapon Systems Operator (Linguist)	4.3
Air Traffic Controller/ Flight Operations Manager and Flight Operations Assistant	2.7/6.2
Firefighter	21.2
Gunner	25.3
Movements Operator	11.1
MT Tech	14.5
RAF Police	14.2
Staff Nurse (RGN) A&E A & E	9.3

Note:
The figure for separated service reflects the percentage of personnel within that trade that has completed more than 140 days separated service in the last 12 month rolling period. As with the RN and the Army, pinch point trades are micro-managed with the emphasis on retention and then recruiting. Specific measures are targeted at each group.

Nick Harvey: To ask the Secretary of State for Defence (1) what percentage of the total *(a)* strength and *(b)* requirement of (i) regular army officers and (ii) regular army other ranks was made up by the recruitment of British nationals in each year since 1997; [194429]

(2) what percentage of the total *(a)* strength and *(b)* requirement of regular army (i) officers and (ii) other ranks was made up by the recruitment of citizens of Commonwealth countries in each year since 1997; [194430]

(3) how many *(a)* officers and *(b)* other ranks of British nationality were recruited to the Regular Army in each year since 1997; [194432]

(4) how many *(a)* officers and *(b)* other ranks were recruited from Commonwealth countries to the Regular Army in each year since 1997. [194433]

Mr. Bob Ainsworth: The following tables show the strength of officers and soldiers with UK and Commonwealth nationalities as a proportion of the total strength and requirement for each financial year since 1997. Also provided is the intake of UK and Commonwealth officers and soldiers against the total intake for each financial year since 1997.

Regular Army UK and Commonwealth officer strength rates against average officer strength and requirements from 1 April 1997 to 28 February 2007

Percentage

Against average strength	*UK*	*Commonwealth*
1997-98	97.8	1.3
1998-99	97.8	1.3
1999-2000	97.8	1.3
2000-01	97.7	1.4
2001-02	97.6	1.5
2002-03	97.6	1.5
2003-04	97.5	1.6
2004-05	97.4	1.8
2005-06	97.3	1.9
2006-07[1]	97.2	2.0

Percentage

Against Requirements	*UK*	*Commonwealth*
1997-98	98.3	1.3
1998-99	97.0	1.3
1999-2000	97.4	1.3
2000-01	94.9	1.4
2001-02	92.8	1.4
2002-03	94.3	1.5
2003-04	95.9	1.6

2005-06	11,920	11,130	710
2006-07[1]	11,900	11,090	720

[1] 11 months data, due to the ongoing validation of the new joint personnel administration system Army flows data are not available from 1 April 2007.

Notes:

1. UK and Commonwealth strengths data are taken as a yearly average.
2. Strength percentages against requirements may be greater or less than 100 per cent. due to over-and/or under-manning (i.e. strength exceeding requirement).
3. The intake figures include re-enlistments and rejoined reservists.
4. Total intake also includes UK dependencies, Eire and other nationalities.
5. All data have been rounded to the nearest 10. Numbers ending in '5' have been rounded to the nearest multiple of 20 to avoid systematic bias.

Armed Forces: Mental Health Services

Nick Harvey: To ask the Secretary of State for Defence what new contracts have been awarded by his Department to the Priory Group since November 2007; and if he will make a statement. [195392]

Derek Twigg: The Priory Group currently holds the contract for the provision of in-patient mental health care to armed forces personnel.

No new contracts have been awarded to the Priory Group since November 2007.

Army: Labour Turnover

Dr. Murrison: To ask the Secretary of State for Defence what proportion of *(a)* UK nationals and *(b)* non-UK nationals recruited into the British Army (i) did not complete basic training, (ii) left within a year of enlistment, (iii) left within two years of enlistment and (iv) did not complete their engagement in each of the last 10 years. [194552]

Mr. Bob Ainsworth: This information is not held centrally and could be provided only at disproportionate cost.

Defence: Procurement

Dr. Fox: To ask the Secretary of State for Defence what his Department's policy is on the use of improvised explosive device jammers. [162532]

Mr. Bob Ainsworth: The armed forces use electronic counter measures to counter improvised explosive devices. I am withholding details of the policy governing their use as its disclosure would be likely to prejudice the capability, effectiveness or security of the armed forces.

Departmental Advertising

Mr. Hoban: To ask the Secretary of State for Defence which of his Department's initiatives have been advertised to the public in each of the last 10 years; and what the cost of each such campaign was. [192227]

Derek Twigg: The combined departmental costs on armed forces recruitment advertising initiatives and veterans awareness advertising initiatives since financial year 2003-04 are as follows:

Financial year	*£ million*
2003-04	16.648
2004-05	26.195
2005-06	29.256
2006-07	32.483

Accurate information on other advertising procured by the Ministry of Defence, Defence Agencies, Top Level Budget areas, Trading Funds, Joint Headquarters, single Service Commands and military units is not held centrally and could be provided only at a disproportionate cost.

Details of expenditure on advertising prior to March 2003 cannot be provided in the format requested as the information is not held centrally and could be provided only at disproportionate cost.

Discrimination

David T.C. Davies: To ask the Secretary of State for Defence how many claims for discrimination, based on *(a)* sex, *(b)* race and *(c)* sexual orientation, were brought by members of his Department and settled (i) in and (ii) out of court in each of the last five years. [194978]

Derek Twigg: This information is not held centrally and could be provided only at disproportionate cost.

Reserve Forces

Mr. Hoban: To ask the Secretary of State for Defence what proportion of the members of *(a)* the Territorial Army and *(b)* the Royal Naval Reserve have served in theatre in the last 12 months. [196269]

Mr. Bob Ainsworth: Records of individual Territorial Army (TA) personnel deployed on operations are not held centrally and information on the proportion of members of the TA who have served in theatre in the last 12 months could be provided only at disproportionate cost.

As at 1 April 2007, the strength of the Naval Service Volunteer Reserves, including Royal Naval Reserve (RNR) and Royal Marine Reserve (RMR), was 2,970. Of these, 230 personnel (140 RNR and 80 RMR[1]), or 8 per cent. of total strength, have served in theatre between 1 March 2007 and 29 February 2008.

[1] Due to rounding methods used, totals may not always equal the sum of the parts.

Royal Military Academy: Foreigners

Mr. Hague: To ask the Secretary of State for Defence how many places at the Royal Military Academy, Sandhurst were allocated to foreign nationals in each year since 1997, broken down by nationality. [196171]

Mr. Bob Ainsworth: I refer the hon. Member to the answer I gave on 29 February 2008, *Official Report*, columns 2016-20W.

HOME DEPARTMENT

Alcoholic Drinks: Young People

Mr. Jenkins: To ask the Secretary of State for the Home Department what methodology her Department uses to assess levels of *(a)* underage drinking and *(b)* drug use by young people. [195422]

Mr. Coaker: The survey 'Drug use, smoking and drinking among young people in England' is used to assess levels of *(a)* underage drinking and *(b)* drug use by young people. This is an annual survey which is conducted by the National Centre for Social Research (NatCen) and the National Foundation for Educational Research (NRER) on behalf of the Information Centre for health and social care (IC). The survey is widely regarded as the best source of national data on drinking among schoolchildren in England. Information for the 2006 survey was obtained from 8,200 pupils in 288 schools throughout England in the autumn term of 2006. The data were collected by researchers using self-completion questionnaires administered to children in their classroom under 'exam conditions'.

Animal Experiments

Mark Pritchard: To ask the Secretary of State for the Home Department what her policy is on EC Directive 86/609/EEC, with particular reference to the use of apes for experimental and other scientific purposes. [193669]

Meg Hillier *[holding answer 13 March 2008]:* The objectives of the Government during the review of European Directive 86/609 on animal experimentation will be to ensure efficient and effective regulation that properly balances the protection of animals against the legitimate needs of science and industry. We do not believe that wholesale changes to the Directive are necessary to achieve the main benefits sought of harmonisation and animal welfare. We believe that the Directive has stood the test of time well and still provides a sound framework for regulation.

We feel that the current revision of the Directive should aim to improve the regulation of animal use by focusing on key areas where regulation and harmonisation would improve animal welfare, improve scientific outputs, provide a more level playing field within the EU and improve the EU's competitiveness with other economic regions without compromising science and welfare.

The vast majority of primates used in scientific procedures regulated by the Animals (Scientific Procedures) Act 1986 in the UK are marmosets and macaques. Then Home Secretary Jack Straw said in 1997:

> "Great Apes (chimpanzees, gorillas, pygmy gorillas and orang-utans) have never been used under the 1986 Act as laboratory animals. But this has not previously been banned. The Government will not allow their use in the future. This is a matter of morality. The cognitive and behavioural characteristics and qualities of these animals mean it is unethical to treat them as expendable for research."

There are no plans to change this policy.

Antisocial Behaviour Orders: South Yorkshire

Jeff Ennis: To ask the Secretary of State for the Home Department (1) how many antisocial behaviour orders have been issued in *(a)* Barnsley, East and Mexborough constituency, *(b)* Barnsley metropolitan borough and (c) Doncaster metropolitan borough since their inception; [195755]

(2) how many acceptable behaviour contracts have been issued in *(a)* Barnsley, East and Mexborough constituency, *(b)* Barnsley metropolitan borough and (c) Doncaster metropolitan borough since their inception. [195756]

Mr. Coaker: Antisocial behaviour orders (ASBOs) became available from 1 April 1999. The number of ASBOs issued to the end of 2005 (latest available) where the prohibitions specify locations within the Barnsley metropolitan borough council and Doncaster metropolitan borough council areas are 74 and 61 respectively. Data collected centrally on ASBOs issued are not available at parliamentary constituency level.

Acceptable behaviour contracts (ABCs) are voluntary agreements and therefore not suitable for central data collection. However, surveys carried out by the Home Office of the Crime and Disorder Reduction Partnerships (CDRPs) indicated that over 25,000 ABCs have been made in England and Wales since October 2003.

BAE Systems

Norman Lamb: To ask the Secretary of State for the Home Department whether her Department has responded formally to the US Department of Justice request for mutual legal assistance with regard to BAE Systems. [193923]

Meg Hillier: I refer the hon. Member to previous answers provided on this matter. I can confirm that the Home Office received a request for assistance from the USA in respect of corruption allegations concerning BAE Systems. The request is being dealt with in accordance with the bi-lateral treaty on mutual legal assistance between the UK and the USA. It would be inappropriate to comment further.

Burglary: Lancashire

Geraldine Smith: To ask the Secretary of State for the Home Department what steps her Department is taking to reduce burglaries in Morecambe and Lunesdale constituency. [194723]

Mr. Coaker: The Home Office has encouraged the development, dissemination and implementation of a range of good practice in reducing burglary, including work under the Reducing Burglary Initiative.

In the Northern Division of Lancashire Constabulary, which covers Morecambe and Lunesdale, there is a dual approach to burglary, with prevention and education work combined with detection. Examples of prevention and education work include the Tower project, which is a project that aims to support criminals with substance misuse problems into moving away from criminal activity; and partnership approaches such as Police and Communities Together meetings and Neighbourhood Watch. The detection approach includes pro-active burglary teams, dedicated investigators, robust tasking and accountability process. Crime scene investigators visit all domestic burglary scenes, and there is a scheme in place to tackle repeat burglaries.

Lancashire police have also adopted Neighbourhood Policing, this means named officers patrol the area as part of a regular patch, based on ward boundaries. This is underpinned by an intelligence led and problem-solving approach to burglary.

Crime: Motor Vehicles

Geraldine Smith: To ask the Secretary of State for the Home Department what steps her Department has taken to reduce car crime since 1997. [194784]

Mr. Coaker: Vehicle crime has dropped by 52 per cent. since 1997 according to the British Crime Survey.

Since 1997 the Government have worked closely with a range of partners including the motor industry and police to reduce car crime, for example by improving vehicle security. They established the Vehicle Crime Reduction Action team, published the Car Theft Index and, from 1999 to 2004, set a vehicle crime reduction target of 30 per cent., a target which was achieved. Government communications have aimed to change driver behaviour, such as not leaving items on view in cars. We have worked to increase the security of parking available for cars, and continue to work with the industry to find design solutions to crime problems. As a result of these activities large reductions have been achieved.

Where local areas experience problems with vehicle crime, we encourage local partners to adopt a rigorous problem-solving approach, using evidence and analysis and to make full use of good practice, toolkits and communications materials which is available to all via the Home Office website.

Criminal Records Bureau: Databases

James Brokenshire: To ask the Secretary of State for the Home Department how many and what proportion of people whose details are recorded on the Criminal Records Bureau database have not been charged or convicted or otherwise received a penalty or sanction in relation to a criminal offence; and how many of such people are aged 16 years or under. [193851]

Meg Hillier: In processing disclosure applications the Criminal Records Bureau (CRB) collates information which is held, owned and maintained by the police service, the Department for Children Schools and Families and the Department of Health respectively. Therefore, the CRB database does not hold the information requested.

Drugs: Schools

Geraldine Smith: To ask the Secretary of State for the Home Department what steps she has taken to prevent drug dealing at or near school gates in the last three years. [194808]

Mr. Coaker: The Government have taken a tough stance to drug dealing on or in the vicinity of school premises. The Drugs Act 2005 introduced a provision which commenced on 1 January 2006 which made it an aggravating factor which courts must take into account when deciding the seriousness of a drug supply offence committed by a person aged 18 or over to deal drugs on or in the vicinity of school premises.

We supported the Association of Chief Police Officers in the development and production of their guidance published in 2006 to police forces on working with schools and colleges which includes advice to police forces about having locally agreed protocols in place to manage drug-related incidents in schools and colleges.

Genetics: Databases

Keith Vaz: To ask the Secretary of State for the Home Department what estimate she has made of the number of irregularities on the national DNA database. [181246]

Meg Hillier: A number of procedures carried out by police forces, forensic suppliers and the National DNA Database (NDNAD) Custodian's staff are in place to ensure that information is recorded as accurately as possible on the NDNAD. These procedures are designed to ensure as far as possible that errors are not included on the database in the first place, rather than removing them once they are on.

If any irregular record comes to the notice of the NDNAD Custodian and his staff, the record is suspended on the database pending an investigation the outcome of which is that the record may be re-instated unchanged, amended, or deleted.

Mr. Graham Stuart: To ask the Secretary of State for the Home Department how many people from each police authority area in Yorkshire and the Humber had a sample of their DNA stored on the national DNA database at the latest date for which figures are available; and if she will make a statement. [193740]

Meg Hillier: The number of subject profiles retained on the National DNA Database (NDNAD) for each police force in the Yorkshire and Humberside area are shown in the following table. There are two figures for each force: the number of profiles and the estimated number of individuals. The number of profiles held on the database is not the same as the number of individuals. As it is possible for a profile to be loaded onto the NDNAD on more than one occasion, some profiles held on the NDNAD are replicates. This can occur, for example, if the person provided different names, or different versions of their name, on separate arrests, or because profiles are upgraded.

It should also be noted that the table shows the number of individuals sampled by each police force, and not the area where the people sampled are resident. For example, the figure for North Yorkshire includes people living outside North Yorkshire who have been sampled by that police force and excludes residents of North Yorkshire who have been sampled by other police forces.

At present, the replication rate is 13.3 per cent. that is, the number of people whose details are loaded is 13.3 per cent. fewer than the number of profiles.

Police force	*Subject profiles*	*Estimated number of individuals*
North Yorkshire	55,879	48,447
South Yorkshire	117,023	101,459
West Yorkshire	214,362	185,852
Humberside	81,986	71,082

Human Trafficking: Children

James Brokenshire: To ask the Secretary of State for the Home Department how many trafficked children were taken into police custody following raids on illegal cannabis factories in each of the last three years. [191381]

Mr. Coaker: No central records are kept on juvenile offenders who may have been victims of trafficking. However concerns have been raised by a number of children's charities about the arrest of children found in cannabis factories in the UK.

A recent study by the Child Exploitation Online Protection Centre (CEOP) examined 39 cases of Vietnamese juveniles arrested during 2007 in such circumstances.

Out of the 39 children, one child was identified as a trafficked victim and referred to Children's Services.

In December 2007 the Crown Prosecution Service issued guidance which advises prosecutors that where children are known to have been trafficked and coerced to commit criminal acts, cases should be discontinued on evidential grounds. Where the information concerning coercion is less certain, further details should be sought from the police and youth offender teams, so that the public interest in continuing a prosecution can be considered carefully.

Immigrants: Employment

Mr. Jim Cunninghan: To ask the Secretary of State for the Home Department what steps the Government plan to take to stop employers employing illegal immigrants. [194133]

Mr. Byrne *[holding answer 14 March 2008]:* The Border and Immigration Agency is increasing enforcement activity against illegal working in general. Steps have been taken to strengthen the law preventing employers from using illegal migrant workers. The law in this area applies to employers or agencies in all sectors of the economy.

The Immigration Asylum and Nationality Act 2006 introduced a system of civil penalties for careless employers and a criminal offence of knowingly employing illegal workers. This came into force on 29 February 2008.

The maximum level of civil penalty is £10,000 and the criminal offence of knowingly employing an illegal migrant will attract a prison term of up to two years as well as an unlimited fine on conviction on indictment.

Immigration Officers

Damian Green: To ask the Secretary of State for the Home Department what steps her Department has taken to ensure that immigration officers are able to take the breaks to which they are entitled during working hours. [193128]

Mr. Byrne: Immigration Officers are scheduled to take breaks during their shifts; on operational duties the timing of breaks may need to be flexible but there are opportunities to take rest and refreshment breaks

Immigration: Applications

Jo Swinson: To ask the Secretary of State for the Home Department with reference to the answer of 9 May 2007, *Official Report*, column 247W, on immigration applications, and her letter of 21 December 2007, reference G1002712, when she will provide a substantive written response to the issues raised. [193480]

Mr. Byrne *[holding answer 11 March 2008]:* I wrote to the hon. Member on 11 March 2008.

MI5

Mr. Harper: To ask the Secretary of State for the Home Department (1) what arrangements are in place for *(a)* giving notice to her and *(b)* seeking leave from her by the Director General of the Security Service (DGSS) in relation to the making of speeches on matters within his responsibilities, with particular reference to the DGSS's speech to the Society of Editors on 5 November 2007; [162124]

(2) when she was first informed of the *(a)* delivery date and (b) content of the speech delivered by the Director General of the Security Services on 5 November 2007 to the Society of Editors. [162271]

Mr. McNulty *[holding answer 12 November 2007]:* My right hon. Friend the Home Secretary has regular meetings and discussions with the Director General of the Security Service on a wide range of subjects.

National Identity Register

Mr. Pickles: To ask the Secretary of State for the Home Department in what circumstances local authorities will have access to the National Identity Register. [194030]

Meg Hillier: There will be no general access to the National Identity Register. However, identity services will provide accredited organisations, which could include local authorities, with the means to verify identity, with an individual's consent, against the National Identity Register. There are no plans to provide local authorities with information from the National Identity Register without obtaining consent from the individual which would require the specific approval by Parliament of regulations under section 20 of the Identity Cards Act 2006.

Organised Crime: Databases

James Brokenshire: To ask the Secretary of State for the Home Department when the European database of dangerous offenders to prevent homicide associated with organised crime is expected to be operational; and what funding her Department has allocated to the database. [194281]

Meg Hillier: The project to develop a European database of dangerous offenders is in the very early stages and no timetable for its becoming operational has yet been set out.

No funding has been allocated by the Home Office.

Refuges: Females

Tom Brake: To ask the Secretary of State for the Home Department what assessment she has made of the *(a)* demand for and *(b)* provision of places in refuges for women who are drug users. [195402]

Mr. Iain Wright: I have been asked to reply.

We do not hold this information centrally. Decisions on the provision of refuge spaces are a local matter. It is the responsibility of the individual local authority to identify any gaps in service provision and put in place appropriate solutions to address this. We would expect local authorities to build services based on the needs of their communities, taking account of locally available information.

The Department funds UKRefugesonline (UKROL), a UK-wide database of domestic violence services delivered in partnership by Women's Aid and Refuge which supports the national 24-hour free phone domestic violence helpline. It enables those working with victims of domestic violence to identify appropriate services and potential refuge vacancies around the country. UKROL produce the UK Gold Book, a guide to refuge and domestic abuse services, every two years. This indicates that there are 20 service providers supporting drug users.

SCOTLAND

Departmental Cost Effectiveness

Bob Spink: To ask the Secretary of State for Scotland what progress his Department has made in its zero-based budget review under the Comprehensive Spending Review. [191481]

David Cairns: The comprehensive spending review settlement for the Scotland Office and the Office of the Advocate General for Scotland was agreed with HM Treasury as a three year settlement, fully taking account of efficiency savings. Further information on the provision will be contained in the Office's Annual Report, due to be published later this year.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Business: Females

Lynne Featherstone: To ask the Secretary of State for Business, Enterprise and Regulatory Reform with reference to the Chancellor of the Exchequer's Financial Statement of 12 March 2008, *Official Report*, columns 285-298, how the £12.5 million capital fund for female entrepreneurs will be allocated; and if he will make a statement. [194829]

Malcolm Wicks: The Government have made a commitment to provide £12.5 million of capital to set up a fund to invest primarily in women-led businesses, as part of its Enterprise Strategy published alongside Budget 2008. Capital for Enterprise Limited, which will deliver the Department's venture capital and loan activity from 1 April 2008, have been tasked with designing the fund and will invite proposals in the summer. Fund managers will be selected on merit through open competition.

Commercial Secrets: Theft

Mr. Gummer: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what guidance he issues to companies offered suspected stolen information about the financial affairs of their associates and competitors. [192865]

Mr. Thomas: A company offered information on the financial affairs of its associates and competitors which it suspects is stolen is advised to report the matter to the police.

Departmental Data Protection

Mr. Weir: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether confidential or personal information has been compromised through the loss of property from his Department and its predecessor since 1997. [193442]

Mr. Thomas: Except in exceptional cases, when it is in the public interest, it has been the policy of successive governments not to comment on breaches of security. However, following the publication of the Data Handling Procedures in Government: Interim Progress Report on 17 December 2007, *Official Report*, column 98WS, all Departments will cover information assurance issues in their annual reports.

Foreign Investment in UK: Japan

Andrew Rosindell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many Japanese investors invested in British industries in 2007; what assessment he has made of the contribution of such investment to the UK economy; and what steps the Government is taking to increase such investment. [192206]

Mr. Thomas: UK Trade and Investment (UKTI) records information on foreign direct investment (FDI) where UKTI has been directly involved, or where its Regional Partners have become aware of investment. Japan is a key FDI investor for the UK, and in 2006-07 UKTI recorded 80 decisions to invest in the UK by Japanese investors, creating over 2,786 new jobs. Two private sector independent sources of business information, Bureau van Dijk and Toyo Keizai, have, respectively, recorded the total stock of Japanese companies in the UK in 2007 at 1,795, and the jobs created in the UK by Japanese companies at 92,882.

UKTI has the lead role within Government for delivering trade development and inward investment services for business. In 2006, UKTI launched its five year strategy "Prosperity in a Changing World", which is aimed at maximising the UK's ability to attract FDI, by winning market share in new high growth markets, helping businesses internationalise, and by supporting R and D intensive companies.

Government Offices for the Regions

Julia Goldsworthy: To ask the Secretary of State for Business, Enterprise and Regulatory Reform which of his Department's programme budgets were administered by the Government Offices of the Regions in each of the last five years. [195174]

Mr. McFadden *[holding answer 18 March 2008]:* The Government Offices have directly administered the following programme budgets on behalf of BERR.

	Programme
2002-03	Regional Development Agency sponsorship University Innovation Centres Renewable Energy
2003-04	Regional Development Agency sponsorship University Innovation Centres Renewable Energy

Inward Investment: Dover District Council

Dr. Ladyman: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what support his Department has made available to attract inward investment to *(a)* Thanet and *(b)* Dover district council areas in the last three years. [183754]

Mr. Thomas: UK Trade and Investment (UKTI) promotes the UK as the top inward investment location in Europe, and works in close partnership with all of the UK's Regional Development Agencies (RDAs) to attract value added inward investment. The South East of England Development Agency (SEEDA) is the RDA covering Kent, and responsible for inward investment work in the south east of England.

In 2006-07, the Government provided £163 million to SEEDA through the Single Programme Budget fund. This included a proportion of the £17.23 million (in 2006-07) provided by UKTI to the nine English RDAs for inward investment work. Funding, once allocated, is available for SEEDA to spend as they see fit to achieve regional priorities set out in their regional economic strategies and corporate plans.

Post Offices: Liverpool

Mrs. Ellman: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what commitments Post Office Limited gave to Postwatch in relation to the future of *(a)* Soho Street, *(b)* Mill Street and *(c)* St John's post offices in Liverpool; and if he will make a statement; [196380]

(2) when he last discussed the future of *(a)* Soho Street, *(b)* Mill Street and *(c)* St John's post offices in Liverpool with (i) Post Office Limited and (ii) Postwatch; and if he will make a statement: [196379]

(3) when the consultation on the future of St John's Post Office in Liverpool will end; and what the process is for considering the results of that consultation. [196378]

Mr. McFadden: These are operational matters for Post Office Ltd. (POL). I have therefore asked Alan Cook, managing director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Mrs. Ellman: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he last discussed the future of the Copperas Hill mail sorting office in Liverpool with Royal Mail; and if he will make a statement. [196381]

Mr. McFadden: There have been no such discussions. This is an operational matter for which Royal Mail has direct responsibility. I have therefore asked the chief executive of Royal Mail, Adam Crozier, to provide a direct reply to the hon. Member.

A copy of the response will be placed in the Libraries of the House.

CULTURE, MEDIA AND SPORT

Arts Council England: Finance

Mr. Lansley: To ask the Secretary of State for Culture, Media and Sport how much funding was given to Arts Council England in the last 12 months; what percentage was given to the east of England; and how much was allocated to organisations in grants. [188286]

Margaret Hodge: My Department expects to provide £422.2 million grant in aid to Arts Council England in 2007-08, following parliamentary approval of the Spring Supplementary Estimate. Final outturn figures will be available in June 2008. Projected lottery income to Arts Council England (including investment income) in 2007-08 is £146 million. Final lottery figures will be available in mid April.

Arts Council England, East will receive £12 million from the grant in aid income and £4.5 million from the lottery income in 2007-08, of which £13 million is to be allocated to organisations in grants and £0.5 million is to be allocated as grants for the arts for individuals. Of the remaining budget, £2 million is allocated to administration spend and £1 million to managed funds. Managed funds are used by the Arts Council flexibly to deliver throughout the year often short-term, one-off arts projects, often in partnership with other organisations.

Arts: Birmingham

Mr. Jenkins: To ask the Secretary of State for Culture, Media and Sport what steps he is taking on increasing access to the arts in *(a)* Birmingham and *(b)* Staffordshire. [195444]

Margaret Hodge: Government investment and support for the arts is primarily channelled through Arts Council England (ACE). Overall arts funding has increased in real terms by 73 per cent. since 1998 and in 2007-08 ACE received £412 million.

ACE West Midlands have placed a priority on ensuring that their investment over the next three years reaches a wide range of communities, artists and audiences in Birmingham and Staffordshire. Between 2008-09 and 2010-11 ACE will provide over £74 million to regularly funded organisations in Birmingham, and £3.4 million to regularly funded organisations in Staffordshire.

Arts: Public Expenditure

John Mann: To ask the Secretary of State for Culture, Media and Sport what expenditure on publicly-funded arts and culture was in 2007, broken down by constituency. [194232]

Margaret Hodge *[holding answer 14 March 2008]:* Arts Council England's grant in aid revenue funding for 2007-08, broken down by constituency, is set out in the table. The arts and culture sectors, which among others include museums, heritage and film organisations, also receive funding from the DCMS, money distributed by the national lottery and funding from local authorities. Figures for these are not centrally collated.

Constituency	*Total (£)*

Not attributed to a specific constituency (see notes)	132,524,701
Grand total	324,721,712

Notes:
A number of the Arts Council's regular funding investments are not allocated to a constituency.
1. Investment sums that were not allocated to a specific organisation. These are funds that had been allocated to a specific art form or geographic location (such as Somerset or Cornwall), but where the exact organisation or combination of organisations that will deliver the work are still to be decided.
2. Organisations where the Arts Council's annual investment is above £5 million. The audiences for these organisations come from multiple constituencies, and the economic and artistic impact of these organisations likewise reaches far beyond a single constituency. Many are publicly regarded as "national" organisations.
3. Local authorities. Arts Council's investment in local authorities has an impact across a number of constituencies within each local authority area.

Betting: Enforcement

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what discussions he has had with the betting industry on plans to re-apportion the costs of policing sports betting; and if he will make a statement. [196335]

Mr. Sutcliffe: I have had no meetings with the betting industry specifically on this issue.

The Gambling Commission is responsible for regulating betting in Great Britain and in May 2007 they published a consultation on Integrity in Sports Betting. In October 2007 the Commission published responses to this consultation, which broadly concluded that there was not enough evidence of the link between sports betting and integrity issues.

On 18 March 2008, the Association of British Bookmakers (ABB) held a seminar to raise awareness of the betting industry's work in this area and the procedures they have in place to identify and report suspicious betting activity.

The Government favour voluntary arrangements between the sports and betting industries in addressing this issue. However, the Commission continues to gather intelligence on all gambling integrity issues and is keeping the situation under review.

Casinos: Licensing

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport whether he plans to change licensing conditions for land-based casinos. [195401]

Mr. Sutcliffe *[holding answer 19 March 2008]*: The Secretary of State may attach mandatory and default licence conditions to casino premises licences and may also attach licence conditions to operating licences. Any changes to the current licence conditions would normally be made only after three months consultation and would require approval by Parliament. No such consultation on changes is under way.

In pursuing the three licensing objectives set out in the Gambling Act 2005, the Gambling Commission may also attach licence conditions to operating licences through its Licence Conditions and Codes of Practice (LCCP). The Gambling Commission is already conducting a review of LCCP and will begin a public consultation on proposed changes in April 2008. The revised version of LCCP will take effect early in 2009.

Cultural Heritage: Heraldry

Lady Hermon: To ask the Secretary of State for Culture, Media and Sport what steps his Department is taking to prevent the export of the Dering Roll from the United Kingdom; and if he will make a statement. [195728]

Margaret Hodge *[holding answer 20 March 2008]*: The application for an export licence for the Dering Roll was recently considered by the Reviewing Committee for the Export of Works of Art and Objects of Cultural Interest. The Committee judged the Dering Roll to be of outstanding historical importance to the UK. They therefore recommended that the export licence be deferred. The Government accepted this recommendation and agreed to defer the licence.

A decision on the granting of the export licence will be deferred until 19 April, with the possibility of an extension to 19 July, during which time it is open to a UK individual or organisation to raise funds to match the recommended price of the Roll (£192,500) and therefore ensure that this item remains in the UK.

Culture

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the number of local authority (*a*) museums, (*b*) galleries, (*c*) heritage sites, (*d*) archives and (*e*) libraries that (i) have closed since 1997 and (ii) are earmarked for closure in 2008-09. [195393]

Margaret Hodge: Information on local authority museums, galleries, heritage sites, archives and libraries is not held centrally. I refer the hon. Member to the answer I gave to the hon. Member for Brent, East (Sarah Teather) on 24 January 2008, *Official Report*, column 2174W, in respect of Public Library Statistics.

Any proposed closures in 2008-09 are a matter for the local authority concerned.

Dance

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport when he plans to publish the report of his Department's dance review led by Tony Hall. [195394]

Margaret Hodge: Tony Hall's Dance Review was published on 17 March 2008. In response to the review, Government announced that an investment of £5.5 million would be made to Youth Dance England to improve dance opportunities both in and beyond schools.

Government also committed to establishing six new centres of advanced training for exceptionally talented young people and to piloting dance co-ordinators within the school sport infrastructure to ensure high quality access for all children and young people. Leadership will come in the form of a new Government Dance Review Programme Board which will be tasked with taking forward the recommendations from the review.

Departmental Advertising

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport which of his Department's initiatives have been advertised to the public in each of the last 10 years; and what the cost of each such campaign was. [192228]

Margaret Hodge: The Department has a zero spend on advertising campaigns to the public between 1997 and 2002. Expenditure in subsequent years is as follows:

	Campaign	*Spend (£)*
2003-04	BBC Charter (press advertising)	20,987
2004-05	BBC Charter (radio advertising)	37,085
2005-06	Licensing (press advertising)	51,028
2006-07	Tourism consultation (press advertising)	4,903
2007-08	Breakout website (web advertising)	7,830

Departmental Sustainable Development

Norman Baker: To ask the Secretary of State for Culture, Media and Sport when his Department plans to publish its sustainable operations policy statement. [195872]

Margaret Hodge: The Department will publish its sustainable operations policy statement as part of the Sustainable Development Action Plan due to be produced by early summer.

Departmental Working Hours

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport how many hours *(a)* in total and *(b)* on average per employee were worked by civil servants in his Department in the last year for which records are available. [195825]

Mr. Sutcliffe: The recording of hours worked is a function delegated to line managers and not held centrally by human resources. The information requested could be provided only at disproportionate cost.

Digital Broadcasting: Television

Mr. Hollobone: To ask the Secretary of State for Culture, Media and Sport which areas of the country have no access to freeview digital television. [196697]

Andy Burnham: The matter raised is the responsibility of the Office of Communications (Ofcom), as independent regulator for the communications sector. Accordingly, I have asked the chief executive of Ofcom to reply directly to the hon. Member. Copies of the chief executive's letter will be placed in the Libraries of both Houses.

Gambling

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport whether he plans to allow more permitted areas for gambling in the UK. [195405]

Mr. Sutcliffe *[holding answer 19 March 2008]:* There are no plans to allow more permitted areas.

Gambling: Advertising

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 10 March 2008, *Official Report*, columns 149-50W, on television advertising, who is responsible for monitoring the gambling industry's voluntary code; when the code will come into force; whether all gambling industry sectors have agreed to this code; and whether gambling is currently advertised on television before the 9pm watershed. [195008]

Andy Burnham: The gambling industry's voluntary code for socially responsible advertising came into effect on 1 September 2007. The voluntary code is in addition to the Committee of Advertising Practice (CAP) code and the Broadcast Committee of Advertising Practice (BCAP) code which are regulated by the Advertising Standards Authority (ASA).

There is wide industry support for the voluntary code and most sectors of the gambling industry, including the principal trade bodies for the casino, bingo, betting, gaming machine and remote gambling sectors, have agreed to it. An Industry Review Group, chaired by Business in Sport and Leisure (BiSL), is responsible for monitoring and ensuring compliance with the code and keeping it under review.

The industry's voluntary code includes a 9 pm watershed on all broadcast gambling advertising, with exceptions for bingo and lottery advertisements which before 1 September 2007 were already permitted broadcast

advertising at any time and the advertising of sports betting around televised sporting events.

There has been a high level of compliance with the CAP and BCAP codes and the industry's voluntary code since 1 September 2007.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Culture, Media and Sport when he will reply to the letter from the hon. Member for West Worcestershire, dated 3 January, on the security of personal data of British nationals. [191222]

Mr. Sutcliffe *[holding answer 3 March 2008]:* We have no record of receipt of such a letter.

Rugby

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport how many rugby union coaches his Department has recorded as having *(a)* been recruited and *(b)* increased their qualifications in each of the last five years. [196332]

Mr. Sutcliffe: The Department does not hold data on the numbers of coaches recruited/qualified with individual sports governing bodies.

However, the following table details information held by Sport England on the numbers of qualified/active Rugby Football Union coaches between 2005-06 and 2007-08.

Financial year	*Qualified active RFU coaches*
2005-06	22,469
2006-07	28,070
2007-08	[1]29,314

[1] As at June 2007.

DCMS has invested over £60 million into coaching in the five years up to 2008. Part of this funding has enabled us to establish over 3,000 community sports coaches.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport how many *(a)* men and *(b)* women have started playing rugby under the Go Play! scheme which his Department funds in each of the last three years. [196333]

Mr. Sutcliffe: The Go Play Rugby programme is an initiative of the Rugby Football Union (RFU) to recruit adult players.

Since its launch in July 2007, the scheme has successfully recruited over 9,000 new players of which approximately 840 are female.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport how much has been spent on the Go Play! programme administered by the Rugby Football Union through *(a)* the Exchequer, *(b)* the National Lottery and *(c)* the National Sports Foundation funding. [196334]

Mr. Sutcliffe: The National Sports Foundation, which is Exchequer funded, has invested £500,000 into the Rugby Football Union's Go Play Rugby programme.

In addition, Sport England provided a lottery grant of £97,400 to support Go Play Rugby in the east midlands.

Sports: Taxation

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport whether his Department has had discussions with HM Treasury on a corporation tax exemption for sports national governing bodies in the last two years. [196331]

Mr. Sutcliffe: My Department has regular discussions with HM Treasury about tax proposals for its sectors. In 2008 these have included specific discussions about corporation tax and national governing bodies.

PRIME MINISTER

Intelligence and Security Committee: Public Appointments

Mr. Wallace: To ask the Prime Minister whether the changes to the Intelligence and Security Committee indicated in the National Security Strategy will include a transfer of power to Parliament to appoint the Committee's membership. [196433]

The Prime Minister: Detailed proposals for the reform of the Intelligence and Security Committee have been published today in the Governance of Britain White Paper (cm7342). These include proposals to enable Parliament to play a fuller role in the appointment of members to the Committee.

HOUSE OF COMMONS COMMISSION

Food: Procurement

Norman Baker: To ask the hon. Member for North Devon, representing the House of Commons Commission what estimate he has made of the *(a)* quantity and *(b)* percentage of (i) fruit, (ii) vegetables, (iii) bottled water, (iv) food products, (v) alcoholic drinks and (vi) other food products sourced by the Refreshment Department and its successor from suppliers outside the UK in the last year for which figures are available. [194556]

Nick Harvey: Many fruit and vegetables are purchased by individual piece or bunch, not by weight or any other consistent measure, and so it is not possible to give an overall estimate of the quantity of fruit and vegetables purchased. The following figures are best estimates of product origins in 2007. All suppliers are UK-based.

(i) fruit

108 different fresh fruit products were purchased—total value £95,000.

42 (39 per cent.) were UK products when available and in season (27 (25 per cent.) products came predominantly from local Kent and Sussex farms). The remaining 66 (61 per cent.) items were purchased outside the UK because they were either exotic, tropical or seasonal.

(ii) vegetables

187 different fresh vegetable products were purchased—total value £273,000.

152 (81 per cent.) were UK products when available and in season. The remaining 35 (19 per cent.) items were purchased outside the UK because they were either exotic, unavailable in the UK or seasonal.

(iii) bottled water

All bottled water is purchased within the UK where water is bottled at source—total value £44,500.

(iv) food products and (vi) other food products: fish, meat, poultry

59 different fish products (wet, shelled and cured) were purchased—total value £218,000.

Most fish (39 regular purchases—66 per cent.) originate from the colder local waters of the North sea, Irish sea, English channel and around the Scottish coast. The remainder came from the Pacific, Atlantic and Indian oceans and the Mediterranean sea. Fish is purchased from areas of sustainable stocks.

98 per cent. of meat and poultry purchases—total value £495,000, were certified UK origin.

The provenances of other food products are not available—total spend circa £960,000.

(v) alcoholic drinks

119 alcoholic drinks were purchased—total value £474,000.

Beer and cider: seven beer and ale kegs, six (86 per cent.) from the UK under licence and Guinness from RoI; five bottled beers and ciders—2 (40 per cent.) are produced in the UK.

17 spirits: nine (53 per cent.) are imported;

nine liqueurs: eight (89 per cent.) are imported;

four aperitifs: four (100 per cent.) are imported;

five fortified wines: five (100 per cent.) are imported.

The full wine portfolio (including champagne, sparkling and dessert) is 72 wines, three (4 per cent.) are produced in the UK.

Freedom of Information

Mr. Doran: To ask the hon. Member for North Devon, representing the House of Commons Commission whether the Corporate Officer of the House of Commons plans to appeal against the decision of the Information Tribunal on 26 February 2008. [194691]

Nick Harvey: The Members Estimate Committee is concerned that the Information Tribunal (in its decision of 26 February in cases 2001/02, 2002/03, 2003/04 and 2005/06) misdirected itself in law in deciding that home addresses of Members of Parliament should always be published subject only to limited exceptions. The House will therefore appeal. A second ground will be that the Information Tribunal paid insufficient attention to the reasonable expectations of Members about disclosure of personal information in the statutory publication scheme. The MEC remains committed to reviewing the allowance system and ensuring that there is probity and transparency.

Ipsos MORI

Mr. Pickles: To ask the hon. Member for North Devon, representing the House of Commons Commission what payments the House of Commons Commission made to Ipsos MORI in the last 24 months; and for what purposes. [194319]

Nick Harvey: There have been no payments to Ipsos MORI in the last 24 months. The most recent payment to MORI was in connection with the feasibility study into the parliamentary visitor centre. This occurred in January 2006 before the 24-month period requested.

Drinking Water

Norman Baker: To ask the hon. Member for North Devon, representing the House of Commons Commission what estimate he has made of *(a)* the carbon footprint associated with the use of bottled water within the House and *(b)* the likely footprint were only tap water available. [194553]

Nick Harvey: Data are not available on the carbon footprint associated with bottled water supplied to the House. However estimates of the embedded energy of the products, shows *(a)* bottled water having 5,000 Megajoules and *(b)* tap water, 10 Megajoules, per 1,000 litres consumed. For bottled water, most of its embedded energy is in the form of fossil fuel use embodied in the glass and plastic materials and their manufacture and for tap water, most of its embedded energy is in the form of electrical energy which is used to pump the water.

Norman Baker: To ask the hon. Member for North Devon, representing the House of Commons Commission how many bottles of water for consumption *(a)* in restaurants and cafeterias and *(b)* elsewhere on the parliamentary estate were purchased by the House in each of the last five years; and what the cost was in each year. [194555]

Nick Harvey: It is not possible to answer this question in the precise terms asked by the hon. Member as water was purchased by the former House of Commons Refreshment Department for sale in all its outlets, not just for consumption in its restaurants and cafeterias. In total, the Refreshment Department purchased bottled water in each of the last five years as follows:

Table (a): Bottled Water Purchases

	Number of bottles				
(a) Refreshment Department outlets	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*
330ml bottles	19,176	0	0	0	0
500ml bottles	151,996	159,936	158,712	171,648	164,760

Table (a): Bottled Water Purchases

(a) Refreshment Department outlets	*Number of bottles*				
	2002-03	*2003-04*	*2004-05*	*2005-06*	*2006-07*
750ml bottles	180	16,716	336	0	0
1 Litre bottles	70,941	53,854	47,435	55,608	71,664
Total (Litres)	153,402	146,359	127,043	141,432	154,044
Total cost (£)	[1]58,832	[1]55,895	47,820	53,188	53,100

[1] Including committee rooms.

The figures for 2002-03 and 2003-04 in table (a) include water issued by the Refreshment Department to the former Serjeant at Arms' Department for use in the committee rooms, as no record of the quantities transferred is available for these two years. Figures for the last three years exclude water supplied to the Serjeant at Arms' Department for use in the committee rooms, as this consumption is listed separately in table (b) as follows.

It should also be noted that the figures in table (a) include water sold to meetings and conferences held on the first floor of Portcullis House, which was supplied by the Refreshment Department. No separate figure is available for this consumption.

In addition to water supplied to the committee rooms by the Serjeant at Arms' Department, a number of House of Commons departments purchased bottled water for dispensers located in staff offices and communal areas. The number of bottles purchased for offices has been estimated on the basis of the annual expenditure cost, taking an average unit price to calculate the approximate number of bottles.

Table (b): Bottled Water Purchases

(b) Other areas	*Number of bottles*				
	2002-03	*2003-04*	*2004-05*	*2005-06*	*2006-07*
Committee Rooms: 1 Litre bottles	[1]—	[1]—	32,432	23,557	33,502
Cost (£)	—	—	12,000	8,716	12,395
Offices: 18.5 Litre bottles (estimated)	n/a	430	620	507	581
Cost (£)	—	5,165	7,449	6,095	6,988
Total cost (£)	n/a	[2]5,165	15,806	14,811	19,383

[1] Included in table (a).
[2] Plus committee rooms.

The figures quoted in the table exclude any purchases of bottled water made by the House of Lords for consumption on the parliamentary estate.

Norman Baker: To ask the hon. Member for North Devon, representing the House of Commons Commission how many bottles of water were purchased by Departments of the House for consumption other than in restaurants and cafeterias in the last 12 months; what the cost was; and if the Commission will make it their policy to replace bottled water with tap water in *(a)* Westminster Hall, *(b)* committee rooms and *(c)* other meeting rooms. [194559]

Nick Harvey: In the last complete financial year, 2006-07, approximately 44,250 litres of water (33,502 x one litre bottles and 581 x 18.5 litre bottles) were purchased by the House for consumption other than in restaurants and cafeterias, at a cost of £19,383. The Administration Committee last considered the issue of the provision of drinking water in Committee and meeting rooms on 13 March 2007 and agreed to recommend that the current practice of supplying bottled mineral water to Committee rooms should continue. I understand that the Department of Facilities is re-examining the issue with the intention of offering further advice to the Committee.

TRANSPORT

A358: M5

Mrs. Villiers: To ask the Secretary of State for Transport (1) what meetings *(a)* Ministers and *(b)* officials from her Department and its agencies have had with representatives from Somerset county council to discuss the proposed loop road to link the A358 and the M5 at Blackbrook; [193977]

(2) when her Department or its agencies first discussed the proposed loop road between the A358 and the M5 at Blackbrook with Somerset county council; [193978]

(3) when she expects work to commence on the loop road joining the A358 and M5 at Blackbrook. [193979]

Mr. Tom Harris: Highways Agency records show that between December 2005 and March 2007 agency officials met with representatives of Somerset county council on at least nine occasions at regular intervals to discuss progress with the general design and layout of the A303/A358 South Petherton to Taunton M5 scheme.

The loop road at Blackbrook was first identified as an option for the M5 northbound off-slip by the Highways Agency in February 2006 and discussed with Somerset county officials early in the summer of 2006.

Work on the scheme is currently on hold while my Department and the South West region discuss the implications of the recent Stonehenge announcement for the wider strategy for improving the A303/A358 corridor to the M5 at Taunton. It is too early to say what the outcome of these discussions will be.

A47

Mr. Stewart Jackson: To ask the Secretary of State for Transport whether any proposals for sound attenuation in respect of traffic and carriageway noise on the A47 in the Peterborough area exist; and if she will make a statement. [196340]

Mr. Tom Harris: There are currently no specific plans for sound attenuation in respect of traffic and carriageway noise on the A47 in the Peterborough area. However, resurfacing of sections of the A47 in the Peterborough area are planned for 2008-09, and low noise surfacing material will be used.

Mr. Stewart Jackson: To ask the Secretary of State for Transport whether the Highways Agency intends to utilise whisper quiet sound attenuation technology as part of resurfacing in respect of *(a)* its planned maintenance programme and *(b)* any discrete projects, on the A47 in the Peterborough area; and if she will make a statement. [196341]

Mr. Tom Harris: Since 1999, it has been the Highways Agency's policy to use low-noise surfacing materials for all new roads and when resurfacing existing roads.

Planned re-surfacing works for 2008-09 include sections of the A47 between J16-J15 west-bound and sections of the A47 from J15 west-bound towards Castor.

Mr. Stewart Jackson: To ask the Secretary of State for Transport what recent measurements of sound levels from traffic noise and carriageway have been undertaken on the A47 by the Highways Agency between Milton Park and Eye in the Peterborough area; and if she will make a statement. [196342]

Mr. Tom Harris: The Highways Agency has not recently undertaken any measurements of noise levels between Milton Park and Eye in the Peterborough area.

After local complaints a study was undertaken by Peterborough city council in 2005 near the A47 Trunk Road. This was deemed to be unsuitable by the Agency as it omitted certain essential information for determining its status as a Hazard site.

In October/November 2005, the Highways Agency's Managing Agent took noise readings at Eye on the A47. This section of the A47 in Peterborough was identified due to a number of complaints of excessive traffic noise received from the local residents associations. A roadside decibel level of 79.12 was recorded. This location therefore did not meet the required roadside decibel threshold of 80, and no further study work was undertaken.

Aviation

Mr. Ellwood: To ask the Secretary of State for Transport at how many international airports in the UK Boeing 747 aeroplanes may not land due to the length of the runway. [196170]

Jim Fitzpatrick: This is a matter for the Civil Aviation Authority, as the UK's independent aviation regulator. I have asked the chairman to write to the hon. Member.

Bus Services: Contracts

Mrs. Villiers: To ask the Secretary of State for Transport (1) what plans she has to alter the tendering process for bus-operated rail replacement services; [193983]

(2) whether she has received complaints from bus operators on the tendering process for rail replacement bus contracts. [193984]

(3) how much Network Rail has spent on rail replacement bus services in each of the last five years; [193985]

(4) how many train operating companies *(a)* own and *(b)* are owned by a bus operating company; [193986]

(5) how many train operating companies share a parent company with a bus operating company; [193987]

(6) what recent meetings she has had to discuss the tendering process for rail replacement bus contracts. [193988]

Mr. Tom Harris: The Department of Transport does not have any role in specifying the tendering process for bus-operated rail replacement rail services. Train operators are responsible for securing alternatives for rail services, should it not be possible to operate the specified rail service in full.

Departmental Travel

Mr. Brazier: To ask the Secretary of State for Transport how many journeys were taken on Eurostar by staff of her Department in each of the last three years. [194970]

Jim Fitzpatrick: The information requested can be provided only at disproportionate cost.

Driver and Vehicle Licensing Agency

Mr. Greg Knight: To ask the Secretary of State for Transport pursuant to the answer of 28 January 2008, *Official Report*, columns 43-4W, on departmental telephone services, which of the telephone numbers used by the Driver and Vehicle Licensing Agency are premium rate; and how much has been raised in respect of calls to these lines in the last 12 months for which figures are available. [196729]

Jim Fitzpatrick: The Driver and Vehicle Licensing Agency (DVLA) offers Premium Rate Driving Licence check and vehicle check telephone service to verify driver and vehicle details and an additional Date of

Liability line which provides information on the expiry of the current tax disc. Calls to these services are charged at 49p per minute.

The vehicle check service is now offered via the web free of charge and call volumes have dropped by 90 per cent. over the last 18 months. DVLA is looking to pilot a web service for the driving licence check later this year.

Income for the first 11 months of 2007-08 is £611,702.53.

Great Western Trains

Mrs. Villiers: To ask the Secretary of State for Transport pursuant to her written ministerial statement of 26 February 2008, on First Great Western, (1) on what dates First Great Western are required *(a)* to present their Remedial Plan to her Department and *(b)* to publish their Remedial Plan; [191712]

(2) how long her Department has been working on the Remedial Plan with First Great Western. [191713]

Mr. Tom Harris: Prior to 26 February, the Department had been discussing the contents of a possible Remedial Plan to be issued by First Great Western in response to the Remedial Plan Notice.

The Department for Transport has been discussing the Remedial Plan itself with First Great Western since 28 February 2008, which is the date on which First Great Western was required to submit the Remedial Plan to the Department for Transport. First Great Western is not required to publish the Remedial Plan.

The Remedial Plan is contractualised as a Remedial Agreement, which will be incorporated into the First Great Western franchise agreement. The amended franchise agreement will be available through the Department for Transport's Public Register.

Mrs. Villiers: To ask the Secretary of State for Transport pursuant to her written ministerial statement of 26 February 2008, *Official Report*, columns 73-4WS, on First Great Western franchise, (1) if she will put a copy of First Great Western's Remedial Plan in the Library, once it is agreed; [191742]

(2) if she will place in the Library a copy of *(a)* all First Great Western's monthly reports to her Department and *(b)* her Department's assessment of their progress against their Joint Improvement Plan and 40-point Recovery Plan. [191748]

Mr. Tom Harris: These documents are commercially confidential. However, the Remedial Plan is contractualised as a Remedial Agreement, which will be incorporated into the First Great Western franchise agreement. The amended franchise agreement will be available through the Department for Transport's Public Register.

Motorcycles

Mr. Todd: To ask the Secretary of State for Transport how many motorcycles of 50cc or under are being used on roads; and what the trend has been in use of these vehicles over the last five years. [196080]

Jim Fitzpatrick: The number of licensed motorcycles of 50cc or under in Great Britain over the last five years were as follows:

Year end	*Number of licensed motorcycles of 50cc or under (Thousand)*
2002	166
2003	170
2004	172
2005	163
2006	154

Motorcycles: Accidents

Mr. Todd: To ask the Secretary of State for Transport how many accidents there have been involving 16-year-olds driving 50 cc or under motorcycles in each of the last five years. [196079]

Jim Fitzpatrick: The number of reported personal injury road accidents involving at least one 16-year-old driving a 50 cc or under motorcycle, in 2002 to 2006, are shown in the table.

	Number of accidents
2002	1,783
2003	1,876
2004	1,997
2005	1,953
2006	1,947

Railways

Norman Baker: To ask the Secretary of State for Transport what responsibilities *(a)* her Department and *(b)* Network Rail has for (i) train path allocations and (ii) network growth. [191813]

Mr. Tom Harris: Train path allocations are commercial agreements between Network Rail and the train operators, which are independently regulated by the Office of Rail Regulation.

The Government have set out both the growth they wish to see on the network during the five year review period 2009-10 to 2013-14, and the funds available to pay for meeting that demand. Network Rail and the train operators are developing the detail of how to implement this, subject to independent evaluation by the Office of Rail Regulation.

Railways: Land

Mrs. Villiers: To ask the Secretary of State for Transport pursuant to the answer of 18 December 2007, *Official Report*, column 1438W, on railway track, what consultations her Department held with BRB (Residuary) Ltd before a sale was agreed for each of the areas of land indicated in the answer. [193981]

Mr. Tom Harris: Prior to disposing of any land in its ownership, BRB (Residuary) Ltd. consults with interested parties, including the Department for Transport in accordance with the guidance that I issued to them in July 2007. Details of that guidance are outlined in my

statement to the House of 26 July 2007 and are available in the Library of the House and on BRB(R)'s website at:

www.brbr.gov.uk

Roads: Repairs and Maintenance

Norman Baker: To ask the Secretary of State for Transport (1) what assessment her Department has made of the impact on road maintenance costs of allowing heavy goods vehicles weighing up to 60 tonnes; and if she will make a statement; [190566]

(2) what assessment her Department has made of the impact on safety of other road users of allowing heavy goods vehicles weighing up to 60 tonnes on the roads; and if she will make a statement. [190567]

Jim Fitzpatrick: The impact of such vehicles on safety and road infrastructure is being considered in a study, the report of which should be published in full shortly.

Roads: Safety

Mr. Vara: To ask the Secretary of State for Transport how much the Highways Agency spent on safety improvements in each year since 2001, broken down by county; and what the Agency's safety improvement budget is for each of the next three years, broken down by county. [195425]

Mr. Tom Harris: The Agency cannot identify all monies spent on safety improvements without incurring disproportionate costs to obtain this information.

Rolling Stock

Stephen Hammond: To ask the Secretary of State for Transport how many useable carriages and units she estimates are held in sidings or depots. [195237]

Mr. Tom Harris: This is a matter for the rolling stock companies who own the trains, though the Department for Transport is not aware of any substantial quantity of usable rolling stock held off-lease.

Trains

Norman Baker: To ask the Secretary of State for Transport pursuant to the answer of 6 March 2008, *Official Report*, column 2758W, on Intercity Express: consultants, what *(a)* benefits and *(b)* value for money gains she expects to arise as a result of her Department's detailed involvement in the specification process. [194550]

Mr. Tom Harris: There is a good business case for the introduction of the Intercity Express Programme (IEP) train on the network's main intercity routes.

The Intercity Express programme offers better value for money than would otherwise be available from continuing with the current mix of trains, or from pursuing other train options.

Depending on the total number of routes chosen for deployment, and the tenders from the market, the benefits of the Intercity Express Programme are expected to exceed costs by around £3 billion over the life of the train.

CHILDREN, SCHOOLS AND FAMILIES

Academies: Finance

Miss Kirkbride: To ask the Secretary of State for Children, Schools and Families what method is used for calculating the funding for academies. [196260]

Jim Knight: The principle followed is that an academy should be funded at the same level as a maintained school in the same circumstances, so far as circumstances allow. Therefore the largest component of an Academy's General Annual Grant (GAG), the school budget share, is calculated using the relevant local authority's school funding formula, together with the Learning and Skills Council's formula for sixth form provision. Other grants such as School Standards Grant and specialist school funding for which there is a national formula are calculated on the same basis as for maintained schools. Academies have certain additional grants to recognise additional responsibilities. They cannot reclaim value added tax, so a VAT grant is paid; and they also receive a grant based on the local authority's spend per pupil on central services. Start-up grants are also payable in the period after opening, to support the educational transformation required of an academy.

Children in Care: General Certificate of Secondary Education

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what percentage of children in care obtained A* to C GCSE grades in *(a)* English and *(b)* mathematics in each of the last 10 years. [195965]

Kevin Brennan: We do not collect information about the numbers of looked after children who achieve A*-C GCSE grades in English or mathematics separately. However, these data are available at a local level enabling local authorities to set targets for the attainment of looked after children at key stage 4 which include English and mathematics. These targets are negotiated with the National Strategies and Government offices and form a statutory part of a local authority's local area agreement.

As our Care Matters programme demonstrates we are committed to improving the education of looked after children. At national level the DCSF is matching data on looked after children to the National Pupil Database (NPD), which provides a wide range of data on the educational attainment of children and young people. From 2009 an initial analysis of looked after children to attainment data along with a range of other data will be available, including English and mathematics at GCSE.

Data collected since 2000 and published in 'Outcome indicators for looked after children twelve months to 30 September', show the percentage of children who were looked after for at least 12 months achieving five GCSEs (or equivalent) at grades A*-C. Data for England are shown in the following table.

Number and percentage of children who are looked after continuously for at least 12 months in year 11 who achieved five A- C GCSE grades (or equivalent)[1], 12 months ending 30 September 2000-06, England*

	Number	Percentage[2]
2000	300	7.3
2001	330	8.0
2002	320	7.5
2003	400	8.7
2004	450	9.4
2005	510	10.8
2006	600	11.8

[1] Figures have been rounded to the nearest 10.
[2] Expressed as a percentage of all looked after children in Year 11.
Source:
OC2 Survey

Children in Care: Pupil Exclusions

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many children in care were permanently excluded from school in each of the last 10 years. [195967]

Kevin Brennan: Data collected since 2000 and published in 'Outcome Indicators for Looked After Children Twelve Months to 30 September', show the number and percentage of children who were looked after for at least 12 months and who were permanently excluded from school. Data for England are shown in the table. Information prior to 2000 was not collected.

Number and percentage of children who are looked after continuously for at least 12 months who have been permanently excluded[1, 2], England

12 months ending 30 September 2000 to 2006	Number	Percentage
2000	500	1.5
2001	450	1.3
2002	420	1.2
2003	380	1.1
2004	320	0.9
2005	310	0.9
2006	280	0.8

[1] Figures have been rounded to the nearest 10.
[2] If a child was permanently excluded more than once in the previous year, each occasion has been counted.
[3] Expressed as a percentage of the number eligible for full-time schooling.
Source:
OC2 Survey.

Latest statutory guidance on exclusions advises that looked after children should be excluded from school only as a last resort and that schools in conjunction with the local authority should first consider alternative options for supporting the child or young person. Local authorities are under a duty to arrange suitable full-time education from the sixth day of exclusion for all permanently excluded children. The guidance makes clear the Government's view that for looked after children alternative provision should be arranged from the first day of exclusion.

Children: Population

Danny Alexander: To ask the Secretary of State for Children, Schools and Families how many children *(a)* under 12, *(b)* under 10 and *(c)* under seven years were living in the UK in each year since 1997, broken down by region; and what forecast he has made of the numbers in each group living in the UK in each year to 2011, broken down by region. [176689]

Angela Eagle: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 25 March 2008:

As National Statistician, I have been asked to reply to your question regarding how many children (a) under 12, (b) under 10 and (c) under seven years were living in the UK in each year since 1997, broken down by region; and what forecast have been made of the numbers in each group living in the UK in each year to 2011, broken down by region. (176689)

Table 1 shows population estimates for the requested age groups for each Government Office Region within England and for Wales, Scotland and Northern Ireland for the years 1997-2006. The latest population estimates available are for mid-2006.

Table 2 shows the latest (2006-based) national population projections for the requested age groups for the UK and constituent countries for the years 2007-2011.

Table 3 shows the 2004-based subnational population projections for the requested age groups for each Government Office Region within England for the years 2007-2011. Please note that they are not directly comparable with the latest (2006-based) national projections. 2006-based subnational projections are due to be published in June 2008.

Children's Fund

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what projects are funded by the Children's Fund. [186753]

Beverley Hughes: The Department does not collect this level of information centrally. Day to day management of the fund rests with the 149 Children's Fund Partnerships.

Departmental Data Protection

Mr. Weir: To ask the Secretary of State for Children, Schools and Families whether confidential or personal information has been compromised through the loss of property from his Department and its predecessor since 1997. [193434]

Kevin Brennan: Except in exceptional cases, when it is in the public interest, it has been the policy of successive governments not to comment on breaches of security. However, following the publication of the Data Handling Procedures in Government: Interim Progress Report on 17 December 2007, *Official Report*, column 98WS, all Departments will cover information assurance issues in their annual reports.

Departmental Official Visits

David Simpson: To ask the Secretary of State for Children, Schools and Families what the cost was of overnight accommodation for *(a)* civil servants, *(b)* special advisers and *(c)* Ministers in his Department staying overnight in (i) mainland Great Britain, (ii) Northern Ireland, (iii) the Republic of Ireland and (iv) other countries in the last 12 months. [193525]

Kevin Brennan: The Information is not available in the form requested and can be obtained only at disproportionate cost.

I can, however, confirm that the total cost of overnight accommodation for my Department and the Department of Innovation and Skills (DIUS) in the last 12 months is £981,189. This is made up of:

£970,208 mainland Great Britain and Northern Ireland;

£264 Republic of Ireland; and

£10,617 other countries.

Departmental Property

Mr. Weir: To ask the Secretary of State for Children, Schools and Families what property was lost or stolen from his Department and its predecessor since 1997; and what the cost of replacement was. [187475]

Kevin Brennan: The information you require is as follows:

Item	*Number*	*Total approximate value (£)*

Departmental Public Expenditure

Ms Keeble: To ask the Secretary of State for Children, Schools and Families what proportion of his Department's expenditure was allocated to Government growth areas in the last year for which figures are available. [190956]

Kevin Brennan: The four growth areas identified by the Government are made up of district and borough councils. We do not allocate funding directly to this level. Funding is allocated to local authorities who have education and children service responsibilities.

Departmental Travel

Mr. Jeremy Browne: To ask the Secretary of State for Children, Schools and Families how much his Department spent on travel (*a*) within and (*b*) outside the UK for officials in each of the last 10 years; and what percentage of his Department's overall expenditure was spent on such travel in each such year. [181521]

Kevin Brennan: The information requested is as follows:

	Spend for travel outside UK (£)	Spend for travel within UK (£)	Percentage of overall departmental spend
2003-04	197,297	5,561,184	0.023
2004-05	167,675	5,444,822	0.021
2005-06	251,630	5,109,929	0.019
2006-07	251,328	5,864,827	0.089

Discrimination

David T.C. Davies: To ask the Secretary of State for Children, Schools and Families how many claims for discrimination, based on (*a*) sex, (*b*) race and (*c*) sexual orientation, were brought by members of his Department and its predecessor and settled (i) in and (ii) out of court in each of the last five years. [194975]

Kevin Brennan: The information requested is as follows:

	Sex	Race	Sexual orientation	Settled in court	Settled out of court
2003	0	0	0	0	0
2004	2	0	0	0	2
2005	2	2	0	1	3
2006	1	0	0	0	1
2007	0	0	0	0	0

Educational Visits

Gregory Barker: To ask the Secretary of State for Children, Schools and Families (1) what percentage of A-level biology students were not offered the opportunity to conduct course-related fieldwork in the school year 1995-96; [189207]

(2) what percentage of GCSE science students took a residential field trip in the school year 1995-96. [189208]

Jim Knight: The Department for Children, Schools and Families does not collect this information broken down by subject and qualification.

I refer the hon. Member to the reply given on 21 February 2008, *Official Report*, column 853W.

General Certificate of Secondary Education

Michael Gove: To ask the Secretary of State for Children, Schools and Families in which maintained

mainstream schools fewer than 30 per cent. of pupils achieved five A*-C GCSEs including English and mathematics in the latest period for which figures are available. [195305]

Jim Knight: This information can be found in the key stage 4 achievement and attainment tables which have been placed in the House Library.

Health Education: Sex

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effectiveness of sex education in England; and if he will make a statement. [195969]

Jim Knight: The Department has not made an assessment of the effectiveness of sex education in England. However, as part of the Children's Plan we have given a commitment to review best practice in effective sex and relationship (SRE) and how it is delivered in schools. We have listened to young people and recognise that many feel that they do not currently have the knowledge they need to make safe and responsible choices about relationships and sexual health. The review is being overseen by the SRE Review Steering Group which I co-chair alongside a member of the UK Youth Parliament and a member of the National Council for Educational Excellence. We are involving young people fully in the review to make sure that future SRE better their needs.

Local Education Authorities: Finance

Miss Kirkbride: To ask the Secretary of State for Children, Schools and Families how much his Department spent calculating the funding allocations to each local education authority in 2007-08. [195259]

Jim Knight: The Department does not hold the information requested.

National Programme for Specialist Leaders of Behaviour and Attendance

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how much his Department has spent on the National Programme for Specialist Leaders of Behaviour and Attendance since its inception; and how many teachers have been enrolled on the programme. [195970]

Kevin Brennan: The Department has spent about £6 million on the National Programme for Specialist Leaders of Behaviour and Attendance since its development in 2005. A total of 3,877 teachers and other staff have enrolled on the programme to date.

Physical Education: Standards

Mr. Don Foster: To ask the Secretary of State for Children, Schools and Families (1) if he will place in the Library a copy of the guidance provided to school sports partnerships on what constitutes high quality physical education and sport; [195431]

(2) what definition of high quality physical education and sport he uses in relation to schoolchildren; [195432]

(3) what percentage of schoolchildren participate in two hours of sport during curriculum time; [195383]

(4) what the average time spent by schoolchildren on sport during curriculum time was in each of the last five years. [195384]

Kevin Brennan: The annual PE and School Sport Survey was introduced in 2003/04 and collects data relating to participation in PE and school sport. Over the last four years, pupils in School Sport Partnership schools spent the following average curriculum times on PE in a typical week:

	minutes
2003/04	103
2004/05	107
2005/06	111
2006/07	115

In 2006/07, 70 per cent. of the pupils received two hours of curriculum PE in a typical week.

The annual PE and School Sport Survey is accompanied by guidance to support the completion of the questionnaire. The definition of high quality PE and out of hours school sport is:

> this produces young people with the skills, understanding, desire and commitment to continue to improve and achieve in a range of PE, sport and health-enhancing physical activities, in line with their abilities, as set out in the 'High Quality PE and Sport for Young People' guide

Copies of the guide 'High Quality PE and Sport for Young People' have been placed in the House Libraries.

Press

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the cost of the press offices of *(a)* his Department, *(b)* its agencies and *(c)* its non-departmental public bodies were in each year since 1996-97; what the cost was in each quarter since 1 April 2007; and if he will make a statement. [189656]

Kevin Brennan: The information is as follows:

(a) The Department for Children Schools and Families was established in June 2007. We are therefore unable to provide costs prior to April 2007. Information for the current financial year is not yet available.

(b) The Department does not have any agencies.

(c) We do not hold costs for our non-departmental public bodies.

Pupil Exclusions

Mr. Vara: To ask the Secretary of State for Children, Schools and Families how many pupils were excluded from school in each of the last five years. [195428]

Kevin Brennan: The available information can be found in Tables 1 and 2 in the Permanent and Fixed Period Exclusions from Schools and Exclusion Appeals in England 2005/06 have been placed in the House Libraries.

SFR on the Departments website at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000733/SFR21-2007.pdf

The fixed period exclusion figures were only collected from 2003/04.

Redundancy: Pay

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 8 October 2007, *Official Report*, column 381W, on redundancy pay, how much was spent by his Department on voluntary redundancy payments in the last 12 months prior to 30 June. [166284]

Kevin Brennan: The information requested can only be provided in financial years. The total cost of voluntary early release payments for the former Department for Education and Skills (DfES) in the last financial year is as follows:

Financial year	*Total cost to DfES (£ million)*
2006-07	10.553

The former DfES commitment for voluntary early releases in the 2007-08 financial year was £2.591 million.

Schools: Admissions

Mr. Allen: To ask the Secretary of State for Children, Schools and Families if he will amend the Schools Admissions Code to limit more explicitly its religious content of admissions criteria. [195767]

Jim Knight: As announced in the Children's Plan in December 2007, we are reviewing the school application and allocation process and are considering how admissions should be managed as part of that review. We will consult on a range of proposals as a result of this review to further strengthen the admissions system in the summer.

All admission authorities, including those for maintained faith schools, have to act in accordance with the School Admissions Code and admissions legislation, to ensure fair access for all. Every school must consider all applications and ensure that families are not discouraged from applying.

Schools: Crime

Dr. Kumar: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effect of crime levels in schools on the decisions prospective students make in determining which school they will attend. [195674]

Kevin Brennan: Recent research published by Sheffield Hallam University on secondary school admissions in 2006 (Research Report DCSF-RR020) which included a survey of parents' experiences with the admissions system, indicated that common reasons for parents favouring their preferred secondary school included that the school has a good reputation in the community (40 per cent.) and that the school has good discipline/behaviour (19 per cent.). Reasons for parents not applying to their nearest maintained school included that the school has a poor reputation in the community (38 per cent.) and that the school has a problem with behaviour/discipline (21 per cent.). Both of these reasons could be linked to parents' fears about crime, but we have no direct evidence for this. As the Practitioners' Group on School Behaviour and Discipline has noted, incidents of the most serious misbehaviour in schools remain rare and are carried out by a very small proportion of pupils.

Schools: Culture

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how many hours of cultural activity a week are planned to be offered to schoolchildren in school hours. [195802]

Jim Knight: The "Find Your Talent" programme will trial different ways of offering children a range of high quality cultural experiences, including ways of ensuring that all children are able to experience at least five hours a week of cultural activities in and out of school, and provided by a range of partners in addition to schools.

There is already much cultural activity taking place and the pilots will build on this. Rather than identifying one particular model, the pilots will test a variety of approaches to a cultural offer over the next three years.

Schools: Sports

James Brokenshire: To ask the Secretary of State for Children, Schools and Families which projects have received funding from the Sports Champions Mentoring Programme; and what criteria are being used to assess the effectiveness of this programme. [173851]

Kevin Brennan: The information is as follows:

Sporting Champions

Sport England provides £300,000 per year to fund "Sporting Champions" an initiative which brings world-class athletes face to face with young people to inspire and motivate them to participate in sport.

The scheme provides around 450 visits per year to community organisations and schools free of charge.

Evaluation for this work is undertaken by the Sporting Champion and the host organisation after each visit. Longer term impact studies are also undertaken with a sample of visits.

Respect Athlete Mentoring Programme

Between 2005/06 and 2007/08 the Department for Culture Media and Sport has provided over £650,000 to fund the Respect Athlete Mentoring Programme (RAMP). The programme is delivered jointly by Sport England (through its delivery agent, Creating Excellence) and the Youth Sport Trust.

RAMP uses elite sports people to mentor young people within deprived areas who are at risk of social exclusion.

The project uses a computer-based data collection programme to collect a range of statistics about the behaviours and attitudes of the young people involved. This is backed up by continuous dialogue and feedback from the mentor.

Secondary Education: Teachers

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how many and what percentage of secondary school teachers of *(a)* physics, *(b)* chemistry, *(c)* biology, *(d)* mathematics, *(e)* history and *(g)* modern languages who qualified in each year since 1992 are teaching full-time. [195920]

Jim Knight: The information could be provided only at disproportionate cost.

Secondary Education: Teaching Methods

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families what funding will be provided to secondary schools to introduce small group tuition. [180466]

Jim Knight: The Government are committed to every child having access to personalised learning support to ensure every child achieves their potential It is for schools to decide how best to support the progression of their pupils, including the use of small group tuition as part of this. This is why we have given schools the support as well as flexibility of funding to enable these decisions to be taken by school in line with the needs of their pupils. As part of personalising learning for children and young people, the Government are encouraging schools to consider the opportunities to children beyond the school day, and in particular through extended schools. The extended school core offer includes a varied menu of activities for children and young people, with study support as part of this. The Government have committed over £1.3 billion over the next three years to support the development of extended schools, and included in this is funding to support small group tuition in some secondary schools, with funding for this becoming available in 2009-10.

Special Educational Needs

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many children *(a)* were classified as having special educational needs, *(b)* were given a statement of special educational needs and *(c)* were classified as having emotional and behavioural difficulties, in each of the last 10 years. [195960]

Jim Knight: The number of pupils with special educational needs in the last five years in all schools can be found in table 1a (with statements) and 1b (without statements) of the Statistical First Release 'Special Educational Needs in England, January 2007' available at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000732/index.shtml.

Further information on earlier years can be found in table 1a and 1b of the Statistical Bulletin 'Special Education Needs In England, January 2002', available at:

http://www.dfes.gov.uk/rsgateway/DB/SBU/b000367/index.shtml.

The number of maintained mainstream school pupils for whom statements were newly made for the years 1997 to 2006 can be found in the following table.

Year	Number of children for whom statements were newly made	Placement in maintained mainstream schools[1,2]	
		Number	Percentage
2006	22,600	15,660	69.3
2005	24,040	17,380	72.3
2004	25,990	19,050	73.3
2003	28,780	21,330	74.1
2002	30,720	23,350	76.0
2001	32,470	24,790	76.3
2000	33,750	25,510	75.6
1999	35,420	26,330	74.3
1998	36,180	26,780	74.0
1997	35,650	25,140	70.5

[1] Includes resourced provision/units/special classes in maintained mainstream schools.
[2] Includes SEN units in maintained mainstream schools.
Source:
SEN 2 Survey

The number and percentage (from those at School Action Plus or with a statement of SEN) of pupils in maintained primary and secondary schools and all special schools classified as behavioural, emotional and social difficulties as a primary need from 2004-07 can be found in the following table.

	Total	
	Number	Percentage of those at School Action Plus or with a statement of SEN
2007	139,310	22.2
2006	134,800	21.9
2005	128,130	21.4
2004	126,890	21.6

Source:
School Census

Data on type of need were not collected prior to 2004.

Specialist Schools and Academies Trust

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what objectives have been set for the Specialist Schools and Academies Trust; what the Trust's costs were in the latest 12 month period for which figures are available; and what proportion of these costs were funded *(a)* directly and *(b)* indirectly by his Department. [195651]

Jim Knight: The Specialist Schools and Academies Trust is an independent, charitable organisation, which receives income from different sources. Details of its costs, and the amount of Government funding paid, can be found in its annual accounts.

The DCSF funds SSAT through a range of grants and contracts to support the Specialist Schools and Academies programmes and a range of other activities designed to raise pupil achievement. Each programme has separately agreed outcomes, negotiated over varying time-frames, which are subject to appropriate reporting and monitoring procedures. Within each grant and

contract funded by the Department, a proportion of funding will cover the associated direct and indirect delivery costs, as appropriate for each programme

Teachers TV: Expenditure

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how much his Department spent on Teachers TV in each year since its introduction. [195800]

Kevin Brennan: Teachers' TV was launched in February 2005 and aims to help raise standards in classrooms by sharing good practice, supporting continuing professional development, offering classroom resources, and providing education news and information.

In the channel's first operating year the Department provided funding of £19.9 million, in the second £16 million and £16.7 million in its third year.

Teachers: Training

Mr. Don Foster: To ask the Secretary of State for Children, Schools and Families what training is provided to teachers involved in providing physical education to schoolchildren. [195429]

Kevin Brennan: All teacher trainees for the primary phase learn about PE as part of their initial training. For secondary, teacher trainees who specialise in PE will learn about PE as a major part of their training programme. For experienced teachers, the Training and Development Agency for Schools has a remit to support their continuing professional development Funding for this area is devolved to schools, which are best placed to decide what activities meet the needs of the school and the individual teachers working there. Additional support is available through the PE and School Sport Professional Development Programme which allows schools to draw, free of charge from a menu of resources to help teachers raise the quality of the PE and school sport they provide.

Truancy

Ms Buck: To ask the Secretary of State for Children, Schools and Families (1) what guidance is issued to schools on the removal of pupils from school rolls after a period of unauthorised absence; and if he will make a statement; [192925]

(2) how many *(a)* primary and *(b)* secondary school pupils were removed from school rolls after a period of unauthorised absence in each education authority area in each of the last five years; [192926]

(3) on how many occasions school pupils were removed from school rolls with no contact having been made with the pupil's parents or carers in each of the last five years; [192927]

(4) on how many occasions in each local education authority area the police were notified by schools or local education authorities of the non-appearance of an enrolled pupil in each of the last five years; [192928]

(5) on how many occasions in each local education authority area schools have notified a social services department of the non-appearance of an enrolled pupil in each of the last five years. [192929]

Kevin Brennan: Schools' authority to remove pupils from the register is prescribed by the Education (Pupil Registration) (England) Regulations 2006 (SI 2006/1751) and we have also provided guidance in "Keeping Pupil Registers". Under the regulations, schools can delete a pupil only after a period of unauthorised absence if they and their local authority have failed, after reasonable inquiry, to ascertain where the pupil is.

The regulations require all schools to inform their local authority of any pupil who has amassed 10 continuous school days of unauthorised absence following extended leave, typically a family holiday. Maintained schools must inform their local authority of any pupil who has amassed 20 continuous school days of unauthorised absence at any time. The regulations also require schools to inform their local authority of any deletion when the name of the pupil's new school is unknown. "Keeping Pupil Registers" has references and electronic links to guidance on other areas such as forced marriages and children missing from education. We would always expect schools to take action where they are concerned about the safety or welfare of a child; and to involve other agencies—local authority children's social care, and the police—as appropriate, in line with locally agreed safeguarding procedures.

The statistical information requested is not available centrally.

Young People: Population

Mr. Willis: To ask the Secretary of State for Children, Schools and Families how many *(a)* 16-year-olds and *(b)* 18-year-olds are projected to be living in the UK in each year until 2018. [173207]

Angela Eagle: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 25 March 2008:

As National Statistician I have been asked to reply to your question regarding the number of *(a)* 16-year-olds and *(b)* 18-year-olds projected to be living in the United Kingdom in each year to 2018. (173207)

The table below shows the projected United Kingdom population aged 16 and 18 for each year from 2006 to 2018. The most recent national population projections, based on the population at the middle of 2006, were published by the Office for National Statistics on 23 October 2007.

Projected population aged 16 and 18, United Kingdom, 2006 to 2018

Thousand

Age	*16*	*18*
2006	791	809
2007	802	802
2008	789	809
2009	764	820
2010	753	805
2011	737	780
2012	733	770
2013	738	753
2014	720	749
2015	706	754
2016	686	735
2017	671	722
2018	671	702

Source:
2006-based national population projections, ONS

Young People: Research

Mr. Frank Field: To ask the Secretary of State for Children, Schools and Families when he plans to publish the Next Steps component of the Longitudinal Study of Young People in England. [195457]

Jim Knight *[holding answer 19 March 2008]:* Next Steps is the term by which its participants know the Longitudinal Study of Young People in England (LSYPE).

Provisional data for LSYPE interviews conducted in 2004 (wave 1) were available in October 2006. Revised data from this first wave of interviews were available in October 2007. Provisional data for 2005 (wave 2) was available in January 2008. This did not include some complex elements of the data, for instance on income and benefits. Revised data from wave 2, (which is expected to include information about income and benefits), and provisional data from wave 3 are due to be available later this month.

Data sets from LSYPE, are released to researchers through a website maintained by the Economic and Social Data Service: http://www.esds.ac.uk/longitudinal/access/lsype/L5545.asp. The data sets are usually available on the website about six weeks after they become available for analysis in the Department.

An official, statistical publication, covering the first four waves of the study, will be announced as part of the schedule of official publications later this month.

DUCHY OF LANCASTER

Charities: Bexley

Mr. Evennett: To ask the Chancellor of the Duchy of Lancaster how many organisations in *(a)* Bexleyheath and Crayford constituency and *(b)* the London Borough of Bexley have charitable status. [194660]

Phil Hope: This is a matter for the Charity Commission as the non-ministerial Government Department responsible for the regulation of charities in England and Wales. The chief executive of the Charity Commission will write to the hon. Member and a copy of his reply will be placed in the Library.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Disease Control

Mr. McLoughlin: To ask the Secretary of State for Environment, Food and Rural Affairs what steps are being taken to ensure utility companies maintain good bio-security practice when carrying out works on farmland. [195221]

Jonathan Shaw: Encouraging good bio-security by everyone that enters and leaves farms is something the Government take seriously. DEFRA has published guidance for anyone who enters a farm or premises with farm animals, or enters land used for grazing or keeping farm animals, including specific advice for utility companies. This can be found on the DEFRA website.

DEFRA has written to all utility companies on its database to remind them of the need to practice good bio-security, and take appropriate precautions when coming into contact with livestock or poultry.

Agriculture: Subsidies

Steve Webb: To ask the Secretary of State for Environment, Food and Rural Affairs how many and what value of single farm payments were issued by the Rural Payments Agency for between *(a)* £60.01 and £80.00, *(b)* £80.01 and £100.00, *(c)* £100.01 and £120.00, *(d)* £120.01 and £150.00 and *(e)* £150.01 and £200.00, excluding delayed payments from previous years, in each of the last three years. [195439]

Jonathan Shaw *[holding answer 19 March 2008]:* The number and value of Single Payment Scheme payments in the bands specified in the question and by scheme year are as follows:

	SPS 2005		*SPS 2006*	
Band	*Number*	*Value (£)*	*Number*	*Value (£)*
£60.01 to £80.00	3,555	247,229	2,176	152,302
£80.01 to £100.00	2,791	250,448	2,114	190,168
£100.01 to £120.00	2,228	244,509	1,748	192,074
£120.01 to £150.00	2,832	380,816	2,246	302,151
£150.01 to £200.00	3,739	649,383	3,025	527,011

The figures are presented by scheme year to avoid including delayed payments from previous years.

SPS 2007 payments are still being made and so we cannot provide equivalent figures at this stage.

Animal Welfare: Birds

Keith Vaz: To ask the Secretary of State for Environment, Food and Rural Affairs what changes have been made to the regulations governing the welfare of birds in the last 10 years; and if he will make a statement. [195249]

Joan Ruddock: Assuming that the hon. Member is referring to birds under the control of man, a significant amount of legislation regarding their welfare has changed in some way in the last 10 years.

While it is not possible to list every change succinctly, two of the most important changes to the requirements are:

i. a duty of care for the owners and keepers of all animals, including birds, in the Animal Welfare Act 2006; and

ii. a ban on the use of conventional cages for laying hens from 2012, in the provisions of the Welfare of Farmed Animals (England) Regulations 2007.

Additionally, further changes have been made to improve welfare for birds during transport and at slaughter; these are provided for by the Welfare of Animals (Transport) (England) Order 2006, and six amendments to the Welfare of Animals (Slaughterer Killing) Regulations 1995.

Similar legislation has also come into force in Northern Ireland, Scotland and Wales.

Arm's Length Management Organisations: Finance

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 10 March 2008, *Official Report*, column 34W, on arm's length management organisations, what funding will be provided by his Department to each of its *(a)* arm's length bodies and *(b)* gross controlled agencies in 2008-09; and if he will make a statement. [194954]

Jonathan Shaw *[holding answer 17 March 2008]:* I refer the hon. Gentleman to the following written answers published on 28 February 2008, *Official Report*, columns 1853-55W.

Birds: Game

Keith Vaz: To ask the Secretary of State for Environment, Food and Rural Affairs how many birds were killed in sport shooting events in each of the last 10 years; and if he will make a statement. [195247]

Joan Ruddock: My Department does not hold information on how many birds are killed in sport shooting events. The most recent information my Department is aware of is the Public and Corporate Economic Consultants report on Shooting Sports. The report estimates that the total number of game birds and wildfowl shot for sport in the UK in 2004 was just under 19 million, almost four-fifths of these were pheasants and 99 per cent. were destined for the food chain.

Bovine Tuberculosis

Mr. Kidney: To ask the Secretary of State for Environment, Food and Rural Affairs what evidence of the policies of other countries he plans to take into account when making a decision on whether badger culling should form part of his Department's response to outbreaks of bovine TB. [194414]

Jonathan Shaw: In making our decision, we are considering all available evidence, including bovine TB policies in other countries, such as Ireland, New Zealand and Australia, and anything we can learn to help with the situation in England. However, it is important to bear in mind that other countries' experiences are not directly transferable to England because the wildlife population, farming practices and general environment are all different. As a result, while we can learn from other countries' experiences, directly applying such policies here is not possible.

Bovine Tuberculosis: Shropshire

Daniel Kawczynski: To ask the Secretary of State for Environment, Food and Rural Affairs what compensation payments were made to farmers in Shropshire in respect of cattle destroyed following contraction of bovine tuberculosis in *(a)* 2006 and *(b)* 2007. [194683]

Jonathan Shaw: A county breakdown of the amount of compensation paid to farmers is not available.

Civil Service Appeal Board

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs how many and what percentage of appeals by employees of *(a)* his Department and *(b)* its agencies were (i) heard and (ii) upheld by the Civil Service Appeal Board in each of the last 10 years; how much was awarded in compensation by the Board to each successful appellant in each year; what the reason was for each compensation award; how many appellants were reinstated by the Board in each year; and what the reason was for each (A) dismissal and (B) reinstatement. [192514]

Jonathan Shaw: The information requested could be provided only by incurring disproportionate cost.

Dangerous Dogs Act 1991

Kate Hoey: To ask the Secretary of State for Environment, Food and Rural Affairs whether he plans to revise the Dangerous Dogs Act 1991; and if he will make a statement. [195332]

Jonathan Shaw: I refer my hon. Friend to the answer given on 10 March 2008, *Official Report*, column 36W.

Departmental Carbon Emissions

Mr. Kemp: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he has taken to reduce his Department's carbon dioxide emissions in 2008-09. [191008]

Jonathan Shaw: My right hon. Friend the Secretary of State for Environment, Food and Rural Affairs can confirm that DEFRA is working in partnership with the Carbon Trust and industry experts to deliver carbon emissions reductions. A number of initiatives are currently being implemented through its carbon management and energy efficiency programmes. DEFRA is the first Government Department to receive energy efficiency accreditation for its core and Executive agency estate.

Through site level benchmarking, monitoring and targeting of energy consumption, DEFRA has built up a site by site data set of its energy use and has identified opportunities for significant carbon reductions across its network estate over the next three years.

Initiatives already undertaken include: installation of voltage optimisation technologies (powerPerfector™); energy efficient lighting technologies; insulation and draught proofing and feasibility studies for renewable energy technologies. A fully costed investment programme has been agreed to enable savings to be delivered that are required to meet cross-Government sustainability targets (2010 and 2020).

Departmental Data Protection

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs whether confidential or personal information has been compromised through the loss of property from his Department since 1997. [193444]

Jonathan Shaw: Except in exceptional cases, when it is in the public interest, it has been the policy of successive Governments not to comment on breaches of security. However, following the publication of the Data Handling Procedures in Government: Interim Progress Report on 17 December 2007, *Official Report*, column 98WS, all Departments will cover information assurance issues in their annual reports.

Departmental Impact Assessments

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs how many regulatory impact assessments his Department has conducted in the last 12 months. [191268]

Jonathan Shaw: Information on impact assessments (IAs) is published on DEFRA's website at:

http://www.defra.gov.uk/corporate/regulat/impact-assessment/index.htm

The Department published 19 consultations in 2007 which included a draft or partial regulatory impact assessment (RIA)/IA. For the same period, DEFRA published 51 final RIAs/IAs to support orders laid in Parliament. Information on the final RIAs/IAs published between 1 January and 30 June 2007 can also be found in Command Paper 7297, available at:

http://bre.berr.gov.uk/regulation/ria/regulatory_reporting/index.asp

For DEFRA, 33 RIAs/IAs have been listed.

Departments are in the process of identifying the final RIAs/IAs published between 1 July and 31 December 2007 for the next Command Paper.

From April 2008, all final IAs will be published on a central BERR/BRE website.

In accordance with BERR guidance, impact assessments are not required where policy changes will not lead to costs or savings for businesses, the public, third sector organisations, regulators or consumers. Nor are they required where changes to statutory fees or taxes are covered by a predetermined formula. It is also standard practice not to produce impact assessments where emergency legislation is concerned.

Departmental Older Workers

David Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs how many people over the age of 55 have been recruited by his Department in each of the last three years. [191530]

Jonathan Shaw: The civil service statistics are collected by ONS from the Annual Civil Service Employment Survey (formerly Mandate) and the latest published statistics are for the year to 30 September 2006.

The information requested is shown in the following table. All figures are headcount.

			Headcount
	2006	*2005*	*2004*
Department for Environment Food and Rural Affairs (excluding agencies)	0	0	30
Centre for Environment Fisheries and Aquaculture Science	[1]—	0	[1]—
Central Science Laboratory	10	[1]—	[1]—
Government Decontamination Services	n/a	n/a	n/a
Marine Fisheries Agency	n/a	n/a	n/a
Pesticides Safety Directorate	n/a	n/a	n/a
Rural Payments Agency	n/a	n/a	n/a
State Veterinary Service	n/a	n/a	n/a
Veterinary Laboratories Agency	0	0	10
Veterinary Medicines Directorate	n/a	n/a	n/a

n/a = data not available

[1] Numbers are rounded to the nearest 10, and numbers less than five are represented by "—".

Note:

Entrants are based on Department Date of Entry.

Departmental Retirement

Mark Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what the effect on the public purse will be as a result of the operation of his Department's voluntary retirement scheme. [194801]

Jonathan Shaw: Based on overall departmental gross pay bill costs the estimated net savings from the voluntary early retirement and severance schemes in the current year and over the next three years will be:

			£ million
	VER	*VES*	*Total*
2007-08	4.8	5.2	10
2008-09	8.45	8.75	17.2
2009-10	8.8	9.00	17.8
2010-11	9.1	9.4	18.5

Departmental Sick Pay

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost of sickness pay to staff within his Department was in the most recent year for which figures are available. [187516]

Jonathan Shaw: For the period 1 January 2007 to 31 December 2007, the total cost of sick pay for all staff in core DEFRA and those executive agencies covered by the core Department's terms and conditions (i.e. Animal Health, Marine and Fisheries Agency, Veterinary Medicines Directorate, Pesticides Safety Directorate and Government Decontamination Service) was £3,376,240.

Dogs

Kate Hoey: To ask the Secretary of State for Environment, Food and Rural Affairs how many charges have been brought against owners of dogs that attacked postmen in each of the last three years; and how many prosecutions were successful. [195331]

Jonathan Shaw: The information requested is not held by DEFRA or the Ministry of Justice.

Data from the court proceedings database held by the Ministry of Justice are unable to separately identify details of the victims of crime, as this level of detail is not held on their database, unless it is specified in either the statute or offence description.

Dogs: Electric Shock Equipment

Anne Snelgrove: To ask the Secretary of State for Environment, Food and Rural Affairs if he will meet representatives of the Kennel Club to discuss the use of electric shock collars on dogs. [193844]

Jonathan Shaw: My right hon. Friend the Secretary of State recently met with representatives of the Kennel Club, and the use of electric shock collars was discussed. There are no further plans to meet the Kennel Club at present.

Facilities Management

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effect that outsourcing of his Department's facilities management infrastructure will have on his Department's staff. [194171]

Jonathan Shaw *[holding answer 14 March 2008]:* As part of the consultation process under the project, an impact assessment has been undertaken, in accordance with departmental guidelines.

Furthermore, as the negotiations with bidders proceed, the welfare of any staff who may be impacted by Transfer of Undertakings (Protection of Employment) Regulations will be of paramount importance to the programme and further assessments will be undertaken.

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects to make a decision to outsource his Department's facilities management infrastructure. [194172]

Jonathan Shaw *[holding answer 14 March 2008]:* The Department's existing FM infrastructure is delivered through five regional contracts with the private sector.

The current re-procurement project which incorporates the existing FM infrastructure is expect to be concluded by October 2008, the commencement of such contract to be April 2009.

Farms: Inspections

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost to the public purse of farm inspections was in each of the last five years, broken down by inspection agency. [192034]

Jonathan Shaw: The cost of all on-farm work (covering all types of visit, and not restricted to those classed as inspections) by Animal Health (AH) for 2005-07 are broken down in the following table:

	State Veterinary Service[1]		*Animal Health*[1]
	2004-05	*2005-06*	*2006-07*
Total expenditure (£)	109,745,000	98,465,000	109,864,000
Proportion of total as on- farm work (percentage)	82	81	65
Estimated cost (£)	89,991,000	79,757,000	71,412,000

[1] These figures include the cost of the Egg Marketing Inspectorate and the Dairy Hygiene Inspectorate.

These calculations represent the full costs of on farm work, including back office costs and inspections. Costs for only inspections cannot be separated. Disease outbreak costs are not included in farm work nor abattoir visits.

Prior to 2005 costs are not available as the State Veterinary Service (SVS) did not exist as an agency. The cost to the public purse of the Veterinary Medicines Directorate inspections is nil, as these are part of a charged for service.

Fisheries: Inspections

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent training inspectors that monitor fish landings in each year since 1997; and if he will make a statement. [193202]

Jonathan Shaw: This information is not readily available and could be provided only at disproportionate cost.

However, regular training is provided to staff.

MFA British Sea Fisheries Officers undertake a comprehensive programme of training on both legal and practical issues before receiving their BSFO warrants. Further training is provided where identified and as necessary. These officers also undertake the three week course with the RN to act as mentors and to prepare themselves as training officers for the RN 'on the job training'.

RN officers undertake a three week course on fisheries legislation prior to appointment to their ships and once within the squadron receive 'on the job' training from an experienced MFA officer.

Food: Poverty

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs how many people were in food poverty in each of the last three years, broken down by region. [194909]

Jonathan Shaw: Responsibility for issues concerning poverty do not lie with DEFRA. Therefore, we do not hold the information requested.

Food: Procurement

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment he has made of the rising global demand for food products on the UK's ability to secure domestic food supplies; [194806]

(2) what assessment he has made of the effects of rising food costs on *(a)* food security, *(b)* food poverty and *(c)* international food programmes. [194809]

Jonathan Shaw: Food security is about ensuring consumers have access to a stable and adequate supply of food. This requires effective risk management and contingency planning, security of our energy supplies, access to food from a variety of sources and a strong food chain and infrastructure.

The UK currently enjoys a high level of food security, however, we are not complacent and we will continue to monitor the key indicators of our food security.

Responsibility for issues concerning poverty and international development do not lie with DEFRA.

Food: Wastes

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how much food entered the waste stream in each of the last three years; [194905]

(2) what assessment he has made of the effects of food waste from domestic sources on landfill capacity in the last three years. [194906]

Joan Ruddock: Research carried out by the Waste and Resources Action Programme (WRAP) estimates that around 6.7 million tonnes of food waste is generated by UK households each year, the equivalent of one third of food bought, or £8 billion worth of produce. A similar amount is produced by businesses, particularly the food manufacturing and retail sectors.

No assessment has been made of the effects of food waste from domestic sources on landfill capacity in the last three years, although approximately 5.25 million tonnes of municipal food waste is sent to landfill in the UK each year.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effectiveness of the Waste and Resources Action Programme in encouraging supermarkets to take steps to reduce food waste. [194907]

Joan Ruddock: Signatories to the 2006 Courtauld Commitment between major food and drink retailers, manufacturers and the Waste and Resources Action Programme (WRAP) agreed to support WRAP's business plan target of securing 100,000 tonnes/year of household food waste reduction by March this year. WRAP is currently assessing the programme's success and new targets are being drawn up which extend to 2011.

As part of the strategy for delivering this reduction, WRAP and its partners are also running a 'Love Food Hate Waste' campaign. This campaign is being delivered in partnership with the WI, local authorities, the UK grocery sector, food industry, Government and organisations such as the Food Standards Agency. Its aim is to help people get the most from the food they buy, and waste less of it.

Freedom of Information: Personal Records

Steve Webb: To ask the Secretary of State for Environment, Food and Rural Affairs what mechanisms his Department has in place to maintain the separation of personal data from the information required by section 40 of the Freedom of Information Act 2000; and if he will make a statement. [192140]

Jonathan Shaw: Guidance for staff makes clear that rights of access to personal information under the Freedom of Information Act are limited by the provisions of the Data Protection Act 1998.

If in any doubt staff can consult the departmental data protection officers who form part of our access to information team.

A training day for FOI practitioners in the Department and its agencies was held on 7 March with specific focus on the operation of Section 40.

Geographical Information Systems

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs which Government Departments and agencies will have access to the Shared Spatial Information Service. [193893]

Jonathan Shaw: The Shared Spatial Information Service is currently accessible to DEFRA and all members of the wider DEFRA Delivery Network including DEFRA Executive agencies and non-departmental public bodies.

Access has also been provided to a number of other Government Departments with mutual interests in data sharing and to Government offices.

The SPIRE ownership group will be reviewing the access policy during 2008 in anticipation of the broader requirements for sharing spatial data arising from the EC INSPIRE directive.

Hearing Impaired

Mr. Andy Reed: To ask the Secretary of State for Environment, Food and Rural Affairs what provision is made for deaf people to access services provided by his Department through call centres. [194950]

Jonathan Shaw: The DEFRA helpline, the Pet Travel Scheme and the Environment Agency's inquiries services all provide minicom/textphone facilities, as well as offering e-mail and postal contact addresses. Comprehensive website material is also available in each case.

The Rural Payments Agency's (RPA) customer contact centre does not have a minicom/textphone, but e-mail and postal address are available, and there is a comprehensive website for Single Payment Scheme and livestock traceability work. The RPA also carries out regular mail-shots and there are drop-in centres at each of the Agency's sites and facilities for customers to authorise a third party agent to represent them.

Natural England is able to take text-type calls via a service offered by the Royal National Institute for the Deaf. The Government Decontamination Service does not offer a minicom service but provides an e-mail

address on its website and on any published material. The Consumer Council for Water does provide a minicom/textphone service.

Home Energy Efficiency Scheme

Justine Greening: To ask the Secretary of State for Environment, Food and Rural Affairs how many vulnerable households with *(a)* children of zero to four years of age, *(b)* children of five to 16 years, *(c)* people in receipt of disability living allowance and *(d)* people over the age of 60 were assisted under the Warm Front Grant scheme in the financial years (i) 2003-04, (ii) 2004-05, (iii) 2005-06, (iv) 2006-07 and (v) 2007-08, broken down by local authority area. [195121]

Mr. Woolas: I have arranged for the information requested to be placed in the Libraries of the House.

Home Energy Efficiency Scheme: Expenditure

Justine Greening: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent on administration of the Warm Front grant scheme by *(a)* the Department for Environment, Food and Rural Affairs, *(b)* EAGA plc and *(c)* local authorities in (i) 2003-04, (ii) 2004-05, (iii) 2005-06, (iv) 2006-07 and (v) 2007-08. [195169]

Mr. Woolas: Warm Front is administered by EAGA plc, as part of their contracted duties as Scheme Manager.

The costs incurred by EAGA in performing this administration are commercially sensitive, and therefore cannot be provided.

DEFRA does not hold information on the value of any administrative costs spent by local authorities on Warm Front.

Home Energy Efficiency Scheme: Finance

Justine Greening: To ask the Secretary of State for Environment, Food and Rural Affairs what the total budget was for the Warm Front Grant scheme in the financial years *(a)* 2003-04, *(b)* 2004-05, *(c)* 2005-06, *(d)* 2006-07 and *(e)* 2007-08, broken down by local authority area. [195123]

Mr. Woolas: The total Warm Front budget for the years requested is outlined as follows:

Scheme year	*Approximate total spend/budget (£ million)*
2003-04	164
2004-05	166
2005-06	192
2006-07	320
2007-08	350

Because Warm Front is a national scheme, budgets are not allocated to individual local authority areas.

Lynne Jones: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent on the Warm Front scheme in each year since its inception; and what funding has been allocated to the scheme in each of the next three years. [195293]

Mr. Woolas: Warm Front spend since the scheme's inception in 2000 is as follows:

Scheme year	*Approximate total spend/budget (£ million)*
2000-01	72
2001-02	197
2002-03	163
2003-04	164
2004-05	166
2005-06	192
2006-07	320
2007-08	350

Warm Front's budget for the 2008-11 period is approximately £800 million. However, the yearly breakdown over this period has not yet been finalised.

Housing: Energy

Lynne Jones: To ask the Secretary of State for Environment, Food and Rural Affairs whether spending on the Green Homes Service will be additional to spending on Warm Front; and what budget has been allocated to the service in each of the next three years. [195294]

Mr. Woolas: We will be providing over £100 million in the next three years to the Energy Saving Trust to develop a proactive Green Homes Service, based on a regional network of "one-stop shops". The service will provide advice not only on energy efficiency but also on microgeneration, water efficiency, recycling and greener travel, and easy access to an energy audit and the full range of discounted and free offers available. The funding will be additional to spending on Warm Front.

Pest Control: Devon

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make available funds from within existing budgets for home owners in Devon to erect electric fences and other measures to repel badgers. [194676]

Jonathan Shaw *[holding answer 20 March 2008]:* DEFRA has no plans to make funds available for home-owners in Devon to erect electric fences or other measures to repel badgers.

Planning Permission: Upchurch

Derek Wyatt: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with the Environment Agency on usage of Four Gun Field in Upchurch, Sittingbourne. [195636]

Joan Ruddock *[holding answer 20 March 2008]:* The Environment Agency has not been approached regarding this site. However, it has had discussions with the Swale borough and Kent county councils.

Ports: Inspections

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how many staff were based in each of his Department's port offices in each year since 1997; and if he will make a statement. [193200]

Jonathan Shaw: The retrospective information is not readily available and could be provided only at disproportionate costs.

The current staffing levels in each of the port offices is as follows:

	Number
North Shields	10
Amble	3
Hartlepool	2
Whitehaven	2
Fleetwood	5
Grimsby	7
Scarborough	8
Kings Lynn	2
Lowestoft	6
Harwich	2
Hastings	5
Shoreham	4
Poole	6
Portsmouth	2
Plymouth	9
Brixham	8
Newlyn	9
Penryn	4

We have not included details of fishery officer staff based in Wales as they transfer to the Welsh Assembly Government on 1 April 2008. Administrative staff based in Wales are already employees of the Welsh Assembly Government.

Information on previous years is not readily available and could be provided only at disproportionate cost.

Resomation

Tim Loughton: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the environmental benefits of the disposal of bodies via resomation; and if he will make a statement. [195155]

Mr. Woolas: At present we are unable to give an indication of environmental risk. To do this the companies providing this service would need to supply a detailed analysis of the products from the process and to liaise with the appropriate regulator.

Rural Payments Agency: Consultants

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs how much the Rural Payments Agency has spent on external consultants in each of the last three years; and what the cost was of each engagement. [188008]

Jonathan Shaw *[holding answer 21 March 2008]:* The amounts spent on external consultants by the Rural Payments Agency in each of the last three years are shown in the following table:

£

	Financial Year			
Supplier name	*2005-06*	*2006-07*	*2007-08*	*3 year totals*
Atos Consulting	—	—	100,000	100,000
Black & Veatch	473,127	—	—	473,127
Corven	—	277,159	—	277,159
Gartner	47,811	318,886	502,954	869,651
Helm	—	1,836,392	—	1,836,392
Logica	931,254	459,816	237,090	1,628,160
OEE	—	—	54,814	54,814
Outside Insight	—	—	19,008	19,008
Youll Consulting	—	2,979	—	2,979
Annual totals	1,452,192	2,895,232	913,866	5,261,290

FOREIGN AND COMMONWEALTH OFFICE

Iran

11. **Mr. Swayne:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the recent election results in Iran and their likely impact on UK-Iran relations. [196054]

Dr. Howells: The parliamentary elections in Iran were neither free nor fair. Over a third of all prospective candidates were disqualified by the so-called Guardian Council prior to the elections. The people of Iran were denied their democratic right to choose freely from the full range of political views.

Iran needs to take action to address international concerns, including the democratic shortcomings and lack of fundamental freedoms inside the country.

Burma

12. **Ann Clwyd:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in Burma. [196055]

Meg Munn: The Government continue to be deeply concerned by the political situation in Burma. The regime's proposed referendum on a new constitution in May, and elections in 2010, will not bring peace, stability and national reconciliation to Burma. By excluding the opposition and the ethnic groups, the process will entrench division rather than unite Burma. The regime has made no progress towards meeting the demands set out by the UN Security Council in October 2007.

Pakistan

13. **Mr. Carmichael:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the political situation in Pakistan. [196056]

Dr. Howells: Parliamentary and provincial elections took place in Pakistan on 18 February. It was an important opportunity for the people of Pakistan to exercise their democratic voice. The political parties—Pakistan Peoples Party, Pakistan Muslim League-Nawaz and Awami National Party—have said publicly that they will form a coalition and work together. A new assembly has been called and elections for the speaker took place on 18 March. The announcement of the new Prime Minister is expected soon.

US Ballistic Missile Defence Programme

14. **Tim Farron:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the US Administration on development of their ballistic missile defence programme in the UK. [196057]

Dr. Howells: I refer the hon. Member to chapter 4, section 4.68 of the recently published National Security Strategy which deals with the United Kingdom's response to the current and emerging security challenges. We already contribute to ballistic missile early warning through the facilities at RAF Fylingdales and RAF Menwith Hill, and we regularly discuss with the US ongoing support.

Israel

15. **Bob Russell:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many representations he has made since 1 January 2008 to the Government of Israel on Israeli action against the Palestinian community. [196058]

Dr. Howells: The UK makes regular representations to the Government of Israel regarding their actions in the Occupied Palestinian Territories via the UK embassy in Tel Aviv and the Israeli embassy in London. My right hon. Friend the Foreign Secretary has made numerous public statements and personally spoken to members of the Israeli Government, including Foreign Minister Livni and Defence Minister Barak, six times since January 2008 on this issue.

Tibet

16. **Mr. Robathan:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the Government's response to the recent events in Tibet. [196059]

David Miliband: I refer the hon. Member to the reply I gave to the hon. Member for North Wiltshire (Mr. Gray) today (UIN 196052).

21. **Ben Chapman:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in Tibet. [196065]

Meg Munn: We remain concerned about the situation in Tibet. We understand an uneasy calm has returned to streets of Lhasa though unrest has spread to surrounding regions. We continue to urge the Chinese to respect fully the human rights of those detained; to avoid use of excessive force in dealing with riots; and to respect freedom of expression and religion in Tibet. And we have called on the protesters, in Lhasa and elsewhere, to desist from further violence. We believe the best way to resolve the situation is for dialogue without pre-conditions, working towards a long-term solution acceptable to everyone.

Belize-Guatemala: Border Dispute

17. **Chris Ruane:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on the statement on the border dispute between Belize and Guatemala; and if he will make a statement. [196060]

Meg Munn: UK policy is to reduce the likelihood of conflict on the Belize-Guatemala border and to encourage settlement of the dispute through arbitration or negotiation.

We do this through our contacts with both Governments and by supporting confidence building measures, designed to reduce the potential for conflict. These aim to improve links between the two countries and by providing impartial investigation and mediation of border incursions and other incidents.

Turks and Caicos Islands

18. **Jeff Ennis:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the future of the Turks and Caicos Islands. [196061]

Meg Munn: The UK Government have good relations with the Turks and Caicos Islands, an overseas territory. This is based on the 1999 White Paper, Partnership for Prosperity, which includes the right of each territory to remain British if this is the wish—freely and democratically expressed—of their people.

Russia

19. **Mr. Ian Taylor:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on UK relations with Russia. [196062]

Mr. Jim Murphy: Close engagement with Russia is important to the successful achievement of a wide range of the Government's international priorities, including climate and energy security, as well as Kosovo and Iran. The UK/Russia bilateral trade and investment relationship is vibrant and growing. We want to build an effective partnership with Russia, which furthers our national interest and principles.

Colombia

20. **Sandra Osborne:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in Colombia. [196063]

Dr. Howells: Colombia has suffered a devastating internal armed conflict in the past 40 years. We want all Colombian citizens, including trade unionists and human rights defenders to live free of fear of violence, murder and kidnapping. We are helping the Colombian Government and working closely with civil society in Colombia to protect and promote the rights of all Colombians.

Sri Lanka

22. **Joan Ryan:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in Sri Lanka. [196066]

Dr. Howells: My right hon. Friend the Foreign Secretary recently stated that a sustainable solution to the conflict can only emerge through just political processes involving all communities and not through violence. We support efforts by the All-Party Representative Committee to devise a political solution. We would also welcome fresh thinking on solutions that satisfy the legitimate aspirations of all communities.

EU-Russian Relations

23. **Tony Lloyd:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on EU-Russian relations. [196067]

Mr. Jim Murphy: The EU and Russia share common interests and face common challenges. A comprehensive relationship based on trust should be our objective. EU support for the UK over Litvinenko and the British Council shows that it can. The best way to secure the relationship is through talks on a successor to the current Partnership and Co-operation Agreement.

Albania

Mr. Chaytor: To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on Albania's request to participate in the forthcoming NATO summit in Bucharest. [196048]

Mr. Jim Murphy: The UK's policy is to firmly support Albania's North Atlantic Treaty Organisation membership application. Should a membership invitation be extended to Albania at the Bucharest Summit it will be invited to a short extraordinary meeting of the North Atlantic Council to welcome the start of the accession process.

Admiralty House

Mr. Pickles: To ask the Secretary of State for Foreign and Commonwealth Affairs what expenditure his Department has incurred on the ministerial flat in Admiralty House occupied by the right hon. Member for Ashfield (Mr. Hoon) since he vacated the property. [195254]

Meg Munn: The Foreign and Commonwealth Office has incurred no expense on the ministerial flat occupied by my right hon. Friend the Member for Ashfield (Mr. Hoon) since he moved out of Admiralty House on 30 June 2006.

China: Arms Trade

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the effectiveness of the EU-China arms embargo; what his policy is on proposals to end the embargo and place the arms trade with China under a strengthened EU Code of Conduct; when he expects these proposals will next be discussed at the General Affairs and External Relations Council; and if he will make a statement. [195024]

Meg Munn: The EU-China Arms Embargo and EU Code of Conduct are separate. The European Council text on the embargo is politically binding and does not have the force of law. The embargo is narrowly defined by most major European exporters as covering lethal exports only. The UK's interpretation of the embargo was set out in a written answer the then Minister of State, Foreign and Commonwealth Office (Mr. Derek Fatchett) gave to the then Member for Reading East (Jane Griffiths) on 3 June 1998, *Official Report*, columns 246-47W. The EU Code of Conduct is the primary means of controlling arms sales and the UK regularly meets with its EU partners to discuss, enforce and strengthen it.

There is currently no consensus within the EU to end the arms embargo. The European Council in December 2003 agreed to launch a review of the embargo, which is still under way. The matter was last discussed by EU Foreign Ministers at the EU General Affairs and External Relations Council (GAERC) on 13 December 2005. The embargo will not be discussed at the next GAERC and is not scheduled to be discussed in the near future. As set out in the December 2004 European Council Conclusions, the result of any decision on the embargo should not be an increase in arms exports from EU member states to China, either in quantitative or qualitative terms. The Government continue to fully implement the embargo.

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the extent of China's arms trade with Sudan; what estimate he has made of the value of that trade; and if he will make a statement. [195025]

Meg Munn: The UK does not keep comprehensive information about arms sales other than where the UK is an exporter. Sudan is subject to an EU arms embargo for all of Sudan and a UN embargo (UN Security Council Resolution 1591) for all arms in Darfur, but not the rest of Sudan.

We have told the Chinese that arms supply to countries such as Sudan fuels rather than resolves conflict and we are urging China to apply the UN arms embargo more strictly, and use their influence with all parties for a peaceful resolution of the Darfur conflict.

China: Tourism

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Chinese authorities on the indefinite closing of access to Mount Everest for climbers. [195857]

Meg Munn *[holding answer 20 March 2008]*: We are aware that China has placed temporary restrictions on access to Mount Everest citing concerns over overcrowding and increasing environmental pressures. We will continue to monitor this situation and consider appropriate action. In the meantime, we continue to raise our concerns with the Chinese authorities about the events in Tibet and in the surrounding regions and we urge them to respect the rights of their citizens to express their political and religious views peacefully.

Departmental Intranet

Mr. Stephen O'Brien: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 18 February 2008, *Official Report*, column 170W, on the departmental intranet, how many Wikipedia entries have been *(a)* created and *(b)* amended (i) by officials who are not special advisers or communications officials and (ii) from departmental IP addresses. [195202]

Meg Munn: This information is not held centrally and to collate it would incur disproportionate cost. If the Foreign and Commonwealth Office should decide to create or alter Wikipedia entries, any such input would be done in accordance with the civil service code. This states that civil servants should: "use resources only for the authorised public purposes for which they are provided" and "make sure public money and other resources are used properly and efficiently".

Departmental Official Residences

Mr. Jeremy Browne: To ask the Secretary of State for Foreign and Commonwealth Affairs how many ministerial residences were available to his Department's Ministers in each of the last 10 years. [183180]

Meg Munn: I refer the hon. Member to the reply my hon. Friend the Parliamentary Secretary, Cabinet Office (Mr. Watson) gave to him on 19 February 2008, *Official Report*, column 688W.

For each of the past 10 years the residence 1 Carlton Gardens has been available to my right hon. Friend the Foreign Secretary.

Mr. Pickles: To ask the Secretary of State for Foreign and Commonwealth Affairs what expenditure his Department has incurred in relation to the ministerial residence at 1 Carlton Gardens since the last resident vacated the property. [195253]

Meg Munn: Since 1 October 2007 the Foreign and Commonwealth Office (FCO) has spent £11,629.24 on the residence including expenditure on planned mechanical and electrical maintenance and facilities management charges. Other expenditure for the residence, which cannot be separated from the wider charge for the whole of 1 Carlton Gardens which continues to be used for official functions and meetings, totals £53,423.05 for the same period. This includes payment for rent and utilities. Security for 1 Carlton Gardens is included in the guarding contract for the FCO's UK estate; expenditure cannot be broken down by premises.

Departmental Pensions

David Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many and what percentage of staff in his Department were making additional voluntary contributions to their pensions in each of the last two years. [193565]

Meg Munn: 588 UK-appointed members of staff in the Foreign and Commonwealth Office (9.7 per cent. of the total) were making additional voluntary pension contributions through deductions from their pay in February 2007. This has decreased to 585 members of staff (9.8 per cent. of the total) who were making additional voluntary pension contributions through deductions from their pay in February 2008.

Durban II

John Mann: To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on objectives PC1/13 numbers 1 and 4 of the Preparatory Committee for Durban II on reviewing progress and sharing best practice. [194097]

Meg Munn: Along with EU partners, we were able to join consensus on the objectives for the Durban Review Conference contained in decision PC.1/13 of the first session of the Preparatory Committee for the Durban Review Conference.

We want the Durban Review Conference to assess how states have implemented the 2001 Durban Declaration and Programme for Action. This should be fundamental to the purpose of the conference. We therefore accepted at the August 2007 Preparatory Conference the need to review progress on implementation of relevant international agreements to which the UK is a party.

The UK has replied to a questionnaire to member states of the UN prepared by the Office of the UN High Commissioner for Human Rights, which included detailed information on how the UK combats racism, racial discrimination, xenophobia and related intolerance. We will seek opportunities to promote UK practice in combating all forms of intolerance through the Durban Review Conference.

EC Institutions: Accountancy

Mr. Shepherd: To ask the Secretary of State for Foreign and Commonwealth Affairs for what reasons the official auditors have failed to approve the accounts of the European Union in recent years; for how long these refusals have been applied; and what steps are being taken by the EU to change its practices so that the accounts can be approved. [195359]

Mr. Jim Murphy *[holding answer 18 March 2008]*: As my right hon. Friend the Financial Secretary to the Treasury set out on 28 January in the annual debate on the European Court of Auditor's (ECA) report into the EU's finances, since 1994 the ECA has been required to provide a

"declaration of assurance"

on the EU's accounts. Since that date this has not been possible. Much of the ECA's difficulty in giving a positive statement of assurance arises from those areas of spending, which are jointly managed by the European Commission and member states, amounting to almost 80 per cent. of EU budget spending in 2006. Improvements have been made in recent years.

This Government are determined to ensure that EU funds are always used properly and efficiently. The UK is one of four member states, along with the Netherlands, Denmark and Sweden, that has proactively increased national audit requirements on EU spending and parliamentary scrutiny. The UK will be publishing its first consolidated statement and audit opinion in the spring, in respect of 2006-07.

A number of measures have been taken to improve the planning, management and control of the EU's budget. This includes a new financial regulation setting out rules for spending and the implementation of the Commission's Action Plan towards an Integrated Internal Control Framework. The 2008-09 EU budget review will be an important opportunity to look again at the accounting and financial management framework of the EU's budget to ensure stronger financial management.

EU Common Foreign and Security Policy

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what the mechanism is for resolving any disagreements between the Government and the European Union concerning the common security policy. [195286]

Mr. Jim Murphy: As the Lisbon treaty makes clear, all substantive decisions regarding the Common Security and Defence Policy are taken by Council acting in unanimity. The Government work with their European partners to develop a consensus on the issues that come to Council. If, however, member states are unable to agree on a particular issue, then there will be no Common EU policy on that issue.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the President of the European Council will have the ability to make decisions affecting the common security and defence policy without reference from the Council. [195287]

Mr. Jim Murphy: The President of the European Council has no role in making defence decisions. The Lisbon treaty makes clear "decisions relating to the common security and defence policy, including those initiating a mission as referred to in this Article, shall be adopted by the Council acting unanimously on a proposal from the High Representative of the Union for Foreign Affairs and Security Policy or an initiative from a Member State".

Gaza: Hamas

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what steps he *(a)* has taken and *(b)* plans to take at the United Nations on the compliance of Hamas with international law in Gaza; and if he will make a statement: [194353]

(2) what steps he *(a)* has taken and *(b)* plans to take at the United Nations on the use by Hamas of human shields in Gaza; and if he will make a statement. [194354]

Dr. Howells: The UN Security Council has held a number of meetings on this issue in recent weeks during which the UK has reiterated its condemnation of the firing of rockets by Hamas against civilian areas in southern Israel, from civilian areas in Gaza. While we will continue to make our views clear, we are not planning to take specific action. On 4 March, my right hon. Friend the Foreign Secretary discussed the situation in Gaza with the UN Secretary-General.

A number of UN Security Council Resolutions on Israel/Occupied Palestinian Territories call on the Palestinians to end terrorism and stress the need to respect international humanitarian law.

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions *(a)* he, *(b)* Ministers and *(c)* officials in his Department have had with (i) Arab states and (ii) the government of Israel on (A) the compliance of Hamas with international law in Gaza and (B) the use by Hamas of human shields in Gaza; what response was received from each; and if he will make a statement. [194355]

Dr. Howells: My right hon. Friend the Foreign Secretary, Foreign and Commonwealth officials and I regularly discuss issues connected with the Middle East Peace Process with counterparts and senior government figures and officials in the region. The Government have made their position on Hamas, its policies and its activities clear. The international community continues to urge Hamas to renounce violence, recognise Israel and accept existing agreements and obligations, including the Roadmap. As such, Hamas compliance with international law has not been part of the discussions.

Indonesia: Religious Freedom

Mr. Breed: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of the action taken against Rev Bedali Hulu in Indonesia; and if he will make a statement. [195108]

Meg Munn: We are aware of reports of attacks against the house of Reverend Bedali Hulu and the difficulties facing his congregation from the Jakarta Christian Baptist Church. Christians in Indonesia, in general, enjoy a high degree of religious freedom. Their right to worship is protected under the Indonesian constitution. Regrettably there are sporadic incidents of inter-religious violence in certain areas. We continue to call for religious tolerance across Indonesia.

Malta: Health Services

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* he, *(b)* Ministers in his Department and *(c)* officials have had with the Governments of (i) Malta and (ii) Poland on their dissent from the line adopted by the European Union on reproductive health at the United Nations Commission on the Status of Women meeting in New York; and if he will make a statement. [194249]

Mr. Jim Murphy: My right hon. Friend the Foreign Secretary and Foreign and Commonwealth Office Ministers have had no direct contact with their Maltese and Polish counterparts during the Commission on the Status of Women (CSW) meeting in New York. During the CSW UK officials spoke alongside a number of other EU partners to defend language that has previously been agreed by the EU on sexual and reproductive health rights.

Written Answers to Questions

Wednesday 26 March 2008

LEADER OF THE HOUSE

Members: Second Homes

Mr. Frank Field: To ask the Leader of the House how many hon. Members claim for a second home *(a)* in London and *(b)* in their constituency. [195741]

Helen Goodman: Hon. Members are entitled to claim the additional costs allowance when staying away from their main home on parliamentary business. The allowance may be used for help with the cost of purchase or rental of a property, or for hotel or other overnight costs. In 2006-07 441 Members claimed the allowance for staying in London and 148 in their constituency.

OLYMPICS

Departmental Information Officers

Mr. Jeremy Browne: To ask the Minister for the Olympics how many *(a)* press and *(b)* communications officers were employed to promote (i) the bid for and (ii) the hosting of the 2012 Summer Olympics in each year for which figures are available. [182511]

Tessa Jowell: There were no press officers employed in the Department for Culture, Media and Sport solely to work on the Olympic bid. Subsequent to London winning the bid, the Department has employed the following numbers of press officers to work on the Olympics:

	Press officers
2005-06	2
2006-07	3
2007-08	3

The Department does not have a "communication officer" grade. The "White Book" of contacts in Government Departments and agencies contains listings for the Department and the book is updated twice yearly.

NORTHERN IRELAND

Criminal Justice and Policing

8. **Mr. Harper:** To ask the Secretary of State for Northern Ireland what progress has been made on devolution of criminal justice and policing to Northern Ireland; and if he will make a statement. [195504]

Mr. Woodward: I refer the hon. Gentleman to the answer I gave earlier to the hon. Member for Vale of York (Miss McIntosh).

Fuel Smuggling

9. **Mr. Stephen O'Brien:** To ask the Secretary of State for Northern Ireland what recent assessment he has made of the level of fuel smuggling in Northern Ireland. [195506]

Paul Goggins: I refer the hon. Gentleman to the answer I gave earlier to the hon. Member for Clwyd, West (Mr. Jones).

Policing Budget

10. **David Simpson:** To ask the Secretary of State for Northern Ireland what the policing budget for Northern Ireland is in 2007-08; and if he will make a statement. [195507]

Paul Goggins: The allocation made to the Northern Ireland Policing Board in respect of policing in 2007-08 amounts to £1.231 million.

Security Situation

11. **Mr. Bellingham:** To ask the Secretary of State for Northern Ireland what recent assessment he has made of the security situation in Northern Ireland; and if he will make a statement. [195508]

Mr. Woodward: The security situation in Northern Ireland has been dramatically transformed, not least because of the historic agreement reached exactly one year ago today by the right hon. Member for North Antrim (Rev. Ian Paisley) and the hon. Member for Belfast, West (Mr. Adams).

Abortion

12. **Mark Pritchard:** To ask the Secretary of State for Northern Ireland whether he plans to introduce new legislation on abortion in Northern Ireland. [195509]

Paul Goggins: The Government have no plans to amend the law on abortion in Northern Ireland.

Departmental Official Visits

David Simpson: To ask the Secretary of State for Northern Ireland what the cost was of overnight accommodation for *(a)* civil servants, *(b)* special advisers and *(c)* Ministers in his Department staying overnight in (i) mainland Great Britain, (ii) Northern Ireland, (iii) the Republic of Ireland and (iv) other countries in the last 12 months. [193536]

Mr. Woodward: The Northern Ireland Office does not record the costs of overnight accommodation in the format requested. This information can be provided only at disproportionate cost.

Driving Offences: Sentencing

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many *(a)* arrests and *(b)* convictions for drink-driving offences resulted in a custodial sentence in each of the last 10 years, broken down by (i) specific offence, (ii) age and (iii) sex. [194756]

Paul Goggins: Table 1 sets out the number of arrests for drink driving offences from 1998 to 2007. Breakdown by gender is available from 2002-07. However, the only information recorded on age is the average age of those arrested.

Table 2 sets out the number of convictions for drink driving offences which have resulted in a custodial sentence in each of the last 10 years, 2006 being the latest available.

Table 3 sets out the number of convictions for drink driving offences resulting in a custodial sentence categorised by age in each of the last 10 years, 2006 being the latest available.

Table 4 sets out the number of convictions for drink driving offences resulting in a custodial sentence categorised by gender in each of the last 10 years, 2006 being the latest available.

Table 1: Breakdown of number of arrests 2002-07

	Male	*Female*	*Average age*
2007	3,866	478	33
2006	4,145	512	33
2005	3,992	443	34
2004	3,489	388	34
2003	3,142	349	33
2002	2,145	283	32

Total number of arrests 1998 to 2001

	Number
2001	4,271
2000	5,284
1999	5,025
1998	4,711

Table 2

Offence	*2006*	*2005*	*2004*	*2003*	*2002*	*2001*	*2000*	*1999*	*1998*	*1997*
In charge of vehicle while under the influence of alcohol/drugs	0	0	0	0	0	0	0	0	0	0

Total	24	28	19	31	14	23	21	36	28	27

PSNI data on numbers of arrests are not directly comparable with statistics on convictions, as the offence recorded initially may differ from that which is used in court.

Ministerial Policy Advisers

Mr. Maude: To ask the Secretary of State for Northern Ireland (1) when Mr. Phil Taylor formally ended his employment as a special adviser to the Northern Ireland Office; [191031]

(2) what the employment status was of special adviser to the Northern Ireland Office, Mr. Phil Taylor while working on a Labour Party deputy leadership campaign; and if he will make a statement. [191034]

Mr. Woodward: Mr. Phil Taylor ceased to be employed by the Northern Ireland Office on 28 June 2007.

Special advisers working in the Northern Ireland Office were aware of the Special Adviser Code of Conduct and the additional guidance issued by the Cabinet Secretary in December 2006.

HOUSE OF COMMONS COMMISSION

Fairtrade Initiative

John Battle: To ask the hon. Member for North Devon, representing the House of Commons Commission if the Commission will provide for the stocking of Fairtrade bananas in House cafeterias. [196223]

Nick Harvey: The House of Commons Catering and Retail service stocks Fairtrade bananas from time to time and in particular during Fairtrade fortnight, which ran from 25 February to 7 March 2007.

Despite extensive research of the market, however, it has proven exceptionally difficult to source a supplier able to supply Fairtrade bananas in the relatively small quantities required by the Catering and Retail service. Most Fairtrade bananas are purchased at source by the major supermarkets and those that are available on the wholesale fruit market in London generally have a minimum order level of one pallet (540 kg) per delivery, which is far more than we can reasonably use or store.

INTERNATIONAL DEVELOPMENT

Africa: International Assistance

Tom Levitt: To ask the Secretary of State for International Development what assessment he has made of the potential role of international companies in promoting development in Africa; and what steps he is taking to promote and co-ordinate such involvement. [194578]

Mr. Thomas: International companies have a key role in contributing towards development and economic growth in Africa through investment, job creation and their contribution to Government revenues by paying taxes.

The UK Government work with developing country governments and international agencies to create an environment that supports the growth of business by supporting reforms that allow markets to work with greater efficiency and fairness. The UK Government also promote adherence to the OECD Guidelines on Multinational Enterprises which set out the standards on issues such as employment and industrial relations, the environment and corruption that OECD governments expect business to adhere to when they invest overseas.

Companies can also use their core business to deliver better development outcomes. The Department for International Development (DFID) is working with companies that have signed up to the Prime Minister's Millennium Development Goals (MDGs) Call to Action to develop concrete initiatives which apply core business, skills, and expertise to enhance growth and wealth creation to help meet the MDGs.

Developing Countries: Water

Mr. Jim Cunningham: To ask the Secretary of State for International Development what steps his Department has taken to reduce conflict over water in developing countries. [196894]

Mr. Thomas: The Department for International Development (DFID) recognises the importance of promoting co-operation over water resources to reduce the risk of conflict. DFID provides support to programmes in Africa, the Middle East and South Asia that reduce conflict over water resources. DFID is also increasing funding to support countries to manage the effects of climate change, which will improve the management of water and reduce the risks of conflict as resources become more scarce.

In the Middle East, DFID provides support to the EXACT programme (part of the multilateral track of the Peace process), to improve regional management of groundwater pollution. In Sudan, DFID is providing £1 million for the development of an integrated water resources management plan to improve co-operation over scarce water resources and help build sustainable livelihoods. We have provided £14 million to the Nile Basin Initiative that supports co-operation among the countries that share the waters of the Nile. DFID has also recently agreed to provide initial funding to the South Asia Water Initiative to promote co-operation over water in one of the world's most volatile regions. We continue to consider other requests for support to improve the management of water to help reduce conflict at regional levels and in countries.

EU Aid: Food

Angus Robertson: To ask the Secretary of State for International Development what discussions *(a)* he, *(b)* his officials and *(c)* UK representatives in Brussels have had with (i) members and (ii) representatives of the EU Commission on the additional €160 million funding announced to supplement EU food aid; what assessment his Department has made of the planned distribution of these additional funds; whether his Department was consulted in the process of reaching this decision; and if he will make a statement. [192972]

Mr. Thomas: The European Commission's €160 million operational plan for food aid to meet the food needs of approximately 18,675,000 people was discussed with member states at the Humanitarian Aid Committee (MAC) on 13-14 December in Brussels. DFID received the papers about the decision but was not represented at this meeting.

Following the Humanitarian Aid Committee in December the operational plan for food aid was adopted by the European Parliament on 19 February.

These funds form part of the €223 million food aid budget under the European Commission's Humanitarian Regulation. They take account of expected increases in humanitarian demand due to climatic shock, the decreasing availability of food, the impact of recent food price rises and the reducing incomes of the most vulnerable groups.

DFID subsequently reviewed the operational plan and is confident that the allocation is appropriate and will be spent where there is genuine need.

Angus Robertson: To ask the Secretary of State for International Development what discussions *(a)* he, *(b)* his officials and *(c)* UK representatives in Washington DC have had with (i) members and (ii) representatives of the US Administration on the possible matching of the increase in EU food aid by the US; and if he will make a statement. [192973]

Mr. Thomas: Our UK representatives in Washington understand that there is no move to increase budgets or overhaul the structure of US food aid.

There are also no current plans to increase EU food aid. I refer the hon. Member to the answer I gave him today (UIN 192972).

Global Plan to Stop TB

Andrew George: To ask the Secretary of State for International Development how much his Department has allocated to the Global Plan to Stop TB 2006-15 since the programme was launched; what progress has been made towards the targets in the Plan to Stop TB; and how much of the funding required to implement the Global Plan has been *(a)* identified and *(b)* spent. [194960]

Gillian Merron *[holding answer 17 March 2008]:* The Global Plan to Stop Tuberculosis (TB) lays out the actions and resources needed to achieve its target to halve TB prevalence and deaths by 2015. It does not receive funding directly but acts as an umbrella organisation for those involved in TB control.

The World Heath Organisation estimates that globally the number of new cases of TB is falling slowly (less than 1 per cent. a year) and the reported treatment success rate is now 85 per cent.

When launched in 2006, the Global Plan to Stop Tuberculosis (TB) set the overall plan cost at US $56 billion, the estimated funding gap being US $ 31 billion. For its first three years, the Global Plan identified the need for about US $12 billion of which countries have reported US $7.6 billion in available resources.

Global Schools Partnership

Ian Lucas: To ask the Secretary of State for International Development pursuant to the answer of 11 March 2008, *Official Report*, column 284W, on Global Schools Partnership, how many of the participating schools in Wales were from each local authority in Wales. [195032]

Mr. Malik: The breakdown, by local authority, of Welsh schools participating in the DFID Global School Partnerships (DGSP) programme in the period 1 April 2005 to 29 February 2008 is as follows:

Local authority	*Eligible DGSPs*
Blaenau Gwent	3
Bridgend	2
Caerphilly	6
Cardiff	8
Carmarthenshire	9
Ceredigion	7
Conwy	3
Denbighshire	13
Flintshire	2
Gwynedd	6
Isle of Anglesey	9
Merthyr Tydfil	4
Newport	2
Pembrokeshire	5
Rhondda, Cynon, Taff	8
Swansea	3
The Vale of Glamorgan	2
Wrexham	10
Grand total	102

Ipsos MORI

Mr. Pickles: To ask the Secretary of State for International Development what payments his Department has made to Ipsos MORI in the last 24 months; and for what purposes. [194313]

Mr. Malik: The Department for International Development (DFID) has not made any payments to Ipsos MORI during the past 24 months. DFID has recently contracted Ipsos-MORI through the Central Office of Information to research issues around the attitude of the UK public to international poverty.

Overseas Aid

Mr. Jim Cunningham: To ask the Secretary of State for International Development what steps are being taken to ensure that aid given by his Department is spent on the purposes for which it was intended. [196893]

Mr. Malik: The Department for International Development (DFID) always checks three points for each aid programme:

That the funds were paid to the intended recipient;

That the funds have been used for the purposes agreed; and

That the use of the funds has been audited.

DFID checks on the use of funds by requiring recipients to provide audited financial statements and by conducting annual monitoring reviews.

DFID's programme management is supported by regular audits by DFID's internal audit department and the National Audit Office, both providing further evidence of the correct use of aid funds.

FOREIGN AND COMMONWEALTH OFFICE

Commonwealth Scholarship Commission

Ms Keeble: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the Written Ministerial Statement of 13 March 2008, *Official Report*, columns 22-4WS, on FCO scholarships and fellowships, what assessment he has made of the rigour and transparency of selection methods for the *(a)* Commonwealth and *(b)* Chevening Scholarship schemes. [195766]

Mr. Jim Murphy: The selection process for Commonwealth scholars is both rigorous and transparent. The changes we are making to the Chevening scholarship scheme, set out in my right hon. Friend the Foreign Secretary's written ministerial statement of 13 March 2008, *Official Report*, columns 22-24WS, will improve the consistency of the selection of Chevening scholars.

Departmental Contracts

Jim Cousins: To ask the Secretary of State for Foreign and Commonwealth Affairs what the *(a)* objective and *(b)* value was of each contract placed with (i) Deloitte & Touche, (ii) Ernst & Young, (iii) KPMG, (iv) PricewaterhouseCoopers, and (v) PA Consulting by his Department and its agencies in each year since 2004-05. [179022]

Meg Munn: The information requested by my hon. Friend is as follows:

Company/Objective		*Value of contract (£)*
For the Foreign and Commonwealth Office (FCO)		
Deloitte and Touche		
Advice in relation to Private Finance Initiative options for various projects	2004-05	11,300
Ernst and Young		
None	—	—

Company/Objective		Value of contract (£)
KPMG		
IT Strategy Development, Shared Services Banking consultancy, Efficiency Health Check	2006-07	154,429
	2007-08	118,518
PricewaterhouseCoopers		
Provision of Accounting and Auditing services to FCO Resource Accounts and Internal Audit Departments	2004-05	5,000
	2005-06	499,377
	2006-07	112,300
	2007-08	300,000
PA Consulting		
UK Visas Biometric consultancy, Shared Services consultancy, Commercial Partnerships Consultancy and Change Management Support	2004-05	590,579
	2005-06	5,125,928
	2006-07	15,737,004
	2007-08	11,763,173
FCO Services (an Executive Agency of the FCO)		
Deloitte and Touche		
None	—	—
Ernst and Young		
None	—	—
KPMG		
Accountancy services in respect of a Value Added Tax Review (VAT)	2007-08	128,912
PricewaterhouseCoopers		
None		
PA Consulting		
General Management Consultancy Services including those related to the Future Vision and Strategy/Trading Fund Programme	2004-05	193,456
	2005-06	47,400
	2006-07	36,008
	2007-08	3,840,879

The figures in the table represent FCO and FCO Services commitments (i.e. excluding VAT) to these companies during this period and not the actual expenditure against these commitments some of which may be made in subsequent periods. These figures are based on reports produced by Prism, the FCO's financial and management information system. The amounts actually paid against these commitments may differ where VAT is applied. The contracts/services detailed reflect the key services/contracts which these commitments have covered.

These figures also only cover commitments/contracts made in the UK and exclude those made by our missions overseas, which due to currency/exchange rate issues we are not readily able to include here.

Departmental Publications

Mr. Crabb: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will publish the full strategic framework document Better World, Better Britain following his letter to right hon. and hon. Members of 29 February 2008 enclosing a leaflet setting out in brief the new strategy. [196307]

Meg Munn *[holding answer 25 March 2008]:* The key points of the Foreign and Commonwealth Office's (FCO) new strategic framework were set out in my right hon. Friend the Foreign Secretary's written ministerial statement of 23 January 2008, *Official Report*, columns 52-53WS. Additionally, my right hon. Friend the Foreign Secretary wrote to all hon. Members and peers, enclosing a leaflet titled: "Better World, Better Britain", with further information about the strategic framework. Further details will be available on the FCO website (www.fco.gov.uk) from 28 March 2008 and in the forthcoming FCO departmental report.

Departmental Scholarships

Ms Keeble: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written ministerial statement of 13 March 2008, *Official*

Report, column 23WS, on FCO scholarships and fellowships, if he will publish the review. [195650]

Mr. Jim Murphy: I will arrange for a copy of our 2006 review of the Chevening scholarship scheme to be placed in the Library of the House.

Detainees

Mr. Tyrie: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 18 December 2007, *Official Report*, column 1356W, on detainees, what subsequent assessment he has made of the *(a)* adequacy of domestic legislation and international legal instruments and *(b)* future discussions of the Secretary General's proposals by the Committee of Ministers following the Oral Statement on terrorist suspects (renditions) of 21 February 2008, *Official Report*, columns 547-59. [197029]

Dr. Howells: Officials continue to work through the details and implications of the new information received from the US on renditions through Diego Garcia. Once this work is completed we will look again at the proposals of the All-Party Parliamentary Group on Extraordinary Rendition.

The Foreign and Commonwealth Office will continue to take account of any discussions of rendition in the Council of Europe's, Committee of Ministers and will keep UK procedures under review to ensure that they meet the standards we have set and comply with UK domestic law and our international obligations.

Kenya: Politics and Government

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the power sharing agreement in Kenya. [196343]

Meg Munn *[holding answer 25 March 2008]:* We welcome the power-sharing agreement signed by President Kibaki and the Leader of the Opposition, Raila Odinga, on 28 February 2008. We join the international community in thanking Kofi Annan and his team for their outstanding efforts in brokering this deal.

But the hard work must continue. Real leadership, patience and tolerance is necessary to ensure that the agreement sticks and is implemented in full. We welcome signs that this is happening, including the constitutional reforms passed on 18 March 2008 involving creating the office of Prime Minister.

Middle East: Broadcasting

Stephen Hesford: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the effects of transmissions by al-Jazeera and al-Arabiyya on public perception of the UK in the Middle East. [195622]

Dr. Howells: The Foreign and Commonwealth Office employs two Arabic spokespeople: one in London and one in Dubai, both appear regularly on Al-Jazeera and Al-Arabiyya to put forward the UK's position. They monitor and report regularly on how UK issues are covered in the Arab media.

Pakistan: Politics and Government

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will place in the Library a copy of the recent report funded by the British High Commission into public attitudes within the Federally Administered Tribal Areas of Pakistan; and if he will make a statement. [197114]

Dr. Howells: The recently published report "Understanding FATA" examines attitudes towards governance, security, religion and the wider society within the Federally Administered Tribal Areas (FATA). It was produced by Community Appraisal and Motivation Programme, a Pakistani non-governmental organisation, and funded by the cross-departmental conflict prevention pool. It is based on independent polling and research and forms an important contribution to our developing understanding of the FATA—particularly through acknowledging and examining the opinions of the tribal people themselves. A copy will be placed in the Library of the House.

PricewaterhouseCoopers

Mr. Gauke: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department paid to PricewaterhouseCoopers in each financial year since 2000. [180816]

Meg Munn: The amounts paid to PricewaterhouseCoopers in each year were:

	£
2000-01	202,364.53
2001-02	9,350.52
2002-03	0
2003-04	221,801.00
2004-05	5,875.00
2005-06	254,798.76
2006-07	384,196.97
2007-08	[1]297,026.02

[1] To December 2007.

These figures are based on reports produced by Prism, the FCO's financial and management information system. The above include value added tax (VAT), some of which was recoverable VAT. The figures represent Foreign and Commonwealth Office (FCO) and FCO Services payments made during this period. Payments may be made in periods following those in which contractual amounts were previously committed.

The aforementioned figures given only cover commitments/contracts made in the UK and exclude those made by our missions overseas which, due to currency/exchange rate issues, were not readily available to include here.

Russia: TNK-BP

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the police search of TNK-BP and BP-Trading Limited in Russia in March 2008. [197095]

Mr. Jim Murphy: We are aware that on 19 and 20 March, the Russian authorities conducted searches at the Moscow offices of both TNK-BP and BP. Files and computer servers were seized, and company employees were questioned. None of them were UK nationals. We are in touch with the companies and continue to monitor the situation closely. Clearly, we expect any investigations by the Russian authorities to be conducted in full transparency and in accordance with Russian law.

Sudan: Politics and Government

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will encourage the representation of Arab militias in peace talks in Darfur. [196327]

Meg Munn *[holding answer 25 March 2008]:* We have made clear to the UN and African Union (AU) envoys, most recently at the international meeting they hosted in Geneva on 18 March, that we believe civil society and Arab engagement in the political process are essential for an inclusive process and a sustainable settlement.

The UK has filled five key posts in the Darfur-Darfur Dialogue and Consultation, which will be the main mechanism for civil society engagement in the political process and in longer-term reconciliation and rehabilitation in Darfur. We have also committed £1 million to support the AU and UN Joint Mediation Support Team, which is currently focused on encouraging rebel movements to unify further and agree on common platforms ahead of negotiations with the Government of Sudan.

Tibet: Politics and Government

Mr. MacDougall: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the humanitarian situation in Tibet; and if he will make a statement. [196277]

Meg Munn *[holding answer 25 March 2008]:* We do not have access to all the information needed to make an accurate assessment of the humanitarian situation in Tibet. However, we remain seriously concerned about the recent events in Tibet and the surrounding region and continue to closely monitor the situation. We have asked the Chinese authorities for permission for an official, from our embassy in Beijing, to visit Tibet. We have expressed our concern to Chinese authorities both in Beijing and London and have urged them to respect fully the human rights of those detained; to avoid use of excessive force in dealing with riots; and to respect freedom of expression and religion in Tibet.

Mr. MacDougall: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the political situation in Tibet; and if he will make a statement. [196278]

Meg Munn *[holding answer 25 March 2008]:* We remain very concerned about the situation in Tibet and surrounding areas, including reports of loss of life, use of force and damage to property. We understand an uneasy calm has returned to the streets of Lhasa. We continue to urge the Chinese to respect fully the human rights of those detained; to exercise maximum restraint in restoring public order; and to respect freedom of expression and religion in Tibet. We also call on the protesters, in Lhasa and elsewhere, to desist from further violence. My right hon. Friend the Prime Minister spoke to Chinese Premier Wen on 19 March urging the Chinese Government to address the underlying issues by re-engaging in dialogue without preconditions with the Dalai Lama and his representatives. My right hon. Friend the Foreign Secretary also emphasised the need for dialogue when he spoke to Chinese Foreign Minister Yang Jiechi on 21 March.

SCOTLAND

Departmental Advertising

Mr. Hoban: To ask the Secretary of State for Scotland which of his Department's initiatives have been advertised to the public in each of the last 10 years; and what the cost of each such campaign was. [192221]

David Cairns: The Scotland Office was established on 1 July 1999; the Office spent the following on advertising:

	£
1999-2000	26,861
2000-01	270,494
2001-02	186,564
2002-03	10,390
2003-04	0
2004-05	0
2005-06	0
2006-07	17,510

Most of the expenditure in 2000-01 and 2001-02 relates to electoral registration matters. Since 2001, this has been the responsibility of the Electoral Commission.

Departmental Data Protection

Mr. Weir: To ask the Secretary of State for Scotland whether confidential or personal information has been compromised through the loss of property from his Department since 1997. [193446]

David Cairns: The Scotland Office was established on 1 July 1999. Except in exceptional cases, when it is in the public interest, it has been the policy of successive Governments not to comment on breaches of security. However, following the publication of the Data Handling

Procedures in Government: Interim Progress Report on 17 December 2007, *Official Report*, column 98WS, all Departments will cover information assurance issues in their annual reports.

Departmental Pay

Mr. Hoban: To ask the Secretary of State for Scotland what the hourly rates of pay of all non-permanent staff working for his Department were in each of the last 12 months; and how many staff were receiving each rate in each of those months. [196443]

David Cairns: The Scotland Office does not record the information in the form requested.

SOLICITOR-GENERAL

Crime: Victims

Keith Vaz: To ask the Solicitor-General what arrangements have been put in place to improve the level of service given to victims of crime by the Crown Prosecution Service. [195737]

The Solicitor-General: The Crown Prosecution Service's (CPS) commitments to victims of crime are contained within the Prosecutors' Pledge, which was launched by the Attorney-General in 2005, and the Code of Practice for Victims of Crime, which was introduced in April 2006.

The CPS has made significant progress in improving victim and witness care in recent years with the introduction of initiatives such as the Direct Communication with Victims scheme, the Victim Focus Scheme and the 'No Witness No Justice' initiative.

Under the 'No Witness No Justice' initiative, the CPS, working in partnership with the police, has introduced witness care units across England and Wales. From the point of charge until the conclusion of the case, a witness care officer provides a single point of contact for the victim ensuring that information about the case and support is provided to meet the needs of individual victims and witnesses.

Prosecutions

Miss McIntosh: To ask the Solicitor-General how many cases the Crown Prosecution Service has prosecuted in the last three years; in how many instances a conviction was secured; and if she will make a statement. [196256]

The Solicitor-General: The following table shows the number of defendant cases prosecuted in each of the last three years and the number that resulted in a conviction. Convictions are also shown as a proportion of cases completed in each year:

	2005	2006	2007
Total prosecutions	1,156,325	1,098,627	1,071,738
Convictions	946,187	914,245	907,709
Convictions as percentage	81.8	83.2	84.7

The volume of cases has fallen as crime levels have reduced and as increasing numbers of lesser offences have been dealt with by way of a fixed penalty notice, rather than court proceedings. Against this background, the Crown Prosecution Service (CPS) has achieved effective increases in conviction rates, from 81.8 per cent. in 2005 to 84.7 per cent. in 2007.

CULTURE, MEDIA AND SPORT

Art Works: Intellectual Property

Miss McIntosh: To ask the Secretary of State for Culture, Media and Sport what progress has been made in obtaining the indefinite extension of the derogation of artists' resale rights. [191313]

Robert Key: To ask the Secretary of State for Culture, Media and Sport whether it is his policy to obtain the indefinite extension of the derogation which limits the artists' resale rights scheme to the work of living artists only; and if he will make a statement. [191875]

Ian Pearson: I have been asked to reply.

We are in the process of considering the evidence on the impact of artist's resale right on the UK art market, including the derogation. We will be continuing our discussions with the Commission on this issue.

Arts: Resale Rights Scheme

Robert Key: To ask the Secretary of State for Culture, Media and Sport if he will make it his policy that artists should be required to register their names at the beginning of each year on a centrally available database if they wish to exercise their right to receive payment under the artists' resale rights scheme; and if he will make a statement. [191874]

Ian Pearson: I have been asked to reply.

An artist's resale rights under article 1 of Directive 2001/84/EC are inalienable and cannot be waived. It would not therefore be consistent with this Directive to make payments of resale rights dependent upon whether the artist has registered with a database.

Departmental Intranet

Mr. Stephen O'Brien: To ask the Secretary of State for Culture, Media and Sport pursuant to the Answer of 19 February 2008, *Official Report*, column 1296W, on departmental intranet, what the *(a)* creations and *(b)* amendments were referred to in the Answer. [195854]

Margaret Hodge: The following table shows all changes made by staff in DCMS to pages on Wikipedia.

Departmental Video Conferencing

Norman Baker: To ask the Secretary of State for Culture, Media and Sport if he will set a target to increase the use of video-conferencing by his Department to reduce the need to travel to meetings. [195873]

Margaret Hodge: My Department installed a new video-conferencing system as part of the recent refurbishment of our HQ building. This system is already widely used, and we are promoting the use of video-conferencing to staff with the aim of doubling use by 2010.

Heritage Lottery Fund

Ben Chapman: To ask the Secretary of State for Culture, Media and Sport if he will make a statement on the Heritage Lottery Fund's new mentoring scheme. [194743]

Margaret Hodge: The Heritage Lottery Fund (HLF) will launch its third strategic plan in April 2008, with changes and improvements to all its grant programmes. HLF will offer a mentoring service to applicants who need extra help in developing their projects, to increase the capacity and skills of groups applying for grants and to help improve the delivery of projects.

The role of a mentor is to help the organisation and individuals leading the project to achieve the project's aims. Mentors may give general advice on how to carry out the project, specialist advice where a project team lacks particular experience, and guidance on good practice.

WALES

Departmental Sustainable Development

Norman Baker: To ask the Secretary of State for Wales when his Department plans to publish its sustainable operations policy statement. [195892]

Mr. Paul Murphy: My Department is currently establishing a sustainable operations policy.

We already have a robust recycling programme for paper, cans, glass, plastic, cardboard and shredding. We recycled 5,913 kg from April to September 2007. We have been successful in reducing both energy and water consumption, and 100 per cent. of our electricity is supplied from renewable sources.

As soon as the policy is in place the statement will be published on our website.

Departmental Video Conferencing

Norman Baker: To ask the Secretary of State for Wales if he will set a target to increase the use of video-conferencing by his Department to reduce the need to travel to meetings. [195893]

Mr. Paul Murphy: The Wales Office is always looking at ways to reduce the need to travel to meetings. Staff are encouraged to use video conferencing facilities, both in London and Cardiff, for meetings whenever possible and do so on a regular basis.

DEFENCE

Afghanistan: Peacekeeping Operations

Mr. Gray: To ask the Secretary of State for Defence how many Royal Naval ratings are being retrained to act as HGV drivers in Afghanistan. [195954]

Mr. Bob Ainsworth: Currently, 36 Royal Navy ratings are being trained as HGV drivers in preparation for deployment to Afghanistan with three Commando Brigade Royal Marines later this year.

Daniel Kawczynski: To ask the Secretary of State for Defence what estimate he has made of expenditure on British military operations in Afghanistan during *(a)* 2007-08, *(b)* 2008-09 and *(c)* 2009-10. [196114]

Des Browne: The MOD has requested £1.649 billion from the Treasury Reserve to cover the net additional costs of operations in Afghanistan for 2007-08. The Chancellor of the Exchequer announced in his Budget speech that we expect to spend over £2 billion supporting operations in Iraq and Afghanistan in 2008-09. The highly changeable nature of operations means that we are not able to provide an accurate forecast for Afghanistan alone nor any indication of cost for 2009-10.

Daniel Kawczynski: To ask the Secretary of State for Defence what criteria he uses to assess the effectiveness of spending on British military operations in Afghanistan. [196115]

Des Browne: The success of British military operations in Afghanistan (for which the net additional cost is funded from the Treasury Reserve), is judged against military strategic objectives set by the Chief of the Defence Staff.

Progress is reported quarterly by the relevant commander through the Department's formal performance management process (the Defence Balanced Scorecard), which includes endorsement by the Deputy Chief of Defence Staff (Commitments). The Balanced Scorecard is reviewed by the Defence Board. The Defence Board's conclusions are submitted to Ministers and reflected in the Department's quarterly published public service agreement (PSA) reports and in the departmental annual report and accounts.

As part of its review of Departments' SR04 PSA reporting systems, the National Audit Office concluded that the MOD's data system is fit for the purpose of measuring and reporting performance against this target and that it found no weaknesses in the quality of disclosure of Ministry of Defence public performance reports.

Armed Forces: Mental Health Services

Nick Harvey: To ask the Secretary of State for Defence what recent discussions *(a)* he and *(b)* officials from his Department have had with representatives of Global Health Partners on contracts operated by the Priory Group; and if he will make a statement. [195391]

Derek Twigg: Neither I nor officials are aware of any recent discussions with Global Health Partners on contracts operated by the Priory Group.

Cyprus: Armed Forces

Dr. Murrison: To ask the Secretary of State for Defence how many complaints have been received from *(a)* service personnel and *(b)* dependents of service personnel about treatment received after referral by a service doctor to hospitals in Cyprus in each of the last 10 years. [194946]

Derek Twigg: The majority of complaints received by Commander Medical BFC concerning either The Princess Mary hospital (TPMH, based at RAF Akrotiri) or one of the Republic of Cyprus (RoC) medical facilities are resolved locally and to the satisfaction of the complainant. TPMH operate a robust complaints procedure which is based on the equivalent NHS processes.

Records are available for 1999-2007 concerning treatment received in civilian medical facilities in the Republic of Cyprus. In this period there have been a total of 22 complaints (six from service personnel and 16 from dependents) recorded.

	Complaints recorded as being made by service personnel	*Complaints recorded as being made by dependents*
1999	0	1
2000	0	1
2001	0	2
2002	0	1
2003	0	0
2004	0	1
2005	2	5
2006	2	3
2007	2	2

During the same time frame 137 complaints were made against TPMH itself (58 by service personnel and 79 by dependents):

	Complaints recorded as being made by service personnel	*Complaints recorded as being made by dependents*
1999	5	12
2000	5	3
2001	3	7
2002	5	10
2003	10	10
2004	7	9
2005	10	14
2006	7	7
2007	6	7

The incidence of complaints made by service personnel and their dependents concerning medical care in Cyprus (both complaints against RoC medical facilities and TPMH) is broadly comparable to the incidence of complaints received by the NHS in England when allowance for the very different size of patient population is made.

Departmental Public Expenditure

Mr. Gerald Howarth: To ask the Secretary of State for Defence (1) if he will break down, by sub-head in *(a)* near cash and *(b)* non-cash terms his Department's (i) gross resource outturn, (ii) operating appropriations in aid outturn, (iii) gross capital outturn and (iv) non-operating appropriations in aid outturn for financial years 2001-02 to 2006-07; [191679]

(2) what his Department's *(a)* gross resource departmental expenditure limit (DEL), *(b)* operating appropriations in aid, *(c)* net capital DEL and *(d)* non-operating appropriations in aid outturn, broken down in (i) near cash and (ii) non cash terms, was for financial years 2000-01 to 2006-07. [191682]

Mr. Bob Ainsworth: I will write to the hon. Member and place a copy of my letter in the Library of the House.

Substantive answer from Bob Ainsworth to Gerald Howarth:

I undertook to write to you in answer to your Parliamentary Questions on 4 March 2008, *Official Report*, column 2346W and 5 March 2008, *Official Report*, column 2284W, with details on various aspects of Departmental Public expenditure.

Attached at Annex A are tables which provide a detailed breakdown of the Department's outturn for 2001-02 to 2006-07, together with a breakdown of the Department's Spring Supplementary Estimate for 2007-08.

The figures are based on the accounting regime in effect at the time that those accounts were produced. Prior to financial year 2001-02, all Departmental expenditure recorded in the Estimates and accounts was on a cash basis. This data was published in the Estimates reports and end of year Appropriations Accounts, copies of which can be found in the Library of the House. Prior to the introduction of Stage 2 Resource Accounting and Budgeting (RAB) in Financial Year 2003-04 non-cash DEL did not exist as a budgeting aggregate. The non-cash costs were scored to Non-Cash AME.

I am placing a copy of my letter in the Library of the House.

Iraq: Peacekeeping Operations

Nick Harvey: To ask the Secretary of State for Defence how many road side bomb attacks there were in Basra in each year since 2003. [195382]

Des Browne *[holding answer 19 March 2008]:* The number of reported improvised explosive device (IED) attacks in Basra in each year since 2003 is as follows:

	Total
2003	31
2004	115
2005	82
2006	169
2007	296
2008	24

Data for 2003 covers the period after 6 May 2003. The figure for 2008 is for incidents up until 14 March 2008.

These data reflect reported attacks on both military and civilian targets where IEDs have detonated. The figures can only be an estimate of the actual number of such incidents, as, for example, we can never be sure that all attacks, especially against civilian targets, have been reported.

Ministry of Defence Police and Guarding Agency: RAF Fairford

Mr. Clifton-Brown: To ask the Secretary of State for Defence what recent discussions he has had with the US authorities on the level of policing at RAF Fairford by the Ministry of Defence Police. [196388]

Mr. Bob Ainsworth: Discussions are currently taking place between officials and the US authorities on the policing arrangements for RAF Fairford. This is part of a continuing review of security at bases used by the United States visiting force. Any changes in security would not take place without mutual agreement.

Porton Down: Human Experiments

Mr. Todd: To ask the Secretary of State for Defence what settlement has been reached in respect of veterans' claims relating to participation in trials at Porton Down; what the implications of the settlement are for veterans not represented in the claims made; and if he will make a statement. [189696]

Derek Twigg: I will write to the hon. Member and place a copy of my letter in the Library of the House.

Substantive answer from Derek Twigg to Mark Todd:

I undertook to write to you in answer to your Parliamentary Question on 28 February 2008, *Official Report*, column 1808W, about compensation for Porton Down veterans.

Solicitors on behalf of Porton Down veterans issued the Ministry of Defence (MOD) with a letter of claim on 8 March 2007 for alleged illnesses arising from non-therapeutic human experimentation conducted at Porton Down. 244 veterans claiming short term illnesses and 116 claiming long term illnesses formed a Group Action. The majority of claims relate to experiments involving nerve gas, mustard gas or riot control agents.

The matter has been resolved by way of mediation at which the MOD agreed to pay a global settlement of £3 million in full and final settlement to the entire group of 360 veterans and to make an apology by way of a written ministerial statement in the House, which I did on 31 January 2008, *Official Report*, column 26WS. The MOD has therefore paid all known claims from Porton Down veterans.

That said we recognise that more veterans, some of whom decided against joining the Group Action, might come forward. This is despite being assured by the Claimants' solicitors that the Group Action had been publicised and that those who remained in the group had been carefully selected on the basis that each had a meritorious claim for personal injury said to have been caused by exposure to a specific chemical warfare or treatment agent which was supported by expert evidence. I should make clear that the MOD did not compensate individuals for mere attendance at Porton Down.

Against this background, the MOD has decided that it will consider any additional meritorious claims that are made on or before 30 June 2008; after that date, the MOD reserves the right to plead a defence based on the provisions of the Limitation Act 1980.

Any veteran now considering pursuing a claim for compensation might wish seek advice to establish whether they have a reasonable claim against the Department. One option would be to contact the solicitors involved in the Group Action who have considerable experience already in handling such cases. They are:

DUCHY OF LANCASTER

Adventure Capital Fund: Contracts

John Battle: To ask the Chancellor of the Duchy of Lancaster what criteria his Department used in the process which resulted in Adventure Capital Fund being awarded a contract to distribute grant funding; and if he will make a statement. [196228]

Phil Hope: The criteria used to determine the new fund manager for the Futurebuilders programme were:

quality and efficiency of service;

quality of bidding organisation or consortium;

engagement with the Government's aims for the third sector; and

price.

The Cabinet Office used the European Union model known as the "competitive dialogue" process, which allowed the Cabinet Office to discuss its needs and requirements with a pool of potential bidders with the aim of selecting one or more solutions capable of meeting its needs.

The Adventure Capital Fund (ACF) submitted the tender that best met the set criteria for the re-tender and offered best value.

Futurebuilders England: Contracts

John Battle: To ask the Chancellor of the Duchy of Lancaster for what reasons his Department's contract with Futurebuilders England for the distribution of grant funding was not renewed. [196227]

Phil Hope: The tripartite agreement between Cabinet Office, Futurebuilders England and Charity Bank expires on 31 March 2008. In recognition of its success to date, Ministers have decided to continue the programme into a second phase. The second phase of the programme will see the arrangement moving to a bipartite structure, between the Cabinet Office and the fund manager. Under new procurement rules, this required a new tender process. Following this process Cabinet Office have appointed the successful bidder to run the fund from April 2008 to April 2011.

TRANSPORT

Aviation: Exhaust Emissions

Mr. Goodwill: To ask the Secretary of State for Transport what methodology for assigning international aviation emissions to the national emission inventories the Government are advocating in the international negotiations for a post-2012 framework to tackle climate change. [195034]

Mr. Woolas: I have been asked to reply.

DEFRA commissioned a study, published in 2006, which examined what the different allocation methodologies proposed by the UNFCCC Subsidiary Body on Scientific and Technical Advice (SBSTA) would mean to greenhouse gas inventories (UK and all others). No judgement was made on which methodology the UK advocated.

The inventory includes domestic aviation and international aviation as a memo item (using bunker fuel sales to estimate the GHG emission). A recent workshop in Oslo looked at methodological issues with regards to the climate change impact of aviation - it was concluded that whilst it is technically feasible to include international aviation in a post-2012 agreement, there is a political barrier to this at present.

We continue to work with EU and international partners to seek a way through the current political impasse, and very much hope to see it included in future frameworks for tackling climate change.

Departmental Data Protection

Jo Swinson: To ask the Secretary of State for Transport how many confirmed security breaches of databases controlled by her Department occurred in each of the last five years; whether the breach resulted from internal or external sources in each case; how many records were compromised on each occasion; and what estimate was made of the total number of records accessible to the individuals concerned. [173688]

Jim Fitzpatrick: Except in exceptional cases, when it is in the public interest, it has been the policy of successive Governments not to comment on breaches of security. However, following the publication of the "Data Handling Procedures in Government: Interim Progress Report" on 17 December 2007, *Official Report*, column 98WS, all Departments will cover information assurance in their annual reports.

Driver and Vehicle Licensing Agency

Mr. Walker: To ask the Secretary of State for Transport what mechanisms the Driver and Vehicle Licensing Agency uses to check the bona fides of private parking control companies before releasing personal data relating to vehicle owners and operators to them; what steps the Agency takes to assess the uses to which such data is put by such companies; and if she will make a statement. [175771]

Jim Fitzpatrick *[holding answer 7 January 2008]:* In the Secretary of State for Transport's statement to Parliament on 17 December she outlined measures to improve the security of personal data in the context of the Cabinet Secretary's review of data across Government.

She also advised that, to ensure greater clarity of responsibility, the Permanent Secretary has written to senior officials in the Department, including Agency Chief Executives, drawing their attention to current guidance on the application of the Data Protection Act 1998. This includes the main principles of the Act, information on handling personal data appropriately and the role of the Information Commissioner.

New measures for companies requesting information manually were introduced on 1 November 2006, following the review of the release of information from the Driver and Vehicle Licensing Agency's (DVLA) records announced by the then Minister of State for Transport, my hon. Friend the Member for South Thanet (Dr. Ladyman). The use of company headed paper has been replaced by the introduction of two new forms—V888/2 and V888/3. All applications must be supported with a business resume outlining details of the company's operations and provide details of why they want the information and how it will be used, as well as evidence to corroborate their request.

Car park enforcement companies have to confirm that a parking charge scheme is in operation, and provide evidence that they are operating on the instruction of the landowner. All forms contain a note that reminds applicants that it is a criminal offence under Section 55 of the DPA to falsely obtain personal information.

Companies that request and receive data via a secure electronic link do so under strict contractual terms and must firstly complete a six-month probationary period making manual requests, during which time their behaviour in the use of the information is monitored. The level and nature of any complaints is taken into account before an electronic link is established. Since 1 October 2007, all organisations that do not have a statutory regulator are required to be a member of a DVLA Accredited Trade Association (ATA).

An ATA must have a clear, enforceable code of practice (COP) governing the conduct and business practices of their members and will publish that COP on their website, along with a list of their members. ATAs that fail to enforce their COP will lose their accreditation and their members will forfeit their entitlement to request and receive DVLA data electronically.

The Agency has the right to carry out ad-hoc audits on companies to ensure that inquiries are appropriate. Any evidence of abuse will be referred to the Information Commissioner for investigation and, when appropriate, prosecution.

Mr. Laurence Robertson: To ask the Secretary of State for Transport under what circumstances the Driver and Vehicle Licensing Agency may release details of vehicle ownership to private companies; and if she will make a statement. [174659]

Jim Fitzpatrick: In the Secretary of State for Transport's statement to Parliament on 17 December, she outlined measures to improve the security of personal data in the context of the Cabinet Secretary's review of data across Government.

She also advised that, to ensure greater clarity of responsibility, the Permanent Secretary had written to senior officials in the Department, including Agency Chief Executives, to draw their attention to current guidance on the application of the Data Protection Act. This includes the main principles of the Act, information on handling personal data appropriately and the role of the Information Commissioner.

Regulation 27(1)(e) of the Road Vehicles (Registration and Licensing) Regulations 2002 requires the DVLA to release information to any person who can demonstrate 'reasonable cause' to have that information.

The term 'reasonable cause' is not defined in legislation but the DVLA has always taken the view that release should normally be associated with road safety or events occurring as a direct consequence of the use of the vehicle. Everybody that applies for personal information is required to produce evidence that they have 'reasonable cause' for requesting the information.

A full list of the circumstances that the DVLA has, in the past, considered to meet 'reasonable cause' has been published on the DVLA and Direct.gov websites. The website also contains a list of bodies that it has released information to and the names of companies that have approved conditional access (ACA) which allows companies to request and receive information via an electronic link.

Heathrow Airport

Justine Greening: To ask the Secretary of State for Transport how many responses have been received to the Adding Capacity at Heathrow Airport consultation; and how many of these were from *(a)* individuals, *(b)* organisations and *(c)* groups of individuals. [196311]

Jim Fitzpatrick *[holding answer 25 March 2008]:* The 'Adding Capacity at Heathrow Airport' consultation ended on 27 February. We are not yet in a position to provide data on the numbers of responses received or provide any breakdowns.

M1: Bedfordshire

Mrs. Villiers: To ask the Secretary of State for Transport what consideration *(a)* her Department and *(b)* its agencies have given to widening the M1 between junctions 10 and 13; what estimate she has made of the cost to the public purse of such motorway widening; and when she expects such work on widening to commence. [194005]

Mr. Tom Harris: A scheme to widen the M1 between junctions 10 and 13 is currently being prepared by the Highways Agency. Following the publication of the Advanced Motorway Signalling and Traffic Management Feasibility Study on 4 March 2008 we have also asked the Agency to examine whether active traffic management with hard shoulder running might be a cost effective alternative to widening on some sections. The scheme cost and the timetable for works to commence are dependent on the option that we decide to take forward.

M1: M62

Mrs. Villiers: To ask the Secretary of State for Transport what her policy is on widening parts of the M62; what research her Department and its agencies have commissioned on M1/M62 widening and improvements in the last three years; what estimate she has made of the cost of such widening and improvements; and when she expects work to commence on the outstanding sections of the M1/M62 widening and improvements package. [194015]

Mr. Tom Harris: It is our policy to provide targeted improvements on seriously congested sections of the road network, subject to schemes offering value for money and being affordable. The Highways Agency has carried out detailed investigations over the last three years into options for increasing capacity on the M62 between junctions 25 and 28 and on the M1 between junctions 30 and 42. A scheme to widen the M1 between junctions 31 and 32 was opened to traffic in December 2007 and fully complete in February 2008.

In light of the results of the Advanced Motorway Signalling and Traffic Management Feasibility Study published on 4 March, the Highways Agency will be examining whether Active Traffic Management including hard shoulder running would provide a cost effective means of providing additional capacity on the other sections. The scheme cost and delivery timetable are dependent on the options that we decide to take forward for each section.

M6: East Midlands

Mrs. Villiers: To ask the Secretary of State for Transport (1) what estimate she has made of the cost of widening the M6 between junctions 11a and 19; when she expects such work to commence; and whether plans for such widening include *(a)* a stretch of four-laned motorway through the East Midlands, *(b)* climbing lanes for lorries and *(c)* junction improvements; [194006]

(2) what progress has been made on the widening of the M6 between Manchester and Birmingham; and what account she has taken of the potential for hard shoulder running in developing those proposals; [194013]

(3) what steps she is taking on the widening of the M6 between junctions 11a and 19. [194014]

Mr. Tom Harris: The Highways Agency has been preparing proposals for widening the M6 between junctions 11a and 19. However, in light of the findings of the Advanced Motorway Signalling and Traffic Management Feasibility Study published on 4 March, the Agency will carry out a detailed assessment of whether Active Traffic Management, including hard shoulder running, would be a more cost effective method of adding capacity than widening on sections of the M6 between junctions 11a and 19. The assessment will also include examination of the case for climbing lanes and junction improvements. The cost and delivery timetable for these improvements are dependent on the option selected. This section of the M6 does not run through the East Midlands.

Motor Vehicles

Norman Baker: To ask the Secretary of State for Transport when she plans to publish the report of the study of longer, heavier road vehicles commissioned by her Department in December 2005; and if she will make a statement. [195930]

Jim Fitzpatrick: The study was actually commissioned in October 2006. We expect the report to be published shortly.

Motorcycles: Safety Measures

Mr. Todd: To ask the Secretary of State for Transport whether she has made an assessment of the effectiveness of measures for improving the safety of motorcycle users established in the Government's motorcycling strategy; and if she will make a statement. [196081]

Jim Fitzpatrick: The Government's motorcycling strategy includes a wide range of actions. We regularly keep each of these under review, working with motorcycling industry and user groups through the National Motorcycle Council and its four sub-groups.

Railways

Stephen Hammond: To ask the Secretary of State for Transport what estimate she has made of the *(a)* cost and *(b)* time required to complete high speed rail links from London to (i) Birmingham, (ii) Manchester and (iii) Scotland. [195176]

Mr. Tom Harris *[holding answer 19 March 2008]:* In developing the July 2007 Rail White Paper, the Department for Transport commissioned work on various inter-urban capacity options. One element of this work suggested a high-speed line between London and Birmingham, Manchester and Glasgow might cost £29 billion. It should be noted that, informed by this and other work, the White Paper made clear that a new line was not necessary in the period 2009-14.

Stephen Hammond: To ask the Secretary of State for Transport what her policy is on committing to *(a)* network wide electrification, *(b)* a high speed line and *(c)* other all or nothing projects. [195642]

Mr. Tom Harris *[holding answer 20 March 2008]:* Electrification and new rail lines are not necessarily 'all or nothing' projects. We are beginning work with the rail industry to re-examine the long-term cases for electrification and new lines. Options identified may include incremental solutions such as electrifying short stretches of line where there is a strong argument in favour of doing so.

Railways: Consultants

Stephen Hammond: To ask the Secretary of State for Transport how much has been spent on consultants for work on high speed rail links from London to Birmingham, Manchester and Scotland in each of the last five years. [195182]

Mr. Tom Harris *[holding answer 19 March 2008]:* In developing the July 2007 Rail White Paper, the Department for transport commissioned work on various inter-urban capacity options.

In the year preceding the July 2007 Rail White Paper, work on the potential for new lines amounted to around £250,000. No substantial sums were spent by the Department in previous years.

Railways: Standards

Norman Baker: To ask the Secretary of State for Transport how many delay minutes there were on the railway network in each year since 1993 for which *(a)* Railtrack and Network Rail and *(b)* a train operating company was responsible; and what the equivalent figures were for the most recent month for which data are available. [195976]

Mr. Tom Harris *[holding answer 20 March 2008]:* The Department for Transport holds the data requested only from 2005-06 when it took over responsibility for rail passenger franchises. These figures relate to delays caused to franchised passenger services, and are:

		mins
	2005-06	*2006-07*
(a) Network Rail	8,256,000	8,251,000
(b) Train operating companies	7,379,000	6,304,000
Total	15,635,000	14,555,000

The most recently available equivalent data (for the year ending 2 February 2008) is given in the following table.

	(mins)
(a) Network Rail	7,689,000
(b) Train operating companies	5,506,000
Total	13,195,000

To seek historic data prior to 2005-06, the hon. Member is advised to contact Network Rail at the following address.

Chief Executive
Network Rail
40 Melton Street
London
NW1 2EE

Roads: Tolls

Mrs. Gillan: To ask the Secretary of State for Transport for what reasons the amendments to the Road User Charging (Charges and Penalty) (London) Regulations due for completion by the end of 2007 have not yet been made. [196346]

Ms Rosie Winterton: The Department for Transport (DfT) expects to have the necessary resources available to complete consultation on the amendments to the road user charging regulations ready for implementation in 2009.

TREASURY

Departmental Data Protection

Mr. Amess: To ask the Chancellor of the Exchequer on what occasions officials of *(a)* his Department and *(b)* HM Revenue and Customs were (i) disciplined and (ii) dismissed for (A) alleged breaches of data protection requirements and (B) inappropriate use of personal or sensitive data, broken down by (1) grade, (2) sex and (3) age in each of the last five years for which information is available. [169431]

Jane Kennedy: The requested information is not available.

Devolution: Finance

Mr. Hoban: To ask the Chancellor of the Exchequer what the *(a)* amount and *(b)* purpose of payments made to Scotland, Wales or Northern Ireland outside (i) block grants calculated under the Barnett formula and (ii) main departmental programmes in annually managed expenditure was in each year since 1997. [195803]

Yvette Cooper: Figures for departmental expenditure limits and departmental annually managed expenditure for Scotland, Wales and Northern Ireland are published in Public Expenditure Statistical Analyses. Changes in DEL are determined as set out in the Statement of Funding Policy. Forecasts of annually managed spending are updated in the Budget and pre-Budget report in the normal way. Details of specific settlements for the devolved Administrations are set out in the relevant spending review White Paper. The devolved Administrations' spending plans are set out in their own budget publications.

Income: Equality

Dr. Kumar: To ask the Chancellor of the Exchequer pursuant to the answer of 22 February 2008, *Official Report*, column 112W, on income: equality, what assessment he has made of trends in *(a)* national prosperity and *(b)* household income inequality in (i) England, (ii) the North East, (iii) Tees Valley district and (iv) Middlesbrough South and East Cleveland constituency. [195564]

Jane Kennedy: The ONS publishes measures of regional gross value added (GVA) per head in current prices in the regional accounts publication. The lowest regional level available is the NUTS3 level (unitary authorities or districts). The published data show a significant increase in GVA per head in England, North East and Tees Valley since 1997. There are no published data for Middlesbrough, South and East Cleveland as they are below the NUTS3 level.

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=7359

Currently there are no available statistics of household income inequality at regional level. Data at UK level are published by the DWP in "Households Below Average Income" and by the ONS in "The Effects of Taxes and Benefits on Household Income". Available statistics show that the inequality at UK level has been stable since 1997.

Public Expenditure

Bob Spink: To ask the Chancellor of the Exchequer what the level of Government spending per capita was in each of the last 10 years. [196461]

Yvette Cooper: Total managed expenditure per head (total UK population) from 1997-98 to 2006-07 is provided in the following table:

Financial year	*Total managed expenditure divided by UK population (£)*
1997-98	5,521
1998-99	5,657
1999-2000	5,843
2000-01	6,183
2001-02	6,582
2002-03	7,097
2003-04	7,648
2004-05	8,232
2005-06	8,703
2006-07	9,074

Restricted Share Awards

John Battle: To ask the Chancellor of the Exchequer what his policy is on the payment of bonuses through restricted share awards. [196286]

Jane Kennedy: It is for employers to decide how and how much their employees are paid in the light of what is necessary to recruit, retain and motivate labour in the market conditions in which they operate. Government policy is to ensure that all employers and employees pay the proper amount of tax and national insurance contributions on these rewards of employment, however these rewards are delivered.

Stamp Duty Land Tax

Mr. Drew: To ask the Chancellor of the Exchequer if he will reconsider again at whether Stamp Duty/Land Tax (SDLT) should be charged on shared equity properties for first time buyers when they reach the thresholds for SDLT because of changes to house prices especially, in southern England. [196295]

Angela Eagle: Stamp duty rates and thresholds, like all other taxes, are kept under review as part of the Budget process.

Taxation: Social Security Benefits

Mike Penning: To ask the Chancellor of the Exchequer what his Department's policy on the taxation of social security benefits is. [196873]

Angela Eagle: Social security benefits are taxable when they are paid as a substitute for earned income. Income related social security benefits, child allowances and disability allowances are generally not taxable.

VAT: Repayments

Mr. Hoban: To ask the Chancellor of the Exchequer what the average time taken by HM Revenue and Customs to process a value added tax refund was in each of the last five years. [196265]

Jane Kennedy: HM Revenue and Customs (HMRC) is committed to paying correct repayment claims without undue delay. It does not keep figures on average processing times, but operates to a published target to authorise at least 90 per cent. of correct repayment returns within 10 working days of their receipt. At the same time, HMRC makes clear to businesses that it will carry out checks and apply safeguards to ensure that claims are legitimate and accurate. In each of the past five years the target has been met.

Young People

Chris Huhne: To ask the Chancellor of the Exchequer how many *(a)* men and *(b)* women in the age groups (i) 15 to 19 years and (ii) 20 to 24 years there were in the UK in each year since 1991. [196824]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 26 March 2006:

As National Statistician, I have been asked to reply to your question on how many (a) men and (b) women in the age groups (i) 15 to 19 years and (ii) 20 to 24 years there were in the UK in each year since 1991. (196824)

The latest available population estimates are for mid-2006. The attached table shows the figures requested:

Mid-year population estimates: United Kingdom; estimated resident population at ages 15 to 19 and 20 to 24 by sex, 1991 to 2006

Thousand

	Male		*Female*	
	15 to 19	*20 to 24*	*15 to 19*	*20 to 24*
1991	1,905	2,242	1,815	2,207
1992	1,802	2,193	1,729	2,157
1993	1,733	2,135	1,672	2,097
1994	1,721	2,053	1,666	2,021
1995	1,737	1,979	1,687	1,951
1996	1,763	1,889	1,716	1,863
1997	1,799	1,800	1,752	1,780
1998	1,829	1,741	1,780	1,729
1999	1,839	1,737	1,786	1,727

Mid-year population estimates: United Kingdom; estimated resident population at ages 15 to 19 and 20 to 24 by sex, 1991 to 2006

Thousand

	Male		Female	
	15 to 19	*20 to 24*	*15 to 19*	*20 to 24*
2000	1,850	1,757	1,783	1,750
2001	1,879	1,792	1,799	1,790
2002	1,935	1,823	1,822	1,820
2003	1,989	1,866	1,867	1,851
2004	2,018	1,935	1,903	1,882
2005	2,030	2,000	1,927	1,929
2006	2,060	2,048	1,936	1,976

WORK AND PENSIONS

Child Support Agency: Payments

Chris Grayling: To ask the Secretary of State for Work and Pensions how many individuals received consolatory payments from *(a)* his Department, *(b)* the Child Support Agency, *(c)* Jobcentre or Jobcentre Plus, *(d)* the Disability and Carers Service, *(e)* the Pension Service, *(f)* the Rent Service and *(g)* the Debt Management Service in each year since 1997; what the average value of payments made in each year was; and how much was paid in consolatory payments in each year in each case. [185931]

Mr. Plaskitt: The information is not available in the format requested. Such information as is available is in the tables.

Consolatory payments made by DWP

	Total value of payments (rounded to nearest £000)	*Number of individual awards made[1]*
2006-07	850,000	11,389
2005-06	822,000	11,435
2004-05	752,000	10,946
2003-04	557,000	7,248
2002-03	773,000	9,725
2001-02	835,000	9,811
2000-01	758,000	7,553
1999-2000	575,000	5,211
1998-99	664,000	4,645

Consolatory payments made by DWP agencies

	Total value of payments (rounded to nearest £000)	*Number of individual awards made[1]*

[1] Notes:

1. The Department has three main categories of consolatory payments. Where a person is found to have suffered gross inconvenience, embarrassment or severe distress as a result of maladministration a consolatory payment is made. Each case is judged on its individual merits and an award is made, as applicable, for each of these categories.

2. The Department does not retain details of the number of individuals who receive consolatory payments. Records are retained of the number of awards made under each of the above categories. Where, for example, a customer receives an initial award based on an early examination of a complaint he may later receive additional awards as a result of further investigation or under one of the other categories. The number of awards made therefore exceeds the number of individuals concerned.

3. The first table shows the entire sum awarded as consolatory payments by the Department for Work and Pensions (DWP) and its predecessor, the Department of Social Security (DSS). The figures include those paid by agencies that were part of the Department at the relevant time.

4. The Pension Service, Jobcentre Plus and the Disability and Carers Service were formed in 2002, prior to this they were part of the Benefits Agency (BA).

5. Debt Management is not an Executive agency of DWP. A consolatory payment awarded because of maladministration by Debt Management is awarded by Jobcentre Plus.

6. The Rent Service (TRS) was formed in October 1999 as an Executive agency of the Department of the Office of the Deputy Prime Minister. TRS became an executive agency of the Department for Work and Pensions in June 2001. The Rent Service has not made any consolatory payments.

Departmental Disclosure of Information

Bob Spink: To ask the Secretary of State for Work and Pensions what action has been taken in response to allegations of a breach of the Civil Service Code in respect of unauthorised publication of material on the internet by a member of his Department; what the cost to the public purse of this action has been; what the results were; and if he will make a statement. [196178]

Mrs. McGuire: The Department takes any allegation of a breach of the civil service code seriously. It would be inappropriate to comment on any investigation or disciplinary procedure.

Departmental ICT

Sarah Teather: To ask the Secretary of State for Work and Pensions how many *(a)* mobile telephones, *(b)* personal digital assistants and *(c)* laptop computers issued to departmental staff were reported (i) lost, (ii) missing and (iii) stolen in each year since 2001. [184318]

Mrs. McGuire: The following table shows the numbers of *(a)* mobile telephones *(b)* personal digital assistants (PDAs), and *(c)* laptop computers which were issued to departmental staff and were reported as stolen, lost, or missing (presumed to be stolen) since 2001, together with the average number of staff in each year. The records do not differentiate between those items which were reported as lost, stolen or missing, respectively.

	Total number of staff	*Mobile phones*	*PDAs*	*Laptops*
2001	[1]86,806	1	0	23
2002	124,117	3	0	42
2003	131,409	30	0	42
2004	130,786	34	1	75
2005	126,988	31	0	46
2006	119,972	15	0	28
2007	114,500	14	19	15

[1] Figure relates to the former Department of Social Security only.

Employment: Rural Areas

Mr. Paice: To ask the Secretary of State for Work and Pensions what assessment he has made of the likely effects of the proposals contained in the Green Paper, In Work Better Off: Next steps to full employment on rural communities; by what process such an assessment was reached; and what steps he plans to take to ensure that rural communities receive in equitable benefit from the implementation of any proposals arising out of the Green Paper. [192824]

Mr. Timms: Most Department of Work and Pensions policies and programmes are aimed at individuals, with eligibility dependent on personal circumstances rather than where they live. This means that even without specific targeting the help provided by the Department is concentrated in areas facing labour market disadvantage. Over the last ten years, the biggest labour market improvements have been in the areas that started in the worst position.

In addition to national programmes there is also a range of locally flexible support, such as the Jobcentre Plus Adviser Discretion Fund, the Deprived Areas Fund and the new Working Neighbourhoods Fund.

When determining how to deliver its services, Jobcentre Plus also considers the implications for rural and other areas. For example, support is provided not only through the Jobcentre network but also by telephone through the Contact Centre and Benefit Delivery Centre network as well as the internet. This allows all customers to access key services regardless of where they live. Where there are issues about the ability of customers to access Jobcentre Plus support, provision can be made for additional or more flexible arrangements. These include the installation of jobpoints in libraries, surgeries in third party premises, partnering in local authority outlets and, where practical, some mobile services.

Taken together, the Department's approach helps to ensure that individuals in deprived communities across the country are able to get the help and support they need to move back into work. However, our new generation of employment programmes, including Pathways to Work and the flexible New Deal, will offer further scope for provision to be tailored to the needs of individuals in different geographical locations and those facing particular labour market challenges.

On 13 December 2007, we published 'Ready for work: full employment in our generation' which sets out the measures the Government will take to reach the goals of an 80 per cent. employment rate and working people with world class skills. The paper responds to the 'In work, better off' consultation exercise which ran from July to October 2007. A full assessment of the effects of those measures will be carried out as part of post-implementation evaluation.

A key feature of the measures is the need to provide more flexible, responsive and individually focused employment and skills support. For example, by extending our use of private and voluntary sector organisations we will be making use of their knowledge of the challenges faced by particular groups or localities. They will be able to provide the right kind of support to individuals based on their particular circumstances, which could include issues related to where they live. Each contract will be evaluated as to its effectiveness throughout the duration of that contract.

Hearing Impaired

Mr. Andy Reed: To ask the Secretary of State for Work and Pensions what provision is made for deaf people to access services provided by his Department through call centres. [194953]

Mrs. McGuire: Deaf people can use the typetalk service or our separate textphone numbers to access all our call centres.

Housing Benefit

Danny Alexander: To ask the Secretary of State for Work and Pensions what guidance is issued by his Department to local authorities on issuing discretionary housing payments to *(a)* all those in receipt of housing benefit and *(b)* those in receipt of the single room rent. [190307]

Mr. Plaskitt: Discretionary Housing Payments (DHPs) can be made, subject to an annual cash limit, where a person is entitled to housing benefit or council tax benefit and the local authority considers that person is in need of further financial help to meet any shortfall in their housing costs or council tax. The scheme is discretionary so it is up to local authorities to decide how they operate it, with any decisions on its use being made on a case-by-case basis.

DWP cannot prescribe the circumstances in which an authority must make payments, but guidance has been issued to all local authorities setting out the conditions for entitlement to an award. In deciding whether to award a DHP local authorities should consider the circumstances that give rise to a shortfall.

In our revised guidance, due to be published shortly, we make it clear that a DHP can cover a shortfall resulting from rent officer restrictions such as the single room rent.

Danny Alexander: To ask the Secretary of State for Work and Pensions (1) what the outcome was of his Department's review of the operation of the single room rent; [190332]

(2) what his estimate is of the quantity of accommodation that meets the criteria for eligibility for the single room rent. [190333]

Mr. Plaskitt: The Department's recent review examined the shortfalls faced by many single room rent (SRR) claimants and considered why the majority of this group do not live in shared accommodation. Three aspects were examined—affordability, accessibility and availability of shared accommodation.

On affordability we found that there are gaps in the market evidence on which the Rent Service set SRR rates and this may impact on affordability. However, changes to the way the Rent Service gathers market evidence brought about by the introduction of the local housing allowance (LHA) from April 2008, and a change in the SRR definition, should overcome the current evidence gaps and lead to an increase in SRR rates.

On availability we found that some areas of the country, particularly rural areas, appear to have a shortage of shared accommodation that falls within the definition currently used for the SRR. However, the introduction of the national LHA will address some of these issues through the move to a median LHA rate and the new Shared Room Rate. The latter covers a wider definition of shared accommodation than under the current SRR and will better reflect the range of accommodation available to tenants.

The findings on accessibility from academic research and some anecdotal evidence suggest that young people and housing benefit tenants are unpopular with landlords in the private rented sector which may restrict SRR customers' access to shared accommodation.

The Department plans to make an initial assessment of the impact of the rollout of the LHA on the SRR as part of the two year review of the LHA.

There are no data available to provide an accurate estimate of the quantity of accommodation that matches the definition of the SRR.

Industrial Health and Safety

Paul Rowen: To ask the Secretary of State for Work and Pensions what resources his Department has made available for *(a)* enforcement and *(b)* advice and guidance on health and safety at work in each of the last five years; and if he will make a statement. [188365]

Mrs. McGuire: The annual gross expenditure for 2002-03 to 2006-07 on enforcement (including investigations) and advice and guidance on health and safety at work by the Health and Safety Executive (HSE), which is sponsored by the Department for Work and Pensions, is provided in the following table.

HSE's gross expenditure[1]

£ million

	2002-03	*2003-04*	*2004-05*	*2005-06*	*2006-07*
Enforcement and Investigation[2]	39.9	40.2	38.8	41.4	51.0
Advice and Guidance[3]	18.1	21.7	21.8	34.2	33.7

[1] To allow comparison across the years, the figures have been adjusted for years 2002-03 to 2004-05 to exclude HSE's Rail Safety function which transferred to the Office of Rail Regulation on 1 April 2006.

[2] HSE measures the cost of enforcement from the point at which it decides to proceed with legal sanctions and the cost depends on a range of factors, many of which are not in HSE's control, e.g. whether a prosecution is defended. HSE investigates those incidents reported to it that fall within the Health and Safety Commission's incident selection criteria and this is one of the main activities from which enforcement is initiated and the costs are included in the table. Figures are based on historical work recording data from HSE's Field Operations Directorate, Hazardous Installations Directorate and Nuclear Directorate; and its Corporate Science and Analytical Services Directorate and Health and Safety Laboratory's expenditure in support of enforcement activities.

[3] Advice and guidance includes that given by inspectors in Field Operations Directorate. Also included are resources that HSE spends on providing information e.g. through campaigns, guidance through publications, staff in other directorates and its Infoline service.

Industrial Training: Standards

Kate Hoey: To ask the Secretary of State for Work and Pensions how many complaints his Department has received about the suitability of placements offered to people by Skills Training UK in the last 12 months. [195021]

Mr. Timms: My Department is not aware of any complaints in the last 12 months about the suitability of placements offered by Skills Training UK.

Kate Hoey: To ask the Secretary of State for Work and Pensions what assessment his Department has made of the *(a)* safety, *(b)* suitability and *(c)* value of placements offered to people by Skills Training UK; and if he will make a statement. [195022]

Mr. Timms: All welfare to work contractors, including Skills Training UK, are required to meet the quality and delivery standards set out in the contract specification, and are subject to contract management and monitoring by professional and trained procurement staff, in addition to any Ofsted inspection and audit.

The Department's contract management and supplier relationship processes aim to ensure that corrective measures are introduced if the provider does not achieve the level and standard of performance required. This includes the suitability and value of placements and contractual compliance issues, such as the safety of trainees during their placement.

Low Incomes: Children

Jim Cousins: To ask the Secretary of State for Work and Pensions what percentage of *(a)* children and *(b)* pensioners lived in households with below 60 per cent. of median household income in (i) England, (ii) Scotland, (iii) Wales and (iv) each region of England, (A) before and (B) after housing costs and (1) including and (2) excluding the self-employed in each year from 1999 to 2000. [195390]

Mr. Timms: The available information has been placed in the Library.

Maternity Benefits

Mr. Graham Stuart: To ask the Secretary of State for Work and Pensions how many people claimed maternity allowance in each of the last five years; and if he will make a statement. [192892]

Mrs. McGuire: Information is not available in the format requested. Information is not available prior to 2003. The available information is in the table.

Maternity allowance, new claim commencements in Great Britain

	Number
2003-04	47,100
2004-05	50,300
2005-06	55,300
2006-07	51,000

Note:
Figures are rounded to the nearest hundred.
Source:
DWP Maternity Allowance Quarterly Statistics

Mr. Graham Stuart: To ask the Secretary of State for Work and Pensions (1) how many people had claimed maternity allowance but had yet to receive payments as of 28 February 2008; and if he will make a statement; [192893]

(2) what the average length of time was between the point at which an individual claimed maternity allowance and the start date of their payment in the latest period for which figures are available; and if he will make a statement. [192894]

Mrs. McGuire: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 26 March 2008:

The Secretary of State has asked me to reply direct to your questions asking how many people had claimed maternity allowance but had yet to receive payments as of 28 February; and what the average length of time was between the time an individual claimed maternity allowance and the start date of their payment in the latest period for which figures are available and if he will make a statement. This is something that falls within my responsibilities as Chief Executive of Jobcentre Plus.

As of 28 February we have 6,233 maternity allowance claims outstanding. We aim to clear maternity allowance claims within 20 days. We clear on average 350 claims per day, so this outstanding figure equates to 18 days of work, which is below the normal stock of work.

From March 2007 to February 2008 we received 89,626 maternity allowance claims and have cleared 86,563. The yearly average of cleared claims is 18.16 days to the end of February.

I hope this is helpful.

Personal Income

Chris Grayling: To ask the Secretary of State for Work and Pensions what the average income was of the *(a)* top and *(b)* bottom quartile of households with dependent children in each year since 1997. [173891]

Mr. Timms: The information is in the following table.

Average (median) weekly equivalised incomes of the top and bottom quartile of households with dependent children since 1997

£

	Before housing costs		*After housing costs*	
	Bottom quartile	*Top quartile*	*Bottom quartile*	*Top quartile*
1996-97	155	512	103	412
1997-98	157	520	105	419
1998-99	160	535	108	433
1999-2000	166	538	112	443
2000-01	174	562	118	466
2001-02	183	589	128	485
2002-03	185	584	130	493
2003-04	187	599	132	506
2004-05	191	596	135	510
2005-06	191	606	134	524

Notes:
1. The information shown is for the United Kingdom from 2002-03 onwards. Earlier years are Great Britain only.
2. The income measures used to derive the estimates shown employ the same methodology as the Department for Work and Pensions publication 'Households Below Average Income' (HBAI) series, which uses disposable household income, equivalised for household size and composition, as a proxy for standard of living.
3. Median incomes within the relevant quartiles have been presented. We have used median rather than mean as a measure of average incomes within the quartile. This is in line with the HBAI publication, where medians are used because the mean will be heavily influenced by the small number of households having very high or very low incomes.
4. Figures have been presented on both a before housing cost and an after housing cost basis. For before housing cost, housing costs (such as rent, water rates, mortgage interest payments, structural insurance payments and ground rent and service charges) are not deducted from income, while for after housing cost they are. This means that after housing cost incomes will generally be lower than before housing cost.
5. Amounts in the tables have been rounded to the nearest pound sterling.
Source:
Family Resources Survey, 2005-06

The figures show that households with dependent children in the lowest quartile and highest quartile of incomes have both seen their incomes grow over the last decade. Those families with dependent children in the lowest quartile have seen their incomes grow by a greater extent than those in the highest quartile.

Social Security Benefits: Ireland

Mr. Spellar: To ask the Secretary of State for Work and Pensions pursuant to the answer of 26 February 2008, *Official Report*, column 1388W, on social security benefits: Ireland, whether discussions took place on the time migrants have to be resident before claiming benefit in the meetings referred to. [190910]

Mr. Timms *[holding answer 29 February 2008]*: The meetings referred to in the answer of 26 February 2008 to question 186429 were to discuss measures to prevent benefit fraud. No discussions took place at those meetings on the time migrants have to be resident before claiming benefits.

Social Security Benefits: Overpayments

Mr. Hoban: To ask the Secretary of State for Work and Pensions what the total cost of incorrect benefit payments was, excluding those payments resulting from fraud, in each of the last 10 years. [189296]

Mr. Plaskitt: Reliable estimates regarding the total cost of incorrect benefit payments are not available from 1997-98 to 1999-2000. The available information is in the following table.

Estimated cost of incorrect benefit payments (not including fraud)

£ billion

	Total amount of benefit paid	*Cost of incorrect payments*	
		Customer error	*Official error*
2000-01	101.3	0.7	0.4
2001-02	106.6	0.7	0.4
2002-03	110.2	0.6	0.6
2003-04	105.7	0.7	0.8
2004-05	111.1	0.9	0.9
2005-06	115.8	1.0	0.9
2006-07	119.1	1.0	0.9

We have had great success in reducing benefit fraud, and we are now applying the same drive and determination to reduce the level of overpayments caused by error in the benefit system. We have:

established a task force to reduce official error in the benefits most vulnerable to error;

launched the first ever long term error reduction strategy which addresses both official and customer error across the whole benefits system;

created a Benefit Simplification Unit to direct our work on reducing complexity in the benefit system.

Sunbeds

Mark Simmonds: To ask the Secretary of State for Work and Pensions how many instances of burning from sunbed use have been reported to the Health and Safety Executive since January 2006. [195373]

Mrs. McGuire: There were no such instances reported to the Health and Safety Executive during this period.

Winter Fuel Payments

Mr. Drew: To ask the Secretary of State for Work and Pensions under what circumstances a retrospective claim for a winter fuel payment may be made. [195568]

Mr. Mike O'Brien: The vast majority of winter fuel payments are made automatically without the need for a claim. However a small number of people who are not in receipt of a benefit administered by DWP or who have not received a payment before need to make a claim.

For people who need to claim, claim forms are available from July for the oncoming winter and can be submitted up to the 30 March cut off date the following year. Payment cannot be made for claims received after the cut off date.

Winter Fuel Payments: Finance

Steve Webb: To ask the Secretary of State for Work and Pensions what his most recent estimate is of the cost to the public purse of extending winter fuel payments to all those eligible for the cold weather payment. [195438]

Mr. Mike O'Brien: Approximately £320 million a year.

Notes:

1. Cold weather payment caseload extracted from Work and Pensions Longitudinal Survey, 100 percent data.

2. Cold weather payments to people under age 60 are made to those awarded income support or income based jobseeker's allowance who have a disability premium or a child under age five. The caseload for these benefits can go up or down from month to month. This estimate is based on those meeting the cold weather payment eligibility as at May 2006.

3. This estimate is based upon the assumption that individuals now eligible for a winter fuel payment under the cold weather criteria do not live in the same household as any other individual eligible for a WFP (therefore they are awarded the full winter fuel payment).

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Climate Change: Population

Tony Lloyd: To ask the Secretary of State for Environment, Food and Rural Affairs what consideration his Department has made of the effects of global population growth on climate change. [195742]

Mr. Woolas: DEFRA ensures that UK greenhouse gas emissions projections include the impact of predicted population growth.

Global emissions scenarios contained in the IPCC Third and Fourth Assessment Reports take into account global population growth when predicting future greenhouse gas emissions.

Crops: Biofuels

Mr. Jamie Reed: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of the effects the production of biofuels has had on the production of food crops. [196199]

Mr. Woolas: The impact in the EU has been very limited as less than 2 per cent. of total cereal consumption will be used for biofuels this year. The current high level of cereal prices is mainly due to a mix of short and long term factors as set out in the DEFRA briefing note "Implications of rising agricultural commodity prices" available on the DEFRA website.

The Government are very eager to ensure that biofuel production is sustainable, and has commissioned Professor Ed Gallagher, chairman of the Renewable Fuels Agency, to lead a study on the wider economic and environmental impacts, including the impact on food prices, of different forms of biofuel production. The terms of reference for the review were published on the Department for Transport's website on 13 March.

Energy: Housing

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment he has made of the effects the provisions of the Home Energy Conservation Act 1995 on the energy efficiency of *(a)* local authority housing stock and *(b)* privately rented homes; [195659]

(2) what changes the operation of the Home Energy Conservation Act 1995 has produced in levels of carbon dioxide emissions from residential housing stock; [195660]

(3) what estimate he has made of the changes in residential accommodation energy efficiency which have resulted from the provisions of the Home Energy Conservation Act 1995; [195661]

(4) what estimate he has made of the tonnage change in carbon dioxide emissions as a result of the implementation of the Home Energy Conservation Act 1995; [195679]

(5) what estimate he has made of the terawatt hour energy savings resulting from the implementation of the Home Energy Conservation Act 1995; [195680]

(6) what assessment he has made of changes to levels of energy efficiency within residential accommodation as a result of the operation of the Home Energy Conservation Act 1995. [195682]

Mr. Woolas: The Home Energy Conservation Act 1995 requires local authorities with housing responsibility to prepare a strategy for improving energy efficiency within residential accommodation in their areas and report annually on progress. Since 1996, authorities have reported an average total improvement of approximately 19 per cent. to 31 March 2006. Results for the period up to 31 March 2007 will be published shortly.

A number of programmes are likely to have contributed to this improvement in energy efficiency, particularly the Energy Efficiency Commitment, Warm Front and Decent Homes. It is important to note that Home Energy Conservation Act strategies and monitoring techniques differ, and that the figures reported have not been independently verified.

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what recent efficiency directions have been issued to authorities that have not met the targets resulting from the Home Energy Conservation Act 1995. [195681]

Mr. Woolas: The Sustainable Energy Act 2003 provides a power for the Secretary of State to issue an Energy Efficiency Direction to local authorities. This power has not been exercised.

The Government's policy to support and incentivise increased local authority action on climate change is outlined in the 2006 UK Climate Change Programme and the 2007 Local Government White Paper.

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs how many local authorities achieved the improvement targets resulting from the Home Energy Conservation Act 1995 in each year since the Act was implemented; and how many he expects to achieve the targets in the next 12 months. [195683]

Mr. Woolas: The Home Energy Conservation Act 1995 requires local authorities with housing responsibility to prepare a strategy for improving energy efficiency within residential accommodation. These are aimed at achieving a voluntary 30 per cent. improvement within 10 to 15 years, though authorities identify their own specific targets. Most authorities have set 15 year targets, giving them until 2011 to meet them. However, annual progress reports suggest that 4 per cent. of authorities had met their targets by 31 March 2006.

Floods: Insurance

Mr. Stewart Jackson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer to the hon. Member for Mid Dorset and North Poole of 5 March 2008, *Official Report*, columns 2510-11W, what progress is being made in his discussions with the insurance industry on the availability of insurance cover for homes in flood risk areas; and if he will make a statement. [194588]

Mr. Woolas: A statement from the Government and Association of British Insurers (ABI) was issued on 13 February confirming joint working to carry out the regular review of the statement of principles.

The scope of the review includes joint working groups looking at: assessing the information and mapping currently available and ensuring better understanding of flood risk; the approach to a long term strategy in order to provide effective flood risk management; promoting increased resilience, preventing inappropriate development in high flood risk areas, and addressing the interim conclusions from the Pitt Review on the availability and uptake of insurance.

The review is expected to be finalised in the summer. In the meantime ABI members will continue to adhere to the existing statement of principles.

Forestry: Borneo

Mr. Howard: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has held with the Governments of Indonesia and Malaysia on deforestation on the island of Borneo; and if he will make a statement. [196272]

Mr. Woolas *[holding answer 25 March 2008]:* The Malaysian and Indonesian Governments signed the tri-Government (with Brunei) declaration on trans-boundary co-operation to preserve the Heart of Borneo in February 2007. The UK supports the development of a tri-national action plan to be completed in the first

half of 2008. This will be important in shaping the future protection and sustainable use of forests on Borneo. DEFRA is currently funding 16 projects in Indonesia and Malaysia under the Darwin Initiative, including forest related projects on Borneo.

DEFRA Ministers have met several times in the last year with their Indonesian and Malaysian counterparts, and discussed the importance of tackling deforestation in general in these countries.

I met with Indonesian Environment Minister Witoelar on 21 February 2008, and discussed forest carbon, among other issues. My right hon. Friend the Secretary of State for Environment, Food and Rural Affairs (Hilary Benn) met with the Indonesian Minister of Agriculture on 1 October 2007 and discussed the problems of deforestation, and the related issues of illegal logging. He also discussed the need for a balanced approach to palm oil production. My hon. Friend the Member for Brent, North (Barry Gardiner) met with the Malaysian Minister for Plantation Industries and Commodities in May 2007, explaining the UK's concern that palm oil production is increasing the pressure on forests.

Hazardous Substances

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what the toxic equivalence quote is, as the maximum allowable level of dioxin contamination permitted before some form of corrective action must be taken, in the UK; what the evidential basis for this level is; and if he will make a statement. [193734]

Mr. Woolas: Maximum limits for dioxins and total toxicity equivalence (dioxins plus PCBs) in fish and fatty foods are set out in Regulation (EC) 1881/2006 and any food found to contain levels above these limits must be withdrawn from sale. Recommendation 2006/88/EC defines separate action levels for dioxins and dioxin-like PCBs in the same food categories. When a sample is found to exceed these levels, prompt action is taken to reduce the levels.

Legislation and abatement technologies have led to a significant reduction in environmental releases and human exposure to dioxins and dioxin-like PCBs. There is no single threshold set for dioxin emissions into the environment. Directive 2000/76/EC on waste incineration set an emission limit for dioxins of 0.1 nanogram I- Toxicity Equivalence (TEQ) per cubic metre of gaseous releases to air, and emission limit values for discharges to water are set at 0.3 nanogram per litre. The Persistent Organic Pollutants regulation (EC-850/2004) brought in additional controls on the disposal of waste containing dioxins above a trigger level of 15ug/kg TEQ.

Heating: EC Law

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs if he will ensure that the views of UK industry are sent to the European Commission officials drafting the impact assessment for the Energy-using Products Directive implementing measure for heaters and boilers. [196165]

Joan Ruddock *[holding answer 25 March 2008]:* My officials are in the process of preparing a submission to the Commission which sets out our view of the proposals. This has been developed following extensive consultation with industry. I would also encourage industry to submit their views directly to the Commission.

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what consultations the Energy-using Products Board plans to hold with industry on the working document on boilers and water heaters. [196166]

Joan Ruddock *[holding answer 25 March 2008]:* I refer my hon. Friend to the answer given on 19 March 2008, *Official Report*, column 1133W.

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what consultations the Energy-using Products Board plans to have with the European Commission on the matter of boilers being outside the scope of the Energy-using Products Directive. [196167]

Joan Ruddock *[holding answer 25 March 2008]:* DEFRA officials regularly meet and have discussions at EU level, including on energy efficient products, and have held a number of meetings with the Commission on the Energy-using Products Directive, including an informal meeting on the Commission's proposed implementing measure on boilers and water heaters. No specific discussions have been held on the matter of boilers being outside the scope of this directive as my Department supports their inclusion due to the high energy use of these products.

The Commission is currently analysing responses from the boiler and water heater industry on its proposals for boilers and water heaters. DEFRA officials attended a Consultation Forum (comprising the Commission, European trade associations and other member state representatives) on these proposals on 29 February.

Home Energy Efficiency Scheme

Mr. Kevan Jones: To ask the Secretary of State for Environment, Food and Rural Affairs how many complaints his Department has received from hon. Members on the operation of the Warm Front scheme. [197039]

Mr. Woolas: Since 1 April 2007, DEFRA has received in the region of 340 letters from hon. Members wishing to make representations on behalf of constituents or discuss issues relating to scheme delivery.

Home Energy Efficiency Scheme: Advertising

Justine Greening: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent on advertising the Warm Front Grant scheme by *(a)* his Department, *(b)* EAGA plc and *(c)* local authorities in the financial years (i) 2003-04, (ii) 2004-05, (iii) 2005-06, (iv) 2006-07 and (v) 2007-08. [195127]

Mr. Woolas: Eaga plc has responsibility for generating awareness of Warm Front as part of their contract as Scheme Manager.

DEFRA does not hold information on the amount spent by Eaga plc on advertising the scheme or on the cost of any activities performed by local authorities to advertise Warm Front.

Home Energy Efficiency Scheme: Expenditure

Justine Greening: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent on measures carried out in households under the Warm Front Scheme in *(a)* 2003-04, *(b)* 2004-05, *(c)* 2005-06, *(d)* 2006-07 and *(e)* 2007-08, broken down by local authority area. [195119]

Mr. Woolas: I have arranged for the information requested to be placed in the Libraries of the House.

Home Energy Efficiency Scheme: Social Security Benefits

Justine Greening: To ask the Secretary of State for Environment, Food and Rural Affairs how many benefits entitlements checks were carried out under the Warm Front Scheme in each of the last five financial years; and how many households were found to be eligible for a Warm Front qualifying benefit following a benefit entitlement check, broken down by local authority area. [195128]

Mr. Woolas: Data are not recorded in a manner that will allow a breakdown by local authority. The following table illustrates the number of benefit entitlement checks carried out over the last five financial years, and, based on the information provided, how many were subsequently found to be eligible for a Warm Front qualifying benefit.

	Number of benefit entitlement checks carried out	*Number subsequently eligible for Warm Front*
2003-04	1,772	689
2004-05	16,771	5,347
2005-06	14,674	5,699
2006-07	22,761	9,607
2007-08	16,712	4,845
Total	72,690	26,187

The total number of benefit checks carried out only includes households found to be ineligible for assistance when presented to the scheme.

2007-08 figures cover work completed between 1 June 2007 and 1 March 2008.

Litter

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what recent steps the Government have taken to reduce the levels of litter on streets. [196168]

Jonathan Shaw *[holding answer 25 March 2008]*: The tools available to local authorities were enhanced considerably by the Clean Neighbourhoods and Environment Act 2005. This provided the ability to issue notices to tackle litter hotspots on private land as well litter problems attributable to a particular business activity, including the recent extension of street litter control notices to eating and drinking establishments.

In addition, DEFRA continues to support the work of the charity ENCAMS (Environmental Campaigns) on awareness raising and behaviour change campaigns; for example, on cigarette, chewing gum and fast food-related litter, as well as a web-based training resource to help drive up standards of street cleansing and environmental services.

Low Carbon Buildings Programme: Grants

Lynne Jones: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make it his policy to double the maximum grant available under the domestic low carbon building programme. [195292]

Malcolm Wicks: I have been asked to reply.

We have recently reviewed progress on the low carbon buildings programme household stream, consulting key stakeholders on a wide range of issues including grant levels. We are currently finalising plans and will announce shortly how we intend to take the household stream forward.

Recycling: Lancashire

Geraldine Smith: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department has taken to encourage businesses in Morecambe and Lunesdale constituency to recycle waste in the last 12 months. [194714]

Joan Ruddock: I am not aware of any specific DEFRA initiatives in Morecambe and Lunesdale. However, the Government's Waste Strategy for England 2007 sets out the aim of encouraging local authorities to take on a wider role (in partnerships) to help local (particularly smaller) businesses reduce and recycle their waste with cost savings through more integrated management of different waste streams; and encouraging regional development agencies and other regional bodies to coordinate business waste and resource management in partnership with local authorities and third sector organisations. Small and medium sized enterprises can also get information on recycling from Government and Waste and Recycling Action Programme (WRAP) websites.

DEFRA supports businesses to improve their efficient use of resources and to reduce their carbon emissions. This work forms an important part of the Government's drive towards a sustainable consumption and production economy. By cutting their waste and reducing material use, businesses of all sizes can boost profits and create jobs by reducing environmental impacts.

The Business Resource Efficiency and Waste (BREW) Programme has delivered much of the above support to businesses. The programme has returned additional landfill tax to business over three years through resource efficiency and waste minimisation programmes, including recycling projects. Good results have been achieved from the intervention.

Waste Disposal: Fees and Charges

Mr. Laws: To ask the Secretary of State for Environment, Food and Rural Affairs which local authorities have expressed an interest in the pilot scheme for charging for refuse collection; and if he will make a statement. [196694]

Joan Ruddock: I refer the hon. Member to the answer I gave to the hon. Member for Brentwood and Ongar (Mr. Pickles) on 10 January 2008, *Official Report*, column 754W.

Wind Power

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs to which wind farm proposals his Department lodged objection in each of the last three years; and for what reasons in each case. [191117]

Mr. Woolas: For onshore windfarms under 50 megawatts, planning decisions are taken by local planning authorities. For windfarms above this threshold, decisions are taken by the Department for Business, Enterprise and Regulatory Reform under the Electricity Act 1989. DEFRA is not consulted in either case but Natural England will have a chance to comment as a statutory consultee. Natural England and its founding bodies have objected to three onshore wind farms in three regions, and seven offshore wind farms adjacent to four regions.

The Environment Agency is not a Statutory Consultee for windfarms, but is consulted on some windfarm developments for other statutory reasons. Between 2005 and 2007 (inclusive) the Environment Agency objected to a total of five planning applications for windfarms for reasons including flood risk, impact on biodiversity and groundwater. In all five cases after further work by the developer the Environment Agency were able to withdraw their objections.

The Marine and Fisheries Agency (MFA) has a direct role in licensing offshore renewables under the Food and Environment Protection Act. An application could be rejected if assessment of the detailed environmental statement, submitted with the application, and other information showed that the proposed development would have a negative impact on the marine environment. To date, the MFA has not rejected an application for an offshore wind farm.

HEALTH

Accident and Emergency Departments: Admissions

Mr. Vara: To ask the Secretary of State for Health how many admissions to accident and emergency departments there were for *(a)* knife-related injuries and *(b)* gunshot wounds in each of the last five years, broken down by primary care trust. [195427]

Mr. Bradshaw: Information is collected on the number of finished admissions to hospital via accident and emergency. Tables have been placed in the Library which provide a breakdown of the data by primary care trusts (PCT). However, the tables only provide information on those PCTs where the number of admissions is more than five, due to the need to ensure that data remains anonymous.

It is worth noting that finished admission episodes do not represent the number of patients admitted, as a patient may be admitted more than once.

Allergies: Medical Treatments

Dr. Starkey: To ask the Secretary of State for Health if he will request the National Institute for Health and Clinical Excellence to undertake a review of allergy services and treatments. [193348]

Ann Keen: The Department and the National Institute for Health and Clinical Excellence (NICE) are currently working together on some focused proposals for guidance relating to allergy. These proposals will be fed into the NICE topic selection process for consideration alongside other possible topics for NICE's work programme.

Blood Transfusion Services: Greater London

Justine Greening: To ask the Secretary of State for Health how many staff posts will be *(a)* discontinued and *(b)* moved to other sites from the Tooting Blood Processing and Testing centre as part of the planned consolidation of processing and testing centres following the Review of the National Blood Service Strategy. [195117]

Dawn Primarolo: The National Blood Service (NSB) is an operational division of NHS Blood and Transplant (NHSBT). NHSBT plans to move processing and testing services from the Tooting centre during 2009-10. All other services will remain at the centre, including the issue department (from which blood is issued), so that local hospitals will continue to receive blood as and when they need it.

It is anticipated that these changes will result in the reduction of approximately 70 posts at the Tooting centre. NHSBT intend to deliver this reduction through non-compulsory means, such as voluntary redundancy, staff turnover and vacancy control. Staff affected by change will be given a range of support, including training and help with redeployment both within and outside NHSBT.

Breast Cancer: Essex

Bob Spink: To ask the Secretary of State for Health what assessment he has made of the ability of breast cancer care facilities in South Essex to respond to changes in demand for services. [193067]

Ann Keen: This is a matter for the local national health service and the Essex Cancer Network. Primary care trusts (PCTs) are responsible within the NHS for commissioning and funding appropriate health services for their resident populations. The hon. Member may therefore wish to raise this issue with the chief executives of South East and South West Essex PCTs.

Bob Spink: To ask the Secretary of State for Health pursuant to the answer of 18 February 2008, *Official Report*, column 281W, on breast cancer: Essex, if he will investigate the factors behind the recent increase in breast cancer diagnoses in Essex; and if he will make a statement. [193197]

Ann Keen: This is a matter for the local national health service and the Essex and the North London cancer networks. Primary care trusts (PCTs) are responsible within the NHS to assess the needs and priorities of their local populations and commission health services accordingly. The hon. Member may therefore wish to raise this issue with the chief executives of the PCTs in Essex.

Breast Cancer: Health Services

Bob Spink: To ask the Secretary of State for Health what plans he has to (*a*) promote for the early diagnosis and fast treatment of breast cancer and (*b*) ensure adequacy of breast cancer services in each primary care trust area. [193068]

Ann Keen: The Cancer Reform Strategy, published last December, contains a number of initiatives under the National Awareness and early Diagnosis initiative to promote early diagnosis and improve the treatment of breast cancer. These include:

patients with breast problems being referred to a cancer specialist within two weeks, whether or not cancer is suspected;

the breast-screening programme being extended to women aged 47 to 73 years;

working at a community level to promote better public awareness of cancer symptoms;

carrying out a regular national survey of cancer symptom awareness to gain a better understanding of the delays in patient diagnosis; and

carrying out a national audit in primary care of all patients diagnosed with cancer.

To ensure equality of treatment of all cancers we are developing a national cancer equality initiative involving key stakeholders.

More detailed information on these initiatives can be found at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_081006

Breast Cancer: Screening

Mr. Jenkins: To ask the Secretary of State for Health how many breast cancer screenings there were in (*a*) Tamworth and (*b*) Staffordshire in each of the last five years. [193624]

Mr. Bradshaw: The information requested is not available in the format requested. However, data for the national health service screening programme: coverage of women aged 53-64 for Staffordshire based primary care trusts (PCTs), at 31 March 2003 to 2007 has been set out in the following table.

	2003	*2004*	*2005*	*2006*	*2007*
North Staffordshire PCT[1]					
Eligible population[2]	16,178	16,322	16,480	16,690	16,885
Women screened (less than 3 years since last test)	12,291	12,902	12,971	13,404	13,654
Coverage (less than 3 years since last test) (percentage)	76.0	79.0	78.7	80.3	80.9
South Staffordshire PCT[1]					
Eligible population[2]	45,554	46,029	46,623	47,245	48,008
Women screened (less than 3 years since last test)	37,594	35,493	36,721	36,857	39,364
Coverage (less than 3 years since last test) (percentage)	82.5	77.1	78.8	78.0	82.0

[1] Data prior to March 2007 have been mapped to the current PCT structure

[2] This is the number of women in the registered population less those recorded as ineligible

Notes:

1. The coverage of the breast screening programme is the proportion of women resident and eligible that have had a test with a recorded result at least once in the previous three years.
2. Coverage of the screening programme is currently best assessed using the 53-64 age group as women may be first called at any time between their 50 and 53 birthdays.
3. The breast screening programme covers women aged 50-64 but it was extended to invite women aged 65-70 in April 2001.
4. The last unit began inviting women aged 65-70 in April 2006 and full coverage should be achieved by 2008-09.

Source:

KC63, the Information Centre for health and social care.

Mr. Jenkins: To ask the Secretary of State for Health whether the national standards for the uptake of (*a*) breast cancer and (*b*) cervical cancer screening have been achieved in (i) Tamworth and (ii) the West Midlands. [193629]

Ann Keen: Uptake of cervical screening is not measured as women make their own appointments following receipt of a reminder letter. Therefore, to provide consistency all the figures given as follows are for coverage rather than uptake.

The national standard for breast screening coverage is 70 per cent. and the national standard for cervical screening coverage is 80 per cent. The following tables give coverage figures for the West Midlands Strategic Health Authority (SHA) and South Staffordshire Primary Care Trust (PCT), which covers Tamworth, as at 31 March 2007 for breast and cervical screening.

NHS Breast screening programme: coverage of women aged 53-64 for specified organisations, at 31 March 2007

	Eligible population[1]	Women screened (less than 3 years since last test)	Coverage (less than 3 years since last test) (%)
West Midlands SHA	395,515	311,203	78.7
South Staffordshire PCT[2]	16,885	13,654	80.9

[1] This is the number of women in the registered population less those recorded as ineligible.
[2] Data prior to March 2007 have been mapped to the current PCT structure.

Notes:
1. The coverage of the breast screening programme is the proportion of women resident and eligible that have had a test with a recorded result at least once in the previous three years.
2. Coverage of the screening programme is currently best assessed using the 53-64 age group as women may be first called at any time between their 50th and 53rd birthdays.
3. The breast screening programme covers women aged 50-64 but it was extended to invite women aged 65-70 in April 2001.
4. The last unit began inviting women aged 65-70 in April 2006 and full coverage should be achieved by 2008-09.

Source:
KC 63, the Information Centre for health and social care.

Cervical screening programme: coverage of the Target Age Group (25-64), for specified organisations, at 31 March 2007

	Eligible population[1]	Coverage (less than 3.5 yrs since last adequate test) (%)	Coverage (less than 5 years since last adequate test) (%)
West Midlands SHA	1,350,787	71.2	79.3
South Staffordshire PCT2	148,521	76.6	82.4

[1] This is the number of women in the resident population less those with recall ceased for clinical reasons.
[2] Data prior to March 2007 have been mapped to the current PCT structure.

Note:
National policy for the cervical screening programme is that eligible women aged 25 to 64 should be screened every three or five years (women aged 25 to 49 are screened every three years, those aged 50 to 64 every five years).

KC 53 Parts A2 and A3, the Information Centre for health and social care.

Cancer: Screening

Mr. Jenkins: To ask the Secretary of State for Health what steps are being taken in Staffordshire to increase the uptake of screening for cancer. [193627]

Ann Keen: It is important to remember that no screening method is perfect and anyone invited to be screened for cancer must be aware of both the benefit and harm of being screened and be able to make an informed decision on whether to take part or not.

However, we do recognise the important role that screening plays and, as set out in the "Cancer Reform Strategy", we are taking steps to build on and improve our existing screening services.

This includes extending the age ranges for both breast and bowel screening, so that as many people as possible have the opportunity to be screened. We estimate that this will mean that an extra 3 million men and women will be screened over the next five years.

In the Staffordshire area, it is the responsibility of the West Midlands Strategic Health Authority working in partnership with its primary care trusts (PCTs) including South Staffordshire PCT, local screening services and stakeholders to provide appropriate cancer screening services for their local populations. This includes promotion of local screening services.

Chronically Sick: Lancashire

Mr. Borrow: To ask the Secretary of State for Health what progress has been made in implementing the targets for the National Service Framework for Long-Term Conditions in South Ribble. [192810]

Ann Keen: It is for individual primary care trusts (PCTs), including Central Lancashire PCT, within the national health service to develop locally the levels of service described in the 'National Service Framework for Long-term (Neurological) Conditions' (the NSF). The NSF has a 10-year implementation programme from its publication in March 2005, with flexibility for organisations to set the pace of change locally to take account of differences in local priorities and needs. A copy of the NSF is available in the Library.

Information on the progress that has been achieved locally with regard to the implementation of the targets set out in the NSF can be obtained direct from Central Lancashire PCT.

Dental Services

Mike Penning: To ask the Secretary of State for Health what steps his Department is taking to ensure that oral health is maintained in England? [196866]

Mr. Bradshaw: Oral health in England has improved considerably during the last 30 years and the Government wish to see this improvement maintained.

In 2003 the Government enacted new legislation which gives communities a real option of having their water fluoridated should this be needed to reduce oral health inequalities and improve oral health. A number of areas across the country are now actively considering the possibility of new water fluoridation schemes.

Recognising that it may not be feasible to fluoridate all these high need areas, the Government developed the Brushing for Life programme. Brushing for Life involves health visitors giving families with young children in high need areas advice on preventing dental decay and a free pack containing a tube of fluoridated toothpaste, a toothbrush and a leaflet on oral hygiene. In many areas it is run in close association with Sure Start.

In October 2005 the Government published Choosing Better Oral Health: an oral health plan for England which set out a strategy to reduce oral health inequalities. In September 2007 the Department

published Delivering Better Oral Health: An evidence-based toolkit for prevention, which contains guidance to dentists and other dental care professionals on how to promote oral health and prevent dental disease and provides information to primary care trusts on what preventive care they should be commissioning.

Dental Services: Staffordshire

Mr. Jenkins: To ask the Secretary of State for Health (1) what estimate he has made of the adequacy of NHS dentistry provision in *(a)* Tamworth and *(b)* Staffordshire; [193620]

(2) what steps he is taking to extend provision of NHS dentistry in *(a)* Tamworth and *(b)* Staffordshire. [193621]

Ann Keen: The numbers of dentists on open national health service contracts, in England, as at 30 June 2006, 30 September 2006, 31 December 2006, and 31 March 2007 are available in Table E1 of Annex 3 of the NHS Dental Statistics for England: 2006-07 report. This information is provided by primary care trust (PCT) and by strategic health authority (SHA).

This report, published on 23 August 2007, is available in the Library and is available at:

www.ic.nhs.uk/pubs/dental0607

The numbers published are headcounts and do not differentiate between full-time and part-time dentists, nor do they account for the fact that some dentists may do more NHS work than others.

The methodology for reporting dental workforce information since the introduction of the new dental contractual arrangements, on 1 April 2006, is currently under review. The review is to ensure that the figures provide an appropriate measure of the workforce, given the way that the payments system is being used by PCTs. The workforce data within the report will therefore remain the latest available until this review is complete.

The number of people seen by an NHS dentist, in England, are available in Table C1 of Annex 3 of the "NHS Dental Statistics for England: Quarter 2, 30 September 2007" report. Information is available for the 24-month periods ending 31 March 2006, 31 March 2007, 30 June 2007, and 30 September 2007. The information is provided by PCT and by SHA.

Information on the number of courses of treatment performed, by treatment band, between 1 July 2007 and 30 September 2007, is available in Table A1 of Annex 3 of the report. Information on the number of units of dental activity performed, by treatment band, for the same time period is available in Table B1. Information is provided by PCT and by SHA in both tables.

This report, published on 28 February 2008, is available in the Library and is available at:

www.ic.nhs.uk/pubs/dentalstatsq20708

Information by constituency under the new contractual arrangements is not available.

Both reports have been published by The NHS Information Centre for health and social care.

Increasing the number of patients seen within NHS dental services is now a formal priority in the NHS operating framework for 2008-09 and we have supported this with a very substantial 11 per cent. uplift in overall allocations to PCTs from 1 April 2008.

Departmental Data Protection

Mr. Weir: To ask the Secretary of State for Health whether confidential or personal information has been compromised through the loss of property from his Department since 1997. [193445]

Mr. Bradshaw: Except in exceptional cases, when it is in the public interest, it has been the policy of successive Governments not to comment on breaches of security. However, following the publication of the "Data Handling Procedures in Government: Interim Progress Report" on 17 December 2007, *Official Report*, column 98WS, all Departments will cover information assurance issues in their annual reports. A copy of the Interim Progress Report is available in the Library.

Health Professions: Crimes of Violence

Mr. Jenkins: To ask the Secretary of State for Health (1) how many people were successfully prosecuted for physically abusing doctors and nurses in each of the last five years for which figures are available; [193630]

(2) what estimate he has made of the number of nurses physically abused by patients in each of the last five years for which figures are available; and if he will make a statement. [193631]

Ann Keen: In April 2003 the National Health Service Security Management Service (NHS SMS) was created and assumed responsibility for tackling violence against NHS staff.

Since 2003-04 the NHS SMS has collated data on the number of criminal sanctions following assaults against NHS staff in England. The numbers are in the following table. The numbers of prosecutions following assaults against doctors and nurses are included within these figures and are not available separately.

	Criminal sanctions
2003-04	51
2004-05	759
2005-06	850
2006-07	869

Criminal sanctions include:

cautions and conditional cautions;

community rehabilitation or punishment orders;

imprisonment (including suspended sentences);

conditional discharges; and

fines.

Since 2004-05 the NHS SMS has collected data on the number of physical assaults reported against NHS staff in England for the categories shown in the following table. The numbers of nurses physically assaulted by patients are included within these figures and are not available separately.

Reported assaults by sector	*2004-05*	*2005-06*	*2006-07*
Ambulance service	1,333	1,104	1,006
Acute/foundation trusts	10,758	11,100	9,685
Primary care	5,192	5,145	3,445
Mental health/learning disability	43,097	41,345	41,569
Other (special health authority)	5	1	4
Total	60,385	58,695	55,709

Health Services: Royal Household

Andrew Mackinlay: To ask the Secretary of State for Health what arrangements funded by his Department are made for the provision of primary healthcare services to staff of the Royal Households. [196363]

Mr. Bradshaw *[holding answer 25 March 2008]:* Staff of the royal households are entitled to register with a general practitioner practice for primary medical services just like any other United Kingdom resident.

The Department is not aware of any special provision of primary health care service to staff of the royal households.

Health Services: Scanning

Mr. Drew: To ask the Secretary of State for Health (1) if he will investigate the *(a)* effects on health of services offered by the body-scanning industry and *(b)* the appropriateness of the level of exposure to x-ray technology of those services; and if he will make a statement; [196356]

(2) what steps he plans to take following the Twelfth COMARE report on the use of computerised tomography (CT) to *(a)* improve regulations of the private CT scan industry and *(b)* investigate the advertising of private asymptomatic scans in relation to radioactive content; and if he will make a statement. [196418]

Mr. Bradshaw *[holding answer 25 March 2008]:* In 2005 the Department asked the Committee on Medical Aspects of Radiation in the Environment (COMARE) to include radiation protection aspects of medical practices in its work programme and as a first consideration to report on computerised tomography (CT) scanning of the asymptomatic individual. COMARE produced its 12th report entitled "The impact of personally initiated computer tomography scanning for the health assessment of asymptomatic individuals" in December 2007. The report has been placed in the Library and is also available on the COMARE website at:

www.comare.org.uk/documents/COMARE12thReport.pdf.

COMARE recommended that regulation of these commercial CT services should be reviewed. It also recommends that clients should be provided with comprehensive information regarding dose and risk of the CT scan, as well as rates of false negative and false positive findings. Among its detailed recommendations (nine in all) COMARE noted there is a regulatory requirement that all medical exposures using ionising radiation should be optimised, and that it is not possible to optimise exposure parameters for CT scans of the whole of the body. It has strongly recommended that services offering whole body CT scanning of asymptomatic individuals should discontinue. In addition, CT should not be used in assessment of spinal conditions, body fat and osteoporosis in asymptomatic individuals.

The Department will be consulting widely on implementation of these recommendations.

Hospitals: Infectious Diseases

James Brokenshire: To ask the Secretary of State for Health how many people *(a)* successfully and *(b)* unsuccessfully claimed compensation in relation to a MRSA or clostridium difficile infection contracted in an NHS hospital by (i) themselves and (ii) a family member in each of the last five years. [193817]

Ann Keen: The information requested is shown in the table. The NHS Litigation Authority (NHSLA) provided the information. The year given is the year in which the NHSLA was notified of the claim.

All closed claims where the injury is meticillin resistant Staphylococcus aureus or Clostridium difficile as at 31 December 2007

NHSLA notification year	*Status*	*Claimant is patient*	*Claimant is family member*	*Total*
2002-03	Closed—nil damages	9	6	15
	Settled—damages paid	18	6	24
	Total	27	12	39
2003-04	Closed—nil damages	23	11	34
	Settled—damages paid	21	7	28
	Total	44	18	62
2004-05	Closed—nil damages	38	9	47
	Settled—damages paid	12	3	15
	Total	50	12	62
2005-06	Closed—nil damages	41	9	50
	Settled—damages paid	9	3	12
	Total	50	12	62
2006-07	Closed—nil damages	16	10	26
	Settled—damages paid	7	5	12
	Total	23	15	38
Total	Closed—nil damages	127	45	172
	Settled—damages paid	67	24	91
	Total	194	69	263

Hospitals: Telephones

Anne Milton: To ask the Secretary of State for Health pursuant to the answer of 7 February 2008, *Official Report*, column 1462W, on hospital telephones, what estimate his Department has made of the average cost of an incoming telephone call to a child's bedside telephone; and what assessment he has made of the effect of telephone charges for incoming calls on parents' ability to contact their children while they are in hospital. [190518]

Mr. Bradshaw: The Department recognises how stressful a child's hospital stay can be, which is why the average length of stay has been reduced to two days. The most important issue is to ensure that a child's stay in hospital is kept to a minimum, consistent with achieving a good recovery.

The relevant national service framework for children states that children should have the comfort and reassurance provided by personal contact with close family members. Wherever practicable, hospitals make suitable provisions for parents to stay overnight with their children.

Where this is not possible or practicable for parents to stay, mobile telephones may be used in certain areas of the hospital and bedside telephone systems allow children to maintain contact with friends and relatives.

The cost of a telephone call to the bedside system in a children's ward varies, although, in most cases, it is 39 pence per minute off peak and 49 pence per minute peak rate.

Other options exist for people not wishing to use the bedside telephone systems. These include the traditional payphones and hospital switchboard facilities and mobile telephones which ensure parents can be kept up to date on their child's progress.

No assessment has been made of any effect of telephone charges for parents calling a child while in hospital.

Hospitals: Waiting Lists

Mr. Bone: To ask the Secretary of State for Health what the median number of days wait was for patients to receive hospital treatment following GP referral in England in each month since January 1997 based on hospital episodes statistics. [196395]

Mr. Bradshaw *[holding answer 25 March 2008]*: By December 2008, patients who want it, and for whom it is clinically appropriate, can expect to start their treatment within a maximum of 18 weeks from referral.

Referral to treatment (RTT) waits were not monitored centrally prior to January 2007. Measurement of referral to treatment waiting times for admitted patients commenced in January 2007 and for non-admitted patients from April 2007. The following table shows median referral to treatment waits for both admitted and non-admitted patients since January 2007 and April 2007 respectively.

Average (median) RTT times (commissioner based) for completed pathways

		Days
	Admitted patients	*Non-admitted patients*
January 2007	136	—
February 2007	135	—
March 2007	132	—
April 2007	122	57
May 2007	117	58
June 2007	115	54
July 2007	116	52
August 2007	109	51
September 2007	107	53
October 2007	102	47
November 2007	94	43
December 2007	79	49

Source:
Monthly RTT data collection

Mr. Bone: To ask the Secretary of State for Health how many patients were waiting more than six months for an NHS in-patient operation in each month since October 2005. [196396]

Mr. Bradshaw *[holding answer 25 March 2008]*: The figures are shown in the following table.

Number of patients waiting over six months (26 weeks) for inpatient admission

Month ending	*Provider based*	*Commissioner based*
2005		
October	25,679	24,847
November	12,744	12,297
December	1,021	108
2006		
January	1,014	129
February	954	165
March	939	222
April	928	162
May	888	85
June	884	67
July	913	59
August	834	122
September	1,043	206
October	1,089	353
November	892	212
December	756	138
2007		
January	920	299
February	785	378
March	597	352
April	694	426
May	726	436
June	529	312
July	491	269
August	524	250
September	433	122
October	323	18

Number of patients waiting over six months (26 weeks) for inpatient admission

Month ending	*Provider based*	*Commissioner based*
November	317	77
December	395	106
2008		
January	379	99

Notes:
1. Provider based figures include patients treated in English hospitals but registered with general practitioners (GPs) outside England.
2. Commissioner based figures relate to patients registered with GPs in England, and include national health service funded patients treated outside England or in the independent sector.

Source:
Monthly monitoring return

Locums: Vacancies

Dr. Stoate: To ask the Secretary of State for Health what estimate he has made of the number of vacant locum appointment, *(a)* training posts and *(b)* services posts in secondary care trusts in England; and if he will make a statement. [192879]

Ann Keen: Data regarding locums are not held centrally. Workforce planning is a matter for local determination based on the healthcare needs of the local population, and this would include the appointment and training of locums.

Medical Records: Data Protection

Mr. Stephen O'Brien: To ask the Secretary of State for Health if he will publish the report of the independent evaluation of the security of the care records system. [195840]

Mr. Bradshaw: NHS Connecting for Health insists that penetration tests are conducted on suppliers systems that connect to the national infrastructure. Where weaknesses are identified that would lead to a breach of confidentiality, integrity or availability they are corrected before the systems are brought into service. The outputs from these tests are commercially confidential between the supplier, the evaluator and NHS Connecting for Health. NHS Connecting for Health does, in line with best practice, review the security infrastructure of the National Programme for IT (NPfIT) to allow it to be maintained in line with new technologies and emerging threats. These reviews are conducted on an ongoing basis by both internal security specialists and independent evaluators. The recommendations from these reviews are not made public to avoid compromising security arrangements and to avoid potential criminal exploitation of the information.

The NPfIT has adopted the highest levels of security. The NPfIT contracts require suppliers to comply with comprehensive and detailed security requirements in line with international standards (ISO-27001).

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether patient data contained in limited data sets of the secondary users service are fully anonymised. [195841]

Mr. Bradshaw: Patient data contained in the limited, commissioning, data sets of the Secondary Uses Service are not fully anonymised, as the data are required for some core national health service business purposes.

Medical Records: Databases

Mr. Stephen O'Brien: To ask the Secretary of State for Health, (1) whether the secondary users service will provide data on a commercial basis; [195205]

(2) what steps have been taken to prevent data made available to organisations through the secondary users service giving an unfair advantage in bidding procedures; [195206]

(3) whether patients will be able to opt out of having their data used in limited data sets in the secondary users service. [195207]

Mr. Bradshaw: There are no plans for the secondary users service (SUS) to provide data on a commercial basis. The current proposals for pseudonymised data extracts from the SUS will be available for any supplier who agrees the terms and conditions. Information from the SUS is used for commissioning purposes, and it is therefore not expected that patients would be able to opt out.

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether each accession of the care records system will be monitored by a Caldicott Guardian. [195208]

Mr. Bradshaw: NHS Connecting for Health cannot comment on the specific monitoring process that each Caldicott Guardian within the NHS will employ. However, alerts where there is any potential irregular access will be sent to Caldicott Guardians. There are audit trails of any access to the NHS Care Record Service records which can be made available to Caldicott Guardians.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what the mechanism for monitoring any illicit access to the care records system through the full audit trail will be. [195209]

Mr. Bradshaw: There are a number of mechanisms available to monitor access to the NHS Care Record Service. These mechanisms include:

network based intrusion detection and prevention;

network based access controls, audit and alerting;

user authentication recording and monitoring;

system level security audit trails;

application level security audit trails;

security audit trail reports; and

alerts to the Caldicott Guardian on specific accesses that may indicate unjustified access.

These technology mechanisms are dependent on Caldicott Guardians and Information Governance staff carrying out their roles and responsibilities in conjunction with the policies and processes that national health service organisations are required to adhere to. NHS Connecting for Health has regular communications with the NHS to gain feedback and discuss the various mechanisms for monitoring access provided by the NHS Care Record Service.

Mental Health Services: Security

Norman Lamb: To ask the Secretary of State for Health which secure mental health units in England are categorised as *(a)* low, *(b)* medium and *(c)* high security. [195569]

Mr. Ivan Lewis: Information about the applicable security rating for each low and medium secure psychiatric unit in England is not held by the Department. An unvalidated contact list for medium secure mental health units has been placed in the Library. Low secure mental health services are not consistently defined and there is no central list.

There are three secure units which offer high security services: Ashworth, Broadmoor and Rampton hospitals.

NHS Questionnaires

Mrs. May: To ask the Secretary of State for Health pursuant to the answer of 7 March 2008, *Official Report*, column 2860W, on NHS questionnaires, what the *(a)* subject and *(b)* cost was of each survey conducted by Ipsos MORI on behalf of the Department in 2007-08. [196231]

Mr. Bradshaw: Ipsos MORI were contracted by the Department to carry out four surveys in 2007-08. These, and their associated costs, were:

In 2007-08, the Department has budgeted a total of £10 million for both components of the 'General Practitioner (GP) Patient Survey—Access and Choice'.

Access

The purpose of the Access survey is to measure and reward GPs based on the patients reported experience in accessing their GP in the preceding six month period; and

Choice

The purpose of the Choice survey is to measure and reward GPs based on the proportion of patients whose referring GP discussed the choice's available when referring a patient to hospital.

In 2007-08, the "What Matters to Staff" survey cost £65,800. The purpose of the survey was to identify the major factors pertaining to staff engagement and motivation to provide high quality care so as to establish a clear picture of practical ways senior managers in the national health service can improve how staff feel about their workplace, their colleagues and their roles. The results of the survey are also informing the next stage review.

In 2007-08, the cost to date of the "National Patient Choice" survey is £367,043. The survey asks patients about their experience of choosing and arranging their hospital appointment.

In 2007-08, the cost to date of the "18 Weeks Patient Experience Pilot" is £42,400. The aim of the pilot is to develop a possible survey technique to measure the experience of patients from their referral to treatment under the 18 week waiting initiative.

NHS: Finance

Mr. Lansley: To ask the Secretary of State for Health for what reasons planned NHS spending over the years from 2008-09 to 2010-11 set out in the 2008 Budget report has been reduced from the planned spending set out in the 2007 pre-Budget report for those years. [196730]

Mr. Bradshaw: Planned national health service spending over the years from 2008-09 to 2010-11 as set out in the 2008 Budget report has not been reduced from the planned spending set out in the 2007 pre-Budget report.

The apparent difference in published figures was due to an error in the NHS revenue expenditure reported in the Budget Red Book. The correct revenue figures were presented to Parliament and published on the HM Treasury website on Friday 14 March 2008 at:

www.hm-treasury.gov.uk/media/A/7/bud08_corrections.pdf.

The correction makes it clear that the planned resource delivery expenditure limit (DEL) for NHS England is £97.1 billion in 2008-09, £103.6 billion in 2009-10 and £110.7 billion in 2010-11. Compared to the plans published at the Comprehensive Spending Review and payment by results, these updated figures reflect decisions to allocate more resources to social care within the Department's DEL, including as a result of transfer of functions from the NHS to social care, and minor revenue transfers to other Government departments. The resources involved are £166 million in 2008-09, £236 million in 2009-10 and £230 million in 2010-11.

NHS: Foreigners

John Battle: To ask the Secretary of State for Health what steps he is taking to reclaim monies owed by foreign national visitors to the UK for services delivered by the NHS; and what his most recent assessment is of the amount of outstanding payments during their visits owed to the NHS for such services at the latest date for which figures are available. [196219]

Dawn Primarolo: Under the national health service (Charges to Overseas Visitors) Regulations 1989, as amended, it is for national health service trusts to determine which overseas visitors should pay for any hospital treatment provided to them and to make and recover charges. Where charges are found to apply they cannot be waived for any reason and trusts must take reasonable measures to recover any outstanding debts, which can include the use of debt collection agencies. The Department has issued comprehensive guidance to the NHS on this matter.

Successive governments have not required the NHS to provide statistics on the number of foreign visitors seen, treated or charged under the provisions of the charging regulations nor any costs involved. Therefore, it is not possible to provide information on the value of outstanding payments owed to the NHS.

NHS: ICT

Mr. Stephen O'Brien: To ask the Secretary of State for Health what assessment he has made of the progress of *(a)* iSoft and the Lorenzo system, *(b)* Cerner and the Millennium system and *(c)* IDX and the Carecast system against the (i) development and (ii) implementation timetable of each; and if he will make a statement. [195799]

Mr. Bradshaw: The development of Lorenzo software by iSOFT under a sub-contract to Computer Sciences Corporation has been regularly assessed by NHS Connecting for Health. It is understood that the development plans will enable the deployment of Release 1 of Lorenzo into early adopter sites in the North, Midlands and East Programme for information technology, formerly North West and West Midlands, North East and the East Midlands, in the summer. Release 2 of Lorenzo is due to be ready for deployment in the autumn.

The development of the Cerner Millennium software by Fujitsu in the South of England, where eight hospitals are using the Release 0 version of the software is the subject of a current contract reset. The development of Cerner Millennium software by BT in London has seen the deployment of Release 0 into two hospitals since July 2007 and a further deployment is now due. The next Release LC1 is due to be implemented in the summer.

Agreement on the software requirements and deployment plans became a responsibility of local national health service trusts from April 2007 to provide greater local ownership of the planning and deployment process. It is the responsibility of the local service providers to manage the delivery of the NHS Care Record Service to the contracted timetables and for the management of their sub-contractors and suppliers. NHS Connecting for Health routinely assesses progress against plans and manages the relationship and commercial arrangements with suppliers to ensure that NHS requirements are being met.

Mr. Stephen O'Brien: To ask the Secretary of State for Health on what date deployment of 130 picture archiving and communications system was achieved; and if he will make a statement. [195830]

Mr. Bradshaw: The final picture archiving and communications system (PACS) deployment as part of the national programme for information technology took place on 10 December 2007. This deployment, involving Leeds teaching hospitals trust, marked the completion of a three year process that saw 127 trusts across England receive PACS.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what assessment he has *(a)* commissioned and *(b)* evaluated of the impact on the NHS IT programme of the purchase of iSoft by IBA Healthcare, with particular reference to the (i) financial stability and (ii) cash conversion rate in recent healthcare projects of IBA Healthcare; and if he will make a statement. [195839]

Mr. Bradshaw: It is the responsibility of the local service provider (LSP) with whom the national health service has entered into contract, to assure itself of the financial stability of its sub-contractors and suppliers, and to deliver the NHS Care Record Service solution in accordance with its contractual obligations. NHS Connecting for Health regularly monitors the performance of all information technology prime contractors, including LSPs and sub-contractors, for financial stability. Computer Science Corporation as the relevant LSP, has confirmed the financial stability of IBA Healthcare as its sub-contractor and that the purchase of iSoft by IBA has not adversely impacted on the delivery timescales for the Lorenzo solution to the NHS.

NHS: Internet

Mr. Hoban: To ask the Secretary of State for Health how many pages of content are available on the NHS Direct website; what the cost of operating the NHS Direct website was in 2007; and how many unique visitors to the NHS Direct website there were in each month between June 2007 and February 2008. [195805]

Mr. Bradshaw: The NHS Direct website contains 14,567 unique pages of content. Additionally there are six health tools, 42 self-help guides, and 12 videos.

The total cost of the team of dedicated content authors and editors that work on the NHS Direct website was £212,000 in 2007.

The total number of unique visitors to the NHS Direct website for each month between June 2007 and February 2008 is shown in the following table.

	Number of unique visitors
June 2007	1,426,991
July 2007	1,528,356
August 2007	1,947,373
September 2007	1,929,542
October 2007	2,324,815
November 2007	2,390,630
December 2007	2,174,692
January 2008	2,905,369
February 2008	2,654,651

Over the next year NHS Direct will be working with colleagues at NHS Choices to provide a more integrated health information service for the public. The aim is to not only make online delivery more efficient and effective for government, but also, more importantly, improve the public's experience of health service provision via the internet, phone or television.

NHS: Negligence

Mr. Baron: To ask the Secretary of State for Health what the 100 largest clinical negligence payments were for compensation claims against his Department by award or settlement in the last five years; and what the nature of the complaint was in each case. [196328]

Mr. Bradshaw *[holding answer 25 March 2008]:* The information requested has been placed in the Library, the table shows the top 100 damages payments last five years. The NHS Litigation Authority supplied the information.

The size of award for cases is the total amount paid on closed claims, or for the sum of the outstanding damages reserve and the damages already paid for open claims. Open claims are claims where settlement has been agreed but final payments have not yet been made.

Nurses: Training

Norman Lamb: To ask the Secretary of State for Health how many nurses in England have received training in (*a*) asthma and (*b*) respiratory diseases over the last five years, broken down by primary care trust. [193864]

Ann Keen: The information is not collected centrally.

The annual national health service work force census does not separately identify the number of nurses who have received post-registration training from the rest of the nursing work force.

The Government have supported the development of a range of specialist roles within nursing. However it is for local NHS organisations to commission training places and to deploy specialist nurses in accordance with their local needs.

Nursing and Midwifery Council: Disclosure of Information

Mr. Devine: To ask the Secretary of State for Health what procedures exist for members of the Nursing and Midwifery Council to raise issues of concern (*a*) internally, (*b*) externally and (*c*) with his Department; what guidance his Department provides on these procedures; under what circumstances his Department intervenes in such proceedings; and if he will make a statement. [191964]

Mr. Bradshaw: The Nursing and Midwifery Council (NMC) is an independent regulatory body and as such is responsible for its own internal management practices.

Council members may raise any issue of concern with individuals or bodies they feel might be able to assist, providing they comply with any requirement of confidentiality and codes of conduct of the NMC or the Charity Commission that might apply.

While the Department remains open for discussion with NMC Council members at all times, the Department does not have any specific powers in relation to complaints raised about the NMC or formal procedures for Council members to raise issues of concern.

The Department provides no guidance to Council members on complaints procedures. It is a matter for the NMC, as an independent statutory body, to inform Council members of its own procedures.

The Secretary of State has no powers to intervene in the internal management of the NMC. However, we have asked the Council for Healthcare Regulatory Excellence to consider expediting its annual performance review, including addressing the central question of whether the NMC is fulfilling its statutory functions.

Obesity: Health Education

Mr. Lansley: To ask the Secretary of State for Health pursuant to the Answer of 29 February 2008, *Official Report*, column 1979W, on obesity: health education, for what reasons part of the budget allocated to obesity campaigns was unspent in 2006-07. [194737]

Dawn Primarolo: The reason for the underspend in 2006-07 allocated to obesity campaigns was due to the Government reviewing their approach alongside the development of the Foresight report.

Occupational Health: Cardiovascular System

Mark Simmonds: To ask the Secretary of State for Health what steps his Department is taking to support employers in improving the cardiovascular health of their workforces. [195376]

Mr. Ivan Lewis: The Government recognise the importance of health promotion in the workplace, including cardiovascular health.

Last year the Government asked Dame Carol Black, the National Director of Health and Work, to conduct a review of the health of the working age population.

Dame Carol's report, "Working for a healthier tomorrow", was published on 17 March and contains specific recommendations for Government, health care professionals and employers in this area. There will be a cross Government response to the recommendations later in the year. A copy of this report is available in the Library.

The Government have invested £800,000 in to the Well*a*Work programme, which aims to assess the effectiveness of health promotion interventions in the workplace, including physical activity. Physically active people have up to 50 per cent. reduced risk of major chronic disease such as coronary heart disease, stroke, diabetes and cancer.

Organs: Donors

Mr. Jenkins: To ask the Secretary of State for Health how many organ donors were registered in (*a*) Tamworth and (*b*) Staffordshire in each of the last five years. [193623]

Ann Keen: The numbers joining the NHS Organ Donor Register from the Tamworth and Staffordshire areas for the years 2003 to 2007 are shown in the following table:

	Tamworth	*Staffordshire*[1]
2003	1,249	12,875
2004	1,436	16,419
2005	1,622	16,418
2006	1,897	17,493
2007	1,562	15,835
Total	7,766	79,040

[1] Includes Stoke-on-Trent (unitary authority)

Source:
NHS Blood and Transplant

Palliative Care: Cheshire

Mr. Stephen O'Brien: To ask the Secretary of State for Health what data are used by commissioners to determine accurately the need for specialist palliative and neurological care in Eddisbury. [195318]

Mr. Ivan Lewis: It is for individual primary care trusts (PCTs), including Western Cheshire PCT and the Central and Eastern Cheshire PCT, within the national health service to commission services for their resident population, including end of life care and neurological care, based on an assessment of local needs and priorities. Strategic health authorities are responsible for monitoring PCTs to ensure they are effective and efficient.

The NHS operating framework for 2007-08 asked PCTs, working with local authorities, to undertake a baseline review of their end of life care services. These will allow local commissioners to assess current services, identify gaps and obtain a much clearer view of local need, which will inform local commissioning.

Regarding neurological care, the information strategy published alongside the National Service Framework for Long-term (Neurological) Conditions outlines commissioners' information requirements and a series of local and national actions designed to meet those needs. A copy of the National Service Framework for Long-term (Neurological) Conditions is available in the Library.

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether the National Institute for Health and Clinical Excellence's guidance on supportive and palliative care has been fully implemented in Eddisbury. [195319]

Mr. Ivan Lewis: It is for individual primary care trusts (PCTs), including Western Cheshire PCT and the Central and Eastern PCT, within the national health service to commission services for their resident population, including end of life care, based on assessments of local needs and priorities. The NHS has been required to set out action plans to achieve compliance with the National Institute for Health and Clinical Excellence recommendations on supportive and palliative care. Implementation is being monitored by strategic health authorities (SHAs).

Information on the rate of progress locally can be obtained through the North West SHA.

Patients: Nutrition

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 5 March 2008, *Official Report*, column 2527W, on patients: nutrition, what information is available on the cost of treating patients for nutritional deficiencies. [195339]

Dawn Primarolo: I refer the hon. Member to the answer I gave him on 12 March 2008, *Official Report*, column 477W.

Polyclinics: Rural Areas

Mr. Willis: To ask the Secretary of State for Health pursuant to the answer to the hon. Member for Bromsgrove of 18 March 2008, to Question 194632, on polyclinics (rural areas), if he will write to primary care trust chief executives to clarify that there is no requirement for each primary care trust to have a polyclinic in each primary care trust area. [196347]

Mr. Bradshaw *[holding answer 25 March 2008]*: The Department wrote to strategic health authority chief executives in December to confirm the core criteria that will underpin the development of new general practitioner-led health centres. This letter clarified that local commissioners should determine whether or not to go beyond these criteria to achieve more integrated service models such as polyclinics. A copy of the letter has been placed in the Library.

Pregnancy: Smoking

Mr. Lansley: To ask the Secretary of State for Health what percentage of women have continued to smoke through pregnancy in each year since 1997 for which figures are available, broken down by *(a)* region and *(b)* primary care trust. [195749]

Dawn Primarolo: The information requested is not available in the format requested.

Information on the percentage of mothers nationally who smoked during pregnancy in 1995, 2000 and 2005 is available from the editions of the Infant Feeding Survey as follows.

'Infant feeding 1995: A survey of infant feeding practices in the United Kingdom', Table 3.8 on page 37 which was published on 1 January 1997. This publication is available in the Library.

'The Infant Feeding Survey 2005', Table 10.7 on page 355 which was published on 14 May 2007. This publication has been placed in the Library.

Figures for regional and primary care trust are not available.

Prescriptions: ICT

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) how many and what proportion of prescriptions were issued in each month since the inception of the Electronic Prescriptions Service; and by how many and which *(a)* GP sites and *(b)* community pharmacies; [195201]

(2) how many and what proportion of prescriptions were transferred via the electronic prescriptions service between *(a)* prescribers and dispensers and *(b)* dispenser and the NHS Business Services Division in each month since the inception of the electronic prescriptions service; [195211]

(3) whether the electronic prescriptions service can process prescriptions other than FP10 prescriptions. [195212]

Mr. Bradshaw: In Release 1 of the Electronic Prescription Service (EPS), an electronic message is transmitted to the EPS in parallel with a paper FP10 prescription form which is handed to the patient. This is necessary while a patient may take a prescription to a pharmacy in the transitional period that is not yet using the electronic prescription service. The current scope of Release 1 and Release 2 is prescriptions generated by general practitioner (GP) practices, either GPs, nurse or pharmacist prescribers, and dispensed in the community.

Electronic prescriptions are not planned to be transmitted to the NHS Business Service Authority until Release 2 is in operational use.

The following table provides the total number of electronic messages transmitted through the service between prescriber and dispensers since its inception in February 2005.

Month	Total number of EPS R1 prescription messages generated by GPs	Total number of EPS R2 dispense notification messages sent by pharmacy
February 2005	607	158
March 2005	3,442	1,110
April 2005	2,887	1,284
May 2005	3,576	1,624
June 2005	3,394	780
July 2005	6,135	1,176
August 2005	6,432	1,118
September 2005	14,001	1,904
October 2005	46,039	1,485
November 2005	60,823	1,844
December 2005	68,365	2,431
January 2006	87,074	1,994
February 2006	153,771	666
March 2006	260,898	3,476
April 2006	262,952	2,458
May 2006	439,427	2,227
June 2006	662,362	7,984
July 2006	816,584	4,248
August 2006	1,083,300	7,761
September 2006	1,362,209	8,955
October 2006	1,361,877	17,110
November 2006	1,539,616	22,396
December 2006	1,607,737	23,308
January 2007	1,988,882	31,708
February 2007	2,223,368	44,690
March 2007	2,617,552	59,528
April 2007	2,493,531	51,913
May 2007	3,351,179	89,128
June 2007	3,575,681	126,382
July 2007	4,454,930	158,129
August 2007	4,982,637	191,286
September 2007	4,935,859	226,683
October 2007	6,291,931	271,948
November 2007	5,855,981	276,397
December 2007	5,573,366	255,916
January 2008	6,897,355	370,899
February 2008	6,623,597	428,500
1 to 17 March 2008	4,906,066	243,144
Total[b]		
17 March 2008	75,083,880	2,951,526

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many and what proportion of repeat prescriptions were transferred via the electronic prescriptions service in each month since its inception. [195213]

Mr. Bradshaw: Repeat electronic prescriptions will be transmitted through the electronic prescriptions service with the enablement of Release 2. At present, the system is unable to distinguish practice instigated repeat prescriptions compared to other prescriptions.

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) how many and what percentage of GP sites were technically live on the Electronic Prescriptions Service system in each month since its inception, and how many and what percentage of GP sites were using the Electronic Prescriptions Service system in each month since its inception. [195257]

(2) how many and what percentage of community pharmacies were technically live on the electronic prescription service system in each month since its inception. [195274]

Mr. Bradshaw: The information requested is shown in the following table.

	Technical go live—general practitioner	Percentage based on 8,480 sites	Technical go live—pharmacy	Percentage based on 10,663 sites
February 2005	2	0.0	1	0.0
March 2005	2	0.0	1	0.0
April 2005	2	0.0	1	0.0
May 2005	17	0.2	2	0.0
June 2005	61	0.7	3	0.0
July 2005	118	1.4	3	0.0
August 2005	167	2.0	5	0.0
September 2005	179	2.1	7	0.1
October 2005	198	2.3	7	0.1
November 2005	468	5.5	10	0.1
December 2005	610	7.2	11	0.1
January 2006	650	7.7	12	0.1
February 2006	739	8.7	17	0.2
March 2006	998	11.8	219	2.1
April 2006	1,083	12.8	243	2.3
May 2006	1,226	14.5	1,404	13.5
June 2006	1,408	16.6	1,425	13.8
July 2006	1,536	18.1	1,493	14.4

	Technical go live - general practitioner	Percentage based on 8,480 sites	Technical go live - pharmacy	Percentage based on 10,363 sites
August 2006	1,864	22.0	1,809	17.5
September 2006	1,987	23.4	2,195	21.2
October 2006	2,185	25.8	3,395	32.8
November 2006	2,289	27.0	3,544	34.2
December 2006	2,335	27.5	3,626	35.0
January 2007	2,375	28.0	3,950	38.1
February 2007	2,402	28.3	4,132	39.9
March 2007	2,815	33.2	4,340	41.9
April 2007	3,885	45.8	4,587	44.3
May 2007	5,023	59.2	4,933	47.6
June 2007	5,924	69.9	5,527	53.3
July 2007	5,980	70.5	6,036	58.2
August 2007	6,028	71.1	6,605	63.7
September 2007	6,177	72.8	6,971	67.3
October 2007	6,462	76.2	7,326	70.7
November 2007	6,552	77.3	7,652	73.8
December 2007	6,612	78.0	7,833	75.6
January 2008	6,649	78.4	8,052	77.7
February 2008	6,664	78.6	8,154	78.7
March 2008	6,667	78.6	8,159	78.7

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many deployments of the general practitioner system for the electronic prescriptions service have been made, broken down by (*a*) local service provider and (*b*) practice. [195263]

Mr. Bradshaw: Existing general practitioner (GP) system suppliers have developed systems that support release one of the electronic prescriptions service (EPS). The EPS has been deployed to 6,663 (79 per cent.) GP practices in England. Through the local service providers, a number of alternative GP systems have been provided to 699 GP practices.

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many and what percentage of dispensing appliance contractors were technically live on the electronic prescriptions service system in each month since its inception, and how many and what percentage of dispensing appliance contractors were using the electronic prescriptions service system in each month since its inception. [195276]

Mr. Bradshaw: There are no dispensing appliance contractors participating in release one of the electronic prescription system.

Prostate Cancer: Screening

Mr. Jenkins: To ask the Secretary of State for Health how many prostate screenings there were in (*a*) Tamworth and (*b*) Staffordshire in each of the last five years. [193625]

Ann Keen: The national health service, including the South Staffordshire Primary Care Trust, does not operate a prostate cancer screening programme. There is currently insufficient evidence from any country in the world to show that screening would reduce deaths from prostate cancer. The Government are committed to introducing a national screening programme for prostate cancer if and when screening and treatment techniques are sufficiently well developed. The United Kingdom National Screening Committee keeps screening for prostate cancer under review.

The prostate cancer risk management programme was established in 2002 to ensure that men considering a prostate specific antigen (PSA) test are given information concerning the benefits, limitations and risks associated with having a test. Figures on the number of PSA tests taken as a result of the programme are not collected centrally.

Mr. Jenkins: To ask the Secretary of State for Health (1) what percentage of male prisoners eligible for prostate cancer screening have been screened in the last three years; [193634]

(2) what percentage of males eligible for prostate cancer screening have been screened in the last three years in England. [193635]

Ann Keen: The national health service does not operate a prostate cancer screening programme. There is currently insufficient evidence from any country in the world to show that screening would reduce deaths from prostate cancer. The Government are committed to introducing a national screening programme for prostate cancer if and when screening and treatment techniques are sufficiently well developed. The United Kingdom national screening committee keeps screening for prostate cancer under review.

The prostate cancer risk management programme (PCRMP) was established in 2002 to ensure that men considering a prostate specific antigen (PSA) test are given information concerning the benefits, limitations and risks associated with having a test. Figures on the number of PSA tests taken as a result of the programme are not collected centrally.

Radiography: West Midlands

Mr. Jenkins: To ask the Secretary of State for Health what forecasts he has made for the future requirements for (*a*) radiographers and (*b*) radiologists in (i) Tamworth and (ii) the West Midlands. [193628]

Ann Keen: Local national health service organisations are best placed to assess the health needs of their local health community and plan the work force they need.

The Department does collect the number of radiographers and radiologists working in the NHS. Data for the West Midlands and the NHS organisations which cover the Tamworth area have been set out in the following table, including figures for 1997 and the three most recent years for which data are available.

NHS hospital and community health services: Qualified diagnostic radiography staff and medical staff within the radiology group of specialties in England by strategic health authority (SHA) area and specified organisation as at 30 September each specified year

Headcount

	1997	*2004*	*2005*	*2006*
England	12,428	15,058	15,726	15,739
Diagnostic Radiographers	10,364	12,147	12,700	12,535
Radiologists	2,064	2,911	3,075	3,204
of which				
West Midlands SHA area	1,274	1,601	1,638	1,625
Diagnostic Radiographers	1,082	1,312	1,345	1,324
Radiologists	192	289	293	301
of which				
Mid Staffordshire General Hospitals NHS Trust	45	60	70	72
Diagnostic Radiographers	40	54	65	65
Radiologists	5	6	5	7
South Staffordshire Primary Care Trust (PCT)[1]	n/a	13	13	13
Diagnostic Radiographers	n/a	13	13	13
Radiologists	0	0	0	0

n/a = Not applicable

[1] In 2006 Burntwood, Lichfield and Tamworth PCT, Cannock Chase PCT, East Staffordshire PCT and South Western Staffordshire PCT merged to form the South Staffordshire PCT. Figures prior to 2005 are an aggregate of these four predecessor organisations.

Note:

More accurate validation processes in 2006 have resulted in the identification and removal of 9,858 duplicate non-medical staff records out of the total work force figure of 1.3 million in 2006. Earlier years' figures could not be accurately validated in this way and so will be slightly inflated. The level of inflation in earlier years' figures is estimated to be less than 1 per cent. of total across all non-medical staff groups for headcount figures (and negligible for full time equivalents). This should be taken into consideration when analysing trends over time.

The Information Centre Non Medical Workforce Census.

The Information Centre for health and social care Medical and Dental Workforce Census.

Radiotherapy

Bill Wiggin: To ask the Secretary of State for Health pursuant to the answer of 3 March 2008, *Official Report*, columns 2105-6W, on radiotherapy, how many patients had (*a*) part funded and (*b*) fully funded proton therapy abroad; in which countries patients have received proton therapy treatment; and if he will make a statement. [193112]

Ann Keen: Information on the number of patients who have funded or part funded proton beam therapy abroad is not collected centrally.

Patients have been referred to Switzerland for proton beam therapy.

From April 2008 proton therapy for suitable cancers other than eye cancers, which can be treated in the United Kingdom, will be nationally commissioned from overseas. In the longer term, the Department will consider options for providing modern proton therapy services in this country.

Secure Psychiatric Units: Capacity

Jenny Willott: To ask the Secretary of State for Health what the maximum capacity of provision for (*a*) NHS and (*b*) independent sector secure mental healthcare places has been, broken down by establishment, in each of the last 10 years; and if he will make a statement. [196072]

Mr. Ivan Lewis: The information is not available in the form requested. The available data are collected on the numbers of mental health and learning disability secure unit beds in national health service units, and do not include independent sector beds. The data are not broken down by establishment.

Data on the average daily number of mental health secure unit beds, and learning disability secure unit beds in NHS units in England over the last ten years are set out in the following table.

Average daily number of mental health and learning disability secure unit beds in NHS units

	1997-98	1998-99	1999-2000	2000-01	2001-02
Available mental illness	1,921	1,747	1,882	1,952	1,848
Occupancy mental illness	1,566	1,578	1,750	1,792	1,699
Available learning disability	439	422	404	431	407
Occupancy learning disability	404	326	359	408	381

Average daily number of mental health and learning disability secure unit beds in NHS units

	2002-03	2003-04	2004-05	2005-06	2006-07
Available mental illness	2,064	2,569	2,696	2,807	2,993
Occupancy mental illness	1,867	2,378	2,472	2,545	2,722
Available learning disability	508	514	503	526	516
Occupancy learning disability	482	470	484	502	489

[1] The definitions of mental health and learning disability secure unit beds, for the purposes of the KH03 annual beds collection, are:
Mental illness - Other ages, secure unit
an AGE GROUP INTENDED of National Code 8 'Any age', a BROAD PATIENT GROUP CODE of National Code 5 'Patients with mental illness' and a CLINICAL CARE INTENSITY of National Code 51 'for intensive care: specially designated ward for patients needing containment and more intensive management This is not to be confused with intensive nursing where a patient may require one to one nursing while on a standard ward'.
Learning disabilities - Other ages, secure unit
an AGE GROUP INTENDED of National Code 8 'Any age', a BROAD PATIENT GROUP CODE of National Code 6 'Patients with learning difficulties' and a CLINICAL CARE INTENSITY of National Code 61 'designated or interim secure unit'.
Source:
Department of Health Dataset KH03[1]

These figures do not represent the full level of secure services available to the NHS. "Low secure" mental health services are not consistently defined and may well fall outside the definitions used for this data collection. This means that the figures above mainly show the numbers in high and medium secure mental health services in NHS units. These figures also only show NHS beds and not those commissioned by the NHS and provided by independent sector providers.

Secure Psychiatric Units: Finance

Jenny Willott: To ask the Secretary of State for Health how much has been spent on *(a)* NHS and *(b)* independent sector secure mental healthcare places for offenders in each of the last 10 years, broken down by (i) primary care trust and (ii) local health board; and if he will make a statement. [196069]

Mr. Ivan Lewis: The information is not available in the form requested. Information on spending on low and medium secure services is not collected in this format, and is not broken down by establishment.

Information is available on the total spend on high secure services for the last five years, based on service level agreements between the high security hospitals and commissioners[1]. This is set out in the following table. The spending figures include offenders and non-offenders.

[1] The figures exclude Dangerous and Severe Personality Disorder programme patients.

	Total spend on high secure services in £000
2002-03	178,967
2003-04	190,854
2004-05	201,574
2005-06	212,489
2006-07	218,817

Seroxat

David Taylor: To ask the Secretary of State for Health what assessment he has made of GlaxoSmithKline's (GSK) use in the UK of negative results from Seroxat trials; and who the *(a)* UK and *(b)* non-UK based professional registrants were who had (i) managerial and (ii) clinical responsibility for GSK's nine seroxat trials involving children between 1994 and 2002. [196847]

Dawn Primarolo: A detailed criminal investigation was undertaken by the Medicines and Healthcare products Regulatory Agency (MHRA), into whether GlaxoSmithKline withheld information from paediatric clinical trials of their drug Seroxat. The report on the outcome of the investigation has been published and is available in the Library and also on the MHRA website at:

www.mhra.gov.uk/NewsCentre/Pressreleases/CON074152

The MHRA does not normally release personal data, supplied in an expectation of confidence, in accordance with Sections 38 and 40 of the Freedom of Information Act 2000.

Seroxat: Children

David Taylor: To ask the Secretary of State for Health with reference to the Written Ministerial Statement of 8 March 2008, *Official Report*, column 121WS, on GlaxoSmithKline (MHRA investigation), what discussions he has had with the Chief Executive of the Medicines and Healthcare Regulatory Authority on its investigation of the trials of Seroxat involving children between 1994 and 2002. [196777]

Dawn Primarolo *[holding answer 25 March 2008]:* Departmental Ministers were briefed on a regular basis on the progress of the investigation into the compliance of GlaxoSmithKline with relevant legislation, and on the conclusion of the investigation, in advance of the written ministerial statement.

Suicide: Young People

Dr. Francis: To ask the Secretary of State for Health (1) what recent discussions he has had with appropriate agencies on suicides amongst young people; and if he will make a statement; [196525]

(2) whether the subject of assistance to suicide prevention amongst young people was on the agenda of recent Ministerial level meetings with the Welsh Assembly Government; whether any cross-border services are envisaged; and if he will make a statement. [196783]

Mr. Ivan Lewis: There have been no discussions with appropriate agencies nor have discussions taken place at ministerial level with the Welsh Assembly Government about suicides among young people. Officials responsible for implementing the National Suicide Prevention Strategy for England continue to engage with relevant agencies and organisations in considering appropriate measures to take to reduce the risk of suicide among the general population, including young people. In addition, the Suicide Prevention Strategy Advisory Group, chaired by Professor Louis Appleby, meets twice yearly and provides leadership, expert advice and guidance on implementation of the suicide prevention strategy. Membership of this group includes researchers and representatives of Samaritans and PAPYRUS, an organisation committed to the prevention of young suicide.

In addition, the five nations, representing England, Scotland, Northern Ireland, Wales and Republic of Ireland, have established a suicide prevention strategies coordinating group to share information, research and evidence on suicide prevention actions among the five nations. This group meets on a regular basis.

West Hertfordshire NHS Acute Trust: Manpower

Mike Penning: To ask the Secretary of State for Health how many full-time equivalent *(a)* medical consultants, *(b)* other medical staff, *(c)* nurses, *(d)* other professional health care staff, *(e)* administrative and clerical staff and *(f)* auxiliary staff were employed by West Herts NHS Acute Trust in each year since 1996-97. [193400]

Ann Keen: The information is set out in the following table. The most recent year for which data are available is 2006.

The numbers of full-time equivalent national health service staff in the West Hertfordshire Hospitals NHS Trust[1] as at 30 September in each year since 1996

	1996	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006
Hospital and Community Health Services(HCHS) medical consultants	137	153	146	145	143	161	159	156	161	153	152
HCHS dental consultants	2	4	3	2	2	2	3	2	2	2	3
Other HCHS medical staff	254	291	269	276	264	267	271	267	332	320	344
Other HCHS dental staff	5	6	7	8	6	1	1	1	2	5	5
Qualified nursing, midwifery and health visiting staff	1,362	1,326	1,377	1,184	1,091	1,259	1,176	1,301	1,321	1,208	1,237
Qualified scientific, therapeutic and technical staff	498	493	483	483	462	475	495	467	483	384	382
Support to clinical staff	1,016	855	879	790	740	900	919	1,132	1,171	1,050	960
NHS infrastructure support	677	512	525	359	366	481	539	574	583	583	518
Other staff or those with unknown classification	8	2	5	0	0	0	0	0	0	0	0

[1] In 2000, Mount Vernon and Watford Hospitals and St. Albans and Hemel Hempstead NHS Trusts merged to form the West Hertfordshire Hospitals NHS Trusts. Figures prior to 2000 are an aggregate of these two predecessor organisations.

Note

Full-time equivalent figures have been rounded to the nearest whole number. Data for 2007 are released on 14 March.

JUSTICE

Antisocial Behaviour: Fixed Penalties

James Brokenshire: To ask the Secretary of State for Justice what recent estimate he has made of the re-offending rate of recipients of penalty notices for disorder in the latest period for which figures are available. [195648]

Mr. Hanson: Re-offending rates for recipients of penalty notices for disorder are not currently measured. Work is currently under way to assess the feasibility of reporting re-offending rates for recipients of penalty notices for disorder. The feasibility study is due to be complete in the summer.

Adult re-offending includes re-offending for offenders discharged from custody or commencing community sentences, while juvenile re-offending also includes offenders who received reprimands, final warnings and other court convictions.

Burglary: Sentencing

Jenny Willott: To ask the Secretary of State for Justice what changes were made to the sentencing guidelines for *(a)* magistrates and *(b)* Crown courts on burglary offences in each of the last 10 years; and if he will make a statement. [196119]

Mr. Hanson: Magistrates Courts Sentencing Guidelines, produced by the Magistrates Association with the support of the Lord Chancellor, cover the main offences dealt with in those courts, including burglary. The guidelines were revised in September

2000 and January 2004 and are currently under review by the Sentencing Guidelines Council.

The Court of Appeal issued guidance on domestic burglary in the case of R v. McInerney and Keating (2003) 2 Cr App R (S) 39, which incorporated and added to the guidance in R v. Brewster (1998) 1 Cr App R (S) 181. On 10 March, the Sentencing Guidelines Council issued a draft consultation guideline on theft and burglary (non-dwelling) and will issue a definitive guideline in due course. In December 2004, the Council issued guidelines on seriousness, "Overarching principles: seriousness, and Reduction in sentence for a guilty plea", which apply in all cases. The latter guideline was revised in July 2007.

Courts: Security

Mr. Arbuthnot: To ask the Secretary of State for Justice what minimum level of security staffing is required at *(a)* magistrates' courts and *(b)* other courts; and if he will make a statement. [197043]

Maria Eagle: There is no minimum level of security staffing required at any of the courts within HMCS. Security in courts is provided by designated court security officers (CSOs) appointed by the Lord Chancellor and the number of CSOs is arrived at by assessing the security needs of each court, taking into account the business of that court, existing vulnerabilities and the history of incidents.

Criminal Justice Information Technology

Mr. Ruffley: To ask the Secretary of State for Justice what projects the criminal justice information technology unit has managed which began after 2002; what the *(a)* originally estimated and *(b)* actual costs were for each project; and what the (i) estimated and (ii) actual completion dates were for each project. [195612]

Maria Eagle: CJIT managed two projects: Secure eMail and the CJS Exchange.

In the business case issued in March 2003, Secure eMail was estimated to cost £23 million (including operating costs to the end of 2007-08) and be fully deployed by April 2004. Secure eMail was delivered in May 2004 and to date has cost £22 million.

In the business case issued in March 2004, CJS Exchange was estimated to cost £175 million to the end of 2007-08 (including operating costs) and to have completed the roll-out of the scope (as defined at that time) by March 2006. To date, CJS Exchange has cost £162 million. Deployment of the remaining elements from the original scope will be completed by December 2008 at an additional cost of £5 million.

The CJS Exchange is an asset that is designed to be utilised, developed and expanded by Criminal Justice Organisations who want to join their systems with other CJS systems or who want to provide access to information within their systems to staff across the wider CJS. The scope of the programme has therefore changed since its inception in order to meet new demands and changing requirements.

Criminal Justice Information Technology: Manpower

Mr. Ruffley: To ask the Secretary of State for Justice how many people work in the criminal justice information technology unit; and what the unit's budget is for 2007-08. [195611]

Maria Eagle: As of April 2007, the number of staff working at Criminal Justice IT was:

	Staff on headcount	*Service contract staff*
Portfolio and Director's Office	15	3
Programme Unit	23	46
Technology Unit	18	12
Service Delivery	11	1
Total	67	62

The staff on Service Contract included resources working on CJS IT ring fence funded projects. This figure fluctuated monthly, dependent on business demand, and significantly reduced in number over 2007-08.

The CJIT 2007-08 financial delegation from the CJS IT ring fence budget was £72.51 million.

Driving Under Influence: South Yorkshire

Jeff Ennis: To ask the Secretary of State for Justice how many *(a)* arrests, *(b)* prosecutions and *(c)* convictions for drink-driving there were in (i) Barnsley East and Mexborough constituency, (ii) Barnsley Metropolitan Borough and (iii) Doncaster Metropolitan Borough in each year since 2002. [195757]

Maria Eagle: The arrests collection held by my Department covers persons arrested for recorded crime (notifiable offences), by main offence group (e.g. violence against the person, sexual offences, robbery, burglary, theft and handling stolen goods, etc) and police force area within England and Wales. Information on summary motoring offences including those of driving etc after consuming alcohol or taking drugs are non-notifiable and as a result are not covered by the collection.

Available information held on prosecutions and findings of guilt for offences of driving under the influence of alcohol or drugs for the years 2002 to 2005 (latest available) is provided in the following table. 2006 data will be available later this year. The data provided cover both drink and drugs offences combined, as volumes of prosecutions and convictions for driving under the influence of alcohol or drugs cannot be accurately established.

Information is available at police force area level only.

Proceedings at magistrates courts and findings of guilt at all courts for offences of driving etc after consuming alcohol or taking drugs[1], within South Yorkshire police force area, 2002-05

	Number of offences	
	Proceedings	*Findings of guilt*
2002	2,165	1,945
2003	2,397	2,089
2004	2,474	2,224

Proceedings at magistrates courts and findings of guilt at all courts for offences of driving etc. after consuming alcohol or taking drugs[1], within South Yorkshire police force area, 2002-05

	Number of offences	
	Proceedings	*Findings of guilt*
2005	2,430	2,220

[1] Data provided cover summary offences of driving etc. after consuming alcohol or taking drugs (which cannot be reliably distinguished separately).

Notes:

1. It is known that for some police force areas, the reporting of court proceedings in particular those relating to summary motoring offences, may be less than complete.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Drugs: Sentencing

Jenny Willott: To ask the Secretary of State for Justice what changes were made to the sentencing guidelines for *(a)* magistrates and *(b)* Crown courts on drug offences in each of the last 10 years; and if he will make a statement. [196120]

Mr. Hanson: Magistrates Courts Sentencing Guidelines, produced by the Magistrates Association with the support of the Lord Chancellor, cover the main offences dealt with in those courts, including drugs offences. The guidelines were revised in September 2000 and January 2004 and are currently under review by the Sentencing Guidelines Council.

The Court of Appeal provided guidelines on: supply and dealing in Class A drugs in the cases of R *v.* Diahit (1999) 2 Cr App R (S) 142, R *v.* Twisse (2001) 2 Cr App R (S) 37, and R *v.* Afonso and others (2004) EWCA Crim 2342; the importation of controlled drugs in the case of R *v.* Mashootlahi (2001) 1 Cr App R (S) 330; Class B drugs—amphetamine in the case of R *v.* Wijs and others (1999) 1 Cr App R (S) 181; cannabis (prior to its classification as a Class C drug) in the case of R *v.* Ronchetti (1998) 2 Cr App R (S) 100; possession with intent to supply—LSD in the case of R *v.* Hurley (1998) 1 Cr App R (S) 29; purity analysis of Class A drugs in the case of R *v.* Morris (2001) 1 Cr App R (S) 297; and cultivating cannabis in the case of R *v.* Herridge (2005) EWCA Crim 1410. In December 2004, the Council issued guidelines on seriousness, "Overarching principles: seriousness, and Reduction in sentence for a guilty plea", which apply in all cases. The latter guideline was revised in July 2007. The Sentencing Advisory Panel is currently undertaking research and background work on drug offences, which is the first stage in the process of producing sentencing guidelines.

Email

Mr. Ruffley: To ask the Secretary of State for Justice how many *(a)* webmail users and *(b)* server users in the criminal justice system use Secure eMail; and how many emails were sent across the system in each month since February 2004. [195609]

Maria Eagle: The information requested is as follows.

Web mail users

There are 5,070 web mail users (as of February 2008).

Server users

There are 9,731 server users known to the CJSM Directory (as of February 2008).

Emails sent in each month since February 2004

Figures for the number of messages sent across the service since February 2004 are not available. However, the figures from November 2004 to February 2008 are as follows:

	2004	*2005*	*2006*	*2007*	*2008*
January		34,441	133,308	264,557	466,102
February		27,972	194,532	273,838	488,577
March		31,806	229,088	365,198	
April		38,130	189,311	285,628	
May		34,115	223,441	315,779	
June		48,184	246,448	350,629	
July		30,404	261,010	353,964	
August		44,042	243,846	374,764	
September		60,898	251,408	357,493	
October		78,524	255,386	424,841	
November	20,100	115,529	262,626	431,158	
December	21,452	118,465	218,003	371,335	

The number of emails sent across the service has steadily increased over the period since 2004. The same is true for the web mail users and server users.

Judges: Transport

Norman Baker: To ask the Secretary of State for Justice how much was spent between April and November 2007 on vehicles contracted by the Government Car and Despatch Agency to transfer high court judges between their official residences and the courts. [195936]

Mr. Straw: The amount spent between April and November 2007 on vehicles contracted by the Government Car and Despatch Agency for use in the transfer of high court judges between their official residences and the courts was £289,000. This figure contains a small element of costs associated with other official visits related to the high court judges' time out on circuit, including inspection visits to prisons, sites of crime and some official public functions and not just those between the lodgings and courts.

Legal Aid: Northern Ireland

John Robertson: To ask the Secretary of State for Justice what steps he plans to take to increase access to criminal legal aid in Northern Ireland. [195498]

Mr. Hanson: In Northern Ireland the judiciary are responsible for determining applications for criminal legal aid applying the statutory tests of whether the applicant has insufficient means and the interests of justice.

In 2005, the most recent year for which statistics are available, 97 per cent. of defendants who applied were granted criminal legal aid. There is therefore no

evidence to suggest that there is a need to increase access to criminal legal aid.

Legal Services Commission: Recovery of Costs

Mr. Bellingham: To ask the Secretary of State for Justice how much the Legal Services Commission received by way of (a) recovered costs and (b) interest on statutory charges in each year since 1997. [195956]

Maria Eagle: I refer the hon. Member to the answer I gave to the hon. Member for Guildford (Anne Milton) on 25 January 2008, *Official Report*, column 2206W.

National Offender Management Service: Expenditure

Mr. Austin Mitchell: To ask the Secretary of State for Justice what the cost of the National Offender Management Service was in 2006-07. [196147]

Mr. Hanson: The cost of the National Offender Management Service in 2006-07 was £4.3 billion resource and £0.4 billion capital expenditure. This includes expenditure on public and private prisons, 42 probation boards and the Youth Justice Board, as well as central policy and administrative functions. The capital expenditure was mainly on the prisons estate.

National Offender Management Service: Probation

Mr. Austin Mitchell: To ask the Secretary of State for Justice how many offenders are directly managed or supervised by staff of the National Offender Management Service. [196146]

Mr. Hanson: At 30 June 2007 there were a total of 254,762 offenders in prison or being supervised in the community by the Probation Service in England and Wales. The number of offenders supervised by the Probation Service in the community (either under court orders or under post release licence) was 175,028. The number detained in prison was 79,734.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

National Offender Management Service: Standards

Mr. Bellingham: To ask the Secretary of State for Justice what proportion of the National Offender Management Service management board received box A markings in their latest performance and development reviews; who was responsible for the award of these markings; and if he will make a statement. [196097]

Mr. Hanson: The members of the National Offender Management Service management board are all Senior Civil Servants (SCS). As such, they do not receive box markings. Under current arrangements, members of the SCS are assessed by their line manager and a judgment is made of how well individuals have performed relative to their peers. All SCS are ranked in tranches. Three members of the NOMS management board received the highest tranche marking in the latest performance and development review.

Prison Service: Public Appointments

Mr. Bellingham: To ask the Secretary of State for Justice what recruitment process was used to fill the post of Deputy Director General of HM Prison Service following the retirement of Peter Atherton; where the post was advertised; how many applications were received; what selection criteria were used; and who comprised the selection panel. [195957]

Maria Eagle: The role of Deputy to the Director General of the Prison Service was re-introduced following the publication of the Prison Service Review in October 1997. The functions of this role are carried out by an existing member of the Prison Service Management Board. It is not, therefore, a separately advertised post.

Prisoners

David Davis: To ask the Secretary of State for Justice how many prisoners were held in prisons over 50 miles from their homes in the last 12 months. [195549]

Mr. Straw: As of September 2007, the latest date for which information is available, there were approximately 33,150 prisoners held over 50 miles from their home address.

Where no home address is listed for a prisoner the committal court has been used as a proxy address.

In the previous five years the level of prisoners in this circumstance is in the following table.

	Snapshot of prisoners held over 50 miles from their homes (to nearest 100)
2002	25,700
2003	26,800
2004	27,300
2005	27,600
2006	27,800

The increase by September 2007 reflects increased pressure of numbers on the prison estate. Everyone involved is working hard to bring the level down.

Prisoners Transfers

Jenny Willott: To ask the Secretary of State for Justice (1) how much his Department spent on prison transfers in each of the last 10 financial years; and if he will make a statement; [196135]

(2) how many prisoners have been transferred between prisons during their sentence since April 2007; and if he will make a statement. [196136]

Mr. Hanson: Details of expenditure on inter-prison transfer services by the inter-prison transfer contractor for each financial year since 2001-02 are set out in the following table. Data are not available for financial years 1997-98 to 2000-01.

Financial year	Cost (£)
2001-02	5,390,061
2002-03	5,390,061
2003-04	5,147,078
2004-05	5,798,057
2005-06	5,786,057
2006-07	7,906,739
2007-08 (to February)	7,006,886

The following table shows the number of inter-prison transfers under the inter-prison transfer contract in each month since April 2007. A breakdown of the number of transfers of sentenced and unsentenced prisoners under the inter-prison transfer contract is not held separately.

	Inter-prison Transfers
April 2007	5,302
May 2007	6,183
June 2007	6,028
July 2007	7,253
August 2007	6,341
September 2007	6,185
October 2007	6,504
November 2007	6,428
December 2007	5,297
January 2008	6,838
February 2008	6,256

In addition to this there are prisoner transfers that are managed locally. These are not recorded centrally.

Prisoners: Compensation

David Davis: To ask the Secretary of State for Justice how many claims for compensation were made by inmates of each (*a*) prison and (*b*) young offenders institution in each year between 2000 and 2007; and how much was paid in compensation. [195547]

Mr. Straw: The following table details the number of compensation claims received from prisoners over the last three financial years and the total amount paid in compensation, whether by way of out of court settlement or by a court award. The figures exclude private establishments. Compensation figures prior to 2004-05 were not collated centrally and those for 2007-08 have not been finalised.

The claims received each year may not be the same as those that are settled in the same period, as litigation often takes several years to resolve.

Prisoners: Foreigners

David Davis: To ask the Secretary of State for Justice how many foreign prisoners from each country of origin there were in prisons in England and Wales on 1st March 2008. [195548]

Mr. Straw: The following table gives a breakdown by nationality of all foreign national prisoners in prison establishments in England and Wales as at 31 December 2007. It is available quarterly as table 5 within the Population in custody monthly published tables at the following website:

http://www.justice.gov.uk/publications/populationincustody.htm

The latest edition containing table 5 is given at:

http://www.justice.gov.uk/docs/population-in-custody-dec07.pdf

The following is the link to the publication schedule for RDS-NOMS publications:

http://www.justice.gov.uk/publications/stats-pub-schedule.htm

The next bulletin on foreign nationals will be for March 2008, published at the end of April.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Information on the country of origin of individual prisoners is not available, and may not be the same as their nationality.

Data Sources and Quality

These figures have been drawn from administrative IT systems. Care is taken when processing and analysing the returns, but the detail collected is subject to the inaccuracies inherent in any large scale recording system and so although shown to the last individual, the figure may not be accurate to that level.

Probation: Community Orders

Mr. Llwyd: To ask the Secretary of State for Justice what assessment he has made of the effect on Probation Service resources of an increase in the use of community penalties by magistrates' courts. [195665]

Maria Eagle: There is no simple relationship between the number of community penalties passed and their resource impact upon the probation service. The cost of community penalties is related to the number of such sentences, the risk profile of the offenders made subject to them, the number and nature of requirements included in them and their length. The impact of any rise varies with other changes in the mix of probation workload, such as the number of reports to be prepared and the number of offenders to be supervised on release from custody.

New community penalties to be supervised by the probation service rose by 5 per cent. between September 2006 and September 2007. The caseload of such cases under supervision at any one time rose by 3 per cent. over the same period.

An additional £40 million has recently been made available to the probation service for the specific purpose of supporting local plans to promote confidence in the use of community penalties.

Protection from Harassment Act 1997

James Brokenshire: To ask the Secretary of State for Justice how many (*a*) arrests, (*b*) prosecutions and (*c*) convictions there were for offences under (i) the Protection from Harassment Act 1997 and (ii) the Malicious Communications Act 1988 in each of the last 10 years. [195647]

Maria Eagle: The arrests collection undertaken by the Ministry of Justice provides data on persons arrested for recorded crime (notifiable offences) only, by age group, gender, ethnicity, and main offence group, i.e. violence against the person, sexual offences, robbery, burglary, etc. It is not possible to separately identify specific offences from within the main offence groups.

The number of defendants proceeded against at magistrates courts and found guilty at all courts for offences under the Protection from Harassment Act 1997 and the Malicious Communications Act 1988 in England and Wales for the years 1997 to 2006 can in England and Wales for the years 1997 to 2006 be viewed in the following table.

Number of defendants proceeded against at magistrates courts and found guilty at all courts for offences under the Protection from Harassment Act 1997 and the Malicious Communications Act 1988 in England and Wales for the years 1997 to 2006[1]

	Statute			
	Protection from Harassment Act 1997		*Malicious Communications Act 1988 S.1 (a) & (b)*	
	Proceeded against	*Found guilty*	*Proceeded against*	*Found guilty*
1997	780	344	0	0
1998	6,189	3,031	0	0
1999	7,758	3,671	0	0
2000[2]	8,162	3,940	0	0
2001	7,936	3,792	0	0
2002	7,955	3,976	66	38
2003	8,084	4,234	78	47

Number of defendants proceeded against at magistrates courts and found guilty at all courts for offences under the Protection from Harassment Act 1997 and the Malicious Communications Act 1988 in England and Wales for the years 1997 to 2006

	Statute			
	Protection from Harassment Act 1997		*Malicious Communications Act 1988 S.1 (1) (a) or (1) (b)*	
	Proceeded against	*Found guilty*	*Proceeded against*	*Found guilty*
2004	8,148	4,675	99	64
2005	8,308	5,188	122	73
2006	7,805	5,333	182	121

These data are on the principal offence basis.
The data relates to the following Statutes and offence descriptions:
Malicious Communications Act S1(1)(a) and (c) only:
Sending letter or other article conveying indecent or grossly offensive message
Sending letter or other article conveying threat
Sending letter or other article conveying false information
Sending article which is in whole or in part indecent or grossly offensive
Protection from Harassment Act 1997 S.2(1) and (2), S.4(1), S.4(3) and S.5(1):
Infringing the terms of an injunction which restrains the offender from harassment
Putting a person in fear of violence
Breach of a restraining order under the Act
Harassment of another
The data excludes racially and/or religiously aggravated harassment offences as covered by the Crime and Disorder Act 1998.
Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when these data are used.
Staffordshire police force were only able to submit sample data for persons proceeded against and convicted in the magistrates courts for the year 2000.
N/A:
Although sufficient to estimate higher orders of data, these data are not robust enough at a detailed level and have been excluded from the table.
Note:
Court proceedings data held by RDS - Office for Criminal Justice Reform - Ministry of Justice.

Court proceedings data for 2007 will be available in the autumn of 2008.

Reoffenders: Secure Accommodation

Jenny Willott: To ask the Secretary of State for Justice (1) what proportion of (*a*) juveniles and (*b*) young adult offenders were reconvicted within two years of release from secure children's homes in each of the last five years; and if he will make a statement; [196132]

(2) what proportion of (*a*) juvenile and (*b*) young adult offenders were reconvicted within two years of release from secure training centres in each of the last five years; and if he will make a statement; [196133]

(3) what proportion of (*a*) juvenile and (*b*) young adult offenders were reconvicted within two years of release from young offenders institutions in each of the last five years; and if he will make a statement. [196134]

Mr. Hanson: Young adult offenders are not placed in secure training centres or secure children's homes. The Ministry of Justice statistical bulletin 'Re-offending of Juveniles: results from the 2005 cohort' (July 2007) found that 76 per cent. of young people aged under 18 discharged from custody in the first quarter of 2005 re-offended within a year. It analysed the figures in various ways: for example by age, by ethnicity and by offence sanctioned. However, there would be difficulty in attempting such an analysis by type of custodial establishment, because transfers occur between different types of establishment and the number of offenders given custodial sentences is very small compared to other disposals.

Robbery: Sentencing

Jenny Willott: To ask the Secretary of State for Justice what changes were made to the sentencing guidelines for (*a*) magistrates and (*b*) Crown courts on robbery offences in each of the last 10 years; and if he will make a statement. [196122]

Mr. Hanson: Robbery is an indictable only offence and therefore is not dealt with in the magistrates courts.

In July 2006, the Sentencing Guidelines Council issued a guideline on robbery. In December 2004, the Council issued guidelines on seriousness,

"overarching principles: seriousness; and reduction in sentence for a guilty plea",

which apply in all cases, including robbery. The latter guideline was revised in July 2007.

Segregation of Prisoners

Mr. Hoban: To ask the Secretary of State for Justice how many prisoners were housed in segregation units in each of the last (*a*) five years and (*b*) 12 months. [195804]

Maria Eagle: The information requested is not held centrally and could be obtained only at disproportionate cost, by surveying every establishment in England and Wales.

Vandalism: South Yorkshire

Jeff Ennis: To ask the Secretary of State for Justice how many (*a*) arrests, (*b*) prosecutions and (*c*) convictions there were for vandalism in (i) Barnsley East and Mexborough constituency, (ii) Barnsley Metropolitan borough and (iii) Doncaster metropolitan borough in each year since 2002. [195760]

Maria Eagle: The arrests collection undertaken by the Ministry of Justice provides data on persons arrested for recorded crime (notifiable offences), by age group, gender, ethnicity, and main offence group. Information is given in table 1 for South Yorkshire police force area for the number of persons arrested for offences within the main offence group 'criminal damage'.

Table 1: Number of persons arrested for recorded crime—notifiable offences—of criminal damage[1] in South Yorkshire police force area, by period

Period	Total
2001-02	3,523
2002-03	3,937
2003-04	4,138
2004-05	4,882
2005-06	4,936

[1] Includes indictable offences for criminal damage and summary offences of criminal damage, £5,000 or less.

Note:
Every effort is made to ensure that figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Data for the same area showing the number of defendants proceeded against and found guilty of criminal damage, which includes cases involving vandalism, are given in the following table.

Data are not available at parliamentary constituency or metropolitan borough level and cases involving vandalism cannot be separately identified from the arrests and court proceedings data held by my Department.

Data for the same area showing the number of defendants proceeded against and found guilty of criminal damage, which includes cases involving vandalism, are given in the following table.

Data are not available at parliamentary constituency or metropolitan borough level and cases involving vandalism cannot be separately identified from the arrests and court proceedings data held by my Department.

Table 2: Number of defendants proceeded against at magistrates courts and found guilty at all courts of criminal damage[1] in South Yorkshire police force area, 2002-06

	Proceeded against	Found guilty
2002	1,765	1,121
2003	1,876	1,164
2004	1,800	1,242
2005	1,831	1,353
2006	1,700	1,251

[1] Includes indictable offences for criminal damage and summary offences of criminal damage, £5,000 or less, and in addition offences under section 19 of the Allotments Act 1922.
[2] These data are on the principal offence basis.
[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Young Offenders

Mr. Ruffley: To ask the Secretary of State for Justice how many persistent young offenders are registered; and how many and what proportion of total offences there were in which the offender was a persistent young offender in each police force area in England and Wales in each year since 1997. [195605]

Mr. Hanson: Statistics on Persistent Young Offenders (PYOs) are available from 1997 to 2007. These figures are derived from police national computer data, and monitor the pledge to halve the average time from arrest to sentence for dealing with PYOs in England and Wales from 142 days in 1996 to 71 days.

The following table shows the number of PYOs in England and Wales in each year since 1997. It also shows the number of cases involving such offenders and the average time from arrest to sentence for dealing with them. Data in this table are published as national statistics by the Ministry of Justice.

Arrest statistics on persistent young offenders—PYO—1997 to 2007

	Number of PYOs	Number of PYO convictions	Arrest to sentence interval—days
1997	9,868	16,010	142
1998	11,079	18,605	125
1999	12,014	21,151	105
2000	13,094	23,130	93
2001	13,854	25,393	76
2002	14,244	26,116	68
2003	14,242	26,083	66
2004	14,403	26,363	69
2005	14,725	27,037	68
2006	15,528	28,252	72
2007	16,512	30,683	65

It should be noted that the increase in the number of people who meet the definition of a PYO is partly a consequence of the large improvements in the timeliness of dealing with such offenders. The definition of a PYO relies on counting successive sentencing occasions for a single offender during a limited time period. Speedier operation of the youth justice system has markedly reduced the average time taken from arrest to sentence, and as a result the number of young offenders who fall within the scope of this definition has increased. This was a particular issue from 1997 to 2002, the period during which these timeliness improvements were taking effect.

Information is not available on the total number offences committed by PYOs. However, information is available on the number of convictions handed down to these offenders, and the following table therefore shows the proportion of total notifiable offences brought to justice that is attributable to court convictions of PYOs. Please note that data on the numbers of offences brought to justice are only currently available for the years 2000 to 2006 inclusive.

Persistent young offender—PYO—convictions as a proportion of notifiable offences brought to justice, 2000-06

	Offences brought to justice	Court convictions of PYOs	
		Number	Percentage
2000	1,012,722	23,130	2.28
2001	1,001,301	25,393	2.54
2002	1,031,214	26,116	2.53
2003	1,059,663	26,083	2.46
2004	1,124,574	26,363	2.34
2005	1,276,969	27,037	2.12
2006	1,408,547	28,252	2.01

The Criminal Justice System area breakdowns are in the following table.

Persistent Young Offender (PYO) convictions as a proportion of notifiable offences brought to justice, 2000-06

	CJS area name	Number of convictions of persistent young offenders						
		2000	2001	2002	2003	2004	2005	2006
0	England and Wales[1]	23,130	25,393	26,116	26,083	26,863	27,037	28,252

[1] The England and Wales totals include cases dealt with by the British Transport Police or else are not assigned to a local constabulary.

Further information on persistent young offenders can be found on the dedicated page of the Ministry of Justice website:

www.justice.gov.uk/publications/averagetimearresttosentencepyo.htm

Young Offenders: Restraint Techniques

Julie Morgan: To ask the Secretary of State for Justice whether he will place in the Library a copy of the manual for control and restraint in young offenders institutions. [194876]

Mr. Hanson: Control and restraint (C and R) techniques are used in all Prison Service establishments, including young offender institutions, as a last resort when all other de-escalation techniques have failed. The restraint methods involve a variety of defensive and disarming techniques ranging from simple breakaway techniques through to defensive strikes and defence against improvised weapons and firearms. For reasons of security the prison service does not disclose details of the individual techniques used in C and R.

HOME DEPARTMENT

Access to Justice Act 1999

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under section 94 of the Access to Justice Act 1999 in each year since 2002, and what percentage of these offences (*a*) resulted in court proceedings against suspected perpetrators, (*b*) led to a conviction and (*c*) resulted in a sanction detection. [196021]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in the 'Other indictable or triable either way offences' classification and cannot be separately identified from other offences within that classification. As a result,

information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Adoption and Children Act 2002

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Adoption and Children Act 2002 in each year since its entry into force, broken down by offence; and what percentage of these offences (*a*) resulted in court proceedings against suspected perpetrators, (*b*) led to a conviction and (*c*) resulted in a sanction detection. [196000]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in the 'Other indictable or triable either way offences' classification and cannot be separately identified from other offences within that classification. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Air Navigation (Overseas Territories) Order 2001

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Air Navigation (Overseas Territories) Order 2001 in each year since 2002, broken down by offence; and what percentage of these offences (*a*) resulted in court proceedings against suspected perpetrators, (*b*) led to a conviction and (*c*) resulted in a sanction detection. [195999]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in the 'Other indictable or triable either way offences' classification and cannot be separately identified from other offences within that classification. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Asylum

Clare Short: To ask the Secretary of State for the Home Department when she expects a decision to be made on Yousef Ahmedali's application for asylum (Reference A1142900). [194887]

Mr. Byrne *[holding answer 17 March 2008]*: The Border and Immigration Agency will make a decision in line with usual procedures, this is expected to be in the next four weeks.

Mr. Clappison: To ask the Secretary of State for the Home Department pursuant to the answer of 16 January 2008, *Official Report*, column 1297W, on asylum, how many grants of indefinite leave to remain (ILR) under the 2003 family ILR exercise were for families in the categories (*a*) Africa other, (*b*) Middle East other and (*c*) Asia other, broken down by nationality. [196028]

Mr. Byrne *[holding answer 20 March 2008]*: The requested information is contained in the following table.

Copies of asylum statistics publications are available from the Library of the House and from the Home Office Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html

Grants of ILR issued under the family ILR exercise as at 7 December 2007, excluding dependants, for specified nationalities[1,2]

Country of nationality	Total
Africa Other	
Benin	5
Botswana	*
Burkina Faso	5
Central African Republic	*
Chad	10
Gabon	5
Guinea	15
Guinea-Bissau	10
Malawi	10
Mali	5
Mauritania	*
Mauritius	15
Mozambique	*
Niger	5
Senegal	*
Seychelles	10
South Africa	40
Togo	40
Western Sahara	*
Zambia	25
Total Africa Other	200
Asia Other	
Bhutan	*
Cambodia	*
Fiji	*
Indonesia	10
Malaysia	5
Mongolia	30
Myanmar (Burma)	10
Nauru	*
Nepal	50

Philippines	15
Singapore	*
South Korea	5
Taiwan	*
Thailand	5
Total Asia Other	130
Middle East	
Bahrain	*
Egypt	20
Israel	40
Jordan	10
Kuwait	10
Lebanon	100
Morocco	15
Oman	*
Palestine	155
Saudi Arabia	5
Tunisia	10
United Arab Emirates	*

Grants of ILR issued under the family ILR exercise as at 7 December 2007, excluding dependants, for specified nationalities[1, 2, 3]

Country of nationality	*Total*
Yemen	65
Total Middle East Other	440

[1] Provisional figures rounded to the nearest 5 (* = 1 or 2).
[2] Main asylum applicants (this is how the Family ILR exercise records those more often referred to as "principal asylum applicants").
[3] This information is based on internal management information.
[4] Nationality recorded as at 7 December 2007 is not necessarily the applicant's nationality at the time of grant of ILR.

Asylum and Immigration (Treatment of Claimants) Act 2004

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Asylum and Immigration (Treatment of Claimants) Act 2004 in each year since its entry into force, broken down by offence; and what percentage of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [195996]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in the 'Immigration Acts' offence classification and cannot be separately identified from other offences within that classification. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Border and Immigration Agency

Justine Greening: To ask the Secretary of State for the Home Department what the titles are of the Case Resolution Teams in the Border and Immigration Agency; how many full-time equivalent staff are allocated to each team; how many outstanding cases are allocated to each team; and how many older, unresolved asylum cases are assigned to each team. [195170]

Mr. Byrne *[holding answer 18 March 2008]:* Case Resolution Teams are identified serially by number and are abbreviated with a suffix CRT(S), CRT(M) or CRT(L) depending upon whether they are located in Croydon (S stands for South), Manchester or Liverpool.

There are currently around 60 case owner teams with a full time equivalent staff complement, ranging from seven to 15 per team.

In December 2007 we allocated 330,000 principal applicant cases to around 60 case owner teams so that each team has about 5,500 cases to conclude.

Border and Immigration Agency: Correspondence

Mr. Vara: To ask the Secretary of State for the Home Department how many *(a)* letters, *(b)* emails and *(c)* telephone calls were received by the Border and Immigration Agency from hon. Members and their staff in each year since 2003; and if she will make a statement. [195436]

Mr. Byrne: The Border and Immigration Agency have received the numbers noted in the following table of telephone calls, e-mails and letters from hon. Members and their staff since 2003. (The e-mail service did not start until 2005).

	Number
Letters	
2003	[1]26,577
2004	38,015
2005	41,075
2006	41,534
2007	46,180
Total	193,381
E-mails	
2005 (last four months)	98
2006	899
2007	2,325
2008 (to 29 February 2008)	567
Total	3,889
Phone calls	
2003 (seven month total)	15,728
2004	31,393
2005	34,338
2006	31,749
2007	24,429
2008 (to date)	3,877
Total	110,121

[1] Ministerial performance for 2003 does not include January-March figures.
Notes:
1. Figures for letters received do not include OGD transfers
2. These statistics come from local management figures not from any published source and may be subject to amendment.

Border and Immigration Agency: Visits

Damian Green: To ask the Secretary of State for the Home Department how many personnel from the Border and Immigration Agency made official overseas visits in each of the last five years; what the purpose and destination of each visit was; and what the cost of the visits was. [193211]

Mr. Byrne: The agency does not hold a central record of the number, purpose and destination of overseas visits made by personnel from the Border and Immigration Agency.

Border and Immigration Agency: Expenditure

Lynne Jones: To ask the Secretary of State for the Home Department how much was spent on enforcement action by the Border and Immigration Agency and its predecessor in each of the last five years; and what proportion was attributed to activity against individuals involved in identity theft or identity fraud involving document abuse. [195093]

Mr. Byrne: Enforcement action consists of many stages in the end-to-end process of resolving a case. It can include policy work, caseworking, inquiries abroad, intelligence work, legal advice, support costs, operations, detention, escorts the cost of charters and

other flights used to effect removal, and ministerial and senior officials' time. Such costs are spread across a number of cost centres within the Agency and its predecessor and are not functionally recorded on a case-by-case basis. The information requested could therefore be provided only by the detailed analysis of individual case records at disproportionate cost.

The Border and Immigration Agency's budget allocations are not made or recorded on a detailed activity basis and therefore it is not possible to give a definitive figure for the proportion of budget attributed to activity against individuals involved in identity theft or identity fraud involving document abuse. However, action against such theft or fraud is an important part of our Enforcement Strategy, published in March 2007.

Copies of the document are placed in the Libraries of both Houses. It is available to view at:

http://www.bia.homeoffice.gov.uk/sitecontent/documents/managingourborders/enforcementstrategy/

Latest published statistics on the total spend in the Home Office are set out in the Home Office report a copy of which has also been placed in both Houses. It is also available to view at:

http://www.homeoffice.gov.uk/documents/ho-annual-report-07?view=Binary

Borders: Personal Records

Patrick Mercer: To ask the Secretary of State for the Home Department whether the FBI terrorist screening database will be among the multi-agency watchlists used as part of the e-borders programme to check persons flying into the UK. [195151]

Mr. Byrne: The e-Borders system will contain a number of agency owned watchlists against which traveiler's details will be checked to identify those of interest to UK authorities, including subjects linked to terrorism. It is a matter for the responsible agencies to identify individuals suitable for inclusion in their watchlists; this may include those identified through international liaison.

British Amusement Catering Trade Association

Mr. Ellwood: To ask the Secretary of State for the Home Department what recent representations her Department has received from the British Amusement Catering Trade Association; and if she will make a statement. [186201]

Mr. Byrne *[holding answer 18 February 2008]*: The Department has received no recent representations from the British Amusement Catering Trade Association.

BSE Monitoring (England) Regulations 2001

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the BSE Monitoring (England) Regulations 2001 in each year since 2002, broken down by offence; and what percentage of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [195995]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in the 'Other indictable or triable either way offences' classification and cannot be separately identified from other offences within that classification. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Care Act 2000

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under section 89 of the Care Act 2000 in each year since 2002, broken down by offence; and what percentage of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [195994]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in the 'other indictable or triable either way offences' classification and cannot be separately identified from other offences within that classification. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Civil Partnership Act 2004

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Civil Partnership Act 2004 in each year since its entry into force, broken down by offence; and what percentage of those offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [196009]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in either the 'disclosure, obstruction, false or misleading statements' classification or in the 'other indictable or triable either way offences' classification and cannot be separately identified from other offences within those classifications. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Civil Service Appeal Board

Mr. Hoban: To ask the Secretary of State for the Home Department how many and what percentage of appeals by employees of *(a)* her Department and *(b)* its agencies were (i) heard and (ii) upheld by the Civil Service Appeal Board in each of the last 10 years; how much was awarded in compensation by the Board to each successful appellant in each year; what the reason was for each compensation award; how many appellants were reinstated by the Board in each year; and what the reason was for each (A) dismissal and (B) reinstatement. [192564]

Mr. Byrne: Statistics on the number of appeals heard during the last 10 financial years can be found in Appendix 2 of the Civil Service Appeal Board's Annual Reports.

These are available on the board's website at:

www.civilserviceappealboard.gov.uk/publications.aspx

The further information requested is not recorded centrally and could be obtained only at a disproportionate cost to the Department.

Commissioners for Revenue and Customs Act 2005

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Commissioners for Revenue and Customs Act 2005 in each year since its entry into force, broken down by offence; and what percentage of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [196012]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in the 'other indictable or triable either way offences' classification and cannot be separately identified from other offences within that classification. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Communications Act 2003

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Communications Act 2003 in each year since its entry into force; and what percentage of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [196007]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in the 'other indictable or triable either way offences' classification and cannot be separately identified from other offences within that classification. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Compensation Act 2006

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Compensation Act 2006 in each year since its entry into force; and what percentage of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [196010]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in the 'other indictable or triable either way offences' classification and cannot be separately identified from other offences within that classification. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Corruption: Juries

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences of embracery were recorded in each year since 1997; and what percentage of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [195988]

Mr. Coaker: The information requested is not available. Offences of 'embracery' are recorded in the 'attempting to pervert the course of justice' offence classification and cannot be separately identified from other offences within that offence classification. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Crimes Against Public Morality

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences of committing an act outraging public decency have been recorded in each year since 1997; and what percentage of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [195990]

Mr. Coaker: The information requested is not available. Offences of 'committing an act outraging public decency' are recorded in the 'other offences against the state and public order' offence classification and cannot be separately identified from other offences within that classification. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Crimes of Violence

Mr. Ruffley: To ask the Secretary of State for the Home Department how many and what percentage of incidents of violence against the person resulted in the victim suffering *(a)* no injuries, *(b)* a minor bruise or black eye, *(c)* severe bruising, *(d)* scratches, *(e)* cuts, *(f)* broken bones, *(g)* a broken nose, *(h)* broken or lost teeth, *(i)* concussion and *(j)* facial or head injuries in each police force area in England and Wales in each year since 1997. [195599]

Mr. Coaker: The information requested is not collected centrally. It is not possible to determine the nature of the injury from the police recorded crime statistics collected by the Home Office.

Mr. Ruffley: To ask the Secretary of State for the Home Department how many and what percentage of incidents of violence against the person resulted in the victim needing *(a)* medical attention from a doctor, *(b)* another form of medical attention and *(c)* a hospital stay in each police force area in England and Wales in each year since 1997. [195600]

Mr. Coaker: The information requested is not available.

While the British Crime Survey asks victims of violent incidents whether or not they required medical attention or a hospital stay, it is not possible to provide robust estimates by police force area.

Criminal Proceedings

Ms Abbott: To ask the Secretary of State for the Home Department whether any criminal proceedings have been brought against *(a)* her Department's employees and *(b)* contractors' employees including immigration removal centre staff and immigration escort staff; and if she will make a statement. [195181]

Mr. Byrne: This information is not held centrally and to search through all records would incur a disproportionate cost. However CRB checks are carried out on all prospective employees of both the BIA and its contractors prior to offers of employment being made.

Departmental Complaints

Ms Abbott: To ask the Secretary of State for the Home Department whether any complaints investigated by *(a)* her Department and *(b)* the Parliamentary Commissioner for Administration resulted in findings of wrong-doing by Home Office employees or its contractors' employees, including immigration removal centre and immigration escort staff in each of the last five years; and if she will make a statement. [195039]

Mr. Byrne: BIA does not currently hold these data, and the cost of extracting them from records would be disproportionate. However, of the 52 serious complaints investigated since 1 October 2006 in relation to escorting contractors, only one has been substantiated and seven have been partially substantiated.

Departmental Hearing Impaired

Mr. Andy Reed: To ask the Secretary of State for the Home Department what provision is made for deaf people to access services provided by her Department through call centres. [194948]

Mr. Byrne: The Home Office provides textphone facilities in all of its contact centres. The numbers are:

Central Home Office: Textphone 020 7035 4742.

Border Immigration Agency: Textphone 0800 389 8289.

Identity and Passport Service: Textphone 0870 240 8090. Typetalk is also available through the 24-hour Passport Adviceline 0870 521 0410

Criminal Records Bureau: Textphone 0870 909 0811.

Departmental Public Expenditure

Patrick Mercer: To ask the Secretary of State for the Home Department if she will break down her Department's *(a)* main estimate, *(b)* winter supplementary estimate and *(c)* spring supplementary estimate by subhead in (i) near cash and (ii) non-cash terms for the 2007-08 financial year. [190757]

Mr. Byrne: Near cash/non cash splits relate to departmental expenditure limit resource budget controls and are not compatible with supply estimates which relate to voted resource expenditure. Voted expenditure for the Home Department at the spring supplementary estimate 2007-08 is some £1,082,543,000 higher than the resource budget departmental expenditure limit. A high level reconciliation between the different bases is provided within the estimate.

The following table assigns non-cash within resource DEL budgets to the related subhead at the main estimate 2007-08, winter supplementary estimate 2007-08 and spring supplementary estimate 2007-08. All other DEL provision is near cash.

Subhead		As at main estimate	As at winter supplementary estimate	£000 As at spring supplementary estimate
	Total DEL	13,524,956	8,662,912	8,659,454
o/w	Non cash:			
C	Criminal Records Bureau	717	717	717
D	Counter Terrorism and Intelligence	21,319	16,719	9,046
F	Criminal justice reform	16,338	0	0
G	National Offender Management Service HQ	383,983	0	0
H	Prisons—private sector	23,720	0	0
I	Prisons—public sector	(4,900)	0	0
J	Probation HQ	457	0	0
K	Border and Immigration Agency	72,136	72,446	72,446
L	Identity and passport Service	22,563	44,563	44,563

		590,660	169,922	169,620

Departmental Temporary Employment

Geraldine Smith: To ask the Secretary of State for the Home Department what estimate she has made of the average number of agency workers employed in her Department in the latest period for which figures are available. [194726]

Mr. Byrne: The actual numbers of agency staff on 31 December 2007 were:

	Total FTE staff	*Agency staff*
HO headquarters	3,622	368
Border and Immigration Agency (BIA)	19,554	779
Criminal Records Bureau (CRB)	458	0
Identity and Passport Service (IPS)	3,513	222
Total	27,147	1,369

Departmental Working Hours

Mr. Hoban: To ask the Secretary of State for the Home Department how many hours *(a)* in total and *(b)* on average per employee were worked by civil servants in her Department in the last year for which records are available. [195813]

Mr. Byrne: This information is not held centrally.

Detention Centres: Complaints

Ms Abbott: To ask the Secretary of State for the Home Department by what means her Department monitors trends in allegations of assault by its staff and its contractors, with particular reference to immigration removal centre and immigration escort staff; and if she will make a statement. [195040]

Mr. Byrne: Allegations of assault are recorded and monitored by the Border and Immigration Agency's Detention Services. All such allegations are investigated by an independent, trained investigator from the Agency's Professional Standards Unit and are additionally referred to the police for their own investigation.

Ms Abbott: To ask the Secretary of State for the Home Department how many and what penalties have been imposed on her Department's contractors in relation to upheld complaints regarding assaults on detainees by their staff in immigration removal centres and in transit in the last four years; and if she will make a statement. [195041]

Mr. Byrne: In the last four years, there have been two instances of performance measures being imposed against contractors in relation to complaints of assaults on detainees by staff in immigration removal centres or in transit being upheld. Financial penalties are considered to be commercial in confidence and it is not BIA policy to release this information.

Ms Abbott: To ask the Secretary of State for the Home Department how many complaints of alleged assault of immigrants by her Department's staff or its contractors' staff have been reported by *(a)* the alleged victims, *(b)* their befrienders, *(c)* witnesses, *(d)* solicitors, *(e)* independent monitoring boards and *(f)* immigration removal centres over the last four years; and if she will make a statement. [195180]

Mr. Byrne: This information is not available in the categories requested.

Driving Offences

Mr. Ruffley: To ask the Secretary of State for the Home Department how many motoring offences were dealt with by police in each police force area in each year since 1997. [195601]

Mr. Coaker: Available information on the number of motoring offences dealt with by official police action in England and Wales from 1997 to 2005 (latest available) is given in the following table.

2006 data will be available later this year.

Motoring offences[1] dealt with, by police force area, England and Wales, 1997 to 2005

Number of offences

Police force area	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*

[1] Includes written warnings, VDRS notices, fixed penalty notices, court proceedings.

Notes:

1. It is known that for some police force areas, the reporting of court proceedings in particular those relating to summary motoring offences may be less than complete.

2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their limitations are taken into account when those data are used.

Driving Offences: Fines

Mr. Ruffley: To ask the Secretary of State for the Home Department what proportion of fines for motoring offences were issued after *(a)* an offence was recorded on a traffic camera and *(b)* a fixed penalty notice was issued by a police officer in each year since 1997. [195602]

Mr. Coaker: The information requested is shown in the following table.

Data for 2006 will be available later this year.

Number and proportion of motoring offences fixed penalty notices issued where (a) the offence was detected by camera[1,2], and (b) the fixed penalty notice was issued by a police officer[3]. England and Wales 1997 to 2005

	Fixed penalty notices issued		
	Following detection by camera[1,2]	*Directly by police officer[3,4]*	*Total*
1997			
Number	323,200	3,104,600	3,427,800
Percentage	9	91	100
1998			
Number	370,500	3,069,400	3,439,900
Percentage	11	89	100
1999			
Number	460,100	2,673,600	3,133,700
Percentage	15	85	100
2000			
Number	642,400	2,355,900	2,998,300
Percentage	21	79	100
2001			
Number	923,000	1,995,000	2,918,000
Percentage	32	68	100
2002			
Number	1,206,300	1,791,100	2,997,400
Percentage	40	60	100
2003

Percentage	52	48	100
2004			
Number	1,899,800	1,534,900	3,434,700

Number and proportion of motoring offences fixed penalty notices issued where (a) the offence was detected by camera[1,2], and (b) the fixed penalty notice was issued by a police officer[3]. England and Wales 1997 to 2005

	Fixed penalty notices issued		
	Following detection by camera[1,2]	*Directly by police officer[3,4]*	*Total*
Percentage	55	45	100
2005			
Number	1,886,700	1,316,300	3,203,000
Percentage	59	41	100

[1] Automatic cameras until 1998, all camera types from 1999.
[2] Covers speeding and traffic light offences only.
[3] Including traffic wardens.
[4] Covers all motoring offences where a fixed penalty notice can be given.

Note

Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when these data are used.

Driving: Insurance

Mr. Ruffley: To ask the Secretary of State for the Home Department how many *(a)* successful prosecutions, *(b)* cautions and *(c)* issues of fixed penalty notices there were relating to uninsured drivers in each police force area in each of the last 10 years; and what the average penalty was. [195603]

Mr. Coaker: The available information relates to the offence of 'use of a motor vehicle uninsured against third party risks'. Tables A and B provide data on successful prosecutions (findings of guilt) and cover court imposed fines from 1997 to 2005 (latest available). Table C covers fixed penalty notices issued as from 1 June 2003, when a fixed penalty became available for the offence, to 2005.

The written warnings (including formal cautions) collection, held by the Ministry of Justice, is unable to identify this offence from others within the offence group "vehicle insurance offences". None of the Ministry's collections separately identify uninsured drivers involved in other motoring offences.

2006 data will be available later this year.

An offence under the Road Traffic Act 1988 s. 143(2).
As from 1 June 2003, 'driving a motor vehicle while uninsured against third party risks' became a fixed penalty offence.

Notes
1. It is known that for some police force areas, the reporting of court proceedings in particular those relating to summary motoring offences may be less than complete.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their limitations are taken into account when those data are used.

[1] An offence under the Road Traffic Act 1988 s. 143 (2).
[2] As from 1 June 2003, 'driving a motor vehicle while uninsured against third party risks' became a fixed penalty offence.

Notes
1. Offenders are subject to a £200 fixed penalty. However this can be increased to a maximum of £5,000 if the matter goes to court.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces. As a consequence, care should be taken to ensure data collection processes and their limitations are taken into account when those data are used.

Education Act 2005

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Education Act 2005 in each year since its entry into force, broken down by offence; and what percentage of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [196013]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in either the 'Disclosure, Obstruction, False or Misleading Statements' classification or in the 'Other indictable or triable either way offences' classification and cannot be separately identified from other offences within those classifications. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Gangmasters (Licensing) Act 2004

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Gangmasters (Licensing) Act 2004 in each year since its entry into force, broken down by offence; and what percentage of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [196008]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in the 'other indictable or triable either way offences'

classification and cannot be separately identified from other offences within that classification. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Genetics: Databases

Jenny Willott: To ask the Secretary of State for the Home Department what the total costs were of running and maintaining the National DNA Database in each year since it began operation; and if she will make a statement. [182622]

Meg Hillier: I refer the hon. Member to the answer I gave to the hon. Member for Bury St. Edmunds (Mr. Ruffley) on 19 February 2008, *Official Report*, column 584W.

Jenny Willott: To ask the Secretary of State for the Home Department which organisations and companies analyse DNA samples in order to produce profiles for the national DNA database; and if she will make a statement. [188145]

Meg Hillier: The organisations that are at present accredited to provide DNA profiling services to the police forces of England and Wales are:

Forensic Science Service Ltd.

LGC Forensics,

Orchid Cellmark, and

Forensic DNA Services Ltd.

The Channel Islands use the same suppliers as England and Wales. Northern Ireland samples are processed by Forensic Service Northern Ireland (FSNI). The forensic DNA analysis service for Scottish police forces is provided by four forensic science laboratories within the Scottish Police Services Authority (SPSA). The SPSA and FSNI laboratories are accredited to NDNAD Custodian standards, so that DNA profiles from Scotland and Northern Ireland can be loaded to the NDNAD as well as to the Scotland and Northern Ireland databases.

Grave Robbing

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences of removing corpses from graves have been recorded in each year since 1997; and what percentage of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [195992]

Mr. Coaker: The information requested is not available. Offences of 'removing corpses from graves' are recorded in the 'other indictable or triable either way offences' classification and cannot be separately identified from other offences within that classification. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Heathrow Airport: Customs Officers

Norman Baker: To ask the Secretary of State for the Home Department how many Border and Immigration Agency staff were allocated to the EU channel at Heathrow airport on average each day *(a)* in 2003-04, *(b)* in 2006-07 and *(c)* in 2007-08. [194541]

Mr. Byrne: Immigration Officers are not allocated a duty at a particular channel of the Primary Arrivals Control at Heathrow airport; they serve the Border Control as a whole. Shift managers decide how many of the available staff should work in the EU or non-EU channels at any particular time in order to deal with approaching passengers as quickly and effectively as possible. The only constraint is that one officer must be on duty in each channel at all times when flights are landing. This flexibility makes the best use of available resources.

Immigration

Dr. Murrison: To ask the Secretary of State for the Home Department how many people were granted *(a)* limited and *(b)* indefinite leave to remain in the UK in each of the last 10 years. [195251]

Mr. Byrne: The latest available information on grants of limited leave and indefinite leave to remain in the UK can be found in the 2006 Command Paper "Control of Immigration: Statistics United Kingdom". This publication, and previous years, may be obtained from the Library of the House and from the Home Office Research, Development and Statistics website:

http://www.homeoffice.gov.uk/rds/immigration1.html

Mr. Clappison: To ask the Secretary of State for the Home Department pursuant to the answer of 17 March 2008, *Official Report*, columns 799-800W, on immigration, in how many of the 9,500 cases closed because of error the individual concerned had *(a)* been granted status, *(b)* been removed or *(c)* died. [196209]

Mr. Byrne *[holding answer 25 March 2008]:* The information requested can be provided only at disproportionate cost.

Immigration Officers

Damian Green: To ask the Secretary of State for the Home Department whether her Department permits immigration officers to work *(a)* six-day weeks and *(b)* double shifts. [193129]

Mr. Byrne: Immigration Officers do work double night shifts where necessary to meet operational demands. Six day weeks are performed on an exceptional basis.

Note:

"Immigration Officers" are purely those who held that particular grade during the period.

Damian Green: To ask the Secretary of State for the Home Department what estimate her Department has made of the average number of hours worked per week by immigration officers in each year since 1997. [193131]

Mr. Byrne: The information requested could be obtained by the detailed examination of individual pay records only at disproportionate cost.

Immigration Officers: Conditions of Employment

Damian Green: To ask the Secretary of State for the Home Department what steps her Department has taken to monitor the views of (*a*) immigration officers and (*b*) other Border and Immigration Agency staff on their working practices and conditions; and if she will make a statement. [193121]

Mr. Byrne: All Border and Immigration staff are currently being invited to participate in the Home Office staff survey. This is an attitudinal survey covering a range of issues including working practices and conditions. A random cross section of staff from the Border and Immigration Agency are asked to participate monthly in a pulse check survey that covers issues related to reform and working practices.

Immigration Officers: Heathrow Airport

Damian Green: To ask the Secretary of State for the Home Department how many immigration officers were in post at (*a*) Heathrow and (*b*) Gatwick airport on 31 December (i) 2007, (ii) 2006, (iii) 2005, (iv) 2004, (v) 2003, (vi) 2002 and (vii) 2001; and if she will make a statement. [180677]

Mr. Byrne: I wrote to the hon. Member on 14 March 2008.

Immigration Officers: Sick Leave

Damian Green: To ask the Secretary of State for the Home Department how many immigration officers were granted sick leave for stress in each of the last five years. [193118]

Mr. Byrne: The numbers of Immigration Officers[1] who have taken sick leave for stress in each of the last three calendar years, recorded on our personnel system (Adelphi) are shown in the following table.

We are unable to provide accurate data previous to 2005 as these were not recorded centrally.

[1] "Immigration Officers" are purely those who held that particular grade during the period.

Immigration Officers taking sick leave

	Number
2005	109
2006	91
2007	141

Immigration: Fees and Charges

Kerry McCarthy: To ask the Secretary of State for the Home Department if she will permit the fee for applying for indefinite leave to remain to be paid in instalments in exceptional circumstances. [195557]

Mr. Byrne: Under the Fees Regulations, there are no circumstances in which the fee for a valid application for indefinite leave can be paid for in instalments.

Kerry McCarthy: To ask the Secretary of State for the Home Department if she will waive the requirement to pay the fee to apply for indefinite leave to remain in (*a*) cases where someone was brought to the UK from a Commonwealth country as a child prior to 1981 but whose parents omitted to apply on their behalf for nationality and (*b*) other exceptional cases. [195558]

Mr. Byrne: We currently have no plans to waive the fee for application for indefinite leave to remain in cases where someone was brought to the UK from a commonwealth country as a child prior to 1981 or in other exceptional circumstances.

Immigration: Housing

Mr. Clappison: To ask the Secretary of State for the Home Department pursuant to the Answer of 17 March 2008, *Official Report*, column 806W, on immigration: housing, what the cost of providing assistance to local authorities through the transitional costs fund was; which local authorities have received such assistance; and how much was received in each case. [196268]

Mr. Byrne *[holding answer 25 March 2008]:* A 'transitional costs fund' has been made available where unavoidable, additional expenses have occurred. Local authorities need to submit claims to this fund. Claims will then be assessed on an individual basis and local authorities will be reimbursed appropriately. As yet, this work is not complete.

Medicines (Homoeopathic Medicinal Products for Human Use) Amendment Regulations 2005

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Medicines (Homoeopathic Medicinal Products for Human Use) Amendment Regulations 2005 in each year since their entry into force, broken down by offence; and what percentage of these offences (*a*) resulted in court proceedings against suspected perpetrators, (*b*) led to a conviction and (*c*) resulted in a sanction detection. [196601]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in the 'Other indictable or triable either way offences' classification and cannot be separately identified from other offences within that classification. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Medicines (Traditional Herbal Medicinal Products for Human Use) Regulations 2005

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Medicines (Traditional Herbal Medicinal Products for Human Use) Regulations 2005 in each year since their entry into force, broken down by

offence; and what percentage of these offences (*a*) resulted in court proceedings against suspected perpetrators, (*b*) led to a conviction and (*c*) resulted in a sanction detection. [196002]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in the 'Other indictable or triable either way offences' classification and cannot be separately identified from other offences within that classification. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Members: Correspondence

David Davis: To ask the Secretary of State for the Home Department when she expects to answer Question 175239, tabled by the right hon. Member for Haltemprice and Howden on 13 December 2007. [186991]

Jacqui Smith: I replied to the right hon. Member on 10 March 2008, *Official Report*, column 78W.

Bob Spink: To ask the Secretary of State for the Home Department if she will ensure a response is provided urgently to the letters sent by the hon. Member for Castle Point to Mr. I. Teale of Managed Migration Liverpool, dated 18 February 2008 and 4 March 2008, regarding confirmation of right of abode. [194959]

Mr. Byrne *[holding answer 17 March 2008]:* The Border and Immigration Agency wrote to the hon. Member on 10 March 2008 in response to the letter of 18 February. The letter of 4 March has not been received.

Ministers: Official Residences

Mr. Pickles: To ask the Secretary of State for the Home Department what the cost to the public purse has been of the ministerial residence in South Eaton Place since the property was unoccupied. [194995]

Mr. Byrne: I refer the hon. Member to my reply of 17 March 2008, *Official Report*, column 807W.

Official Secrets Act 1911

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Official Secrets Act 1911 in each year since 2002, broken down by offence; and what percentage of these offences (*a*) resulted in court proceedings against suspected perpetrators, (*b*) led to a conviction and (*c*) resulted in a sanction detection. [196016]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in the 'Other indictable or triable either way offences' classification and cannot be separately identified from other offences within that classification. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Passports: Glasgow

Stewart Hosie: To ask the Secretary of State for the Home Department what percentage of post office deliveries have been diverted to other passport offices from the Glasgow office since January 2008. [187573]

Meg Hillier: The requested is shown in the following table.

Glasgow applications

	Number/percentage
Diverted	28,258
Total intake to Glasgow	73,462
Percentage of intake leaving Glasgow	38.5

Pensions Act 2005

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Pensions Act 2005 in each year since 2005, broken down by offence; and what percentage of these offences (*a*) resulted in court proceedings against suspected perpetrators, (*b*) led to a conviction and (*c*) resulted in a sanction detection. [196014]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in the 'Other indictable or triable either way offences' classification and cannot be separately identified from other offences within that classification. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Plant Protection Products Regulations 2005

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Plant Protection Products Regulations 2005 in each year since their entry into force, broken down by offence; and what percentage of these offences (*a*) resulted in court proceedings against suspected perpetrators, (*b*) led to a conviction and (*c*) resulted in a sanction detection. [196005]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in the 'Other indictable or triable either way offences' classification and cannot be separately identified from other offences within that classification. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Police

Mr. Ruffley: To ask the Secretary of State for the Home Department how many (*a*) regulations and (*b*) guidance documents were issued to police forces by her Department in England and Wales in each year since 1997. [176102]

Mr. McNulty: Since 1997 the Government have enacted 12 pieces of police legislation which have effect in England and Wales, and several statutory instruments consequential to these, containing police regulations where appropriate. 65 Home Office circulars have also been issued in respect of these Acts.

A document has been prepared with a full list of these statutory instruments and Home Office circulars, and will be placed in the Library of the House.

Police: ICT

Mr. Ruffley: To ask the Secretary of State for the Home Department how many police forces *(a)* have fully implemented and *(b)* are piloting ExISS r1; how much has been spent on the programme in each year since 1997; and if she will make a statement. [195610]

Maria Eagle: I have been asked to reply.

ExISS release 1 (which comprises both the police-CPS link and the police to magistrates court link) is currently being rolled out nationally and, as such, there are no pilot forces. As of the 19 March 2008, the police to CPS link had been rolled out to 13 police forces, while the police to magistrates court link had been rolled out to 17 police forces. The planned completion date for roll-out to all forces is December 2008.

The Exchange Links programme (which delivers a number of links including release 1) commenced in July 2007 and the expected costs to December 2008 are £15.54 million, exclusive of ongoing run costs and costs associated with capital charges and depreciation.

Ports: Industrial Health and Safety

Damian Green: To ask the Secretary of State for the Home Department which UK ports of entry do not have local health and safety policies in place for immigration officers and other Border and Immigration Agency staff in circumstances where those staff are not permanently based at the ports. [194607]

Mr. Byrne: The Border and Immigration Agency (BIA) Health and Safety Unit provide a Health and Safety Policy for the whole of BIA, most recently published in September 2007. The large number of sites and the diverse activities within BIA necessitate directors to formulate local arrangements that ensure the requirements of the health and safety policy are met. Local arrangements are in place covering all UK ports and cover all staff as well as contactors and visitors.

Prisoner Escapes

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded for rescuing a prisoner in custody in each year since 1997; and what percentage of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [195989]

Mr. Coaker: The information requested is not available. Offences of 'assisting prisoners to escape; are recorded in the 'other indictable or triable either way offences' classification and cannot be separately identified from other offences within that classification. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Protection from Harassment Act 1997

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Protection from Harassment Act 1997 in each year since 2002, broken down by offence; and what percentage of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [196026]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in the 'Harassment' or the 'Racially or religiously aggravated harassment' offence classifications and cannot be separately identified from other offences within those classifications. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Representation of the People Act 1983

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Representation of the People Act 1983 in each year since 2002, broken down by offence; and what percentage of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [196018]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in the 'Other indictable or triable either way offences' classification and cannot be separately identified from other offences within that classification. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Tax Credits Act 2002

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under section 59 and Schedule 5 of the Tax Credits Act 2002 in each year since 2002; and what percentage of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [196003]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in the 'Disclosure, Obstruction, False or Misleading Statements' offence classification and cannot be separately identified from other offences within that classification. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Trade in Goods (Control) Order 2003

Mr. Ruffley: To ask the Secretary of State for the Home Department how many offences were recorded under the Trade in Goods (Control) Order 2003 in each year since its entry into force, broken down by offence; and what percentage of these offences *(a)* resulted in court proceedings against suspected perpetrators, *(b)* led to a conviction and *(c)* resulted in a sanction detection. [196004]

Mr. Coaker: The information requested is not available. Offences under this legislation are recorded in either the 'Disclosure, Obstruction, False or Misleading Statements' classification or in the 'Other indictable or triable either way offences' classification and cannot be separately identified from other offences within those classifications. As a result, information on the percentage which resulted in court proceedings and convictions for those offences cannot be provided.

Wind Power

Mr. Weir: To ask the Secretary of State for the Home Department to which wind farm proposals her Department lodged objection in each of the last three years; and for what reasons in each case. [191118]

Mr. Byrne: My Department holds no central records of objections that have been lodged by the Home Office with regard to wind farms. My Department is fully committed to meeting all the Government's targets on renewable energy.

Written Questions: Government Responses

David Davis: To ask the Secretary of State for the Home Department when she expects to answer Question 184044, on binge drinking, tabled by the right hon. Member for Haltemprice and Howden on 30 January 2008. [193696]

Jacqui Smith *[holding answer 13 March 2008]:* I replied to the right hon. Member on 10 March 2008, *Official Report*, columns 70-71W.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Coal Fired Power Stations: Combined Heat and Power

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what recent representations he has received from industry bodies on the effect of combined heat and power technology on the fuel efficiency of coal-fired power plants; [189637]

(2) what representations he has received from environmental non-governmental organisations on the effects of combined heat and power on the fuel efficiency of coal-fired power plants. [189698]

Malcolm Wicks: I am not aware of any such representations regarding coal-fired stations in general.

Coal Fired Power Stations: Kingsnorth

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the volume of carbon dioxide likely to be emitted per annum from the proposed Kingsnorth power station and associated operational activities; what discussions he has had on such estimates with *(a)* Cabinet colleagues and *(b)* other Government offices and agencies; what representations he has received on this matter and from whom; what estimate he has made of the effect of such emissions on performance against Government targets for greenhouse gas emissions; and on what evidential basis such estimates of potential carbon dioxide emissions from Kingsnorth were founded. [190187]

Malcolm Wicks: My right hon. Friend the Secretary of State has made no such formal estimate. We remain committed to meeting the UK's emissions targets. The EU Emissions Trading Scheme ensures that total carbon emissions across EU industry and power generation sectors are restricted by a cap. Any new coal plant in the UK would have to buy allowances to emit, ensuring that equivalent carbon savings are made elsewhere, which count under the Government's approach to carbon budgeting.

No such discussions of the kind described have taken place. The Department has received many representations from a range of various groups and individuals on the issue of emissions to the atmosphere.

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he expects that the proposed power station at Kingsnorth in Kent to become operational in terms of *(a)* power generation and *(b)* carbon capture and storage; and what representations he has received on this matter, and from whom. [190232]

Malcolm Wicks: The Environmental Impact Assessment which accompanied the application estimates that it would take approximately four years from the granting of any consents and licences before the proposed station started operating.

It is not possible to say if or when carbon capture technology would be operational at the proposed station. Numerous representations from a range of various groups and individuals have been received on this matter.

Companies: Billing

Mr. Drew: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will commission an investigation into the policy of some major companies of extending their standard payment terms and its possible impact upon small business. [196326]

Malcolm Wicks *[holding answer 25 March 2008]:* The Department published research, commissioned from the Credit Management Research Centre, on payment trends in the UK earlier this month. The research suggested uncertainty about the timing of payments from trade debtors is more damaging for small firms than situations where the payment delay is long but certain. The Enterprise Strategy published on 12 March announced that the Department will, over the next six months, explore non-legislative approaches to tackling late payment issues.

Companies: Data Protection

Steve Webb: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the number of UK businesses which have transferred data centres offshore in the latest period for which figures are available; and if he will make a statement. [185512]

Mr. Thomas: The Government do not collect data about the extent of offshoring and have not made any estimate of the extent of offshoring of data centres. However, research that has been conducted and data about the relocation of businesses, such as the European Reconstruction Monitor, suggests that offshoring has been relatively limited in recent years and has not had an adverse impact on overall UK employment.

It is, of course, important that companies carefully consider the business case for relocating activities, including all the costs and risks of offshoring. This includes ensuring that data is kept secure; companies that offshore activities remain bound by the requirements of the UK's Data Protection Act. Companies also have a responsibility to engage in a transparent dialogue with employees affected by relocation decisions. But, companies must be allowed to decide the best course of action to remain competitive.

Departmental Consultants

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform which external consultancy received the largest number of contracts from his Department in each of the last 10 years; and what the value of those contracts was. [185209]

Mr. Thomas: Central records indicate the external consultancies receiving the highest payments by value in each financial year are:

	Consultancy	£ *Payment*
2003-04	Fujitsu Services Ltd	241,380
2004-05	Fujitsu Services Ltd	2,081,201
2005-06	Deloitte and Touche LLP	4,606,297
2006-07	Deloitte and Touche LLP	3,424,964
2007-08	Serco Ltd	[1]5,006,857

[1] To date

Further information prior to 2003-04 is not held centrally and could be provided only at disproportionate cost.

Departmental ICT

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many of his Department's personal digital assistants were *(a)* lost and *(b)* stolen in each of the last five years; and what the value of those items was. [185284]

Mr. Thomas: A breakdown of lost/stolen PDAs is provided in the following table for the past five years.

My Department's records do not readily differentiate between items reported as lost or stolen.

	PDAs reported missing	£ *Approximate cumulative value*[1]
2007		
2006	1	270.00
2005	3	900.00
2004	1	300.00
2003	1	300.00

[1] January to December

Departmental Recruitment

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether the policy of British jobs for British workers will affect his Department's recruitment policy. [179877]

Mr. Thomas: The Department will apply the civil service nationality rules in respect of eligibility for employment in all recruitment and appointment procedures. These rules are statutorily based and supported by the Civil Service Commissioners' Rules.

Departmental Travel

Mr. Philip Hammond: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much his Department and its agencies spent on first class travel in the last 12 months for which figures are available, broken down by staff grade of traveller. [187530]

Mr. Thomas: The amount spent on first class travel by BERR, and previously by DTI in the period February 2007 to January 2008 was £1,376,675.

Travel undertaken by BERR staff is not recorded separately by grade. To obtain the requested information would entail disproportionate costs.

All travel is undertaken in accordance with the Civil Service Management Code and the Ministerial Code, and is made in the most efficient and cost effective way.

Digital Broadcasting

Peter Luff: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of *(a)* the impact of the digital dividend review on (i) wireless microphones and (ii) in-ear monitors on completion of digital switchover and *(b)* the potential to encourage licensed usage. [193912]

Malcolm Wicks: The matter raised is the responsibility of the independent regulator, the Office of Communications (Ofcom), which is accountable to Parliament rather than Ministers. Accordingly, I have asked the Chief Executive of Ofcom to reply directly to the hon. Member. Copies of the chief executive's letter will be placed in the Libraries of both Houses.

Energy: Meters

Charles Hendry: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what his most recent assessment is of the *(a)* costs and *(b)* benefits of a national delivery plan for smart metering; [195582]

(2) what conclusions were made following the review of smart metering conducted for his Department by Mott MacDonald; and if he will publish the outcomes of the review. [195583]

Malcolm Wicks *[holding answer 20 March 2008]*: My Department is finalising its impact assessment of smart metering, including costs and benefits. We are testing our assessment and the assumptions underpinning it with interested parties, and will publish our assessment when that process has been completed. We will also publish the analysis undertaken by Mott MacDonald.

Eurostar

Mr. Philip Hammond: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much his Department and its agencies spent on *(a)* first class and *(b)* other travel by Eurostar in the last 12 months for which figures are available. [187669]

Mr. Thomas: The amount spent on travel by Eurostar by BERR, and previously by DTI in the last 12 months was:

February 2007 to January 2008 - £528,329

The proportion of this expenditure on first class travel was 77 per cent. (£407, 276).

All travel is undertaken in accordance with the Civil Service Management Code and the Ministerial Code.

Fuel Poverty: Elderly

Mr. Evans: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many pensioners aged *(a)* 60 to 70, *(b)* 71 to 80, *(c)* 81 to 90 and *(d)* 90 and over were classified as living in fuel poverty in (i) Ribble Valley constituency, (ii) Lancashire and (iii) nationally in each of the last five years. [194963]

Malcolm Wicks *[holding answer 17 March 2008]*: Splits of the level of fuel poverty by the age of the Household Reference Person (HRP) or age of the youngest/oldest member of the household are not available at a sub-national level. The detailed tables which accompany the "Fuel Poverty Strategy Report" hold information on household composition split by HRP and age of the youngest/oldest member of the household on national level only. These data are published annually with the earliest figures covering 2003, the latest figures cover 2005. It is available online through http://www.berr.gov.uk/energy/fuel-poverty/index.html. The following table holds extracted details:

	Fuel poor households in group		*Thousand*
	2003	*2004*	*2005*
Household composition (of primary benefit unit)			
Couple, no dependent child(ren), aged 60 or over	138	134	210
One person aged 60 or over	463	450	551
Age of youngest person in household			
60-74	287	278	390
75 or over	302	292	357
Age of oldest person in household			
60-74	306	286	383
75-84	245	223	307
85 or more	83	95	104

Fuel Poverty: Lancashire

Mr. Evans: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many *(a)* households including at least one child and *(b)* households were classified as living in fuel poverty in (i) Ribble Valley constituency, (ii) Lancashire and (iii) nationally in each of the last five years. [194964]

Malcolm Wicks *[holding answer 17 March 2008]*: Splits of the level of fuel poverty by the household composition of the primary benefit unit or age of the youngest/oldest member of the household are not available at a sub-national level. The detailed tables which accompany the "Fuel Poverty Strategy Report" hold information on household composition of the primary benefit unit and age of the youngest/oldest member of the household on national level only. These data are published annually with the earliest figures covering 2003, the latest figures cover 2005. They are available online through http://www.berr.gov.uk/energy/fuel-poverty/index.html. The following table holds extracted details:

	Fuel poor households in group		*Thousand*
	2003	*2004*	*2005*
Household Composition (of primary benefit unit)			
Couple with dependent child(ren)	53	54	88
Lone parent with dependent child(ren)	98	91	116

Regional estimates of fuel poverty are available only for England in 2003 and are taken from the Fuel Poverty Indicator (FPI) dataset available online at http://www.fuelpovertyindicator.org.uk/. This estimates that there were 2,400 fuel poor households in Ribble Valley and 39,300 in Lancashire.

National fuel poverty rates are published annually and are again available online through the BERR website at http://www.berr.gov.uk/energy/fuel-poverty/index.html.

The report shows the following table outlining national level of fuel poverty since 1996:

Number of households in fuel poverty (million)

	1996	1998[1]	2001	2002[1]	2003	2004	2005
England	5.1 (5.5)	3.4 (4.0)	1.7 (2.3)	1.4 (2.0)	1.2 (1.5)	1.2 (1.5)	1.5 (1.8)
Scotland	0.7			0.3	0.4	0.4	
Wales		0.4				0.1	
Northern Ireland			0.2			0.2	
UK estimate (approx.)	6½	4¾	2½	2¼	2	2	2½
	(7½)	(5¾)	(3½)	(2¾)	(2½)	(2½)	(3)

[1] Figures for England in 1998 and 2002 are estimates based on movements in energy prices, incomes and energy efficiency.
Figures in brackets do not include housing benefit/ISMI as part of income.

Internet: Fraud

James Brokenshire: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent estimate he has made of the cost to business of (*a*) internet fraud and (*b*) malicious computer security breaches. [193806]

Malcolm Wicks: BERR does not collect information in this way. The Department works with business to produce a biennial Information Security Breaches Survey. The Survey is intended to raise awareness of the importance of effective information security management. The Surveys do not set out to survey or measure the costs of internet fraud or malicious computer security breaches but to research the costs of all information security breaches. Based on information gathered for the 2006 Survey, the figures indicated that serious security incidents cost on average between £8,000 and £17,000 per incident in 2005.

Work is almost complete on the 2008 Information Security Breaches Survey and the results will be announced at Infosecurity Europe on 22 April. The Survey will present up to date information on the costs of information security breaches.

Joint Frequency Management Group: Conditions of Employment

Peter Luff: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what arrangements will be made for the handling of employment contracts of employees of the Joint Frequency Management Group following the introduction of a commercial bank manager; and if he will make a statement. [194151]

Malcolm Wicks: The matter raised is the responsibility of the independent regulator, the Office of Communications (Ofcom), which is accountable to Parliament rather than Ministers. Accordingly, I have asked the chief executive of Ofcom to reply directly to the hon. Member. Copies of the chief executive's letter will be placed in the Libraries of both Houses.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he will reply to the letter from the hon. Member for West Worcestershire dated 5 February on premium rate SMS services. [194161]

Malcolm Wicks *[holding answer 14 March 2008]:* I apologise for the delay in responding to the hon. Member. A letter was sent to the hon. Member on 17 March 2008.

Nuclear Decommissioning Authority

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform with reference to the announcement of 6 March on market engagement of the Nuclear Decommissioning Authority, what discussions he has had with the Authority on the assets to be included in the list of assets and activities in which interested parties are invited to express an interest. [195075]

Malcolm Wicks: My right hon. Friend the Secretary of State has had no discussions with the Nuclear Decommissioning Authority (NDA) about potential market interest in its assets and activities.

As stated in the announcement on 6 March, the NDA is trying to gauge the market interest in its assets, consistent with its requirement to ensure maximum value to the taxpayer. Interested parties should respond to the NDA by 3 April, but no final decision has been taken on whether any assets will be sold.

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what discussions he has held with the Nuclear Decommissioning Authority on the inclusion of the (*a*) thermal oxide reprocessing plant and (*b*) Sellafield MOX plant in the list of assets to be offered for sale by the Authority. [195078]

Malcolm Wicks: My right hon. Friend the Secretary of State has had no discussions with the Nuclear Decommissioning Authority (NDA) about the Thermal Oxide Reprocessing Plant (THORP) and the Sellafield MOX Plant (SMP) in relation to the market engagement announcement.

As stated in the announcement on 6 March, the NDA is trying to gauge the market interest in its assets, consistent with its requirement to ensure maximum value to the taxpayer. Interested parties should respond to the NDA by 3 April, but no final decision has been taken on whether any assets will be sold. THORP and SMP are not included in the list of assets for sale.

Nuclear Power Stations: Security

Tony Lloyd: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the likely security of future generation of nuclear power stations against accident or deliberate attack. [195743]

Malcolm Wicks: As part of the consultation on the Future of Nuclear Power, the Government carefully considered the security and safety of new nuclear power stations. Having reviewed the arguments and evidence put forward and based on the advice on independent regulators, and the advances in the designs of power stations that might be proposed by energy companies, the Government set out in their White Paper that they continues to believe that nuclear power stations pose very small risks to safety and security.

We also believe that the UK has an effective regulatory framework that ensures these risks are minimised and sensibly managed by industry. The White Paper said that we will work with the independent regulators to explore ways of further enhancing the transparency and efficiency of the regulatory regime, without diminishing its effectiveness in dealing with the challenges of new build.

Offshore Drilling: Nature Conservation

Andrew Mackinlay: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will take steps to prevent oil and gas extraction from affecting the Moray Firth Dolphin Sanctuary; and if he will make a statement. [195796]

Malcolm Wicks *[holding answer 20 March 2008]:* I refer my hon. Friend to the answer I gave to the hon. Member for Ceredigion (Mark Williams) on 3 March 2008, *Official Report*, column 2236W.

Offshore Industry: Natural Gas

Steve Webb: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the Government's policy is on the reduction of offshore gas flaring. [195734]

Malcolm Wicks: BERR restricts flaring of UK offshore gas where it is technically possible and economically sensible to do so. All offshore flaring is tightly controlled by the issue of flaring consents and, since the start of this year, flaring is also included in the EU Emissions Trading Scheme. We continue to look for ways to keep offshore flaring to a minimum.

Through the European Union, the UK supports the World Bank-led Global Gas Flaring Reduction partnership which, by sharing global best practices and implementing country specific programmes, facilitates and supports national efforts to use currently flared gas by promoting effective regulatory frameworks and tackling the constraints on gas utilisation, such as insufficient infrastructure and poor access to local and international energy markets, particularly in developing countries.

Radio: Illegal Broadcasting

James Brokenshire: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many *(a)* prosecutions and *(b)* convictions there were in 2006 in relation to pirate radio stations and illegal radio broadcasts. [193807]

Malcolm Wicks: I am informed by the Office of Communications (Ofcom) that in 2006 they brought forward 62 prosecutions and secured 62 convictions under the Wireless Telegraphy Acts 1949 and 2006 for illegal broadcasting.

Statistics on prosecution cases concluded in the courts may be found on the Ofcom website at:

http://www.ofcom.org.uk/radiocomms/ifi/enforcement/

Radioactive Materials: Shipping

Mr. Peter Ainsworth: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what minimum safety and security requirements apply to vessels carrying nuclear material by sea for a distance of *(a)* less and *(b)* more than 500 miles. [195858]

Malcolm Wicks *[holding answer 20 March 2008]:* The security of nuclear material on board a UK-flagged vessel is regulated by the Office for Civil Nuclear Security (OCNS) in accordance with the Nuclear Industries Security Regulations 2003 (NISR). These regulations, which ensure that the UK's obligations under the Convention on the Physical Protection on Nuclear Material (CPPNM) are met and which take full account of international recommendations in this area, are supplemented by a Technical Requirements Document which details minimum security standards. This document is protectively marked; it is not Government policy to release precise details of security measures since this information could be of use to those with malicious intent.

In terms of security arrangements for the transport of nuclear material, distance is not the factor which sets the level of security. The overall security posture will be dictated by the category of the material being carried and the threat pertaining. The mode(s) of transport, packages to be used and other physical, procedural and administrative measures based on the principles of defence-in-depth and graded approach will also be relevant in designing a security system combining deterrence, detection, delay and response measures, complemented by other measures for mitigating the consequences of malicious acts, including recovery and for minimizing the radiological consequences of any theft, sabotage or other malicious act.

Vessels transporting nuclear material by sea are required to operate in compliance with the requirements of prevailing international law on the safety of ships, most notably the International Convention for the Safety of Life at Sea (SOLAS, found at http://www.imo.org/Conventions/contents.asp?topic_id=257&doc_id=647). Additionally they are required to comply with supplementary measures contained in the International Code for the Safe Carriage of Packaged Irradiated Fuel, Plutonium and High Level Radioactive Wastes on board ships (the INF code, found at http://www.imo.org/Safety/mainframe.asp?topic_id=354) which deal specifically with the carriage of nuclear material.

Radioactive Materials: Transport

Mr. Peter Ainsworth: To ask the Secretary of State for Business, Enterprise and Regulatory Reform

what guidance he has issued to the Nuclear Decommissioning Authority on the arrangements for the transportation of plutonium dioxide powder by (*a*) land and (*b*) sea; and if he will make a statement. [195859]

Malcolm Wicks *[holding answer 20 March 2008]*: It is a regulatory requirement that any transport of category I civil nuclear material is conducted in accordance with a Transport Security Plan (TSP) to be submitted by the approved carrier in accordance with the requirements of the Nuclear Industries Security Regulations 2003. The TSP must be approved by the regulator, the Office for Civil Nuclear Security (OCNS). These plans take full account of all relevant national regulations, international standards and obligations regarding the carriage of nuclear material and OCNS approval will not be given until it is satisfied that all security measures are adequately robust.

Packages for transporting plutonium oxide powder are approved by the Department for Transport to a standard that is set by the International Atomic Energy Agency. Vessels for transporting plutonium oxide are approved to a standard set by the International Maritime Organisation.

Renewable Energy: Rural Areas

Mr. Weir: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent discussions he has had with Ofgem on connection charges for green energy projects in remote areas; and if he will make a statement. [188764]

Malcolm Wicks: My officials met with Ofgem on 3 October 2007 and 29 January 2008 to discuss connection charges for renewable energy projects in the Scottish Islands these discussions covered Ofgem's consultation on delivering island connection infrastructure, National grid's review of security standards (the SQSS review) and the power to adjust transmission charges for renewable projects in remote areas provided in section 185 of the Energy Act 2004.

Sellafield

Mr. Gordon Prentice: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what discussions he has had with the consortiums bidding for the Sellafield nuclear clean-up on the timetable for selecting the preferred bidder and awarding the contract; and if he will make a statement. [195168]

Malcolm Wicks: My right hon. Friend the Secretary of State has had no discussions with the bidders on any aspect of the competition for the Sellafield Parent Body Organisation (PBO). To do so would be completely inappropriate.

On 21 December 2007, as planned, the Nuclear Decommissioning Authority (NDA) announced that invitations to submit final tenders had been issued for the Sellafield PBO. This followed the completion of eight months of competitive dialogue with the four bidders. Responses are scheduled to be returned to the NDA in spring 2008, and an announcement of the winning PBO bidder is expected to be made in summer 2008.

Sexual Harassment

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many complaints of (*a*) sexual harassment and (*b*) sexual discrimination have been made by staff in (i) his Department and (ii) its agencies in the most recent year for which figures are available. [184694]

Mr. Thomas: In the calendar year 2007, the most recent for which figures are available, there have been less than five sexual harassment and sexual discrimination complaints made by staff. Further information cannot be provided on grounds of confidentiality.

Supermarkets

Mr. David Hamilton: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether he plans to implement the recommendation of the Competition Commission to establish a supermarket ombudsman. [196404]

Mr. Thomas: The Competition Commission has not yet published its final findings and remedies in regard to its inquiry into the UK grocery market. A supermarket ombudsman is just one proposal currently under consideration. The Government will reflect on and respond to the Competition Commission's final report which is expected in May.

Telephone Numbering: Data Protection

Robert Neill: To ask the Secretary of State for Business, Enterprise and Regulatory Reform which public authorities, other than police forces and the ambulance service, have access to the ex-directory telephone database. [192408]

Malcolm Wicks: Ex-directory telephone information is available on the databases that are maintained on behalf of the emergency services namely the police, fire and ambulance services and the maritime and coastguard services. Such information may also be accessed using the Regulation of Investigatory Powers Act 2000 (RIPA) by a variety of public authorities and through the Social Security Fraud Act 2000 (SSFA) by the Department for Work and Pensions and its agencies.

Utilities: Prices

Rosie Cooper: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps his Department has taken to regulate utility bill price increases for low income households over the last three years; and if he will make a statement. [194832]

Malcolm Wicks: Neither the Government nor Ofgem regulate overall prices in the energy supply markets, which are competitive markets.

In the Energy White Paper, we called for suppliers to increase their help to vulnerable customers. The level of help has now increased from £40 million to £56 million during winter 2007-08 with around 700,000 households benefiting.

However, the Government believe that, given recent rises in energy prices coupled with a growing global demand for fossil fuels, vulnerable households need further help. We will continue discussions with the energy companies and Ofgem with the aim of delivering a fair programme of assistance for vulnerable households. Our aim is to increase the level of assistance from £56 million a year to £150 million a year. The Government are prepared to introduce legislation, if necessary, designed to enable it to require energy companies to make a fair contribution.

Waste Management

Mr. David Anderson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will take steps to investigate the dumping of Chinese air compressors in the EU. [189528]

Mr. Thomas: On 17 March the Council of Ministers agreed a proposal from the European Commission to impose anti-dumping duties on imports of certain types of air compressor originating in the People's Republic of China. The measures will come into force on 20 March and last for two years.

INNOVATION, UNIVERSITIES AND SKILLS

Adult Education

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills how many adults are currently enrolled in *(a)* part-time and *(b)* full-time level 3 courses. [195313]

Bill Rammell: There were 242,100 adults on LSC-funded full level 3 courses in 2006/07, the latest year available. The following table provides breakdowns by further education, work-based learning and Train to Gain. Full-time and part-time breakdowns are only relevant to learning in further education.

Learners aged 19+ in 2006/07

	Number
Total	242,100
Further education	
Total	155,600
Full-time	60,300
Part-time	95,200
Work-based learning	73,600
Train to Gain	12,800

Source:
Learning and Skills Council Statistical First Release ILR/SFR14, December 2007

Apprentices: West Midlands

Mr. Jenkins: To ask the Secretary of State for Innovation, Universities and Skills what steps his Department has taken in Staffordshire and the West Midlands to increase the number of apprenticeships. [193607]

Bill Rammell: West Midlands Learning and Skills Council works with employers across the region to increase the number of people starting and completing Apprenticeships. It plans to increase Apprenticeships by around 4 per cent. in 2008/09. Projections are for 12,550 Apprenticeship starts with 8,415 completions and a further 5,620 Advanced Apprenticeship starts with 3,385 completions in 2008/09. The overall completion rate will be 65 per cent. which represents a rise of 3 per cent. on the projected 2007/08 level.

The increase in Apprenticeships in the West Midlands will be achieved by re-directing funding to high performing providers, introducing the Apprenticeship matching service, developing closer employer engagement, removing support for poorly performing provision and introducing new opportunities for young people to prepare to undertake an Apprenticeship.

Aviation

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills how much his Department and its predecessor spent on *(a)* business and *(b)* first class air travel in the last 12 months. [171256]

Bill Rammell: The Department for Innovation, Universities and Skills was created as a result of Machinery of Government changes in June 2007. Information on travel expenditure to this detail is not collected centrally in the Department. This information could be obtained only at disproportionate cost. However, year to date, the Department has spent £276,455 on air travel.

Civil Service Appeal Board

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how many and what percentage of appeals by employees of *(a)* his Department and *(b)* its agencies were (i) heard and (ii) upheld by the Civil Service Appeal Board in each of the last 10 years; how much was awarded in compensation by the Board to each successful appellant in each year; what the reason was for each compensation award; how many appellants were reinstated by the Board in each year; and what the reason was for each (A) dismissal and (B) reinstatement. [192510]

Bill Rammell: It is not possible to provide the response for the period prior to the creation of this Department as part of the Machinery of Government changes on 28 June 2007. However, since then there have been no instances of appeals by employees being lodged with the Civil Service Appeal Board for decision.

Departmental Accountancy

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills what items of his Department's (a) revenue and *(b)* expenditure are uprated using (i) the consumer prices index, (ii) the retail prices index and (iii) other measures of inflation. [179937]

Bill Rammell: The Department uses a range of indices in order to uprate payments. Decisions on the appropriate indices to use are devolved to the individual business units within the Department and this information can be gathered only at disproportionate cost.

Departmental Cost Effectiveness

Bob Spink: To ask the Secretary of State for Innovation, Universities and Skills what progress his Department has made in its zero-based budget review under the Comprehensive Spending Review. [191487]

Bill Rammell: I refer the hon. Gentleman to the Annex pertaining to the Department for Innovation, Universities and Skills in "Meeting the aspirations of the British people: the 2007 Pre-Budget Report and Comprehensive Spending Review" (Cm 7227).

Further detail on the "Value for Money" gains described in the Annex were published on the Department's web site in December 2007 in the "Value for Money Delivery Agreement".

Departmental Empty Property

Mr. Prisk: To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the sums to be paid by his Department in unoccupied property rates in (*a*) 2007-08 and (*b*) 2008-09. [193767]

Bill Rammell: The Department for Innovation, Universities and Skills does not expect to pay anything in respect of unoccupied property rates for 2007-08 and 2008-09.

Departmental Internet

Mr. Swire: To ask the Secretary of State for Innovation, Universities and Skills if his Department will (*a*) follow the Internet Content Rating Association (ICRA) guidelines and (*b*) display ICRA's label on the websites for which it is responsible. [191773]

Bill Rammell: The Government are committed to safety online for all users, including children. The Central Office for Information is preparing a new set of guidance for many aspects of the Government web estate and we will implement what they mandate.

Departmental Manpower

Norman Baker: To ask the Secretary of State for Innovation, Universities and Skills when his Department's whistleblowing procedures were reviewed to reflect the provisions in the revised civil service code. [162458]

Bill Rammell: DIUS have not yet established their own whistleblowing procedures. Ex DfES staff in DIUS raise whistleblowing concerns with DCSF. Ex DTI staff raise concerns with BERR.

Departmental Plants

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how much his Department has spent on pot plants since it was established. [192060]

Bill Rammell: The Department for Innovation, Universities and Skills was created as a result of machinery of government changes in June 2007. Since its establishment the Department has not spent any money on pot plants.

Departmental Public Expenditure

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills what changes have been made to his Department's budget since the publication of the comprehensive spending review conclusions on 9th October. [173161]

Bill Rammell: Since the publication of the comprehensive spending review conclusions on 9 October there has been no change in the Department's budget.

Departmental Public Participation

Nick Herbert: To ask the Secretary of State for Innovation, Universities and Skills how much his Department has spent on (*a*) citizens' juries, (*b*) focus groups and (*c*) other deliberative forms of public opinion research in each month since January 2006. [166588]

Bill Rammell: The Department for Innovation, Universities and Skills was created at the end of June 2007. Since then, the Department has paid to Sciencewise projects (Sciencewise is a programme funded by the Government to help policy makers find out people's views on emerging areas of science and technology so that they can take these into account when making national policy decisions) the following amounts, broken down by month:

	£
Month	*Spend*
July 2007	98,652.19
August 2007	6,378.22
September 2007	60,000.00
October 2007	36,067.93
November 2007	3,177.92
December 2007	19,847.47
January 2008	0
February 2008	22,437.64

The Department has also held five student juries as preliminary work to the National Student Forum which took place on the following dates and locations:

Date	*Location*
30 November 2007	London
28 January 2008	Manchester
31 January 2008	London
1 February 2008	Bristol
4 February 2008	Sheffield

The costs for these juries totalled just over £30,600.

Departmental Publicity

Sarah Teather: To ask the Secretary of State for Innovation, Universities and Skills how much (*a*) has been spent and (*b*) is planned to be spent on establishing his Department and its corporate identity. [164204]

Bill Rammell: The Department for Innovation, Universities and Skills (DIUS) was created as a result of Machinery of Government changes in June 2007. The cost of creating the Department and its corporate identity has been met from the existing baseline. From this baseline, a budget of £60,000 was earmarked for the task, of which £33,557 has been spent.

Departmental Recycling

Mr. Jenkins: To ask the Secretary of State for Innovation, Universities and Skills what weight of paper his Department recycled in each of the last five years. [179455]

Bill Rammell: As the Department was only formed on 28 June 2007 we do not have five years of waste recycling to report on.

Departmental Redundancy

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills (1) what the cost was of redundancies in his Department in the 12 months preceding (*a*) 30 June 2004, (*b*) 30 June 2005 and (*c*) 30th June 2006; [175332]

(2) when he will answer Question 175332 on the cost of redundancies in his Department tabled by the hon. Member for Fareham on 13 December 2007. [193352]

Bill Rammell: The Department was created as part of the Machinery of Government changes on 28 June 2007. In the period since it was formed there have been no redundancies affecting employees of the Department.

Departmental Sick Leave

David Simpson: To ask the Secretary of State for Innovation, Universities and Skills how many staff in his Department (*a*) were disciplined and (*b*) had their employment terminated as a result of a poor sickness record in each of the last five years. [163699]

Bill Rammell: The information requested is as follows:

	Staff disciplined	*Employment terminated*
2006	1	1
2005	1	1
2004	2	1
2003	0	0
2002	0	0

Departmental Temporary Employment

Pete Wishart: To ask the Secretary of State for Innovation, Universities and Skills what average hourly rate his Department paid to employment agencies for agency staff in each year since 1999, broken down by employment agency. [187796]

Bill Rammell: It is not possible to provide this information without incurring disproportionate costs of collection. Since the Department was formed by machinery of government changes on 28 June 2007 it has continued to make use of the services of temporary staff from agencies. Preferential rates of pay and terms of engagement have been negotiated with certain selected agencies under an over-arching framework agreement. This procurement process has the purpose of achieving best value for money and is used across Government.

Eurostar

Mr. Philip Hammond: To ask the Secretary of State for Innovation, Universities and Skills how much his Department has spent on (*a*) first and (*b*) other class travel by Eurostar since establishment. [187747]

Bill Rammell: The Department for Innovation, Universities and Skills was created as a result of Machinery of Government changes in June 2007. Information on travel expenditure to this detail is not collected centrally in the Department. This information could be obtained only at disproportionate cost. However, since establishment, the Department has spent £117,940 on rail travel.

Fair Trade Initiative

Mr. Weir: To ask the Secretary of State for Innovation, Universities and Skills if he will take steps to promote Fairtrade Fortnight 2008 amongst staff within his Department; and if he will make a statement. [189494]

Bill Rammell: This Department's accommodation, facilities management, catering and events hospitality are provided on our behalf as a shared service by the Department for Children Schools and Families and the Department for Business Enterprise and Regulatory Reform. The answers given by those Departments will therefore cover this Department also.

Foundation Degrees: Admissions

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills how many people have applied to join foundation degree courses in each year since 2001; and how many such applications were successful in each such year. [194398]

Bill Rammell: The latest available published figures from UCAS (Universities and Colleges Admissions Service) are shown in the table. The figures relate to numbers of applications rather than applicants and numbers of accepted applicants to full-time foundation

degree courses and exclude applications to part-time courses and direct to institutions. Each applicant can apply to up to six courses.

Number of UK and overseas domiciled applications and accepted applicants to foundation degree courses in the UK: years of entry 2002 to 2007

Year of entry	Applications[1]	Accepted applicants
2002[2]	n/a	2,699
2003	12,391	5,586
2004	17,246	8,853
2005	30,812	12,511
2006	40,818	14,673
2007	48,366	18,194

n/a = Not available

[1] As each applicant may apply to up to six different courses/institutions, these applications figures will be larger than those for applicants.

[2] Figures for the number of applications to foundation degree courses in the 2002 year of entry have not been published by UCAS.

Source:
Universities and Colleges Admissions Service (UCAS)

Currently, there are almost 71,000 people studying foundation degrees. We are therefore making good progress towards achieving our target participation rate of 100,000 by 2010. We are committed to foundation degrees as a key vehicle for HE expansion as they are precisely the type of business-facing, demand-led provision which is helping employers to address higher level skill needs.

Higher Education: Admissions

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills pursuant to the Answer of 4 March 2008, *Official Report*, column 2434W, on high education: admissions, if he will provide a break down of the information in the Answer by (*a*) full-time undergraduate students taking a first degree, (*b*) part-time undergraduate students taking a first degree, (*c*) full-time undergraduate students taking a second degree, (*d*) part-time undergraduate students taking a second degree, (*e*) full-time students taking a postgraduate degree and (*f*) part-time students taking a postgraduate degree. [194390]

Bill Rammell *[holding answer 17 March 2008]*: The latest available information is given in the following tables. Table 1 covers full-time entrants and table 2 covers part-time entrants. Comparable figures for the 2007/08 academic year will be available in January 2009.

Table 1: full-time entrants[1] to higher education courses at English higher education institutions[2] by age[3] and level of study: academic years 2001/02 to 2006/07

	17 to 21					Over 21				
	First Degree					First Degree				
Academic year	On 1st Degree[4]	On 2nd Degree[5]	Other UG	Post graduate	Total	On 1st Degree[4]	On 2nd Degree[5]	Other UG	Post graduate	Total
2001/02	223,515	1,740	28,080	13,305	266,565	47,460	4,305	23,645	89,685	164,890
2002/03	234,640	1,885	26,135	14,260	276,915	50,550	5,260	25,375	103,075	184,260
2003/04	238,230	2,150	25,410	14,385	280,175	51,585	6,405	26,190	111,715	195,895
2004/05	242,625	2,545	25,075	14,435	284,680	50,420	7,200	26,370	112,850	196,835
2005/06	259,250	2,720	24,965	14,815	301,745	50,365	7,880	27,200	114,490	199,850
2006/07	251,845	2,770	25,290	15,790	295,695	47,605	6,880	24,730	117,560	196,695

[1] Includes students from the UK and overseas.
[2] Excludes the Open university.
[3] Excludes a small number of students with an unknown age or an age less than 17 (this was less than 0.6 per cent. in 2006/07).
[4] Includes entrants to first degree courses who do not already have qualifications of first degree level or higher.
[5] Includes entrants to first degree courses who already have qualifications of first degree level or higher.
[6] Figures for entrants to other undergraduate courses (such as HMD, HNC) have been included for completeness.

Note:
Figures are given on a HESA Standard Registration Population and are rounded to the nearest five.

Higher Education: Finance

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills what proportion of (*a*) part-time and (*b*) full-time students enrolled on full-time level 3 courses have their fees paid for by their employers. [195314]

Bill Rammell: Through the Train to Gain Programme, we are committed to ensuring that FE colleges are increasingly responsive to employers' needs and provide training in which employers will increasingly choose to invest. We do not currently routinely collect information on payment of fees by employers, but some information is available from surveys of learners. The last such survey was of learners who completed an FE course in 2003/04. It found that 30 per cent. of the learners doing full level 3 courses said their course fees were paid for by their employer, compared with 18 per cent. of non-full level 3 FE learners.

Members: Correspondence

Mr. Salmond: To ask the Secretary of State for Innovation, Universities and Skills when he plans to reply to the letter of 11 December 2007 from the right hon. Member for Banff and Buchan regarding his constituent L. Flack of Cruden Bay. [183961]

Bill Rammell: A reply was sent to the hon. Member on 8 February 2008.

Ministers: Official Residences

Anne Main: To ask the Secretary of State for Innovation, Universities and Skills whether any ministerial residencies are allocated to Ministers in his Department. [194656]

Bill Rammell: I refer the hon. Member to the reply given by my hon. Friend the Parliamentary Secretary for the Cabinet Office (Mr. Watson) on 19 February 2008, *Official Report*, column 688W.

Science and Technology Facilities Council

Mr. Wallace: To ask the Secretary of State for Innovation, Universities and Skills what subscription payments to which organisations the Science and Technology Facilities Council is expected to make in financial year 2008-09. [191867]

Ian Pearson: The STFC informed me that they expect to make the following subscription payments in financial year 2008-09:

	£ million
European Southern Observatory (ESO)	24.3
European Incoherent Scatter Scientific Association (EISCAT)	0.3
European Organization for Nuclear Research (CERN)	81.6
Anglo-Australian Telescope (AAT)	0.4
European Science Foundation (ESF)	0.1
European Space Agency (ESA)	72.4
European Synchrotron Radiation Facility (ESRF)	7.3
Institut Laue-Langevin (ILL)	14.9
Gemini Observatory	3.6
Total	205.2

Sign Language: North East Region

Bill Etherington: To ask the Secretary of State for Innovation, Universities and Skills what steps he has taken to increase the availability of basic and advanced sign language training in the North East region for adults, children and young people. [183723]

Bill Rammell: The Department is working closely with the Learning and Skills Council to ensure that there are opportunities available to meet the needs of learners with learning difficulties and/or disabilities. This is a priority identified in the Learning and Skills Council's Statement of Priorities for the funding period 2008/09 to 2010/11.

Building on this the Learning and Skills Council North East region indicate that there are 250 courses in Sign Language at various levels being delivered in the region. The region has given a commitment within its regional strategy for learners with learning difficulties and/or disabilities "Meeting Need: Raising Aspiration", to ensure that provision that equips learners, or people who support learners, to communicate or develop their specialised skills eg British Sign Language, is protected within the balance and mix of provision. In addition there are several projects being undertaken aimed at raising awareness of hearing impairment issues, to build capacity of staff in meeting the needs of learners with hearing impairments and to increase the support to learners.

Students: Disabled

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills how many equal and lower qualification students with disabilities were studying less than 50 per cent. of a full course in the latest period for which figures are available. [195099]

Bill Rammell: About 6,300 students recorded as having a disability were studying at less than 0.5 of a full-course for equivalent or lower level qualifications (ELQ) to ones they already hold in 2005/06—the latest year for which data are available. All existing ELQ students will continue to be supported but the progressive redistribution of funding away from ELQ students will enable us over time to support more of the 5 million people of working age with a disability but without a first higher education qualification than would otherwise be possible, especially the 900,000 or so with level 3 qualifications who have not progressed to level 4.

Students: Females

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills how many and what proportion of equal and lower qualification students were female in the most recent period for which figures are available. [195098]

Bill Rammell: About 70,000 women were studying for equivalent or lower level qualifications (ELQ) to ones they already hold in 2006/07, the latest year for which data are available. This represents a little under 60 per cent. of the total number of ELQ students, and that proportion is broadly the same as the overall male/female balance within higher education. The progressive redistribution of funding away from ELQ students will enable us to support more of the 10 million women without a first higher education qualification than would otherwise be possible, especially the two million women with level 3 qualifications who have not progressed to level 4.

Students: Finance

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the number of students for equivalent and lower qualifications as an additional degree who will no longer receive funding in (*a*) 2008-09, (*b*) 2009-10 and (*c*) 2010-11. [175802]

Bill Rammell: All existing students doing equivalent and lower level qualifications will continue to receive funding during the years in question.

Students: Identity Cards

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the financial impact upon young people of requiring them to pay for identity cards prior to applying for a student loan, and if he will make a statement. [192729]

Bill Rammell: There are no plans to require students to have an ID card to apply for a student loan or any other form of student support, therefore no estimates of the cost have been made.

The policy on the introduction of identity cards on a voluntary basis rests with the Home Office. Currently either a passport or a birth certificate (accompanied by an identity confirmation form signed by a person of good standing) is required as proof of identity for students applying for a Government student loan. We have no current plans to change this, although the process for verifying the identity of applicants is kept under review.

Students: Loans

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills how many people who graduated in (*a*) 2001, (*b*) 2002, (*c*) 2003, (*d*) 2004, (*e*) 2005, (*f*) 2006 and (*g*) 2007 have repaid the whole of their student loan. [188038]

Bill Rammell: Available data are shown in the table.

English domiciled borrowers who have fully repaid their student loan[1] up to February 2008, by loan type[2]

Date repayments due to start	Mortgage-style loan	Income-contingent loan	All loans[3]
April 2002	25,800	3,900	29,700
April 2003	2,800	6,000	8,800
April 2004	600	6,300	6,900
April 2005	100	6,200	6,300
April 2006	-	6,200	6,300
April 2007	-	5,200	5,200
April 2008	-	2,500	2,500

1 Figures are rounded to the nearest 100. Publicly-owned student loans.
2 Repayment begins from the April following the year of graduation, when income reaches the threshold.
3 Borrowers with both types of loan may be counted twice.
- Nil or less than 50.

Source:
Student Loans Company.

Borrowers who graduated in 2007 are not required to begin repaying their loans until April 2008; consequently the April 2008 figures in the table cover only those borrowers who have chosen to fully repay their loans before any repayments are due. The table reflects the change from mortgage-style to income-contingent loans. The figures relating to 2001 graduates, who started to repay their loans from April 2002, are significantly higher because the normal period for repaying mortgage-style loans is five to seven years.

Borrowers with up to four mortgage-style loans repay over five years when their income exceeds the repayment threshold; those with five or more loans repay over seven years. The threshold for borrowers with mortgage-style loans is 85 per cent. of national average earnings, currently £25,287 from 1 September 2007. Borrowers are able to apply for deferment of repayments if their income is below this. Income-contingent loans replaced mortgage-style loans from 1998. Borrowers with income contingent loans repay at a rate of 9 per cent. of earnings above £15,000 a year. Repayments are usually collected through the tax system by employers, in the same way as income tax and national insurance contributions. Self-employed borrowers make repayments through the self assessment system.

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills how many cases of multiple applications from individuals for student loans were recorded in each of the last five years for which figures are available. [192338]

Bill Rammell: The responsibility for assessing student support applications in England rests with local authorities and therefore complete information is not centrally available about the number of multiple applications identified. From 2009-10 the SLC will assess all new applications for student support, and records will be held centrally.

Where local authorities suspect fraud at the application stage, they will not process the application until they are completely satisfied with the documentary evidence. Where payments have been made, the local authorities may prosecute the students, or report the matter to the police for prosecution, and recover any overpayments.

The Student Loans Company (SLC) run a range of checks using industry-standard software systems which pick up potential multiple applications. Payments are suspended by the SLC until students contact their local

authority and the case is thoroughly checked. Since 2004, 388 cases such cases have been identified, though not all are fraudulent applications.

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills if he will make an estimate of the cost to the public purse of raising the student loan repayment income threshold to (*a*) £18,000, (*b*) £20,000, (*c*) £21,000, (*d*) £22,000, (*e*) £23,000, (*f*) £24,000 and (*g*) £25,000; and if he will make a statement. [196031]

Bill Rammell: The estimated additional resource cost for each £1,000 increase in the current £15,000 repayment threshold is an initial £200 million (for existing loans) plus an ongoing cost of £80 million per year (for new loans). Increasing the threshold to £25,000 would therefore cost an estimated £2 billion plus £800 million per year.

The income threshold is one of the main features of the income contingent loan scheme. This protects borrowers when they need it as they only pay their loan back once they earn over the threshold. Borrowers currently repay nothing until they earn over £15,000. This strikes the right balance, making payments affordable to the individual and student loans affordable to the public purse. We are committed to maintaining the repayment threshold at £15,000 until 2010 when we will review it.

Vocational Education: Peterborough

Mr. Stewart Jackson: To ask the Secretary of State for Innovation, Universities and Skills what steps he is taking to increase the provision of technical and vocational training and education in Peterborough; and if he will make a statement. [179270]

Bill Rammell: The Learning and Skills Council for Cambridgeshire have undertaken a review of their provision of technical and vocational training and education. As a result they have increased their apprenticeship contracted in-learning volume by 10 per cent. in 2007/08 and introduced apprenticeships for people aged 25 years plus. The LSC is already planning further increases in provision for 2008/09 based on the needs identified in their review. The Government have laid out their plans for improving the quality of technical and vocational education training for both young people and adults in apprenticeships in "World-class Apprenticeships: Unlocking Talent, Building Skills for All".

To support this challenging agenda the Government are increasing apprenticeship funding by a quarter to £1 billion by 2010/11.

Written Questions: Government Responses

Mr. Jeremy Browne: To ask the Secretary of State for Innovation, Universities and Skills when he expects to answer Question (*a*) 181532 and (*b*) 181601 on departmental travel, tabled on 21 January 2008 by the hon. Member for Taunton; and what the reason for the time taken to respond is. [191404]

Bill Rammell: The questions referred to were answered on 17 March 2008, *Official Report*, columns 855-56W.

The Department for Innovation, Universities and Skills was created by machinery of government changes at the end of June 2007. A consequence of these changes is that DIUS relies on management information supplied by the Department for Children, Schools and Families (DCSF) and the Department for Business, Enterprise and Regulatory Reform (BERR) to answer questions relating to departmental matters, which impacts on the speed of response.

COMMUNITIES AND LOCAL GOVERNMENT

Buildings: Finance

Mr. Willis: To ask the Secretary of State for Communities and Local Government what (*a*) capital, (*b*) revenue funding and (*c*) other support, including donation of land or buildings, (i) the Government and (ii) the European Union has provided for (A) the Scottish Exhibition Centre and Scottish Conference Centre in Glasgow, (B) the Edinburgh International Conference Centre, Edinburgh, (C) the Arena and Conference Centre, Liverpool, (D) the International Conference Centre and the Symphony Hall, Birmingham, (E) the Bournemouth International Conference Centre, Bournemouth, (F) the Brighton Centre, Brighton, (G) the Riviera Centre, Torquay, (H) the Excel Centre, the Queen Elizabeth II Conference Centre, London, (I) the Manchester Central, Manchester and (J) the Harrogate International Centre, Harrogate; and if she will make a statement. [197139]

Mr. Dhanda: The information requested is not held centrally and could be provided only at disproportionate cost.

Councillors: Complaints

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government which council had the highest number of complaints made to the Standards Board of England from its councillors about its councillors according to records held by the Standards Board in the latest period for which figures are available. [194342]

John Healey: In 2007-08, the council whose members had the largest number of misconduct allegations made against them by fellow councillors was Somerset county council, where there were 30 such allegations, 29 from a single councillor.

Eco-Towns: Pochin Group

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what meetings (*a*) Ministers and (*b*) officials in her Department have had with representatives of Pochin Group plc on eco-towns. [194344]

Caroline Flint: Neither the Secretary of State for Communities and Local Government or officials have held meetings with representatives of Pochin Group plc on eco-towns.

Electoral Register: Fraud

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Bromley and Chislehurst of 5 March 2008, *Official Report*, column 2886W, on electoral register: fraud, to which local authorities the legal advice has been circulated; and if she will place a copy in the Library of the advice. [194837]

John Healey: Legal advice was offered to all local authorities who are council tax billing authorities.

I have placed a copy of the legal advice in the Library of the House.

Empty Property

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 6 March 2008 to the hon. Member for Welwyn Hatfield (Grant Shapps), *Official Report*, column 2775W, on empty property, what the locations were of each of the properties for which public requests were received; and for what reasons each request was refused or accepted. [194826]

Mr. Dhanda: The following table lists the land or properties involved in the 24 public request to order disposal cases referred to in the answer of 6 March 2008; whether a direction was issued; and the reason why a direction was or was not issued.

2006

Site	*Direction to order disposal*	*Reason*
Edge Lane, Liverpool	Non direction	The council had intention to bring the properties into active use as part of their comprehensive regeneration of the Edge Lane Corridor
Land at Upper Campfield Market, Manchester	Non direction	Land is being used in accordance with the council's functions
70, Birtles Road, Macclesfield	Non direction	Council had firm intention to deal with the property
53 Lutterworth Road, Leicester	Non direction	Leicester city council intend to develop the site as part of a bypass scheme in 2009-10
Land off Manners Avenue, Ilkeston, Derbyshire	Non direction	Land in question is being sufficiently used for the purpose of recreation, walking and cycling
Property in Chinnor, Oxfordshire	Non direction	Property is still required for police operational purposes
Housing in Maidenhead	Invalid	Owned by MOD—not covered by PROD since owned by a Government Department
Farnham, Surrey	Non direction	Council had a firm intention to bring it back into use
Palace House Stables and Yard Palace Street Newmarket Suffolk	Non direction	Council had a firm intention to bring the land into active use as a working yard for the retraining of retired racehorses
61 Caernarvon Road Norwich Norfolk	Withdrawn	Council put the land up for auction
13 Lea Walk Harpenden Herts	Invalid	Land not owned by local authority
151-159 Wells Road, London	Invalid	National Health Trust land, not covered by Part 10 of the Local Government, Planning and Land Act 1980.

2007

Site	*Direction to order disposal*	*Reason*
Prescot Road, Liverpool	Non direction	Council proposes to deal with the land through a mixture of refurbishment and demolitions. Will review the situation late August 2008
Prescott Drive, Liverpool	Under review	
Maple Grove, Fern Grove, Liverpool	Maple Grove - SoS minded to make a direction, now within 42 days for representations	Maple Grove—local authority had no firm proposals to deal with these properties
	Fern Grove—non direction	Fern Grove—no direction as local authority had firm intentions to develop the sites
9 Pinfold Street, Darlaston Wednesbury West Midlands	Non direction	Satisfied that the Council intend to develop the land for housing
177 Weston Street Walsall West Midlands	Invalid	Immediate local authority does not hold an interest in the property
9 Marlborough Road, Castle Bromwich, Birmingham B36 0EH	Invalid	Immediate local authority does not hold an interest in the property
Empty property at Alfreton Park, Alfreton, Derby	Non direction	Derbyshire county council and Amber Valley borough council are reviewing use/access
Hythe and Lydd-on-Sea, Kent	Invalid	In private ownership and thus not covered by PROD
59 properties in Phoenix Street and Richard Cooper Street, Goole	Non direction	East Riding of Yorkshire Council (EROYC) and its Partners due to commence year three of the 10 year programme
35 Mitcham Park, Merton	Direction issued	No firm plans to sell/develop/bring into use within a reasonable timescale
240 Lordship Lane, London	Unable to pursue	Applicant did not disclose identity, despite correspondence from Government Office
12 Lord Holland Lane, London	Unable to pursue	Applicant did not disclose identity, despite correspondence from Government Office.

Fire Prevention: Construction Methods

Sir Paul Beresford: To ask the Secretary of State for Communities and Local Government what steps she is taking to ensure that the fire safety standards of composite panels are maintained; and what guidance she has issued to fire authorities on the topic. [196302]

Mr. Dhanda *[holding answer 25 March 2008]:* Fire safety risk assessment undertaken under the Regulatory Reform (Fire Safety) Order 2005 should take account of the type of construction used in any building. The Department has issued technical fire safety risk assessment guidance which includes reference to composite panels (also known as insulated core panels). This guidance is available on the Department's website at:

www.communities.gov.uk/firesafety

Fire Services: ICT

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how many fire and rescue services had taken delivery of information technology infrastructure specifically earmarked for use as part of the FiReControl project by 31 December 2007. [186432]

Mr. Dhanda: None. However, as part of the FiReControl project new mobilising equipment will be delivered to around 1,500 fire stations over the next 2.5 years. On receipt of a mobilisation message from a regional control centre, this new equipment will trigger station end components to effect a mobilisation. This includes sounding alarms, triggering retained alerters, switching on lights, opening doors and printing mobilisation messages.

In March this year new mobilising equipment has started to be installed in fire stations in Staffordshire and North Yorkshire. Infrastructure to enable FRA's to prepare data to support the FiReControl system will also start to be fitted in FRA buildings in April.

Government Offices for the Regions: Finance

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government which of her Department's programme budgets were administered by the Government Offices of the Regions in each of the last five years. [195172]

Mr. Dhanda *[holding answer 18 March 2008]:* The Government offices have directly administered the European Regional Development Fund, the New Ventures Fund and the new deal for communities programme throughout the last five years.

Housing Low Incomes

David Wright: To ask the Secretary of State for Communities and Local Government how many new homes were completed by registered social landlords in *(a)* Telford and Wrekin and *(b)* the West Midlands in each of the last 10 years. [193905]

Mr. Iain Wright: The following table shows the new build figures for registered social landlords in Telford and Wrekin district, West Midlands region and England from 1996-97 to 2005-06:

	Telford and Wrekin	*West Midlands*	*England*
1996-97	173	3,185	33,156
1997-98	71	2,457	27,887
1998-99	19	2,532	26,372
1999-2000	103	2,782	22,302
2000-01	84	2,212	20,760
2001-02	49	1,945	21,676
2002-03	118	2,453	20,897
2003-04	128	1,980	23,703
2004-05	81	2,759	26,670
2005-06	78	3,762	34,199

Source:
Housing Corporation and Housing Strategy Statistical Appendix return from local authorities

The table excludes acquisitions of existing stock and new build affordable housing provided by local authorities. For example, in 2005-06, total supply including acquisitions and local authority figures was 44,923 in England, 4,487 in West Midlands region, and 88 in Telford and the Wrekin district.

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government when her Department will publish the findings of Brian Pomeroy's review of the shared equity market; and if she will make a statement. [196629]

Mr. Iain Wright *[holding answer 25 March 2008]:* The Government appointed Brian Pomeroy to help it follow up on the Shared Equity Task Force report and advise us on ways to develop the private sector shared equity market. This work is expected to finish shortly and we will make a statement when it is complete.

Housing: Thames Gateway

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government when she expects to receive figures for the number of dwellings built on brownfield land in the Thames Gateway area in 2007. [189390]

Caroline Flint: The Government have a target that 80 per cent. of new housing in the Thames Gateway should be built on previously developed 'brownfield' land. The Thames Gateway Delivery Plan, published in November 2007, confirms that, since the inception of the Sustainable Communities Plan in 2003, that target has been exceeded and the Government are committed to keeping to the target over the next three years at least. Figures for the number of dwellings built on brownfield land in Thames Gateway for 2007 as a whole will not be available until later in 2008.

Intimidation

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what her most recent assessment is of *(a)* levels of staff concern over and *(b)* the level of (i) bullying, (ii) harassment and (iii) discrimination in her Department. [193835]

Mr. Dhanda: We take this issue very seriously. Our most recent assessment is set out in the Government Response to the Select Committee's Report on the Department for Communities and Local Government's Annual Report 2007 (Cm 7335), a copy of which can be found on the Department's website at:

http://www.communities.gov.uk/publications/corporate/responseannualreport2007

The results of the Department's 2007 staff survey are also on the website.

Local Authorities: Standards

Mr. Liddell-Grainger: To ask the Secretary of State for Communities and Local Government what guidance she issues to local authorities on best practice in *(a)* the management of public money and *(b)* the liabilities of elected councillors in respect of joint venture partnerships. [195955]

John Healey: Local authorities are independent bodies responsible for the proper administration of their financial affairs within the framework set by legislation and codes of practice issued by professional bodies, such as the Chartered Institute of Public Finance and Accountancy. Communities and Local Government and its predecessor Departments have issued guidance to authorities under statutory powers on specific aspects of financial management, including their power of investment and the new powers of trading and charging introduced in the Local Government Act 2003. These are available on the Department's website at:

http://www.local.odpm.gov.uk/finance/capital/data/lginvest2.pdf

http://www.communities.gov.uk/documents/localgovernment/pdf/133628

http://www.local.odpm.gov.uk/guidprop.pdf

Communities and Local Government has issued no guidance on the liabilities of elected councillors in respect of joint venture partnerships.

Mayor of London

Mr. Pickles: To ask the Secretary of State for Communities and Local Government with reference to the Answers to the hon. Member for Beckenham of 9 October 2007, *Official Report*, column 569W, and to the hon. Member for Meriden of 11 December 2006, *Official Report*, column 898W, on the Mayor of London, what the final cost to the public purse of the Standards Board case in relation to Mr Ken Livingstone was, including the costs to *(a)* the Standards Board, *(b)* the Adjudication Panel, *(c)* her Department and *(d)* the Government Office for London, including legal fees, advice, staff time and costs payable to the Mayor. [193915]

John Healey: The Standards Board's own costs in respect of the case against the London Mayor amount to £64,000. The costs payable by the board to the Mayor in connection with the case are £130,000. The cost to the adjudication panel in respect of the case is £14,000. Neither the Department nor the Government office for London were parties to the case, so that no costs were incurred by them on legal representation in respect of it.

Mobile Homes

Mr. Laurence Robertson: To ask the Secretary of State for Communities and Local Government what the legal status of mobile homes is; what legislation governs the occupying of such homes; what definition she uses of a mobile home; whether she plans to bring forward measures to change this status; and if she will make a statement. [196715]

Mr. Iain Wright *[holding answer 25 March 2008]*: The status of a mobile home is that of a personal moveable property. Occupation of mobile homes is governed by the Mobile Homes Act 1983 (as amended) and the Caravan Sites Act 1968. Such homes have by virtue of section 5 (1) of that Act the same definition as a caravan under Part 1 of the Caravan Sites and Control of Development Act 1960. There are no plans to change the status of mobile homes.

Playing Fields: Planning

Mr. Don Foster: To ask the Secretary of State for Communities and Local Government (1) with reference to the answer of 17 July 2007, *Official Report*, column 226W, on playing fields: planning, for what reason the consultation paper on the review of statutory consultees was not published in 2007; when it was *(a)* commissioned and *(b)* originally due for publication; and when it is expected to be published; [194944]

(2) with reference to the answer of 17 July 2007, *Official Report*, column 226W, on playing fields: planning, how many members of staff in her Department are working on the consultation paper on the review of statutory consultees. [194943]

(3) what progress has been made in bringing forward the changes to the Town and Country Planning (General Development Procedure) Order 1995 announced in her Department's press release, "Planning to Safeguard Open Spaces and Playing Fields", of July 2002. [1] [194925]

Mr. Iain Wright: We announced in the Planning white paper "Planning for Sustainable Communities" that we would review arrangements for statutory consultees on planning applications and would consult on proposals in due course. This work is being taken forward, our aim is to publish a consultation paper shortly. Meanwhile, as I mentioned in the reply I gave to the hon. Member on 17 July, we are committed to reducing the threshold for statutory consultation on the sale of playing fields from 0.4 ha to 0.2 ha and we will seek an opportunity to make the necessary amendment to the Town and Country Planning (General Development Procedure) Order 1995.

Press

Mr. Laws: To ask the Secretary of State for Communities and Local Government how many press office staff were employed by *(a)* her Department, *(b)* its agencies and *(c)* its non-departmental public bodies (i) in each year since 1996-97 and (ii) at the latest date for which information is available. [189670]

Mr. Dhanda: I refer the hon. Member to the answer I gave to the hon. Member for Taunton (Mr. Browne) on 18 February 2007, *Official Report*, column 14W.

1. *[Official Report, 24 April 2008, Vol. 474, c. 11MC.]*

Information on agencies and non-departmental bodies is not held centrally and could be provided only at disproportionate cost.

Sewage: Energy

Lynne Jones: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 10 March 2008, *Official Report*, column 48W, on sewage: energy, if she will make it her policy to make urine separation systems mandatory in all new developments where discrete sewerage infrastructure is possible. [195241]

Mr. Iain Wright: The Government do not currently propose to make the use of urine separation systems mandatory in all new developments where discrete sewerage infrastructure is possible.

Part H (drainage and waste disposal) of the Building Regulations currently requires an adequate system of drainage to be provided to carry foul water from appliances within the building to a suitable sewer, septic tank, waste water treatment system or cesspool.

This means that where mains drainage cannot be provided and an applicant wishes to use an appliance such as a composting toilet there may be benefits in using urine separation as this can improve overall efficiency. However, there is a risk that urine separation and the subsequent discharge of a mixture of urine and water from washing appliances to the ground may cause pollution and damage water resources. People who plan to use urine separation and subsequently discharge direct to ground should undertake a robust site investigation and consult the appropriate authorities such as Building Control or the Environment Agency before finalising plans.

Guidance of the provision of toilets is contained in the Approved Document G (Hygiene) of the Building Regulations. This guidance is under review and we expect to consult on the proposals shortly. It will include improved guidance on the location and use of composting toilets.

Social Services: Inspections

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government what the cost of Commission for Social Care inspection was in each of the last three years. [187329]

Mr. Ivan Lewis: I have been asked to reply.

We have been informed by the Commission for Social Care Inspection (CSCI) that the information requested is not available in the form requested. CSCI is funded via a combination of registration fees charged to providers of care and grant in aid from the Department. It is not possible to specify the source of funds spent on inspection activities. The available information on CSCI funding is shown in the following table.

£ thousand

Source of funding	*Departmental revenue*	*Departmental capital charges*	*Other income*	*Total budget*	*Departmental capital*
2003-04	94,320	10,752	46,290	151,362	3,000
2004-05	98,005	10,000	44,402	152,407	2,000
2005-06	86,430	14,490	56,755	157,675	6,000
2006-07	80,984	15,840	64,500	161,324	19,978
2007-08	65,371	12,261	58,600	136,232	18,707

Notes.
1. CSCI was being set up in 2003-04. Its predecessor organisation was National Care Standards Commission.
2. Figures for revenue and capital are grant-in-aid issued by the Department and are the start of year figures. Figures for income are derived from CSCI annual accounts.
3. 'Other income' represents income largely from regulatory fees.
4. Figures for CSCI up to 2006-07 include the cost of children's social services functions transferred to Ofsted on 1 April 2007.

Source:
Department of Health

CHILDREN, SCHOOLS AND FAMILIES

Bookstart Scheme

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) what the cost of Bookstart has been since the programme began; and how many books have been purchased under the scheme to date; [196569]

(2) how many books purchased under the Bookstart programme have been *(a)* delivered to and *(b)* collected by parents; and how many are awaiting collection. [196570]

Beverley Hughes: Bookstart is a public/private partnership which is supported by publishers, sponsors, local and national government. Booktrust have informed me that, to date, the total cost of the Bookstart programme in England has been around £110 million: £74 million worth of books donated by publishers, sponsorship of £5 million and £30.7 million from local and national Government agencies including DCSF.

Since 1992 around 14.7 million books have been given to parents of children under three in England via health visitors, libraries and early years settings and it is estimated that a further 500,000 books are held by local authorities to maintain a continuous supply to eligible parents in England.

Children

Mr. Harper: To ask the Secretary of State for Children, Schools and Families (1) what the cost of *(a)* production and *(b)* distribution of the Children's Plan Toolkit was; [196980]

(2) how many Children's Plan Toolkits were produced; and to whom they were distributed. [196979]

Beverley Hughes: The total cost of the packs was £30,534. This included the design, production and distribution of the packs. 1550 packs have been produced. The distribution was as follows (one each): 550 packs to English MPs, 150 packs to Directors of Children's Services, 500 packs to our stakeholders, 300 packs for the events held on 8 March with parents, young people and practitioners , 50 packs for internal use.

Children: Day Care

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families when the findings from the 20 authorities involved in the flexible extended free entitlement pathfinder projects will be published. [196172]

Beverley Hughes *[holding answer 25 March 2008]:* Findings from an evaluation of the pathfinder authorities will be published in late 2008. Lessons learned from the pathfinder authorities will also form a key part of the new statutory guidance, which we will consult on in 2009. The guidance will come into force from September 2010 when all local authorities will be delivering the extended flexible entitlement to all their eligible children.

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many and what proportion of private, voluntary and independent nurseries surveyed in each of the 20 authorities involved in the flexible extended free entitlement pathfinder projects reported that the nursery education grant they receive does not meet the costs of running their nursery. [196174]

Beverley Hughes *[holding answer 25 March 2008]:* This information is not held centrally.

In June 2007 as part of the wider Schools Funding Reforms, we asked all local authorities to complete an analysis into the cost of delivering the free entitlement in private, voluntary and independent settings, in the run up to agreeing local budgets for April 2008 onwards. These reforms are designed to support the extension of the free entitlement and to address the inconsistencies in how the offer is currently funded across the maintained and private, voluntary and independent sectors. These reforms are part of the requirement for local authorities to use a single local formula for funding early years provision in both sectors from 2010.

Anne Main: To ask the Secretary of State for Children, Schools and Families how many childcare information kiosks were installed by his Department and its predecessor in each year since 2000. [196185]

Beverley Hughes: The Department has not installed any childcare information kiosks since 2000. However, some local authorities have installed kiosks in children's services locations, such as CIS and children's centres, and these have been paid for by the relevant authority (including using delegated funding such as the Sure Start grant).

Children: Depressive Illnesses

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the number of children diagnosed with depression in each of the last 10 years. [195968]

Mr. Ivan Lewis: I have been asked to reply.

The Office for National Statistics 2004 survey Mental health of children and young people in Great Britain looked at the prevalence of mental health disorders. It found that 10 per cent. of young people aged five to 16 years had a clinically diagnosed mental disorder. This includes four per cent. with an emotional disorder (1 per cent. depression and 3 per cent. anxiety disorders). The results of the survey are only available in terms of percentages of children rather than numbers.

There were no differences in prevalence between 1999 and 2004 in overall proportions of children with a mental disorder. The 1999 figures were captured in the 2000 "Mental health of children and adolescents in Great Britain".

Information is not collected by this Department on the number of people diagnosed with a mental health disorder. Copies of both publications are available in the Library.

Children: Protection

John Bercow: To ask the Secretary of State for Children, Schools and Families what recent discussions he had with the Home Office on strengthening the law to protect children who have been groomed. [191442]

Beverley Hughes: There have been no specific discussions recently on this matter. However, Home Office is a key member of the new Child Safety PSA Board, which will monitor delivery of the PSA to improve children and young people's safety, for which the Department has lead responsibility. The PSA Board will consider all issues relating to children's safety. DCSF has also attended meetings of the Inter-Ministerial Group on Sexual and Domestic Violence, the group led by Home Office which co-ordinates the Government's joint action to tackle these issues.

In addition, the Byron review, which reports shortly, will make recommendations about how to support children to use the internet safely. This will help address a range of online risks to children, including the risk of grooming by online predators.

Children: Reading

Dr. Kumar: To ask the Secretary of State for Children, Schools and Families what estimate his Department has made of the number of children in schools with dyslexia-type reading difficulties in *(a)* England, *(b)* the North East, *(c)* Tees Valley district and *(d)* Middlesbrough South and East Cleveland constituency. [195536]

Jim Knight: The available information has been placed in the Library.

Information was collected from schools on pupils who are supported at "School Action Plus" and those pupils with statements of special educational needs (SEN) about their main or primary need and, if appropriate, their secondary need for the first time in 2004.

Information on the number of pupils with dyslexia alone is not collected centrally. Figures relating to pupils with specific learning difficulties have been provided. Pupils with specific learning difficulties have a particular difficulty in learning to read, write, spell or manipulate numbers and this includes pupils with dyslexia, dyscalculia and dyspraxia.

Tables showing the number of pupils by type of SEN in each local authority area have been placed in the Library. This information has not been analysed lower than local authority level because there are a number of sensitivities about categorising pupils by their type of SEN. It is important that anyone using the data should be aware of the concerns and also understand the limitations of the data's reliability and validity. There are a range of factors which may affect the data recorded, including:

Local interpretation of definitions

Classification of children with multiple needs

Statistics are based on school and local authority identification of need rather than a diagnosis by medical of psychological staff

Availability of special school provision in authorities.

Departmental Marketing

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how much designing the Department's new logo cost; and who undertook the work. [196270]

Kevin Brennan *[holding answer 25 March 2008]*: The Department's new logo cost £5,460 (excluding VAT) to design. This design work was undertaken by our framework supplier, The Team.

Employment: Havering

Andrew Rosindell: To ask the Secretary of State for Children, Schools and Families what steps his Department is taking to maximise job and training opportunities during the Olympics for those attending schools, colleges and youth services in the London borough of Havering. [168420]

Bill Rammell: I have been asked to reply.

Further to the answer given by my hon. Friend the Parliamentary Under Secretary of State for Skills, to the hon. Member's question 168417 on 26 November 2007, *Official Report*, column 271W, the legacy of our investment for the games goes beyond more houses and better transport. It must strengthen London's skills base and boost job prospects for London's residents in a lasting way. To help young people to gain skills and improve their employment prospects, the ODA has publicly committed to get at least 2,000 people into trainee apprenticeships and work placements (up to 2012) at the Olympic park and other venues that the ODA is working on or building. The first phase is the training centre at Eton Manor fields based at the Olympic site.

In addition, the Major Contractors Group, which represents some of the UK's largest construction companies, has pledged:

to make available 1,000 job placements to young people enrolled on FE construction courses;

to work with the Construction Youth Trust to sponsor 50 undergraduates to obtain a construction-related degree;

make available 1,000 training placements for local people over 21 who do not qualify for apprenticeships.

London LSC is also signed up to a target of 4,000 public sector apprenticeships by 2012, and is working closely with the Mayor's office to increase the number of apprenticeships across the GLA family (police, fire service, TFL). The LSC is also funding a range of community engagement activities to inspire people about the games and raise their aspirations. This includes:

Funding a series of theatre tours to visit 130 schools across London to raise awareness of 'Olympic opportunities' for young people;

Building an Olympic/Paralympics element into the training of London teachers;

Providing skills advice and materials for a series of road-show events throughout 2007-08 to visit communities across all 33 London boroughs.

In total, London Learning and Skills Council is planning to spend a further £7 million in 2008/09, up from the previous years £5 million which will contribute to improving both the volume and quality of work based learning in the four key sectors: construction, sport; audio-visual and customer service. In addition, the LSC will provide a further £12.2 million for demand-led investment in training at the NSA centre on the Olympics site in the period between now and 2012.

English Language: Education

Miss Kirkbride: To ask the Secretary of State for Children, Schools and Families what percentage of children receive English as an additional language teaching; and what forecasts there are for the likely percentage in future years. [196262]

Jim Knight: The percentage of pupils whose first language is other than English (EAL pupils) is published in table 6 of the Statistical First Release number 30/2007 titled Schools and Pupils in England, January 2007. The SFR can be accessed at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000744/index.shtml

A copy of this SFR is available in the House Libraries.

In January 2007, there were 13.5 per cent. of EAL pupils in maintained primary schools and 10.5 per cent. of EAL pupils in maintained secondary schools. Provisional figures based on the January 2008 School Census are expected to be published at the end of April 2008.

All EAL pupils receive classroom teaching appropriate to their status. Information on the percentage of EAL pupils receiving additional specialist language instruction is not collected centrally.

The Department has not made estimates for the percentage of EAL pupils in primary and secondary schools in forthcoming years.

General Certificate of Secondary Education

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils examination results were exempted from appearing in GCSE result tables in 2007. [195196]

Jim Knight: All pupils have their GCSE results reported in the national attainment figures although pupils who have arrived from overseas within the last two years do not have their results attributed to a particular school. In 2007, this affected 1,973 such pupils from 523 schools.

Michael Gove: To ask the Secretary of State for Children, Schools and Families in how many schools did less than 30 per cent. of pupils obtain five A* to C GCSE grades including English, mathematics and science. [195214]

Jim Knight: This information can be provided only at a disproportionate cost.

Michael Gove: To ask the Secretary of State for Children, Schools and Families (1) how many pupils achieved no grade higher than X at GCSE in 2007; [196321]

(2) how many pupils were awarded no grade higher than U at GCSE in 2007. [196322]

Jim Knight: 7,200 pupils at the end of Key Stage 4 achieved no passes. This is 3 per cent. of pupils at the end of Key Stage 4. The figures include pupils achieving 'U', 'Q', or 'X' grades.

A 'U' is the last recognised grade at GCSE. 'X' and 'Q' are used to indicate why a grade has not been awarded. An 'X' means a pupil is absent or the exam paper has been lost. A 'Q' means result pending or late award. It is therefore not appropriate to rank these against other grades.

Independent Schools: General Certificate of Secondary Education

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many mainstream independent schools do not enter pupils for GCSEs. [196320]

Jim Knight: The information required is not readily available. The Secondary Schools Achievement and Attainment Tables give the percentage of pupils at the end of Key Stage 4 achieving at least one qualification. Looking at the number of mainstream independent schools with 0 per cent. of students achieving at least one qualification will provide the best estimate that is readily available. In 2006/07 there were three such schools published in the Achievement and Attainment Tables.

International General Certificate of Secondary Education

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils sat iGCSEs in each year for which figures are available. [196323]

Jim Knight: The DCSF does not hold the information required to answer this question.

Pupil Referral Units: General Certificate of Secondary Education

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils in pupil referral units taking GCSEs did not obtain a single GCSE at C grade or above in 2007. [196324]

Jim Knight: There were 5,543 15-year-old pupils in pupil referral units who did not gain a GCSE at grades A* to C in 2007. This is 88.3 per cent. of the total of 6,280 15-year-old pupils.

These figures include GCSEs and other equivalent qualifications approved for use pre-16.

Pupils: English Language

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effect on the school league table position of schools of a high proportion of pupils with English as second language; and if he will make a statement. [179956]

Jim Knight: The annual school Achievement and Attainment tables show actual performance of pupils, including a measure of the progress pupils have made based on their prior attainment and adjusting for other characteristics which are known to affect pupil performance. One of the factors used in this calculation of contextual value added is whether a pupil has English as an additional language. Thus this factor is already taken into account within the tables, for all pupils for whom there is a record of attainment at the previous key stage.

Pupils: Personal Records

Mr. Pickles: To ask the Secretary of State for Children, Schools and Families what the relationship will be between the Unique Learner Number and the Unique Pupil Number. [193837]

Bill Rammell: I have been asked to reply.

There is no direct interface between the Unique Learner Number and Unique Pupil Number, other than the fact that both numbers are held on the National Pupil Database.

The Unique Learner Number is designed to support better processing of data and improve services to individuals undertaking learning. The ULN will in time be used across the education sector, and will support much improved data sharing between third parties, for example school to college, school to awarding body, school to careers service, school/college to university. It will directly enable the aggregation of

qualification awards and the creation of a learner record showing participation and achievement, which the individual will control.

The Unique Learner Number is assigned to learners over the age of 14, using an on-line learner registration service, which is accessible to learners and those who are supporting them, for example, education providers and careers advisers. This service also confirms how individuals want their information shared.

The Unique Pupil Number was designed specifically for the school sector to facilitate a smoother movement of pupil information between schools, local authorities and the Department for Children, Schools and Families (DCSF), and lapses when a pupil leaves the maintained school sector. When designed it was agreed with the Data Protection Registrar that the Unique Pupil Number should be held by schools on the pupil's electronic record, and only used when required to provide information to the local authority, to the DCSF or National Assessment Agency (NAA), or to another school to which the pupil is transferring.

Schools

Chris Huhne: To ask the Secretary of State for Children, Schools and Families with reference to the answer to the hon. Member for Reading, East of 8 October 2007, *Official Report*, column 406W, on schools, how many maintained schools there were in each local education authority at the end of each year since 1997; what the capacity in terms of pupil numbers was in each case; and what the actual number of pupils was in each year. [190752]

Jim Knight: The available information on the number of schools and pupils in each local authority is derived from data collected via the School Census and is published annually by the Department. From 2005 the figures can be found in the Statistical First Release 'DCSF; Schools and Pupils in England', the latest of which can be accessed at: http://www.dfes.gov.uk/rsgateway/DB/SFR/s000744/index.shtml. Figures for 2004 and earlier were published in the Statistical Volume 'Statistics of Education, Schools in England' which can be accessed at:

http://www.dfes.gov.uk/gateway/DB/VOL/v000459/index.shtml

Equivalent publications are available for earlier years.

Copies of school and pupil numbers are shown in tables which will be placed in the House Library. I will write to the hon. Member, and place in the House Library, information on school capacity.

Schools: Community Relations

Mr. Jenkins: To ask the Secretary of State for Children, Schools and Families how many schools have applied for departmental funding to allow them to open their facilities to community groups. [187725]

Jim Knight: Opening school facilities to the community is one of the elements of the extended schools core offer. We are committed to all schools providing access to the core offer of extended services by 2010 with at least half of all primary and a third of secondary schools doing so by September 2008.

The Department has committed significant investment in extended schools, and will make available more than £1 billion over the next three years to support the establishment of inclusive and sustainable extended schools. This funding is passed to local authorities to distribute directly to schools to help them deliver the core offer. The Department centrally does not hold extended schools funding to which schools can apply.

Schools: Playing Fields

Anne Main: To ask the Secretary of State for Children, Schools and Families how many school playing fields were sold in England in each of the last five years. [196184]

Jim Knight: In each of the last five years the numbers of applications approved to sell a school playing field in England are as follows:

	Number approved
2003-04	18
2004-05	10
2005-06	13
2006-07	7
2007-08	15
Total	63

Secondary Education: Admissions

Bob Spink: To ask the Secretary of State for Children, Schools and Families (1) how many children living in the Furtherwick school catchment area of Canvey Island have not secured a place at their first option for a secondary school in 2008; [196933]

(2) how many children did not secure a place at their first option for a secondary school on Canvey Island in each of the last five years; [196934]

(3) how many children living in the Furtherwick secondary school catchment area of Canvey Island have not secured their second choice of school for September 2008; and if he will make a statement. [196962]

Jim Knight: This is the first year that local authorities have been required to provide data to the Secretary of State on secondary school offers made to parents on national offer day. These data were published on the DCSF research gateway (www.dcsf.gov.uk/rsgateway) on 11 March 2008 at local authority, regional and national levels. Data have not been collected at constituency or school levels. Figures for Essex local authority, in which Canvey Island is situated, show that 80.8 per cent. (12,986) of children resident in that authority who are eligible to transfer to secondary school in September 2008 were offered a place at their parents' first choice of school and a further 10 per cent. (1,601) were offered a place at their parents' second choice of school.

Specialised Diplomas

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of *(a)* academies, *(b)* comprehensive schools and *(c)* independent schools he expects to be offering the new diplomas in September (i) 2008, (ii) 2009 and (iii) 2010. [188396]

Jim Knight: From September 2008, 25 per cent. of maintained mainstream secondary schools will be offering diplomas, along with 41 per cent. of colleges, and 54 per cent. of academies. From September 2009, we anticipate that 72 per cent. of mainstreamed maintained secondary schools will be offering diplomas, along with 88 per cent. of colleges, and 75 per cent. of academies. We do not expect any independent schools to be delivering diplomas from 2008, and expect two independent schools to be delivering diplomas from 2009. Complete figures for 2010 will not be available until the completion of the next Diploma Gateway process next spring.

Written Answers to Questions

Thursday 27 March 2008

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Bankruptcy

Mr. Djanogly: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the average duration of bankruptcy restrictions orders has been. [196220]

Mr. McFadden: Bankruptcies can result in either a bankruptcy restrictions order (BRO) or a bankruptcy restrictions undertaking (BRU). A BRU has the same effect in law as a BRO but does not involve a court hearing. The period of a BRU is slightly discounted to take account of early settlement of the matter, hence the lower duration average in respect of BRUs as opposed to BROs.

In the period 1 April 2004 to 31 March 2005 the average duration of BROs was 5.25 years and of BRUs was 5.81 years.

In the period 1 April 2005 to 31 March 2006 the average duration of BROs was 6.33 years and of BRUs was 5.09 years.

In the period 1 April 2006 to 31 March 2007 the average duration of BROs was 5.71 years and of BRUs was 4.67 years.

In the period 1 April 2007 to 17 March 2008 the average duration of BROs was 5.78 years and of BRUs was 4.37 years.

Mr. Djanogly: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many bankruptcies have been declared by the official receivers to be the result of dishonest, reckless or otherwise culpable behaviour under the bankruptcy restrictions orders process contained in the Enterprise Act 2002. [196222]

Mr. McFadden: When the Secretary of State considers that a bankrupt has been guilty of dishonest, reckless or culpable behaviour he may seek to obtain a bankruptcy restrictions order (BRO) or bankruptcy restrictions undertaking (BRU).

In the period 1 April 2004 to 31 March 2005 there were four BROs and 16 BRUs.

In the period 1 April 2005 to 31 March 2006 there were 190 BROs and 653 BRUs.

In the period 1 April 2006 to 31 March 2007 there were 264 BROs and 1,603 BRUs.

In the period 1 April 2007 to 18 March 2008 there were 171 BROs and 1,598 BRUs.

This amounts to a total of 4,499 bankrupts subject to bankruptcy restrictions since the Enterprise Act came into force.

Common Sugar Regime: ACP Countries

Ann McKechin: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what representations his Department has made to the European Commission on the prompt and efficient payment of transitional funds allocated to Caribbean sugar protocol countries as part of the measures accompanying the reform of the EU sugar regime. [192476]

Mr. Thomas: In November 2007 the Secretary of State for International Development wrote to the European Commissioner for Development expressing concern about delays in disbursement of funds allocated under the measures accompanying reform of the sugar regime. He also stressed the importance of making timely predictable disbursement of funds under multi-annual programmes. On 7 March officials from DFID met Koos Richelle (Director-General for European Aid) in Brussels, and they will also be raising this issue. We will continue to monitor the timing and effectiveness of disbursements under the accompanying measures for sugar protocol countries and make representations to the Commission for improvement when needed.

Ann McKechin: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what representations his Department has made to the European Commission to ensure that transitional funding promised to Caribbean signatory countries of the sugar protocol as part of the accompanying measures to the reform of the EU sugar regime will be disbursed according to the timetable set out in the Multi-Annual Indicative programme (2007-10). [192477]

Mr. Thomas: In November 2007 the Secretary of State for International Development wrote to the European Commissioner for Development expressing concern about delays in disbursement of allocated funds under the measures accompanying reform of the sugar regime. He also stressed the importance of making timely predictable disbursement of funds under multi-annual programmes. On 7 March officials from DFID met Koos Richelle (Director-General for European Aid) in Brussels and they will also be raising this issue.

As part of the Multi-Annual Indicative programme under the accompanying measures for sugar protocol (AMSP), the Commission agrees an annual action plan (AAP) with member states. The 2007 action plan was approved in October 2007 and funds are now being disbursed. We expect the 2008 action plan to be presented to member states for approval in September 2008. DFID-Caribbean is working closely with the Commission Delegation in the region to ensure that all disbursed funds are spent effectively.

We will continue to monitor the timing and effectiveness of disbursements under the AMSP and make representations to the Commission for improvement when needed.

Ann McKechin: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much the European Commission disbursed under the Multi-Annual Indicative programme (2007-10) for Caribbean signatory countries of the sugar protocol as part of the accompanying measures to the reform of the EU sugar regime in the period 1 January 2007 to 1 January 2008; and if he will make representations to the European Commission on the disbursement before 31 March 2008 of the remaining funds allocated for 2007 to Caribbean signatory countries. [192478]

Mr. Thomas: Disbursement of funds to countries benefiting from support under the measures accompanying the reform of the EU sugar regime are governed by two multi-annual programmes (2007-10 and 2011-13). Each year the Commission agrees an annual action plan (AAP) with member states which identifies levels of support and how funding in that year will be spent. The 2007 AAP was approved in October 2007. According to the latest information received from the Commission, no funds were disbursed between 1 January 2007 and 1 January 2008. However, disbursement of funds has now begun.

In November 2007 the Secretary of State for International Development wrote to the European Commissioner for Development expressing concern about delays in disbursement of allocated funds under the accompanying measures to reform of the sugar regime. He also stressed the importance of making timely predictable disbursement of funds under multi-annual programmes. On the 7 of March officials from DFID met Koos Richelle (Director-General for European Aid) in Brussels and they will also be raising this issue. We will of course continue to monitor the timing and effectiveness of disbursements under the sugar protocol and make representations to the Commission for improvement when needed.

Departmental Contracts

Jim Cousins: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the *(a)* nature and *(b)* value was of all contracts, consultancies and other services placed with (i) Deloitte and Touche, (ii) Ernst and Young, (iii) KPMG, (iv) PricewaterhouseCoopers and (v) PA Consulting in each year since 2004-05 by his Department, its predecessor Department and its agencies. [179034]

Mr. Thomas: Central records indicate that the following amounts have been paid in total by BERR, and its predecessor DTI, to each of the companies in the following financial years:

£

	2004-05	2005-06	2006-07	2007-08 (to date)
Deloitte and Touche	9,844,267	8,471,533	5,979,860	4,456,895
Ernst and Young	1,926,463	2,988,557	2,221,127	1,048,151
KPMG	2,985,984	3,035,393	609,247	528,614
PWC	2,530,816	3,487,680	5,001,767	2,767,627
PA Consulting	844,989	939,936	775,361	292,081

I have asked the chief executives of the executive agencies to respond directly to the hon. Member.

Further information is not held centrally and could be provided only at disproportionate cost.

Departmental Data Protection

Mr. Gauke: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many of his Department's *(a)* computers and *(b)* laptops have been stolen in 2007; and what the value of those items was. [168593]

Mr. Thomas: The information is as follows:

(a) No computers have been stolen during 2007 to date.

(b) A total of eight BERR laptops have been stolen in 2007 based on our records to end of October. Their total value is £8,000.

Departmental ICT

Sarah Teather: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many *(a)* mobile telephones, *(b)* personal digital assistants and *(c)* laptop computers issued to staff in his Department or its predecessor were reported (i) lost, (ii) missing and (iii) stolen in each year since 2001. [184348]

Mr. Thomas: A breakdown of the lost, stolen or missing items is provided in the following table for each of the years requested. It should be noted that some of the laptops and mobile telephones listed may have been personal items belonging to members of staff, which have been lost or stolen in the office.

	Mobile phones	Laptops	PDAs
2007	2	8	
2006	14	8	1
2005	11	14	3
2004	26	12	1
2003	22	22	1
2002	22	25	3
2001	7	7	

Departmental Ministerial Policy Advisers

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether any of his Department's special advisers have outside also work for organisations outside his Department. [178489]

Mr. Thomas: The Department's special advisers do not have any appointments outside their departmental roles.

Special advisers are appointed under terms and conditions set out in the "Model Contract for Special Advisers". Copies of the "Model Contract" are available in the Library of the House.

Departmental Publicity

Mr. Philip Hammond: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much his Department and its agencies spent on staff working on *(a)* marketing and *(b)* branding in the last 12-month period for which figures are available. [167313]

Mr. Thomas: BERR's strategic marketing team has overall responsibility for departmental marketing and branding. Based on figures for November 2007, the paybill for this team over 12 months would be approximately £670,000. A more detailed breakdown could be provided only at disproportionate cost.

The Insolvency Service estimates its costs for staff working on marketing and branding in the last 12 months to be £5,000.

Companies House estimates that in the last 12 months it has spent £700,635 on staff working on marketing and £32,000 on branding.

UK Trade and Investment's pay costs for strategic marketing by its marketing group were approximately £590,000 for the period December 2006 to November 2007.

Industrial Diseases: Compensation

Mr. Clapham: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many awards have been received by former miners or their widows under the Coal Industry Pneumoconiosis Scheme 1974 since 2004; and how many of them have also received an award under the Pneumoconiosis Etc. (Workers' Compensation) Act 1979. [196956]

Malcolm Wicks: Since 27 March 2004, when the British Coal Corporation was wound up, 3,021 awards have been made to former miners or their widows under the Coal Industry Pneumoconiosis Scheme.

In the same period 397 payments have been made to these claimants under the 1979 Act administered by the Department for Work and Pensions.

Members: Correspondence

Stewart Hosie: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he will reply to the letter dated 7 September 2007 from the hon. Member for Dundee, East, regarding a constituent, Mr. Lee Sexton, of Dundee. [196875]

Mr. Thomas: The hon. Member's letter was answered on 12 November 2007. I have arranged for a copy of the letter to be sent to his office.

Nuclear Decommissioning Authority: Finance

Paul Flynn: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what proportion of the recent increase in the Nuclear Decommissioning Authority's current costs is related to dealing with the problems associated with high level waste management, as identified by the nuclear installations inspectorate in its June 2007 Quarterly Report on Sellafield. [193570]

Malcolm Wicks: In response to concerns raised by the nuclear installations inspectorate, the Nuclear Decommissioning Authority (NDA) requested the Site Licence Company to review the high-level waste management strategy. This review has resulted in additional scope of work valued in the region of £334 million. These additional costs were included in the £72.7 billion future cost estimates reported in the NDA annual report and accounts 2006-07 (page 103) and formed part of the £8 billion increase on the previous estimate of £64.8 billion.

Nuclear Power Stations: Finance

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the value is of the contract his Department has signed with UBS AG Bank for advice on the commercial and financial aspects of new nuclear power plants; when the contract was signed; and what its duration is. [196208]

Malcolm Wicks: UBS AG has been appointed to advise the Government on the realisation of their policy on new nuclear build, and started work in early March 2008. The terms of the appointment are confidential.

Nuclear Power: Security

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the security implications of developing new nuclear facilities in the United Kingdom, with reference to paragraph 4.89 of the National Security Strategy of the United Kingdom, Cm 7291. [196827]

Malcolm Wicks: Paragraphs 2.83 to 2.109 of our White Paper on Nuclear Power set out the assessment we have made and our reasons for concluding that the UK has an effective regulatory framework that ensures that safety, security, health and proliferation risks are minimised and sensibly managed by industry.

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether vulnerabilities of (*a*) nuclear installations and (*b*) nuclear materials in transit were evaluated in drawing up the new National Security Strategy. [196830]

Malcolm Wicks: Our evaluation of these vulnerabilities, set out in paragraphs 2.83 to 2.115 of our White Paper on Nuclear Power, was taken into account in the preparation of the National Security Strategy.

Overseas Trade: Finance

Mr. Clifton-Brown: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 21 February 2008, *Official Report*, column 840W, on Overseas trade: Finance, how many overseas offices each agency maintains; and in which countries. [196156]

Mr. McFadden: I refer the hon. Member to the answer I gave to the hon. Member for Hertford and Stortford (Mr. Prisk) on 20 March 2008, *Official Report*, column 1290W.

Parliament: Postal Services

Tom Brake: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the cost to Post Office Ltd is of operating the Crown post offices on the Parliamentary Estate. [196627]

Mr. McFadden: This is an operational matter for Post Office Ltd (POL). I have therefore asked Alan Cook, Managing Director of POL, to reply directly to the hon. Member.

Copies of the letter will be placed in the Library of the House.

Post Offices: Closures

Bob Spink: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent discussions he has had with his counterparts in the European Union on subsidising post offices to minimise closures; and if he will make a statement. [190497]

Mr. McFadden: The European Commission has given state aid clearance for the Government's funding package for the post office network. This includes subsidy payments to support the non-commercial part of the network.

Anne Snelgrove: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what account Post Office Ltd will take of the cost of individual sub-postmasters' contracts in deciding whether a post office should be closed. [193863]

Mr. McFadden: This is an operational matter for Post Office Ltd (POL). I have therefore asked Alan Cook, managing director of POL, to reply to the hon. Member.

Copies of this letter will be placed in the Library of the House.

Anne Snelgrove: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what process will be followed by Post Office Ltd and his Department in determining a final list of post offices for closure. [193895]

Mr. McFadden: Final decisions on post office closures rest with Post Office Ltd. However, there is a four stage review process in place for Post Office Ltd and Postwatch to reach an agreed way forward by a bilateral review of individual closures. The review process is instigated by Postwatch if it appears that the company has not given due consideration to material evidence received during the public consultation in coming to its decision or where evidence emerges from consultation that the proposal for the branch does not meet the Government's policy requirements.

Anne Snelgrove: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps he is taking to ensure that Post Office Ltd investigates alternative courses of action, including renegotiation of contracts with sub-postmasters, in relation to post offices earmarked for closure. [193898]

Mr. McFadden: This is an operational matter for Post Office Ltd (POL). I have therefore asked Alan Cook, Managing Director of POL, to reply directly to the hon. Member.

Copies of the letter will be placed in the Library of the House.

Anne Snelgrove: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps he is taking to ensure that Post Office Ltd will take account of planned housing development in areas where post offices are earmarked for closure; and if he will make a statement. [193899]

Mr. McFadden: This is an operational matter for Post Office Ltd (POL). I have therefore asked Alan Cook, managing director of POL, to reply directly to the hon. Member.

Copies of the letter will be placed in the Library of the House.

Anne Snelgrove: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the effectiveness of Post Office Ltd's economic model in identifying post offices for (*a*) potential and (*b*) final closure. [193902]

Mr. McFadden: Following the national consultation on the future of the post office network, the Government have set a framework of access criteria and other factors to be considered by Post Office Ltd in developing its proposals for post office closures at area plan level and subsequently reaching final decisions on them. Postwatch acts as the consumer voice in this area and it assesses whether, for an individual branch, Post Office Ltd has not given due consideration to material evidence received during the public consultation in coming to its decision, or evidence has emerged from the consultation that the proposal for the branch does not meet the Government's policy requirements. In these circumstances, Postwatch can trigger a review process to enable it and Post Office Ltd to reach an agreed way forward on the relevant branch.

Postcomm

Mr. Hancock: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether he plans to alter the (*a*) status and (*b*) remit of Postcomm. [194218]

Mr. McFadden: Under the Postal Services Act 2000, Parliament established Postcomm as the independent regulator for postal services. Postcomm's primary statutory duty is to ensure provision of a universal postal service. Subject to this, Postcomm will exercise its functions in the manner which it considers is best calculated to further the interests of users of postal services, wherever appropriate by promoting effective competition between postal operators.

The Government have commissioned Richard Hooper to lead an independent review of the postal services sector and how best to maintain the universal service. We will give careful consideration to all the panel's recommendations when it reports later this year.

Regional Development Agencies: Finance

Mr. Jeremy Browne: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what Government funding streams are available to regional development agencies; and if he will make a statement. [188970]

Mr. McFadden: The main sources of Government funding in 2007-08 for the nine English Regional Development Agencies (RDAs) are listed as follows:

Single Programme Budget

Since April 2002 the RDAs have been financed through a Single Programme budget (the "Single Pot"). Money from the six contributing Departments (BERR, CLG, IUS, EFRA, CMS and UKTI) is pooled into one single budget. The funding, once allocated, is available to the RDAs in order to achieve the regional priorities identified in their regional economic strategies and the challenging targets set by them in their Corporate Plans. In 2007-08, the Single Pot allocated funding of £2.3 billion to the nine English RDAs.

European Regional Development Fund

The European Regional Development Fund (ERDF) was set up in 1975 to stimulate economic development in less prosperous regions of the European Union (EU). As EU membership has grown, ERDF has developed into a major instrument for helping to redress regional imbalances. Between 2007 and 2013, England will benefit from an investment of a further €3.2 billion (approximately £2.5 billion) of ERDF. The Department for Communities and Local Government (CLG) manages ERDF in England and provides programme funding directly to the RDAs.

Rural Development Programme for England

The Rural Development Programme for England (RDPE) is a 7-year (2007-2013) EU programme that aims to safeguard and enhance the rural environment, improve the competitiveness of the agricultural and forestry sectors and foster competitive and sustainable rural businesses and thriving rural communities.

The overall budget for the programme is approximately £3.9 billion. Some £600 million of this will be made available for socio-economic schemes aimed at making agriculture and forestry more competitive and sustainable, enhancing opportunity and the quality of life in rural areas, and diversifying the rural economy. This part of the RDPE is being delivered primarily by the RDAs.

Business Resource Efficiency and Waste Programme (BREW)

In line with the landfill tax back to business commitment, the Spending Review 2004 (SR2004) announced that the additional revenues will be used to fund programmes to support business in improving its resource efficiency, including waste minimisation and diversion from landfill. The RDAs have been given the responsibility of co-ordinating the programme at regional level. In 2007-08, DEFRA has provided funding of £10.9m through the Single Pot to the RDAs in respect of their programme.

Northern Way Growth Fund

The Northern Way is collaboration, formed in 2004, between the three Northern RDAs of England (North West RDA, Yorkshire Forward and One NorthEast). Its aim was to work together to improve the sustainable economic development of the North towards the level of more prosperous regions in the UK. In 2007-08, CLG provided funding of £25.8 million to the RDAs, this being the remaining contribution from Government toward the £100 million Northern Way Growth Fund. BERR is now the lead Government Department for the Northern Way Growth Fund.

Social Enterprise Business Support

In the Social Enterprise Action Plan the Office of the Third Sector announced it would provide £5.9 million to RDAs to improve Business Link's capacity to broker business support for social enterprises.

Renewable Energy: Finance

Mr. Ingram: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much his Department received from the transfer of funds from the England and Wales fossil fuel levy for the promotion of the use of energy from renewable sources in (*a*) 2004-05, (*b*) 2005-06, (*c*) 2006-07 and (*d*) 2007-08. [195712]

Malcolm Wicks *[holding answer 25 March 2008]*: The Department has received no transfer of funds from the England and Wales fossil fuel levy for these purposes. However, the Sustainable Energy Act 2003 provides a power for the Secretary of State to direct Ofgem to pay into the Consolidated Fund up to £60 million from funds paid to Ofgem and arising from the auctioning of renewable obligation certificates and electricity generated under non-fossil fuel obligation contracts. There is also a corresponding duty on the Secretary of State to spend a matching sum to promote the use of energy from renewable sources.

£60 million was transferred to the Consolidated Fund in 2004-05 and formed part of the £500 million which Government have announced they would spend from 2002 on R and D and capital grants for emerging renewable and low carbon technologies.

Sales Methods

Mr. Jim Cunningham: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps the Government have taken to protect consumers from aggressive selling techniques. [195731]

Mr. Thomas *[holding answer 25 March 2008]*: The Consumer Protection from Unfair Trading Regulations 2008 will prohibit traders from engaging in unfair commercial practices, including aggressive selling techniques, towards consumers. A practice is considered aggressive if, through the use of harassment, coercion or undue influence, the average consumer's freedom of choice or conduct is significantly impaired, and this causes or is likely to cause him to take a different purchasing decision.

The Regulations contain an illustrative list of factors to help determine whether a commercial practice uses harassment, coercion or undue influence.

Draft Regulations, which implement the Unfair Commercial Practices Directive (2005/29/EC), were laid before Parliament on 3 March. If approved in debate they will come into force on 26 May.

Television

Mr. Maude: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many plasma television screens have been purchased by his Department, its predecessor and its agencies, and at what cost, in the last 24 months. [191097]

Mr. Thomas: Over the past 24 months, my Department and its agencies have purchased one plasma television screen at a cost of £4,497.24.

CHILDREN, SCHOOLS AND FAMILIES

Children: Asylum

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many children sought asylum in the UK in each of the last 10 years. [195959]

Mr. Byrne: I have been asked to reply.

Information on asylum applications from principal applicants (since 2001) and dependants (since 2002) is available by age at time of application from the annual Statistical Bulletin Asylum Statistics United Kingdom. Information prior to these dates is not available. Copies of these publications are available from the Library of the House and from the Home Office Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html.

Any children, under the age of 18, recorded as being principal asylum applicants may not necessarily be unaccompanied; they could for example be living with a relative who, in turn, may or may not have status in the UK.

Children: Mental Health

Philip Davies: To ask the Secretary of State for Children, Schools and Families what the purpose of the Counterpoint Childhood Wellbeing research paper was; how much it cost; and what account will be taken of it during his Department's policy formulation process. [196928]

Beverley Hughes: The Department commissioned Counterpoint (UK) Limited to undertake research into Childhood Wellbeing in order to increase our understanding of parents' and children's perceptions of wellbeing and happiness, the factors that are significant to them, and their main sources of anxiety and of confidence. This work followed extensive public debate about the state of childhood today and provided insights into the attitudes of parents and children themselves, including their views on appropriate roles for Government, councils, schools and families in creating the right conditions for happy childhoods. The research cost £80,840 (including VAT). The outcomes have informed the Children's Plan, published in December 2007, and particularly the proposals for a new focus on improved opportunities for outdoor play.

We will continue to draw on the research as we develop policies for implementing the Children's Plan to create better futures for children and families.

Education Maintenance Allowance

Mr. Hepburn: To ask the Secretary of State for Children, Schools and Families how many people received education maintenance allowance in *(a)* South Tyneside and *(b)* England in each year since its inception. [195342]

Jim Knight: The Learning and Skills Council (LSC) operates the Education Maintenance Allowance (EMA) for the Department for Children, Schools and Families (DCSF) and holds information about payments made under the scheme. Mark Haysom, the LSC's chief executive, has written to the hon. Member for Jarrow with the information requested and a copy of his reply has been placed in the House Library.

Pupil Exclusions

Mr. Frank Field: To ask the Secretary of State for Children, Schools and Families pursuant to the Answer of 19 March 2008, *Official Report*, columns 1159-60W, on pupil exclusions, how many of the individuals recorded under the column *(a)* number of fixed period exclusions, had previously been awarded a fixed period exclusion (i) one, (ii) two, (iii) three, (iv) four and (v) five times and *(b)* number of permanent exclusions, had previously been excluded for a fixed period. [197026]

Kevin Brennan *[holding answer 26 March 2008]:* The requested information can be provided only at disproportionate cost.

Summary findings on permanent and fixed period exclusions during the 2005/06 school year were published in a Statistical First Release on 26 June at

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000733/index.shtml

Schools: Nurses

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many and what proportion of schools in each *(a)* primary care trust and *(b)* constituency have the services of a qualified school nurse in line with the 2004 National Framework for Children, Young People and Maternity Services; what steps he is taking to ensure that all schools have such services; and when he expects all schools to have the services of a qualified school nurse. [196173]

Ann Keen *[holding answer 25 March 2008]:* I have been asked to reply.

Information is not collected centrally on how many and what proportion of schools in each primary care trust (PCT) and constituency have the services of a qualified school nurse.

It is for PCTs in partnership with local authorities, strategic health authorities and other local stakeholders to determine how best to use their funds to meet national and local priorities for improving health, and to commission services accordingly. This process provides the means for addressing local needs within the health community including the provision of school nursing services.

Schools: Swimming

Anne Main: To ask the Secretary of State for Children, Schools and Families how many schools in *(a)* St Albans, *(b)* Hertfordshire and *(c)* England offered swimming lessons to pupils in each of the last five years for which figures are available; and if he will make a statement. [196194]

Kevin Brennan: Swimming activities and water safety are a compulsory element of the National Curriculum for physical education in primary schools. Swimming lessons should be provided for all pupils as part of this. Schools can choose swimming activities and water safety as a programme of study in secondary schools.

The annual PE and School Sport Survey was introduced in 2003/04 and collects data relating to participation in PE and school sport from schools in a School Sport Partnership. The proportion of primary, secondary and special schools that offered swimming during the academic year over the last four years is as follows:

	England	*Hertfordshire*	*Percentage St Albans*
2003/04	84		
2004/05	83		
2005/06	84	87	
2006/07	85	87	85

Further analysis could be provided only at disproportionate cost.

CULTURE, MEDIA AND SPORT

Alcoholic Drinks: Licensing

Mr. Evennett: To ask the Secretary of State for Culture, Media and Sport how many alcohol licences have been revoked on the grounds of sale of alcohol to children since the implementation of the Licensing Act 2003. [196410]

Mr. Sutcliffe: This information is not held centrally.

Statistical bulletins on licences to sell alcohol include the number of licences revoked, but do not indicate the reason for revocation. Licences may be revoked on review for one or more reasons relating to the four licensing objectives, including sales of alcohol to children.

The first DCMS Statistical Bulletin on Alcohol, Entertainment and Late Night Refreshment, under the provisions of the Licensing Act 2003, was published on 8 November 2007. This shows that, between April 2006 and March 2007, there were 695 reviews which resulted in 92 licences being revoked and 91 being suspended (based upon a 85 per cent. response rate from licensing authorities).

There were also 37 personal licences suspended or declared forfeit by the courts in 2006-07 (80 per cent. response rate). The loss of personal licence could relate to conviction for any one of a number of relevant offences, including the sale of alcohol to children.

Broadcasting: Technology

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport if he will place in the Library copies of the minutes from the Emerging Technologies Group's meetings. [195785]

Andy Burnham *[holding answer 20 March 2008]:* I am arranging for copies of the minutes from the Emerging Technologies Group's meetings to be placed in the House Libraries, with the commercially sensitive information removed.

Digital Broadcasting: Swansea

Mr. Alan Williams: To ask the Secretary of State for Culture, Media and Sport what steps his Department is taking to ensure that advice about the Digital Switchover Help Scheme is given at an early stage of the conversion from analogue to digital television transmission in Swansea. [194690]

Andy Burnham: Digital UK is already actively raising awareness about digital switchover in Wales, through advertising and publicity, which lets people know there will be a help scheme for eligible people nearer the time of switchover.

Specific regional help scheme advertising and publicity is planned for the period of eligibility, from about eight months before switchover, and will include advertising, local press articles, public awareness events and targeted communications for local third sector organisations for eligible people.

Using DWP data and data provided by local authorities, the help scheme will write to every eligible person directly at least twice in the run-up to switchover, to invite them to take up the help offered through the scheme. Information about eligibility and what help is available through the scheme is also accessible on the Digital UK website and from its national helpline, and will shortly also be available from the switchover help scheme website and helpline which are being launched at the beginning of April.

Digital Broadcasting: Visually Impaired

Mr. Drew: To ask the Secretary of State for Culture, Media and Sport how many blind and partially sighted people were helped as part of the digital changeover in Cumbria. [195719]

Andy Burnham: The BBC is responsible for operating the digital switchover help scheme. The help scheme is given access to data on people who are registered as blind and partially sighted from local authorities so as to be able to contact them directly. The help scheme also commissioned the West Cumbria Society for the Blind to contact its members to ensure their awareness of the help scheme.

Respondents who take up the help scheme are not required to inform the scheme of the reason they are eligible or the nature of their disability, unless they wish to do so to aid it in delivering the service.

I am therefore not able to supply the number of blind and partially sighted people who took up the help scheme in Cumbria.

European Broadcasting Union

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport whether his Department contributes *(a)* funding and *(b)* personnel to (i) the European Broadcasting Union and (ii) the Eurovision Song Contest; and if he will make a statement. [196095]

Andy Burnham: The Department for Culture, Media and Sport contributes no funding or personnel to the European Broadcasting Union or the Eurovision Song Contest.

Listed Buildings: Essex

Andrew Mackinlay: To ask the Secretary of State for Culture, Media and Sport what his Department's role in conserving the Grade II listed building known as the State Cinema in Grays, Essex is; and if he will make a statement. [196312]

Margaret Hodge *[holding answer 26 March 2008]*: The role of my Department is to designate buildings of special architectural or historic interest by listing. Decisions about changes which affect their special interest are for the local planning authority, in consultation with English Heritage.

This building, which is listed at grade II*, is included in the Buildings at Risk register maintained by English Heritage. English Heritage monitors its condition and had, in recent years, met its owners who were considering converting this former cinema to a new use. English Heritage has also been approached by the Cinema Theatre Association, which is interested in the possibility of reviving its use as a venue for performance.

Performing Arts

Mr. Jenkins: To ask the Secretary of State for Culture, Media and Sport what support his Department and its agencies give to competitive cheerleading. [196193]

Mr. Sutcliffe: Increasing inter and intra-school sporting opportunities is a key component of the National PE and Sport Strategy for Young People, which is delivered jointly by the Department for Children, Schools and Families and the Department for Culture, Media and Sport.

Since January 2008, the UK Cheerleading Association (UKCA) has been working in partnership with British Gymnastics to transfer their activities and become a new discipline of British Gymnastics.

The UKCA is working with a number of School Sports Partnerships across the UK to develop cheerleading and 'street cheer' within school sport and dance. Together with other national governing bodies, the UKCA is helping to deliver the Government's PE and school sport strategy nationally, both by encouraging sustained participation and by providing leadership opportunities in schools and FE facilities.

Public Lending Right: Finance

Mr. Laurence Robertson: To ask the Secretary of State for Culture, Media and Sport what the cost of the public lending right was in each of the last five years for which figures are available; what it is projected to be in each of the next three years; and if he will make a statement. [196154]

Margaret Hodge: The public lending right (PLR) uses grant in aid funding from the DCMS to make compensatory payments to authors for the financial impact of free book loans provided through the public library system.

Provision for the running costs of the organisation is included within this grant in aid settlement, and is allocated by the PLR before the remaining sum is distributed annually to authors.

Over the next three years, the DCMS is committed to generating value for money (VFM) savings by delivering efficiencies in partnership with its sponsored bodies: the PLR has therefore agreed to deliver a 3 per cent. reduction in its administration costs in each of the years 2008-11, ensuring that the maximum possible percentage of the public funding received by the PLR is used to provide valuable financial support to authors.

Costs to the Exchequer, in the form of total grant in aid allocated per annum; PLR administration spending for the period 1998-2008; and administration spending limits agreed with the PLR for the next three years are set out in the following table.

£

	Total grant allocation	*Administration spending*	*PLR to authors*
1997-98	4,921,000	673,000	4,248,116
1998-99	5,000,000	841,000	4,158,527
1999-2000	5,051,000	845,000	4,206,345
2000-01	5,150,000	673,000	4,477,110
2001-02	5,201,000	695,000	4,505,758
2002-03	7,001,000	806,000	6,194,517
2003-04	7,201,000	812,000	6,411,616
2004-05	7,381,000	812,000	6,536,539
2005-06	7,471,000	822,000	6,543,164
2006-07	7,702,000	813,000	6,809,018
2007-08	7,682,000	828,000	6,657,585
2008-09	7,432,000	803,000	6,629,000
2009-10	7,582,000	779,000	6,803,000
2010-11	7,682,000	756,000	6,926,000

Tourism: Yorkshire and Humberside

Mr. Greg Knight: To ask the Secretary of State for Culture, Media and Sport what initiatives his Department has to promote Yorkshire to international visitors. [196720]

Margaret Hodge *[holding answer 25 March 2008]:* My Department has provided VisitBritain with funding of £49.9 million in 2007-08 to promote Britain as a whole as an attractive place to visit. Destinations and attractions in Yorkshire are included within VisitBritain's themed campaigns and are also featured on VisitBritain's websites, which contain detailed destination guides.

The Department's funding agreement with VisitBritain requires them to achieve a specified proportion of additional expenditure by inbound visitors outside London. For 2005-06, the target was 55 per cent., and VisitBritain achieved 61 per cent. For 2006-07, the target was 54 per cent. and VisitBritain achieved 57 per cent.

VisitBritain: Finance

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the return on investment of spending by *(a)* VisitBritain and *(b)* VisitEngland in (i) 2005-06 and (ii) 2006-07. [195038]

Margaret Hodge *[holding answer 18 March 2008]:* VisitBritain's method of calculating the return on its marketing investments was considered and approved by the National Audit Office in 2004. Since then, VisitBritain has moved increasingly from print-based promotion of the tourist industry to electronic marketing. This meant that new ways of measuring the return on investment were necessary, as the old methodology had begun to produce unrealistic results by 2005-06. With the agreement of DCMS, VisitBritain brought in new methodology for the start of 2006-07.

VisitBritain's performance against its Funding Agreement targets was as follows:

International marketing of Britain

	Target	*Achieved*	*Estimated tourist expenditure generated (£ billion)*
2005-06	30:1	54:1	1.906
2006-07	30:1	31:1	1.095

Domestic England marketing within Britain (advised by VisitEngland)

	Target	*Achieved*	*Expenditure generated (£ million)*
2005-06	12:1	20:1	243.2
2006-07	13:1	17:1	225.3

England marketing in established European markets (advised by VisitEngland)

	Target	*Achieved*	*Expenditure generated (£ million)*
2005-06	15:1	32:1	32.3
2006-07	30:1	19:1	19.4

DEFENCE

Afghanistan: Peacekeeping Operations

Patrick Mercer: To ask the Secretary of State for Defence by whom each soldier killed during the 1st Battalion The Worcestershire and Sherwood Foresters Regiment/2nd Battalion The Mercian Regiment's recent operational tour in Helmand Province was replaced in the order of battle. [175622]

Mr. Bob Ainsworth: I will write to the hon. Member.

Substantive answer from Bob Ainsworth to Patrick Mercer:

I undertook to write to you in answer to your Parliamentary Question on 7 January 2008, *Official Report*, column 20W, about replacements for soldiers killed during the 1st Battalion The Worcestershire and Sherwood Foresters Regiment/2nd Battalion The Mercian Regiment's recent operational tour in Helmand Province.

As you are aware, I set out the Army's policy on battle casualty replacement in my answer to you on 7 January 2008, *Official Report*, column 50W.

Officials have spent some time examining your request and exploring potential ways of providing the information you seek, including discussions with the Unit. Unfortunately, however, this has proved impossible. Unlike in previous conflicts, our policy is not to identify individual replacements. Units are not, therefore, required to identify those individuals who replace colleagues who are injured or killed. Rapid replacement in theatre would in any event make this extremely difficult to track.

I am placing a copy of my letter in the Library of the House.

Adam Price: To ask the Secretary of State for Defence what reports he has received on the incident involving the International Security Assistance Force and Afghan police in Lashkar Gah on 20th March 2008, which is being investigated by Royal Military Police. [197113]

Des Browne *[holding answer 26 March 2008]:* I have received an initial report regarding this incident, which is currently subject to investigation. It would be inappropriate to comment further while the investigation is continuing.

Aircraft Carriers

Richard Ottaway: To ask the Secretary of State for Defence what assessment he has made of security scenario planning in which the proposed aircraft carriers were deemed to be an essential part of the UK's response; and if he will make a statement. [195435]

Mr. Bob Ainsworth: Future Carrier, as an integral part of the Carrier Strike capability, contributes to a number of planning scenarios, the details of which I am withholding as their release would, or would be likely to, prejudice the defence of the United Kingdom. The 2004 "Future Capabilities" White Paper noted that aircraft carriers contribute to medium-scale intervention and large-scale operations, though they are a very flexible platform which also provides wider utility.

Armed Conflict: EC Action

Mr. Hancock: To ask the Secretary of State for Defence whether the Treaty of Lisbon affects the UK's capacity to take unilateral military action. [196349]

Des Browne: No. The provisions on the Common Security and Defence Policy in the Lisbon Treaty do not change the fundamental nature of the Common Foreign and Security Policy under the current Treaty on European Union (TEU). As under the TEU, individual member states will not be constrained from conducting their own foreign policy, including a decision to undertake unilateral military action.

Armed Forces: Deployment

Dr. Fox: To ask the Secretary of State for Defence how many UK personnel are deployed on operations, broken down by location. [196616]

Mr. Bob Ainsworth: The following table shows the number of UK service personnel deployed on operations by location at 10 March 2008. The number of personnel in theatre will naturally fluctuate on a daily basis for a variety of reasons, including leave (rest and recuperation), temporary absence for training, evacuation for medical reasons, the roulement of forces and other factors.

Personnel deployed by location[1]

Location	*Number*
Total	13,460
of which:	
Afghanistan	7,600
Iraq	3,800
At Sea	710
Qatar	410
Cyprus	280
Kuwait	260
Oman	190
Kosovo	130
Bahrain	70
Bosnia	10
Other	30

[1] Countries with 10 or more personnel are shown separately. Other countries with fewer than 10 personnel per country include Georgia, Nepal, Sudan, Sierra Leone, Democratic Republic of Congo and Liberia.

Armed Forces: Postal Services

Dr. Fox: To ask the Secretary of State for Defence how many instances of mail lost in transit between military personnel and their families were recorded in each month of 2007. [196610]

Mr. Bob Ainsworth: The number of claims for compensation paid by the MOD for non-delivered and damaged mail for each month of 2007 was as follows:

Month	*Number of claims compensation paid*
January	74
February	55
March	32
April	95
May	62
June	80
July	72
August	32
September	80
October	59
November	42
December	12

Armed Forces: Public Transport

Bob Russell: To ask the Secretary of State for Defence if he will bring forward proposals for a scheme to enable members of HM Armed Forces to travel free on public transport when wearing uniform. [195978]

Mr. Bob Ainsworth: It would be inappropriate for the MOD to make any specific recommendations regarding free use of public transport for military personnel, as this is a matter for individual public transport providers.

However, the Government are currently examining the wider issue of the provision of services to our armed forces personnel under the Service Personnel Command Paper and the nation's relationship with the armed forces under the National Recognition study carried out by my hon. Friend the Member for Grantham and Stamford's (Mr. Davies).

Armed Forces: Vehicles

Nick Harvey: To ask the Secretary of State for Defence how many *(a)* helicopters, *(b)* vehicles and *(c)* fixed-wing aircraft were lost under enemy fire in each year since 2003, broken down by model. [195379]

Mr. Bob Ainsworth *[holding answer 19 March 2008]:* One Lynx helicopter was lost to enemy fire in Iraq in 2006.

A total of three Hercules aircraft have been lost, one in Iraq in 2005, one in Afghanistan in 2006 and the third in Iraq in 2007.

One Harrier aircraft was lost in Afghanistan in 2005.

I am withholding detailed information regarding the numbers and types of land vehicles lost to enemy fire as its release would, or would be likely to, prejudice the capability, security or effectiveness of the armed forces.

Armoured Fighting Vehicles

Ann Winterton: To ask the Secretary of State for Defence (1) where the initial request came from to supply additional Supercat M-WMIK vehicles; when that request became an order; and what function these future vehicles will perform; [195628]

(2) what the reasons are for the increased cost of the new Supercat M-WMIK order; [195630]

(3) how many Supercat M-WMIKs had been supplied prior to the current orders for 130 and 72; and at what unit price. [195631]

Mr. Bob Ainsworth: The Mobility Weapon Mount Installation Kit (M-WMIK) was identified as a solution in spring 2007, to meet a request from commanders in Afghanistan for an enhanced WMIK vehicle to complement the Land Rover based WMIK fleet. The M-WMIK will provide mobility for battle group support weapons and offers high levels of agility coupled with considerable firepower. The initial contract was signed in July 2007.

I am not aware of increased costs; this is the first time we have procured the M-WMIK vehicle. Some specialist users possess vehicles based on the same Supacat chassis, but the costs of these were broadly similar.

Dr. Fox: To ask the Secretary of State for Defence what recent modifications have been made to the main armament of the Challenger II tank for training purposes. [196607]

Mr. Bob Ainsworth: There have been no recent modifications to the main armament of Challenger 2 (CR2). In June 2006, however, we brought into service a new Live Fire Crew Training System to provide realistic CR2 crew training using a removable barrel insert and smaller calibre rounds.

Army: Manpower

Ann Winterton: To ask the Secretary of State for Defence what the required strength of army officers is in each of the categories *(a)* 1/(D), *(b)* 1, *(c)* 2, *(d)* 3, *(e)* 4, *(f)* 5 and *(g)* 6 to 9. [195629]

Mr. Bob Ainsworth: The categories referred to are the NATO categorisations used to identify equivalent ranks across the armed forces. The current permanent liability (required strength) for Regular Army officers, for each category is split between direct entry officers, i.e. those who join the Army as officers, and late entry officers, who are promoted from the non-commissioned ranks:

NATO rank	*Army rank*	*Direct entry*	*Late entry*
OF7+	Major General to General	64	
OF6	Brigadier	174	
OF5	Colonel	535	
OF4	Lieutenant Colonel	1,664	79
OF3	Major	3,375	909
OF2	Captain	3,331	1,569
OF1	Second Lieutenant and Lieutenant	1,777	0
OF1 (Des)		[1]660	

[1]OF1 (Des) are officers under training at the Royal Military Academy Sandhurst.

AWE Aldermaston: Protest

Mr. David Anderson: To ask the Secretary of State for Defence if he will make arrangements to enable the making of peaceful protests at Aldermaston Atomic Weapons Establishment; and if he will make a statement. [195371]

Mr. Bob Ainsworth: The MOD recognises the democratic right of individuals to participate in lawful and peaceful protest activities. Such activities have taken place at AWE for many years, and there are well-rehearsed plans in place to ensure minimum disruption and to allow peaceful protests to occur. Safety and security at AWE are paramount. Any protester action that could compromise these will always be dealt with appropriately. There were demonstrations at AWE as recently as 24 March and Thames Valley Police subsequently congratulated the organisers for organising an effective and peaceful demonstration.

Defence

Mr. Gerald Howarth: To ask the Secretary of State for Defence how many urgent operational requirements are under consideration; and what estimate he has made of the total value of such requirements. [191552]

Mr. Bob Ainsworth: Some 800 UORs have been approved to date; a further 120 are under consideration. To date, the value of UORs approved for Iraq and Afghanistan is in excess of £3.5 billion. The costings for UORs that have not yet been approved are not mature enough to provide an accurate estimate.

EC Common Foreign and Security Policy

Mr. Hancock: To ask the Secretary of State for Defence what arrangements are planned for liaison between his Department and the office of the high representative of the Union for foreign affairs and security policy. [196358]

Des Browne: If the Lisbon Treaty is ratified by all EU member states, the Ministry of Defence will liaise with the office of the high representative of the Union for foreign affairs and security policy through our permanent and military representation to the European Union, as we currently do with the office of the high representative for the common foreign and security policy.

EC Defence Policy

Mr. Hancock: To ask the Secretary of State for Defence what burden-sharing arrangements are planned for civilian and military assets for EU defence under the Lisbon Treaty. [196350]

Des Browne: Under the Lisbon Treaty, both civilian and military assets for European Security and Defence Policy (ESDP) operations would continue to be supplied by EU member states on a voluntary basis, as they are under the current Treaty on European Union.

I refer the hon. Member to the answer I gave on 19 March 2008, *Official Report*, column 1171W, regarding the funding of ESDP operations under the Lisbon Treaty.

Iran: Defence Equipment

Dr. Fox: To ask the Secretary of State for Defence what estimate he has made of the financial value of the Royal Navy and Royal Marines equipment which remains in the possession of the Iranian authorities. [196599]

Des Browne: The financial value of the Royal Navy and Royal Marines equipment which remains in the possession of the Iranian authorities from the two incidents in 2004 and 2007 is approximately £500,000 in each case. This corrects the previous replacement costs I provided on 26 April 2007, *Official Report*, column 1253W, for the hon. Members for Portsmouth, South (Mr. Hancock) and for New Forest, East (Dr. Lewis) which included the estimated replacement coast of only one Rigid Hull Inflatable Boat.

Iraq: Peacekeeping Operations

Mr. Amess: To ask the Secretary of State for Defence how many members of the armed forces were withdrawn from Iraq in each year since 2003, broken down by *(a)* sex, *(b)* age and *(c)* service; what plans he has to increase members withdrawn in each of the next 12 months; and if he will make a statement. [190878]

Mr. Bob Ainsworth: During major combat operations in March-April 2003, there were some 46,000 UK military personnel committed to Operation TELIC (including those stationed outside Iraq in support of the operation). Subsequently, the number of UK military posts in Iraq decreased to 18,000 by May 2003. Year on year troop reductions beyond that point are set out in the following table:

January each year	*Approximate UK troop level*	*Reduction from previous year*
2004	8,500	[1]9,500
2005	8,000	500
2006	8,000	0
2007	7,100	900
2008	4,300	2,800

[1] From May 2003

There are currently around 4,200 UK military personnel in Iraq, of whom around 4,000 are based in southern Iraq. The actual number of UK military personnel in theatre varies significantly from day to day for a variety of reasons, including leave (rest and recuperation), temporary absence for training, evacuation for medical reasons, visits, the roulement of forces and other factors.

Accurate information on the total number of personnel broken down by sex, age and service is not held centrally and could be provided only at disproportionate cost.

Work continues on the details of our future plans in consultation with our coalition partners and the Government of Iraq. For this reason, we are unable to provide a month-by-month projection for each of the next 12 months. Our plans will, of course, be guided by the advice of our military commanders and are subject to conditions on the ground.

Sarah Teather: To ask the Secretary of State for Defence how many people serving in the British forces in Iraq hold *(a)* British citizenship and *(b)* citizenship of countries other than Great Britain; and how many personnel there are of each nationality in the latter. [197103]

Des Browne: Data on the number and citizenship of service personnel serving in Iraq are not held centrally and could be provided only at disproportionate cost.

Reserve Forces

Peter Viggers: To ask the Secretary of State for Defence what the role is of formed units in the reserve forces; and if he will make a statement. [196787]

Mr. Bob Ainsworth: Reserves in formed units, such as Territorial Army (TA) Battalions and Regiments, and Royal Auxilliary Air Force Squadrons, are in most cases maintained to provide a framework which parallels their Regular equivalent, as over the years this has been shown as the most effective and robust method of providing a framework, upon which reservist capability can be recruited, grown, nurtured and trained.

In the case of the TA, it is the basis from which capability can be deployed on operations. Where possible, the Army tries to deploy TA personnel in 'cohorts', groups drawn from units listed on the commitments forecast. However, the current operational requirement dictates that TA capability is deployed variously as individual reinforcements, as formed sub-units and only in some exceptional cases—particularly field hospitals—as formed units. For a large-scale operation a greater proportion of the TA would be deployed as formed sub-units and units, although the latter would still be the exception.

For the Royal Auxiliary Air Force, Squadrons are established for peacetime training purposes only. For the Royal Naval Reserve and Royal Marine Reserve, there are no units formed for operational deployment; they are administrative groupings only. Individuals, within them would deploy as reinforcements to other units.

On 19 March 2008, the Secretary of State announced a review of our Reserve Forces. This will examine how the Reserve can be optimised to meet current and projected defence requirements.

Warships

Mr. Hancock: To ask the Secretary of State for Defence what plans he has to commission a fifth Royal Fleet Auxiliary ship to provide the maximum sea-lift capability recommended in his Department's 1998 operational analysis; and if he will make a statement. [195570]

Mr. Bob Ainsworth: The modernisation of the Royal Navy's amphibious fleet was completed in 2007 with the introduction into service of RFA Lyme Bay, the fourth of the Bay class Landing Ships Dock (Auxiliary). We have no plans to procure a fifth vessel of this class.

DUCHY OF LANCASTER

Ministerial Policy Advisers

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer to the hon. Member for Broxbourne, of 18 February 2008; *Official Report*, column 119W, on ministerial policy advisers (1) if he will provide figures for special advisers separately from the figures in the Annual Report of the Advisory Committee on Business Appointments on Crown servants; [191050]

(2) which special advisers have *(a)* received approval from and *(b)* been refused by the Advisory Committee on Business Appointments to take up an outside appointment on leaving office since May 2005. [191051]

Edward Miliband: Under the "Rules on the Acceptance of Outside Appointments by Crown Servants", the independent Advisory Committee on Business Appointments advises on the approval of applications from the most senior civil servants, including special advisers of equivalent standing. Once a new appointment has been taken up or announced, the Committee publishes information on the application and the advice it gave on it.

Since May 2005, the Advisory Committee has published such information about the appointments of two Special Advisers: Jonathan Powell and Elizabeth Lloyd.

Applications from civil servants, including special advisers, below these levels are dealt with by their employing Departments.

Departments provide collated data annually for publication in the statistical tables of the Advisory Committee's annual reports on the total number of applications they have received, including those subsequently referred to the Committee. These figures show the numbers that were approved unconditionally or approved subject to a condition.

The Advisory Committee on Business Appointments does not intend to collect or publish any additional data on applications under the Rules.

ELECTORAL COMMISSION COMMITTEE

Political Parties: Finance

Mr. Fabian Hamilton: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission, what criteria are used by the Electoral Commission in deciding whether to refer to the police late declarations of donations to regulated donees. [195364]

Peter Viggers: The Electoral Commission informs me that, in deciding whether to refer to the police the late reporting of donations by regulated donees, it takes into account, in the first instance, the sufficiency of the evidence and, if that threshold is met, whether it is in the public interest to refer the matter, having due regard to the proportionality of the case.

Mr. Fabian Hamilton: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission, what the reasons were for the referral by the Electoral Commission of the right hon. Member for Neath to the police for late declaration of donations. [195365]

Peter Viggers: The Electoral Commission informs me that this matter is the subject of an ongoing police investigation. It would therefore be inappropriate for me to comment on it.

Mr. Fabian Hamilton: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission, what steps have been taken by the Electoral Commission in response to late declarations of donations by *(a)* the right hon. Member for Sheffield, Hallam and *(b)* the hon. Member for Henley. [195366]

Peter Viggers: The Electoral Commission informs me that, in line with its usual procedures, it has checked these donations for permissibility and has published the details on its website. It has also written to the right hon. Member for Sheffield, Hallam (Mr. Clegg) and the hon. Member for Henley (Mr. Johnson) regarding their failure to report these donations on time.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Waste Disposal

Mr. Prisk: To ask the Secretary of State for Environment, Food and Rural Affairs what plans the Government have to place a levy on the purchase of farm plastic. [195663]

Joan Ruddock: The Government have no plans to introduce a levy on farm plastics. However, we intend to consult on proposals to deliver a statutory producer responsibility scheme for the collection of non-packaging farm plastics in late spring 2008.

Climate Change

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs if he will request the Intergovernmental Panel on Climate Change to ensure that all bodies which submit scientific data to the panel publish their data correction methodologies; and if he will make a statement. [196786]

Mr. Woolas: The preparation of all IPCC reports and publications follows strict procedures (available on the IPCC website), and reviews by Governments and experts are essential elements of the preparation of IPCC reports, commenting on the accuracy and completeness of the content and the overall balance of

the drafts. Differing views for which there is significant scientific or technical support are clearly reflected in final IPCC documents.

The IPCC does not commission research or undertake data analysis but reviews peer-reviewed scientific literature. As such, the process of ensuring data analysis and correction techniques are robust and available to the scientific community is not the responsibility of the IPCC but that of the research community itself and the editors of the scientific journals that ultimately publish the body of research that informs the IPCC reviews.

Eaga

Mr. Kevan Jones: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what contracts there are between his Department and Eaga; [194361]

(2) how many complaints his Department has received about work carried out under the Warm Front Scheme. [194362]

Mr. Woolas: DEFRA currently holds one contract with Eaga plc, which is to perform the duties of Scheme Manager for the Warm Front Scheme.

Between 1 June 2005 and 13 March 2008 the number of complaints received by Warm Front was 7,614 from a total of 600,000 households.

2,870 of these complaints were upheld. This represents 0.48 per cent. of all households assisted.

Energy: Housing

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking to encourage owners of existing housing stock to improve their energy performance rating. [196386]

Mr. Woolas: DEFRA is taking action to reduce emissions from housing through a number of initiatives such as Warm Front, the Energy Efficiency Commitment (the next phase of which will be called Carbon Emissions Reduction Target (CERT), the ActOnCO$_2$ carbon calculator, and the Energy Saving Trust's Energy Efficiency Best Practice Programme for Homes and its newly announced Green Homes Service.

Fisheries: Compensation

Mr. Grieve: To ask the Secretary of State for Environment, Food and Rural Affairs what steps have been taken by his Department to provide for compensation to inshore fishermen whose fishing grounds are affected by the construction of offshore wind farms; and if he will make a statement. [196234]

Jonathan Shaw: Compensation is a commercial matter and not for Government intervention. Wind farm developers engage directly with local fishing associations to agree a fair compensation package when their proposed developments are likely to have an impact on local fishermen.

Before any construction can commence, however, wind farm developers have to obtain a range of licences and consents. These include a licence under the Food and Environment Protection Act (FEPA) from the Marine and Fisheries Agency (MFA).

The MFA will assess the impact of the proposed development on local fishing grounds before deciding whether to issue a FEPA licence. If a licence is granted, it will include a range of conditions to protect the marine environment, including fisheries. Some of these will be site specific. However, all licences stipulate that a suitably qualified fisheries liaison officer be appointed to maintain effective communications between fishermen, the licence holder and contractors.

Pollution Control: Construction

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the quantity of ozone-depleting substances in building; and what amount of ozone-depleting emissions has come from this source since 2000. [195933]

Mr. Woolas: The UK does not hold any reliable figures for the quantity of ozone-depleting substances found in insulating foams which are used in the building sector.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he is taking to implement EC Regulation 2037/2000 as it applies to the disposal of ozone-depleting substances found in foam in buildings. [195934]

Mr. Woolas: DEFRA has had recent discussions with industry experts about the scope for greater recovery and destruction of ozone-depleting substances found in building foams. Recovery of ozone-depleting substances from building foams is one of the issues being considered as part of a wider review by the European Commission of EC Regulation 2037/2000.

Seas and Oceans: Environment Protection

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 5 December 2007, *Official Report*, column 1278W, which marine protected areas were not included in the list of areas provided but counted within the total of 180 sites reported in the Government's response to the Science and Technology Committee report Investigating the Oceans HC (2006-07) 470. [196218]

Jonathan Shaw: The information supplied to the Science and Technology Committee on around 180 marine protected areas differs from that given in the answer of 5 December 2007; *Official Report*, column 1278W, because of ambiguity in the definition of what constitutes a 'marine' site.

Habitats are considered to be 'marine' if they are covered (continuously or intermittently) by the sea. However, terrestrial sites can also be considered to have marine elements and interpretation of this criterion may lead to differences in reported figures.

Tree Preservation Orders: Guildford

Anne Milton: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the Answer of 25 February 2008, *Official Report*, column 1130W, on tree preservation orders: Guildford, if he will place in the Library a copy of the letter of comfort produced by his Department in relation to disposal of the Epsom Road site. [196075]

Joan Ruddock: In my answer of 25 February 2008, *Official Report*, column 1130W, no mention was made of a comfort letter in respect of Tree Preservation Orders. However, if following the identification by the council of those trees from the joint survey considered worthy of protection, the Department considers such a letter necessary for the interim preservation of trees pending the sale, I see no reason not to publish said letter in the House of Commons Library.

JUSTICE

Alternatives to Prison

Tony Baldry: To ask the Secretary of State for Justice who *(a)* funds and *(b)* runs community-based options for substance misuse as alternatives to custody sentences. [196533]

Mr. Hanson: Combined funding from the Department of Health, Home Office and Ministry of Justice known as the pooled treatment budget (PTB) for drug treatment services is allocated annually to drug action team partnerships (DATs). Funding from PTB allocations is supplemented by mainstream funding from the national health service.

The Ministry of Justice contribution (£22 million in the current financial year) pays for the treatment and testing required to deliver the drug rehabilitation requirement (DRR) which is the main delivery route for drug interventions within community sentences and is one of 12 requirements available as part of a community order. The overall sentence is supervised and delivered by the national probation service. The treatment is commissioned locally in partnership with the drug action teams (DATs) and is delivered by a range of voluntary and public-sector treatment providers. The national probation service also delivers accredited cognitive behavioural programmes for substance misusers.

Drug action teams receive additional funding—some £110 million in 2008-09—from the Home Office to support delivery of the Drug Interventions Programme (DIP). DIP works with drug-misusing offenders to move them out of crime and into treatment. While the programme is not a formal alternative to custody its emphasis is on working with offenders, particularly in the community, from their earliest point of contact with the criminal justice system.

Courts: Security

Mr. Arbuthnot: To ask the Secretary of State for Justice what minimum level of training is required for security staff in courts; and if he will make a statement. [196528]

Maria Eagle: Security in courts is provided by designated court security officers, appointed by the Lord Chancellor who devolves this power to the Chief Executive of Her Majesty's Courts Service (HMCS).

The training requirements for court security officers is set out in the Court Security Officers (Designation) Regulations 2005 which were made by the Lord Chancellor exercising the powers conferred on him by section 51 of the Courts Act 2003.

Under these regulations, before a person is designated as a court security officer, he must provide evidence that he has completed training courses in the following:

(a) the duties and powers of a court security officer;

(b) risk assessment;

(c) safe working practices;

(d) managing stress when dealing with threatening situations; and

(e) techniques for restraining a person and removing them from the building.

In addition, security staff in courts are required to follow the guidance provided in the security policy document of Her Majesty's Courts Service: Safe and Secure. This sets out the minimum standards for security in courts according to the function of the separate areas within each building.

Departmental Consultants

John McDonnell: To ask the Secretary of State for Justice how much has been spent by his Department in 2007-08 on *(a)* consultants and *(b)* agency staff. [191951]

Maria Eagle: Expenditure with external consultants since the Ministry of Justice was established on 9 May 2007 is not available and could be obtained only at disproportionate cost. However, from April 2007 until September 2007, the former Department for Constitutional Affairs and those bodies that were formerly part of the Home Office and are now part of the Ministry of Justice spent £5.5 million on external consultants.

The use of agency staff is devolved to separate business areas within the Ministry of Justice. The following table provides a breakdown of the most current figures held by organisation:

Organisation	*Period*	*Value (£)*
Former DCA	April 2007 to February 2008	10,600,000
HM Prison Service	April 2007 to February 2008	10,800,000
NOMS	April 2007 to December 2007	1,200,000
OCJR	April 2007 to January 2008	112,000

Departmental Data Protection

Mr. Weir: To ask the Secretary of State for Justice whether confidential or personal information has been compromised through the loss of property from his Department since 1997. [193448]

Mr. Wills: Except in exceptional cases, when it is in the public interest, it has been the policy of successive Governments not to comment on breaches of security.

However, following the publication of the Data Handling Procedures in Government: Interim Progress Report on 17 December 2007, *Official Report*, column 98WS, all Departments will cover information assurance issues in their annual reports.

Departmental Empty Property

Chris Huhne: To ask the Secretary of State for Justice how many vacant properties his Department owns; how many of these have been vacant for longer than *(a)* three months, *(b)* six months and *(c)* 12 months; and what the value of each property is. [196290]

Maria Eagle: The Ministry owns one property that has been vacant for longer than three months, three that have been vacant for longer than six months and four that have been vacant for longer than 12 months. The estimated value of each property is set out as follows.

			Value (£)
Property	*Vacant >3 months <6months*	*Vacant >6 months <12 months*	*Vacant >12 months*
1	200,000		
2		600,000	
3		1,175,000	
4		235,000	
5			360,000
6			2,004,400
7			800,000
8			182,000

All the properties are non-residential and are vacant awaiting sale. They are owned by Her Majesty's Court Service.

In addition, the Prison Service owns residential properties. The number of vacancies varies but it is estimated to be between 25 and 30 at any one time and they are disposed of as soon as is practicable. Details of vacancies are not held centrally. Each individual prison establishment would need to be contacted to establish the exact number of vacancies, which would be at disproportionate cost to the Ministry.

Departmental ICT

Mr. Garnier: To ask the Secretary of State for Justice pursuant to the answer of 15 January 2008, *Official Report*, columns 1203-4W, on departmental ICT, when he expects to publish the detailed and assured delivery plans. [196152]

Maria Eagle: An announcement on the delivery plan for Prison NOMIS project is expected by the end of April following the conclusion of commercial negotiations which are currently under way. Delivery plans for the other NOMIS programme constituent projects will follow after commercial negotiations specific to them are complete.

Departmental Pensions

David Simpson: To ask the Secretary of State for Justice how many and what percentage of staff in his Department were making additional voluntary contributions to their pensions in each of the last two years. [193560]

Maria Eagle: The Ministry of Justice was created on 9 May 2007.

In February 2007, 32,589 staff were employed in the former Department for Constitutional Affairs, including the Adjudicator to HM Land Registry (staff), the Judicial Appointments Commission and the Legal Services Ombudsman. A total of 175 staff were contributing to recognised Additional Voluntary Contribution, partnership and stakeholder pension schemes. This total represents 0.54 per cent. of employees.

In February 2008, the Ministry of Justice—including HM Prison Service, the National Offender Management Service, the Criminal Injuries Compensation Board, the Youth Justice Board, the Parole Board, the Office for Criminal Justice Reform and the National Probation Service employed 87,897 staff, of which 875 staff were contributing to recognised Additional Voluntary Schemes, partnership and stakeholder pension schemes. This total represents 0.99 per cent. of employees.

Marriage: Wales

Mr. Dai Davies: To ask the Secretary of State for Justice when legislative changes to eligibility for marriage in the Church of England will be implemented in Wales. [196160]

Mr. Wills: Changes to the rules on where people can marry in the Church of Wales are a matter for that Church to propose. The Church in Wales is disestablished and a separate member of the Anglican Communion from the Church of England. Church of England Measures cannot extend to the Church in Wales.

Offenders: Deportation

Mr. Garnier: To ask the Secretary of State for Justice what proportion of foreign nationals sentenced to custody was recommended by the sentencing court for deportation on completion of sentence in each of the last 10 years. [187105]

Mr. Hanson: Information on what proportion of foreign nationals sentenced to custody were recommended by the sentencing court for deportation on completion of their sentence in each of the last 10 years is not available.

However, over 4,200 foreign national prisoners have been removed or deported from the UK in 2007.

Offenders: Employment Schemes

Jenny Willott: To ask the Secretary of State for Justice (1) how much was spent on providing employment programmes for offenders *(a)* in custody and *(b)* serving community sentences in each of the last 10 years; and if he will make a statement; [196123]

(2) what funding has been allocated for the provision of employment programmes for offenders (*a*) in custody and (*b*) serving community sentences for 2008-09, broken down by funding source; and if he will make a statement. [196124]

Maria Eagle: Improving the skills and employment outcomes for offenders is one of our key objectives for reducing reoffending, and our priorities for action are set out in the 'Reducing Re-Offending through Skills and Employment: Next Steps' plan. The Ministry of Justice works closely with the Departments for Innovation, Universities and Skills and for Work and Pensions to take this forward.

We recently published a Prison Policy Update briefing paper which set out our intention to increase the range of employment programmes available to offenders inside prison. This will be done in partnership with the private, public and voluntary sectors, which generally fund the work or training programme delivered. Individual prisons may need to cover the cost of setting up the programme, but this information is not held centrally.

Similarly, offenders in the community are given opportunities to carry out unpaid work with private, public and voluntary sector employers. Probation areas may need to cover the costs of establishing the relationships with employers, but this information is not held centrally.

In addition to these links with employers, offenders have access to DWP programmes aimed at getting disadvantaged groups into employment such as New Deal and Progress2Work. Information about these programmes is offered via Jobcentre Plus advisers, including in prisons through their employment and benefit advisers.

Offenders: Rehabilitation

Jenny Willott: To ask the Secretary of State for Justice (1) how much was spent on providing resettlement programmes for offenders (*a*) in custody and (*b*) serving community sentences in each of the last 10 years; and if he will make a statement; [196125]

(2) what funding has been allocated for the provision of resettlement programmes for offenders (*a*) in custody and (*b*) serving community sentences for 2008-09, broken down by funding source; and if he will make a statement. [196126]

Maria Eagle: The funding for the delivery of providing resettlement programmes is part of establishment baselines, so it is not possible to accurately disaggregate the cost of this work. Governors and area managers may allocate funds from their budgets to support local initiatives or partnerships with outside organisations or the voluntary sector to address particular needs, but this information is not recorded centrally.

Jenny Willott: To ask the Secretary of State for Justice how much was spent on providing drug and alcohol treatment for offenders (*a*) in custody and (*b*) serving community sentences in each of the last 10 years; and if he will make a statement. [196129]

Mr. Hanson: Drug treatment funding allocated to prisons in England and Wales over the past 10 years is shown in the following table. Prison funding used specifically for alcohol treatment is not separated from overall drug treatment funding.

	Prison drug treatment[1] *(£ million)*
1989-99	7.3
1999-2000	12.6
2000-01	16.5
2001-02	27.3
2002-03	28.7
2003-04	37.7
2004-05	51.1
2005-06	60.7
2006-07	78.1
2007-08	79.8

[1] This includes clinical interventions (detoxification and maintenance prescribing), CARATs (Counselling, Assessment, Referral, Advice and Throughcare service), YPSMS (Young People's Substance Misuse Services) and intensive drug rehabilitation programmes.
[2] Indicative

Some primary care trusts supplement central allocations with some local funding for clinical services. However, this information is not recorded centrally.

Provision for the treatment and rehabilitation of offenders with drug misuse problems under the National Probation Service's supervision is primarily delivered through the Drug Rehabilitation Requirement (DRR), which has replaced the Drug Treatment and Testing Order (DTTO). The Ministry of Justice contributes to the Pooled Treatment Budget to pay for the treatment and testing for these orders. Probation areas are also funded to provide the supervision and enforcement of these orders. Before the introduction of the DTTO in 2000, treatment and rehabilitation for drug misusing offenders was commissioned at the local probation area level and was not recorded centrally.

Provision for the treatment and rehabilitation of offenders with alcohol misuse problems under the National Probation Service's supervision is commissioned at the local probation area level and is not recorded centrally.

A breakdown of funding for DTTOs/DRRs is shown in the following table. The treatment is commissioned locally in partnership with the drug action teams and is delivered by a range of voluntary and public sector treatment providers. We do not centrally record what proportion of each DAT's budget is specifically spent on Drug Rehabilitation Requirements.

£ million

	Amount paid to pooled treatment budget to fund DTTO/DRR treatment and testing in England	*Allocation to probation areas to fund DTTO/DRR supervision and enforcement costs in England and full DTTO/DRR costs in Wales*
2000-01	[1]20	
2001-02	14.8	21.2
2002-03	20	16
2003-04	29.7	24
2004-05	[2]42	34
2005-06	42	39

	Amount paid to pooled treatment budget to fund DTTO/DRR treatment and testing in England	£ million Allocation to probation areas to fund DTTO/DRR supervision and enforcement costs in England and full DTTO/DRR costs in Wales
2006-07	42	39
2007-08	42	39

£20 million was made available to probation areas in England and Wales to fund DTTOs from October 2007-March 2008 before the establishment of the Pooled Treatment Budget. The contribution to the PTB includes £20 million permanent transfer to the Department of Health and an annual uplift of £22 million.

Jenny Willott: To ask the Secretary of State for Justice what funding has been allocated for the provision of drug and alcohol treatment for offenders (*a*) in custody and (*b*) serving community sentences for 2008-09, broken down by funding source; and if he will make a statement. [196130]

Mr. Hanson: The following table shows indicative funding for prison drug treatment funding for 2008-09 by source. Figures may be subject to change.

Some additional clinical drug treatment funding for prisons may be sourced locally by primary care trusts, but this information is not recorded centrally.

Funding for alcohol treatment is not separated from overall drug treatment funding.

Drug/Alcohol Treatment Intervention	Source	£ million Allocation 2008-09
Clinical Services (detoxification/maintenance prescribing)	Primary Care Trusts (Department of Health)	35.7
CARAT+ Drug Rehabilitation Programmes	Ministry of Justice	51.1
Young People's Substance Misuse Service (YPSMS)[1]	Ministry of Justice	4.3
Total		91.1

[1] Counselling, Assessment, Referral, Advice and Throughcare service

Provision for the treatment and rehabilitation of offenders with drug misuse problems under the National Probation Service's supervision is primarily delivered through the Drug Rehabilitation Requirement (DRR), which has replaced the Drug Treatment and Testing Order (DTTO). The Ministry of Justice expects to contribute £22 million in 2008-09 to the Pooled Treatment Budget (PTB) (in addition to a £20 million permanent transfer to the Department of Health) to pay for the treatment and testing for these orders. Probation areas are also broadly expected to spend £39 million to provide the supervision and enforcement of these orders.

For offenders who are not sentenced to a specific drug misuse requirement as part of their community order, but who want or need to access treatment, referral to community drug services/clinical treatment is carried out on a voluntary basis. Offenders will have to access local treatment services on the same basis as the rest of the population, and we do not centrally record the cost of each offender on the probation caseload who accesses treatment in this way.

Provision for the treatment and rehabilitation of offenders with alcohol misuse problems under the National Probation Service's supervision is commissioned at local probation area level and is not recorded centrally. In particular, probation areas' ability to deliver alcohol treatment as part of a community sentence depends largely on the nature and extent of provision commissioned by local primary care trusts (PCTs) as part of NHS provision. In addition, the Ministry of Justice will be making seed funding available to probation areas to identify, support and disseminate best practice in working with alcohol misusers, although the exact sum has yet to be finalised.

Prison Accommodation

Mr. Garnier: To ask the Secretary of State for Justice how many prisoners were (*a*) doubling up in cells designed for one and (*b*) trebling up in cells designed for two on the latest date for which figures are available. [196151]

Maria Eagle: At the end of February, 19,382 prisoners were reported as being doubled up in cells certified to hold one person and 1,207 prisoners were reported as being trebled up in cells certified to hold two people.

Prison Sentences

Mr. Garnier: To ask the Secretary of State for Justice if he will publish the (*a*) original and (*b*) revised algorithm on the ICA1 form as referred to in Prison Service Instruction 07/2008. [196149]

Maria Eagle: The revision to the algorithm on the ICA1 form takes account of prisoners serving indeterminate sentences for public protection with short tariffs of three years and under. The revised algorithm for allocation of such prisoners means that, unless a risk assessment indicates otherwise, these prisoners will be assessed as Category C and allocated to the Category C training estate. Here they will be able to access a wider range of offending behaviour programmes. Copies of the original and revised forms will be placed in the Library.

Prisoners: Dorchester Prison

Mr. Garnier: To ask the Secretary of State for Justice how many prisoners at HMP Dorchester (*a*) self-harmed, (*b*) committed suicide and (*c*) died of (i) natural and (ii) unnatural causes in each of the last 52 weeks for which figures are available. [196400]

Maria Eagle: Information about self-harm cannot be provided in the requested format. However, there have been an estimated 53 incidents of self-harm at HMP Dorchester in the last 52 weeks.

There has been one death at HMP Dorchester in the last 52 weeks and that was self-inflicted.

Prisoners: Mentally Ill

Jenny Willott: To ask the Secretary of State for Justice how many and what proportion of the prison population have been held in (*a*) NHS and (*b*) independent sector mental healthcare places in each of the last 10 years; and if he will make a statement. [196068]

Mr. Ivan Lewis: I have been asked to reply.

The latest available statistics, as shown in the following table, show that the following numbers of prisoners were transferred from prison custody to hospital in the years between 1997 and 2006:

	Number
1997	746
1998	739
1999	731
2000	662
2001	635
2002	644
2003	722
2004	831
2005	834
2006	894

Source:
Ministry of Justice Statistical Bulletin
Statistics of Mentally Disordered Offenders 2006 England and Wales

Figures are not available showing the breakdown between the national health service and the independent sector.

Jenny Willott: To ask the Secretary of State for Justice what recent assessment the Department has made of the number and proportion of the prison population with one or more mental health condition, broken down by condition; and if he will make a statement. [196070]

Mr. Ivan Lewis: I have been asked to reply.

A survey, 'Psychiatric Morbidity among Prisoners in England and Wales' (Office for National Statistics (ONS), 1997) showed that 90 per cent. of prisoners have at least one significant mental health problem, including personality disorder, psychosis, neurosis, alcohol misuse and drug dependence.

Although the 1997 ONS study is now quite old, it is still regarded as an accurate reflection of the situation today.

Prisoners: Personal Records

Mr. Garnier: To ask the Secretary of State for Justice pursuant to the answer of 5 February 2008, *Official Report*, columns 1118-19W, on Prisoners: Personal Records, what records his Department holds on the average length of time taken for a prisoner's full records to be received by the prison of destination following transfer. [196155]

Maria Eagle: Information is not held centrally on the time it takes for these records to transfer from one prison to another, but the principle is that the form travels with the prisoner's escorting officer and so the transfer should be immediate.

Reoffenders: Research

Mr. Garnier: To ask the Secretary of State for Justice what research his Department has *(a)* commissioned and *(b)* undertaken on the relationship between prison regimes and reoffending rates; and if he will publish such research. [196150]

Mr. Hanson: No specific research has been commissioned to investigate the relationship between aspects of prison regimes and reoffending. However, the latest available reoffending data, for the 2004 cohort of adult prisoners discharged from custody, show that reoffending decreased by 4.6 per cent. between 2000 and 2004 after controlling for changes in offender characteristics. Reoffending behaviour can be influenced by not just the programmes run in prisons, but the work of probation services and other partners once the offender has been released, as well as a wider range of socio-economic factors.

NORTHERN IRELAND

Departmental Information Officers

Mr. Carmichael: To ask the Secretary of State for Northern Ireland how many people were employed in his Department's press office in each of the last five years; and how much it cost to run the office, including utilities and other expenses, in each year. [187051]

Mr. Woodward: The number of people employed in Northern Ireland Information Service (NIIS), the Communications Directorate of the Northern Ireland Office, for each of the last five years is detailed in the following table.

	Press officers	Admin/support staff	Total
2002-03	15	28	43
2003-04	11	25	36
2004-05	14	28	42
2005-06	12	26	38
2006-07	14	23	37

The operating budget for NIIS for each of the last five years is shown in the following table.

	£
2002-03	1,951,872.14
2003-04	1,890,132.42
2004-05	1,769,763.96
2005-06	1,599,059.78
2006-07	1,605,463.68

These figures include staff salaries and all salary related costs including other expenditure incurred in pursuance of our overall objective of presenting and explaining Government policy in Northern Ireland by appropriately communicating the objectives of the NIO in a positive, timely, impartial and professional manner.

Discrimination

David T.C. Davies: To ask the Secretary of State for Northern Ireland how many claims for discrimination, based on *(a)* sex, *(b)* race and *(c)* sexual orientation,

were brought by members of his Department and settled (i) in and (ii) out of court in each of the last five years. [194987]

Mr. Woodward: Five cases brought against the Northern Ireland Office Core Department by its staff were settled during the time specified. Four cases were on grounds of sex, two in 2004-05, one in 2006-07 and one in 2007-08. There was one case on grounds of race in 2003-04. All cases were settled out of court. There were no cases during this period based on sexual orientation.

The NIO has procedures in place for dealing with complaints of discrimination and the majority of complaints brought by staff will be dealt with under these procedures without recourse to tribunals.

In accordance with section 75 of the Northern Ireland Act 1998, all personnel policies affecting staff are screened to ensure that they do not have an adverse effect on any of the nine groups specified under the legislation, which include gender, race and sexual orientation. In addition, NIO staff receive training on avoiding discriminatory behaviour in the workplace, including such behaviour on the basis of gender, race and sexual orientation. Until recently, this took the form of mandatory equal opportunities awareness training for new staff as part of their induction. This has been replaced by a new diversity course which is currently being rolled out to the whole Department.

Drug Seizures

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many seizures of illegal drugs were made in each district command unit in each of the last five years. [194750]

Paul Goggins: The following table sets out details the number of seizures of illegal drugs made in each District Command Unit in each of the last five years.

	2002-03	2003-04	2004-05	2005-06	2006-07
Antrim	23	75	89	97	87

Lisburn	101	88	121	118	125

Drugs: Sentencing

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many persons are serving a custodial sentence for *(a)* drug and *(b)* alcohol-related offences, broken down by (i) age, (ii) sex and (iii) offence. [194755]

Paul Goggins: Table 1 gives the total number of sentenced prisoners currently in prison in Northern Ireland as at 19 March 2008, where the main sentence being served is for a drugs related offence. Table 1 has been split to provide the age group and gender breakdown of these prisoners.

Tables 2 and 3 give a separate breakdown for males and females by age group and the individual drug related offences for which they have been sentenced. It should be noted that since individual prisoners may have been sentenced for multiple drug offences, the total numbers referred to in Tables 2 and 3 reflect the number of individual offences rather than individual prisoners sentenced.

The Prison Service database does not record information on the number of prisoners in custody for alcohol-related offences.

Table 1: Sentenced prisoners in custody in Northern Ireland on 19 March 2008, where the main sentence being served is for a drugs related offence, broken down by age group and gender

	Age								
	16-20	21-25	26-30	31 -35	36-40	4 -45	46-50	51+	Total
Male	2	3	17	10	9	8	2	5	56
Female	0	0	1	1	0	0	0	0	2

Producing class C controlled drugs			1						1
Supplying class A controlled drugs		2		4	1	1	1	2	11
Supplying class C controlled drugs		1	1	1		1			4
Total	2	13	46	22	23	16	16	14	152

[1] This relates solely to prisoners where the main offence being served is for a drugs related offence.

Table 3: Drug related sentences being served by female prisoners in custody[1] in Northern Ireland on 19 March 2008, broken down by age group

	Age								
	16-20	*21-25*	*26-30*	*31-35*	*36-40*	*41-45*	*46-50*	*51+*	*Total*
Importing controlled drugs			1						1
Possession of class A controlled drug with intent to supply				1					1
Total			1	1					2

[1] This relates solely to prisoners where the main offence being served is for a drugs related offence.

Foreign Workers

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what estimate he has made of the number of migrant workers in Northern Ireland; and how many employers have been *(a)* cautioned and *(b)* prosecuted for paying migrant workers less than the minimum wage since its introduction. [192354]

Paul Goggins: Following restoration of the Northern Ireland Assembly on 8 May 2007, employment matters have been the responsibility of the devolved administration. I therefore do not hold statistics on the number of migrant workers in Northern Ireland.

However, enforcement throughout the UK of the national minimum wage is the responsibility of HM Revenue and Customs on behalf of the Department for Business, Enterprise and Regulatory Reform.

The number of employers in Northern Ireland who have been found to have underpaid workers since 1 April 2001 is set out in the following table. It is not possible to identify how many of these relate to migrant workers, and this information could be provided only at disproportionate expense.

Number of employers in Northern Ireland found to have been underpaying the national minimum wage

2001-02	244
2002-03	213
2003-04	218
2000-05	204
2005-06	170
2006-07	140
2007-08	118

Ipsos Mori

Mr. Pickles: To ask the Secretary of State for Northern Ireland what payments his Department and its agencies have made to Ipsos MORI in the last 24 months; and for what purposes. [194309]

Mr. Woodward: The Northern Ireland Office and its agencies did not make any payments to Ipos MORI in the last 24 months.

Motor Vehicles: Theft

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many (a) vehicles were stolen and (b) persons were convicted of vehicle theft in North Belfast District Command Unit in each of the last five years. [194757]

Paul Goggins: Table 1 sets out the number of vehicles stolen in North Belfast District Command Unit in each of the last five years.

Table 2 sets out the number of persons with an address in North Belfast District Command Unit prosecuted and convicted of vehicle theft in each of the last five calendar years, 2006 being the latest available.

Table 1

	Number of vehicles stolen
2002-03	882
2003-04	568
2004-05	498
2005-06	344
2006-07	347

Source: Central Statistics Unit, PSNI

Table 2

	Prosecutions	*Convictions*
2002	25	23
2003	43	36
2004	41	31
2005	23	22
2006	33	27

PSNI data on numbers of arrests is not directly comparable with statistics on conviction, as the offence recorded initially may differ from that which is used in court.

OLYMPICS

Olympic Games 2012: Environment Protection

Mr. Jim Cunningham: To ask the Minister for the Olympics what recent steps the Government have taken to minimise the undesirable effects on the environment of the 2012 Olympics. [196887]

Tessa Jowell *[holding answer 26 March 2008]:* In the London 2012 Sustainability Plan, "Towards a One Planet Olympics", published in November 2007, the Olympic Board sets out how it intends to achieve a sustainable games for each of the build, staging and legacy phases. For example, the design of the Olympic Park will minimise water use, carbon emissions and the impacts of climate change.

This year, the ODA will publish a Biodiversity Action Plan which will consider key issues including minimising and mitigating the impact of 2012 development activity, creating new habitats and protecting sensitive species.

Olympic Games 2012: Gun Sports

Andrew Mackinlay: To ask the Minister for the Olympics whether 2012 Olympic competitions which involve handguns will be staged in Northern Ireland; and if she will make a statement. [196361]

Tessa Jowell *[holding answer 25 March 2008]:* Following consultation, the Royal Artillery Barracks at Woolwich in London was selected as the venue for all the shooting events at the games. The advantage of this venue is that it is close to the Olympic Park and Village, which will improve the athlete and spectator experience by limiting travel and making it easier to attend other games events on the same day in the Olympic Park.

Andrew Mackinlay: To ask the Minister for the Olympics what consideration she has given to the location of *(a)* training facilities and *(b)* competitions for handgun shooting as part of the 2012 Olympics; whether primary legislation is required to facilitate handgun (i) training and (ii) competition in preparation for and as part of the 2012 Olympics; and if she will make a statement. [196362]

Tessa Jowell *[holding answer 25 March 2008]:* Following consultation, the Royal Artillery Barracks at Woolwich in London was selected as the competition venue for all the shooting events at the games.

The London Organising Committee's Pre-Games Training Guide to be published at the Beijing Games identifies a number of high-quality shooting facilities throughout the United Kingdom where air pistol target shooting can be undertaken.

There is no need for primary legislation. It has already been agreed in principle to use the existing powers in section 5 of the Firearms Act 1968 to allow a small number of potential Olympic pistol shooters to practise on Ministry of Defence ranges in Great Britain ahead of the London Olympics. The same powers will be used to enable pistol-shooting disciplines to form part of the games.

Olympic Games 2012: Training

Mr. Hoban: To ask the Minister for the Olympics pursuant to the Answer to the hon. Member for Henley of 10 December 2007, *Official Report*, column 47W, on Olympic Games 2012: Training, when the National Construction Skills Academy project on the Olympic Park will be established; and when she expects the first apprentice to qualify from the project. [195900]

Tessa Jowell: The ODA was granted the status of National Skills Academy for Construction (NSAfC) in November 2007 and the Plant Training Centre, which is part of the NSAfC, opened at the end of December 2007. The academy was formally launched with the ODA's Employment and Skills Strategy on 19 February 2008.

To date 57 people have passed the theory and practical test at the Plant Training Centre. Each of these now needs to complete further training in employment to consolidate their full NVQ level 2 qualification. It is expected that this will be completed by September this year for the earlier graduates from the centre.

Details of the level 3 (electricians) apprenticeships are still being finalised with the relevant Skills Council. The first group of adult apprenticeships is expected to start in September 2008. These people, who are already at level 2, will take a further two years in college and in employment training to qualify, and will complete in autumn 2010. The first group of 16 to 24-year-old apprentices are also due to start in September 2008 on full four-year apprenticeships ending in autumn 2012.

Mr. Hoban: To ask the Minister for the Olympics pursuant to the answer of 7 February 2008, *Official Report*, column 1298W, on Olympic Games 2012: Expenditure, what the *(a)* cost and *(b)* purpose of each of the 19 projects is. [195915]

Tessa Jowell: The Olympic Delivery Authority (ODA) requires approval for expenditure on projects valued at over £20 million and projects that are novel or contentious regardless of value. Gross cost estimates (including VAT) are provided below for nine of the 19 projects approved to date.

	£ million
Olympic Stadium	496
Logistics	337
Enabling Works	364
Stratford Regional Station	119
Contribution to North London Line	110
Contribution to DLR Upgrade	86
ODA Insurance Programme	50
Thornton's Field Relocation	47
Contribution to Prescott Channel Control Structure	5

Details of cost estimates for the ODA delivery partner, CLM, will be included in the next ODA annual report, scheduled for publication in summer 2008.

As the remaining approved projects are in contract negotiation or subject to statutory process, cost information remains commercially sensitive at the present time.

Harry Cohen: To ask the Minister for the Olympics what percentage of training the Olympic Delivery Authority plans to offer to young people in London in construction will be to *(a)* NVQ level 2 and *(b)* NVQ level 3. [196372]

Tessa Jowell: Around 2,000 trainees are expected to be on the Olympic site over the period of construction and between 85 per cent. and 90 per cent. of these (1,700 to 1,800) are likely to be NVQ level 2. The exact number of trainees and apprenticeships will be agreed by the National Skills Academy for Construction Partnership Board as part of the ongoing process of establishing the training plan.

The ODA strategy is focused on getting people into work and then on to the first level of training. The initial forecasts of the skill requirements for the Olympic site indicate that the requirement will be mainly civil engineering and construction skills rather than the traditional building craft skills.

Accordingly, it is currently expected that the vast majority of the trainee places will be NVQ level 2 and a minority at level 3. In addition there will be a significant proportion of level 3 trainees/apprenticeships on the Olympic Village.

TRANSPORT

Departmental Advertising

Mr. Hoban: To ask the Secretary of State for Transport which of her Department's initiatives and those of its predecessors have been advertised to the public in each of the last 10 years; and what the cost of each such campaign was. [192234]

Jim Fitzpatrick: Expenditure for the Department's advertising campaigns from the 2002-03 fiscal year, when the Department for Transport was formed, is in the following table.

The majority of campaign advertising investment by the Department is in support of the "THINK!" road safety and the "Act on CO2" campaigns. Major advertising investment by Executive Agencies has been by the Driver and Vehicle Licensing Agency, to explain changes to the car tax rules.

Following departmental reorganisations, providing total expenditure figures for prior to 2002-03 fiscal year would involve disproportionate costs.

Department	*Campaign*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*
DfT	THINK! (£ million)	9.5	10.3	8.75	11.57	9.2
	Transport Direct (£000)			240	865	405
	Act on CO2 (£ million)					3.59
DVLA	Sale of Marks (£ million)	2.032	2.149	2.534	2.335	3.006
	VED Enforcement* (£ million)	2.921	8.630	5.961	4.165	5.596
	Accelerated Issue of Harmonised Registration Certificate (£ million)			1.424	1.211	
	Mandatory V5 (log book) (£ million)	3.755	1.144			
	Others (£000)	695	1,886	1,026	677	799

Department	Campaign	2002-03	2003-04	2004-05	2005-06	2006-07
HA	Introduction of Traffic Officer Service (£000)				330	
MCA	Dial 999 for the Coastguard (£000)	8.5	8.5	9.1	15.5	9.9
VGA	n/a					
VOSA	n/a					
DSA	Passplus/other advertising (£000)	Nil	76	32	15	148

Departmental Data Protection

Mr. Weir: To ask the Secretary of State for Transport whether confidential or personal information has been compromised through the loss of property from her Department since 1997. [193440]

Jim Fitzpatrick: Other than in exceptional cases, when it is in the public interest, it has been the policy of successive Governments not to comment on breaches of security. However, following the publication of the Data Handling Procedures in Government: Interim Progress Report on 17 December 2007, *Official Report*, column 98WS, all Departments will cover information assurance issues in their annual reports.

Departmental Pay

Mr. Hoban: To ask the Secretary of State for Transport what the hourly rates of pay of all non-permanent staff working for her Department and its agencies were in each of the last 12 months; and how many staff were receiving each rate in each of those months. [196446]

Jim Fitzpatrick: The information requested can be provided only at disproportionate cost.

Departmental Pensions

Mr. Drew: To ask the Secretary of State for Transport when the trade unions representing staff in her Department requested the health and standard rules in respect of Principal Civil Service Pension Scheme ill-health benefits to be changed; what her Department's response was; and when this response was made. [190928]

Jim Fitzpatrick: The trade unions wrote to the Department of Transport on 23 May 2007. Unfortunately, a formal response was not sent until 20 March 2008 owing to an oversight. Changes to the pension scheme rules relating to ill-health benefits were applied in the Department in 2007.

Departmental Responsibilities

Susan Kramer: To ask the Secretary of State for Transport what *(a)* reviews, *(b)* consultation and *(c)* taskforces the Department is (i) responsible for and (ii) scheduled to undertake; on what date each such initiative that is under way (A) started and (B) is expected to be completed; and what the purpose is of each. [171481]

Jim Fitzpatrick: The Department for Transport undertakes extensive engagement with a wide range of stakeholders.

The readily available information relating to ad hoc reviews, groups and taskforces is summarised as follows:

Reviews

Forthcoming: Road Safety Strategy after 2010

Started: Early 2008

Completed: Mid 2009

Purpose: Development of new road safety strategy after 2010.

The Department is currently contributing to the cross-government review on data security announced by the Prime Minister on the 21 November 2007.

Groups

Eddington Friends

Started: May 2005

Completed: Contract due to cease December 2008 (possibility of extension).

Purpose: Quarterly meeting of academics, original purpose was to advice on progress of the Eddington Study. Since completion of the study have been considering other analytical issues.

Access to Air Travel working Group

Started: June 2007

Completion: July 2008

Purpose: Informal group of industry representatives to review the code of practice "Access to Air Travel for Disabled People".

Compliance Stakeholder Group

Started: 28 May 2004

Completion: Ongoing

Purpose: The CSG seeks to involve stakeholders in the work being undertaken by the SSDL Group to develop a programme of measures aimed at improving the compliance of all drivers and vehicles and reducing vehicle related crime.

Road Safety Advisory Panel

Started: July 2000

Completed: Ongoing

Purpose: Advises on casualty reduction targets to be delivered in 2010. Representation on it will be reviewed every three years. Group membership is more akin to an internal committee than an external body.

Aviation Fuel Task Group

Started: June 2007

Completion: Ongoing

Purpose: A joint Government industry group, jointly chaired by DfT and BERR, looking at strategic short, medium and long term fuel demand and supply issues.

External Advisory Group

Started: September 2004

Completion: Ongoing

Purpose: Chaired by the Department for Transport's Director of Airports Strategy, made up of representatives from industry (airports, airlines, freight carriers), environmental organisations and other interest groups.

The role of the BAG is to maintain a formal channel of communication between the DfT and key external stakeholders on airport-related issues. EAG meetings provide an opportunity for all members to share information and exchange views as part of the Air Transport White Paper implementation programme.

Disruptive Passenger Working Group

Started: November 1998

Completion: Ongoing

Purpose: To advise Ministers on measures to minimise the frequency and potential impact of disruptive behaviour on board aircraft. The Group, chaired by the Department includes participants from the Civil Aviation Authority (CAA), the Association of Chief Police Officers, the British Air Transport Association, the UK Flight Safety Committee, the Board of Airline Representatives in the UK, and the Crown Prosecution Service (CPS).

A key action from the Group was establishing a standardised reporting scheme to monitor incidents of unruly behaviour on board UK aircraft and to assess what action was required to address such behaviour. This information is collated by the CAA and published on the Department website. Latest statistics will be published on 6 December 2007. Previous statistics can be viewed at:

http://www.dft.gov.uk/pgr/aviation/hci/db/disruptivebehaviouronboarduk1056

Aviation Health Working Group

Started: March 2001

Completion: Ongoing

Purpose: Set up in response to the House of Lords Select Committee Inquiry into Air Travel and Health, and provides a forum at which Government and industry stakeholders discuss and advice Ministers on aviation health issues. The Group meets quarterly and includes a smaller Research-Sub Group which meets when required. Membership includes OGDs, CAA, interested industry representatives. The Group invites presentations from other parties as necessary. The Group's mission statement agreed in 2001 is to:

Provide a forum for interested Government Departments and Agencies to consider issues relevant to aviation health;

Provide an interface with the air transport industry, health experts and other interested parties on aviation health issues of mutual interest;

Evaluate the need for research into issues related to air travel and health, and consider the role of Government in supporting such research;

Ensure Ministers are kept informed and receive comprehensive advice on aviation health matters;

Monitor developments that impinge on the health of those travelling by air."

Minutes of meetings are placed on the DfT website at:

http://www.dft.gov.uk/pgr/aviation/hci/ahwg/minutes/

Maritime Statistics Advisory Group

Started: 23 October 2007

Completion: Ongoing

Purpose: Standing group to advise DfT on maritime statistics development.

Concessionary Fares Working Group

Started: 2005

Completion: Ongoing

Purpose: Comprises local authority and operator representatives and provides advice on the implementation of the statutory bus concession.

Low Carbon Fuels Partnership

Started: January 2003

Completion: Ongoing

Purpose: The Low Carbon Vehicle Partnership was established in 2003 with the mission of accelerating a sustainable shift to low carbon vehicles and fuels in the UK and thereby stimulating opportunities for the UK. The Partnership aims to achieve this mission by: facilitating membership initiatives; providing policy support to Government Departments and others; and undertaking research to improve understanding.

Consultations

Information on consultations is published on the 10 Downing Street website at:

www.pm.gov.uk

All current DfT consultations can be found on the website at:

http://www.dft.gov.uk/consultations/open/

Information on DfT Agencies and NDPBs can be found at:

http://www.dft.gov.uk/about/how/ndpb/departmentfortransportannual1024

Departmental Written Questions

Mike Penning: To ask the Secretary of State for Transport how many written questions to her Department had not received an answer as at 25 February 2008 for *(a)* between two and four, *(b)* between four and six, *(c)* between six and eight and *(d)* more than eight weeks; and how many in each category were tabled for named day answer. [193402]

Jim Fitzpatrick: Information in the format requested by the hon. Member could be provided only at disproportionate cost.

However, from 6 November 2007, a total of 1,494 written questions were tabled to the Department for Transport for written answer on or before 25 February 2008.

Of these, 346 were named day questions and 208 were answered on the due date. At 11 March, three named day questions from the period remain unanswered by the Department.

Discrimination

David T.C. Davies: To ask the Secretary of State for Transport how many claims for discrimination, based on *(a)* sex, *(b)* race and *(c)* sexual orientation, were brought by members of her Department and settled (i) in and (ii) out of court in each of the last five years. [194989]

Jim Fitzpatrick: The information requested is in the following table. The DfT response has been summarised into a total over the past five full calendar years to protect individuals' identities.

Last five (full calendar) years	Number of cases	Settled in court	Settled out of court
Sex	5	1	4
Race	5	1	4
Sexual orientation	Less than 5	n/a	n/a

Driver and Vehicle Licensing Agency: Data Protection

Mr. Hancock: To ask the Secretary of State for Transport if she will take steps to prevent the Driver and Vehicle Licensing Agency from passing drivers' personal details to commercial third parties without permission in any circumstances; and if she will make a statement. [196780]

Jim Fitzpatrick: Information held on the DVLA's driver register is only released to commercial companies with the explicit consent of the data subject. Data is only released on the Car Hire Line (0906 139 3837) if the driver is present and verbally confirms consent, or has already telephoned and left permission that has been recorded on the driver's record. There are no plans to change this position.

Vehicle keeper information is released from the DVLA's vehicle register where there is a statutory requirement to do so. This includes anyone who can demonstrate a 'reasonable cause' for requesting that information.

Driving Standards Agency: Data Protection

Lembit Öpik: To ask the Secretary of State for Transport what mechanisms have been put in place to prevent future data losses by the Driving Standards Agency; and if she will make a statement. [180498]

Jim Fitzpatrick: I refer the hon. Member to the statement of 17 December 2007, *Official Report*, columns 626-6, by my right hon. Friend the Secretary of State on measures to improve the security of personal data.

The following measures have been put in place to prevent future data losses by the Driving Standards Agency and its contractors:

Following identification of the loss in Iowa, immediate measures were introduced to secure bulk transfers of data through use of point to point delivery or secure courier where appropriate.

A review of all transfers of data was instigated. This is due to be completed shortly.

Reminders of current procedures (where still appropriate) and new instructions concerning handling of data were communicated to all Driving Standards Agency staff in the form of email, and messages on the Agency's intranet.

The data, held by NCS Pearson for the purpose of the backup of DSA data, and referred to in the Secretary of State's statement of 17 December 2007, are now transferred electronically rather than on hard disc.

Further, additional security measures such as CCTV and reduced staff access have been instigated at NCS Pearson's premises in Iowa, USA.

A data protection audit is currently in progress. This covers assessment of all Pearson's data handling and storage procedures, including the use of primary and secondary back-ups to ensure that all the design, procedural and process safeguards are in place.

Heathrow Airport: Carbon Emissions

Mrs. Villiers: To ask the Secretary of State for Transport what assessment she has made of the impact of her proposal for Heathrow expansion on each of the Government's emissions reduction objectives. [194001]

Jim Fitzpatrick: Emissions from international aviation do not currently score as UK emissions. The Climate Change Bill includes provisions which would enable Ministers to include international aviation emissions in UK totals in the event of developments in international carbon reporting practices for the sector.

The UK is continuing to press for the inclusion of aviation in the EU Emissions Trading Scheme (EU ETS). As the Heathrow consultation document states, under current proposals aviation emissions would effectively be capped at the average level over the period 2004 to 2006. This means that when the trading scheme is established, any additional aviation emissions above that level would lead to no increase in total emissions, since airlines would have to pay for the equivalent emissions reductions in other sectors.

Motorcycles: Licensing

Bill Wiggin: To ask the Secretary of State for Transport how many multi-purpose test centres will be required for the implementation of the second European driving licence directive for motorcycles; how many are currently in operation; and if she will make a statement. [196707]

Jim Fitzpatrick: The second European driving licence directive EC 2000/56 gives member states some discretion on how to implement the directive. Following ministerial approval, the Driving Standards Agency plans to deliver the new motorcycling test from a national network of around 60 multi-purpose test centres. Currently 17 centres are operational.

Road Accidents

Mr. Graham Stuart: To ask the Secretary of State for Transport how many road accidents were recorded in each region in each of the last five years; how many of these resulted in (*a*) fatalities and (*b*) injuries; and if she will make a statement. [197434]

Jim Fitzpatrick: The numbers of reported personal injury road accidents in each region by severity from 2002 to 2006 are given in the table.

Number of accidents

	2002		2003		2004		2005		2006	
Region	Fatal	Injury[1]	Fatal	Injury[1]	Fatal	Injury[1]	Fatal	Injury[1]	Fatal	Injury[1]
North East	117	8,163	123	8,222	119	7,994	98	7,640	104	7,222
North West	306	27,616	371	26,462	303	26,201	326	25,121	298	23,172

Number of accidents

Region	2002		2003		2004		2005		2006	
	Fatal	*Injury*[1]	*Fatal*	*Injury*[1]	*Fatal*	*Injury*[1]	*Fatal*	*Injury*[1]	*Fatal*	*Injury*[1]
Yorkshire and the Humber	294	20,037	296	19,591	288	18,488	276	16,947	278	16,655
East Midlands	324	15,579	335	15,191	269	14,931	270	14,550	299	13,789

[1] Serious or slight injury accident

Speed Limits

Mrs. Maria Miller: To ask the Secretary of State for Transport what recent representations she has received on the maximum speed limit for *(a)* a single carriageway road and *(b)* a dual carriageway road which has been permanently constricted to a single carriageway for a set distance. [196175]

Jim Fitzpatrick *[holding answer 25 March 2008]:* The Department has, from time to time, received representations from interested parties requesting information on the maximum speed limit for dual carriageways, including dual carriageways constricted to a single carriageway.

The maximum speed limit for cars on a single carriageway road is 60 mph. The maximum speed limit for cars on a dual carriageway is 70 mph.

If a dual carriageway is constricted to a single carriageway, the speed limit will be reduced from 70 mph to 60 mph, unless signs indicate otherwise.

If a dual carriageway is reduced to a single lane of traffic in each direction, the 70 mph speed limit will still apply unless signs indicate otherwise.

TREASURY

Census

Dr. Kumar: To ask the Chancellor of the Exchequer what information will be collected as part of the 2011 national census; and if he will make a statement. [195676]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 27 March 2008:

I am replying as National Statistician and Registrar General for England and Wales to your recent question asking the Chancellor of the Exchequer what information will be collected in the 2011 Census.

The question development and testing programme is not yet complete and decisions about the information to be collected in the 2011 Census in England and Wales have not yet been made.

A White Paper setting out the proposals for the 2011 Census is scheduled to be published towards the end of 2008. However it will not be possible to confirm what questions and response categories are to be included in the 2011 Census until the consultation and question testing programme is complete and formal approval is given by Parliament in 2010.

Childbirth

Mr. Lansley: To ask the Chancellor of the Exchequer how many live births there were in the latest year for which figures are available, broken down by *(a)* region and *(b)* primary care trust area. [195752]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 27 March 2008:

As National Statistician I have been asked to reply to your question about how many live births there were in the latest year for which figures are available, broken down by (a) region and (b) Primary Care Trust area. (195752)

The latest year for which figures are available is 2006. Births are assigned to an area according to the usual residence of the mother at the time of the birth, as stated at registration.

The number of live births in 2006 by (a) region and (b) Primary Care Trust within England, and Local Health Board within Wales are provided in the attached tables.

Live births by area of usual residence of mother, England and Wales, 2006

Area of usual residence of mother (Government office region)	*Live births*
North East	29,184
North West	84,155
Yorkshire and the Humber	62,955

[1] Data provided on 2006 boundaries.

Data Protection

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the Answer of 27 February 2008, *Official Report*, column 1642W, on data protection, what plans HM Revenue and Customs has to appoint further data guardians. [196393]

Jane Kennedy: HMRC continues to keep the role and number of Data Guardians under review. There are currently 38 Data Guardians, reflecting current business demands.

Excise Duties: Beer

Tony Baldry: To ask the Chancellor of the Exchequer how much revenue was received from duty on beer in the last financial year; and how much is expected to be received in the 2008-09 financial year. [196536]

Angela Eagle: Information on the revenue raised from beer is available at the UK Trade Info website. Table 2 shows duty receipts from beer.

http://www.uktradeinfo.com/index.cfm?task=bullbeer

The revenue forecast from beer and cider in 2007-08 and 2008-09 is published in Table C6 of the 2008 Budget Report:

http://www.hm-treasury.gov.uk/budget/budget_08/report/bud_bud08_repindex.cfm

A detailed breakdown of beer and cider is not published.

Members: Correspondence

Mr. Harper: To ask the Chancellor of the Exchequer when he will reply to the letters of 10 December 2007 and 11 February 2008 from the hon. Member for the Forest of Dean on Northern Rock. [196984]

Angela Eagle: I have replied to the hon. Member.

Money Markets

Mr. Laws: To ask the Chancellor of the Exchequer what steps he plans to take to restore stability and liquidity to the UK money market; and if he will make a statement. [196248]

Angela Eagle: The provision of liquidity to the money markets through open market operations is a matter for the Bank of England. The Bank of England has already taken steps to provide liquidity to the money market in increased amounts, at longer maturities and against an enlarged set of collateral. The UK Authorities stand ready to take further steps if necessary.

Northern Rock: Guernsey

Mr. Hands: To ask the Chancellor of the Exchequer what the total deposits are of Northern Rock (Guernsey) Bank. [194577]

Angela Eagle *[holding answer 14 March 2008]:* During this period of temporary public ownership, Northern Rock is managed by its Board at arm's length

from Government on commercial principles. It publishes its audited reports and group accounts on a regular basis in accordance with statutory reporting requirements. The group accounts will provide information about the Northern Rock group, which includes its subsidiary in Guernsey.

Overseas Aid

John Battle: To ask the Chancellor of the Exchequer what assessment he has made of the effect of turbulence in international credit markets on the delivery of overseas development assistance pledges; and if he will make a statement. [196281]

Angela Eagle: The Government are committed to reducing international poverty. We announced in the 2007 comprehensive spending review that DFID's budget would rise from £5.4 billion to £7.9 billion a year in 2010-11. This will enable total UK Overseas Development Assistance (ODA) to reach over £9.1 billion a year by 2010-11. We continue to urge all countries similarly to live up to their commitments, including the promises made at the 2005 Gleneagles summit, and to achieve the millennium development goals. The successful recent replenishments of the World Bank's International Development Association and, of the African Development Fund in 2007, to which the UK pledged £2.134 billion and £417 million respectively over the next three years, will ensure that low-income developing countries will continue to benefit from the concessional finance and expertise of these institutions.

Suicide: Stroud

Mr. Drew: To ask the Chancellor of the Exchequer how many *(a)* males and *(b)* females of each 10 year age cohort committed suicide in Stroud constituency over the last 10 years. [196421]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 27 March 2008:

As National Statistician, I have been asked to reply to your recent question asking how many (a) males and (b) females of each 10 year age cohort committed suicide in Stroud constituency over the last 10 years. (196421)

The table attached provides the number of deaths where suicide was the underlying cause of death, by (a) sex and (b) 10-year age group, in Stroud parliamentary constituency, in the period from 1997 to 2006 (the latest year available).

Table 1: Number of deaths where suicide was the underlying cause of death, Stroud parliamentary constituency[1], by sex and age group[2], 1997-2006[3]

Age-group	Deaths: Male	Deaths: Female
15-24	5	4
25-34	16	4
35-44	20	7
45-54	10	7
55-64	8	3
65-74	4	1
75-84	3	2
85+	6	0
Total	66	28

[1] Suicide was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes E950-E959 and E980-E989, excluding E988.8 for the years 1997 to 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) codes X60-X84 and Y10-Y34, excluding Y33.9 (where the coroner's verdict was pending) for the years 2001 to 2006.

[2] Suicide and undetermined intent deaths have not been included for children under the age of 15 years.

[3] Figures are for deaths registered in the calendar years 1997 to 2006 combined.

Television

Mr. Maude: To ask the Chancellor of the Exchequer how many plasma television screens have been purchased by his Department and its agencies, and at what cost in the last 24 months. [191029]

Angela Eagle: The following plasma screen televisions were purchased in 2005-06 and 2006-07.

	2005-06: Number	2005-06: Cost (£)	2006-07: Number	2006-07: Cost (£)
HM Treasury (inc. Group Shared Services)	2	5,398	4	6,515
OGC bs	1	3,133		
HM Revenue and Customs			1	582
National and Investments	5	11,649		
Office for National Statistics	1	623		

WALES

Departmental Domestic Visits

Mr. Willis: To ask the Secretary of State for Wales what visits he made to *(a)* Harrogate International Centre, *(b)* International Conference Centre, Birmingham, *(c)* Manchester Central, *(d)* Scottish Exhibitional and Conference Centre, Glasgow, *(e)* Edinburgh International Conference Centre, *(f)* Bournemouth International Conference Centre, *(g)* the Brighton Centre, Brighton, *(h)* the Riviera Centre, Torquay, *(i)* Queen Elizabeth Centre, London, *(j)* Excel Conference Centre, Docklands, London, and *(k)* Business Design Centre, Islington, London, in the period 1 January 2005 to 31 December 2007; and what events he attended at each. [197150]

Mr. Paul Murphy: Neither myself nor my predecessor have visited any of the listed venues in a Wales Office ministerial capacity between 1 January 2005 and 31 December 2007.

Departmental Training

Mr. Philip Hammond: To ask the Secretary of State for Wales how many staff in his Department attended the *(a)* Influencing with Integrity, *(b)* Emotional Intelligence, *(c)* Counselling Skills for the Workplace, *(d)* Managing your Confidence, *(e)* Balancing Work/Life Realities and *(f)* Working Assertively training course run by the National School of Government in the last 12 months for which information is available; and at what cost. [197071]

Mr. Paul Murphy: None

Legislative Competence

Mr. Dai Davies: To ask the Secretary of State for Wales if he will consider conducting a review of the effectiveness of legislative competence orders. [196157]

Mr. Paul Murphy: The UK Government are working closely with the Welsh Assembly Government to deliver the new legislative arrangements for Wales set down in the Government of Wales Act 2006. I keep these arrangements under constant review and will continue to do so.

National Assembly for Wales

Mr. Dai Davies: To ask the Secretary of State for Wales if he will make it his policy to announce planned forthcoming meetings between Ministers in his Department and Ministers in the Welsh Assembly Government. [196159]

Mr. Paul Murphy: I can confirm that I meet or speak with the First Minister on a weekly basis. The Parliamentary-under-Secretary of State and I also meet regularly with all Ministers in the Welsh Assembly Government.

Rackspace

Mr. Hands: To ask the Secretary of State for Wales what the value was of each contract awarded to Rackspace by his Department in each of the last nine years. [197519]

Mr. Paul Murphy: Nil

WOMEN AND EQUALITY

Government Equalities Office: Publicity

Mr. Hoban: To ask the Minister for Women and Equality what Government Equalities Office initiatives have been advertised to the public; and at what cost since the Office was established. [192467]

Barbara Follett: The Government Equalities Office is not a public service delivery department and so has not advertised initiatives to the public.

WORK AND PENSIONS

Children: Poverty

Mr. Meacher: To ask the Secretary of State for Work and Pensions how many children were living in households with income below 60 per cent. of the median after housing costs in each year since 1979; and how many are projected to be in this category in each of the next five years. [195723]

Mr. Timms *[holding answer 20 March 2008]:* The Government are fully committed to their targets to halve child poverty by 2010 and to eradicate it by 2020.

Information on the number of children living in households with less than 60 per cent. of contemporary median household income after housing costs in each year from 1979 to 2005-06 is given in the following table.

Number of children living in households with less than 60 per cent. of contemporary median household income for available years (after housing costs)

	Million
Family Expenditure Survey (UK)	
1979	2.1
1981	2.9
1987	3.4
1988-89	3.5
1990-91	4.0
1991-92	4.2
1992-93	4.4
1993-95	4.4
1994-96	4.5
1995-97	4.8
Family Resources Survey (GB)	
1994-95	4.1
1995-96	4.2
1996-97	4.3
1997-98	4.2
Family Resources Survey (UK)	
1998-99	4.4
1999-2000	4.3
2000-01	4.1
2001-02	4.0
2002-03	3.9
2003-04	3.7
2004-05	3.6
2005-06	3.8

Notes:
1. Family Expenditure Survey figures are for the United Kingdom. Family Resources Survey figures are for Great Britain up to 1997-98, and for the United Kingdom from 1998-99 onwards, with estimates for Northern Ireland imputed for the years 1998-99 through to 2001-02.
2. The reference period for Family Resources Survey figures is single financial years. Family Expenditure Survey figures correspond to single calendar years for 1979, 1981 and 1987, two combined calendar years from 1988-89 to 1992-93, and two financial years combined for 1993-95 to 1995-97.
3. The income measures used to derive the estimates shown employ the same methodology as the Department for Work and Pensions publication 'Households Below Average Income' series, which uses disposable household income, equivalised for household size and composition, as a proxy for standard of living. This uses the OECD equivalence scale for all years in the series.
4. The median income of the survey year in question has been used, namely the contemporary median, instead of using a fixed median for a particular year.
5. For after housing costs, housing costs (such as rent, water rates, mortgage interest payments, structural insurance payments and ground rent and service charges) are deducted from income.
6. Amounts in the tables have been presented in millions, rounded to the nearest 100,000 children.

We do not have any projections of the number of children in low income households on an after housing costs basis in each of the next five years.

A projection of the number of children in relative low income, on a before housing costs basis, made using the Department for Work and Pensions' microsimulation model, is outlined in the Marker Review (Delivering on Child Poverty: What Would It Take? DWP November 2006). This is available in the Library. It is important to note that there are many uncertainties around such projections and they should be treated as wide estimates.

There have been further policies announced since the Review was published. Progress in reducing the number of children is Policies announced in Budget 2007, the pre Budget report and Budget 2008 will help lift over 500,000 more children out of poverty from 2010-11 than otherwise on a before housing cost basis. In addition, the Government have announced further measures to improve parental employment since that projection was made.

Civil Service Appeal Board

Mr. Hoban: To ask the Secretary of State for Work and Pensions how many and what percentage of appeals by employees of (*a*) his Department and (*b*) its agencies were (i) heard and (ii) upheld by the Civil Service Appeal Board in each of the last 10 years; how much was awarded in compensation by the Board to each successful appellant in each year; what the reason was for each compensation award; how many appellants were reinstated by the Board in each year; and what the reason was for each (A) dismissal and (B) reinstatement. [192507]

Mrs. McGuire: The Department for Work and Pensions does not collate a central record of data in respect of appeals to the Civil Service Appeal Board.

Copies of the outcome of the board's decision are informed to departmental officials dealing with the case on an individual basis. The cost of trying to extract this information from individual clerical records for the period requested would be at a disproportionate cost.

Statistics on appeals heard for each of the last 10 years can be found in Appendix 2 of the Civil Service Appeal Board's annual reports. These are available on the Board's website at:

http://www.civilserviceappealboard.gov.uk

Copies are also available in the Library of the House.

Departmental Labour Turnover

Jim Cousins: To ask the Secretary of State for Work and Pensions what estimate he has made of the turnover rate of staff in (*a*) his Department and (*b*) each of its agencies in each year since 2004-05. [195386]

Mrs. McGuire: The percentage turnover of staff in the Department for Work and Pensions and its agencies for each year ending 31 March since 2004-05 is in the following table.

Percentage

	Turnover 12 months ending		
	31 March 2007	*31 March 2006*	*31 March 2005*
DWP Overall	6.37	7.11	7.65
Jobcentre Plus	6.12	6.69	6.65
The Pension Service	7.46	8.68	11
Child Support Agency	8.79	8.70	11.45
Disability and Carers Service	4.62	5.89	5.66
The Rent Service	5.87	8.28	9.66
Appeals Service	n/a	9.48	10.66
Departmental Corporate Units	5.13	6.76	6.69

Note:
The Appeals Service transferred to the Department for Constitutional Affairs on 1 April 2006.

Departmental Public Expenditure

Danny Alexander: To ask the Secretary of State for Work and Pensions pursuant to the answer of 9 January 2008, *Official Report*, column 570W, on departmental public expenditure, whether HM Treasury has agreed to treat savings in annual managed expenditure arising from other programmes in the same way. [193937]

Mrs. McGuire: In Budget 2008 the Government announced their intention to explore using a new funding mechanism to reward private and voluntary sector specialist providers for investing in helping long-term incapacity benefit claimants to return to work. Detailed proposals will be announced in due course.

Departmental Video Conferencing

Norman Baker: To ask the Secretary of State for Work and Pensions if he will set a target to increase the use of video-conferencing by his Department to reduce the need to travel to meetings. [195883]

Mrs. McGuire: The Department for Work and Pensions has in excess of 250 video-conferencing systems located throughout its office network. As part of an initiative to reduce business travel, there is an existing programme, established in November 2007, to improve video-conferencing facilities as well as the number of systems deployed. This programme is supported by numerous communication events to heighten awareness of managers and staff. The Department is tracking usage of both video and audio conferencing facilities but has not set arbitrary targets. An additional conferencing tool will also be provided later in 2008 and this is expected to help provide further options to conduct more business from home offices and as a consequence reduce the amount of business travel.

Discrimination: Special Educational Needs

Mr. McGovern: To ask the Secretary of State for Work and Pensions how many cases have *(a)* been brought under the Special Educational Needs and Disability Discrimination Act 2001 and *(b)* been ruled unlawful confirming that less favourable treatment has taken place; and how many of these cases have been brought against universities. [176803]

Bridget Prentice: I have been asked to reply.

The number of claims of disability discrimination made in England and Wales dealt with by special educational needs (SEN) and disability tribunals are detailed in the following table.

Claims and outcomes at SENDIST from 2002-07

	Claims	*Decided*	*Upheld*	*Dismissed*
2002-03	79	14	3	11
2003-04	83	71	23	48
2004-05	78	56	22	34
2005-06	128	57	21	36
2006-07	119	85	36	49
2007-dec	60	30	16	14

None of the claims in the table includes cases against universities, which are not covered by SENDIST special educational needs and disability tribunal jurisdiction.

Higher education institutions such as universities are independent autonomous organisations who are responsible for ensuring that their policies and practices fully comply with disability discrimination legislation. The Department for Innovation, Universities and Skills does not hold any information centrally on the number of cases brought against universities in respect of this legislation.

In Scotland, claims of unlawful disability discrimination in relation to school education are brought as civil proceedings in the sheriff court. Such data is not held centrally and could only be obtained at disproportionate cost.

Universities in respect of this legislation.

In Scotland, claims of unlawful disability discrimination in relation to school education are brought as civil proceedings in the sheriff court. Such data is not held centrally and could only be obtained at disproportionate cost.

Drinking Water

Mr. Spellar: To ask the Secretary of State for Work and Pensions how much his Department spent on bottled water in the latest period for which figures are available. [189751]

Mrs. McGuire: The Department for Work and Pensions currently has a single contract to supply DWP offices with water coolers and associated services and equipment. Bottled water may also be provided for business meetings but is sourced from a variety of contracts and is not accounted for separately.

From April 2006 to March 2007, DWP spent £880,546 on bottled water. So far this year, from April 2007 to January 2008, DWP has spent £746,983. These costs include the provision of cups and sanitisation of the installed water coolers in addition to the bottled water itself.

DWP is committed to phase out the use of bottled water for all business meetings and replace it with tap water. We are aiming to have this process in place by the summer of 2008.

Income Support: Lone Parents

Chris Grayling: To ask the Secretary of State for Work and Pensions how many households in which the first child is now older than 11 years have made a continuous claim for income support for lone parents since 1997. [185861]

Mr. Timms: Information on whether people have claimed continuously as lone parents could be obtained only at disproportionate cost.

Jobcentre Plus: Closures

Mr. Hands: To ask the Secretary of State for Work and Pensions what the reasons are for the proposed closure of the Jobcentre Plus office in Shepherds Bush; and if he will make a statement. [194332]

Mr. Timms: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 27 March 2008:

The Secretary of State has asked me to reply to your question about the reasons for the proposed closure of the Jobcentre Plus office in Shepherds Bush. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Jobcentre Plus needs to constantly look at how it delivers its business to ensure that it is making best use of resources to deliver Jobcentre Plus services.

We are near to completing the rollout of the Jobcentre Plus Network and are therefore reviewing how we deliver services to customers. The investment in new technology and increased availability of Contact Centre facilities mean that increasing numbers of customers, including employers, access services via telephone and e-channels, such as the internet. This has changed the work of Jobcentres and we need to adapt to meet these changes. At the same time, we need to make best use of the

resources available to us, and to provide value for money to the taxpayers, especially given the high cost of the London estate.

The Jobcentre Plus London network was planned some time ago on the original business model and customer base. With the current business model we need significantly less office space than we currently occupy and we can deliver a more effective and efficient service by consolidating our operations in a smaller number of large sites.

A consultation exercise on the proposed closure of Shepherds Bush Jobcentre is in progress. The views of local stakeholders will be taken into account and no decisions will be made until the Minister has seen the outcome of the consultation. Customers in the area will still be able to access a face to face Jobcentre Plus service at Acton and Hammersmith Jobcentres.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Work and Pensions when he will answer the letter to his predecessor of 14 January 2008 from the right hon. Member for Manchester Gorton with regard to Timothy Gordon. [195387]

Mrs. McGuire: I can confirm that a response to this letter was issued to the right hon. Member on 13 March 2008.

Sir Gerald Kaufman: To ask the Secretary of State for Work and Pensions when he will answer the letter of 1 February 2008 from the right hon. Member for Manchester Gorton with regard to Ms Claudette Murphy. [195389]

Mrs. McGuire: I can confirm that a response to this letter was issued to the right hon. Member on 19 February 2008.

New Deal Schemes: Lancashire

Rosie Cooper: To ask the Secretary of State for Work and Pensions how many of those participants who have taken part in *(a)* the new deal for young people, *(b)* new deal 25 plus, *(c)* new deal 50 plus, *(d)* new deal for lone parents, *(e)* new deal for disabled people, *(f)* new deal for parents in West Lancashire constituency have (i) entered employment and (ii) entered sustainable employment. [194833]

Mr. Timms: The available information is in the following table.

New deal in Lancashire West

Programme	*Individual starts*	*Of which: into employment*	*Of which: into sustained employment*
New deal for young people	2,220	1,550	1,330
New deal 25 plus	1,060	400	320
New deal 50 plus	140	[1]100	—
New deal for lone parents	1,610	1,160	690
New deal for disabled people	460	250	—
New deal for partners	20	10	

[1] Information in the table for new deal 50 plus is from January 2004 when data for starts to the programme first became available. The total number of people who have been helped into work through new deal 50 plus since April 2000 in West Lancashire is 370.

Notes:

1. Information on sustained jobs for new deal for disabled people is not available at parliamentary constituency level.
2. A definition of sustainability is not available for new deal 50 plus and new deal for partners.
3. A job obtained through new deal for young people and new deal 25 plus is defined as sustained if no return to jobseeker's allowance is made within 13 weeks of a person leaving these new deals. For new deal for lone parents, a sustained job is a job recorded as lasting at least 13 weeks as measured through the Work and Pensions longitudinal study.
4. Information at parliamentary constituency level for new deal for partners is only available from April 2004.
5. Starts and jobs data in the table for all new deals is to may 2007 to provide comparative starts and jobs data. Data for starts is available to August 2007 and data for jobs to May 2007.
6. Programme start dates are: New deal for young people: January 1998; New deal 25 plus: July 1998; New deal for lone parents: October 1998; New deal for partners: April 1999; New deal 50 plus: April 2000; New deal for disabled people: July 2001.
7. Data is rounded to the nearest 10.

Source:
DWP Information Directorate

Rosie Cooper: To ask the Secretary of State for Work and Pensions how many participants have taken part in *(a)* the new deal for young people, *(b)* new deal 25 plus, *(c)* new deal 50 plus, *(d)* new deal for lone parents, *(e)* new deal for disabled people and *(f)* new deal for parents in West Lancashire constituency in each month since inception. [194834]

Mr. Timms: The available information has been placed in the Library.

Pension Credit

Danny Alexander: To ask the Secretary of State for Work and Pensions how many and what proportion of claimants who were underpaid pension credit in 2006-07 have now received their full entitlement for that year. [194669]

Mr. Mike O'Brien: The information requested is not available.

Unemployment

Chris Grayling: To ask the Secretary of State for Work and Pensions what proportion of children lived in workless households in each year since 1997. [185865]

Mr. Plaskitt: Since 1997, the proportion of children living in workless households has fallen from 18.7 per cent to 16 per cent. in Quarter 2 of 2007. This is a reduction of over 405,000.

The information requested is shown in the following table.

Proportion of children living in workless households in each year since 1997 (Great Britain)

	Percentage
Quarter 2	
1997	18.7
1998	[1]18.5
1999	17.8
2000	[1]16.4
2001	16.2
2002	16.7
2003	16.1
2004	15.9
2005	15.7
2006	15.6
2007	16.0

[1] There is no available calendar data for Q2 1998 and Q2 2000. This is because the figures for those years, published by the ONS, were erroneous and have been retracted while under review. For these two years, spring data has been inserted in the table above, although it is important to note that the spring data is not directly comparable with Q2 data.

Notes:

1. Definition of the proportion of children living in a working-age workless household is the percentage of children aged under 16 in a working-age household where no adult works. A working-age household is a household that includes at least one person of working age (a woman aged between 16 and 59 or a man aged between 16 and 64). Workless individuals are those who are either International Labour Organisation unemployed or economically inactive (that is, not in employment).
2. Quarter 2 is April to June.
3. The data provided differs from the data on children in workless households published by the ONS for Great Britain: the data provided has been adjusted by DWP for households with unknown economic activity, while the ONS published data for Great Britain is unadjusted.
4. The DWP adjusted data for GB is used in measuring progress towards reducing the number of children in workless households to help inform the delivery of the child poverty PSA. The data has been previously published in a chart on page 19 of the 2007 DWP Autumn Performance Report.

Source:

DWP estimate using Labour Force Survey

Wikipedia

Mr. Stephen O'Brien: To ask the Secretary of State for Work and Pensions pursuant to the Answer of 6 March 2008, *Official Report*, columns 2806-7W, on Wikipedia, how many Wikipedia entries have been *(a)* created and *(b)* amended from IP addresses from the central pool. [195349]

Mrs. McGuire: The Department of Work and Pensions does not have a policy of regularly monitoring updates made to Wikipedia from DWP IP internet protocol addresses. Therefore the Department would not as a matter of course determine Wikipedia entries that have been created or amended. The cost of obtaining and analysing such data could be obtained only at disproportionate cost.

COMMUNITIES AND LOCAL GOVERNMENT

Community Development

Mr. Rob Wilson: To ask the Secretary of State for Communities and Local Government what discussions her Department has had with the *(a)* Department for Innovation, Universities and Skills and *(b)* higher education sector on community cohesion issues. [196693]

Mr. Dhanda: The Department has worked closely with the Department for Innovation, Universities and Skills (DIUS) on community cohesion issues, particularly: on the citizens' juries to examine provision of English for speakers of other languages (ESOL) held in London and Hull in December 2007; and the DIUS stakeholder steering group established to discuss community cohesion, and tackling extremism throughout post-16 education, which includes bodies from both the further education and higher education sectors.

Construction: Inspections

Mr. Jim Cunningham: To ask the Secretary of State for Communities and Local Government what plans she has to revise inspection processes affecting the construction industry. [196524]

Mr. Iain Wright: The Future of Building Control consultation launched on 18 March puts forward plans to modernise the inspection regime for those seeking building control approval and also sets the expectation that planning and building control departments should work closely together to provide a seamless service to the customer.

The Government are consulting on the following changes that will have a direct impact on the current inspection regime applied to building projects.

Removing statutory notification stages which will stop builders having to make unnecessary calls to building control and will require local authorities to take a more risk-based approach to their work which will stop unnecessary inspections.

Limiting the use of building notices to ensure local authorities have more up-front information at the start of the project in order for them to direct their limited time and resources at high-risk projects, thus allowing a lighter-touch regime for good builders and low risk projects that are likely to comply.

Continuing to encourage other ways for builders to show compliance in addition to the traditional inspection route—specifically expanding and improving the Competent Persons schemes (self-certification by registered installers).

Raising awareness among the construction industry by providing new guidance to make it easier to meet the regulations and to better understand how the system works.

The consultation closes on 10 June.

Discrimination

David T.C. Davies: To ask the Secretary of State for Communities and Local Government how many claims for discrimination, based on *(a)* sex, *(b)* race and *(c)* sexual orientation, were brought by members of her Department and its predecessors and settled (i) in and (ii) out of court in each of the last five years. [194976]

Mr. Dhanda: Since the formation of our predecessor Department, the Office of the Deputy Prime Minister, there has been a total of seven such claims, each of which was settled outside employment tribunal.

We cannot further disaggregate this information because of the risk of identifying individuals.

Eco-Towns: West Sussex

Mr. Gibb: To ask the Secretary of State for Communities and Local Government (1) whether her Department invited Wates construction company to submit an application for a proposed eco-town at Ford in West Sussex; [193508]

(2) what discussions she has had with Wates construction company on the proposed eco-town at Ford in West Sussex; and on what dates she has held meetings with Wates for that purpose since 1 January 2005. [193509]

Caroline Flint: No developers have been invited directly by the Department to submit an application for a proposed eco-town.

The Secretary of State has held no discussions or meetings with Wates Construction Co. since 1 January 2005.

Festivals and Special Occasions

Ms Butler: To ask the Secretary of State for Communities and Local Government what steps her Department is taking to mark Saint George's day on 23 April 2008. [194440]

Mr. Dhanda: The Department for Culture, Media and Sport issue the guidance for flying flags on Government buildings. This includes recommending flying the St. George's flag on St. George's day on 23 April on buildings with two or more flag poles, provided it is flown alongside the Union flag with the Union flag in the superior position.

Two of CLG's HQ buildings, Eland House and Ashdown House, have a second flag pole, and the St. George's flag will be flown on these to celebrate St. George's day.

The Secretary of State has also written to the Local Government Association urging them to encourage all local authorities to think about how they might mark St. George's day in their own area.

Fire Safety: Construction Methods

Mr. Betts: To ask the Secretary of State for Communities and Local Government what assessment she has made of the adequacy of the LPS1181 standard in ensuring the fire safety of public buildings, with particular reference to the use of cladding panes in combustible foam plastic insulation. [196764]

Mr. Iain Wright: LPS1181 is a loss prevention standard used primarily by the insurance industry. This standard provides a method for assessing the fire performance of cladding systems with respect to potential economic loss in the event of a fire.

Current statutory provisions and supporting standards for fire protection in buildings are made only for the purposes of securing the health and safety of people in and around buildings, not to reduce economic loss. No such assessment, therefore, has been made.

Higher Education

Mr. Rob Wilson: To ask the Secretary of State for Communities and Local Government what progress the task force on studentification has made; and which higher education sector bodies have been involved in the taskforce. [196712]

Mr. Iain Wright: We have commissioned researchers to undertake a short evidence-gathering exercise to identify a range of planning and non-planning measures that could help to create and maintain balance in areas of high student population. The researchers will present the emerging findings of this work to invited participants at a seminar on 9 April. We have invited representatives of local planning authorities, residents groups, the national HMO—houses in multiple occupation—lobby, universities, landlords, and interested charities to the seminar. Their contribution will assist in formulating the way forward on this issue. The Department for Innovation, Universities and Skills will also be represented. External bodies invited to participate in the seminar include Universities UK, the Guild of Higher Education, Unipol, the College and University Business Officers and individual universities.

Housing: Planning

Janet Anderson: To ask the Secretary of State for Communities and Local Government what guidance she issues to local authorities on the management of annual quotas of planning applications for residential development. [196688]

Mr. Iain Wright: 'Planning Policy Statement 3 Housing' (PPS3) sets out the national planning framework for delivering the Government's objectives for high quality housing in suitable locations which will contribute to the creation of mixed and sustainable communities. PPS3 asks local authorities to identify specific, suitable sites in their plans, including a rolling five year supply of land for housing, to enable them to deliver the housing numbers and brownfield targets allocated to them in regional spatial strategies. These sites should take into account the spatial vision for the local area and objectives set out in the relevant regional spatial strategy, and reflect clear and informed strategies for the location of housing development, and for the infrastructure needed to service it.

The policies in PPS3 should be taken into account by local planning authorities in the preparation of their local development frameworks. They should also be regarded as material considerations in determining planning applications for new housing development which may supercede the policies in existing development plans.

Merseyside Fire and Rescue Service: Standards

Ben Chapman: To ask the Secretary of State for Communities and Local Government what assessment she has made of the recent performance of Merseyside Fire and Rescue Service; and if she will make a statement. [197046]

Mr. Dhanda: The Audit Commission regularly assesses the performance of all fire and rescue authorities.

In 2005's Comprehensive Performance Assessment the Audit Commission assessed Merseyside Fire and Rescue Authority as "Excellent". In January 2008, the Audit Commission published its Performance Assessment for Fire and Rescue Authorities. Merseyside Fire and Rescue was assessed as "Improving Well" in Direction of Travel with the highest score of four for "Use of Resources".

Property Development

Keith Vaz: To ask the Secretary of State for Communities and Local Government what arrangements are in place to ensure building owners provide affected parties with adequate notice of their intentions to build under the Party Wall Act 1996. [189586]

Mr. Iain Wright: This is a civil matter between the relevant parties (the building owner and the adjoining owners). If a building owner starts work without having first given notice in the proper way, adjoining owners may seek to stop the work through a court injunction or seek other legal redress.

The Department publishes an explanatory booklet which sets out the rights and responsibilities of both parties. It also gives information and guidance which individuals may find useful, such as sample letters.

Hard copies of the booklet are available free of charge from Communities Free Literature, PO Box 236, Wetherby, West Yorkshire, LS23 7NB, tel: 0870 1226 236, fax: 0870 1226 237, textphone: 0870 1207 405, e-mail: communities@twoten.com It is also available to download from the Planning Portal at: www.planningportal.gov.uk and from the Department's website at: www.communities.gov.uk/partywall-1996

Public Lavatories

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what estimate her Department has made of the change in the number of municipal public conveniences in the last 10 years. [194822]

Mr. Iain Wright: The provision and maintenance of toilets in public places is at the discretion of local authorities who have, under section 87 of the Public Health Act 1936, a power to provide public conveniences, but no duty to do so. For this reason statistical data on changes in the number of municipal public conveniences is not held by CLG. The Department's Strategic Guide on Improving Public Access to Better Quality Toilets, published on 6 March, includes information showing that a number of public toilets have closed over many years. This was based on figures compiled by the Audit Commission until 2000, and Valuation Office Agency data used for rating commercial and industrial property.

Regional Ministers: Visits

Mrs. May: To ask the Secretary of State for Communities and Local Government how many official visits regional Ministers have made to each constituency in the area for which they are responsible. [192828]

Hazel Blears: Constituencies visited by regional Ministers (in this capacity) are set out as follows. Due to the role of regional Minister, which involves regional or sub-regional meetings, the Minister usually attends a meeting held in that area rather than visiting a constituency per se. The following information is correct up to and including 7 March 2008.

The Minister for the South East

Constituency	*Number of visits*
Aylesbury	1
Buckingham	1
Dover	1
Folkestone and Hythe	1
Gillingham	1
Guildford	1
Hastings	1
Lewes	1
Maidstone and the Weald	1
Mole Valley	1
New Forest West	1
North East Hampshire	1
North West Hampshire	2
Oxford East	1
Portsmouth South	2
Reading East	1
Reading West	2
Thanet South	1
Tonbridge and Malling	1
Wantage	1
Winchester	1

The Minister for the East of England

Constituency	*Number of visits*
Bury St. Edmunds	1
Cambridge	1
Great Yarmouth	1
Ipswich	1
Norwich South	1
Peterborough	2
South Cambridgeshire	4
Stevenage	2
Waveney	2
West Suffolk	2
South East Cambs	3

The Minister for the South West

Constituency	*Number of visits*
Bournemouth East	1
Bournemouth West	1
Bristol North West	1
Bristol West	1
Cheltenham	1
Devon South West	1
Exeter	4

The Minister for the South West

Constituency	Number of visits
Gloucester	1
Plymouth Devonport	2
Poole	1
South East Cornwall	1
Swindon South	1
Taunton	2
Tewkesbury	1
Truro and St. Austell	1
Westbury	1

The Minister for Yorkshire and the Humber

Constituency	Number of visits
Rosie Winterton from 27 January	
Doncaster Central	1
City of York	2
Leeds Central	4
Morley and Rothwell	1
Wakefield	1
Wentworth	1
Bradford West	1
Bradford North	1
Caroline Flint to 2 July 2007 to 26 January 2008	
Barnsley Central	1
Bradford West	1
City of York	1
Don Valley	4
Doncaster Central	2
Doncaster North	1
Hull North	2
Hull West and Hessle	1
Leeds Central	3
Rydale	1
Scarborough and Whitby	1
Wakefield	2

The Minister for the East Midlands

Constituency	Number of visits
Gillian Merron to 26 January 2008	
Lincoln	2
Louth and Horncastle	1
Leicester West	1
Leicester South	1
North West Leicestershire	1
Rushcliffe	1
Sherwood	1
Newark	1
Nottingham East	2
Nottingham South	4
Boston and Skegness	1
Derby South	2
Corby	1
Kettering	1
Northampton South	1
Grantham and Stamford	1
Leicester East	1

The Minister for the East Midlands

Constituency	Number of visits
Phil Hope from 26 January 2008	
Corby	1

The Minister for the North West

Constituency	Number of visits
Blackburn	1
Bolton South East	1
Bootle	1
Burnley	1
Ellesmere Port and Neston	1
Fylde	1
Knowsley South	1
Liverpool Riverside	3
Liverpool Walton	1
Liverpool West Derby	1
Manchester Central	5
Penrith and The Border	1
Preston	3
Salford	3
St. Helens North	1
Warrington South	1
Westmorland and Lonsdale	1

Note:
Some of the regional Minister for the North West's meetings have taken place in her office base at Government office for the north-west, situated in the Manchester Central constituency.

The Minister for London

Constituency	Number of visits
Cities of London and Westminster	7
Croydon Central	1
Hammersmith and Fulham	1
Hendon	1
Hornsey and Wood Green	1
North Southwark and Bermondsey	2
West Ham	1

The Minister for the West Midlands

Constituency	Number of visits
Birmingham Ladywood	4
Birmingham Northfield	1
Bromyard	1
Coventry North East	1
Coventry South	1
Ludlow	1
Newcastle-under-Lyme	1
North Warwickshire	3
Stoke on Trent Central	2
Stratford on Avon	1
Telford	2
West Bromwich East	1
West Worcestershire	1
Wolverhampton South East	2

The Minister for the North East

In carrying out his duties as Minister for the North East Nick Brown has paid visits to the following constituencies at least once:

Wansbeck
City of Durham

Newcastle Central
Stockton North
Stockton South
Newcastle Upon Tyne North
Sunderland North
Sunderland South
Tyne Bridge
Newcastle East and Wallsend
Redcar
Easington
Blaydon
Jarrow
Middlesbrough
North Tyneside
Houghton and Washington East
Blyth Valley
North Durham
Hexham

Wind Power: Northumberland

Mr. Beith: To ask the Secretary of State for Communities and Local Government on what grounds she is reviewing her earlier decision not to call in the Moorsyde wind farm application in Northumberland; and if she will place in the Library copies of any new information which she is considering in this review. [196345]

John Healey *[holding answer 25 March 2008]:* My right hon. Friend, the Secretary of State, is reviewing her decision on 12 December 2006 not to intervene in the planning application by Moorsyde Wind Farm Ltd for a wind farm at Felkington, because new information has become available and because the scale of the application has also changed materially since the decision. The Secretary of State wishes to satisfy herself that her decision remains soundly based in the light of this information.

I have deposited a copy of the Climate Change Supplement to the Government's Planning Policy Statement 1 (PPS1), a report called: 'Wind Farm Development and Landscape Capacity Studies: South and West Berwick-upon-Tweed', commissioned for the North East Assembly, Northumberland county council and Berwick-upon-Tweed borough council, and the borough council officers' report to elected members on the application.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan: Foreign Relations

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of bilateral relations with Afghanistan. [196389]

Dr. Howells: The UK remains committed to the long term reconstruction and development of Afghanistan. Good progress has been made. My right hon. Friend the Foreign Secretary and US Secretary of State, Condoleezza Rice, visited Afghanistan on 7 February 2008. This long-planned visit reaffirmed the strong relationship both the UK and US have with Afghanistan.

Afghanistan: Public Appointments

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs how many candidatures for the role of UN Secretary General's Special Representative in Afghanistan his officials have discussed with the UN. [196390]

Dr. Howells: The UK is committed to supporting the UN's role in Afghanistan, led by the Special Representative of the Secretary-General. The appointment of the Special Representative is a matter for the UN Secretary-General. We were aware that various candidates had been suggested for the post and offered our views on these when asked by the UN. We warmly welcome the appointment of Kai Eide and look forward to working closely with him as he undertakes the vital role of co-ordinating the efforts of the international community in Afghanistan.

Burma: Sanctions

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what criteria were used in deciding to establish EU sanctions against Burmese companies. [195835]

Meg Munn: The EU Common Position on Burma dates back to 1996 and imposes restrictive measures on members of the military regime, the military and security forces, the military regime's economic interests and other individuals, groups, undertakings or entities associated with the military regime who formulate, implement or benefit from policies that impede Burma's transition to democracy, and their families and associates.

In November 2007, the EU strengthened the Common Position to add further state economic enterprises to the investment ban extant on Burmese state owned enterprises. Further restrictive measures include a ban on trade and investment in the timber, gemstones and other extractive industries, which provide a source of revenue for the military regime, including companies trading in these commodities.

In drawing up these measures, the aim of the EU is to target those closely associated with the regime and to minimise the impact on ordinary Burmese citizens.

China: Olympic Games

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government plan to take if there is political violence in China when the 2008 Olympics take place. [196181]

Meg Munn: Our embassy in Beijing has a country contingency plan which will be implemented in the event of a crisis which endangers British nationals, and those we have consular responsibility for in China, during the 2008 Olympics.

Commonwealth Scholarship Commission: Finance

Ms Keeble: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he had with the (*a*) Commonwealth Scholarship Commission and (*b*) others before deciding to end his Department's funding for new awards with effect from 2009-10. [195627]

Mr. Jim Murphy: The 2006 review of Chevening scholarships was based on broad consultations with a range of stakeholders, including other Government Departments and outside organisations. Officials have been in regular, close contact with the Commonwealth Scholarship Commission. My right hon. Friend the Foreign Secretary had no discussions himself with the Commonwealth Scholarship Commission.

Ms Keeble: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with (*a*) UK universities and (*b*) universities in Commonwealth countries on the effect that the withdrawal of his Department's support for Commonwealth scholarships will have on the ability of Commonwealth students to attend UK universities. [195765]

Mr. Jim Murphy: My right hon. Friend the Foreign Secretary has had no such discussions, but officials have regular contact with UK universities. The Foreign and Commonwealth Office is withdrawing funding for Commonwealth scholarships only for developed Commonwealth countries. Overall, Government funding for Commonwealth scholarships will be higher in each of the next three years than it is in the current academic year. Students from developed Commonwealth countries are still eligible for Chevening scholarships; and a large number of students from developed Commonwealth countries study in the UK funded from other sources.

Cuba: Foreign Relations

Dr. Kumar: To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's policy is on relations with Cuba following the resignation of Fidel Castro. [195672]

Meg Munn: There is no change in UK policy following the resignation of Fidel Castro. UK policy continues to be based on the EU Common Position, as it has been since 1996, and aims to encourage a peaceful transition to pluralist democracy, greater respect for human rights and fundamental freedoms, and release of all political prisoners.

Departmental Complaints

Mr. Hands: To ask the Secretary of State for Foreign and Commonwealth Affairs what the budget for his Department's grievances and counter-narrative team was in each year since it was established; how much the team spent on external consultants in each year; how many (*a*) full-time and (*b*) part-time staff work in the team; and when the team was established. [195635]

Dr. Howells *[holding answer 20 March 2008]*: The grievances and counter-narrative team was established in December 2007 following the restructuring of the Foreign and Commonwealth Office's Counter Terrorism Department.

The team has not completed its first year so no figures for annual expenditure yet exist. The number of people working in the team varies, but has not dropped below six full-time staff. It has not hired any external consultants.

Departmental Official Visits

David Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost was of overnight accommodation for (*a*) civil servants, (*b*) special advisers and (*c*) Ministers in his Department staying overnight in (i) mainland Great Britain, (ii) Northern Ireland, (iii) the Republic of Ireland and (iv) other countries in the last 12 months. [193530]

Meg Munn: Both in the UK and overseas, staff are paid subsistence to compensate for the additional costs of being away from home on official duty. Subsistence covers the cost of a room in a typical hotel and the costs of meals and other incidentals. Each post has a different daily subsistence rate depending on different economic conditions. Depending on local circumstances, Posts will normally book and pay for any hotel rooms direct, charging this back to the departmental cost centre for the member of staff involved. Our policy is to use standard hotels in the city concerned, typically non-luxury business hotels reasonably close to the Post.

In the UK, there is no automatic entitlement to subsistence. Where this does apply, staff can claim actual costs for bed and breakfast in inner London up to a maximum of £120 per night, elsewhere in the UK £80 per night.

Current electronic data in the UK show that the Foreign and Commonwealth Office spent the following on hotel accommodation between 1 March 2007 and 29 February 2008:

UK: £64,616.11

Overseas: £861,862.92

However, this information is subject to the following caveats:

the figures shown are only those where total expenditure has been paid; and

the figures provided are only those held electronically in the UK. Posts overseas may also have paid individually for accommodation during this period, but our systems are not able to separate out the sums spent by overseas posts on overnight accommodation from other travel expenses.

There is no centrally held record of the cost of overnight accommodation for Ministers or special advisers over the last 12 months. To collate this information would therefore incur disproportionate cost.

Departmental Publications

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs when he plans to publish a White Paper on the new strategic framework for the Foreign and Commonwealth Office. [196255]

David Miliband: The key points of the Foreign and Commonwealth Office's (FCO) new strategic framework were set out in my written ministerial statement of 23 January 2008, *Official Report*, columns 52-53WS. Additionally, I wrote to all hon. Members and Peers, enclosing a leaflet titled 'Better World, Better Britain', with further information about the strategic framework. Further details will be available on the FCO website at

www.fco.gov.uk

from 28 March 2008 and in the forthcoming FCO departmental report.

Iran: Elections

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Iran on its decision to prevent reformist candidates from standing in the recent elections. [195715]

Dr. Howells: The UK strongly supports the EU presidency statement of 15 March 2008 which said that the recent parliamentary elections in Iran were 'neither free nor fair' and that 'the Iranian people deserve a genuine democratic choice about their country's future'. We were deeply disappointed that Iran's Interior Ministry and Guardian Council disqualified over a third of all prospective candidates who registered to stand, including a large propoftion of reformist candidates. This denied the Iranian electorate their right to choose from candidates representing the full range of political views in their country and make a genuine democratic choice about how they are governed. We do not wish to take sides in Iran's internal debates, but together with the EU we will continue to stand up for the internationally recognised principles to which many Iranians aspire including freedom of speech and transparent, genuinely democratic and accountable government.

Simon Mann

Dr. Julian Lewis: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 17 March 2008, *Official Report*, columns 865-6W, on Simon Mann, whether an explanation has now been given by the Equatorial Guinean authorities; and what action he intends to take. [196689]

Meg Munn *[holding answer 25 March 2008]:* The Equatorial Guinean authorities have told us that Simon Mann is shackled because they deem him to be a terrorist suspect and therefore a high security risk.

We do not believe this is a reasonable position for the authorities to take and we have been taking a number of welfare points forward with the authorities, including the fact that Mr. Mann is shackled and handcuffed. We will continue to follow these up.

Dr. Julian Lewis: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 28 February 2008, *Official Report*, columns 1822W, on Simon Mann, what action has been taken in following up the specific consular and welfare concerns referred to; and if he will make a statement. [196690]

Meg Munn *[holding answer 25 March 2008]:* We have raised specific consular and welfare concerns regarding Simon Mann with the Equatorial Guinean authorities. Our ambassador to Equatorial Guinea, resident in Abuja, met President Obiang on 6 March and raised Mr. Mann's welfare. We will continue to follow these issues up with the Equatorial Guinea authorities.

Dr. Julian Lewis: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he intends to take in the week beginning 24 March to monitor the *(a)* treatment and *(b)* risk of torture of Mr. Simon Mann in Black Beach Prison, Equatorial Guinea; and what procedures are in place to ensure that any inhumane treatment of this prisoner is brought to his attention. [196716]

Meg Munn *[holding answer 25 March 2008]:* Our consul from the British deputy high commission in Lagos was refused consular access to Simon Mann during his last visit to Equatorial Guinea in March. We have expressed our concern to the Equatorial Guinea authorities and are urgently seeking another consular visit. The authorities have offered assurances that Mr. Mann will be treated well while in detention, but we have made our concerns clear regarding his shackling. His welfare remains our primary concern.

Tibet: Politics and Government

Sarah Teather: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the government of China on the situation in Tibet. [195708]

Meg Munn: We have expressed our concern to the Chinese authorities both in Beijing and London about events in Tibet and the surrounding region. We continue to urge them to respect fully the human rights of those detained; to avoid use of excessive force in dealing with riots; and to respect freedom of expression and religion in Tibet. We also call on the protesters, in Lhasa and elsewhere, to desist from further violence. My right hon. Friend the Prime Minister spoke to Chinese Premier Wen on 19 March urging the Chinese government to address the underlying issues by re-engaging in dialogue with the Dalai Lama and his representatives.

Tibet: Protest

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on Chinese Government actions in relation to Tibetan protesters. [196179]

Meg Munn: Our Embassy in Beijing is sending us daily updates on the situation in Tibet. Chinese authorities have acknowledged the deaths of eighteen people in Lhasa on 14 and 15 March. Unconfirmed reports from non-governmental organisations put the figure higher. We have reports that following disturbances on 14 March, Chinese security forces deployed around Lhasa early on 15 March and continued to deploy in large numbers over the next few days. The Chinese Government has assured us they did

not use lethal force in Lhasa. We have told the Chinese authorities that it is important for the public to have accurate facts and that lifting restrictions on the access of journalists to the region would be in the best interests of China. We continue to urge the Chinese authorities to respect fully the human rights of those detained; to exercise maximum restraint in restoring public order; and to respect freedom of expression and religion in Tibet. We have also called on the protesters, in Lhasa and elsewhere, to desist from further violence.

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government have taken to urge the Chinese Government to show restraint in relation to the recent protests in Lhasa. [196180]

Meg Munn: We have expressed our concern to and have remained in contact with the Chinese authorities both in Beijing and London regarding events in Tibet and the surrounding region. My right hon. Friend the Prime Minister spoke to Chinese Premier Wen on 19 March urging the Chinese Government to address the underlying issues by re-engaging in dialogue without preconditions with the Dalai Lama and his representatives. My right hon. Friend the Foreign Secretary also spoke to Chinese Foreign Minister Yang on 21 March, further emphasising the need for dialogue. We continue to urge the Chinese authorities to respect fully the human rights of those detained, to exercise maximum restraint in restoring public order, and to respect freedom of expression and religion in Tibet. We have also called on the protesters, in Lhasa and elsewhere, to desist from further violence.

USA: Defence

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the *(a)* reasons for and *(b)* possible outcome of the US House Appropriations Subcommittee hearings into the US Air Force award of a $40 billion contract to Northrop Grumman and EADS; what discussions (i) he, (ii) members of his Department and (iii) UK representatives in Washington have had with members of the US House of Representatives on the (A) financial and (B) employment implications in the UK of a possible reversal of the US Air Force's decision; and if he will make a statement. [192979]

Malcolm Wicks: I have been asked to reply.

The tanker aircraft to be supplied by Northrop Grumman/EADS under this contract will have 16 per cent. UK content and the financial value of the programme's first tranche of 179 aircraft is estimated to be worth up to $4.6 billion to the UK. We continue to monitor closely the outcome of the competition given its industrial significance to the UK, including the progress of the US House Appropriations Subcommittee hearings.

Written Questions

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will answer Question *(a)* 190947, *(b)* 191153, *(c)* 191154 and *(d)* 191042, on the use of Diego Garcia for rendition flights, tabled on 27 February 2008. [196253]

David Miliband: I replied to the right hon. Member on 18 March 2008 in respect of questions 191042, *Official Report*, column 1031W, 191153, 191154, *Official Report*, column 1034W, and on 20 March 2008 for question 190947, *Official Report*, column 1288W.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will answer question 191151, on negotiations with Iran, tabled on 27 February 2008. [196254]

David Miliband: I replied to the right hon. Member on 18 March 2008.

HEALTH

Alcoholic Drinks: Misuse

Mr. Jim Cunningham: To ask the Secretary of State for Health what recent steps the Government have taken to improve healthcare services for those with alcohol addiction. [196731]

Dawn Primarolo: In 2005 and 2006, we published guidance for local health organisations and their partners, to support delivery and improvement of local programmes for alcohol misuse interventions, 'Alcohol Misuse Interventions: Guidance on developing a local programme of improvement and Models of care for alcohol misusers'.

To test out the best ways to identify and provide advice to people who are drinking more than is good for them, the Department has commissioned a programme of trailblazers to pilot identification and brief advice that is under way in general practitioner (GP) practices, accident and emergency departments and in probation departments, in 57 locations.

We have put in place a new national health service indicator to measure the change in the rate of hospital admissions for alcohol related harm from April 2008 the first ever national commitment to monitor how the NHS is tackling alcohol health harms.

This indicator is expected to encourage primary care trusts (PCTs) to invest in earlier identification of people who drink too much, linked to advice and support from GPs or other health care staff – shown to be the best way of reducing the kind of "everyday" drinking which over time leads to liver disease and other problems, including dependency.

Since 2007-08 we have provided PCTs with an extra £15 million of additional funding to improve alcohol interventions. The National Audit Office will carry out an audit of NHS spend on alcohol interventions and specialist treatment, with a report expected this autumn.

Over the next three years, the Government will be actively supporting the full implementation of the published guidance, 'Substance Misuse in the Undergraduate Medical Curriculum'.

This major development will, over the next 10 years, ensure around 60,000 new doctors leaving medical

training in England will be able to deliver competent practice in both drug and alcohol misuse, including as a crucial priority for implementation the recognition and the management of risky and harmful alcohol consumption.

We have allocated £650,000 in 2008-09 for the developmental work medical schools will need to carry out, to embed such an integrated substance misuse curriculum into core teaching and training programmes.

Ambulances: Accidents

Bob Spink: To ask the Secretary of State for Health how many accidents there were involving ambulances on emergency calls in (*a*) Castle Point constituency and (*b*) Essex in each of the last five years. [196785]

Mr. Bradshaw: Information about the number of accidents involving ambulances on emergency calls is not collected centrally.

The only data collected in relation to ambulance services is the number of emergency calls received by ambulance trusts across England, and their performances against the targets set. This is published annually.

Antidepressants: Misuse

Jim Dobbin: To ask the Secretary of State for Health what steps are being taken to tackle addiction to prescribed selective serotonin reuptake inhibitor antidepressants. [195566]

Dawn Primarolo: There is no conclusive evidence that antidepressants such as selective serotonin reuptake inhibitors (SSRIs) are addictive, in that they do not appear to lead to tolerance or dependence-forming, hence the Department has not implemented any policies to deal with this issue.

However, we know that some patients will experience withdrawal reactions on stopping or reducing their use of SSRIs, and in some cases the withdrawal reactions may be severe and disabling.

In 2005, the expert working group of the then Committee on Safety of Medicines (CSM) reported on the safety of SSRIs, which the Department currently regards as definitive. The CSM recommended that no one taking SSRIs should stop this treatment without prior discussion with their prescribing doctor, that SSRI usage should not stop suddenly, and that dosage should be reduced gradually at the end of a course of treatment.

Benzodiazepines: Misuse

Mr. Grogan: To ask the Secretary of State for Health by what means the National Treatment Agency measures outcomes for involuntary benzodiazepine addicts. [194099]

Dawn Primarolo: Activity data is collected by specialist drug treatment services on all clients/addicts in treatment and reported into the National Drug Treatment Monitoring Service (NDTMS). NDTMS collects data including numbers and retention in treatment, and whether clients have completed treatment.

A new outcome monitoring tool, the Treatment Outcomes Profile (TOP), will also now be used for all clients in specialist treatment for drug misuse from April 2008. This will record a range of outcome measures which include the amount and range of drugs taken in each of the last four weeks and measures of health and social functioning. Some initial TOP data will be published by May 2008.

The National Treatment Agency (NTA) provides a range of support guidance to Drug Action Teams and to treatment providers. Most recently the NTA and the Department published "Drug misuse and dependence: UK guidelines on clinical management" (2007), which includes a detailed section on the management of benzodiazepines. The NTA also oversee the NDTMS and TOPs databases.

Care Homes: Fees and Charges

Julia Goldsworthy: To ask the Secretary of State for Health whether he has made a recent estimate of the appropriate savings threshold above which the elderly should have to pay for their own care in nursing homes; and if he will consider a review of this threshold. [180843]

Mr. Ivan Lewis: The capital limit above which care home residents are assessed as being able to fund their own care is set out in the National Assistance (Assessment of Resources) Regulations 1992. The capital limit is uprated annually in line with the increase in average earnings. The capital limit was uprated to £21,500 from April 2007. The Department will shortly be announcing the uprated capital limit to apply from April 2008.

However, in the 2007 pre-Budget report and comprehensive spending review, the Chancellor of the Exchequer (Alistair Darling) announced a Green Paper to set out options for the reform of the current care and support system.

The Department has asked the Commission for Social Care Inspection to undertake a review of the eligibility criteria. They will report in autumn 2008.

Childbirth

Mr. Spring: To ask the Secretary of State for Health how many births per whole-time equivalent NHS midwife there were at (*a*) West Suffolk, (*b*) Addenbrookes and (*c*) Ipswich hospitals in each of the last five years. [179188]

Mr. Ivan Lewis: Information is not available in the format requested.

Dental Services

Mr. Jim Cunningham: To ask the Secretary of State for Health what recent steps the Government have taken to improve accessibility of NHS dentistry treatment. [196732]

Ann Keen: The Department has made increasing the number of patients seen within national health service dental services a formal priority in the NHS Operating Framework for 2008-09. We have supported this with a very substantial 11 per cent., uplift in overall dental funding allocations to primary care trusts from 1 April 2008.

Departmental Manpower

Mr. Hoban: To ask the Secretary of State for Health how many (*a*) staff and (*b*) full-time equivalent staff under 18 years are employed by his Department. [189079]

Mr. Bradshaw: No staff under the age of 18 are employed by the Department in either a full-time or part-time capacity.

Departmental Pensions

David Simpson: To ask the Secretary of State for Health how many and what percentage of staff in his Department were making additional voluntary contributions to their pensions in each of the last two years. [193564]

Mr. Bradshaw: In February 2007, 13 members of staff in the Department (0.6 per cent. of the total number of staff employed by the Department) were making additional voluntary pension contributions through deductions from their pay. The same number and proportion of members of staff (again, 0.6 per cent.) were making additional voluntary pension contributions in February 2008.

Departmental Surveys

Mark Simmonds: To ask the Secretary of State for Health what costs his Department incurred in (*a*) designing, printing and distributing and (*b*) analysing the results of the Ipsos MORI GP Patient Survey on Hospital Choice. [195369]

Mr. Bradshaw: In 2007-08, we expect the total costs for all elements of the 'general practitioner patient survey' to cost approximately £10 million. This includes costs to conduct both the access and choice components of the Survey. It is not possible to give a more detailed breakdown as this would require disclosure of commercially sensitive information provided by our suppliers. In 2006-07, the total costs incurred by the Department for the same survey was £9,586,520.

Drugs: Rehabilitation

Tony Baldry: To ask the Secretary of State for Health what funds have been made available to Oxfordshire Primary Care Trust to further the Government's 2008 drug strategy Tackling drugs, changing lives. [196535]

Dawn Primarolo: Since 2001, the Department of Health and the Home Office have provided specific resources for drug treatment in the form of the pooled drug treatment budget (PTB), which is allocated to drug action teams across the country. This is used along with local mainstream funding, to provide treatment and services according to specific local needs. The allocation for Oxfordshire from the PTB for 2008-09 is £3,763,816.

Folic Acid: Flour

Mr. Todd: To ask the Secretary of State for Health (1) what plans the Food Standards Agency has in relation to their proposals for the mandatory fortification of flour with folic acid; what matters relating to the proposals are under consideration by the Agency; over what timescale he expects the Agency to proceed with their proposals; with whom the Agency will consult on the proposals; and how he plans to consult the natural health products industry on the likely (*a*) financial and (*b*) health effects of the proposals; [196082]

(2) what recent representations he has received from (*a*) manufacturers and (*b*) retailers of food supplements on the proposed introduction of limits on the levels of folic acid permitted in such products as a result of the proposals of the Food Standards Agency (FSA) for the mandatory fortification of flour with folate; and whether the FSA plans to undertake further modelling of the implications of its proposals. [196085]

Dawn Primarolo: In June 2007, the Food Standards Agency (FSA) recommended mandatory fortification with folic acid of bread or flour alongside controls on voluntary fortification and guidance on supplement use to United Kingdom Health Ministers. In October 2007, the Chief Medical Officer (CMO) wrote to the FSA to request a further expert view of the evidence on folic acid and colorectal cancer (CRC) risk.

On the basis of expert advice FSA have advised the CMO that they will defer agreeing their final advice on CRC risk until the results of ongoing trials are available in early 2009.

In the meantime, FSA officials will continue their discussions with industry about controls on voluntary fortification in food and caps on the levels of folic acid in supplements as there are 106,000 people in the UK exceeding the upper limit for folic acid from dietary and supplement sources. It is therefore important to control voluntary fortification and intake through supplements to ensure there is no further increase in these numbers.

The FSA has received representations from the trade associations of food supplements manufacturers and retailers regarding proposed controls on folic acid containing food supplements, capping folic acid at 200 micrograms. Information has been provided to the FSA on the types of products on the market containing folic acid and the recommended daily dosage. The FSA will undertake further modelling and the results will be discussed with the supplements industry.

General Practitioners

Mr. Lansley: To ask the Secretary of State for Health whether a decision has been taken on the locations of the 150 general practitioner-led health centres to be introduced in each primary care trust. [195746]

Mr. Bradshaw: Primary care trusts are currently talking to local stakeholders, including clinicians and patients, to determine the locations of these services based on local health need. It is unlikely that exact locations will be decided upon until the outcomes of local consultations have been considered.

Health Services: Voluntary Organisations

Mark Simmonds: To ask the Secretary of State for Health what proportion of contracts awarded to third sector organisations that provide services in *(a)* Lincolnshire and *(b)* England are three-year contracts. [193318]

Mr. Ivan Lewis: Information on the proportion of three year contracts awarded to third sector providers is not collected centrally. However, the Department fully supports the expectation that Government Departments pass on the certainty of longer-term funding, where appropriate, to the third sector organisations that they and their agencies fund.

The Office of the Third Sector has proposed a staged approach to implementing three-year funding. The Department will work between now and 31 October 2008, to establish the arrangements needed to ensure reporting in 2009 on the proportion of funding arrangements between primary care trusts (PCTs) and third sector organisations that allow for three year funding, that does not impose unnecessary burdens on PCTs.

The 2008-09 NHS Operating Framework included the message that PCTs should not feel prevented from entering into three year agreements with local partners including small and medium enterprises and the third sector that establish practical measures to maximise their capacity to deliver health and well-being outcomes.

Incontinence: Medical Equipment

Andrew Rosindell: To ask the Secretary of State for Health how many people are prescribed *(a)* stoma and *(b)* other incontinence products as part of their treatment in the London borough of Havering. [196667]

Dawn Primarolo: Information about the number of people who are prescribed stoma and other incontinence products as part of their treatment is not held centrally. The following table shows the number of appliances prescribed by general practitioners (GPs), nurses, pharmacists and other non-medical prescribers working in Havering Primary Care Trust (PCT) area that were dispensed in 2007.

	Number
Stoma Appliances	9,892
Incontinence Appliances	5,860

Notes

1. This information was obtained from the Prescribing Analysis and Cost Tool (PACT) system, which covers prescriptions by GPs, nurses, pharmacists and others in England that are dispensed in the community in the United Kingdom.
2. For data at PCT level, prescriptions written by a prescriber located in a particular PCT but dispensed outside that PCT will be included in the PCT in which the prescriber is based.
3. Prescriptions written in England but dispensed outside England are included.
4. Prescriptions written in hospitals /clinics that are dispensed in the community, prescriptions dispensed in hospitals and private prescriptions are not included in PACT data. It is important to note this as items from some sections of the British National Formulary have a high proportion of prescriptions written in hospitals that are dispensed in the community.

Medicines: Guernsey

Mr. Todd: To ask the Secretary of State for Health (1) what assessment the Medicines and Healthcare Products Regulatory Agency has made of whether the draft Medicines (Human and Veterinary) (Bailiwick of Guernsey) Law 2008 conforms with the medicines legislation of the European Union; [196083]

(2) what information he has on the proposed timetable for the government of Guernsey to bring forward secondary legislation and enforcement measures to implement the proposed Medicines (Human and Veterinary) (Bailiwick of Guernsey) Law 2008; and if he will make a statement. [196084]

Dawn Primarolo: The Medicines and Healthcare products Regulatory Agency (MHRA) has reviewed the draft Medicines (Human and Veterinary) (Bailiwick of Guernsey) Law 2008 in respect of human medicinal products and believes that it is not consistent with the Medicines Directive 2001/83/EC. The MHRA is already working with the Government of Guernsey to identify where Guernsey will need to introduce additional legislation and to agree a timetable for this.

Mental Health Services: Finance

Jenny Willott: To ask the Secretary of State for Health (1) what funding is allocated for the provision of mental healthcare treatment for offenders *(a)* in custody and *(b)* serving community sentences in 2007-08, broken down by funding source; and if he will make a statement; [196131]

(2) how much has been spent on providing mental healthcare treatment for offenders *(a)* in custody and *(b)* serving community sentences in each of the last 10 years; and if he will make a statement. [196140]

Mr. Ivan Lewis: The information is not held in the format requested. For offenders in custody, in England the total amount allocated specifically to primary care trusts for national health service mental health services in prisons was £1,719,000 in 2001-02, £3,685,000 in 2002-03, £9,400,000 in 2003-04 and £20,000,000 for each year since 2005-06. Information is not available before 2001.

For offenders serving community sentences, offenders service community sentences will receive treatment provided by the local mental health care NHS provider, commissioned through the local commissioning primary care trust.

Palliative Care: Children

Bob Spink: To ask the Secretary of State for Health (1) if he will undertake research to compare primary care trusts' effectiveness in inclusion of *(a)* children's palliative care and *(b)* children's hospice services in local development plans; [186167]

(2) what plans he has to monitor the inclusion of children's *(a)* palliative care and *(b)* hospice services in primary care trusts' local development plans. [186168]

Mr. Ivan Lewis: Working with their local partners, including local authorities, primary care trusts (PCTs) are responsible for setting local delivery plans (LDPs). The levels of performance set in the LDPs will be agreed and signed off by the relevant strategic health authority (SHA). In turn, the Department will sign off SHA level plans, ensuring that national performance expectations are formally agreed.

Monitoring of individual LDPs is a role for the relevant SHA.

It is for PCTs to decide how best to resource the priorities set out in the National Health Service Operating Framework for 2008-09.

In section 2 of the operating framework under 'Priorities' it states "disabled children : identifying actions and setting local targets on improving the experience of, and ranges of services for, children with disabilities and complex health needs and their families. This includes significantly increasing the range of short breaks, improving the quality and experience of palliative care services, improving access to therapies and supporting effective transition to adult services".

On 19 February, we launched a first ever national strategy for children's palliative care "Better Care: Better Lives". The Strategy will assist local commissioners, providers and regulators in will devising local strategies to enable every child and young person with a life-limiting or life-threatening condition access to high-quality, family centred, sustainable care and support with services provided in a setting of choice according to the child's and family's wishes. It sets out clear expectations for improving choice, access and continuity of care, and seeks to place palliative care at the centre of local children's service provision.

We also announced an additional £20 million in funding to enable the Children's Hospices and Hospice at Home Grant to continue in 2009-10 and 2010-11 with £10 million available in each year.

Palliative Care: Staffordshire

Mr. Jenkins: To ask the Secretary of State for Health what data is used by commissioners to determine the need for specialist palliative and neurological care in the Tamworth constituency. [195419]

Mr. Ivan Lewis: It is for individual primary care trusts (PCTs), including South Staffordshire PCT, within the national health service to commission services for their resident population, including end of life care and neurological care, based on an assessment of local needs and priorities. Strategic health authorities are responsible for monitoring PCTs to ensure they are effective and efficient.

The NHS operating framework for 2007-08 asked PCTs, working with local authorities, to undertake a baseline review of their end of life care services. These will allow local commissioners to assess current services, identify gaps and obtain a much clearer view of local need, which will inform local commissioning.

Regarding neurological care, the information strategy published alongside the "National Service Framework for Long-term (Neurological) Conditions" outlines commissioners' information requirements and a series of local and national actions designed to meet those needs. A copy of the National Service Framework is available in the Library.

Patients

Mr. Bone: To ask the Secretary of State for Health pursuant to the answer of 17 March 2008, *Official Report*, column 762W, on patients, how many patients were receiving NHS in-patient treatment at *(a)* each date referred to in the answer and *(b)* in 1997; and if he will make a statement. [196394]

Mr. Bradshaw *[holding answer 25 March 2008]*: Figures are not available on the number of patients receiving treatment on a given day. The number of in-patient admissions in each year since 1997 are shown in the following table.

Emergency and elective general and acute (G and A) admissions, England[1]

Thousand

Year[2]	*Total G and A admissions*[3]	*Non-Elective*	*Elective*
1996-97	8,041	3,629	4,413
1997-98	8,261	3,761	4,500
1998-99	8,805	3,882	4,923
1999-2000	8,908	3,920	4,988
2000-01	9,077	3,976	5,101
2001-02	9,131	3,995	5,137
2002-03	9,408	4,041	5,367
2003-04	9,864	4,311	5,553
2004-05	10,204	4,535	5,669
2005-06	10,528	4,732	5,795
2006-07	10,586	4,739	5,847

[1] These figures are for admissions purchased by the national health service ('commissioner-based').
[2] Figures for years prior to 2006-07 have been rebased to allow direct comparison.
[3] G and A specialities do not include mental health, learning difficulties or maternity services.

Health Authority quarterly monitoring, Monthly Monitoring Returns

Prescription Drugs: Misuse

Jim Dobbin: To ask the Secretary of State for Health what steps the National Treatment Agency has taken to improve the availability, capacity and effectiveness of treatment for prescribed drug addicts in England. [192782]

Dawn Primarolo: It is the responsibility of primary care trusts in each area to commission services for individuals who are not illicit drugs users but are dependent on prescribed drugs (such as benzodiazepines).

On the other hand, it is the responsibility of Drug Action Teams (DATs) to commission within their areas specialised treatment for clients who misuse illicit drugs.

The National Treatment Agency (NTA) provide a range of support guidance to DATs and to treatment providers. Most recently the NTA and the Department published "Drug misuse and dependence: UK guidelines on clinical management (2007)", which includes a detailed section on the management of benzodiazepines. NTA also oversee the National Drug Treatment Monitoring Service and Treatment Outcomes Profile databases.

Prescriptions

Mr. Hancock: To ask the Secretary of State for Health (1) how many prescriptions were *(a)* issued and *(b)* dispensed in England in each of the last five years; [195573]

(2) how many people in England *(a)* paid for prescriptions and *(b)* used a prescription pre-payment certificate in each of the last five years. [195574]

Dawn Primarolo: The Department does not hold information on the numbers of prescriptions issued, only the number of prescription items dispensed. This can be found in table one of the Information Centre for health and social care publication, "Prescriptions dispensed in the community. Statistics for 1996 to 2006: England". A copy of this document has been placed in the Library and is also available on the Information Centre's website at:

www.ic.nhs.uk/statistics-and-data-collections/primary-care/prescriptions/prescriptions-dispensed-in-the-community-1996-2006-[ns]

Similarly, we do not hold information on the number of people paying prescription charges, only on numbers of prescription items attracting a prescription charge, either at the point of dispensing or by a prescription prepayment certificate. This information can also be found in table two of the "Prescriptions dispensed in the community. Statistics for 1996 to 2006: England".

Prescriptions for Ativan/Lorazepam

Jim Dobbin: To ask the Secretary of State for Health how many prescriptions were issued for ativan/lorazepam in each year since 2000. [196705]

Dawn Primarolo: The Department does not hold information on prescriptions issued, only on prescription items that are dispensed. The following table gives the total number of items dispensed for all formulations of lorazepam, including ativan injection.

Prescription items dispensed in the community in England (000)

	Lorazepam
2000	715.0
2001	731.4
2002	744.2
2003	761.0
2004	790.6
2005	805.2
2006	839.1

Source:
Prescription Cost Analysis

Prescriptions: Information and Communications Technology

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many and what percentage of primary care settings where prescribing and dispensing take place which are not GP practices, community pharmacies or dispensing appliance contractors were *(a)* technically live on and *(b)* using the Electronic Prescriptions Service system in each month since the system's inception. [195403]

Mr. Bradshaw: The initial scope for the electronic prescription service includes general practitioner (GP) practices, including dispensing GP practices, community pharmacies and dispensing appliance contractors. Therefore, no electronic prescription messages have been generated or received in alternative locations where prescribing and dispensing takes place.

Social Services

Mr. Lansley: To ask the Secretary of State for Health what percentage of people have taken up the option of direct payments for social care in each local authority area in England. [188179]

Mr. Ivan Lewis: The percentage of people who have taken up the option of direct payments is not available centrally.

Data is collected on the number of clients receiving direct payments and is available via the Referrals, Assessments and Packages of Care report which is published by the Information Centre for Health and Social Care. The most recently available data is for 2005-06 a copy of which has been placed in the Library. This data shows there has been an increase of over 50 per cent. in the uptake of direct payments since 2004-05.

Tranquillisers: Misuse

Jim Dobbin: To ask the Secretary of State for Health (1) what statistics are recorded on the incidence of addiction to prescribed tranquillisers; [195565]

(2) what steps were taken to address tranquilliser addiction in England in each year from 1999 to 2006. [195562]

Dawn Primarolo: Information about the incidence of addiction to prescribed tranquilisers is not collected centrally. Decisions about which tranquiliser addiction treatments have been provided between 1999 and 2006 have been made locally by each primary care trust, not by the Department, which does not hold this information.

Prevention, effective treatment and legal controls are all important in reducing the number of people who become addicted to prescribed tranquilisers like benzodiazepine. The main focus of the Department's

action has been to warn general practitioners, other prescribers and users of the potential side-effects and dangers of benzodiazepines and to try and prevent addiction/dependence occurring in the first place.

Transsexuality: Surgery

Mark Pritchard: To ask the Secretary of State for Health how many gender reassignment operations were carried out by NHS trusts between January 2007 and January 2008; and at what cost. [196798]

Mr. Ivan Lewis: The information requested is not yet held by the Department.

However, the amount of transgender procedures carried out in the national health service in previous years, from 2002 to 2006, are shown in the following table.

	Male to Female	*Female to Male*
2002-03	79	2
2003-04	83	1
2004-05	99	0
2005-06	97	4

Note:
Data for 2006-07 and 2007-08 is not yet available.
Source:
Hospital Episode Statistics data.

Vegetarianism: Research

Stephen Hesford: To ask the Secretary of State for Health what research he has evaluated on the effect of vegetarianism on well-being. [195620]

Dawn Primarolo: The Food Standards Agency has not conducted any research on the link between vegetarianism and well-being.

West Midlands NHS Diagnostic Service

Daniel Kawczynski: To ask the Secretary of State for Health (1) how many patients were seen by the West Midlands NHS Diagnostic Service during the period of its contract with Care UK; [196088]

(2) how much (*a*) has been and (*b*) will be paid to Care UK by his Department in relation to terminating its contract with Care UK for the the West Midlands NHS Diagnostic Service; [196089]

(3) how much has been spent under the West Midlands NHS Diagnostic Service contract with Care UK since June 2007; [196091]

(4) for what reasons the West Midlands NHS Diagnostic Service contract with Care UK was terminated in November 2007. [196118]

Mr. Bradshaw: Up to 31 January 2008, 8,100 diagnostic procedures were delivered to national health service patients by the West Midlands NHS Diagnostics Service.

Costs incurred as a result of the termination of the scheme are yet to be determined but any payment made by the Department will be governed by the contract with Care UK. The Department is currently in the process of verifying the claim made by Care UK.

From June 2007 until 31 January 2008, £13.3 million has been paid to the provider.

My right hon. Friend the Secretary of State outlined in the written ministerial statement on 15 November 2007, *Official Report*, columns 78-81WS, that the provision of diagnostic services in the West Midlands should be terminated because of an unacceptably low rate of use, and a very low prospect of the utilisation increasing which represents poor value for money to the taxpayer. In short, a significant increase in productivity by local NHS providers has substantially reduced the need for the capacity provided by this scheme with waiting times for most diagnostics reduced from more than one year to currently three weeks on average.

HOME DEPARTMENT

Alcoholic Drinks: Crime

Helen Jones: To ask the Secretary of State for the Home Department what recent discussions she has had with police forces on alcohol-related crime and antisocial behaviour; and if she will make a statement. [183492]

Mr. Coaker *[holding answer 31 January 2008]:* The Home Secretary has not had any recent meetings specifically on antisocial behaviour and alcohol-related crime, but the Home Secretary and myself regularly have discussions with Police on all aspects of crime, which include antisocial behaviour and alcohol-related crime.

As announced in the recent written ministerial statement on the evaluation of the impact of the Licensing Act 2003, the Secretary of State for Culture, Media and Sport (Andy Burnham) together with the Home Secretary, will convene a summit of police and local authorities to explore how we can take proposals forward to further tackle alcohol-related harms.

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what steps the Government plans to take to reduce underage drinking. [186848]

Mr. Coaker *[holding answer 18 February 2008]:* The Government take underage drinking very seriously. The National Alcohol Strategy 'Safe.Sensible.Social' published in June 2007, focuses action on three groups most at risk which are 18 to 24-year-old binge drinkers, young people under 18 who drink alcohol, and harmful drinkers whose drinking is damaging their health, often without them realising it.

In the Home Secretary's speech on 6 February 2008, she said that a number of new measures and possible steps would be taken to crack down on crime and antisocial behaviour which is fuelled by alcohol. This includes highlighting the message that it is not acceptable for young people to drink in public places. The Home Secretary also said that she is considering a number of options including making the possession of alcohol by a young person an offence, or possibly involving the parents if alcohol is confiscated from a child. We are currently considering the effectiveness of the current powers and what can be done to help the police use them more effectively.

The Department for Children, Schools and Families will also be publishing an action plan later in the year on young people and alcohol which will contain further proposals for reducing drinking by young people. Additionally, two confiscation campaigns have taken place recently; one in October 2007 and one in February 2008. The results of the October campaign showed that nearly 3,700 litres of alcohol were confiscated from young people during the four week period.

The Government also support schemes that make it easier for retailers to verify, and young people to prove, their age. That is why we are working with the British Retail Consortium's Proof of Age Standards Scheme (PASS) which validates the variety of proof of age card schemes available. This allows card schemes to apply for accreditation under PASS and entitles them to issue cards displaying the PASS holographic logo. This is easily recognisable both to retailers and young people and helps them know that they have a proof of age document which should be accepted.

Alcoholic Drinks: Enforcement

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what steps the Government have taken to work with licence holders to reduce levels of antisocial behaviour as a result of drinking on their premises. [193343]

Mr. Coaker *[holding answer 12 March 2008]*: The Government continue to prioritise reductions in levels of alcohol-related disorder and antisocial behaviour. Through schemes such as Pubwatch and Best Bar None, we are continuing to support responsible management of licensed premises that results in reductions in alcohol-related crime and disorder. We have also held a series of enforcement campaigns that have targeted irresponsible premises and individuals that contribute to, or partake in alcohol-related crime and antisocial behaviour. This has involved meeting with retailers in local areas to raise awareness in respect of their responsibilities.

Alcoholic Drinks: Young People

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what steps the Government has taken to work with supermarkets to reduce underage drinking. [190536]

Mr. Coaker *[holding answer 29 February 2008]*: Through 'Safe. Sensible. Social. The next steps in the National Alcohol Strategy', the Government are committed to carrying out an independent review of the relationship between alcohol price, promotion and harm, and following public consultation, will consider the need for regulatory change in the future, if necessary. This review is being led by the Department of Health and has gone out to tender. We anticipate publishing the review's findings in the summer of 2008.

In addition, the Government are also committed to carrying out a review and consultation on the effectiveness of the alcohol industry's Social Responsibility Standards document in contributing to a reduction in alcohol harm, and following public consultation, will consider the need for regulatory change in the future, if necessary. We anticipate launching the public consultation in November 2008.

Successive Alcohol Misuse Enforcement Campaigns (AMECs 2004-06) and Tackling Underage Sales of Alcohol Campaigns (TUSACs 2006-07) have been designed to address the problem of underage drinking through the use of test-purchase campaigns focused on all retailers (including but not limited to supermarkets). In 2004, the overall repeated test purchase failure rate was approximately 50 per cent. In 2006, it had dropped to approximately 20 per cent. In this latest and more targeted campaign it now stands at approximately 15 per cent. overall.

The Prime Minister held an alcohol summit with key alcohol stakeholders in November 2007 a second alcohol summit is planned for spring 2008.

Animal Experiments

Mr. Hancock: To ask the Secretary of State for the Home Department with reference to the ministerial letter of 31 January 2006 responding to the recommendations of the Animal Procedures Committee's 2005 report on the Statistics of Scientific Procedures on Living Animals, if she will make a statement on her considerations of recommendation 18 on improvement of the techniques listed in Table 9 the better to represent procedures in current use that may cause substantial suffering. [191994]

Meg Hillier: We will shortly be reviewing our response to all of the recommendations in this Animal Procedures Committee report, including recommendation 18, and will aim to publish our further conclusions when we publish the Statistics of Scientific Procedures on Living Animals 2007.

Antisocial Behaviour Orders: Drugs

Tony Baldry: To ask the Secretary of State for the Home Department what percentage of post conviction antisocial behaviour orders contained conditions relating to drug offending, in the latest period for which figures are available; and what percentage of those antisocial behaviour orders were breached. [196532]

Mr. Coaker: Information on the conditions attached to antisocial behaviour orders on conviction is not collected centrally.

Asylum

Jenny Willott: To ask the Secretary of State for the Home Department how many and what proportion of unsuccessful asylum cases considered by the Case Resolution Directorate that did not include a questionnaire and are entitled to an appeal have been subject to an appeal; and if she will make a statement. [196073]

Mr. Byrne: The requested information is not collated centrally and could be obtained only at a disproportionate cost through the examination of individual cases.

Jenny Willott: To ask the Secretary of State for the Home Department how many and what proportion of unsuccessful asylum cases considered by the Case Resolution Directorate that included a questionnaire and are entitled to an appeal have been subject to an appeal; and if she will make a statement. [196074]

Mr. Byrne: The requested information is not collated centrally and could be obtained only at a disproportionate cost through the examination of individual cases.

Jenny Willott: To ask the Secretary of State for the Home Department pursuant to the Answer of 23 January 2008, *Official Report*, column 2055-6W, on asylum, whether her Department has re-evaluated its expected completion date for considering and issuing a decision on all asylum cases that fall under the remit of the Case Resolution Directorate; and if she will make a statement. [196077]

Mr. Byrne: The Border and Immigration Agency remains committed to, and on track to achieve, the clearance of the older unresolved asylum cases by summer 2011.

Lin Homer will provide updates to the Home Affairs Select Committee on a six monthly basis.

Jenny Willott: To ask the Secretary of State for the Home Department how many and what proportion of asylum applicants with cases considered by the Case Resolution Directorate without a questionnaire have been informed when consideration began either directly or through their legal representative; and if she will make a statement. [196099]

Mr. Byrne: The requested information is not collated centrally and could be obtained only at a disproportionate cost through the examination of individual cases.

Jenny Willott: To ask the Secretary of State for the Home Department how many and what proportion of unsuccessful asylum applicants considered by the Case Resolution Directorate without a questionnaire, and who were subsequently removed, were informed of the outcome of the final decision either directly or through their legal representative prior to removal; and if she will make a statement. [196100]

Mr. Byrne: The requested information is not collated centrally and could be obtained only at a disproportionate cost through the examination of individual cases.

Jenny Willott: To ask the Secretary of State for the Home Department what the average length of time was between the final decision being taken and removal for unsuccessful asylum cases considered by the Case Resolution Directorate; and if she will make a statement. [196101]

Mr. Byrne: The requested information is not collated and could only be obtained at a disproportionate cost through the examination of individual cases.

Jenny Willott: To ask the Secretary of State for the Home Department if she will place in the Library copies of information provided to staff on the Border and Immigration Agency hon. Members hotline on the Case Resolution Directorate; and if she will make a statement. [196102]

Mr. Byrne: No specific guidance has been issued to workers on the hon. Members hotline. Information on the Case Resolution Directorate can be found on the Border and Immigration Agency website.

Border and Immigration Agency

Mr. Benyon: To ask the Secretary of State for the Home Department what estimate she has made of the Border and Immigration Agency's expenditure on advertising related to the new points-based immigration system in financial years (*a*) 2007-08 and (*b*) 2008-09. [192964]

Mr. Byrne: To support the introduction of the points-based system which is the biggest change to the UK's immigration system in over 40 years, an advertising budget of £1.5 million was spent in this financial year. This advertising activity targeted employers to make them aware of the new immigration controls and to give them sufficient notice in order to begin to prepare their business for these changes.

Further advertising activity to support the points-based system is planned in the next financial year. This activity will continue to be aimed at employers who will have new responsibilities under these new immigration controls. The budget for that activity has not yet been finalised.

Border and Immigration Agency: Tribunals

Damian Green: To ask the Secretary of State for the Home Department how many employees of the Border and Immigration Agency's predecessor agency, took the agency and her Department to an employment tribunal in each of the last five years; how many such cases were successful for the claimant; what the complaint was in each such case; and how much has been paid in compensation in such cases over those years. [193117]

Mr. Byrne: The number[1] of employees of the Border and Immigration Agency who have lodged Employment Tribunal claims, and the respective category of these complaints, in each of the last two calendar years[2] are shown in the table as follows.

[1] Not all cases lodged have proceeded to a formal hearing. The figures reflect the number of staff who have lodged Tribunal claims in the two calendar years and not the number of times the cases have proceeded to a hearing.

[2] The year in which the Employment Tribunal claim was lodged.

Unlawful Deduction of Wages	6	6
Victimisation	0	1
Total	49	61

None of the aforementioned claims which have been heard by the Employment Tribunal have been successful.

Information prior to 2006 is unavailable.

Borders: Personal Records

Damian Green: To ask the Secretary of State for the Home Department how much her Department has spent on consultation exercises related to the e-borders project. [195134]

Mr. Byrne: There has been extensive consultation with border agencies and other stakeholders including other Government Departments, the travel industry and carrier communities.

While we have been able to identify certain costs associated with these consultation exercises, the majority of the costs are not readily identifiable, since e-Borders does not record these by activity.

British Nationality: Assessments

Anne Main: To ask the Secretary of State for the Home Department how many people who took citizenship tests at the Grahame Park One Stop Shop advice centre in Colindale, North London in 2006 *(a)* are awaiting the outcome of their citizenship application and *(b)* have had the processing of their tests placed on hold as a result of investigations into test fraud at the centre; and if she will make a statement. [195023]

Mr. Byrne: The information requested is as follows.

(a) The most recent data we have identifies that we currently have 500 cases on hold as a result of the allegations regarding an invigilator of knowledge of life in the UK tests taken at the Grahame Park One Stop Shop.

(b) No other citizenship applications supported by a test and supervised by other invigilators from the Grahame Park One Stop Shop are on hold.

Case Resolution Directorate

Jenny Willott: To ask the Secretary of State for the Home Department how many complaints her Department has received about the Case Resolution Directorate in each month since its inception; and if she will make a statement. [196105]

Mr. Byrne: The requested information has not been collated in a way that would readily identify complaints received about the Case Resolution Directorate. This could only be obtained at a disproportionate cost through the examination of individual records.

Curfews: Children

Mr. Ruffley: To ask the Secretary of State for the Home Department how many children in contravention of their curfew notices have been removed to their place of residence by *(a)* police community support officers and *(b)* police officers under paragraph 4B of Schedule 4 of the Police Reform Act 2002 in each of the last fours years, broken down by police authority area. [176317]

Mr. Coaker: Information is not collected in the form requested. Section 30 of the Anti-Social Behaviour Act 2003 provides the police with two powers to disperse groups of two or more people and to return young people under 16 who are unsupervised in public places after 9 pm to their homes. 1,065 areas were designated for the exercise of these powers between 1 January 2004 and 31 March 2006. The following table shows a breakdown by police force area. Information on those removed to their place of residence for this period is not held. Information on numbers of designated areas and individuals removed to their place of residence for the period 1 April 2006 to 31 March 2007 will be published in June 2008.

Force	Number of areas designated (January 2004 to March 2006)
Avon and Somerset	30
Bedfordshire	29
Cambridgeshire	31
Cheshire	1
City of London	
Cleveland	30
Cumbria	2
Derbyshire	22
Devon and Cornwall	49
Dorset	31
Durham	2

Thames Valley	6
Warwickshire	22
West Midlands	123
West Yorkshire	22
West Mercia	[2]
Wiltshire	19
Total	1,065

[1] No areas designated
[2] No data provided

Departmental Home Working

David Simpson: To ask the Secretary of State for the Home Department how many people in her Department have been able to work from home in the last 12 months. [189781]

Mr. Byrne: The Home Office does not keep a central record of those staff that are able or who have permission to work at home.

Line managers have discretion for deciding whether their staff are allowed to work at home. Staff are allowed to work at home for many reasons which can last be both short-term/ad hoc and longer-term arrangements.

Examples of when working at home is permitted:

- Family or domestic commitments which make it difficult for people to come to the office every day;
- People with disabilities or health problems which prevent them travelling to work on a regular basis;
- People whose work involves regular travel over a wide area where the home is more sensibly and conveniently located to meet business needs; and
- Regular work which does not require regular interaction with colleagues and which, while still meeting business needs, can be completed more conveniently and sensibly from home. Examples would be some stages of research or project work e.g. writing initial scoping documents and final reports.

Departmental Manpower

Mr. Hoban: To ask the Secretary of State for the Home Department how many *(a)* staff and *(b)* full-time equivalent staff under 18 years of age are employed by her Department. [189073]

Mr. Byrne: The most recent cross-Government benchmarking data available (Civil Service Employment Survey 2006) for the number of staff under 18, as at the end of September 2006, shows that the Home Office compares favourably to other Government Departments.

The latest 2008 figures show a slight decrease in the number of staff under 18; this can be attributed in part to seasonal fluctuations and the Home Office drive to improve efficiency savings and reduce our administrative function under the Gershon review.

	30 September 2006		31 January 2008	
Permanent and non-permanent staff	Headcount	FTE	Headcount	FTE
HO Headquarters	720	720	Less than 5	Less than 5
Border and Immigration Agency	[1]	[1]	14	8.35
Criminal Records Bureau	n/a	n/a	0	0
Identity and Passport Service	n/a	n/a	0	1

n/a = Not available

The Home Office recognises the value of an age diverse work force. We are a member of the Employers Forum on Age (EFA); more information on the EFA can be found at:

http://www.efa.org.uk/default.asp

The Home Office, like all responsible employers, works hard to ensure that all staff, regardless of age, are treated equally from their initial application through to when they leave us.

Departmental Pay

Mr. Philip Hammond: To ask the Secretary of State for the Home Department how much was claimed in reimbursable expenses by senior civil service staff in her Department and its agencies in the last 12 month period for which figures are available. [187540]

Mr. Byrne: The Home Office accounting system does not hold the requested information in a readily accessible form; it could be provided only at disproportionate cost.

Of the Home Office agencies the Criminal Records Bureau reimbursed £12,700 in the last 12 months and the Identity and Passport Service reimbursed £35,000 in financial year 2006-07.

All staff expenses are reimbursed subject to the conditions set down in the Civil Service Management Code.

Departmental Public Participation

James Brokenshire: To ask the Secretary of State for the Home Department on what subjects her Department commissioned opinion polling in each of the last two years; and at what cost. [193856]

Mr. Byrne: During the last two years (2006-07) the Home Office has commissioned public opinion polling on attitudes, experiences and awareness of a broad range of crime, immigration and asylum issues. Specific polls have been carried out on the issues of neighbourhood policing and gangs. The cost of the opinion polling was £67,500 during 2006 and £197,025 during 2007 (exc. vat).

Departmental Temporary Employment

Pete Wishart: To ask the Secretary of State for the Home Department what average hourly rate her Department paid to employment agencies for agency staff in each year since 1999, broken down by employment agency. [187908]

Mr. Byrne: Agency workers are used where recruiting managers require individuals to undertake a role of short duration, or as a temporary measure where permanent staff are unavailable or there are exceptional and overriding business reasons for doing so.

Agency workers should only be used as a short-term solution to fill a particular need that cannot be met by permanent staff.

The Home Office currently uses its new national framework for the supply of admin/clerical temporary staff (agency). This contract was awarded in April 2007 and will run for a period of four years. Contracts were awarded to seven suppliers:

Reed Employment

Hays

Brook Street

Office Angels

Kelly Services

Northern Recruitment Group plc

Employment Plus

with pricing aligned to the 13 government regions.

The range of temps covered by this framework is wide from basic administrative grades to generalist junior managers. The pricing information is commercially sensitive with differing rates between each supplier. The effort and cost of averaging every role by supplier by 13 regions would incur disproportionate cost.

Details of the average hourly rate paid by the Department to each employment agency for agency staff in 2005-06 for the core Home Office is not held centrally and to provide the information would incur disproportionate cost. Information relating to BIA and the Executive Agencies is available as follows:

Hourly rates paid to employment agencies by BIA for 2005-06

Employment agency name	Average hourly rate £
Huntress	10.12
Headstart	9.94
Tate	9.20
Brookstreet	9.89
Employment Plus	9.79
Reed	9.91
Crown Personnel	9.93
Berry Recruitment	9.09
PRC	9.13
Office Angels	9.85
Hays	8.99
First Recruitment	9.57
Demon	9.11
Catherine Johnstone	9.57
Blue Arrow	9.50
Ashley Morgan	9.40
Middleton Murray	8.98
Southern Recruitment	9.11
New Appointments Group	14.18
ADECCO	8.55
Select	12.20

Hourly rates paid to employment agencies by Criminal Records Bureau (CRB) for 2005-06

Employment agency name	Average hourly rate £
Computer Futures	56.00
Drive On	50.00
Excel Recruitment	16.84
Hays Accountancy	17.18
ITP Recruitment	63.00
Montpellier	52.70
Reed Personnel Services	18.38

Hourly rates paid to employment agencies by Identity and Passport Service (IPS) for 2005-06

Employment agency name	Average hourly rate £
Adecco	18.75
Ajilon	43.10
Brook Street	13.17
Capita	69.61
Crystal	38.00
Elan	67.74
Glotel	25.41
Kelly Services	22.74
NESCO	68.08
NRG	122.22
PA Consulting	159.03
Parity	77.74
Pendragon	73.27
Real Time Consultants	58.06
Rullion	38.80
Search	75.89
SGS	59.30
Spring	51.23
Step Forward	22.70

During 2006-07 the Home Department used the HM Prison Service Framework agreement for temporary staff and the average pricing (across five suppliers/nine regions) for 2006-2007 was as follows:

Average hourly rate paid to employment agencies for agency staff across five suppliers/nine regions for 2006-07 via the HM Prison Service Framework agreement

Grade	Average hourly rate paid £
Admin Officer	9.30
Admin Assistant	8.45
Executive Secretary/PA	12.69
Senior Secretary	11.60
Junior Secretary	9.60
Receptionist	8.97
Telephonist	8.90
Messenger	8.04

Information on the hourly average rate paid to employment agencies for agency staff prior to 2005-06 is not held centrally and could be obtained only at disproportionate cost.

Departmental Travel

Mr. Philip Hammond: To ask the Secretary of State for the Home Department how much her Department and its agencies spent on first class travel in the last 12 months for which figures are available, broken down by staff grade. [187655]

Mr. Byrne: The Department's accounting system does not separately identify expenditure on first class travel. Such information could be provided only at disproportionate cost.

The Department expects all official travel to be carried out by the most efficient and economic means available, taking into account the cost of travel and subsistence, savings in official time, management benefit, and the needs of staff with disabilities. This is in accordance with the Civil Service Management Code and the Ministerial Code.

For the Department's agencies, the Criminal Records Bureau and the Identity and Passport Service, answers could, again, be provided only at disproportionate cost.

Deportation: Grants

Nick Herbert: To ask the Secretary of State for the Home Department what proportion of payments under the Facilitated Returns Scheme were made to *a* failed asylum seekers, *b* migrants and *c* foreign national prisoners in the last year for which information is available. [193232]

Mr. Byrne *[holding answer 14 March 2008]*: The Facilitated Returns Scheme is limited to those foreign nationals who have committed a criminal offence for which they have received a custodial sentence and is not open to failed asylum seekers or migrants as separate categories.

Domestic Violence: Staffordshire

Mr. Jenkins: To ask the Secretary of State for the Home Department how many people were arrested for offences involving domestic violence in *a* Tamworth constituency and *b* Staffordshire in each year since 2000. [195455]

Mr. Coaker: The Home Office does not routinely collect data on the number of arrests for domestic violence related offences but is planning to commence the collection of this data from 2009-10 onwards. The Home Office does, however, collect data on the number of arrests for domestic violence related incidents since 2005-06.

Incidents are defined as any incident of threatening behaviour, violence or abuse (psychological, physical, sexual, financial or emotional) between adults who are or have been intimate partners or family members, regardless of gender or sexuality.

A subset of domestic violence related incidents are those incidents where a specified offence has been committed.

However there has been a change in what is collected as a result of changes in legislation as Section 110 of the Serious Organised Crime and Police Act 2005 made all offences arrestable.

2005-06 to January 2006: number of arrests for those domestic violence incidents where a power of arrest existed.

January 2006 onwards: number of arrests for any domestic violence incidents.

Data is available from Staffordshire for the period 2004-05 and 2005-06:

	Number
2004-05	5,230
2005-06	5,793

Domestic Violence: Victim Support Schemes

Mr. Oaten: To ask the Secretary of State for the Home Department if she will review guidance issued to local authorities on helping women subject to domestic abuse with no recourse to public funds, setting out the steps authorities need to take. [196784]

Mr. Coaker *[holding answer 25 March 2008]*: The guidance issued to local authorities, via a circular in February 2006, will be reviewed as part of the development of a new scheme for victims of domestic violence who, through their insecure immigration status, have no recourse to public funds. Details will be made available later in the spring.

As part of this work, we will also be drafting guidance for voluntary sector agencies and other potential advocates who are assisting these victims, and will outline what is required for a successful application for Indefinite Leave to Remain.

Drugs: Crime

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what steps the Government plan to take to tackle illegal drugs. [191894]

Mr. Coaker *[holding answer 6 March 2008]*: The Government published on 27 February a new comprehensive 10-year Drug Strategy backed-up with a three year action plan. The strategy is focused on preventing young people developing drug problems, targeting families at risk and intervening early through a whole family approach, protecting communities through robust enforcement by attacking drug supply at all levels and cutting drug-related crime and disorder.

Key actions to tackle illegal drugs and the harms they cause include:

extending police powers to seize more dealers' cash and assets on arrest rather than conviction;

embedding action to tackle drugs within the Neighbourhood Policing approach, responding to community concerns about drugs, acting on intelligence provided by the community and giving feedback on how such intelligence was used;

identifying and targeting those drug misusing offenders causing the greatest harm to communities and improving the responses to divert them out of crime using more effective and integrated approaches;

helping families at risk and supporting parents with drug problems and ensuring prompt access to treatment for all drug misusing parents with a treatment need;

continuing to improve drug treatment with a focus on treatment outcomes and on more individuals overcoming drug dependence; and

using opportunities presented by the benefits system to provide support and create incentives to move towards treatment, training and employment.

Mr. McLoughlin: To ask the Secretary of State for the Home Department what steps are being taken to combat drug-related crime in smaller towns and communities. [195218]

Mr. Coaker: The Government are committed to tackling drug-related crime wherever it occurs, including in our smaller towns and communities.

The recently published strategy, 'Drugs: protecting families and communities' sets out clearly our future intention to take a robust stance against dealers and to reduce drug-related offending, including developing ways to regularly engage and respond to the needs of communities. In addition, we will make asset seizure more visible to local communities so those communities see the benefits of working with police and their partners to identify dealers.

The Government have already invested heavily, including through the Drug Intervention Programme (DIP), in reducing drug-related crime. DIP aims to get adult drug-misusing offenders out of crime and into treatment and other support. Delivery at local level is through local partnerships, using integrated teams (including drug workers in all custody suites) for which funding is provided in all areas of England and Wales, including smaller towns and communities. Since DIP began, acquisitive crime - to which drug-related crime makes a substantial contribution - has fallen by around a fifth.

Drugs: Schools

Dr. Kumar: To ask the Secretary of State for the Home Department pursuant to the Answer of 19 February 2008, *Official Report*, column 583W, on drugs: schools, whether information is to be collected centrally on arrests of school pupils. [195678]

Mr. Coaker: The Home Office and Ministry of Justice have no plans to collect statistics on arrests of school pupils.

Eurostar

Mr. Philip Hammond: To ask the Secretary of State for the Home Department how much her Department and its agencies spent on (*a*) first and (*b*) other class travel by Eurostar in the last 12 months for which figures are available. [187748]

Mr. Byrne: The Department's accounting system does not separately identify expenditure on travel by Eurostar. Such information could be provided only at disproportionate cost.

For the Department's agencies, the Criminal Records Bureau's spend is nil and the Identity and Passport Service's spend could not be identified without incurring disproportionate cost.

The Department expects all official travel to be carried out by the most efficient and economic means available, taking into account the cost of travel and subsistence, savings in official time, management benefit, and the needs of staff with disabilities. This is in accordance with the Civil Service Management Code and the Ministerial Code.

The Cabinet Office produces the annual list of Cabinet Ministers overseas travel, the one for 2006-07 was published on 25 July 2007.

Firearms

Rosie Cooper: To ask the Secretary of State for the Home Department what steps her Department is taking to reduce the availability and use of replica firearms in public places. [196855]

Mr. Coaker: In October 2007, as part of the Violent Crime Reduction Act 2006, we implemented a ban on the manufacture, import and sale of realistic imitation firearms, which evidence showed were being used in criminal activity to threaten and intimidate. The 2006 Act also increased to 12 months the maximum sentence for possessing an imitation firearm in a public place without lawful authority or reasonable excuse.

The police, together with SOCA the Serious Organised Crime Agency and HM Revenue and Customs, are looking at the supply and availability of firearms as a priority. This includes items which contravene the recent legislation on realistic imitations.

We have also recently increased the provision of search arches and wands in priority areas and, as part of the Tackling Violence Action Plan, have committed to providing additional search technology to the police and partner agencies.

Genetics: Databases

Jenny Willott: To ask the Secretary of State for the Home Department what powers chief constables have to order the retention or removal of entries from the national DNA database; and if she will make a statement. [188154]

Meg Hillier: I refer the hon. Member to the reply I gave to the hon. Member for West Bromwich, West (Mr. Bailey) on 21 February 2008, *Official Report*, column 824W.

Mr. Greg Knight: To ask the Secretary of State for the Home Department how many Yorkshire residents had samples of their DNA recorded on the National DNA Database at the latest date for which figures are available. [192609]

Meg Hillier *[Holding answer 11 March 2008]*: The National DNA Database (NDNAD) does not hold address details, and it is not, therefore, possible to provide figures for the number of people who are resident in the Yorkshire area. The following table gives figures for people sampled by the Yorkshire police forces, however, these people may not be resident in the area in which they were sampled. There are two figures for each force: the number of profiles, and the estimated number of individuals. The number of profiles held on the database is not the same as the number of individuals. As it is possible for a profile to be loaded onto the NDNAD on more than one occasion, some profiles held on the NDNAD are replicates. This can occur, for example, if the person provided different names, or different versions of their name, on separate arrests, or because profiles are upgraded.

At present, the replication rate is 13.3 per cent., that is, the number of people whose details are loaded is 13.3 per cent. fewer than the number of profiles.

Police force	Subject profiles	Estimated number of individuals
North Yorkshire	55,879	48,447
South Yorkshire	117,023	101,459
West Yorkshire	214,362	185,852
Total for Yorkshire forces	387,264	335,758

Government Offices for the Regions

Julia Goldsworthy: To ask the Secretary of State for the Home Department which of her Department's programme budgets were administered by the Government Offices for the Regions in each of the last five years. [195126]

Mr. Byrne: GOs directly administered the following programmes on behalf of Home Office between 2002-03 and 2006-07:

1. Home Office Regional Deputy Directors Allocation
2. Basic Command Unit
3. Safer Stronger Communities Fund (incorporating Building Safer Communities Fund, Anti-Social Behaviour Co-ordinators and Drug Strategy Partnership Grant)
4. Specialist Domestic Violence Courts
5. Independent Domestic Violence Advisors
6. Tackling Violent Crime Programme
7. Domestic Violence
8. Multi-Agency Risk Assessment Conferences
9. Sexual Assault Referral Centres
10. Guns, Knives and Gangs
11. Criminal Damage Initiative

The Safer Stronger Communities Fund is now paid to the Department for Communities and Local Government (CLG) for inclusion in local area agreements (LAAs).

Identity Cards: Students

Lynne Jones: To ask the Secretary of State for the Home Department whether she expects students to be able to (*a*) obtain a student loan and (*b*) open a bank account without an identity card from 2010. [195095]

Meg Hillier: The National Identity Scheme Delivery Plan published on 6 March 2008 and available on the Identity and Passport Service website:

http://www.ips.gov.uk/identity/downloads/national-identity-scheme-delivery-2008.pdf

set out our plans for issuing identity cards on a voluntary basis to young people from 2010. Identity cards will provide many advantages to young people who wish to prove their identity as they start out their independent life in society. There is no requirement to have an ID card when applying for a student loan.

Immigration

Mr. Clappison: To ask the Secretary of State for the Home Department pursuant to the letter of 17 December 2007 from the chief executive of the Border and Immigration Agency to the Home Affairs Committee, how many cases dealt with under the legacy exercise in which leave to remain in the UK has been granted concerned individuals who had been refused leave to remain under the October 2003 family indefinite leave to remain exercise; and what her policy is on the grant of leave to remain under the legacy exercise to individuals who have been refused leave under the family indefinite leave to remain exercise. [177361]

Mr. Byrne *[holding answer 10 January 2008]*: A written update was provided by Lin Homer on 17 December 2007 to the Home Affairs Select Committee stating that 52,000 older asylum cases have been concluded, of which two-thirds had either been removed, or discovered to be duplicate files or other errors. Around a third (19,000) had been granted leave to stay, of which around 570 did not qualify under the 2003 family exercise.

We consider each case on its own merits and will look at the most up to date information in deciding a claim. Decisions will be based upon the information and circumstances prevalent at the time, regardless of previous exercises.

Mr. Carswell: To ask the Secretary of State for the Home Department by what means she first become aware of Mr Moshe Feiglin's application to enter the UK; what representations she has received from (*a*) other Government departments and (*b*) community groups on Mr Feiglin's case; and if she will make a statement. [194191]

Mr. Byrne: It is not the policy of the Home Office to comment on individual cases.

The Home Secretary may decide to exclude or deport any individual who is not a British citizen if she considers that their presence in the UK is not conducive to the public good. The Home Secretary will use these powers when justified and based on all available evidence taking full account of the views of the relevant Departments. Since July 2005 the Home Secretary has excluded 79 individuals from the UK on grounds of unacceptable behaviour.

Immigration Controls: Airports

Dr. Cable: To ask the Secretary of State for the Home Department how many full-time equivalent immigration officers were employed screening incoming passengers at (*a*) Heathrow, (*b*) Stansted and (*c*) Gatwick airports in each of the last 12 months; and if she will make a statement. [164224]

Mr. Byrne: I wrote to the hon. Member on 14 March 2008.

Immigration Controls: Domestic Service

Sarah Teather: To ask the Secretary of State for the Home Department pursuant to the answer of 17 March 2008, *Official Report*, column 801W, on immigration controls: foreign workers, what the programme of research and analysis being undertaken in respect of the current provisions for overseas

domestic workers consists of, when she expects the results to be published, and if she will place in the Library a copy of the results. [196117]

Mr. Byrne: The focus of the research is to gather existing evidence on overseas domestic workers (ODWs) in order to understand better the risks associated with those entering as ODWs. The research will also highlight the quality of, and any identifiable gaps in currently available information.

The research is expected to be completed in the spring.

The findings of research are normally published if they meet quality standards and do not present issues of security, operational effectiveness or confidentiality. However, a publication date has not been set.

Immigration Controls: Eurostar

Mr. Malins: To ask the Secretary of State for the Home Department whether persons who purchase a Eurostar train ticket from Brussels to Lille are (*a*) subject to juxtaposed UK immigration controls at Brussels, (*b*) checked for valid UK entry documents at any stage during their journey, (*c*) required to alight from the train at Lille and (*d*) subject to full immigration control in the UK if they remain on the train until it arrives in the UK. [180331]

Mr. Byrne *[holding answer 21 January 2008]*: Passengers who purchase a Eurostar train ticket from Brussels to Lille are not subject to juxtaposed UK Immigration Controls at Brussels. Under Schengen rules, immigration checks between Schengen states are only permitted in exceptional circumstances.

All passengers boarding at Brussels, irrespective of their ticketing arrangements, have their travel documents checked by the Belgian Federal Police (BFP), who also check personal details against departmental systems. Anyone travelling without valid travel documents will be refused travel by BFP and are liable to arrest if illegally found in the Schengen area.

Passengers who are ticketed only as far as Lille should disembark there. Passengers who are travelling to the UK from Brussels are subject to Immigration Control. Any passengers who do not get off at Lille who are then identified by The Border and Immigration Agency, British Transport Police, Kent Police or the Metropolitan Police can be intercepted and detained in the UK for travelling with inadequate documentation.

Immigration: Deportation

Mr. Clappison: To ask the Secretary of State for the Home Department pursuant to the answer of 17 March 2008, *Official Report*, columns 803–4W, on immigration: deportation, what the definition is of serious criminality for the purposes of prioritisation of consideration of deportation under the legacy exercise; what guidance is given to caseworkers relating to this; whether any record is kept of how many such cases result in deportation; and what approach is taken in respect of applicants whose criminality falls outside the definition of serious criminality. [196177]

Mr. Byrne *[holding answer 25 March 2008]*: The definition of serious criminality used within the Border and Immigration Agency is set out in published guidance. Cases which fall within that definition are prioritised in the legacy exercise.

All decisions on legacy cases are made on a case by case basis by caseworkers within the Case Resolution Directorate. The Border and Immigration Agency's website provides details of policy and guidance that staff follow when considering all cases.

In her letter of 17 December 2007 to the Home Affairs Select Committee, Lin Homer, chief executive of the Border and Immigration Agency, stated that of the 52,000 older asylum cases that had been concluded, about 16,000 led to removals, some of which would be deportations. A detailed breakdown of the reasons for these removals could only be obtained by examination of individual case records at a disproportionate cost.

The Border and Immigration Agency is committed to the removal of foreign criminals who commit a serious crime in this country. We have repeatedly said we will target the most dangerous first. Increasingly we are deporting those who have received shorter sentences.

Immigration: Fees and Charges

Kerry McCarthy: To ask the Secretary of State for the Home Department what estimate her Department has made of the number of people entitled to apply for indefinite leave to remain under the 14-year residence rule who are not permitted to work or claim benefits until their status is regularised and cannot afford the fee. [195556]

Mr. Byrne: This information is not known. An estimate of this type would be extremely difficult to arrive at, resource intensive and unlikely to be accurate given the nature of this type of application.

Members: Correspondence

Mr. Soames: To ask the Secretary of State for the Home Department when she will answer Question 168341, tabled by the hon. Member for Mid Sussex on 21 November 2007, on terrorist suspects and asylum. [185960]

Mr. Byrne *[holding answer 18 February 2008]*: I replied to the hon. Member on 14 March 2008, *Official Report*, column 681W.

Migrants: English Language

Mr. Clappison: To ask the Secretary of State for the Home Department what research she has (*a*) commissioned and (*b*) evaluated into the proficiency in English of workers obtaining leave to enter under (i) the highly skilled migrants scheme and (ii) the work permit scheme; and what assessment she has made of the proficiency in English of those who have obtained leave to enter under these schemes. [162956]

Mr. Byrne *[holding answer 12 November 2007]*: People coming here under the highly skilled migrant programme (HSMP) have been obliged to meet an English language requirement since November 2006. Such migrants have to prove that they have either:

passed an English language test equivalent to level 6 (competent user) on the International English Language Testing System's scale, or

Obtained a bachelor's degree or equivalent that was taught in English.

Passports: Personation

Lynne Jones: To ask the Secretary of State for the Home Department what steps were taken to counter identity fraud by the UK Passport Service in each of the last five years; what the cost of these was in each year; what assessment she has made of the effectiveness of these steps; and if she will make a statement. [195964]

Meg Hillier: The Identity and Passport Service, and prior to 1 April 2006, the UK Passport Service, has introduced a range of measures that help to counter identity fraud. These include carrying out identity checks, investigating suspected identity fraud cases, implementing systems and processes to detect and prevent fraudulent applications for UK passports, systems to confirm the validity of UK passports presented to other organisations and the introduction of interviews for first time passport applicants over 16-years-old. As part of research into the cost of identity fraud to the UK economy published in February 2006, The UK Passport Service calculated the cost of measures to counter identity fraud when processing applications for UK passports issued in the UK at £62.8 million.

In addition, the Identity Fraud Steering Committee (IFSC), chaired by the Identity and Passport Service, has since 2003 been leading a cross public-private sector work programme to tackle identity fraud. There have been a number of successes and costs are given where available. Tougher criminal penalties have been introduced for driving licence and passport offences, alongside offences in the Identity Cards Act 2006 to target those who possess and use false identity documents and genuine documents belonging to someone else.

The IFSC has also led on introducing more powers to share data to combat fraud, and most recently the Disclosure of Death Registration Information Scheme was launched on 16 January 2008.

We have worked extensively to raise public awareness of identity fraud. A leaflet and the website:

www.identitytheft.org.uk

provide a quick and easy guide on things to look out for that indicate that a person may be at risk of becoming a victim of identity theft or fraud, or that they are already a victim. Over 13 million leaflets are in circulation and the website receives an average of 16,000 visits per month. Leaflets are printed by a range of partners on the IFSC, as well as banks and other organisations.

Costs associated with the website are shared across IFSC members. The total cost to Identity and Passport Service in 2007-08 of the leaflet, poster and website is £12,000. In 2006-07 Identity and Passport Service spent £5,500 on printing leaflets. In 2005-06 the Home Office spent £25,000 on identity fraud awareness material.

We have also sought to ensure better co-ordination in prosecuting fraudsters. This has involved the establishment of a network of Single Points of Contact in all police forces and a range of Government Departments and agencies dealing with identity fraud investigations and prosecutions.

Public Order: Young People

James Brokenshire: To ask the Secretary of State for the Home Department what recent assessment she has made of the police's powers to disperse groups of youths; and what plans she has to extend those powers. [194259]

Mr. Coaker: Dispersal orders are one of a number of measures to tackle antisocial behaviour. They have succeeded in tackling underage drinking, joyriding, noise nuisance, the antisocial use of fireworks and the harassment and intimidation of residents. They are not intended to be used in isolation, but should form part of a tiered and integrated response to tackling crime and disorder and antisocial behaviour in local areas. This includes work by Youth Offending Teams to prevent young people getting involved in offending and antisocial behaviour. There are no plans to extend dispersal powers.

While no assessment has been made of the efficacy of dispersal orders on their own, a study and report by the National Audit Office ('Tackling Anti-Social Behaviour', HC 99 Session 2006-07, 7 December 2006) confirmed that a tiered approach to tackling antisocial behaviour is highly effective. This is also borne out by the fact that perceptions of antisocial behaviour have fallen by 4 percentage points from the baseline of 21 per cent. in 2002-03 to 17 per cent. in 2005-06.

Rape: Prosecutions

James Brokenshire: To ask the Secretary of State for the Home Department when the next quarterly report to the National Criminal Justice Board on local progress in investigating and prosecuting rape will be issued; and if she will publish *a* this report and *b* all future reports from the board. [194253]

Mr. Coaker: The Rape Performance Group will report to the National Criminal Justice Board on a quarterly basis, but the precise arrangements for this have yet to be agreed. There are no plans to publish a quarterly report on the performance of police forces and CPS (the Crown Prosecution Service) areas on the investigation and prosecution of rape cases.

Travel Restrictions: Football

John Battle: To ask the Secretary of State for the Home Department what recent representations she has received on the enforcement of prohibitions upon certain individuals against travel to and attendance at international football matches; what discussions she has had on the matter with her counterpart in the Scottish Executive; and if she will make a statement. [196282]

Mr. Coaker: Individuals subject to football banning orders imposed in England and Wales are required by the Football Banning Orders Authority to report to a designated police station at the beginning of the control period for all matches and tournaments played outside England and Wales and thereafter on match days. Failure to comply with these instructions is a criminal offence punishable by a custodial sentence of up to six months and/or £5,000 fine and the imposition of a further football banning order.

There is close co-operation between the Home Office and Scottish Executive, and between police forces on both sides of the border to ensure that different legislative arrangements across the UK do not lead to evasion of the controls. The requirement that banned individuals report to their designated police station at least five days prior to a relevant match or tournament ensures local police have sufficient time to take enforcement action against any individual who fails to comply with reporting instructions.

Vandalism: Staffordshire

Mr. Jenkins: To ask the Secretary of State for the Home Department how many arrests there were for vandalism in (*a*) Tamworth constituency and (*b*) Staffordshire in each year since 2000. [195445]

Mr. Coaker: The arrests collection undertaken by the Ministry of Justice provides data on persons arrested for recorded crime (notifiable offences), by Police Force area, age group, gender, ethnicity, and main offence group. Hence data are not available at parliamentary constituency level and cases involving vandalism are not identified by the collection. Information is given in the following table for Staffordshire police force area for the number of persons arrested for offences within the main offence group "criminal damage".

Table 1: Number of persons arrested for recorded crime (notifiable offences) of Criminal Damage, in Staffordshire police force area, by period

	Total
2000/01	n/a
2001/02	n/a
2002/03	n/a
2003/04	2,988
2004/05	3,266
2005/06	3,459

n/a = Not available

Includes indictable offences for criminal damage and summary offences of criminal damage, 35 (0.5) or less.

Note:

Every effort is made to ensure that figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Written Questions: Government Responses

Philip Davies: To ask the Secretary of State for the Home Department when she will answer Question 176720, tabled by the hon. Member for Shipley on 18 December 2007, on Project Semaphore. [188667]

Mr. Byrne: I replied to the hon. Member on 5 March 2008, *Official Report*, column 2669W.

Mr. Stephen O'Brien: To ask the Secretary of State for the Home Department when she expects to reply to the Question tabled on 4 February 2008, by the hon. Member for Eddisbury, on Wikipedia. (185527). [195203]

Mr. Byrne: I replied to the hon. Member on 17 March 2008, *Official Report*, column 790W.

INTERNATIONAL DEVELOPMENT

Departmental Sustainable Development

Norman Baker: To ask the Secretary of State for International Development when his Department plans to publish its sustainable operations policy statement. [195878]

Mr. Thomas: The Department for International Development (DFID) has published its Environmental Operations Policy which is available on the DFID website at:

www.dfid.gov.uk/aboutdfid/environment.asp

This sets out the Department's approach to managing the Estate's operational and support activities in line with the Government's objectives on Sustainable Development. The DFID Sustainable Development Action Plan has also been published and is available at:

www.dfid.gov.uk/news/files/sustainable-development-plan-intro.asp

This explains DFID's approach to sustainable development, the commitments made in the UK Sustainable Development Strategy, and plans for taking them forward.

DFID's performance against Sustainable Development in Government targets is reported annually by the Sustainable Development Commission, and the latest (2007) report records the continuing improvement in DFID's environmental performance.

Developing Countries: Overseas Aid

Mr. Hollobone: To ask the Secretary of State for International Development what assessment he has made of the effectiveness of UK aid in reducing poverty in the developing world. [196696]

Mr. Thomas: The Government are committed to ensuring that UK aid is used effectively to make a difference to the lives of the world's poorest people. UK aid helps lift three million people permanently out of poverty every year. The recent OECD-DAC baseline survey also shows that the Department for International Development (DFID) has either met or is on track to meet all of the 2010 targets contained in the Paris Declaration on aid effectiveness.

Kenya: Overseas Aid

Ms Keeble: To ask the Secretary of State for International Development what (*a*) development and (*b*) humanitarian aid his Department has provided to Kenya via (i) bilateral programmes, (ii) multi-lateral agencies and (iii) non-governmental organisations in the last five years. [195633]

Gillian Merron: The Department for International Development (DFID) has provided the following support to Kenya over the last five years.

Table 1: DFID Bilateral assistance to Kenya, 2002-03 to 2006-07

£000

	Total humanitarian assistance to Kenya	Total DFID bilateral assistance to Kenya (excl. humanitarian assistance)	Total DFID bilateral assistance to Kenya
2002-03	1,474	42,524	43,998
2003-04	229	25,532	25,761
2004-05	5,517	29,671	35,188
2005-06	16,577	46,096	62,673
2006-07	13,240	52,048	65,288

Table 2: Imputed UK Share of multilateral official development assistance (ODA) to Kenya, 2001-05

£000

2001	14,678
2002	3,557
2003	18,250
2004	9,447
2005	10,279

DFID provides funding to non-Government organisations in Kenya, but it does not collate statistics on the total amount of its bilateral programme that is delivered through NGOs.

Sudan: Overseas Aid

Mr. Drew: To ask the Secretary of State for International Development whether he has received reports of the hijacking of World Food Programme trucks in Darfur since 1 January 2008; and what assessment he has made of the humanitarian impact of such events in Darfur. [195671]

Gillian Merron: The latest statement from the World Food Programme (WFP) indicated that five WFP passenger vehicles and 45 WFP-contracted trucks have been hijacked in Darfur since the start of 2008. Some 37 trucks and 23 drivers are still unaccounted for.

The insecurity in Darfur has forced many agencies to scale back operations at a time on increasing need. Although existing food stocks are sufficient for the next two months, the insecurity is hampering the ability of WFP and other agencies to stock pile food, medicines, shelter materials and fuel before the onset of the rainy season in May/June when needs will rise dramatically and logistics become extremely difficult.

INNOVATION, UNIVERSITIES AND SKILLS

Further Education

12. **Paddy Tipping:** To ask the Secretary of State for Innovation, Universities and Skills, what assessment he has made of the impact that the changes to regional administration will have on the funding of colleges of further education; and if he will make a statement. [196491]

Bill Rammell: On 17 March with the Department for Children, Schools and Families we published "Raising Expectations: enabling the system to deliver". It sets out plans to tackle education and skills challenges and strengthen support for young people and adults.

In the proposals, colleges will receive funding for pre 19 provision from local authorities and for post 19 provision from the Skills Funding Agency. This continues the current practice of two distinct discussions for pre and post 19 provision.

National Apprenticeships Service

13. **Ann Coffey:** To ask the Secretary of State for Innovation, Universities and Skills, what the functions and objectives of the proposed National Apprenticeship Service are; and if he will make a statement. [196493]

Mr. Denham: The proposed National Apprenticeship Service (NAS) will have end to end responsibility for the Apprenticeship programme, including accountability for the national delivery of targets. Full functions and objectives of the National Apprenticeship Service are detailed in Section 4 of 'World-class Apprenticeships: Unlocking Talent, Building Skills for All' published on 28 January 2008. The NAS will be a distinct service within the Learning and Skills Council and will commence in April 2009.

Bursaries

14. **Mr. Mackay:** To ask the Secretary of State for Innovation, Universities and Skills, if he will take steps to improve access to bursaries for students from lower-income families. [196495]

Bill Rammell: This Government have put in place the most generous financial support package ever. At least 70,000 students from a lower-income background have received bursaries.

But we can and must do more. We have made improvements to the Student Finance Form to make it easier for students to consent to share financial information to be assessed for bursaries. We are also working with OFFA—the Office for Fair Access—and the sector on sharing good practice on encouraging bursary take-up.

Learning and Skills Council

15. **Mr. Willis:** To ask the Secretary of State for Innovation, Universities and Skills what his policy is on the future role of the Learning and Skills Council. [196498]

Mr. Denham: The White Paper 'Raising Expectations: enabling the system to deliver', was published jointly with DCSF on 17 March 2008. This sets out proposals to replace the Learning and Skills Council with two new systems. Responsibility for 16-19 funding will transfer to local authorities, supported by a new Young People's Learning Agency. For adults we propose to strengthen the demand led approach, including through the creation of a new Skills Funding Agency and a strengthened advice and support service.

These proposals will require legislation, and the LSC will continue to play an important role in securing effective delivery of post-16 learning until the new arrangements are in place.

Universities: Access

16. **Christine Russell:** To ask the Secretary of State for Innovation, Universities and Skills, what discussions he has held with universities on enabling public access to their facilities. [196499]

Bill Rammell: This is already part of the business of higher education providers. For example, over two million people attend public lectures and performances put on by higher education providers. UK academics provide over 30,000 working days in support of museums, galleries and related education activity, benefiting millions of people, and the public can access top class sporting facilities as well. Our new "university challenge" initiative also emphasises that higher education providers make a real difference to the cultural life of towns, not least through the facilities which benefit both students and communities.

Learning and Development

17. **Rosie Cooper:** To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the demand for learning and development in relation to sectors requiring highly skilled workers; and if he will make a statement. [196500]

Bill Rammell: Analysis undertaken for the Leitch review suggested that 18 million jobs would become vacant between 2004 and 2020, half of which would be in the occupations most likely to employ graduates and those with higher level skills. All sectors require highly-skilled workers to meet the increasing demand for knowledgeable, adaptable and innovative people and Sector Skills Councils articulate the needs of employers for learning provision at all levels in particular sectors.

Wirral Metropolitan College

18. **Ben Chapman:** To ask the Secretary of State for Innovation, Universities and Skills if he will make a statement on the future of Wirral metropolitan college. [196501]

Bill Rammell: The Corporation of Wirral Metropolitan College has recently announced plans to develop a new world class college for 2011, including investment to redevelop the college estate. These plans are at an early stage: they will require consultation and will need to demonstrate that they provide further education opportunities that meet the needs and demands of people in the Wirral.

Knowledge Transfer

19. **Mr. Jamie Reed:** To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the contribution knowledge transfer partnerships can make to university-created businesses. [196502]

Ian Pearson: The aim of Knowledge Transfer Partnerships (KTPs) is to strengthen the competitiveness and wealth creation of the UK by the stimulation of innovation in business through collaborative partnerships with the UK knowledge base. Businesses of all sizes in most industries and commercial sectors can take part.

No specific assessment has been made of the contribution KTPs can make to university spinout businesses. However, in July 2007 the Technology Strategy Board (TSB) took over responsibility for Knowledge Transfer Partnerships, and the TSB is currently considering how best to meet the needs of different types of businesses.

Higher Education

Paul Holmes: To ask the Secretary of State for Innovation, Universities and Skills how many students gained a place at a higher education institution in the last period for which figures are available; and if he will make a statement. [196480]

Bill Rammell: The latest figures published by the Universities and Colleges Admissions Service (UCAS) show that the number of applicants who have been accepted for entry to full-time undergraduate courses in 2007 was up by 6 per cent. compared to 2006. They have also exceeded the large increase in 2005, which means the 2007 figures are the highest ever. The small downturn which we saw in 2006, which we always anticipated, has been strongly reversed this year.

Age: Discrimination

Nick Harvey: To ask the Secretary of State for Innovation, Universities and Skills what steps the Government have taken to identify and record instances of age discrimination in the workplace. [164128]

Mr. McFadden: I have been asked to reply on behalf of my right hon. Friend the Secretary of State for Innovation, Universities and Skills.

Neither the European Framework Directive (2000/78/EC) nor the Employment Equality (Age) Regulations, which implement the age strand of the directive, require instances of age discrimination in the workplace to be identified and recorded. Instances of age discrimination that individuals have challenged through the employment tribunal system are recorded. Data about cases are available in the employment tribunal and EAT statistics for the year to 31 March 2007 at:

www.employmenttribunals.gov.uk/publications/documents/annual_reports/ETSAS06-07.pdf

We shall be monitoring the effectiveness of the legislation through the second Survey of Employers Policies, Practices and Preferences Relating to Age in 2009 and through the second Fair Treatment at Work Survey later this year which looks at perceptions of discrimination in the workplace.

Departmental Publications

Mr. David Jones: To ask the Secretary of State for Innovation, Universities and Skills what guidance is issued to members of his Department on the authorship and publication on the internet of material relating to their official duties; and if he will make a statement. [196742]

Bill Rammell: The guidance currently offered to staff comprises:

The Civil Service Code, covering the values and standards civil servants are expected to uphold, in terms of integrity, honesty, objectivity and impartiality.

Staff policies on involvement with publications, broadcasting, lectures, conferences and surveys; acceptable usage of IT; political activities; official information and data protection; and whistleblowing.

We are working with the Cabinet Office to develop cross-government guidance on use of social media by Government, including the propriety and ethical issues raised. This is due for publication in April.

Departmental Video Conferencing

Norman Baker: To ask the Secretary of State for Innovation, Universities and Skills if he will set a target to increase the use of video conferencing by his Department to reduce the need to travel to meetings. [195861]

Bill Rammell: The Department for Innovation, Universities and Skills is committed to reducing the need to travel to meetings where this is practicable and appropriate. Our departmental blueprint sets out our vision to be innovative and have exemplary business operations. In developing our new headquarters building, Kingsgate House, we have installed state-of-the-art video conferencing and telepresence facilities, as well as phone conferencing. E-conferencing is also being used to give people the ability to attend meetings from their desks by accessing a shared workspace which enables interaction with colleagues. Our wide range of video conferencing facilities provide for ad-hoc one-to-one conversations as well as formal planned meetings and committees. These are seen as really positive steps within the Department and I do not believe that to develop an artificial target to increase video conferencing usage would deliver any additional benefits.

Educational Institutions: Community Relations

Mr. Flello: To ask the Secretary of State for Innovation, Universities and Skills what guidance his Department has issued to educational establishments on promoting shared values and combating violent extremism. [196494]

Bill Rammell: On 22 January, we issued guidance to higher education institutions on promoting good campus relations, fostering shared values and preventing violent extremism on HE campuses.

On 11 February we also launched a consultation with the further education sector on its role in this area and the support providers need.

Higher Education: Business

Gordon Banks: To ask the Secretary of State for Innovation, Universities and Skills what his assessment is of the contribution universities make to business. [196497]

Bill Rammell: Universities make an important contribution to business through research, knowledge transfer, innovation and work force development, in addition to supplying skilled and knowledgeable graduates. We have invested in university-business collaboration through increases in the Higher Education Innovation Fund and Knowledge Transfer Partnerships and a stronger focus on the economic impact of research. Work force development is less developed and we will consult through a Higher Level Skills Strategy on how universities can better meet this challenge.

Personal Records: Databases

Adam Price: To ask the Secretary of State for Innovation, Universities and Skills which *(a)* companies based in the United States and *(b)* UK subsidiaries of US companies have been contracted by his Department and its agencies to provide services involving the use, storage, processing and analysis of databases of personal information held by the Government on UK citizens during the last five years. [183857]

Bill Rammell: The Department for Innovation, Universities and Skills (DIUS) was created by the Prime Minister on 28 June 2007.

HEFCE

Contracts with IPSOS/MORI for the purpose of carrying out the National Student Survey. As part of this contract, IPSOS/MORI transfers some data to a US company called SPSS Inc.

FE

The following research organisations to whom both DIUS and LSC have supplied ILR data to in the last five years and who appear to be UK subsidiaries of US companies:

ORC International: part of Opinion Research Corporation who are based in Princeton, New Jersey.

Guidance Enterprise: GE Research.

BMRB Social Research: they are part of Millward Brown, who in turn are part of Kantar Group, a company based in Connecticut.

CACI Ltd.: they are a subsidiary of CACI International Inc. who are based in the US.

Student Loans Company

The Oracle Corporation in the US hold and process the HR and finance data for the Student Loans Company on the Oracle system. These systems do 'not' meet the definition of a "database" as advised by the Cabinet Office.

The Government takes the protection of personal data extremely seriously. Data exchanges between the Student Loans Company and HMRC have all been reviewed following the Chancellor's statement on

20 November to ensure they meet the appropriate security standards. No breaches of data protection protocols have occurred in respect of student loan administration. Furthermore, the provisions catering for the sharing of information in the Sale of Student Loans Bill will strengthen the framework for legal protection of data in respect of all loans, whether sold or unsold. The Bill will extend an existing criminal sanction prohibiting the wrongful disclosure of HMRC information outside the terms of the legislative gateway.

Written Answers to Questions

Monday 31 March 2008

ELECTORAL COMMISSION COMMITTEE

Electronic Voting

Mr. Pickles: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what guidance or advice the Electoral Commission has provided on the use of electronic counting machines following faults with equipment supplied by Data Research Services in Scotland. [195296]

Peter Viggers: The Electoral Commission informs me that it has not issued guidance on the use of electronic counting machines. However, after the publication of the Gould report on the May 2007 elections in Scotland, the Electoral Commission published its views on steps that it believes the Government should take before e-counting is used in any further statutory elections.

SCOTLAND

Departmental Advertising

Mr. Jeremy Browne: To ask the Secretary of State for Scotland pursuant to the answer of 18 February 2008, *Official Report*, column 452W, on departmental advertising, how much is represented by each of the percentages given. [197456]

David Cairns: The figures are:

	£
SO/OAG	
1999-2000	26,861
2000-01	270,494
2001-02	186,564
2002-03	10,390
SO (only)	
2003-04	Nil
2004-05	Nil
2005-06	Nil
2006-07	17,510

LEADER OF THE HOUSE

Departmental Domestic Visits

Mr. Willis: To ask the Leader of the House what visits she made to *(a)* Harrogate International Centre, *(b)* International Conference Centre, Birmingham, *(c)* Manchester Central, *(d)* Scottish Exhibitional and Conference Centre, Glasgow, *(e)* Edinburgh International Conference Centre, *(f)* Bournemouth International Conference Centre, *(g)* the Brighton Centre, Brighton, *(h)* the Riviera Centre, Torquay, *(i)* Queen Elizabeth Centre, London, *(j)* Excel Conference Centre, Docklands, London and *(k)* Business Design Centre, Islington, London, in the period 1 January 2005 to 31 December 2007; and what events she attended at each. [197157]

Helen Goodman: Neither my right hon. and learned Friend, the Leader of the House, nor any of her predecessors visited any of the listed venues in a ministerial capacity as Leader of the House between 1 January 2005 and 31 December 2007.

Members: Expenses

John Mann: To ask the Leader of the House how many hon. Members make direct contributions to the Parliamentary Resources Unit from their Incidental Expenses Provision. [197724]

Helen Goodman: In financial year 2007-08, 93 Members have made payments to the Parliamentary Resources Unit from their incidental expenses provision. In addition, 34 Members have made such payments from other allowances.

OLYMPICS

London 2012: Pay

Mr. Hayes: To ask the Minister for the Olympics how many staff in each salary band are employed in the management of the London 2012 Olympics. [190239]

Tessa Jowell: In relation to the Government Olympic Executive (GOE):

There are currently 63 members of staff working in the GOE, on the management of the Olympic and Paralympic Games.

GOE is the client for the Games on behalf of central Government. Senior staff members of GOE bring significant high-level commercial and financial experience in major, complex construction and infrastructure programmes, and policy delivery, in order to provide effective oversight of this process. Their rates of pay reflect this.

GOE's Director General has a salary of £220,000 per annum and the salary of the Director of Build and Finance is £180,000 per annum.

Four senior staff are in the senior civil service pay band 1 (£56,100 to £116,000); and three are in the senior civil service pay band 2 (£81,60.0 to £160,000).

40 members of GOE staff are in the DCMS pay bands shown in the following table:

	Number	*Minimum*	£ *Maximum*
A (Upper)	3	49,918	64,065
A	14	42,770	52,985
B	19	27,560	35,335
C	2	21,242	25,178
D	2	16,796	20,395

Note:
Grades A(Upper) to D pay Scales based on August 2007 settlement.

A further 14 people working in GOE are employed through agencies on an interim basis.

In relation to the Olympic Delivery Authority (ODA):

ODA employees are paid individual salaries (often known as "spot rate pay") within a broad pay band structure, which allows for a wide range of jobs to be accommodated within a relatively small number of pay bands. This allows pay to be managed more flexibly in response to rapid organisational change or market-pressure. The basic salary bands of permanent ODA staff, excluding ODA's Chief Executive Officer (up to February 2008) are as follows:

Band	Number of staff	Minimum (£)	Maximum (£)
CEO	1	n/a	n/a
5	7	129,375	331,200
4	26	62,100	129,375
3	69	41,400	93,150
2	29	31,050	51,750
1	45	20,700	41,400

The ODA's Chief Executive has a salary of £372,600.

The ODA salary bands reflect the need to recruit and retain the expertise needed to deliver this unique, complex, and time limited challenge. The challenge of the ODA is without precedent and is one of the biggest jobs in the construction industry. Given the fixed deadline and the need for specialist skills in engineering, design, planning, construction, project management and other specialist areas, the ODA has had to recruit expertise most often found in the commercial sector. Rates of pay are therefore reflective of this and comparable with industry levels.

In relation to the London Organising Committee of the Olympic Games and Paralympic Games Ltd (LOCOG):

LOCOG is a private company. It therefore publishes summary information about expenditure on staff salaries in its annual report, which is publicly available from Companies House.

In relation to the wider Olympic family:

Within the wider Olympic Family, staff involved in the management of the Games are employed by many other organisations, for example, by other parts of Government, the Greater London Authority (GLA), the London Development Agency (LDA), the British Olympic Association (BOA), and the British Paralympic Association (BPA). Salary information for each organisation can be found in their respective annual reports.

Olympic Games 2012: Expenditure

Mr. Hoban: To ask the Minister for the Olympics pursuant to the answer of 7 February 2008, *Official Report*, column 1298W, on Olympic Games 2012: expenditure, (1) how much each of the approved projects will cost; [189365]

(2) what the 19 approved projects with expenditure over £20 million are. [189366]

Tessa Jowell: I refer the hon. Member to the answer I gave him on 27 March 2008, *Official Report*, column 371W.

Olympic Games 2012: Finance

Hugh Robertson: To ask the Minister for the Olympics when she plans to publish estimated costs for (*a*) the aquatic centre, (*b*) the velodrome, (*c*) the international broadcast centre/media and press centre and (*d*) the athletes village. [197581]

Tessa Jowell: We will make an announcement shortly that will include an update on the Aquatics Centre and the Velopark, of which the Velodrome is the main component. The combined public sector budget for the IBC/MPC and athletes village is £492 million (inc. VAT) as announced in December 2007. However, as the negotiations on both projects are continuing and commercially sensitive, it is not yet possible to announce information on costs.

Hugh Robertson: To ask the Minister for the Olympics (1) what assessment she has made of the impact of instability in the financial markets on provision in the Olympics 2012 budget for (*a*) the athletes village and (*b*) the international broadcast centre/media and press centre; and what the current estimated budget for each venue is; [197582]

(2) whether she has had recent discussions with Bovis/Lend Lease on the size of the public sector contribution to the athletes village. [197583]

Tessa Jowell: The Olympic Delivery Authority (ODA) and officials from the Government Olympic Executive are meeting regularly with Bovis Lend Lease, the Department for Communities and Local Government and the Department for Children Schools and Families as commercial discussions continue.

The combined public sector budget for the IBC/MPC and the Olympic Village is £492 million (inc. VAT). However, the exact value of the overall public sector contribution will be finalised as these negotiations are closed out over the coming weeks. Negotiations are also still under way with potential developers of the International Broadcast Centre and Main Press Centre. In both cases, as sensitive commercial dialogue continues, the details of any potential impact of the current economic situation, or the project costs cannot yet be announced.

Hugh Robertson: To ask the Minister for the Olympics when she plans to start publishing (*a*) monthly cashflow and (*b*) quarterly financial updates for the 2012 Olympic Games. [197585]

Tessa Jowell: Cross-party support and proper scrutiny on the progress we are making on the Olympics is critical to the success of the games. To maintain this and to provide transparency on the games, we will publish a progress and financial report every six months—the first was published on 23 January 2008 and the next is due in June 2008. In addition I have put in place arrangements so that the hon. Member and other Opposition spokesmen may receive regular briefings on Olympic progress, including costs and cash flows. These will continue.

The Olympic Board receives monthly reports including cashflows and publication of these would not be appropriate as this could give rise to commercial disadvantages.

The Government have already made much information available, for example, Chapter 20 of the CSR White Paper published on 9 October 2007 sets out the Government's contribution for the next three years (2008-09 to 2010-11). The balance of the funding requirement will be met, as planned in March 2007, from contributions from the Mayor of London (GLA and IDA); from funding already coming in from Olympic lottery games; from the funds to be transferred from the National Lottery Distribution Fund; and from funds from the Sports Lottery Distributor.

Further details of ODA's annual cash flows will be set out in future business plan summaries, which will be published in the coming weeks.

Olympic Games 2012: Ministerial Responsibility

Hugh Robertson: To ask the Minister for the Olympics what Ministerial responsibility she has to ensure the continuation of the informal cross-party agreement for co-operation over the Olympic Games. [197584]

Tessa Jowell: Cross-party support for the Olympics is critical to the success of the games. So I have put in place arrangements for quarterly briefings on our progress and finances for opposition spokesmen (both in this House and in the other place) and for the Culture, Media and Sport Select Committee. I have also committed to provide an Olympics Annual Report to Parliament (the first of which was published in January), supplemented by a six-monthly update.

HOUSE OF COMMONS COMMISSION

Cars: Hire Services

Norman Baker: To ask the hon. Member for North Devon, representing the House of Commons Commission how much was spent on *(a)* car hire and *(b)* taxis in each year since 1997; and whether specifications have been set out in respect of the type of cars to be hired. [195942]

Nick Harvey: The main uses of car hire and taxis are for late night staff transport and use of the government car service. Figures are only readily available from 2003.

	Late night transport (£)	*Government car service (£)*
2003-04	215,204	40,143
2004-05	272,377	31,331
2005-06	293,847	31,946
2006-07	390,027	27,841
(to date)	404,399	31,195

Both black cabs and contracted car hire services are used for these services. The type of vehicle provided will depend on the number of passengers to be carried.

Departmental Expenses

John Mann: To ask the hon. Member for North Devon, representing the House of Commons Commission what the 24-hour overnight allowance is for staff employed by the House of Commons Commission when working outside London but in the UK. [197344]

Nick Harvey: Staff away from home on official business may claim for the cost of meals and accommodation. For overnight stays the cost of bed and breakfast is reimbursed directly. In addition an allowance is paid to cover main meals; for areas outside inner London this is £18.65 in any 24 hour period. A personal or incidental expenses allowance of £5 per night is also payable.

Drinking Water

Norman Baker: To ask the hon. Member for North Devon, representing the House of Commons Commission pursuant to the answer of 20 March 2008, *Official Report*, columns 1311-2W, on drinking water, if the Commission will make it its policy to provide tap water in addition to bottled water in committee and meeting rooms while the re-examination of policy on the provision of drinking water is underway. [197525]

Nick Harvey: The standing recommendation from the Administration Committee is for the provision of bottled water in committee rooms. The Department of Facilities is re-examining the issue and no further action will be taken until the Administration Committee has had the opportunity to consider the matter.

Internet: Biofuels

Mr. Hoban: To ask the hon. Member for North Devon, representing the House of Commons Commission how many people accessed the parliamentary podcast pilot on biofuels in the 24 hours following its launch. [196649]

Nick Harvey: In the first 24 hours after the parliamentary podcast pilot launch the biofuels recording was accessed by four users who subscribed to the podcast Really Simple Syndication (RSS) feed. In the first week of launch 452 visitors viewed the biofuels pages on the parliamentary website.

Mineral Waters

Norman Baker: To ask the hon. Member for North Devon, representing the House of Commons Commission what proportion of glass from bottles containing drinking water on sale in parliamentary canteens or provided by House departments for hon. Members' use was *(a)* recycled and *(b)* sent for disposal in landfill sites in the most recent year for which figures are available; and what the estimated cost was to departments of the House of providing bottles of water in each year since 1997. [194558]

Nick Harvey: All glass from bottles containing drinking water on sale in parliamentary canteens or provided by House departments for hon. Members' use is recycled.

The cost of bottled water provided by the House of Commons in each of the last five financial years is estimated in the table. Costs are not available prior to 2002. Catering and Retail Services sells water to its customers at a profit, and so the cost of water purchased for sale in the catering outlets (item *(a)* in the following table) is not a cost to the House.

Cost of bottled water purchases	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*
(a) Catering and Retail Services	[1]58,832	[1]55,895	47,820	53,188	49,271
(b) Committee Rooms	n/a	n/a	8,357	6,656	8,340
(c) Office supplies[1]	n/a	5,165	7,449	6,095	6,988
Estimated total cost of purchases	58,832	61,060	63,626	65,939	64,599

[1] incl. committee rooms
[2] estimated

Palace of Westminster: Screening

Mr. Bone: To ask the hon. Member for North Devon, representing the House of Commons Commission what representations the Commission has received on the provision of a mobile screening unit for bowel cancer in the Palace of Westminster. [197673]

Nick Harvey: There have been no representations to the Commission about the provision of a mobile screening unit for bowel cancer in the Palace of Westminster. However, a bowel cancer awareness day was held in the Attlee suite, Portcullis House on 20 April 2006. The joint parliamentary medical panel has taken the view that it is impractical for mobile screening to be carried out on the parliamentary estate.

Palace of Westminster: Waste Management

Julia Goldsworthy: To ask the hon. Member for North Devon, representing the House of Commons Commission how much waste was sent to landfill by the House in each year since 1997. [197405]

Nick Harvey: No waste from the parliamentary estate has been sent to landfill since 1998. A proportion of the waste is reused and recycled and what cannot be reused or recycled is sent to a power plant where it is burnt to generate electricity. Of the waste from the power plant; the larger clinker waste is used in road base construction and the finer dust waste is sent to landfill. During 2006-07, the parliamentary estate sent 1,173 tonnes of waste to the power plant. This waste is mixed with waste from other buildings and it is not possible to determine how much dust waste results from the burning of the parliamentary waste and consequently, how much dust waste is sent to landfill.

Rackspace

Mr. Hands: To ask the hon. Member for North Devon, representing the House of Commons Commission what the value was of each contract awarded to Rackspace by the House of Commons Commission in each of the last nine years. [197521]

Nick Harvey: There is no record of Rackspace having any contract with the House.

WALES

Brofiscin Quarry: Hazardous Substances

Mr. Hancock: To ask the Secretary of State for Wales pursuant to his Answer of 17 March 2008, *Official Report*, column 819W, on Brofiscin Quarry: hazardous substances, what the timetable was of action taken by the Environment Agency since 2001 when they have been involved in site investigations at Brofiscin Quarry; and if he will make a statement. [196354]

Mr. Paul Murphy: I am informed by the Environment Agency Wales that under part 2A of the Environmental Protection Act 1990, Brofiscin Quarry was designated as a 'special site' by Rhondda Cynon Taf county borough council in March 2005. At that time the Environment Agency began its investigations of Brofiscin Quarry pursuant to the provisions of the Act. Those investigations are currently ongoing.

The Environment Agency is currently concluding a remedial options appraisal in accordance with the relevant legislation and statutory guidance. The Environment Agency has liaised with local residents and other interested parties throughout its investigations.

Departmental Alcoholic Drinks

Mr. Weir: To ask the Secretary of State for Wales at how many events held by his Department *(a)* wine and *(b)* Fairtrade wine were served in the last three years, and what assessment his Department has made of the merits of serving Fairtrade wine at future events. [196936]

Mr. Paul Murphy: In the last three years my Department has held 15 events where wine has been served, none of the wine was fairtrade.

When catering for future functions in London and Cardiff, where possible and consistent with value for money, the purchase of fairtrade wine and locally sourced wine will be considered.

Suicide: Young People

Dr. Francis: To ask the Secretary of State for Wales if he will discuss the co-ordination of support services for suicide prevention amongst young people with the First Minister of the Welsh Assembly Government; and if he will make a statement. [196782]

Mr. Paul Murphy: I regularly discuss a range of issues with the First Minister of the Welsh Assembly Government including the co-ordination of support services for suicide prevention among young people in Wales.

The Welsh Assembly Government and local services in Bridgend are working in full collaboration with the police service to analyse the recent tragic deaths within the Bridgend county borough. This analysis is being used to inform the development of an all Wales Suicide Prevention Action Plan.

It is of enormous encouragement that the many voluntary and support organisations, the health and social care agencies and the police, which all do tremendous work in the management of vulnerable children, young people and adults, continue to work in close collaboration.

By continuing this work, and through improvements to interagency joint arrangements, training and awareness raising across agencies, we hope to reduce occurrence of these tragic incidences.

SOLICITOR-GENERAL

Genetics: Databases

David Davis: To ask the Solicitor-General how many individuals matched to UK records from the Dutch disk of DNA profiles sent to the Crown Prosecution Service are *(a)* the subject of extradition requests by the Dutch authorities and *(b)* subject to a UK arrest warrant. [197055]

The Solicitor-General: As part of an initiative to exchange data between the United Kingdom and the Netherlands, 2,159 DNA profiles from crime scenes in the Netherlands have been searched against the UK National DNA Database. The DNA matches identified as a result are now the subject of ongoing police investigations, both here and in the Netherlands.

Data arising as a result of this continuing police operation are liable to change subject to developments both here and in the Netherlands, and no information can be released which might in any way jeopardise ongoing investigations.

Racially Aggravated Offences: Prosecutions

John Mann: To ask the Solicitor-General how many prosecutions for racial hatred offences there were in each of the last 10 years. [197323]

The Solicitor-General: The Attorney-General's consent is required for prosecutions under Part III of the Public Order Act 1986 (relating to offences concerning conduct intended to, or likely to, stir up racial hatred). The Attorney- General's Office (AGO) keeps statistics in relation to prosecutions where such consent has been granted. The following table captures the relevant data for 1998 to 2008 inclusive. The statistics are recorded by reference to the year in which each case was referred to the Crown Prosecution Service by the police, rather than the year in which an offender was charged or convicted.

	Prosecutions
1998	0
1999	5
2000	8
2001	2
2002	1
2003	8
2004	8
2005	2
2006	3
2007	0
2008	0
Total	44

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Culture: Exports

Mr. Maude: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what share of the UK's media exports were provided by the *(a)* video games, *(b)* television and *(c)* film industries in each year since 1997. [196877]

Margaret Hodge: have been asked to reply.

The following table shows the value of UK exports of services for the creative industries provided by the *(a)* 'software, computer games and electronic publishing' *(b)* 'radio and TV' and *(c)* 'Video, film and photography' sectors. The share of UK 'media' exports is not available, so the share of all 'creative industries' exports has been provided instead. This share is only shown from 2000 onwards since data for total creative industries exports are not available in earlier years.

Exports of services for selected Creative Industries sectors (value, £ million)

	Software, games and electronic publishing		*Radio and TV*		*Video, film and photography*		*Total*	
	Value	*Share (%)*	*Value*	*Share (%)*	*Value*	*Share (%)*	*Value*	*Share (%)*
1997	1,400	—	500	—	710	—	n/a	—
1998	1,700	—	640	—	680	—	n/a	—
1999	2,300	—	730	—	730	—	n/a	—
2000	2,500	26	690	7	940	10	9,500	100
2001	3,900	35	910	8	910	8	11,000	100
2002	3,500	31	1,000	9	840	7	11,300	100
2003	3,900	34	1,000	9	810	7	11,600	100

Exports of services for selected Creative Industries sectors (value, £ million)

	Software, games and electronic publishing		*Radio and TV*		*Video, film and photographs*		*Total*	
	Value	*Share (%)*	*Value*	*Share (%)*	*Value*	*Share (%)*	*Value*	*Share (%)*
2004	4,700	36	1,300	10	940	7	13,000	100
2005	4,800	33	1,300	9	1,200	8	14,600	100

n/a = not available

Source:

DCMS Creative Industries Economic Estimates statistical bulletin (Oct 2007) - based primarily on data from International Trade in Services, Office for National Statistics (ONS)

Total creative industries exports include exports of services in the following sectors: 'advertising', 'architecture', 'art and antiques', 'design', 'video, film and photography', 'music and the visual and performing arts', 'publishing', 'software, computer games and electronic publishing' and 'radio and TV'. Exports for the 'crafts' and 'designer fashion' sectors are excluded as consistent data are not available.

The 'software, computer games and electronic publishing' sector comprises all firms classified in official business data under 'publishing of software', 'other software consultancy and supply' or 'reproduction of computer media' (only 25 per cent. of this class is included). Games development firms likely represent only a small proportion of this sector.

The 'radio and TV' sector comprises firms classified in official business data under 'radio and television activities'.

The 'video, film and photography' sector comprises firms classified in official business data under 'reproduction of video recording' (25 per cent. only), 'photographic activities' (25 per cent. only), 'motion picture and video production', 'motion picture and video distribution' or 'motion picture projection'.

The UK Film Council also produces figures for the value of exports of services specifically by the film industry—as opposed to the wider 'video, film and photography' sector. Also based on ONS data, they estimate that these exports totalled £967million in 2005.

Post Offices: Closures

Mr. Clifton-Brown: To ask the Secretary of State for Business, Enterprise and Regulatory Reform for how long the outreach provision provided by his Department to the eight post offices in the Cotswolds will be maintained. [196994]

Mr. McFadden: This is an operational matter for Post Office Ltd. (POL). I have therefore asked Alan Cook, managing director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Ben Chapman: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how postmasters whose post offices have been closed are reimbursed for the length of their leases; and if he will make a statement. [197112]

Mr. McFadden: This is an operational matter for Post Office Ltd. (POL). I have therefore asked Alan Cook, managing director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

John Barrett: To ask the Secretary of State for Business, Enterprise and Regulatory Reform which post office branches have (*a*) closed and (*b*) opened in the City of Edinburgh local authority area since 1997. [197360]

Mr. McFadden: This is an operational matter for Post Office Ltd. (POL). I have therefore asked Alan Cook, managing director, of POL to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Post Offices: York

Hugh Bayley: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many transactions per week, on average, there were across post office counters in York in each of the last three years. [197136]

Mr. McFadden: This is an operational matter for Post Office Ltd. (POL). I have therefore asked Alan Cook, managing director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Video Games

Mr. Maude: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the value was of exports by the UK games development sector in each year since 1997. [196976]

Margaret Hodge: I have been asked to reply.

Information on the value of exports specifically by the UK games development sector is not available.

The value of UK exports of services in the 'software, computer games and electronic publishing' sector is published in the annual DCMS Creative Industries Economic Estimates statistical bulletin. Games development firms likely represent only a small proportion of this sector.

Exports of services for the software, computer games and electronic publishing sector

	(£ million)
1997	1,400
1998	1,700
1999	2,300
2000	2,500
2001	3,900
2002	3,500
2003	3,900

Exports of services for the software, computer games and electronic publishing sector

	£ million
2004	4,700
2005	4,800

Source

DCMS Creative Industries Economic Estimates statistical bulletin (October 2007)—based on data from 'International Trade in Services', Office for National Statistics.

The software, computer games and electronic publishing sector comprises all firms classified in official business data under 'publishing of software', 'other software consultancy and supply' or 'reproduction of computer media' (only 25 per cent. of this class is included).

Winter Fuel Payments: South Yorkshire

Jeff Ennis: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many people received the winter fuel payment in *(a)* Barnsley, East and Mexborough constituency, *(b)* Barnsley Metropolitan Borough and *(c)* Doncaster Metropolitan Borough in the most recent period for which figures are available. [195759]

Mr. Mike O'Brien: I have been asked to reply.

The information is in the following table. We expect the numbers to be similar for winter 2007-08.

Winter fuel payments made in winter 2006-07

	Number
Barnsley, East and Mexborough constituency	17,870
Barnsley Metropolitan Borough	46,010
Doncaster Metropolitan Borough	59,520

Notes

1. Figures rounded to the nearest 10.
2. Parliamentary constituencies and local authorities are assigned by matching postcodes against the relevant ONS postcode directory.

TRANSPORT

A14: Kettering

Mr. Hollobone: To ask the Secretary of State for Transport for what reasons the Highway Agency intends to restrict local vehicular access to the A14 around Kettering. [196701]

Mr. Tom Harris: The Highways Agency is working with Northamptonshire county council to identify a package of transport measures to minimise and manage traffic generated by the proposed growth in North Northamptonshire and ensure the smooth running of the existing A14 around Kettering.

This includes investigating a number of new and proven techniques which could be introduced in the short to medium term and which are designed to make the most of the existing A14 around Kettering. One such technique, involving installing traffic signals on slip roads, is designed to regulate and improve flow on the A14. A decision on its implementation would follow the results of the current feasibility study.

Aviation: Railways

Norman Baker: To ask the Secretary of State for Transport what information she has obtained as part of her assessment of the potential for high-speed rail on the number and percentage of passengers switching from air to rail services where high-speed rail lines have been opened in France. [197542]

Mr. Tom Harris: The Department for Transport has made no specific assessment of the shift from air to rail services where high-speed rail lines have been opened in France.

Bus Services: Concessions

Stephen Hammond: To ask the Secretary of State for Transport which *(a)* local authorities, *(b)* local transport authorities and *(c)* passenger transport executives have made representations to her Department on the national concessionary bus fares scheme in the last 12 months. [195643]

Ms Rosie Winterton *[holding answer 25 March 2008]:* The Department for Transport has received representations on the new England-wide statutory minimum concession to be introduced on 1 April from all tiers of local government, including the Local Government Association, London Councils, Transport for London and the Passenger Transport Executive Group, as well as individual authorities.

Over 200 responses were received to the Department's consultation last autumn on the formula distribution for the special grant for the new England-wide concession from 1 April. A list of those who responded was included in the Department's Consultation Response Document: Local Authority special grant funding for the 2008 national bus concession in England, available on its website.

Stephen Hammond: To ask the Secretary of State for Transport whether local authorities will receive changes to their special grant for concessionary bus fares following representations made since the publication of the draft funding settlement; and if she will make a statement. [196273]

Ms Rosie Winterton *[holding answer 25 March 2008]:* The Local Government Finance Special Grant Report (No. 129) was laid before the House on 19 February 2008 and approved following a parliamentary debate on 25 March. The grant distribution reflects the likely burden of cost and is designed to direct funding towards visitor "hotspots" such as coastal towns, urban areas and others likely to experience an increase in concessionary bus journeys as a result of the new England-wide concession from 1 April.

Richard Younger-Ross: To ask the Secretary of State for Transport what the cost was of her Department's recent advertising campaign on the change in rules for the national concessionary bus fare scheme. [196826]

Ms Rosie Winterton: The total communications budget for our concessionary fares publicity campaign is £1.3 million, of which media spend on advertising is £809,600 covering press, magazine and outdoor poster advertising.

Mr. Harper: To ask the Secretary of State for Transport what the reasons were for giving the responsibility for and finance of national concessionary bus fare schemes to district councils; and whether she plans to alter this arrangement. [196996]

Ms Rosie Winterton *[holding answer 27 March 2008]*: District councils have been responsible for the statutory concessionary travel scheme since its introduction in 2000. This is consistent with their historic role in licensing bus services prior to deregulation, and their work in other areas such as taxi licensing.

The Concessionary Bus Travel Act 2007 contains powers allowing Ministers, subject to future consultation and parliamentary scrutiny, to make secondary legislation which would transfer concessionary travel responsibilities from lower tier (district councils) to higher tier authorities (county councils). It would not have been prudent to make such a radical change less than a year before the introduction of the new England-wide statutory minimum concession from 1 April, particularly when those with existing responsibility for concessionary travel were in the process of issuing over six million new passes to a tight timetable.

David Wright: To ask the Secretary of State for Transport if she will make an estimate of the annual cost of providing a free bus pass for pensioners which could be used for travel across local authority boundaries on a national basis. [197531]

Ms Rosie Winterton: Our assessment of the likely cost impact of the new England-wide concession is based on generous assumptions about pass take-up, fares and increased patronage. On this basis, for 2008-09 we have allocated an additional £212 million (rising to £217 million and £223 million in the following years) to travel concession authorities in England from 1 April, enough to fund around an extra 200 million bus journeys in local authorities across England.

Our current focus remains on ensuring the successful introduction of the new England-wide concession on 1 April and at this stage we have made no detailed assessment of the cost of introducing mutual recognition of concessionary bus passes between Scotland, Wales and England.

Bus Services: Finance

Hugh Bayley: To ask the Secretary of State for Transport how much the Government contributed to the cost of running bus services in York from *(a)* 1987 to 1997 and *(b)* 1997 to 2007. [197182]

Ms Rosie Winterton: Rural Bus Subsidy Grant (RBSG) was introduced in 1998 to help local authorities provide support for bus services. The City of York has to date received a total of £1,046,716 in RBSG from the Department.

York has also received a total of £415,000 in support under the Rural Bus Challenge competition, also introduced in 1998.

Local authorities may also use funding from the Government's unhypothecated Revenue Support Grant to support local bus services.

Bus companies operating in and around York also receive Bus Service Operators Grant from the Department. This is a payment equivalent to about 80 per cent. of the fuel duty operators incur in providing local bus services. However, as BSOG is a payment direct to operators, statistics are not kept of payments by local authority or geographical area.

Bus Services: York

Hugh Bayley: To ask the Secretary of State for Transport what estimate she has made of the number of passengers carried by buses in York in each year since 1987. [197184]

Ms Rosie Winterton: The information requested is not available from the DFT annual survey of bus operators. Local authority estimates of bus passenger journeys are published by the Audit Commission.

Cycleways

Mrs. Villiers: To ask the Secretary of State for Transport how many new cycle lanes and tracks have been created in each year since 1997, broken down by local authority area. [197692]

Ms Rosie Winterton: Data are available only from 2001-02. We do not have comprehensive audited returns which give reliable figures at local authority level. In addition, some authorities are no longer required to submit returns.

Cycling: Finance

Charles Hendry: To ask the Secretary of State for Transport what sources of funding are made available by *(a)* her Department and *(b)* organisations which report to her Department for the development of national cycle routes. [197737]

Ms Rosie Winterton: The Department announced in January a £140 million investment for its cycling delivery body, Cycling England, over the next three years to complement local authority spend. This has a number of programmes including new routes to around 500 schools, building on the successful Links to Schools programme. In addition, £18.4 million of Government funding since 2005 has provided 295 Links to Schools which link over 600 schools and form part of the National Cycle Network (NCN).

£47 million has also been allocated on extending the Cycling Demonstration Towns (CDT) programme to up to 17 towns including a large city. The outcome of the bidding process for new CDTs is due to be announced later this year. Until the new CDTs and six existing ones develop their future programmes, it is not possible to say what the precise funding will be for increasing the cycle network in the CDTs.

Local authorities provide on and off road cycle facilities such as cycle tracks and cycle lanes, using their Local Transport Plan (LTP) Integrated Transport Block grant from the DfT (which covers schemes costing less than £5 million and includes such cycle

schemes) plus their own funding, the DfT Integrated Transport Block grant to local authorities is £372 million for 2008-09. The Department has encouraged local authorities to develop a cycling strategy as part of the LTP process from 2006 to 2011. It is for local authorities to determine the development of the local cycle networks as part of that strategy. Sustrans, who have developed the NGN, then work with local authorities to link the local networks to it. The Department is also providing £2.5 billion in 2008-09 to the Mayor of London through a Total Transport grant. The Mayor is responsible for determining how much is spent on cycling and the development of cycle networks in London.

The above covers England only as that is the Department's responsibility. Responsibility for cycling in Scotland, Wales and Northern Ireland is a devolved matter for the administrations there.

Departmental Training

Mr. Hands: To ask the Secretary of State for Transport how much was spent on speech coaching and related consultancy for Ministers in her Department in each of the last 12 months. [197498]

Jim Fitzpatrick: For the last 12 months there has been no expenditure in relation to the above.

Departmental Working Hours

Mr. Hoban: To ask the Secretary of State for Transport how many hours *(a)* in total and *(b)* on average per employee were worked by civil servants in her Department in the last year for which records are available. [195817]

Jim Fitzpatrick: Contracted hours are managed locally in the Department with no single system used to centrally monitor hours worked. As such, the information requested could be provided only at disproportionate cost.

East Coast Railway Line: Standards

Hugh Bayley: To ask the Secretary of State for Transport what the level of punctuality of trains on the East Coast Main Line *(a)* has been since National Express started running the service and *(b)* was in the last year of the Great North Eastern Railway's operation of the franchise. [197181]

Mr. Tom Harris: National Express East Coast (NXEC) started its services on 9 December 2007. NXEC's current Moving Annual Average Public Performance Measure for punctuality is 82.5 per cent. and the target is 84.7 per cent. (as of 1 March 2008).

As at 8 December 2007 (which was GNER's last day of operation on the East Coast Main Line) the Moving Annual Average Public Performance Measure for punctuality was 81.7 per cent. The target was 83.5 per cent.

Government Offices for the Regions

Julia Goldsworthy: To ask the Secretary of State for Transport which of her Department's programme budgets were administered by the Government Offices for the Regions in each of the last five years. [195171]

Jim Fitzpatrick *[holding answer 18 March 2008]:* The Government offices do not currently, nor have in the last five years, directly administered any programmes on behalf of the Department for Transport.

Great Western Trains

Mrs. Villiers: To ask the Secretary of State for Transport on what dates *(a)* she and *(b)* the Minister with responsibility for railways the hon. Member for Glasgow, South (Mr. Harris) met representatives of First Great Western in the last 12 months. [191711]

Mr. Tom Harris: The Secretary of State for Transport and the Under-Secretary, have met representatives of First Great Western on the following dates in the last 12 months:

Secretary of State

19 July 2007

25 February 2008

Parliamentary Under-Secretary

24 May 2007

26 June 2007

19 July 2007

23 October 2007

30 January 2008

Local Transport Bill: Welsh Assembly Government

Mrs. Gillan: To ask the Secretary of State for Transport whether clauses 115 and 116 in the Local Transport Bill were included at the request of the Welsh Assembly Government. [197494]

Ms Rosie Winterton: The Government are committed to enhancing the legislative competence of the National Assembly for Wales where appropriate. Clauses 115 and 116 were included in the Local Transport Bill at the specific request of Ministers in the Welsh Assembly Government.

Motorcycles: Bus Lanes

Bill Wiggin: To ask the Secretary of State for Transport if she will amend her Department's guidance to local authorities to support a policy of allowing motorcycles to use bus lanes; and if she will make a statement. [197589]

Ms Rosie Winterton: In line with actions set out in the Government's Motorcycling Strategy, my Department has already amended guidance to local authorities on the use of bus lanes by motorcycles.

In February 2007 the Department for Transport published Traffic Advisory Leaflet 2/07: The Use of Bus Lanes by Motorcycles. This makes clear to local highway authorities that it is for them to decide

whether or not to allow motorcycles to use bus lanes and encourages them to make an objective assessment of the issue.

The new guidance revises previous advice in Local Transport Note 1/97: Keeping Buses Moving, which recommended that motorcycles should not normally be permitted to use bus lanes.

Bill Wiggin: To ask the Secretary of State for Transport what the evidential basis is for the recommendations in her Department's Local Transport Note 1/97 against allowing motorcycles to use bus lanes. [197590]

Ms Rosie Winterton: The recommendation in Local Transport Note 1/97 includes an explanation that there was insufficient evidence at the time of publishing about the risk to pedestrians if motorcycles were allowed to use bus lanes as a default position.

However based on evidence from more recent studies, in February 2007 we issued new guidance in Traffic Advisory Leaflet 2/07, "The Use of Bus Lanes by Motorcycles". This makes clear to local highway authorities that it is for them to decide whether or not to allow motorcycles to use bus lanes and encourages them to make an objective assessment of the situation based on local factors. The new guidance revises our previous advice concerning this issue in LTN 1/97.

Motorcycles: Licensing

Bill Wiggin: To ask the Secretary of State for Transport what assessment she has made of the suitability of the provisions of the second European driving licence directive for motorcycles, with particular reference to the (*a*) adequacy and (*b*) safety of the swerve and brake test; and if she will make a statement. [196710]

Jim Fitzpatrick: The 50 kph avoidance manoeuvre, the controlled stop and an emergency stop at a minimum speed of 50 kph are three separate elements of the off-road manoeuvres element of the practical motorcycle riding test.

(*a*) The avoidance manoeuvre has been developed to simulate another road user pulling out into the path of the rider and therefore better prepare them for dealing with real life hazards. Both braking exercises allow competence to be assessed in handling of the front and rear brake, vision, direction and the position on the motorcycle.

(*b*) These exercises will take place in a secure environment off the public road. Candidates who display unsafe levels of control will not be allowed to continue with the on-road element of the test.

The manoeuvres exercise being introduced by the Driving Standards Agency is fully compliant with the European directive.

Parking: Disabled

Mr. Jim Cunningham: To ask the Secretary of State for Transport what steps the Government have taken to reduce fraudulent use of disabled parking. [195729]

Ms Rosie Winterton *[holding answer 25 March 2008]*: New regulations introduced on 15 October last year have changed the design of the Blue Badge to include a tamper proof hologram and a new gender specific number to aid parking enforcement. In addition, I recently announced the pilots of a tamper proof laminate to further prevent badge fraud.

In January 2008 I published new local authority guidance and launched a £0.5 million fund to promote improved enforcement at a local level. The Department for Transport is also consulting on proposals to improve enforcement of the Blue Badge scheme. This may include the creation of a secure machine readable badge and national data sharing.

Mr. Jim Cunningham: To ask the Secretary of State for Transport what steps the Government have taken to encourage businesses to provide sufficient disabled parking. [195730]

Ms Rosie Winterton *[holding answer 25 March 2008]*: The Department has published advice on provision and design of parking for disabled car users in Traffic Advisory Leaflet 5/95 "Parking for Disabled People" and "Inclusive Mobility: A Guide to Best Practice on Access to Pedestrian and Transport Infrastructure".

This includes specific advice on employment premises, shopping areas, leisure and recreational facilities.

Railway Services: Kettering

Mr. Hollobone: To ask the Secretary of State for Transport how many trains run from Kettering to Leicester per week day; and how many are planned do so from December 2008. [196703]

Mr. Tom Harris: Currently there are 42 services per day between Kettering and Leicester. The draft timetable for December 2008 shows 24, though the operator may run more if there is a commercial case for doing so and if paths are available.

Railway Stations

John Mann: To ask the Secretary of State for Transport what platforms of disused stations are still extant on railway lines in service. [197472]

Mr. Tom Harris: This is an operational matter for Network Rail and the Association of Train Operating Companies. The hon. Member should contact Network Rail's Chief Executive at the following address for a response to his question.

Iain Coucher
Chief Executive
Network Rail
40 Melton Street
London NW1 2EE

Railways

Mr. Lancaster: To ask the Secretary of State for Transport what the criteria are for deciding whether a train service should be non-stop between two specified stations. [197302]

Mr. Tom Harris: Decisions on calling patterns are based on a number of considerations. These include existing and future demand at the stations concerned; the amount of on-train capacity available to accommodate boarding passengers; the effect of stopping on other passengers' travel times; the impact of the call on resources such as line capacity and overall train fleet size; and the availability of alternative services.

Railways: Franchises

Norman Baker: To ask the Secretary of State for Transport for what reasons her Department does not allow train operating companies to acquire vehicles from rolling stock companies without her Department's agreement in cases where such acquisitions take place within the terms of an existing franchise. [194539]

Mr. Tom Harris: I refer the hon. Member to my answer given today (UIN 190552).

Railways: Standards

Joan Ryan: To ask the Secretary of State for Transport what steps her Department has taken to reduce overcrowding and improve punctuality for rail commuters in Enfield. [196796]

Mr. Tom Harris: Improving rail performance is a key objective for the Department and joint action plans are in place between Network Rail and National Express East Anglia (NXEA) to address performance issues. The most recent published Public Performance Measure (PPM) figures are those for the period from 6 January to 2 February 2008 when NXEA's PPM was 89.1 per cent. The NXEA moving annual average was 90.1 per cent. These compare to whole industry figures of 89.6 per cent and 89.6 per cent. respectively.

The Department's rolling stock plan, published on 30 January, showed NXEA receiving an extra 188 (new and cascaded) carriages. The new carriages will be used on the London to Stansted airport route, in turn releasing carriages to enhance capacity on other services.

Rapid Transit Systems

Mr. Leech: To ask the Secretary of State for Transport what weight she gives to the likely effect on *(a)* car journeys and congestion, *(b)* value added tax receipts, *(c)* fuel duty receipts, *(d)* carbon emissions, *(e)* air pollution and *(f)* reliability of journey times when assessing the costs and benefits of a light rail scheme. [196371]

Mr. Tom Harris: The Department uses a framework called the New Approach to Appraisal (NATA) to undertake cost-benefit analysis of schemes relating to all transport modes including light rail. The Department aims to consider all impacts of transport schemes, including those listed, when undertaking cost-benefit analysis. No definitive set of weights are applied within this framework, with the contribution of each of these factors varying according to the specific circumstances of the scheme. For example, the significance of congestion relief to the assessment of schemes in areas experiencing high delays will tend to be greater than schemes in areas experiencing few delays.

To ensure consistency across schemes, where possible, impacts are converted into monetary equivalents using a common set of values. This allows a variety of impacts to be aggregated and compared. In practise, the weight attached will depend on the size of impact that a scheme will have on each factor and the value attached to these impacts. Where available, standard values are used to value impacts, e.g. carbon emissions are valued at the standard cost of carbon issued by DEFRA.

Renewable Transport Fuel Obligation

Mr. Morley: To ask the Secretary of State for Transport if she will consider suspending the renewable transport fuel obligation until comprehensive certification and assessment schemes are put in place. [197290]

Jim Fitzpatrick: The Government have made clear that we will not support any increase in biofuel targets until we are satisfied that the biofuels can be delivered sustainably. That remains our position, and we are negotiating hard to ensure that future EU biofuel targets are underpinned by mandatory sustainability criteria which are as robust and wide-ranging as possible.

The Renewable Transport Fuel Obligations Order 2007 implements the RTFO scheme and the Government could not suspend the introduction of the RTFO without amending or repealing the order. The new amending or repealing order would require consultation in accordance with the Energy Act 2004 and would be subject to the affirmative resolution procedure, with debates in both Houses of Parliament.

The Government believe that suspending the introduction of the Renewable Transport Fuel Obligation (RTFO) until such time as mandatory, EU-wide sustainability criteria for biofuels are in place would be counter-productive. The reporting requirements under the RTFO will cause suppliers to develop systems for capturing environmental and sustainability information which will help prepare for the introduction of mandatory standards and inform the development of those standards. In addition, the UK is widely perceived as playing a leading role in developing a sustainability framework for biofuels through the reporting requirements under the RTFO. Abandoning this could marginalise us in EU negotiations, and give other member states greater influence over the direction of the EU's future biofuel policies.

Mr. David Anderson: To ask the Secretary of State for Transport what consideration she has given to the merits of a moratorium on the implementation of the Renewable Transport Fuels Obligation. [197763]

Jim Fitzpatrick: The Renewable Transport Fuel Obligations (RTFO) Order 2007 implements the RTFO scheme and the Government could not suspend the introduction of the RTFO without amending or repealing the order. The new amending or repealing order would require consultation in accordance with

the Energy Act 2004 and would be subject to the affirmative resolution procedure, with debates in both Houses of Parliament.

The Government believe that suspending the introduction of the RTFO until such time as mandatory, EU-wide sustainability criteria for biofuels are in place would be counter-productive. The reporting requirements under the RTFO will cause suppliers to develop systems for capturing environmental and sustainability information which will help prepare for the introduction of mandatory standards and inform the development of those standards. In addition, the UK is widely perceived as playing a leading role in developing a sustainability framework for biofuels through the reporting requirements under the RTFO. Abandoning this could marginalise the UK in EU negotiations, and give other member states greater influence over the direction of the EU's future biofuel policies.

Renewable Transport Fuels Obligation: Crops

Mr. David Anderson: To ask the Secretary of State for Transport what steps she is taking to ensure that the Renewable Transport Fuels Obligation will not result in a conflict between the need to grow crops for both food and fuel. [197762]

Jim Fitzpatrick: The Renewable Fuels Agency (RFA) will have a statutory duty to report annually to Ministers on the effects of the Renewable Transport Fuel Obligation (RTFO), including the indirect effects such as impacts on food and commodity prices. These reports will inform the development of the Government's longer term biofuel policies.

The Government have also asked the Renewable Fuels Agency to lead an urgent review of the potential indirect impacts of biofuel production. This will, among other things, consider the risk that biofuel policies will affect international food commodity prices in the period to 2020. The terms of reference for this review are available via the Department for Transport's website at:

http://www.dft.gov.uk/pgr/roads/environment/rtfo/

Road Safety Act 2006

Dr. Ladyman: To ask the Secretary of State for Transport when she plans to table orders bringing into force sections 11 and 12 of the Road Safety Act 2006 on financial penalty deposits and the immobilisation of vehicles. [197771]

Jim Fitzpatrick: We are working hard to ensure that the provisions are brought into force as soon as practicable—and this is likely to be by spring 2009. Implementation is a key priority for the Department, but there is still quite a lot of operational detail to be sorted out and also a number of detailed statutory instruments have yet to be made.

Road Traffic Control: Birmingham

Mr. Spellar: To ask the Secretary of State for Transport pursuant to the answer of 11 March 2008, *Official Report*, column 214W, on motorways: road traffic control, what the *(a)* critical path and *(b)* key milestones in the schedule are in relation to the scheme around Birmingham. [196773]

Mr. Tom Harris: Tenders for construction of the Birmingham Box active traffic management scheme phases 1 and 2 were invited on 28 February 2008. We anticipate awarding the contract by September 2008. Works should commence in the autumn and complete by summer 2011. The detailed programme for delivery within this timeframe will be agreed with the successful contractor.

Roads: Lorries

Robert Key: To ask the Secretary of State for Transport what discussions *(a)* she, *(b)* her Ministers and *(c)* her officials have had with (i) vehicle satellite navigation manufacturers and (ii) Ordnance Survey on identification of roads inappropriate for heavy goods vehicles and public service vehicles. [197289]

Jim Fitzpatrick: There have been no recent ministerial level discussions with satellite navigation providers or Ordnance Survey. Officials have had informal discussions with providers on issues including mapping and routeing.

The Network Management Board, which is facilitated by the Department for Transport, has set up a sub-group to consider the issue of inappropriate routeing resulting from satellite navigation guidance. The sub-group comprises representatives from Ordnance Survey as well as local authorities, and the Highways Agency.

Any restriction imposed on the use of particular roads is a matter for decision by the relevant local highway authority.

Roads: Tolls

Stephen Hesford: To ask the Secretary of State for Transport what international benchmarks she has assessed in relation to road pricing schemes and their impact on congestion. [195623]

Ms Rosie Winterton: The Road Pricing Feasibility Study published in July 2004 considered a number of existing charging schemes, working in a range of environments and using various technologies. The Department for Transport continues to monitor progress in road pricing schemes around the world, and in particular in Europe, where new schemes—such as the congestion charge in Stockholm—have been implemented since 2004. The Stockholm scheme in particular has demonstrated that significant reductions in congestion can be achieved by an urban congestion charge.

Mr. Drew: To ask the Secretary of State for Transport what progress is being made on road pricing projects; where the projects are located; and what companies are involved in the projects. [198102]

Ms Rosie Winterton: The Government are inviting the private sector to demonstrate how they might run a system of charging for road use according to time of day and route chosen. On 12 March we issued, to eight pre-qualified bidders, the first Invitation to Tender in this two-year Demonstrations Project, for the framework for Road User Service Providers. We expect that this Framework Agreement will be established

during June 2008, at which point an announcement will be made as to which companies have been appointed.

The location of the Demonstrations activity could be anywhere in England and Wales and will initially depend on where the successful bidders' volunteer road users are located.

Speed Limits

Mrs. Riordan: To ask the Secretary of State for Transport if she will bring forward proposals to impose a 20 mph speed limit around schools and in residential areas; and if she will make a statement. [197872]

Jim Fitzpatrick: Local traffic authorities are responsible for setting local speed limits and have powers to introduce 20 mph speed limits and 20 mph zones if they believe it appropriate to do so. The Department encourages and supports any local authority wishing to introduce 20 mph speed limits in this way but does not favour a blanket reduction as there are circumstances where a 20 mph speed limit may not necessarily be appropriate.

Mrs. Riordan: To ask the Secretary of State for Transport on how many roads the speed limit has been reduced from 30 mph to 20 mph since the publication of her Department's circular 01/2006. [197873]

Jim Fitzpatrick: This information is not held by the Department. Local traffic authorities are responsible for setting local speed limits and have powers to introduce 20 mph speed limits and 20 mph zones if they believe it appropriate to do so. They are not required to inform the Department whenever they change a speed limit.

The Department has recently commissioned a new research project on local road safety policy and practice, and some information about the implementation of 20 mph zones will be collected from local authorities as part of this study.

Speed Limits: Fines

Sarah Teather: To ask the Secretary of State for Transport how much revenue was raised in fines imposed as a result of offences detected by speed cameras in each borough in Greater London in each year since 2001. [197282]

Jim Fitzpatrick: The Department only holds information about speed cameras operating under the national safety camera programme and does not hold separate information for each London borough. London joined the programme on 1 April 2002. The audit certificates for the London Safety Camera Partnership for the last five financial years outlined in the table show the fine revenue from fixed penalty tickets for offences detected by speed and red light cameras operating under the then national safety camera programme. The Department does not hold a breakdown of fine revenue split between red light and speed cameras.

	£
2002-03	5,121,060
2003-04	6,497,460
2004-05	8,902,740
2005-06	9,445,820
2006-07	7,567,780

Speed Limits: Greater London

Joan Ryan: To ask the Secretary of State for Transport how many 20 mile per hour speed limit zones each London borough has introduced. [196797]

Ms Rosie Winterton: Responsibility for introducing 20 mph speed limit zones in London rests with the relevant highway authority, Transport for London (TfL) and the London boroughs respectively. No information on these zones is held centrally.

Taxis: Training

Mr. Spellar: To ask the Secretary of State for Transport what her policy is on the training required of taxi drivers. [197644]

Ms Rosie Winterton: We recognise the benefits that improved training for taxi and private hire vehicle (PHV) drivers will bring in terms of better quality of service for passengers, and to the drivers themselves in terms of potentially acquiring new business.

We are providing financial support to GoSkills, the sector skills council for passenger transport, to assist their work in raising awareness of the opportunities for, and benefits of, skills development in the taxi and PHV industry.

However, local licensing authorities are responsible for taxi and PHV licensing decisions in their respective areas, including whether drivers must undertake any particular training or qualification to meet their licensing requirements.

Our licensing Best Practice Guidance for authorities suggests they should consider, in consultation with the local taxi and PHV trades, what training initiatives and requirements are appropriate for their area.

Train Operating Companies: Rolling Stock

Norman Baker: To ask the Secretary of State for Transport for what reasons train operating companies are not allowed to acquire new rolling stock within their existing franchise without her Department's approval. [190552]

Mr. Tom Harris: Proposals from train operators are welcome if they are going to fund new rolling stock. The Department needs to ensure contractual arrangements are in place in case of franchise termination so they can continue to operate the service; hence, there is a process in place to give these approvals.

Norman Baker: To ask the Secretary of State for Transport on what dates her Department was first

made aware by (a) a rolling stock company and (b) a train operating company of a request for an increased amount of rolling stock on (i) the west coast mainline, (ii) the northern train's franchise and (iii) the southern franchise. [190560]

Mr. Tom Harris: Since the Department for Transport has regular and ongoing discussions with train operators regarding current and projected passenger demand and the efficient utilisation of existing capacity, it is not practically possible to identify dates when specific propositions were first raised. While train operators may seek central Government funding for additional rolling stock, it may also be procured with third party funding or at the commercial initiative of the train operator itself.

Transport: Capital Investment

Hugh Bayley: To ask the Secretary of State for Transport how much Government capital funding for transport was provided to the City of York from (a) 1987 to 1997 and (b) 1997 to 2007. [197183]

Ms Rosie Winterton: The information is as follows:

(a) Prior to 1996-97 North Yorkshire county council was the local highway and transport authority covering York. Figures for Government transport capital funding specifically for the York area are not available. The City of York council was created as a unitary authority in 1996. For 1996-97 it was allocated £3.340 million.

(b) York city council has been allocated a total of £52.830 million of local transport capital funding for the financial years 1997-98 to 2007-08 (inclusive).

Transport: Costs

Norman Baker: To ask the Secretary of State for Transport what the real terms cost of travelling by (a) bus, (b) rail and (c) private car has been in each region in England in each year since 1997, taking 1997 as the baseline. [195926]

Ms Rosie Winterton: This information is not available at regional level.

Transport: Finance

Mr. Graham Stuart: To ask the Secretary of State for Transport how much of the funding allocated to the Yorkshire and Humber region for major transport projects up to 2015-16 has been (a) allocated to and (b) spent on individual schemes; and if she will make a statement. [197438]

Ms Rosie Winterton: The funding allocated for major transport projects in Yorkshire and the Humber from 2006-07 to 2015-16 is £927 million. The funding so far provisionally allocated to individual schemes is £877.6 million, though some of the schemes concerned have not yet completed formal approval processes. The estimated outturn expenditure on these schemes, from April 2006 to December 2007, is £131.175 million.

Yorkshire and Humberside

Mr. Graham Stuart: To ask the Secretary of State for Transport what official visits she has made to Yorkshire and the Humber since her appointment; and if she will make a statement. [192431]

Ms Rosie Winterton: My right hon. Friend, the Secretary of State for Transport, visited Yorkshire and the Humber recently to open the M606/62 car pool lane. Since my appointment as Regional Minister I have made regular official visits to the region to discuss transport issues with a range of stakeholders.

NORTHERN IRELAND

Driving Under Influence: Young People

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many (a) males and (b) females under the age of 19 years were (i) arrested for (ii) charged with and (iii) convicted of driving a vehicle under the influence of drugs or alcohol in each district command unit in each of the last five years. [194754]

Paul Goggins: This information is not available in the requested format.

The following tables provide the numbers arrested and prosecuted for alcohol/drug related driving offences.

Table 1: Males under the age of 19 years prosecuted and convicted of alcohol/drug related driving offences by DCU address of offender 2002-06

[2] Missing data relate to those offenders for whom DCU information is not available

Drugs: Children

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many children under the age of 16 years have been *(a)* charged with and *(b)* convicted of drug-related offences in each district command unit in each of the last five years. [194751]

Paul Goggins: The information requested is set out in the following tables. Prior to 2006-07, the PSNI did not provide separate figures for the number charged and prosecuted.

Table 1 (a): Persons charged or summonsed for drug-related offences under the age of 16, 2002-03 to 2006-07

	2002-03	2003-04	2004-05	2005-06	2006-07

These tables of statistics are not directly comparable as statistics on charges are compiled by the PSNI on a financial year basis, and statistics on convictions are compiled by the courts on a calendar year basis.

Missing Persons

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many persons registered as missing in Northern Ireland have been missing for (*a*) less than one year and (*b*) more than five years; and what percentage these figures represent of the total number of persons missing. [194749]

Paul Goggins: Missing persons are dealt with at district level. The information requested could not be provided without conducting a full examination of the records of each district, which could be carried out only at disproportionate cost.

However, an exercise conducted for the Northern Ireland Policing Board in November 2007 calculated the number of missing persons reported in each year since 2002 as follows:

	Number
2007[1]	581
2006	642
2005	689
2004	684
2003	668
2002	437

[1] Up until November 2007

There were 68 persons registered as missing in Northern Ireland as of early November 2007. Only a very small number of persons reported missing are not subsequently located.

Olympic Games 2012

Derek Wyatt: To ask the Secretary of State for Northern Ireland what funding has been secured for the construction of a new stadium in Belfast to host the football finals of the London 2012 Olympics Games. [197489]

Mr. Woodward: This is a devolved matter and the responsibility of the Northern Ireland Minister of Culture, Arts and Leisure.

Sexual Offences: Convictions

David Simpson: To ask the Secretary of State for Northern Ireland pursuant to the answer of 12 March 2008, *Official Report*, columns 389-90W, on sexual offences, of what offences sexual offenders residing in each police command area were convicted. [195593]

Paul Goggins: This information is not held centrally, and could be provided only at disproportionate cost.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agricultural Products

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the percentage of each major agricultural commodity consumed in the UK which was produced in the UK in the last period for which figures are available. [196384]

Jonathan Shaw: A suitable measure is UK production or UK home-fed production as a percentage of total new supply for use in the UK[1], for which data are available for the calendar year 2007 for a range of agricultural commodities as detailed in the following table.

Commodity	Production as percentage of total new supply for use in the UK
Wheat	106
Barley	108
Oats	103
Oilseed rape	111
Sugar beet	63
Potatoes	79
Vegetables	58
Fruit	11
Poultry and poultry meat	90
Beef and veal	82
Mutton and lamb	82
Pork	69
Bacon and ham	42
Hen eggs	81
Liquid milk	105
Butter	61
Cheese	55
Cream (fresh, frozen, sterilised)	114
Condensed milk	76
Milk powders	167

[1] New supply for use in the UK is defined as UK production plus imports minus exports. For beef, veal, mutton and lamb the measure and term used is home-fed production and home-cured production for bacon and ham.

Bluetongue Disease: Disease Control

Steve Webb: To ask the Secretary of State for Environment, Food and Rural Affairs what contingency arrangements are in place for tackling a serotype of bluetongue, other than serotype 8, if it enters the UK. [196215]

Jonathan Shaw *[holding answer 25 March 2008]*: The UK Bluetongue Control Strategy, which was developed in close collaboration with a core group of farming and veterinary stakeholders, the devolved Administrations and scientific experts on Bluetongue, sets out the contingency arrangements for dealing with an outbreak. The control strategy applies to all serotypes of Bluetongue, not just serotype 8.

Steve Webb: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what estimate he has made of how many and what proportion of livestock farmers in protection zones will take up bluetongue vaccine; [196437]

(2) what estimate he has made of the number of *(a)* sheep and *(b)* cattle in protection zones which will be eligible to receive the bluetongue vaccine. [196438]

Jonathan Shaw *[holding answer 25 March 2008]*: Data on livestock in England are only immediately available to cover the protection and surveillance zones as they stood on 25 February 2008:

	PZ only	*SZ only*	*All England*
Cattle			
Numbers	224,580	1,918,735	5,617,280
Holdings	2,912	19,889	52,729
Sheep			
Numbers	893,574	6,045,955	15,586,194
Holdings	4,419	23,722	48,393
Beef farmers			
Numbers	1,891	18,772	26,135
Holdings	42	184	301
Dairy			
Numbers	8,667	41,626	82,657
Holdings	1,089	4,320	7,002

Following further confirmation of infected premises, the Protection and surveillance zones have subsequently been enlarged.

Under European Community law, bluetongue vaccination can only be carried out in a protection zone. Once vaccination is progressing broadly across the protection zone, the intention is to extend or modify the zone in order to permit further vaccination, allowing a phased approach as vaccine comes on-stream. However, when vaccine first becomes available from May, it could initially be necessary to limit vaccine availability within the protection zone in accordance with the supply of vaccine and the epidemiological situation.

Although we have made no formal estimate of likely take-up of vaccine, the advice of industry stakeholders is that take-up will be high in a voluntary scheme, especially if an active approach is taken to promoting vaccination. As individual keepers will be responsible for the costs of vaccination, our aim, in close collaboration with a core group of industry stakeholders, has been to develop a vaccination programme which will reduce the cost of vaccination to a minimum by using existing delivery chains and reducing regulatory burdens in order to encourage maximum participation.

Bluetongue Disease: Vaccinations

Steve Webb: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what dosage will be necessary for vaccinating each *(a)* sheep and *(b)* cow against bluetongue; [195782]

(2) when he expects the bluetongue vaccine doses on order from Intervet to be available in *(a)* England and *(b)* Wales; [195783]

(3) what percentage of livestock susceptible to bluetongue in protection zones in *(a)* England and *(b)* Wales he expects the bluetongue vaccine to be available for. [195784]

Jonathan Shaw *[holding answer 20 March 2008]*: The UK was the first member state affected by the current outbreak of bluetongue to place an order for vaccine; 22.5 million doses. 20 million doses are reserved for use in England and 2.5 million doses are reserved for use in Wales. The first batches of vaccine are expected to be available from May.

Vaccination is limited to the Protection Zone, and so vaccine will be available to all keepers of susceptible livestock in the Protection Zone, who will be able to purchase vaccine through their private vet. However, as vaccine begins to be delivered by Intervet, it may be necessary to prioritise vaccine availability to reflect supply and the epidemiological situation.

The vaccine being produced by Intervet will require one dose in sheep and two doses in cattle. The size of the dose is likely to be one millilitre but this is subject to ongoing discussions between Intervet and the Veterinary Medicines Directorate as part of the vaccine licensing process.

Bovine Tuberculosis

Mr. Jamie Reed: To ask the Secretary of State for Environment, Food and Rural Affairs how many cattle have died or been slaughtered in *(a)* England, *(b)* Cumbria and *(c)* Copeland constituency because of bovine tuberculosis over the last five years. [196206]

Jonathan Shaw: Our extensive bovine TB testing programme ensures that; generally, cattle showing signs of exposure to bovine TB are identified and slaughtered before the disease has become too advanced. Cattle with advanced bovine TB, or cattle dying from the disease, are very rarely found.

The number of cattle slaughtered under bovine TB control measures in England and Cumbria is shown in the following table. It is not possible to break the data down to a constituency level.

	Number of cattle slaughtered[1]	
	England	*Cumbria*
2003	17,551	275
2004	17,306	510
2005[2]	23,135	168
2006[2]	16,007	114
2007[2]	19,794	29

[1] Includes cattle slaughtered as skin and gamma-interferon test reactors, skin test inconclusive reactors and direct contacts.
[2] 2005-07 figures are provisional, subject to change as more data become available.

Caravan Sites

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether his Department has held a consultation on proposed amendments to the time limit given in paragraph 6 of Schedule 1 to the Caravan Sites and Control of Development Act 1960; [195761]

(2) what organisations have exemption certificates under paragraph 6 of Schedule 1 to the Caravan Sites and Control of Development Act 1960; [195762]

(3) what discussions his Department has had with the devolved administrations on proposed changes to Schedule 1 to the Caravan Sites and Control of Development Act 1960; [195763]

(4) what representations his Department has received on the proposed changes to the time limit given in paragraph 6 of Schedule 1 to the Caravan Sites and Control of Development Act 1960. [195764]

Jonathan Shaw: Any proposal for amendments to the time limit given in paragraph 6 of Schedule 1 to the Caravan Sites and Control of Development Act 1960 would require new primary legislation. DEFRA has no plans for any such legislation.

DEFRA and Natural England, who now deal with the issue of exemption certificates under the 1960 Act, are updating, and consolidating into a single document, the existing guidance for applications for exemption certificates for both caravans and camping. We have consulted the devolved administrations and the major camping and caravanning organisations, including the Association of Caravan and Camping Exempted Organisations, about the new document.

The document reiterates previous guidance on the time limit for paragraph 6 exemptions consisting of a maximum of five periods of 24 hours commencing when the first caravan is stationed on the rally site.

Exempted organisations which, prior to any exempted rally, wish to have a single caravan on the rally site to assist with the setting up of an event may rely on the additional exemption under paragraph 2 of Schedule 1 of the 1960 Act. This provides that a site licence is not required for the use of land by a person travelling with a caravan for not more than two nights. The exemption is subject to the condition that only one caravan is allowed and the total number of days in any twelve month period on which a caravan was stationed anywhere on the site, or any adjoining land in the same ownership, cannot exceed 28 days.

DEFRA and Natural England are considering representations from the major camping and caravan organisations. We expect to finalise the single guidance document by the summer of 2008.

There are over 300 organisations who hold exemption certificates under paragraph 6 of Schedule 1 of the 1960 Act, so it is not practical to list them. A list of the organisations is publicly available on the Natural England website.

Carbon Emissions: Housing

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of progress in meeting targets for the reduction of carbon dioxide emissions from the housing sector; and if he will make a statement. [196865]

Mr. Woolas: DEFRA is monitoring annual changes in household energy consumption, by fuel, and hence the corresponding CO_2 emissions.

Against a long-term trend of rising gas consumption, over the period 2004-06, consumption of gas by household consumers fell by over 8 per cent. Of this, possibly up to half could be attributed to higher prices, weather changes had little effect. Improved energy efficiency for heating, particularly higher levels of insulation (installed via the Energy Efficiency Commitment) and more efficient boilers (required by Building Regulations), is likely to have contributed to the remaining reduction of gas, the principal heating fuel. However, more detailed analysis is required to quantify this effect.

Carbon Offsetting Fund

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make it his policy for payments from the Department for Communities and Local Government towards the Carbon Offsetting Fund to be used to support offsetting or renewable energy projects in local communities in the UK. [194769]

Mr. Woolas: There are currently no viable energy efficiency or renewable energy UK offsetting projects due to our membership of the EU Emission Trading Scheme (EU-ETS).

This is because the UK prefers to meet its targets through direct emission reductions, rather than offsets.

Chemicals: Waste Disposal

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs which municipal waste disposal sites received chemical waste generated by Monsanto in the latest period for which data are available. [195192]

Joan Ruddock: Wastes are categorised as hazardous, non-hazardous or inert. Specific waste streams are then sub-categorised using the European Waste Catalogue. The term "chemical waste" is not a category that is currently in use.

The Environment Agency authorises waste types that are appropriate for landfilling but does not normally authorise individual and specific waste sources. The Environment Agency is therefore not able to state categorically which of 1,500-plus operational and closed landfill sites in England and Wales have received chemical waste from Monsanto.

Consignment notes held by waste management facilities would record the source of the waste. Prior to 2005, the Environment Agency was sent copies of these consignment notes, but the cost of extracting the

required information from these records would be disproportionate. The Environment Agency retains these records for four years so would not be able to provide a full account of wastes deposited by Monsanto even if data were readily available.

Climate Change

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what research he has evaluated to develop his policy on anthropogenic climate change. [196405]

(2) what assessment he has made of the reliability of the scientific evidence on which each of the four Intergovernmental Panel on Climate Change reports has been based; and if he will make a statement. [196408]

(3) what assessment he has made of the reliability of the Intergovernmental Panel on Climate Change reports in developing his policies on climate change. [196409]

Mr. Woolas: The scientific basis for understanding anthropogenic climate change is extremely strong. DEFRA evaluates the evidence provided by the Intergovernmental Panel on Climate Change (IPCC) in its comprehensive reports, as well as through DEFRA and Ministry of Defence funded climate research undertaken by the UK's world-leading Met Office in Hadley Centre, in Exeter, and through ongoing contact with other climate researchers in the UK and elsewhere.

Four assessment reports have been completed in 1990, 1995, 2001 and the latest in 2007. The UK fully supports the work of the IPCC and regards its assessments as providing the most authoritative view of climate change. The IPCC assessments have fully informed the development of domestic climate policy and the UK position in international climate negotiations.

Hundreds of UK scientists were involved in the preparation of the fourth assessment report and DEFRA supports lead authors and review editors to participate in IPCC writing groups.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what representations he has received on the Manhattan Declaration on Climate Change; and if he will make a statement. [196406]

Mr. Woolas: DEFRA has received no representations on the Manhattan Declaration on Climate Change.

Departmental Pensions

David Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs how many and what percentage of staff in his Department were making additional voluntary contributions to their pensions in each of the last two years. [193566]

Jonathan Shaw: 599 members of staff in core-DEFRA and those Executive agencies covered by the core-Department's terms and conditions: Animal Health, Marine and Fisheries Agency, Veterinary Medicines Directorate, Government Decontamination Service and Pesticides Safety Directorate (9.75 per cent. of total number of staff employed in core-DEFRA and the named Executive agencies) were making additional voluntary pension contributions through deductions from their pay in February 2007. This has decreased to 544 members of staff (9.74 per cent. of total number of staff employed in core-DEFRA and the named Executive agencies) who were making additional voluntary pension contributions through deductions from their pay in February 2008.

Domestic Wastes: Contracts

Robert Neill: To ask the Secretary of State for Environment, Food and Rural Affairs what the (*a*) subject and (*b*) cost was of each research contract (i) his Department and (ii) WRAP have commissioned on household waste since 2001. [192176]

Joan Ruddock: The Waste and Resources Research Programme (now renamed the Waste and Resources Evidence Programme since the publication of DEFRA's Waste and Resources Evidence Strategy 2007-11 in September 2007) only started commissioning research projects from the summer of 2005. The following table lists those projects that have some association with household waste issues.

Details of the research contracts on household waste that were commissioned by the Waste and Resources Action Programme (WRAP) can be found on its website at:

Farms: Inspections

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs how many farm inspections were conducted in each of the last five years, broken down by inspection body. [191145]

Jonathan Shaw: Farm inspections are conducted by different bodies for different reasons. Regarding DEFRA bodies, the chief executives of the Rural Payment Agency, Animal Health, Veterinary Laboratory Agency, Veterinary Medicine Directorate, Natural England, and the Environment Agency have been asked to supply the information for their agencies.

Individual local authorities will hold information on the number of visits they have carried out. A fully comprehensive reply cannot be given as a significant proportion of the information is not collected centrally. Also, there is some uncertainty about whether non-regulatory visits would come within the scope of the hon. Member's question.

The number of farm inspections carried out by Animal Health and the Veterinary Laboratory Agency are shown in the following table.

	2003	2004	2005	2006	2007
Animal Health[1]	122,000	131,000	126,000	136,000	110,000
Veterinary Medicines Directorate[2]	772	587	686	535	380

[1] The source for the data is incomplete and it is not possible to differentiate between inspections and testing visits.

[2] Includes routine and follow up/special visits but excludes inspections for residues as these are included in Animal Health's figures.

Visits are undertaken by Animal Health staff, by local veterinary inspectors acting on behalf of the organisation, or by the Egg Marketing and Dairy Hygiene Inspectorates.

In 2007, the overall number of visits declined due to a reduction in volume of sampling visits under the National Scrapie Plan and for brucellosis.

The Veterinary Laboratories Agency does not undertake any regulatory inspections.

The number of farm inspections carried out by the Rural Payment Agency (RPA) Inspectorate from 2003-04 to 2007-08 is set out in the following table:

	Number
2003-04	[1]13,805
2004-05	[2]11,779
2005-06	[3]11,951
2006-07	[3]13,869
2007-08	[4]14,457

[1] All Integrated Administration Control System (IACS) and England Rural Development Programme (ERDP) scheme inspections.

[2] All IACS and ERDP scheme inspections.

[3] First year of Single Payment Scheme (SPS) – includes all SPS Land Eligibility, Cross-compliance, Remote sensing follow-up, Cattle Identification Inspection and ERDP Inspections.

[4] As above, plus statutory sheep and goat inspections.

In 2006-07 and 2007-08, the Horticultural Marketing inspectors who merged with the RPA Inspectorate on 1 April 2006, carried out the following inspections at the premises of glasshouse growers, market gardeners, etc.:

	Number
2006	1,452
2007	1,433

Information cannot be readily gathered from a single IT system for this timeframe without incurring disproportionate cost. Animal Health have been developing its management information and hence more detailed figures are available for 2007.

Using available data, Animal Health undertook in the region of 25,000 on farm inspections in Britain in 2007. This figure includes 4,227 visits to inspect farm animal welfare (including welfare cross-compliance inspections), 12,963 inspections undertaken by the Dairy Hygiene Inspectorate (DHI) and 2,905 on farm inspections made by the Egg Marketing Inspectorate (EMI)[1].

Across these three programmes, some 22,000 on farm inspections were completed annually from 2003-07.

As well as inspection visits, Animal Health carries out various types of visit to sample stock for surveillance and for disease control. Within this category, agency staff or official veterinarians[2] working on its behalf undertook more than 50,000 herd tests for bovine TB in 2007 and 8,000 visits under the National Scrapie Plan (NSP).

[1] DHI and EMI merged with the State Veterinary Service in October 2006 and April 2007 respectively.

[2] OVs – previously referred to as Local Veterinary Inspectors (LVIs).

The number of inspections of farm animal welfare and on farm inspections performed by DHI and EMI, in 2003-07 is shown in the following table. It also shows the number of bTB herd testing visits and NSP sampling visits completed in these years.

Type of visit	2003	2004	2005	2006	2007
Welfare inspection	2,879	3,201	3,419	3,849	[1]4,227
DHI inspection	16,553	15,414	15,474	14,996	12,963

Type of visit	2003	2004	2005	2006	2007
EMI inspection	2,722	3,098	2,865	3,241	2,905
TB herd test	45,120	44,794	43,627	50,327	51,221
NSP sampling	10,469	10,443	12,480	11,730	7,989

[1] 2007 welfare inspection visits include welfare cross-compliance inspections.

Mr. Jamie Reed: To ask the Secretary of State for Environment, Food and Rural Affairs what plans his Department has to (*a*) simplify and (*b*) reduce the number of farm inspections. [196201]

Jonathan Shaw: The Whole Farm Approach includes a project looking at on-farm inspections. The aim is to "join-up" inspections, bringing together as many organisations as possible that visit farms to enforce regulatory requirements or undertake routine monitoring. The project is focusing on increased sharing of inspection resource and inspection data to better target inspection activity and reduce the burden on the better performing farms.

Flood Control: Cumbria

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department plans to take to ensure that the flood defence pumps in the Lyth Valley, South Cumbria, continue to operate effectively. [197860]

Mr. Woolas: The Environment Agency is producing a Catchment Flood Management Plan (CFMP) for the Kent and Leven catchments, which includes the Lyth Valley. The CFMP will consider a wide variety of interests and initiatives in the area. Public consultation will commence within the next month.

The CFMP will identify future flood risk management actions across the catchments for the next 50-100 years and will include long term decisions about river maintenance and the land drainage pumps in the Lyth Valley. However, in the short term, the Environment Agency will continue to operate and maintain the pumps in the Lyth Valley.

Floods: Finance

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the damage to furniture, furnishings and moveables that were damaged and sent to landfill following the floods in summer 2007; and what estimate he has made of the impact these losses will have on council tax for those councils most affected. [197941]

Mr. Woolas: My Department has not specifically assessed the damage caused to furniture and furnishings destroyed as a result of last summer's floods.

Evidence provided by local authorities indicates only a relatively small increase in municipal waste arisings as a result of last year's flooding. This is within the normal range of variations in annual waste arisings and should not have a long-term or significant impact on waste management costs.

Government Offices for the Regions

Julia Goldsworthy: To ask the Secretary of State for Environment, Food and Rural Affairs which of his Department's programme budgets were administered by the Government Offices of the Regions in each of the last five years. [195125]

Jonathan Shaw: None of my Department's programme budgets are directly administered by the Government Offices.

We have a number of programme budgets administered centrally by my Department which fund projects within the Government Office regions, and the Government Offices have an oversight role on these regional funds, in terms of how and where the money is spent. The following table sets out a number of programmes where the Government Office has had an oversight role in each of the last five years.

More generally, Government Offices have a key role to play on the DEFRA agenda by acting as environmental leaders and working in partnership with local stakeholders on cross-cutting issues such as climate change, sustainable development natural environment and waste.

Greyhounds: Animal Welfare

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 22 January 2008, *Official Report*, column 1994W, on greyhounds: animal welfare, if he will take account of representations on *(a)* a single system of regulation and set of national standards for greyhound racing, *(b)* an independent oversight body, *(c)* a compulsory levy on bookmakers to fund welfare improvements, *(d)* a central database to record injuries to greyhounds, *(e)* a mandatory independent veterinarian at tracks, *(f)* requirements for greyhounds to be able to stand up and turn around while being transported, *(g)* rules on race frequency, *(h)* independent inspections of tracks and kennels and breeders' premises, *(i)* micro-chipping of dogs, *(j)* licensing of trainers and track staff and *(k)* a presumption against euthanasia in considering the response of the greyhound industry to Lord Donoughue's review; and if he will make a statement. [196781]

Jonathan Shaw: We are currently considering proposals for the regulation of greyhound racing. The Government will, of course, take into account the recommendations made by Lord Donoughue and also the Associate Parliamentary Group for Animal Welfare (APGAW). There will be a full public consultation on any proposals before scrutiny by Parliament.

Ground Water: Pollution

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 17 March 2008, *Official Report*, columns 735-6W, on ground water: pollution, what plans he has to initiate research into the level of groundwater contamination in the UK and to publish a strategic plan detailing the level of *(a)* contamination and *(b)* clean water. [196360]

Mr. Woolas: In 2006 the Environment Agency published a report which identified the main risks to and impacts on groundwater quality. The Environment Agency has also carried out a groundwater protection policy review, which provides information on the key issues surrounding the contamination of groundwater. I have arranged for a copy of both documents to be placed in the Libraries of the House.

As part of the implementation of the Water Framework Directive (WFD), the agencies must prepare assessments of the risks to, and the status of, groundwater bodies in the UK and prepare strategic plans to meet WFD objectives. Preliminary risk assessments were published in 2004. These will be revised and published, together with status maps and proposed actions, in the draft River Basin District Management Plans. We expect these to issue for public consultation in December 2008.

Hare Coursing

Jeff Ennis: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the extent of illegal hare-coursing in England since the implementation of the Hunting Act 2004. [195758]

Jonathan Shaw: DEFRA has made no assessment of the extent of illegal hare-coursing in England since the implementation of the Hunting Act 2004.

Home Energy Efficiency Scheme

Justine Greening: To ask the Secretary of State for Environment, Food and Rural Affairs how many households received at least one main measure under the Warm Front Scheme in *(a)* 2003-04, *(b)* 2004-05, *(c)* 2005-06, *(d)* 2006-07 and *(e)* 2007-08, broken down by local authority area. [195120]

Mr. Woolas: I have arranged for the information requested to be placed in the Libraries of the House.

Incinerators: Pollution

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how much air pollution control residue from incinerators was treated and disposed of in Gloucestershire in the latest period for which figures are available; what percentage of the UK's total this represents; and if he will make a statement. [196595]

Jonathan Shaw: During 2007, Gloucestershire treated and disposed of 22,170 tonnes of air pollution control residues; this represents 15 per cent. of the total in England and Wales.

Nature Conservation: Wildlife

Martin Horwood: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make it his policy to give equal consideration to native and non-native species in exercising his powers on species to be added to and removed from the list of species in Schedule 4 of the Wildlife and Countryside Act 1981; and if he will make a statement. [197008]

Joan Ruddock: In view of the EU-wide import ban on wild birds and sales controls under the Convention on the International Trade in Endangered Species, I announced in Westminster Hall on 23 January that non-native species would not be considered for retention on or addition to schedule 4 of the Wildlife and Countryside Act 1981.

No decision has yet been taken on which native species should remain on or be added to schedule 4.

Planning Permission: Gleadthorpe Farm

Paddy Tipping: To ask the Secretary of State for Environment, Food and Rural Affairs how many bids were received for the former ADAS site at Gleadthorpe, Nottinghamshire; who the successful bidder was; what plans are being made to return the site to native heathland; and if he will make a statement. [196337]

Joan Ruddock *[holding answer 26 March 2008]:* The Department received six bids by informal tender for Gleadthorpe Grange Farm.

The Department has given very careful consideration to the value for money to the public purse of each proposal received, including the financial, environmental and biodiversity benefits of the individual bids. The Department has also considered whether the benefits of any particular offer provided enhanced value or efficiency in terms of policy delivery when compared to normal spending programmes.

Detailed consideration was given to the value for money offered by a proposal which would have seen the land returned to forestry. The Department concluded that insufficient quantifiable efficiencies arose in excess of those offered by the use of normal spending methods, and as a consequence, the Department felt unable to progress this proposal further.

The Department concluded that the maximum economic value should be accepted in the case of this disposal.

For reasons of commercial confidence and contractual negotiation, the Department is unable to identify the preferred bidder at this time. The details of the successful purchaser will become a public record at the Land Registry upon completion of the sale.

It is understood the land will remain in agricultural use.

Sugar: Subsidies

Mr. Shepherd: To ask the Secretary of State for Environment, Food and Rural Affairs how much was paid to farmers for the production of a pound of sugar on the most recent date for which figures are available; what subsidy was available per pound for exporting sugar; what tariff was applied per pound import of sugar from outside the EU; what national derogations from the EU sugar regime are in place; and how revenue from sugar imports is allocated. [195711]

Jonathan Shaw: Council Regulation (EC) No. 318/2006 sets a minimum price of €29.78 per tonne for raw sugar beet supplied by farmers in the 2007-08 marketing year. It is important to note that this is a minimum price; the actual price is subject to commercial agreements between British Sugar and their growers, for which there are no official figures.

Export subsidies are the subject of competitive tender. The most recent tender took place on 13 March 2008, resulting in a maximum export refund for successful bidders of €32.947 per 100 kg.

Imports of both white sugar and raw cane sugar are subject to a range of controls depending upon the country of origin. Duty-free import regimes exist between the EU and a wide range of developing countries through the Sugar Protocol and Everything But Arms arrangements. In circumstances where an import duty is payable, this is currently set at €33.9 per 100 kg for raw sugar for refining and €41.9 per 100 kg for white sugar. Import duties on all commodities are collected by HM Revenue and Customs on behalf of the Exchequer.

The EU sugar regime is applicable in all member states, including the United Kingdom.

In each case above, the prices are set in Euros and metric weights.

Sustainable Development: Aviation

Mr. Donohoe: To ask the Secretary of State for Environment, Food and Rural Affairs whether *(a)* he, *(b)* his Ministers and *(c)* his officials have met representatives of (i) Friends of the Earth, (ii) Greenpeace, (iii) WWF-UK, (iv) Airportwatch, (v) Stop Stansted Expansion, (vi) Plane Stupid, (vii) the Aviation Environment Federation, (viii) Enoughsenough, (ix) Hacan Clearskies, (x) the Campaign to Protect Rural England, (xi) the Royal Society for the Protection of Birds and (xii) the Woodland Trust to discuss issues related to the sustainable growth of aviation in the UK in the last six months; and how often such meetings have taken place. [185805]

Mr. Brady: To ask the Secretary of State for Environment, Food and Rural Affairs how many times Ministers or officials from his Department have met representatives of *(a)* Friends of the Earth, *(b)* Greenpeace, *(c)* WWF, *(d)* Aviation Environment Federation, *(e)* AirportWatch, *(f)* HACAN Clearskies, *(g)* Stop Stansted Expansion, *(h)* Plane Stupid, *(i)* the Commission for the Protection of Rural England, *(j)* the Royal Society for the Protection of Birds, *(k)* The Woodland Trust and *(l)* Enoughsenough to discuss the environmental impact of aviation since September 2007. [186692]

Mr. Woolas: Ministers and officials have met on several occasions with key stakeholders to discuss various issues including aviation.

Of particular note is my right hon. Friend the Secretary of State for Environment, Food and Rural Affairs (Hilary Benn)'s launch of the Climate Change Bill in October 2007. Representatives from several organisations attended. Aviation growth was referred to during the question and answer session which followed.

In addition, the Secretary of State and myself attended a meeting in December 2007 before the United Nations Framework Convention on Climate

Change talks in Bali with representatives from Friends of the Earth, Greenpeace, the World Wildlife Fund UK and others.

Waste Management: Finance

Robert Neill: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what funding has been provided to local authorities in Northern Ireland from the waste and resources action programme in the last five years; [192180]

(2) what support the waste and resources action programme has given to local authorities in Northern Ireland in the last 24 months. [192315]

Joan Ruddock: The waste and resources action programme (WRAP) do receive funding from Northern Ireland to carry out work commissioned by the Northern Ireland Executive. The funding is dependent on the amount and value of the work carried out on its behalf, which is agreed between WRAP and the Northern Ireland Executive and is a devolved matter.

Waste Management: Landfill

Julia Goldsworthy: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the amount of waste per person sent to landfill in each local authority area in England in each year since 1997. [197407]

Joan Ruddock: The amount of municipal waste per person sent to landfill by local authorities with a waste disposal duty in England are shown in the following table. These data are reported annually to DEFRA by local authorities through WasteDataFlow (for 2004-5 onwards) and through the Municipal Waste Management Survey for earlier years. 2004-5 was a pilot year for WasteDataFlow and therefore complete data are not available. Data for 1997-8 are not available at individual local authority level.

Most municipal waste (an average of around 87 per cent. in England) is from household sources. However, some waste sent to landfills is from non-municipal sources such as the commercial, industrial and construction sectors, and this is not included in these figures. The estimates for each local authority represent the amount which is collected in their area and then sent for disposal in landfill regardless of the landfill site's location.

Population estimates for each local authority for each year are those published by the Office for National Statistics.

Municipal waste to landfill: per person

WasteDataFlow for 2004-5 onwards, Municipal Waste Management Survey for earlier years. ONS mid year population estimates. 2004-5 was a pilot year for WDF and hence data are not available for all authorities. Data are municipal waste collected and sent for disposal in landfill by each local authority.

DEFENCE

Afghanistan: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence what the maximum *(a)* loaded weight and *(b)* take-off weight is for all variants of the CH-47 helicopter used by British forces in Afghanistan. [196614]

Mr. Bob Ainsworth: The RAF currently operates two variants of CH47, the Mk2 and Mk2a. The maximum take-off mass is the same for both CH47 variants and is 22,700 kg for internal loads. When underslung loads are carried, the maximum take-off mass is increased to 24,500 kg. These figures are dependent upon prevailing environmental conditions and the altitudes.

Mr. Duncan Smith: To ask the Secretary of State for Defence what the maximum period is that UK forces in Afghanistan have subsisted on 24-hour operational ration packs alone. [197013]

Mr. Bob Ainsworth: The information is not held in the format requested and could be provided only at disproportionate cost.

However, a recent study commissioned by the MOD found that there are no nutritional reasons why complete UK 24-hour operational ration packs should not be consumed indefinitely by deployed forces.

Mr. Duncan Smith: To ask the Secretary of State for Defence on how many occasions forward operating bases in Afghanistan have gone for longer than a week without a resupply of fresh rations in the last 12 months; what the reasons were in each case; and if he will make a statement. [197016]

Mr. Bob Ainsworth: This information is not held in the format requested and could be provided only at disproportionate effort. But we have had no reports of any significant shortages in the supply of food to UK service personnel in Afghanistan.

Mr. Duncan Smith: To ask the Secretary of State for Defence how many forward operating bases in Afghanistan are supported by *(a)* the Royal Logistics Corps and *(b)* contract caterers. [197017]

Mr. Bob Ainsworth: 10 forward operating bases are currently supported by service catering personnel, predominantly, but not exclusively, drawn from the Royal Logistics Corps.

Two of these forward operating bases are also supported by UK contracted personnel who are employed on catering support tasks such as food preparation.

Armed Forces: Health Services

Mr. Frank Field: To ask the Secretary of State for Defence how many complaints his Department received from families of service personnel concerning medical treatment of armed forces' personnel in the last year. [192155]

Derek Twigg *[holding answer 6 March 2008]:* Armed forces personnel can receive a wide range of medical treatment, from life-saving care on the battlefield and in field hospitals, through in-patient treatment in NHS hospitals in the UK, to out-patient care at numerous military primary care facilities across the UK and overseas, including regional rehabilitation and mental health facilities. It follows from this that complaints about medical treatment can be made at a number of levels. For patients treated in a NHS hospital the complaint will be made to, and dealt with by, the operating NHS trust. As military patients can be treated in any NHS hospital, details of all complaints could be obtained only by contacting each NHS trust in the UK individually, and this could be done only at disproportionate cost.

Complaints about primary health care provided at military medical centres across the country will usually be dealt with at a regional level. Details are not held centrally and could be provided only at disproportionate cost.

Armed Forces; Housing

Angus Robertson: To ask the Secretary of State for Defence how his Department assesses the accommodation requirements of service personnel; how often this assessment is reviewed; and if he will make a statement. [196974]

Derek Twigg: Accommodation requirements are driven by personnel policy, including terms and conditions of service, societal trends (such as the increase or decrease in home ownership and marriage), changing force structures, including repatriation of forces and major initiatives such as the Defence Training Review.

Service living accommodation requirements are assessed by the Ministry of Defence (MOD) at a strategic, command and local level to ensure that,

where ever possible, good quality living accommodation is provided to service personnel in the right locations to meet current and future defence requirements.

A worldwide audit for all accommodation, both single living accommodation (SLA) and service family accommodation (SFA) is carried out annually to confirm current take-up rates and grading data. Single service requirements are included in the MOD's estate development plans which are regularly updated. Moreover, on a unit-by-unit basis, future SLA requirements are updated on a six-monthly basis.

For SFA in Great Britain, requirements are constantly monitored at a local level by Defence Estates, while the service planning assumptions and policy changes that drive potential changes in future demand for SFA are reviewed quarterly.

Nick Harvey: To ask the Secretary of State for Defence with reference to the Answer of 30 October 2007, *Official Report*, columns 1348-49W, on military housing, how many thefts have been reported in his Department's empty houses for *(a)* single living accommodation and *(b)* service families accommodation in the last 12 months. [197101]

Derek Twigg: The information requested is not held centrally and could be provided only at disproportionate cost.

Armed Forces: Military Decorations

Mr. Jenkin: To ask the Secretary of State for Defence how many non-blood relatives of servicemen who had been posthumously awarded service medals received medals on their relative's behalf in each of the last five years for which figures are available. [195739]

Derek Twigg: The information requested is not held centrally and could be provided only at disproportionate cost.

Armed Forces: Pay

Dr. Fox: To ask the Secretary of State for Defence whether the commitment bonus is *(a)* tax free, *(b)* tax free while serving in an area which qualifies for the operational allowance, *(c)* paid in full with one lump sum and *(d)* paid incrementally over a period of time. [196601]

Des Browne: The commitment bonus is paid to service personnel below officer level and is subject to income tax and national insurance contributions. This applies irrespective of where an individual is serving at the time that payment is made.

Currently, the commitment bonus is paid as a single lump sum of £5,500 or in two stages which, if an individual qualifies for both, total £5,500. Under the revised arrangements to be introduced next year, announced in my written ministerial statement on 19 March 2008, *Official Report*, columns 65-66WS, payments will range between £3,750 and £15,000 which can be claimed as a lump sum at different lengths of service from four (or five) to eight years, with higher payments the longer the individual has served. Those who take a payment before eight years, but then give additional service, will be allowed to take a second payment, but the overall amount received will be reduced to reflect the decision to take part of the payment early, thus providing the incentive to wait and take a larger sum later.

Armed Forces: Scotland

Patrick Mercer: To ask the Secretary of State for Defence how many officer recruiters are operating in Scotland; how many personnel are detached from the Field Army for unofficial recruiting duties in Scotland; and how many recruits successfully passed *(a)* into and *(b)* out of training last year in Scotland. [196238]

Mr. Bob Ainsworth: There are currently 22 officer recruiters working in Scotland, and 122 Army personnel working in unestablished recruiting posts.

In 2006-07, 1,073 individuals, who had been recruited for the Army through an Armed Forces Careers or Army Careers Information Office in Scotland, commenced Phase 1 training or the combined Phase 1/Phase 2 Infantry training at Catterick. In the same year 485 recruits completed basic training and 463 recruits completed the combined Phase 1/Phase 2 Infantry training.

However there is no direct correlation between these inflow and outflow figures for some of those who completed their Phase 1 training or the combined Phase 1/Phase 2 Infantry training in 2006-07 will have commenced their training in 2005-06 or earlier. Moreover some of those who enlisted in 2006-07 will not have completed their Phase 1 training or the combined Phase 1/Phase 2 Infantry training within that year.

Armoured Fighting Vehicles

Ann Winterton: To ask the Secretary of State for Defence what plans he has for procuring additional armoured cars. [195632]

Mr. Bob Ainsworth: I am assuming "armoured cars" to mean lightweight armoured wheeled scout vehicles. We provide our forces with a range of vehicles spanning a wide spectrum of protection levels, mobility, profile and armament, depending on their tasks. Vehicles like the CVR(T), WMIK and Panther undertake the sort of tasks that armoured cars might have undertaken. We have no current plans to procure a light, armoured, wheeled scout vehicle.

Army: Deployment

Mr. Gordon Prentice: To ask the Secretary of State for Defence how many soldiers were on active operations overseas in each year since 1997; and what percentage of the Army this represented in each year. [197373]

Mr. Bob Ainsworth: The following table shows the number and percentage of UK army personnel deployed on operations at a specific point in time.

	Number deployed on operations	Percentage of trained strength[1] deployed
4 January 2006	7,900	8.1
1 January 2007	9,200	9.7
3 January 2008	9,400	10.0

[1] Trained strength as at 1 January in each year.

Due to the manual nature of the data collection, comparable reliable figures are not available prior to December 2005 when a review of the data collation process was undertaken.

Ballistic Missile Defence

Nick Harvey: To ask the Secretary of State for Defence how much the anti-terrorist unit patrolling RAF Menwith Hill has cost the Ministry of Defence Police Agency in each year since such patrols began. [197049]

Mr. Bob Ainsworth: I am withholding the cost of the Ministry of Defence police deployed at RAF Menwith Hill for the purpose of safeguarding national security.

Nick Harvey: To ask the Secretary of State for Defence (1) on what date the space based infra-red system at RAF Menwith Hill became operational; [197050]

(2) on what date work began on the installation of equipment at RAF Menwith Hill as part of the US ballistic missile defense system. [197098]

Des Browne: Installation of ground terminal equipment at RAF Menwith Hill to allow missile early warning data to be received from the Space Based Infra Red Satellites (SBIRS) was initiated following the then Government's agreement to the plan in March 1997. The eventual operational date for the SBIRS system is a matter for the US Government.

The necessary components to allow the downlink at RAF Menwith Hill to route satellite early warning data to the US Ballistic Missile Defence system arrived in September 2007, and were installed in November 2007.

Nick Harvey: To ask the Secretary of State for Defence on what date the component of the US ballistic missile defence system at RAF Fylingdales became operational. [197051]

Des Browne: The upgrade of the radar and associated systems at RAF Fylingdales to allow it to operate as part of the US ballistic missile defence system was completed on 9 August 2007.

Civil Servants: Pay

Dr. Fox: To ask the Secretary of State for Defence how many of his Department's civil servants have been recipients of the Civil Service Injury Benefit Scheme in each year since 1997. [196612]

Derek Twigg: Information prior to 2000 is not available. The number of civil servants in the Ministry of Defence receiving awards under the scheme is as follows:

	Number
2000	95
2001	71
2002	47
2003	72
2004	54
2005	72
2006	46
2007	42

Colchester

Bob Russell: To ask the Secretary of State for Defence how many former residential properties of his Department in Colchester constituency were sold in each year since their acquisition by Annington Estates. [195979]

Derek Twigg: 1,394 properties in the Colchester area were included in the 1996 sale and leaseback agreement with Annington Homes Ltd. (AHL). Since 1996, the sale and timing of the sale of those properties has been a matter for the company, and the Department has no relevant information.

However, since 1996, we have returned properties to AHL as follows:

	Number returned to AHL
2002	136
2003	45
2004	40
2005	35

Bob Russell: To ask the Secretary of State for Defence (1) how many of his Department's residential properties there are in Colchester constituency; how many there were at the time Annington Estates acquired them; and on what date the acquisition was completed; [195980]

(2) what the average price was for his Department's dwellings in Colchester constituency paid by Annington Estates. [195981]

Derek Twigg: The Ministry of Defence (MOD) sold the majority of its service families accommodation (SFA) in England and Wales to Annington Homes Ltd (AHL). The sale was completed on 5 November 1996. These properties were then leased by the MOD until it no longer has a use for them and they are returned to AHL for disposal on the open market.

Under the Sale Agreement, the 1,394 SFA properties in the Colchester area were sold to AHL in 1996 at an average cost of £24,888 per property. 1,093 of these properties are still leased by the MOD.

Bob Russell: To ask the Secretary of State for Defence how much of the proceeds from the sale of his Department's former housing and other land in Colchester constituency, subsequently sold by Annington Estates, were passed to the Government in each year since such sales have taken place; what this represented as a percentage of the sale price in each case; and if he will make a statement. [195982]

Derek Twigg: Under the terms of the 1996 Sale Agreement with Annington Homes Limited (AHL), the Exchequer receives a percentage of any profit the company makes on the subsequent disposal of houses and land returned to it.

The amounts received in each financial year since then are:

Financial year	*£ million*
1997-98	2.3
1998-99	3.5
1999-2000	6.8
2000-01	8.0
2001-02	16.8
2002-03	29.9
2003-04	29.9
2004-05	15.2
2005-06	18.4
2006-07	15.0
2007-08	18.20
Total	154.00

1 April to 31 December 2007

Information is not held in a way that allows the elements relating to individual areas to be separately identified.

Bob Russell: To ask the Secretary of State for Defence (1) how much his Department paid Annington Estates in each year for improvements and modernisation of residential dwellings in Colchester constituency in each year since the company acquired the properties; [195984]

(2) how much his Department has paid Annington Estates in *(a)* rent and *(b)* costs of maintenance for residential dwellings in Colchester constituency in each year since the company acquired the properties. [195983]

Derek Twigg: The rental figures paid to Annington Homes Ltd. (AHL) for properties in the Colchester area are as follows:

	£
1996	1,014,874
1997	2,528,528
1998	2,528,528
1999	2,672,679
2000	3,106,308
2001	3,103,571
2002	2,870,260
2003	2,762,019
2004	2,894,323
2005	3,482,606
2006	3,501,882
2007	3,556,308

After the sale of the houses to AHL in 1996, the Department retained responsibility for their maintenance and upgrade. Consequently no moneys are paid to AHL for such costs in regard to properties leased for Service use.

Defence Equipment and Support: Manpower

Mr. Hancock: To ask the Secretary of State for Defence what the effects of the merger of the Defence Procurement Agency and the Defence Logistics Organisation have been on overall staff numbers. [196357]

Mr. Bob Ainsworth: The decision to merge the Defence Procurement Agency and the Defence Logistics Organisation was not numbers driven and as such has had no direct impact on staff numbers. Since merger however, DE and S has been looking for ways to become more effective and as a result, this is likely to reduce the size of the organisation.

Defence Equipment and Support: Standards

Mr. Hancock: To ask the Secretary of State for Defence what targets have been set for Defence Equipment and Support; and how its performance against those targets will be reported. [196351]

Mr. Bob Ainsworth: With the exception of the Departmental Public Service Agreement Target for Equipment Procurement to which Defence Equipment and Support (DE and S) contributes, no formal externally reported targets have been established for the first year of operation of DE and S. The first year of operation has been used to develop and test a performance management regime with associated shadow targets which will be used to inform formal targets as they are established for 2008-09. Performance against the individual measures and targets, once they are agreed, will be reported within the Department's performance reporting framework.

Departmental Empty Property

Angus Robertson: To ask the Secretary of State for Defence how many unoccupied properties are *(a)* rented and *(b)* owned by his Department in each constituency in (i) Scotland, (ii) Wales, (iii) Northern Ireland and (iv) England; when this figure was last updated; and if he will make a statement. [196970]

Derek Twigg: The information requested is not held centrally and could be provided only at disproportionate cost.

Nick Harvey: To ask the Secretary of State for Defence what steps Ministry of Defence police are taking to monitor his Department's empty properties and protect them against theft or vandalism. [197100]

Derek Twigg: Empty or void service family accommodation (SFA) in England and Wales is managed by Defence Estates through Modern Housing Solutions (MHS). MHS are required to monitor and carry out periodical inspections of void properties.

The Ministry of Defence police (MDP) will carry out random routine patrols and investigations where tasked to do so. This can take place in various ways, for example through unit beat officers patrolling SFA estates, by an establishment requesting particular policing services, or by MDP acting on specific local intelligence.

Departmental ICT

Dr. Fox: To ask the Secretary of State for Defence pursuant to the answer of 18 February 2008, *Official Report*, column 95W, on departmental ICT, when he expects the investigation into the details of all lost or stolen computers since 2003 to be completed; and when he expects to be able to write to hon. Members following collation of the information. [196718]

Des Browne: The investigation into details of computers and other electronic media lost/stolen since 2003 is continuing. When complete, the collated data will be provided to Sir Edmund Burton as part of his review and will form part of the evidence base for his report which is due to be submitted by the end of April 2008.

I will keep the House informed on the outcome of Sir Edmund's review once his findings have been consolidated.

Departmental Property

Angus Robertson: To ask the Secretary of State for Defence what procedure is followed by his Department with regard to the sale of departmental accommodation; what role local consultation plays in this procedure; and if he will make a statement. [196973]

Derek Twigg: When the Ministry of Defence (MOD) no longer has a need for land and property it is first offered to other Government Departments and public bodies for alternate use. Otherwise, providing there are no former owner considerations under the "Crichel Down" rules, it is usual MOD policy to sell surplus land and property on the open market, in accordance with Treasury guidelines, using competition to achieve the best price. In order to maximise value, we will consult with the local planning authority and other stakeholders to achieve the optimum planning position for the site particularly where there is redevelopment potential, such as for housing or commercial use.

The majority of service family accommodation (SFA) properties in England and Wales were sold to a Annington Homes Ltd. (AHL) in 1996 and then leased to the MOD until they are surplus to defence requirements and are handed back to AHL for disposal. Other surplus SFA in the UK is disposed of in accordance with Treasury guidelines at market value. Where the opportunity exists for a bulk sale of SFA at market value, the MOD will discuss the way forward with the appropriate local authorities, registered social landlords and, in Scotland, the Scottish Executive.

Departmental Sustainable Development

Norman Baker: To ask the Secretary of State for Defence when his Department plans to publish its sustainable operations policy statement. [195884]

Derek Twigg: The overarching policy statement on Safety, Health, Environmental Protection and Sustainable Development in the Ministry of Defence was approved by my right hon. Friend the Secretary of State for Defence on 18 March 2008. I will place a copy in the Library of the House.

Falkland Islands: Military Bases

Mike Penning: To ask the Secretary of State for Defence how much it cost to maintain the Falkland Islands garrison in the last year for which figures are available, broken down by category of expenditure. [196868]

Mr. Bob Ainsworth: In financial year 2006-07, the cost of maintaining the garrison on the Falkland Islands to the Chief of Joint Operations (CJO), who is responsible for maintaining UK forces there, was £65 million, broken down by category as follows:

	£ million
Personnel	31.3
Infrastructure	8.9
Stock/Other Consumption (including fuel costs)	15.9
Equipment Support	2.8
Other costs (including transport costs)	6.5

This is a much lower figure than that reported in previous years because, as a consequence of a change in MOD accounting policy, CJO is no longer responsible for reporting fixed asset depreciation costs and the cost of capital on fixed assets.

Gurkhas: Nepal

Damian Green: To ask the Secretary of State for Defence (1) how many Nepalese nationals have served in the Brigade of Gurkhas since 1997; [197023]

(2) how many Nepalese nationals have served in the Brigade of Gurkhas since 1978. [197024]

Mr. Bob Ainsworth: Including those who are still serving, approximately 17,840 Nepalese nationals have served in the Brigade of Gurkhas since 1978, of which 6,277 have served since 1997.

Iraq: Peacekeeping Operations

Harry Cohen: To ask the Secretary of State for Defence with reference to the oral answer of 22 January 2007, *Official Report*, column 1138, on the al-Jameat police station, what reports he has received of the steps taken by the Iraqi Government against the members of the serious crime unit. [194544]

Des Browne: The Basra police continue to work to enforce and execute the arrest warrants issued for members of the former Serious Crimes Unit of the Basra police.

Prisoners of War: Compensation

Nick Harvey: To ask the Secretary of State for Defence what plans his Department has to reimburse protected personnel for deductions made from their pay while held as prisoners of war in Germany; and what criteria he uses to determine the entitlement of protected personnel to compensation for periods spent as prisoners of war during the Second World War. [197075]

Derek Twigg: The deductions made from the home pay accounts of Protected Personnel held in Europe during the Second World War were considered during a detailed review undertaken by MOD during the 1990s. The outcome of the review was announced by the then Under-Secretary of State on 24 July 1997, *Official Report*, column 720W, and a copy of the report of the review was placed in the Library of the House. Ministers ruled that there were no grounds to re-open the issue and no new aspects have since been raised to justify any change to this policy.

Sudan: Peacekeeping Operations

Angus Robertson: To ask the Secretary of State for Defence pursuant to the Answer of 6 March 2008, *Official Report*, column 2712W, on Sudan: peacekeeping operations, which United Nations/African Union Mission in Darfur troop contributing countries have (*a*) requested and (*b*) received assistance with (i) the provision of equipment and (ii) training packages; and if he will make a statement. [196866]

Mr. Bob Ainsworth: Some countries that have agreed to contribute troops to the United Nations African Union Mission in Darfur (UNAMID) require assistance to enable them to deploy. The UK will play its part in providing that assistance. In announcing the National Security Strategy, the Prime Minister confirmed that the UK will support with £4 million an international programme to train and equip African troops for UNAMID. The training and equipment needs have yet to be finalised, and we continue to work closely with the UN and partners to agree the full package needed.

Territorial Army: Manpower

Mike Penning: To ask the Secretary of State for Defence what (*a*) the ceiling on personnel numbers and (*b*) the actual strength of the Territorial Army was in each of the last 10 years; and if he will make a statement. [196870]

Mr. Bob Ainsworth: The ceiling on personnel numbers has been determined to be the maximum number of personnel to be maintained as agreed by Parliament through the Votes A mechanism. The maximum numbers for each of the last 10 years and the actual strength of the Territorial Army for those years in which records are held, as at the 1 April of each year, are set out the following table:

	Maximum number of TA personnel	*Actual strength of TA personnel*
1998	59,000	
1999	51,820	
2000	47,795	
2001	47,000	
2002	47,000	
2003	47,000	
2004	47,000	38,320
2005	47,000	37,260
2006	47,000	38,460
2007	47,000	36,790

Note:
Figures for actual strength of TA personnel prior to 2004 are not held centrally.

Territorial Army: Yorkshire and the Humber

Hugh Bayley: To ask the Secretary of State for Defence how many Territorial Army soldiers from Yorkshire and the Humber saw active service abroad in each year since 2001. [197137]

Mr. Bob Ainsworth: The information is not held in the format requested and could be provided only at disproportionate cost.

Type 23 Frigates: Costs

Mr. Hancock: To ask the Secretary of State for Defence pursuant to his Answer of 13 March 2008, *Official Report*, column 668W, on Type 23 Frigate, what the reasons are for the cost of (*a*) HMS Portland and (*b*) HMS Sutherland relative to the average cost of the other ships in the class; and if he will make a statement. [196353]

Mr. Bob Ainsworth: In order to establish the reasons for the variation in costs of HM Ships Portland and Sutherland from the Type 23 Class average, it would be necessary to investigate historic contract information that is no longer held centrally by the MOD and could be provided only at disproportionate cost.

Warships

Dr. Julian Lewis: To ask the Secretary of State for Defence (1) what the procedures are for deciding the basis on which (*a*) new classes of warship and (*b*) individual warships are named; [197536]

(2) if he will make it his policy to recommend that the Future Surface Combatant flotilla should consist of warships named after escort vessels with distinguished records of service in the two world wars; [197537]

(3) if he will make an assessment of the impact on the (*a*) continuity of naval tradition and (*b*) motivation of ships' companies of naming warships after predecessors with past battle honours. [197538]

Mr. Bob Ainsworth: The Ships Names and Badges Committee has the task of assessing all the possible names for new ships before making their recommendations through the First Sea Lord and my right hon. Friend the Secretary of State for Defence for final approval by Her Majesty the Queen.

A new class of Royal Navy warships will have a theme as advised by the First Sea Lord in consultation with the Controller of the Navy. Names of individual ships will be informed by a number of guiding principles including: names associated with a long and illustrious heritage, tradition, Battle Honours and names classically associated with a type of vessel.

The Future Surface Combatant is in the early stages of concept design and a theme for the names will not be considered for some time. Nothing is being ruled out at this stage and names of escort warships with distinguished records of service in the two world wars would fall within the guiding principles for naming Royal Navy warships and will be considered.

Naval tradition is intrinsic to the values of the Royal Navy and this extends to the naming of its warships. The naming of Royal Navy warships associated with an illustrious heritage instils a sense of pride, tradition and esteem in today's Royal Navy personnel.

DUCHY OF LANCASTER

Departmental Advertising

Mr. Jeremy Browne: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 19 February 2008, *Official Report*, column 685W, on departmental advertising, how much is represented by the percentages given. [197454]

Mr. Watson: Advertising costs since 1998-99 can be found in the following table:

	£000
1998-99	138
1999-2000	300
2000-01	454
2001-02	2,708
2002-03	395
2003-04	282
2004-05	340
2005-06	406
2006-07	475

The increase in advertising spend in 2001-02 was due to expenditure incurred by the Office of the E-Envoy (now known as Transformational Government) for the UK online advertising campaign, encouraging the public to use the internet, and offering help to those who wanted to do so.

Departmental Aviation

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster how much the Cabinet Office spent on domestic and international air travel in 2006-07, broken down by class of travel. [191080]

Mr. Jeremy Browne: To ask the Chancellor of the Duchy of Lancaster how much his Department spent on travel *(a)* within the UK and *(b)* overseas in the last year for which figures are available. [191171]

Mr. Watson: Expenditure incurred by the Cabinet Office on domestic and international air travel is not held centrally and is therefore available only at disproportionate cost.

Departmental Contracts

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster what contracts were awarded by his Department to *(a)* KPMG, *(b)* PricewaterhouseCoopers, *(c)* Ernst and Young, *(d)* McKinsey, *(e)* Deloitte and *(f)* other consultancy firms in each of the last 12 months; and what the (i) purpose and (ii) value was of each of these contracts. [196588]

Mr. Watson: The information requested for the Cabinet Office is not readily available and may not be obtained without incurring disproportionate costs.

Departmental Data Protection

Mrs. Villiers: To ask the Chancellor of the Duchy of Lancaster (1) whether personal data for which his Department is responsible are *(a)* stored and *(b)* processed overseas; and if he will make a statement. [176026]

(2) what audits his Department carried out in relation to personal data and IT equipment in each of the last 10 years; [176475]

(3) what requirements his Department and its agencies place on contractors in relation to audit of personal data and IT equipment. [176630]

Mr. Watson: None of the personal data for which the Cabinet Office is responsible are stored or processed overseas.

The Cabinet Office operates in accordance with the Manual of Protective Security and the Data Protection Act. Measures are in place to monitor the personal data the Department holds. A full audit of centrally provided IT equipment was undertaken in January 2007, since then a monthly review is held to agree any changes. Information prior to January 2007 is not held centrally.

The Cabinet Office requires its contractors to comply with their obligations under the provisions of the Data Protection Act which includes taking appropriate technical and organisational measures against unauthorised or unlawful processing of personal data and against accidental loss or destruction of, or damage to, personal data and ensures the security of such data.

Departmental Pay

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster what the hourly rates of pay of all non-permanent staff working for his Department and its agencies were in each of the last 12 months; and how many staff were receiving each rate in each of those months. [196441]

Mr. Watson: From latest available figures as at 31 December 2007, there were 182 non-permanent staff (FTE) working in the Cabinet Office. This figure includes staff on a fixed term or short-term appointment, staff seconded in from outside the civil service, fee-paid staff, agency staff, consultants and contractors.

Rates of pay for non-permanent appointments are not held centrally and could be collected only at disproportionate cost.

Furniture: 10 Downing Street

Mr. Hands: To ask the Chancellor of the Duchy of Lancaster what *(a)* office furniture and *(b)* home furnishings in number 10 Downing street have been (i) bought and (ii) replaced since 1 October 2007. [197406]

Mr. Watson: Information on the cost of office furniture and furnishings will only be available when the Department's resource accounts are fully audited and laid before Parliament.

Government Departments: Data Protection

Mrs. Maria Miller: To ask the Chancellor of the Duchy of Lancaster what guidance his Department provides to Government Departments wishing to undertake a risk assessment of the security of new and existing IT systems; what obligations there are on Government Departments to follow that guidance; and if he will make a statement. [190731]

Mr. Watson: The National Information Assurance Strategy 2007 produced by the Cabinet Office states that Departments must have clear and accountable ownership of information risk management at board level.

Guidance is provided through the Manual of Protective Security issued by the Cabinet Office.

In publishing the Data Handling Procedures in Government: Interim Progress Report (the written statement of 17 December 2007, *Official Report*, column 98WS), the Government announced that departmental accounting officers should explicitly include the systematic coverage of information assurance in their annual statements on internal control. A final report is expected in spring 2008.

Government Departments: Internet

Mr. Harper: To ask the Chancellor of the Duchy of Lancaster what guidance his Department issues to other Government Departments on their use of the Completely Automated Public Turing Tests to tell Computers and Humans Apart (CAPTCHAs); and which Departments' websites use CAPTCHAs. [196982]

Mr. Watson: The Cabinet Office has issued no specific guidance on CAPTCHAs and it holds no central records of which departmental websites use them. Responsibility for information security and accessibility measures of individual websites lies with the individual Departments.

The overall policy for Government Departments on website registration is set out in the Registration and Authentication: e-Government Strategy Framework Policy and Guidelines (Version 3.0, September 2002):

http://www.cabinetoffice.gov.uk/upload/assets/www.cabinetoffice.gov.uk/csia/regandauthentn02v3.pdf

Government websites should also comply with the Government's website accessibility guidelines:

http://www.cabinetoffice.gov.uk/upload/assets/www.cabinetoffice.gov.uk/publications/government_it/consultations/pdf/delivering_inclusive_websites1.pdf

Copies of both these documents have been placed in the Libraries of the House.

ICT: Leasing

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster for what reasons the Cabinet Office negotiated an agreement for the early settlement of the lease for IT equipment with Hitachi Data Systems Ltd; and how many months there were before the natural termination of the lease. [191012]

Mr. Watson: The reason for early settlement of the Hitachi Data Systems (HDS) lease agreement was to allow the maintenance provisions to be separated from the underlying asset and to take advantage of a reduction to lease charges of £34,000. The maintenance provisions have been rescheduled so that they can be reused in other Government projects where HDS assets are involved at no additional cost. The lease was settled 21 months before it naturally expired.

Michael Ashcroft

Mr. Gordon Prentice: To ask the Chancellor of the Duchy of Lancaster when he expects the appeal procedure in respect of the Freedom of Information request from the hon. Member for Pendle in relation to the undertaking given by Michael Ashcroft prior to his elevation to the peerage will be concluded; and if he will make a statement. [197392]

Mr. Watson: The appeal procedure has now been completed and a response sent to the hon. Member.

Political Office: Prime Minister

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what sub-divisions of the Prime Minister's Office there are based in (*a*) No. 10 Downing Street, (*b*) HM Treasury, (*c*) the Cabinet Office and (*d*) elsewhere. [191100]

Mr. Watson: The Prime Minister's Office forms an integral part of the Cabinet Office. All staff in the Prime Minister's Office are based in the Cabinet Office estate, which includes No. 10 Downing Street.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan Security

Mr. Bone: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his US counterpart on the political and security situation in Afghanistan; and if he will make a statement. [196264]

Dr. Howells: My right hon. Friend the Foreign Secretary and the US Secretary of State, Condoleezza Rice, held a joint seminar at Lancaster House on 6 February 2008 and visited Afghanistan together on 7 February 2008. They discussed a full range of issues regarding our shared commitment to supporting the people and the Government of Afghanistan. Since their visit they have been in frequent contact to discuss all aspects of progress in Afghanistan. The UK holds regular dialogue with all our partners in Afghanistan as part of our undertaking to help the Government of Afghanistan build a peaceful and sustainable state.

Balkans: EC Accession

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on proposals for the European Union's further enlargement in the Balkans. [196207]

Mr. Jim Murphy: The Government remain committed to a future for the Western Balkans in the EU. Working towards EU accession will help the region move away from the conflicts and troubles that have held it back in the past, and consolidate peace and stability. Each state should move towards EU membership by demonstrating progress against the criteria set out in the Stabilisation and Association process and the priorities identified in their individual European or Accession Partnerships. The UK is working with countries in the region to help them make the necessary reforms. We welcome the Commission's 5 March 2008 communication reaffirming 2003 European Council conclusions for a European perspective for the region and proposing practical ways to deepen the EU's relations with the region within the existing €4 billion Instrument for Pre-Accession funding allocated to the Western Balkans between 2007-11.

Burma: Overseas Students

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will increase funding for scholarships in the UK for Burmese students. [196385]

Mr. Jim Murphy: Against an overall reduction in Chevening funding, the allocation for Burma for 2008-09 remains the same as for 2007-08. This has enabled 12 Burmese scholars to undertake Open university courses. We have no plans at present to increase this allocation, which has been made in accordance with the Foreign and Commonwealth Office's global priorities.

Colombia

John Battle: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the government of Colombia on the proceedings against Diego Montoya. [196283]

Dr. Howells: The Government have not made representations to the Colombian government regarding the legal proceedings against Diego Montoya. We understand that the US authorities have issued a warrant to have Mr. Montoya extradited to the US—he was one of the Federal Bureau of Investigation's 10 most wanted criminals.

John Battle: To ask the Secretary of State for Foreign and Commonwealth Affairs what monitoring and evaluation of UK support provided to the Colombian military his Department conducts; by what mechanisms such monitoring takes place; and if he will make a statement. [196285]

Dr. Howells: UK assistance to Colombia, which includes support to a range of civil society organisations, the Colombian Government and the armed forces, is focused on improving the difficult human rights situation, preventing the amount of cocaine from reaching the UK's streets and reducing the threats that landmines pose to the Colombian people.

All British projects in Colombia, as elsewhere, undergo rigorous evaluation before funding is agreed, in areas such as value for money and effectiveness of implementing partners; and carefully monitored whilst projects are under way in terms of proper use of funds, achievement of objectives and outputs. UK staff continually and scrupulously supervise the use of British resources in Colombia to ensure that the highest operational, ethical and human rights standards are maintained in our human rights and counter narcotics work.

We evaluate that UK assistance is having a positive effect on the issues of most concern in Colombia. The UK has played a key role in working to institutionalise respect for human rights in the Colombian armed forces, so that they operate by the same high standards we demand of our own armed forces. Our counter-narcotics work is tightly focused on helping the Colombians tackle drugs production, trafficking organisations and networks. Our training in humanitarian demining has improved the Colombian Government's ability to remove the landmines that illegal armed groups place to harm innocent civilians.

Committee on the Grant of Honours, Decorations and Medals

Mr. Touhig: To ask the Secretary of State for Foreign and Commonwealth Affairs who was consulted before the Committee on the Grant of Honours, Decorations and Medals decided veterans should accept, but not wear, the Pingat Jasa Malaysia Medal. [196183]

Meg Munn: Ministers and officials in the Ministry of Defence and Foreign and Commonwealth Office and staff of the Ceremonial Secretariat (Cabinet Office) and Buckingham palace were consulted before the Committee on the Grant of Honours, Decorations and Medals took the decision that the medal could be accepted but not worn. The Malaysian authorities were also included in discussions prior to the decision being taken.

All members of the Committee itself took part in the discussions.

Mr. Touhig: To ask the Secretary of State for Foreign and Commonwealth Affairs how many representations have been received from (*a*) veterans' organisations, (*b*) individuals and (*c*) hon. and right hon. Members calling on the Committee on the Grant of Honours, Decorations and Medals to reconsider its advice to HM the Queen on not allowing veterans to wear the Pingat Jasa Malaysia Medal. [196239]

Meg Munn: We have received many representations from individuals, veterans' organisations and hon. Members on this issue. To collate the exact number would incur disproportionate cost.

Mr. Touhig: To ask the Secretary of State for Foreign and Commonwealth Affairs when the rules governing the award of foreign honours, decorations and medals were last reviewed. [196240]

Meg Munn: The rules governing the award of foreign honours, decorations and medals have been reviewed and revised on a number of occasions over the last 150 years, and were last discussed early in 2007.

Mr. Touhig: To ask the Secretary of State for Foreign and Commonwealth Affairs whether any past or present members of the Committee on the Grant of Honours, Decorations and Medals has been awarded and accepted an honour, decoration or medal from a foreign, Commonwealth or UK dependency government. [196245]

Meg Munn: The Honours and Decorations Committee dates back to the 1930s. It would incur disproportionate cost to check all potential awards to members dating back to its inception.

However we are aware of examples, in recent years, of when Her Majesty The Queen's Private Secretaries, who customarily serve on the Committee on the Grant of Honours, Decorations and Medals, have received such decorations in their role as senior representative of Her Majesty The Queen in the context of close relations with or visits involving Her Majesty's Realms. As Her Majesty The Queen is Head of State in Realm countries, no permission is required to accept such awards.

EC President

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has received on the proposed *(a)* responsibilities, *(b)* duties and *(c)* powers of the President of the European Council; if he will place in the Library copies of such representations; and if he will make a statement. [196092]

Mr. Jim Murphy: The Government strongly support a full-time President of the European Council, who will replace the current rotating President of the European Council, who changes every six months. The Lisbon treaty is clear (Article 1(16)(6), Consolidated Treaty Article 15(6) Treaty of the European Union) that the full-time President of the European Council will:

chair the European Council and drive forward its work;

ensure the preparation and continuity of the work of the European Council in cooperation with the President of the Commission, and on the basis of the work of the General Affairs Council;

endeavour to facilitate cohesion and consensus within the European Council;

present a report to the European Parliament after each of the meetings of the European Council;

ensure the external representation of the Union on issues concerning its common foreign and security policy, without prejudice to the powers of the High Representative of the Union for Foreign Affairs and Security Policy; and

assist the General Affairs Council with ensuring follow-up to meetings of the European Council.

This broadly reflects the current role of the President of the European Council in practice. Having a full-time President of the European Council will bring greater coherence and consistency to the EU's actions; and will give member states greater capacity to give direction and momentum to the EU's agenda.

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs whether *(a)* hon. Members, *(b)* members of the House of Lords and *(c)* members of the public will be able to submit nominations for the post of the President of the European Council; what recent representations he has received on this issue; and if he will make a statement. [196093]

Mr. Jim Murphy: The full-time President of the European Council will be chosen by, and accountable to, the Heads of State or Government.

Having a full-time President of the European Council will bring greater coherence and consistency to the EU's actions; and will give member states greater capacity to give direction and momentum to the EU's agenda.

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations have been received on procedures for the appointment of the President of the European Council; what criteria he proposes to adopt for nominating any candidate for the post of President of the European Council; and if he will make a statement. [196094]

Mr. Jim Murphy: The Government support a full-time President of the European Council to replace the current rotating President of the European Council, who changes every six months. He or she will be chosen by heads of state and Government by qualified majority, and will be accountable to them.

The full-time President of the European Council will not hold a national mandate and will be excluded from holding the post of President of the European Commission at the same time.

Having a full-time President of the European Council will bring greater coherence and consistency to the EU's actions; and will give member states greater capacity to give direction and momentum to the EU's agenda.

Eritrea: Ethiopia

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made towards the demarcation of the Ethiopia-Eritrea border; and if he will make a statement. [186869]

David Miliband: The Government regret the lack of any progress made by both Ethiopian and Eritrean Governments on agreeing to demarcate their border or proceeding to demarcation on the ground, as they committed to do when they signed up to the Algiers Agreements of 2000. We repeatedly remind both parties of their responsibility under the Algiers Agreements to make progress on demarcating their border.

In this regard, we fully support UN Security Council Resolution 1798, adopted unanimously on 30 January 2008, and expect the parties to implement fully all its provisions, including those relating to demarcation of the border.

European Union: Per Capita Costs

Mr. Shepherd: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the UK's gross and net contribution to the EU in the most recent financial year for which figures are available; what has been the total gross and net contributions made by the UK since 1978; and what amount per head of UK population these figures represent. [195360]

Mr. Jim Murphy *[holding answer 18 March 2008]:* The hon. Member will find estimates of the UK's gross and net contribution, and abatement, to the European Community Budget in the annual European Community Finances White Paper produced by HM Treasury. A copy of this document has been placed in the Library of the House. The Office for National Statistics produces population figures for the UK.

Gaza: Overseas Aid

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of *(a)* the ability of international humanitarian organisations to operate in the Gaza Strip in light of current Israeli military operations in the territory and *(b)* the humanitarian situation in Gaza. [192243]

David Miliband: The operations by the Israel Defence Force in Gaza between 27 February and 3 March made working conditions more difficult for humanitarian organisations. The Palestinian Ministry of Health was particularly stretched to deal with the large number of casualties; a clinic, pharmacy and ambulance of the Palestinian Medical Relief Society were destroyed; and two UN Relief and Works Agency schools were damaged. However, some humanitarian supplies and fuel continued to get into Gaza during this period. International humanitarian organisations currently report that they are able to import items required for immediate relief (e.g. food and medicine), but that items required for longer-term activities continue to encounter long delays or are not getting in at all (e.g. the UN Children's Fund supplies for schools and some spare parts for fixing the water supply system).

We remain gravely concerned about the humanitarian situation in Gaza. Essential services, including water and sanitation, are close to breakdown and a number of essential medical items and drugs are out of stock. I have discussed this with the Israeli Defence Minister, Palestinian President and the UN Secretary-General. Department for International Development officials are monitoring the ongoing situation.

Human Rights

Chris Huhne: To ask the Secretary of State for Foreign and Commonwealth Affairs which countries his Department lists as being jurisdictions where homosexuals are at risk of *(a)* execution and *(b)* other forms of persecution by (i) state sanctioned bodies and (ii) non-state sanctioned bodies; and if he will make a statement. [196292]

Meg Munn: The nine countries that have a maximum penalty of death for consenting same sex relations are Iran, Iraq, Mauritania, Nigeria (in 12 northern states where Sharia law operates), Pakistan, Saudi Arabia, United Arab Emirates, Sudan and Yemen.

There are a number of other countries where lesbian, gay, bisexual and transgender people may be at risk of persecution. The Foreign and Commonwealth Office's Travel Advice points to countries where there might be a risk of persecution. The Foreign and Commonwealth Office also provides specific advice for lesbian, gay, bisexual and transgender people on the range of issues that they might face abroad. This can be found at: www.fco.gov.uk/travel

The Foreign and Commonwealth Office opposes any form of persecution of lesbian, gay, bisexual and transgender people, by whoever, and wherever it occurs. Foreign and Commonwealth officials have been active in promoting the rights of lesbian, gay, bisexual and transgender people.

International Criminal Tribunal for the Former Yugoslavia

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on the future of the International Criminal Court for the former Yugoslavia after 2010; and if he will make a statement. [191979]

David Miliband: The International Criminal Tribunal for the former Yugoslavia (ICTY) currently estimates the completion of existing trials and appeals by 2011. The UK strongly supports the Tribunal's efforts to fulfil its mandate as efficiently and quickly as possible. At the same time, the UK is actively engaged in Security Council discussions to agree a coherent framework to deal with residual functions, including a mechanism to try fugitive indictees of ICTY and the other ad hoc tribunals following the completion of their work.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the International Criminal Tribunal for the former Yugoslavia's ability to achieve the objectives of its completion strategy by 2010. [191980]

David Miliband: Since 2004 the president and prosecutor of the International Criminal Tribunal for the Former Yugoslavia (ICTY) have provided twice-yearly reports to the UN Security Council on progress towards the completion strategy which envisages the completion of trials by the end of 2008 and appeals by the end of 2010.

The Government note that the ICTY president reported to the UN Security Council in December 2007 that more time is needed to complete its caseload as a result of the capture of fugitive indictees Zdravko Tolimir and Vlastimir Dordevic last May and June respectively. The ICTY currently estimates the completion of existing

trials and appeals by 2011. The transfer of the remaining four fugitive indictees will also have consequences for the projected timescales for the completion of the tribunal's work.

The Government welcome the steps taken by the tribunal to expedite the completion of cases such as greater use of written evidence and the introduction of multi-accused trials. The UK, together with EU and UN Security Council partners, regularly calls on the ICTY to continue to build on these measures to fulfil its completion strategy targets.

International Judicial Archives

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his EU counterparts on the location of international judicial archives in The Hague after 2010; and if he will make a statement. [191982]

David Miliband: The preservation and location of the archives of the ad hoc international criminal tribunals is a matter which the UN Security Council will consider in the context of other necessary residual functions following the completion of the tribunals' work. Discussions on residual issues is currently underway in the Security Council and involves a number of EU partners.

To assist the Security Council's consideration of this issue, an independent Advisory Committee on Archives has been tasked to prepare a comparative study on archiving solutions. The committee is due to submit its recommendations by the middle of this year.

Iran: Israel

Mr. Gregory Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has made representations to the Government of Iran on President Ahmadinejad's recent statement on the Holocaust. [197447]

Mr. Jim Murphy: Iranian President Ahmadinejad's statements questioning the holocaust and calling for Israel to be 'wiped off the map' are deplorable and the Government have consistently condemned them. Although we have seen no reports of recent statements by President Ahmadinejad on the holocaust, we have made clear that such comments are wholly unacceptable and have no place in civilised political debate. These kind of comments damage Iran's reputation and undermine international confidence that Iran is willing to act as a respectable member of the international community. The Minister for the Middle East, my hon. Friend the Member for Pontypridd (Dr. Howells) placed copies of statements condemning Iranian questioning of the holocaust and anti-Israeli comments in the Library of the House, following the written answer he gave to the hon. Member for Southend, West (Mr. Amess) on 19 March 2008, *Official Report*, column 1193W

Israel: Armed Conflict

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions *(a)* he, *(b)* Ministers and *(c)* officials in his Department have had with the government of Israel on suicide bombings in Israel; what recent representations he has received on the subject; and if he will make a statement. [196096]

Mr. Jim Murphy: My right hon. Friend the Foreign Secretary publicly condemned the suicide attack in Dimona on 4 February 2008. There can be no justification for attacks that deliberately target civilians. My right hon. Friend the Foreign Secretary speaks regularly to Israeli Foreign Secretary Livni about issues relating to Israeli security, most recently on 6 March 2008. Our embassy in Tel Aviv has regular discussions with the Israeli government about issues relating to Israeli security.

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he *(a)* has had recently and *(b)* plans to have with EU counterparts on the reported storage of (i) rockets and (ii) arms by Hamas in civilian areas in Gaza; and if he will make a statement. [196143]

Mr. Jim Murphy: We have regular discussions with our EU partners on the subject of Israel's security. We condemn all terrorist activities. However, we have had no particular discussions with our EU counterparts on the storage of arms and rockets in civilian areas by Hamas. The UK condemns the storage of arms and rockets by Hamas in civilian areas. The UK urges all parties to adopt a peaceful, political resolution to the conflict.

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he *(a)* has had and *(b)* plans to have with EU counterparts on reported comments by the President of the Palestinian Authority on the recognition by Hamas of the state of Israel; and if he will make a statement. [196148]

Mr. Jim Murphy: My right hon. Friend the Foreign Secretary has regular discussions with his EU counterparts on the subject of the middle east peace process, including on our position on Hamas, most recently at the informal Foreign Ministers' meeting (Gymnich). They will continue at the April EU General Affairs and External Relations Council. Our policy towards Hamas remains the same based on the three Quartet principles: recognition of Israel, acceptance of previous agreements and renunciation of violence.

Israel: Borders

Mr. Soames: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government has made to the Government of Israel to open the border passes to the Gaza Strip. [196520]

Mr. Jim Murphy *[holding answer 25 March 2008]*: The UK believes that the Gaza border crossings should be opened for both humanitarian and commercial activity. On 28 January 2008 my right hon. Friend the Foreign Secretary, with his EU colleagues, announced

that the EU would be willing to redeploy the EU border assistance mission at Rafah when conditions allow. Our embassy in Tel Aviv regularly raises this issue with the Israeli Government.

Malaysia: Honours

Mr. Touhig: To ask the Secretary of State for Foreign and Commonwealth Affairs whether Ministers were advised of or were asked to consider or approve the decision to set aside the rule preventing the wearing of the Pingat Jasa Malaysia Medal during the anniversary celebrations of Malaysian independence. [196243]

Meg Munn: I refer my right hon. Friend to the reply I gave him today (UIN 196244).

Mr. Touhig: To ask the Secretary of State for Foreign and Commonwealth Affairs why the decision not to allow recipients of the Pingat Jasa Malaysia Medal to wear the decoration on public occasions was set aside for the celebration coinciding with the anniversary celebrations of Malaysian independence. [196244]

Meg Munn: Ministers from the Foreign and Commonwealth Office and the Ministry of Defence put forward a proposal to the Committee on the Grant of Honours, Decorations and Medals that veterans exceptionally be allowed to wear the Pingat Jasa Malaysia medal during the main independence celebrations in Malaysia because of the significance of the anniversary.

Morocco

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs when he last discussed the referendum process in the Western Sahara with his Moroccan counterpart. [196352]

Dr. Howells: My right hon. Friend the Foreign Secretary has not discussed Western Sahara with his Moroccan counterpart. However, when I met the Moroccan Foreign Minister, Mr. Taieb Fassi Fihri, during the UK-Morocco ministerial dialogue forum in July 2007, we discussed a wide range of issues relating to Western Sahara and expressed our hope that a mutually acceptable political solution would be found, which would provide for the self determination of the people of Western Sahara. To this end, the UK fully supports the efforts of the UN Secretary-General and his personal envoy to the Western Sahara, Peter van Walsum.

Written Questions

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will answer question 186869, on the demarcation of the Ethiopia-Eritrea border, tabled on 7 February 2008. [196252]

David Miliband: I replied to the right hon. Member today.

INTERNATIONAL DEVELOPMENT

Africa: Life Expectancy

Mr. Gregory Campbell: To ask the Secretary of State for International Development what the average life expectancy of females of child bearing age in Africa was in (*a*) 1997 and (*b*) 2007. [197448]

Mr. Douglas Alexander: The United Nations Population Division provides the following figures for average life expectancy at age 15 (taken as the beginning of their reproductive life) for women in sub-Saharan Africa:

1995-2000: 48.5 years;

2005-2010: 46.7 years.

China: Overseas Aid

Mr. Clifton-Brown: To ask the Secretary of State for International Development what discussions he has had with the Chinese government on joint aid programmes. [196387]

Mr. Malik: In the Democratic Republic of the Congo, the Department for International Development (DFID) and the Chinese Embassy have been discussing collaboration around mitigating the environmental and social impact of investments to reopen and upgrade roads infrastructure.

We have also been providing some informal assistance to the Ministry of Health in China as they develop their strategy for support to health programmes in Africa.

Departmental Alcoholic Drinks

Mr. Weir: To ask the Secretary of State for International Development at how many events held by his Department (*a*) wine and (*b*) Fairtrade wine were served in the last three years; and what assessment his Department has made of the merits of serving Fairtrade wine at future events. [196942]

Mr. Thomas: The Department for International Development (DFID) does not retain this information centrally, and it cannot be obtained without incurring disproportionate cost.

Our contracted catering company is required to supply Fairtrade or other ethically traded items if specifically requested to do so by the function organisers. In line with HMG policy, DFID is committed to improving market access to producers in developing countries through increased participation in fair and sustainable supply chains.

Departmental Pensions

David Simpson: To ask the Secretary of State for International Development how many and what percentage of staff in his Department were making additional voluntary contributions to their pensions in each of the last two years. [193561]

Gillian Merron: 201 members of staff in the Department for International Development (or 11.4 per cent. of the staff employed by the department) were making additional voluntary pension contributions through deductions from their pay in February 2007. This has reduced to 188 members of staff (or 10.9 per cent. of those employed by the department) who were making additional voluntary pension contributions through deductions from their pay in February 2008.

Iraq: Asylum

Mr. Dai Davies: To ask the Secretary of State for International Development what financial or other assistance his Department provides to Iraqi refugees in *(a)* Jordan and *(b)* Syria. [196086]

Mr. Malik: Since 2003, the Department for International Development (DFID) has allocated £7.75 million to the UN Refugee Agency (UNHCR), which leads the international response to the Iraqi refugee situation. Of this, £3 million has been committed for 2008. DFID has not earmarked contributions to UNHCR for specific countries, but has supported UNHCR's annual Iraq situation appeals. These appeals focus primarily on Jordan, Syria and Iraq, but also cover operations in Lebanon, Turkey, Egypt, Iran and Saudi Arabia. Our support helps UNHCR provide assistance to Iraqi refugees (including food, cash assistance, legal aid and school materials) and support to health and education systems in countries that have taken in large numbers of people displaced from Iraq. DFID's contributions to UNHCR form part of our overall humanitarian assistance allocation for Iraq, totalling £147 million since 2003.

The UK, as a major contributor to the European Commission (EC), has also supported the EC's programmes in Jordan and Syria. Last year, the EC allocated €50 million in support of Iraqi refugees in the middle east region. This included an additional €9 million to their ongoing health sector modernisation project in Syria. This money will strengthen health services in areas with large Iraqi populations. In Jordan, the EC has allocated €26.7 million in budget support, which will build capacity in the Jordanian education sector to accommodate Iraqi refugee children.

Overseas Aid

Chris McCafferty: To ask the Secretary of State for International Development pursuant to the answer of 25 February 2008, *Official Report*, column 1144W, on overseas aid, which European Commission country strategy papers do not meet the criteria for adherence to the legal and policy base and alignment set out in partner countries' national plans. [196280]

Mr. Thomas: The Department for International Development considers that all of the country strategy papers published to date have adhered to the legal and policy base and been aligned with the partner countries' priorities.

Overseas Aid: HIV Infection

Anne Milton: To ask the Secretary of State for International Development what estimate he has made of the funding required to ensure universal access to HIV prevention, treatment, care and support services by 2010; and how much of this he estimates is required to be met by *(a)* G8 members and *(b)* the UK. [196113]

Gillian Merron: I refer the hon. Member to the answer given to my hon. Friend the Member for Edinburgh, South (Nigel Griffiths) on 19 March 2008, *Official Report*, columns 1183-84W.

CULTURE, MEDIA AND SPORT

Alcoholic Drinks: Enforcement

Mr. Pickles: To ask the Secretary of State for Culture, Media and Sport (1) how many closure orders under section 169A of the Licensing Act 2003 for persistently selling alcohol to children had been made at the latest date for which figures are available; [193942]

(2) how many court orders have been made under section 147B of the Licensing Act 2003 to suspend a premises licence for the sale of alcohol. [194043]

Mr. Sutcliffe: We do not currently hold this data. Sections 147B and 169A of the Licensing Act 2003 relate to the new offence of persistently selling alcohol to children which came into force when Chapter 3 of Part 1 of the Violent Crime Reduction Act 2006 ("the 2006 Act") was commenced on 6 April 2007. The Department for Culture, Media and Sport's Statistical Bulletin on Alcohol, Entertainment and Late Night Refreshment Licensing, which includes information on licence suspensions, covers activity in the 12 months to 31 March 2007 and therefore pre-dates the persistent sales of alcohol to children offence coming into effect. However, we intend to repeat the data collection exercise this year and expect to publish a new Bulletin in the autumn to cover the period from 1 April 2007 to 31 March 2008.

Arts: Higher Education

Mr. Rob Wilson: To ask the Secretary of State for Culture, Media and Sport what assessment his Department has made of the likely effect on creative industries of the reduction in funding for equivalent and lower level qualifications; and if he will make a statement. [197358]

Margaret Hodge: My Department has made no formal assessment of the likely effect on creative industries of the reduction in funding for equivalent and lower level qualifications. We have been in conversation with the Department for Innovation Universities and Skills (DIUS) to highlight some of the key issues for DCMS however, and how they intend to monitor the impact of the arrangements.

The first such review, which will be conducted by the Higher Education Funding Council England, is planned to take place in December 2008, in the light of entry data for the 2008-09 academic year.

Cage Fighting

Mr. Greg Knight: To ask the Secretary of State for Culture, Media and Sport if he will introduce regulations on cage fighting. [196721]

Mr. Sutcliffe *[holding answer 25 March 2008]*: National governing bodies of sport are responsible for introducing their own regulations into their respective sports.

Cage fighting is not recognised as a sport by Sport England, UK Sport or any of the other home country sports councils. No application has ever been received for the activity to be recognised.

Mr. Greg Knight: To ask the Secretary of State for Culture, Media and Sport what research his Department has conducted into the safety of cage fighting; and if he will make a statement. [196722]

Mr. Sutcliffe *[holding answer 25 March 2008]*: The Department for Culture, Media and Sport has not carried out, or commissioned any research into the safety of Cage fighting.

Cage fighting is not recognised as a sport by Sport England, UK Sport or any of the other home country sports councils.

Cultural Heritage: Young People

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many children under the age of 16 years *(a)* participated in arts activity, *(b)* attended an arts event, *(c)* accessed a museum or gallery and *(d)* visited an historic environment site in each year since 1997 for which figures are available. [194919]

Margaret Hodge: We do not have year on year data recording children's involvement with these cultural activities. However, our 'Taking Part' survey, conducted in 2006, showed that the following proportions of 11 to 15-year-olds:

(a) Attended an arts event: 74 per cent.

(b) Participated in an arts activity: 91 per cent.

(c) Visited a museum or gallery: 55 per cent.

(d) Visited a historic environment site: 72 per cent.

We do not hold data prior to this.

Culture: EU Countries

Philip Davies: To ask the Secretary of State for Culture, Media and Sport what activities the UK will be participating in as its contribution to the 2008 European Year of Intercultural Dialogue; and what the projected cost of each activity will be. [196932]

Margaret Hodge: In the UK a number of bodies including Liverpool Capital of Culture, Bristol city council and the Victoria and Albert Museum, have planned programmes which tie in with the Year of Intercultural Dialogue. These are not directly funded by my Department. There are no plans at present for DCMS Ministers to attend any events marking the European Year of Intercultural Dialogue outside the UK. An official from my Department attended the launch event for the Year of Intercultural Dialogue hosted by the Slovenian EU presidency in Ljubljana on 6-7 January. The cost to my Department was £207.

Departmental Alcoholic Drinks

Mr. Weir: To ask the Secretary of State for Culture, Media and Sport at how many events held by his Department *(a)* wine and *(b)* Fairtrade wine were served in the last three years; and what assessment his Department has made of the merits of serving Fairtrade wine at future events. [196935]

Mr. Sutcliffe: The Department does not hold any management information regarding the use of wine at events. In particular the Department has no policy regarding the use of Fairtrade wine at departmental events.

Departmental Publications

Mr. David Jones: To ask the Secretary of State for Culture, Media and Sport what guidance is issued to members of his Department on the authorship and publication on the internet of material relating to their official duties; and if he will make a statement. [196720]

Mr. Sutcliffe: My Department has issued guidelines for staff on the use of social media and personal websites which states:

"If you want to start blogging, and your blog/website will say that you work for the DCMS you should tell your manager.

If your blog makes it clear that you work for the DCMS, it should include a simple and visible disclaimer such as "these are my personal views and not those of the DCMS."

Unless there are specific concerns about the nature of your job, you are free to talk about DCMS policies/projects and content on your blog. Consult your manager if in any doubt.

Don't reveal confidential information. This might include aspects of DCMS policy or details of internal DCMS discussions. Again, consult your manager if you are unclear about what might be confidential.

You should not use your blogs to attack or abuse colleagues."

All staff in my Department are also required to sign an Acceptable Use of the Internet policy before they are given access to the internet. Any activity that would bring the Department into disrepute is prohibited.

I am arranging to place a copy of my Department's guidelines on personal websites and blogs in the House of Commons Library.

Departmental Training

Mr. Philip Hammond: To ask the Secretary of State for Culture, Media and Sport how many staff in his Department and its agencies have attended the *(a)* Influencing with Integrity, *(b)* Emotional Intelligence, *(c)* Counselling Skills for the Workplace, *(d)* Managing your Confidence, *(e)* Balancing Work/Life Realities and *(f)* Working Assertively training course run by the National School of Government in the last 12 months for which information is available; and at what cost. [197059]

Mr. Sutcliffe: No staff (0) from the Department for Culture, Media and Sport have attended the: *(a)* Influencing with Integrity, *(b)* Emotional Intelligence, *(c)* Counselling Skills for the Workplace, *(d)* Managing your Confidence, *(e)* Balancing Work/Life Realities and *(f)* Working Assertively training courses run by the National School for Government in the last 12 months. As a result nil costs have accrued.

Gambling

Mr. Jim Cunningham: To ask the Secretary of State for Culture, Media and Sport what recent steps the Government have taken to tackle gambling addiction. [196888]

Mr. Sutcliffe *[holding answer 26 March 2008]*: I refer my hon. Friend, the member for Coventry South, to the answer I gave him on 7 February 2008, *Official Report*, column 1305W.

The principal step that the Government have taken recently to address gambling addiction has been to implement the Gambling Act 2005, which from 1 September 2007 has introduced a range of licence conditions and codes of practice designed to protect children and other vulnerable people from being harmed or exploited by gambling. The Gambling Commission and licensing authorities have been given wide-ranging powers to enforce these conditions, and all gambling operators must comply with the new rules or risk losing their licence.

Licensing

Mr. Vara: To ask the Secretary of State for Culture, Media and Sport how many *(a)* on-licences, *(b)* off-licences and *(c)* public entertainment licences have been issued in each local authority area in each of the last five years. [187136]

Mr. Sutcliffe: The number of Premises Licences and Club Premises Certificates issued under the Licensing Act 2003 (the 2003 Act) and broken down by licensable activity as at 31 March 2007 for each Licensing Authority area is available from the Department for Culture, Media and Sport website:

http://www.culture.gov.uk/NR/rdonlyres/7F01712CB2294A2FB313DF89D542E29C/0/TableQ2_revised9nov.xls

Source:

Alcohol, Entertainment and Late Night Refreshment Statistical Bulletin 2006/07

Prior to the implementation of the 2003 Act, data on the number of alcohol licences and certificates granted and renewed in England and Wales under the Licensing Act 1964 were collected by petty sessional divisions (magistrates court areas) on a triennial basis, in accordance with the three yearly cycle of licence renewals. On and off-licensed premises and other liquor licensing data, by petty sessional division as at 30 June 2004 can be found on Table 9 at this website address:

http://www.culture.gov.uk/NR/rdonlyres/E96FD9EFC8174E07B1A46F4D4EA9F2A3/0/7138BLiquorReport.pdf

Source:

Liquor Licensing Statistical Bulletin 2003/04

No data were collected centrally on the number of public entertainment licences issued by local authorities prior to the implementation of the 2003 Act.

Motorsport Development UK

Mr. Spellar: To ask the Secretary of State for Culture, Media and Sport what payments his Department made to Motorsport Development UK in each of the last five years; and if he will make a statement. [197636]

Mr. Sutcliffe: My Department, through Sport England awarded £25,000 to the East Midlands Development Agency in 2006 to support 50 per cent. of the costs of producing the Motorsport Widening Participation Plan 2007 to 2013.

The actual amount paid was £19,858 and the award was made to EMDA in its role as 'host' agency for Motorsport Development UK.

National Lottery: Buildings

Mike Penning: To ask the Secretary of State for Culture, Media and Sport how much has been provided from National Lottery funding to date for new and refurbished buildings in *(a)* England, *(b)* Wales, *(c)* Scotland and *(d)* Northern Ireland in (i) grants and (ii) matching funding. [196867]

Mr. Sutcliffe: The information is not held in the form requested and could be provided only at disproportionate cost. Some grants by almost all the lottery distributing bodies will have involved the construction of new buildings or the repair, maintenance or improvement of existing buildings. This will have included (but is not limited to) historic buildings and monuments, arts and sports venues and facilities, health facilities (for example, healthy living centres) and community buildings (such as village halls).

Olympic Games

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport what role his Department has in managing the procession of the Olympic Torch through London on 6 April. [197368]

Andy Burnham: The Department for Culture, Media and Sport has had no role in managing the procession of the Olympic torch through London on 6 April.

The invitation for a city to host a section of an Olympic or Paralympic torch relay goes directly to that city and the National Olympic Committee. The Greater London Authority (GLA) has therefore been managing the operational details of the torch relay leg on 6 April. GLA has kept us updated as its plans have progressed.

Press

Mr. Laws: To ask the Secretary of State for Culture, Media and Sport what the cost of the press offices of *(a)* his Department, *(b)* its agencies and *(c)* its non-departmental public bodies were in each year since 1996-97; what the cost was in each quarter since 1 April 2007; and if he will make a statement. [189756]

Margaret Hodge: The Department has one agency, the Royal Parks Agency. The total annual costs of the press offices of the department and the Royal Parks Agency for each year from 1996-97 to 2006-07 are shown in the following table.

	DCMS (£)	*Royal Parks Agency (£)*
1996-97	236,524	37,395
1997-98		42,364
1998-99		43,559
1999-2000		52,157
2000-01	582,442	55,688
2001-02	657,139	57,275
2002-03	712,623	58,325
2003-04	814,244	59,395
2004-05	831,802	59,693
2005-06	861,799	60,723
2006-07	1,126,541	61,938

Costs provided for the Royal Parks Agency are an estimate based on current staffing levels.

Costs for the department for 1996-97 and 2000-01 have previously been provided in a written answer to the hon. Member for West Chelmsford (Mr. Burns) on 10 April 2002, *Official Report*, column 319W.

Information for 2007-08 cannot be included as the current year's expenditure has not yet been audited.

Information regarding the cost of the department's press office from 1997-98 to 1999-2000, and the total annual cost of the press offices for the department's non-departmental public bodies from 1996-97 to 2006-07, could be provided only at disproportionate cost.

Regeneration: Coastal Areas

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport how the funding earmarked for regeneration of seaside towns is to be divided between locations; and when these funds will be distributed. [197973]

Margaret Hodge: My Department's £45 million fund will allocate £15 million a year over three years to help catalyze the regeneration of seaside resorts through heritage and cultural projects.

My right hon. Friend the Secretary of State will make an announcement on the funding proposals for year one of the programme shortly.

WORK AND PENSIONS

Child Poverty

8. **Ann McKechin:** To ask the Secretary of State for Work and Pensions what steps his Department is taking to tackle child poverty. [197197]

James Purnell: On Budget Day we published "Ending child poverty: everybody's business" with the Government's strategy for halving child poverty by 2010 and eradicating it by 2020. The measures announced in the Budget will invest an additional £950 million and reduce child poverty by a further 250,000 additional children by 2010-11. Combined with announcements in last year's Budget and pre-Budget report, that means an extra 500,000 children will be lifted out of poverty.

Personal Capability Test

12. **Dr. Iddon:** To ask the Secretary of State for Work and Pensions whether unemployed registered blind people and others with serious disabilities are required to take the personal capability test; and if he will make a statement. [197201]

Mrs. McGuire: In the present personal capability assessment, blind people and those with certain other severely disabling conditions can be exempt from taking the medical test.

The new work capability assessment for employment and support allowance moves the emphasis from what people cannot do to what they can do, and how they can be helped to do even more.

Our aim is to support, encourage and enable people to move into work, and so to become and remain independent. We will require all those who claim ESA, except the most severely disabled, to take the new medical test.

New Deal

13. **Derek Wyatt:** To ask the Secretary of State for Work and Pensions what progress has been made on plans to reform the new deal; and if he will make a statement. [197202]

Mr. Timms: The new deal has led a major transformation in employment support by helping more than 1.85 million people into work.

We want to build on that success, and as announced in our recently published commissioning strategy, we will harness the expertise and innovation of the private, public and third sectors to help those who are still finding it difficult to find or sustain work.

Incapacity Benefit

14. **Mr. Mackay:** To ask the Secretary of State for Work and Pensions how many people had been on incapacity benefit for more than five years at the latest date for which a figure is available. [197203]

20. **Mr. Clifton-Brown:** To ask the Secretary of State for Work and Pensions how many people had been on incapacity benefit for more than five years at the latest date for which a figure is available. [197209]

23. **Angela Watkinson:** To ask the Secretary of State for Work and Pensions how many people had been on incapacity benefit for more than five years at the latest date for which a figure is available. [197213]

Mr. Timms: I refer the hon. Members to the answer I gave today to the hon. Member for Bexley Heath and Crayford (Mr. Evennett).

Carers

15. **Chris McCafferty:** To ask the Secretary of State for Work and Pensions what assessment he has made of the adequacy of support available to carers; and if he will make a statement. [197204]

Mrs. McGuire: The Government are committed to improving the help available to carers.

The review of the national carers strategy is looking in depth at issues around carers' incomes in consultation with carers and organisations that represent them.

The review will be published in late spring.

Local Housing Allowance

16. **Mr. Crabb:** To ask the Secretary of State for Work and Pensions what plans he has for the implementation of the local housing allowance. [197205]

Mr. Plaskitt: The local housing allowance will roll out nationally from 7 April 2008 to all tenants who make a new claim for housing benefit in the de-regulated private rented sector.

It has already been successfully implemented and evaluated in 18 local authorities. The results of this evaluation have been extremely positive.

We have undertaken to review all aspects of the local housing allowance over the first two years of the scheme.

National Insurance Numbers

17. **Mr. Steen:** To ask the Secretary of State for Work and Pensions if he will make it his policy to allocate national insurance numbers to people who are discovered to have been trafficked into the UK. [197206]

Mr. Timms: Trafficked people who have been granted leave to enter or remain in the UK, and have access to work or benefits, will be eligible to apply for a national insurance number.

18. **Mr. Hollobone:** To ask the Secretary of State for Work and Pensions how many migrant workers have been given national insurance numbers in (*a*) Northamptonshire and (*b*) England in the last three years. [197207]

Mr. Timms: Figures are available only for the last two years. In 2005-06, 8,400 national insurance numbers were issued to adult foreign nationals in Northamptonshire and 578,840 in England. In 2006-07, 8,170 numbers were issued in Northamptonshire and 614,780 in England.

Pensioner Benefits

19. **Andrew Gwynne:** To ask the Secretary of State for Work and Pensions what steps his Department is taking to increase take-up of benefit entitlements by pensioners. [197208]

Mr. Mike O'Brien: We want every pensioner to claim the benefits they are entitled to which is why we have made claiming more straightforward. From October claims for state pension, pension credit, housing benefit and council tax benefit can be made in one phone call with no forms to fill in and we are always looking at ways to make the application process simpler. As part of our drive to increase take up, I recently launched a communication campaign to target specific areas where take-up of entitlements is low. The campaign will explore partnership opportunities with Help the Aged, Age Concern, Citizens Advice and other partners.

21. **John Robertson:** To ask the Secretary of State for Work and Pensions what steps he plans to take to enable pensioners to take up their benefit entitlements. [197211]

Mr. Mike O'Brien: We want every pensioner to claim the benefits they are entitled to which is why we have made claiming more straightforward. From October claims for state pension, pension credit, housing benefit and council tax benefit can be made in one phone call with no forms to fill in and we are always looking at ways to make the application process simpler.

Child Support Agency

22. **Mr. Andrew Turner:** To ask the Secretary of State for Work and Pensions what the cost of the Child Support Agency was in the last 12 months for which figures are available. [197212]

Mr. Plaskitt: The cost of running the Child Support Agency for the 12 months to March 2007 was £520.3 million. In this period the Agency collected and arranged £898.1 million in maintenance payments benefiting almost 642,000 children.

Carers Allowances

Mark Williams: To ask the Secretary of State for Work and Pensions what the cost to the public purse would be of not offsetting carer's allowance against (*a*) the basic state pension and (*b*) other benefits. [195309]

Mr. Plaskitt: After adjusting for offsets in income-related benefits and pension credit, the estimated cost of exempting all pensioners with entitlement to carer's allowance from the overlapping benefits rule would be around £310 million.

This estimate does not take account of carers presently not claiming carer's allowance who might be encouraged to do so by a change in the rules.

The estimated cost of exempting all those of working age with entitlement to carer's allowance from the overlapping benefits rule after adjusting for offsets in income-related benefits would be around £90 million.

Child Support

Mr. Frank Field: To ask the Secretary of State for Work and Pensions pursuant to the answer of 20 March 2008, *Official Report*, column 1393W, on child support, how much and what proportion of debt was collected in each year. [197350]

Mr. Plaskitt: The administration of the Child Support Agency is the matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 31 March 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, pursuant to the Answer of 20th March 2008, Official Report, column 1393W, on child support, how much and what proportion of debt was collected in each year. [197350]

The information that you have requested is not available. The Agency's current assessment of collectable and uncollectable debt is based on an annual debt analysis exercise. This exercise examines a sample of cases to determine collectability based on the Agency's past experience. It is an estimate and therefore subject to change as the Agency improves its debt collection and enforcement activities.

The Agency does not routinely categorise every individual case in this way and is therefore unable to supply the information that you have requested.

I hope you find this answer helpful.

Child Support Agency: Correspondence

Mr. Clifton-Brown: To ask the Secretary of State for Work and Pensions what the procedures are for the Child Support Agency to make electronic copies of correspondence *(a)* received and *(b)* sent by it. [195836]

Mr. Plaskitt: The administration of the Child Support Agency is the matter for the chief executive.

He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 31 March 2008:

In reply to your recent parliamentary question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and pensions, what the procedures are for the Child Support Agency to make electronic copies of correspondence *(a)* received and *(b)* sent by it. [195836]

All written correspondence relating to a complaint, including those from either a client or a Member of Parliament, received by the Child Support Agency is scanned and stored electronically.

In addition, all correspondence relating to Child Support Agency issues addressed to the Chief Executive or to a Minister within the Department for Work and Pensions is scanned and stored electronically, as is any subsequent response.

The Agency does not routinely scan and electronically store correspondence received during the course of assessing an application or maintaining a case, but files this correspondence clerically. The Agency does however keep electronic copies of the letters and standard forms generated by the Agency's computer system.

I hope you find this answer helpful.

Child Support Agency: ICT

Dr. Cable: To ask the Secretary of State for Work and Pensions pursuant to the answer of 5 March 2008, *Official Report*, column 2591 on IT projects, what the *(a)* start date, *(b)* original planned completion date, *(c)* current expected completion date, *(d)* planned cost and *(e)* current estimated cost is for the Child Support Agency Operational Improvement Plan, including IT elements; and if he will make a statement. [194128]

Mr. Plaskitt: The administration of the Child Support Agency is the matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 31 March 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, pursuant to the Answer of 5th March 2008, Official Report, column 2591 on IT projects, what is the (a) start date, (b) original planned completion date, (c) current expected completion date, (d) planned cost and (e) current estimated cost for the Child Support Agency Operational Improvement Plan, including IT elements, and if he will make a statement. [194128]

The Child Support Agency Operational Improvement Plan was announced in February 2006. The plan sets out a business recovery programme for the three years to March 2009. Key commitments to improve the performance of the Agency are supported by a programme to design, develop and implement a process of organisational change. This is underpinned by continuing remediation of existing computer systems and the introduction of further IT enhancements in preparation for the new Child Maintenance and Enforcement Commission.

The Operational Improvement Plan was funded in the main from releasing existing resource agreed as part of the 2004 spending review, supplemented by an additional £120 million new investment from within the Department. The total original planned cost of the Operational Improvement Plan was £320m and our estimated cost remains £320m. The Agency remains on track to meet its Operational Improvement Plan commitments by March 2009.

I hope you find this answer helpful.

Departmental Pay

John Mann: To ask the Secretary of State for Work and Pensions what the 24-hour overnight allowance for his Department's civil servants based outside London is when working in London. [197343]

Mrs. McGuire: The 24-hour overnight allowances payable to DWP employees is a national rate and therefore the same whether employees are working in London or in any other part of the country.

Applicable rates are as follows:

Actual costs for accommodation and breakfast booked via the hotel booking agent. When not booked via the agent, costs must be supported by a receipt and are limited to £45[1].

In addition, a flat rate amount of £21 is payable to cover the cost of lunch, evening meal and any incidental travel[2]. In exceptional circumstances, actual costs for meals and incidental travel is paid if expenses are incurred above the flat rate. Receipts will be required in these circumstances.

If the individual chooses to stay with friends or relatives, then a night subsistence allowance of £25 is payable for each day.

Additionally, £5 per night is paid to cover personal incidental expenses such as newspapers or phone calls home.

[1] Hotel accommodation is normally arranged through a booking agent who charge DWP directly. In exceptional circumstances, the individual may arrange their own accommodation but expenses for this are limited to £45 per night.

The rate reduces where individuals remain away from home for over 30 nights without a break of more than two weeks and remain in hotel accommodation. In these circumstances, the individual can claim the actual cost of the evening meal (excluding alcohol) up to £16.50.

Departmental Publications

Mr. Paul Goodman: To ask the Secretary of State for Work and Pensions what documents his Department, its associated agencies and non departmental bodies translate for people in the UK who do not speak English. [197587]

Mrs. McGuire: The Department for Work and Pensions translates a range of documents into other languages, as determined by each of the individual businesses and services. We have a range of policies to guide them, such as the Ethnic Language Standard, Welsh Language Scheme, Welsh Language Standard and our interpretation policy, which are based on legislation and best practice. When requested to do so by our customers, the Department is also required to provide customers with specific and personal communications, such as letters, in their preferred language.

The Department for Work and Pensions and non departmental bodies also produce all publications and services bilingually in English and Welsh, as both languages are treated equally under the Welsh Language Act.

Employment Benefits: Greater London

Mr. Hoban: To ask the Secretary of State for Work and Pensions how many people were in receipt of (*a*) one and (*b*) more than one work-related benefit in (i) London and (ii) each London borough in each of the last 10 years. [195902]

Mr. Plaskitt: The information is not available in the format requested. The available information about out-of-work benefits has been placed in the Library.

Employment: Sight Impaired

Dr. Iddon: To ask the Secretary of State for Work and Pensions how many registered blind people of working age there are in (*a*) each region and (*b*) Bolton, South-East constituency. [195533]

Mr. Ivan Lewis: I have been asked to reply.

The following table shows the number of working-age people registered as blind or partially sighted, broken down by region. Figures broken down into constituencies are not held centrally.

The numbers have been rounded to the nearest five.

Number of people aged 18 to 64 (as at 31 March 2006)

	Registered as:	
	Blind	*Partially sighted*
England	33,420	29,310
North East	1,700	1,740
North West	5,350	5,240
Yorkshire and The Humber	4,490	3,490
East Midlands	2,780	2,375
West Midlands	3,665	3,335
South West	2,915	2,430
Eastern	2,925	2,915
London	5,335	3,950
South East	4,150	3,765

Note:

Registration onto the blind and partially sighted register is voluntary. Registration is not, however, a pre-requisite for certain social services concessions and this factor, combined with uncertainties about the regularity with which the councils review and update their records, makes it difficult to assign a degree of reliability to these registers.

Foreign Workers: EC Countries

Ann Winterton: To ask the Secretary of State for Work and Pensions what estimate he has made of the percentage of job vacancies filled by migrant workers from other European Union member states in the latest period for which figures are available. [197189]

Mr. Timms: The information requested is not available.

Jobseeker's Allowance

Chris Grayling: To ask the Secretary of State for Work and Pensions what the average duration is of a claim for jobseeker's allowance when the claimant maintains their claim (*a*) in person once a fortnight and (*b*) by post. [185881]

Mr. Plaskitt: No such breakdown is available because the normal expectation is that people will maintain their claim in person.

For jobseeker's allowance claims ending in January 2008, the median duration of claim was 9.4 weeks (Great Britain).

Notes:

1. Figures are based on computer held cases only.

2. The median indicates that half of the claims ending in January 2008 were shorter than 9.4 weeks and half were longer.

Source:

100 per cent count of claimants of unemployment-related benefits, Jobcentre Plus Computer Systems.

Jobseeker's Allowance: Lone Parents

Ms Buck: To ask the Secretary of State for Work and Pensions whether lone parents on jobseeker's allowance may be sanctioned or have their claims disallowed if they refuse employment based up to one and a half hours travelling distance from their home. [192924]

Mr. Plaskitt: Jobseeker's allowance is designed to ensure that all jobseekers take every necessary step to get into work, it is not payable to anyone who has, without good cause, failed to take up a reasonable opportunity of employment.

Travelling time is taken into account in deciding whether there is good cause. After the first 13 weeks of entitlement to jobseeker's allowance, reasonable travelling time is normally one and a half hours or less each way. However, a person's health or caring responsibilities

will be taken into account in determining whether the time it would take to travel to work is unreasonable. This applies to all jobseekers, including those who are lone parents.

Pensions

Mr. Frank Field: To ask the Secretary of State for Work and Pensions, whether he plans to reduce the burden of regulation on small defined benefit schemes where all the fund's assets are held by an insurance company. [197349]

Mr. Mike O'Brien: In May 2006, the Government announced a rolling deregulatory review with the aim of making the private pensions regulatory framework simpler and less burdensome. The current Pensions Bill includes, for example, measures to reduce the statutory cap which applies to the revaluation of deferred pension rights from 5 per cent. to 2.5 per cent. for all defined benefit rights which build up after the change is introdiseed. That change could potentially provide significant savings for all defined benefit pension schemes. We are taking forward other changes to ease the burden on all defined benefit schemes in secondary legislation and/or guidance, and would welcome further specific proposals for change.

Social Security Benefits

David Taylor: To ask the Secretary of State for Work and Pensions (1) what recent estimate he has made of the level of benefit uptake among (*a*) 16 to 30-year-olds, (*b*) 31 to 65-year-olds and (*c*) pensioners. [197348]

(2) what estimate he has made of the value of benefits not taken up by (*a*) 16 to 30-year-olds, (*b*) 31 to 65-year-olds and (*c*) pensioners in the last financial year for which figures are available. [197620]

Mr. Plaskitt: Estimates of take-up of the main income-related benefits are available in the Department's publication series entitled "Income Related Benefits Estimates of Take-Up". These estimates cover income support, jobseeker's allowance, pension credit, housing benefit and council tax benefit. Copies of the latest publication can be found in the Library. The latest report is also available online at:

http://www.dwp.gov.uk/asd/irb_0506_2.asp

Breakdowns by specific age group and information on the take-up of other DWP administered benefits are not available.

Social Workers: Labour Turnover

Tim Loughton: To ask the Secretary of State for Work and Pensions how many social workers left the profession in each of the last 10 years. [195964]

Mr. Ivan Lewis: I have been asked to reply.

The Department does not collect this information centrally.

State Retirement Pensions

Steve Webb: To ask the Secretary of State for Work and Pensions how many (*a*) women and (*b*) men drew deferred state retirement pensions as a lump sum in the most recent year for which figures are available; and if he will make a statement. [195640]

Mr. Mike O'Brien: The information requested is in the following table:

SP caseload as at 31 May 2007 where a lump sum amount is recorded and the deferment period ended in the 12 months to 31 May 2007

	Number
All	10,970
Female	7,500
Male	3,470

Notes

1. Caseload figures are rounded to the nearest 10, some additional disclosure control has also been applied.
2. Includes overseas cases.
3. Totals may not sum due to rounding.
4. Figures include inherited lump sums.
5. The option to take a lump sum was introduced in April 2006 but only for those deferring for a minimum of 12 months.

Source:

DWP Information Directorate, Work and Pensions Longitudinal study.

Tax Allowances: Pensioners

Danny Alexander: To ask the Secretary of State for Work and Pensions what discussions he has had with officials on extending the pensioners' tax allowance to women between the ages of 60 and 65 years. [196540]

Jane Kennedy: I have been asked to reply.

Treasury Ministers and officials have discussions on a wide range of issues as part of the process of policy development and delivery. As was the case with previous Administrations, it is not the Government's practice to provide details of these discussions.

Danny Alexander: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost of extending the pensioners' tax allowance to women between the ages of 60 and 65 years. [196541]

Jane Kennedy: I have been asked to reply.

Age related income tax personal allowances are available for people over 65 years of age. The cost of extending the age related income tax personal allowance to all men and women aged 60 to 64 would be around £1 billion in 2008-09. Introducing such a change for women only would cost approximately half this amount but would not be possible as it would discriminate on the basis of gender.

Estimates are based on the Survey of Personal Incomes 2005-06, projected in line with Budget 2008 assumptions.

PRIME MINISTER

Departmental Domestic Visits

Mr. Willis: To ask the Prime Minister what visits he made to (*a*) Harrogate International Centre, (*b*) International Conference Centre, Birmingham, (*c*) Manchester Central, (*d*) Scottish Exhibitional and Conference Centre, Glasgow, (*e*) Edinburgh International Conference Centre, (*f*) Bournemouth International Conference Centre, (*g*) the Brighton Centre, Brighton, (*h*) the Riviera Centre, Torquay, (*i*) Queen Elizabeth Centre, London, (*j*) Excel Conference

Centre, Docklands, London, and (k) Business Design Centre, Islington, London, in the period 1 January 2005 to 31 December 2007; and what events he attended at each. [197168]

The Prime Minister: A list of my UK visits will be published in the usual way following the end of the financial year.

Departmental Internet

Mr. Swire: To ask the Prime Minister if he will (a) follow the Internet Content Rating Association (ICRA) guidelines and (b) display ICRA's label on 10 Downing Street's website. [191775]

The Prime Minister: The Government are committed to safety online for all users, including children. The Central Office of Information is preparing a new set of guidance for many aspects of the Government web estate.

Mr. David Jones: To ask the Prime Minister what guidance is issued to members of his Office on the authorship and publication on the internet of material relating to their official duties; and if he will make a statement. [196745]

The Prime Minister: The Civil Service Code, the Civil Service Management Code and Propriety Guidance on Government Communications, all provide guidance to staff on the publication of material relating to their official duties. Copies of each of these are in the Libraries of the House. They are also available on the Cabinet Office website.

Departmental Travel

Norman Baker: To ask the Prime Minister on what date he last travelled by rail on official business. [195949]

The Prime Minister: I travel, making the most efficient and cost-effective arrangements, including by rail. My travel arrangements are in accordance with the arrangements for official travel set out in chapter 10 of the "Ministerial Code", and the accompanying guidance document, "Travel by Ministers".

Jennifer Moses

Mr. Maude: To ask the Prime Minister on what policy area Ms Jennifer Moses provides advice to the Prime Minister. [198252]

The Prime Minister: I refer the right hon. Member to the answer I gave the hon. Member for Fareham (Mr. Hoban) on 12 March 2008, *Official Report*, column 449W.

John McCain

Mr. Davey: To ask the Prime Minister what matters he discussed at his most recent meeting with US Senator John McCain. [198017]

Jo Swinson: To ask the Prime Minister whether he raised the issue of (a) the Israeli-Palestine conflict, (b) climate change, (c) Darfur and (d) Tibet in his recent meeting with Senator John McCain. [197614]

The Prime Minister: I refer the hon. Members to the press briefing given by my spokesman on 20 March 2008. A transcript of this is available on the No. 10 website

http://www.number-10.gov.uk/output/Page15132.asp

and a copy has been placed in the Library of the House.

Mayor of London

Mr. Hoban: To ask the Prime Minister how many official meetings he has had with the Mayor of London since 27 June 2007. [195852]

The Prime Minister: I have regular meetings and discussions with ministerial colleagues and others on a wide range of subjects.

National Register of Risks

Mr. Dai Davies: To ask the Prime Minister whether the information to be published on the National Register of Risks will be made public in unredacted form. [197841]

The Prime Minister: The national register of risks will be written with the express purpose of informing the public of the risks that they face. It will include as much information as possible without prejudicing national security.

National Security

Mr. Andrew Mitchell: To ask the Prime Minister pursuant to his oral statement on 19 March 2008, *Official Report*, columns 925-29, on the national security strategy, when this capacity is planned to be available; whether the individuals will be contracted to serve in dangerous areas; how much has been allocated for the initiative; from what budget; whether the participants will be full-time or on standby; what the implications of the standby capacity for the Post-Conflict Reconstruction Unit are; and what discussions the Government has had with (a) NATO, (b) the EU and (c) other countries on the development of this capacity. [198031]

The Prime Minister: As I announced to the House on 19 March, the UK supports a significant increase and acceleration in international capacity, and will lead this effort by building the UK's own capacity towards a target of 1,000 stand-by deployable civilians, including police, emergency service professionals, judges and trainers.

The Stabilisation Unit (formerly Post-Conflict Reconstruction Unit), working with relevant departments leads on building capability to deploy civilians into countries emerging from violent conflict. Pre-deployment training and equipment is funded from the Stabilisation Unit's budget, with the costs of deployments themselves falling primarily to the Stabilisation Aid Fund, Conflict Prevention Pool and the Peacekeeping Budget.

The UK continues to discuss its arrangements to increase capacity with its international partners in the EU, NATO and the UN.

National Security Forum

Mr. Dai Davies: To ask the Prime Minister what criteria will be used in determining the membership of the new National Security Forum. [196832]

The Prime Minister: The National Security Forum will harness a wide range of expertise and experience. It will include representatives from central and local government, politics, academia, the private and third sectors, and other bodies, as well as people with relevant security experience.

Prime Minister: Visits

Mr. Jenkins: To ask the Prime Minister (1) how many sporting events outside England he has attended in his official capacity since appointment; [195410]

(2) how many secondary schools he has visited in an official capacity since taking office. [195411]

The Prime Minister: A list of my UK visits will be published in the usual way following the end of the financial year. In addition, since 1999, the Government have published an annual list of all overseas visits undertaken by Cabinet Ministers costing £500 or more during each financial year. Copies of these lists are available in the Library of the House.

Security: Finance

Mr. Dai Davies: To ask the Prime Minister (1) what additional resources are being made available to support each new initiative in the new National Security Strategy; [196831]

(2) what annual budget has been allocated to monitoring the possibility of nuclear weapons or materials or technology falling into the hands of terrorists, as outlined at paragraph 3.12 of the National Security Strategy of the United Kingdom, Cm 7291. [197839]

The Prime Minister: The comprehensive spending review, published on 9 October last year, set out the Government's spending plans for national security.

These plans included details of increased resources covered in the National Security Strategy, including continued rising real-terms investment in the armed forces; increased resources for diplomatic engagement in key areas; more spending on conflict prevention and stabilisation; and more spending on security, intelligence and counter-terrorism, where the budget has doubled since 2001 and will grow to £3.5 billion by 2011.

The National Security Strategy sets out the framework for targeting those resources.

United Kingdoms: Borders

Mr. Gregory Campbell: To ask the Prime Minister what geographical criteria he used in preparation of his article in *The Daily Telegraph* of 25 March 2008 entitled We must defend the Union. [197449]

The Prime Minister: The full article appears on the website of the *Daily Telegraph*, and a copy has been placed in the Library of the House.

JUSTICE

Act of Settlement 1700

Mr. Ingram: To ask the Secretary of State for Justice which other Acts of Parliament would need to be amended if the Act of Settlement 1700 were amended to end the prohibitions on Roman Catholics within that Act. [197480]

Mr. Straw: Legislation that would need to be reviewed includes the Bill of Rights 1688, the Coronation Oath Act 1688, the Union with Scotland Act 1707, the Union with England Act 1707, the Princess Sophia's Precedence Act 1711, the Royal Marriages Act 1772, the Union with Ireland Act 1800, the Accession Declaration Act 1910, and the Regency Act 1937. Any change in legislation would among other things require the consent of member nations of the Commonwealth

Administration of Justice

Mr. Jim Cunningham: To ask the Secretary of State for Justice what recent steps the Government have taken to clean up defunct and meaningless law as mentioned in his Department's press release of 18 March 2008. [197355]

Bridget Prentice: The Government introduced the Statute Law (Repeals) Bill into the House of Lords on 27 February 2008. It received its second reading on 18 March.

The Bill implements the recommendations made by the Law Commission and Scottish Law Commission in their joint report: Statute Law Repeals, Joint Report Law Com No 308/Scot Law Com No 210. The Bill repeals 260 whole Acts and parts of 68 other Acts. These statutory provisions no longer have any practical utility.

The Bill is the 18th Statute Law (Repeals) Bill drafted by the Law Commissions. The next Statute Law (Repeals) Bill is expected to be ready for introduction in 2012.

Children and Family Court Advisory and Support Service

Susan Kramer: To ask the Secretary of State for Justice for what reasons the Children and Family Courts Advisory and Support Service no longer has key stakeholders. [189978]

Kevin Brennan: I have been asked to reply.

This is a matter for the Children and Family Court Advisory and Support Service (CAFCASS). Anthony Douglas, the chief executive has written to the hon. Member with this information and a copy of his letter has been placed in the House Library.

Letter from Anthony Douglas, dated 12 March 2008:

I am writing to you in response to the Parliamentary Question that you tabled recently:

189978 Ms Susan Kramer to ask the Secretary of State for Children, Schools and Families, for what reasons the Children and Family Court Advisory and Support Service no longer has key stakeholders.

Cafcass has not changed its policy or operational protocols in respect of our key stakeholders. We work in partnership with

other public sector organisations, particularly in the family justice system as well as with third sector and private companies who we either commission services from or work together with on specific projects and programmes. We regularly attend national and local Family Justice Councils, and all Local Safeguarding Children Boards in England. We have many active partnerships with organisations to develop joint policies or service agreements. Cafcass has an active Young Peoples Board, with membership drawn from children and young people who are either current or past service users. We are intending to extend this level of participation in the next financial year to focus on adult participation, building on the outcomes of focus groups we have held this year. Cafcass is proud of the high level of partnership working carried out throughout the organisation, and we aim to continue this policy. This includes a widely advertised open Board meeting every year, held in a different English city on each occasion.

A copy of this reply will be placed in the House Library.

ClearSprings: Basildon

Mr. Baron: To ask the Secretary of State for Justice whether his Department is directing ClearSprings to source property in Basildon District. [197959]

Mr. Hanson: ClearSprings are not currently seeking accommodation in the Basildon district. However, there is an identified need for housing in the Basildon area for those granted bail by the courts or released on home detention curfew.

Crime: Victims

Mr. Garnier: To ask the Secretary of State for Justice what progress has been made in appointing an independent commissioner for victims under the Domestic Violence, Crime and Victims Act 2004; and if he will make a statement. [196527]

Maria Eagle: A recruitment exercise for a commissioner for victims and witnesses was carried out in 2006; however, we were not successful in identifying a candidate with all of the appropriate skills necessary for the proposed role.

Since 2006, we have driven substantial improvements for victims and witnesses including: the introduction of the victims code of practice; the setting up of witness care units; the roll-out of an enhanced working model for Victim Support (Victim Support plus) and the provision of independent domestic violence advisers. We are therefore considering future options for the role of commissioner for victims and witnesses in the context of these developments.

Criminal Proceedings: Retail Trade

Bob Spink: To ask the Secretary of State for Justice (1) pursuant to the answer of 4 March 2008, *Official Report*, column 2372W, on trials: measurement, how many of the prosecutions resulted in a conviction in each year; [197347]

(2) how many people have been convicted of offences related to the use of imperial weights and measures in the last five years; and if he will make a statement. [197391]

Maria Eagle: The available information on offenders found guilty under the Weights and Measures Act 1985 for offences related to weights and measures provisions has been combined with the data provided in my previous answer of 4 March 2008, *Official Report*, column 2372W, on trials: measurement, and is provided in the following table. Data from 2002 to 2006 have been provided.

It is not possible from the data held centrally to identify the number of these prosecutions relating solely to the use of imperial weights and measures from other prosecutions under the Weights and Measurement Act 1985.

Number of defendants proceeded against at magistrates courts and found guilty at all courts under the Weights and Measures Act 1985 for offences related to weights and measures provisions, England and Wales 2002 to 2006[1] [2]

	Proceeded against	*Found guilty*
2002	47	39
2003	32	27
2004	54	50
2005	37	31
2006	28	17

[1] These data are provided on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces and courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Source:
Court Proceedings Database - Office For Criminal Justice Reform.

Debt Collection

Mr. Jim Cunningham: To ask the Secretary of State for Justice what steps the Government plan to take to consider the welfare of children in households which bailiffs have been instructed to visit. [197357]

Maria Eagle: The Tribunals Courts and Enforcement Act 2007 will set out, through the provision of regulations, the training required by bailiffs to allow them to deal with all householders, including vulnerable debtors and others present at the premises in an appropriate manner. For example, withdrawing from the premises when only minors are present.

This training will ensure that all agents have a thorough working knowledge of all relevant areas of enforcement law and the associated national standards.

This training will be underpinned by the regulation of all enforcement agents who are not Crown employees via an enhanced and extended certification process. Granting of a certificate will be at the discretion of a county court judge, and will be dependent on the agent lodging application fees and securities, proof of their suitability to hold a certificate and the successful completion of a criminal record check.

Debt Collection: Standards

Mr. Jim Cunningham: To ask the Secretary of State for Justice what recent steps the Government have taken to protect householders from unscrupulous bailiffs. [197356]

Maria Eagle: The Tribunals, Courts and Enforcement Act 2007 introduces a single piece of bailiff law which brings together in one place the legal structure for all warrant enforcement, written in terms that are easily understandable and which clearly outline the rights and responsibilities of creditors, debtors and enforcement agents. This unified single piece of enforcement agent law will apply across the board to all enforcement agents.

The package of measures in the Act will lead to a more highly qualified, better trained and professional industry, fairly rewarded for carrying out what can be a difficult task in trying conditions, performing to the best of their ability while remaining within the letter and spirit of the law.

The enhanced and extended certification process will be a major contribution towards a fully regulated, highly trained and professional enforcement industry.

Departmental Information Officers

Mr. Jeremy Browne: To ask the Secretary of State for Justice how many *(a)* press and *(b)* communications officers his Department employed in each year since its establishment. [182514]

Mr. Straw: The Ministry of Justice was formed in May 2007. As of 28 March, the Ministry of Justice employed 32 press officers. The MoJ does not have a 'communication officer' grade but does employ a number of communications specialist staff in a range of communications roles, including strategic communications, publicity and publications, web, and internal communications roles. The 'White Book' of Contacts in government departments and agencies contains listings for the Department and related offices and is updated twice yearly.

Information on the number of press officers for agencies of the MoJ is contained in the following table:

Organisation	*Number of press officers*	*Number of communications officers*
Parole Board	1	0
Office of the Public Guardian	0	5
OCJR	0	13
National Archives	5	2
Tribunal Service	1	5
Boundary Commissions for England and Wales	0	0
HMCS	3	11
YJB	3	0

Mr. Jeremy Browne: To ask the Secretary of State for Justice how much his Department paid in bonuses to press and communication officers in each of the last 10 years; and what the *(a)* highest and *(b)* lowest such bonus was in each of those years. [182723]

Mr. Straw: The Department can award bonuses to staff under its reward and recognition scheme which started in 2003. This scheme is a means by which managers agree small bonuses and special bonuses throughout the year to recognise particular pieces of work well done. The totals relating to this award scheme are given in the following tables. Information is supplied only for press officers. The Ministry of Justice does not have a 'communication officer' grade but does employ a number of communications specialist staff in a range of communications roles, including strategic communications, publicity and publications, web, and internal communications roles.

It is also possible to reward staff under the performance bonuses scheme. These are given to those staff assessed as top performers throughout the year. It is not possible to give details of bonuses given under this scheme in a reliable way.

Information on bonus information for agencies of the MoJ is contained in the tables.

Departmental Sustainable Development

Norman Baker: To ask the Secretary of State for Justice when his Department plans to publish its sustainable operations policy statement. [195885]

Mr. Straw: The Ministry of Justice published its sustainable development action plan on 14 March 2008. It sets out the vision for sustainable development in the Ministry of Justice, how sustainable development will be incorporated into the operations and policy making of the department, the key commitments and how the plan will be delivered.

A copy of the report is available on the Ministry of Justice website at:

http://www.justice.gov.uk/docs/sustainable-development.pdf

Offenders: Education

Jenny Willott: To ask the Secretary of State for Justice how much was spent on providing education and skills for offenders *(a)* in custody and *(b)* serving community sentences in each of the last 10 years; and if he will make a statement. [196138]

Bill Rammell: I have been asked to reply.

Since the transfer of responsibility for offender learning and skills from the Home Office in 2001, the Department for Innovation, Universities and its predecessors, have spent the following on education and training in prisons.

Financial year	*Total spend (£ million)*
2001-02	57
2002-03	73
2003-04	116
2004-05	126
2005-06	151
2006-07	156

The Learning and Skills Council also spent a further £30 million in European Social Funding for the two calendar years 2006 and 2007, and established a £13.9 million budget from EQUAL funding for the period December 2006 to March 2008 to meet additional provision for offenders both in custody and in the community.

The majority of education for offenders serving community sentences is funded and provided through the general education system available to all learners, although a further £10 million was provided in financial years 2004-05 and 2005-06 to support additional Skills for Life provision for offenders in the community.

Jenny Willott: To ask the Secretary of State for Justice what funding has been provided for education and skills enhancement for offenders *(a)* in custody and *(b)* serving community sentences for 2008-09, broken down by funding source; and if he will make a statement. [196139]

Bill Rammell: I have been asked to reply.

We can protect the public by helping offenders become more productive members of society, and it is clear that an important way of doing that is to tackle the low skills and worklessness that can be major obstacle to an offender living free of crime. Thus the Department for Innovation, Universities and Skills devotes significant resources to providing education and training in prisons and for offenders in the community.

In financial year 2006-07 we provided a total of £156 million to support offender learning including funding for Prison libraries and salaries for Heads of Learning and Skills in prisons, the majority of which was routed through the Learning and Skills Council as new offender learning planning and delivery arrangements were introduced across England from August 2006.

The Learning and Skills Council also spent a further £30 million in European Social Funding for the two calendar years 2006 and 2007, and established a £13.9 million budget from EQUAL funding for the period December 2006 to March 2008 to meet additional provision for offenders both in custody and in the community.

Prison Accommodation

Bob Russell: To ask the Secretary of State for Justice what discussions his Department has had with the Ministry of Defence on using space at the Military Corrective Training Centre at Colchester to accommodate civilian prisoners; and if he will make a statement. [196763]

Mr. Hanson: The Government have no plans to accommodate civilian prisoners at the Military Corrective Training Centre at Colchester.

Prison Accommodation: Dorchester Prison

Mr. Garnier: To ask the Secretary of State for Justice how many *(a)* remand and *(b)* convicted prisoners were accommodated at HMP Dorchester on the first Friday of each month for the last 12 months for which figures are available. [196403]

Mr. Hanson: Monthly prison population figures are published for the population as at the end of the month. The following table shows the population in HMP Dorchester as at the end of each month in 2007. For completeness the table shows the total population broken down into *(a)* untried remand; *(b)* convicted (broken into convicted unsentenced remand and immediate custodial sentenced); *(c)* fine defaulters and non-criminal prisoners.

2007

	Untried remand	*Convicted unsentenced remand*	*Sentenced (excl fine defaulters)*	*Fine defaulters and non- criminals*	*Total population*
January	45	38	159	2	244
February	43	38	163	1	245
March	47	35	155	7	244
April	48	48	145	4	245
May	49	43	128	4	224
June	66	40	131	4	241
July	69	42	120	3	234
August	56	43	127	3	229
September	60	49	114	5	228
October	58	50	113	8	229
November	61	38	121	5	225
December	67	33	116	3	219

These figures are taken from the F1032 tables which were made available to the House of Commons Library at time of issue.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisoners Rights

Chris Huhne: To ask the Secretary of State for Justice how many and what percentage of prisoners in each prison in England and Wales were on the *(a)* basic, *(b)* standard and *(c)* enhanced privilege level of incentives and earned privileges scheme in each of the last five years. [196291]

Maria Eagle: The data for the Incentives and Earned Privileges Scheme (IEPS) is recorded on the Prison Service management information system (PSIMON). PSIMON is independent of the system recording population data, this is why there is a shortfall against the published population data. The information is only used to provide indicators for monitoring, and at a national level, the operation of the system.

The variation between the totals of reported IEP levels and the population summary is due to the two sets of data being recorded at different times. There may also be an element of misreporting.

Copies of the requested data have been placed in the Libraries of the House.

Sentencing

Chris Huhne: To ask the Secretary of State for Justice (1) how many and what percentage of people convicted of a third class A drug trafficking offence under the Powers of Criminal Courts (Sentencing) Act 2000 received the mandatory sentence established by the Act in each of the last seven years, broken down by age group; and what the average sentence of those convicted of a third class A drug trafficking offence under the Powers of Criminal Courts (Sentencing) Act 2000 was in each of the last seven years; [197744]

(2) how many and what percentage of people convicted of a third domestic burglary offence under the Powers of Criminal Courts (Sentencing) Act 2000 received the mandatory sentence established by the Act in each of the last seven years, broken down by age group; and what the average sentence of those convicted of a third domestic burglary offence under the Powers of Criminal Courts (Sentencing) Act 2000 was in each of the last seven years. [197745]

Mr. Hanson: The following table shows the number of persons sentenced to immediate custody under the Powers of Criminal Courts (sentencing) Act (2000, 2000-2006), by age and offence.

Persons sentenced[1] to immediate custody under the Powers of Criminal Courts (Sentencing) Act 2000, 2000-2006, England and Wales

Number of persons

	Age	Section 110 Minimum 7 years for third class A drug trafficking offence	Section 111 Minimum 3 years for third domestic burglary
2000	10 to 17		
	18 to 20		
	21 and over	2	
	Total	2	0
2001	10 to 17		
	18 to 20	1	
	21 and over		6
	Total	1	6
2002	10 to 17		
	18 to 20		2
	21 and over		
	Total	0	2
2003	10 to 17		
	18 to 20		4
	21 and over	3	9
	Total	3	13
2004	10 to 17		
	18 to 20	1	15
	21 and over	3	31
	Total	4	46

Persons sentenced[1] to immediate custody under the Powers of Criminal Courts (Sentencing) Act 2000, 2000-2006, England and Wales

Number of persons

	Age	Section 110 Minimum 7 years for third class A drug trafficking offence	Section 111 Minimum 3 years for third domestic burglary
2005	10 to 17		
	18 to 20		18
	21 and over	3	71
	Total	3	89
2006	10 to 17		
	18 to 20		33
	21 and over	7	196
	Total	7	229

[1] Principal offence basis

Note:
These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale record.

RDS-NOMS, Ministry of Justice

Young Offenders: Custodial Treatment

Mr. Evans: To ask the Secretary of State for Justice how many young people aged under 16 years living in (*a*) Ribble Valley constituency and (*b*) Lancashire received a custodial sentence in each of the last 10 years. [198027]

Mr. Hanson: The court proceedings database does not contain details of offender address. We are unable to say where an offender was living when they received a custodial sentence.

HEALTH

Abortion: Finance

Mr. Evans: To ask the Secretary of State for Health what public funding was provided to clinics performing abortions in (*a*) Lancashire and (*b*) England in each year since 1998. [198029]

Dawn Primarolo: This information is not collected centrally.

Abortion: Lancashire

Mr. Evans: To ask the Secretary of State for Health how many abortions have been performed in Lancashire in each year since 1998. [198028]

Dawn Primarolo: Data for abortions performed in Lancashire are not available. Data for abortions for women resident in Lancashire are shown in the following table.

Abortions to residents of Lancashire[1] 1998-2006

Health authority (HA) 1998-2001	East Lancashire HA	North West Lancashire HA	South Lancashire HA	Total
1998	1,413	1,371	701	3,485
1999	1,444	1,226	762	3,432
2000	1,461	1,274	711	3,446
2001	1,342	1,227	709	3,278

Strategic health authority (SHA) 2002-05 Cumbria and Lancashire SHA	Total
2002	4,571
2003	4,826
2004	4,804
2005	4,749

Primary care trust (PCT) 2006	Total
Central Lancashire PCT	1,223
East Lancashire PCT	1,147
North Lancashire PCT	768
Blackpool PCT	495
Blackburn with Darwen PCT	477
Total Lancashire PCTs	4,110

[1] Boundaries for Lancashire changed in 2002 and 2006 and totals cannot be compared between groups.

Department of Health

Accident and Emergency Departments: Admissions

John Mann: To ask the Secretary of State for Health what the average cost of admitting a patient to hospital through the accident and emergency department was in the most recent period for which figures are available. [197413]

Mr. Bradshaw: The specific information requested cannot be provided, as the average cost of admission through accident and emergency (A and E) departments is not collected. However, information is available on the average cost of treating patients in A and E departments who are subsequently admitted. This information is collected each year through the national health service reference cost collection exercise. The following table sets out the information reported for 2006-07. A copy of the national schedule of reference costs for 2006-07 has been placed in the Library and is also available on the Department's website at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_082571

National schedule of reference costs 2006-07 NHS trusts A and E services leading to admitted

Accident and emergency services	Number of attendances	National average unit cost (£)	Number of data submissions
Any investigation with category 5 treatment	107,805	102	92
Category 3 investigation with category 4 treatment	10,459	338	95
Category 3 investigation with category 1-3 treatment	82,486	151	127
Category 2 investigation with category 4 treatment	80,381	182	107
Category 2 investigation with category 3 treatment	134,832	158	120
Category 1 investigation with category 3-4 treatment	41,097	123	116
Category 2 investigation with category 2 treatment	166,338	140	117
Category 2 investigation with category 1 treatment	1,274,236	123	124
Category 1 investigation with category 1-2 treatment	629,947	90	127
Dental Care	72	477	5
No investigation with no significant treatment	920,579	71	126
Emergency and urgent care: Dead On Arrival	490	186	-

Notes:
1. National average unit costs are calculated on a weighted basis.
2. 2006-07 data are not directly comparable to 2005-06 due to the change from the HRG3.5 currency in 2005-06 to the HRG4 currency in 2006-07.

Alcoholic Drinks: Misuse

John Mann: To ask the Secretary of State for Health what proportion of admissions to hospital accident and emergency departments for incidents related to excessive alcohol consumption occurred (*a*) between 6.00 p.m. and 10.00 p.m., (*b*) between 10.00 p.m. and midnight and (*c*) between midnight and 4.00 a.m. [197415]

Dawn Primarolo: The information requested is not collected centrally.

Allergies: Food

Mr. Vara: To ask the Secretary of State for Health (1) what steps he is taking to improve (*a*) identification and treatment of food related allergies and (*b*) raise awareness of such allergies in the UK; and if he will make a statement; [194523]

(2) what estimate he has made of the number of people diagnosed with food related allergies in (*a*) England and (*b*) North West Cambridgeshire, broken down by type of allergy. [194524]

Ann Keen: We have made no estimate of the number of people diagnosed with food related allergies.

It is the responsibility of local health bodies to commission services to meet the needs of their local population, this includes those with food related allergies. For most patients treatment would involve advice on avoiding the allergen, with the most severely affected patients being referred to a specialist allergy centre.

Following the recent departmental review of allergy services, we have taken action on a number of the next steps identified, including:

asked the National Institute for Health and Clinical Excellence to consider the development of definitive clinical guidelines for allergic conditions;

commissioned Skills for Health to develop with stakeholders a national competence framework for allergy;

commissioned the Royal College of Paediatrics and Child Health to scope the development of care pathways for children with allergic symptoms;

endorsed the need for more training numbers for allergy as part of the annual review process;

asked deaneries and trusts to consider the possibility of increasing local training posts for allergy; and

invited key research funders to note the gaps in the research evidence highlighted in the review.

Ambulance Services: Lancashire

Mr. Evans: To ask the Secretary of State for Health what the (*a*) fastest, (*b*) slowest and (*c*) mean response time of emergency ambulances to incidents occurring in Ribble Valley constituency was in each of the last three years. [198030]

Mr. Bradshaw: The information requested is not collected centrally. However, the hon. Member might want to contact the North West Ambulance Service directly to explore if these data are locally available.

The ambulance response time data that are collected, and which includes the number of emergency calls received by ambulance trusts across England and their performances against the targets set, are published annually. The latest statistical bulletin, "Ambulance Services, England, 2006-07" was published in June 2007. Copies of the bulletin are available in the Library.

Blood Transfusions

Jenny Willott: To ask the Secretary of State for Health with reference to the answer to the hon. Member for Kettering of 14 June 2007, *Official Report*, column 1298W, on blood transfusions, what methodology his Department will use to assess the costs and benefits of implementing prion filtration; what the timetable is for the conduct of such an assessment; and if he will make a statement. [195778]

Dawn Primarolo: Prion filtration is one of a number of possible variant Creutzfeldt Jakob disease risk reduction measures which will be considered by the Advisory Committee on the Safety of Blood Tissues and Organs, during 2008. Independent efficacy and safety studies of the only prion filter currently on the market are being conducted, based on advice from the Spongiform Encephalopathy Advisory Committee and the Committee on the Microbiological Safety of Blood, Tissues and Organs. An impact assessment of the introduction of prion filtration will be conducted when adequate data from these studies are available.

The guidance on producing impact assessments can be found on the website of the Department for Business Enterprise and Regulatory Reform, at:

www.berr.gov.uk/files/file44544.pdf.

Blood: Greater London

Justine Greening: To ask the Secretary of State for Health how much was spent by his Department on marketing to increase the number of blood donors in London in (*a*) 2003-04, (*b*) 2004-05, (*c*) 2005-06, (*d*) 2006-07 and (*e*) 2007-08, broken down by primary care trust. [195118]

Dawn Primarolo: It is not possible to break down the marketing costs by primary care trust or by region. However, the following table gives the marketing spend to promote blood donation across England and north Wales by the National Blood Service (NBS).

Financial year	NBS marketing spend (£ million)
2003-04	7.8
2004-05	8.8
2005-06	7.7
2006-07	8.4
2007-08 (for 11 months)	8.1

Bowel Cancer: Screening

Mr. Bone: To ask the Secretary of State for Health what guidance he issues on bowel cancer screening services in the NHS; and if he will make a statement. [197633]

Ann Keen: Advice to the national health service to participate in Wave 1 (2006-07) and Wave 2 (2007-08) of the NHS Bowel Cancer Screening Programme (NHS BCSP) was issued in July 2005 and February 2007 respectively. Advice to the NHS for bids to participate in Wave 3 (2008-09) of the NHS BCSP will be issued shortly.

Copies of this advice, and all NHS BCSP guidance and quality standards, have been placed in the Library.

Mr. Bone: To ask the Secretary of State for Health how many people have been screened for bowel cancer in each year since 1997. [197634]

Ann Keen: The information requested is not available prior to July 2006.

Roll out of the national NHS Bowel Cancer Screening Programme only began in April 2006, with the first invitations sent out in July 2006. Full national implementation is expected by December 2009.

Between July 2006 and 14 March 2008, 1,019,915 testing kits were sent out, of these 552,577 kits have been returned, and there have been 9,768 positive results.

British Association of Immediate Care Doctors: Finance

Sandra Gidley: To ask the Secretary of State for Health how much he allocated to the support of British Association for Immediate Care doctors in each of the last five years. [197848]

Mr. Bradshaw: The Department has not allocated any funding to support the British Association for Immediate Care doctors in each of the last five years.

British Association of Immediate Care Doctors: Standards

Sandra Gidley: To ask the Secretary of State for Health what assessment he has made of the (*a*) performance and (*b*) contribution of British Association for Immediate Care doctors in the treatment of severe trauma; and if he will make a statement. [197852]

Mr. Bradshaw: The Department acknowledges the valuable support that British Association for Immediate Care (BASICS) doctors offer to the national health service locally, recognising that the availability of medical advice and assistance can bring added advantages to some seriously injured patients. However, it is a matter for the NHS locally to decide how they use BASICS doctors, and where they are in a position to provide this support, close links will be made to ensure that they are used to the greatest advantage.

Caesarean Sections

Stephen Hesford: To ask the Secretary of State for Health what proportion of women opted to have a caesarean section in the last year for which figures are available. [194438]

Ann Keen: In 2005-06 there were 593,400 deliveries in national health service hospitals in England. Of these 139,449 were by caesarean section. Elective caesarean accounted for 9.3 per cent. (12,969) of the total.

Cancer

Andrew Rosindell: To ask the Secretary of State for Health what the survival rates for (*a*) breast, (*b*) colon and (*c*) cervical cancer were in the latest period for which figures are available. [196551]

Angela Eagle: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Jil Matheson, dated 31 March 2008:

The National Statistician has been asked to reply to your recent Parliamentary Question asking what the survival rates for (a) breast, (b) colon and (c) cervical cancer were in the latest period for which figures are available. I am replying in her absence. [196551]

The latest available survival rates for 21 common cancers among adult patients in England diagnosed during 1999-2003 and followed up to the end of 2004 are available on the National Statistics website at:

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=14007&Pos=1&ColRank=1&Rank=192

One- and five-year survival rates relating to (a) breast, (b) colon and (c) cervical cancer are given in the table below.

One and five-year age-standardised[1] relative survival for adult patients[2] diagnosed during 1999 to 2003, England, major cancers by sex

Cancer[3]		One-year relative survival	Five-year relative survival
			Percentage
Breast	Women	94.2	81.0
Colon	Men	68.6	49.6
	Women	68.5	50.8
Cervix	Women	81.5	63.0

[1] As cancer survival varies with age at diagnosis, the relative rates for all ages (15-99) have been age-standardised to control for changes in the age profile of cancer patients over time, thus making them comparable with previously published figures.
[2] Aged 15-99 years.
[3] Cancers registered in 1999 to 2003 are defined by codes in the International Classification of Diseases, Tenth Revision (ICD10). Therefore, breast cancer is defined by code C50, colon cancer by code C18 and cervical cancer by code C53.
Source:
Office for National Statistics

Cancer: Expenditure

Sandra Gidley: To ask the Secretary of State for Health what expenditure his Department has incurred on *(a)* prostate, *(b)* breast, *(c)* testicular and *(d)* ovarian cancer in each of the last five years. [194323]

Ann Keen: Information on expenditure by cancer type is not available.

In 2006-07, 5.2 per cent. of all NHS spending was spent on cancer. In 2006-07, £4.35 billion was spent on cancer services.

Available figures for earlier years were £3.4 billion in 2003-04, £3.8 billion in 2004-05 and 4.3 billion in £2005-06.

Cancer: Females

Andrew Rosindell: To ask the Secretary of State for Health how many women in the London Borough of Havering were diagnosed with *(a)* breast cancer, *(b)* cervical cancer and *(c)* bowel cancer in each of the last five years. [196554]

Angela Eagle: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Jil Matheson, dated 31 March 2008:

The National Statistician has been asked to reply to your recent Parliamentary Question asking how many women in the London Borough of Havering were diagnosed with (a) breast cancer, (b) cervical cancer and (c) bowel cancer in each of the last five years. I am replying in her absence. [196554]

The most recent available figures for newly diagnosed cases of cancer registered in England are for the year 2005. Figures for female patients diagnosed with (a) breast cancer, (b) cervical cancer and (c) bowel cancer in the London Borough of Havering for the years 2001 to 2005 are in the table below.

Registrations of newly diagnosed cases for selected cancers, females, London borough of Havering, 2001 to 2005

Cancer[1]	2001	2002	2003	2004	2005[2]
Breast	169	138	195	168	119
Cervical	7	8	10	11	8
Colorectal	45	72	59	55	62

[1] Cancers registered in 2001 to 2005 are defined by codes in the International Classification of Diseases, Tenth Revision (ICD10). Therefore, breast cancer is defined by code C50, cervical cancer by code C53 and colorectal cancer by codes C18-C20.
[2] The fall in the number of newly diagnosed cases of breast cancer in 2005 suggests that there was under-registration in that year. This is likely to be due to a delay in registration as a result of a boundary change between the Thames Cancer Registry and the Eastern Cancer Registration and Information Centre.

Office for National Statistics

Cardiovascular System: Diseases

Geraldine Smith: To ask the Secretary of State for Health what steps his Department is taking to reduce deaths from cardiovascular disease. [194416]

Ann Keen: I refer my hon. Friend to the answer I gave my hon. Friend for Coventry, South (Mr. Cunningham), on 25 February 2008, *Official Report*, columns 1191-92W.

Care Homes

Mr. Hoban: To ask the Secretary of State for Health how many care homes have been *(a)* opened and *(b)* closed in each of the last 10 years. [195810]

Mr. Ivan Lewis: Information is available from the Commission for Social Care Inspection (CSCI) for the years from 2002-03, when the National Care Standards Commission began work. Prior to this, data on total numbers of homes were collected by local councils, but figures on numbers opening and closing are not held centrally.

CSCI has provided information on registrations and de-registrations of care homes, which is shown in the following table. The number of de-registrations exceeds the number of permanent closures because homes may deregister temporarily, for example, for refurbishment, on change of ownership or when a new manager is appointed. The numbers of permanent closures cannot be identified separately.

Number of new registrations and de-registrations of care homes by year

	De-registrations	New registrations
2002-03	2,443	1,910
2003-04	2,941	2,495
2004-05	1,811	1,374
2005-06	1,921	1,578
2006-07	1,681	1,456
2007-08[1]	1,204	1,063

[1] 1 April 2007 to 4 March 2008
Source:
CSCI registration and inspection database as at 4 March 2008

Mr. Hoban: To ask the Secretary of State for Health how many care homes with *(a)* 10 or fewer, *(b)* between 10 and 20, *(c)* between 30 and 50, *(d)* between 50 and 100 and *(e)* more than 100 residents have (i) opened and (ii) closed in each of the last 10 years. [196564]

Mr. Ivan Lewis: Information is available from the Commission for Social Care Inspection (CSCI) for the years from 2002-03, when the National Care Standards

Commission began work. Prior to this, data on total numbers of homes were collected by local councils, but information on numbers opening and closing is not held centrally.

CSCI has provided information on the numbers of new registrations and de-registrations of care homes, which are shown in the tables. The number of de-registrations exceeds the number of registrations because homes may de-register temporarily, for example, for refurbishment, on change of ownership or when a new manager is appointed. The numbers of permanent closures cannot be identified separately.

Number of new registrations of care homes by financial year and number of registered places[1]

	Financial year					
Number of registered places	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*[2]
10 or fewer	778	629	466	561	510	389
Between 10 and 20	306	471	263	285	267	199
Between 21 and 29	257	453	237	237	189	146
Between 30 and 50	459	801	304	336	269	231
Between 51 and 100	102	137	100	148	205	118
More than 100	14	4	4	11	16	4
Total	1,916	2,495	1,374	1,578	1,456	1,087

[1] The number of registered places denotes the maximum capacity of the home, not the number of residents at any given time.

Care Homes: Qualifications

Mr. Hoban: To ask the Secretary of State for Health how many registered care homes have more than 50 per cent. of employees with qualifications at NVQ level 2 or above. [195809]

Mr. Ivan Lewis: We have been informed by the Commission for Social Care Inspection that, during the year ending 31 March 2007, it inspected 10,093 care homes against standard 28 of the national minimum standards (NMS) for care homes for older people. In total 7,782, or 78 per cent. of homes were found to be either meeting or exceeding the standard, which deals with the numbers of trained staff in each establishment.

Comparable information is not available for homes inspected against the NMS for care homes for younger adults.

Carers

Miss Begg: To ask the Secretary of State for Health what steps he has taken to encourage *(a)* local authorities and *(b)* primary care trusts to nominate a lead person for carers' services; and how many nominations have been notified to this Department. [196772]

Mr. Ivan Lewis: Although the Department has not specifically required councils and primary care trusts to inform us when they have nominated a carer's lead, we are aware that a significant number have done so since the publication of the White Paper "Our Health, Our Care, Our Say".

We will consider how such appointments can be further encouraged in the work that is currently under way to revise the Prime Minister's strategy on carers.

Cervical Cancer: Screening

Mr. Hepburn: To ask the Secretary of State for Health how many cervical cancer screenings took place in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since 1997. [195227]

Ann Keen: The following table shows cervical screening coverage in the areas requested. We are unable to identify Jarrow separately. Jarrow constituency is within South Tyneside Primary Care Trust (PCT), for whom information has been provided.

Coverage is the percentage of eligible women who have had a cervical screening test result in the previous five years.

Cervical screening programme: coverage of the Target Age Group (25-64) for specified organisations, 31 March 1997 to 2007

		1997	1998	1999	2000	2001
England

	Coverage (less than five years since last adequate test) (%)	82.1	81.7	81.2	80.4	79.3	78.3

n/a = not available
1 This is the number of women in the resident population less those with recall coded for clinical reasons
2 Data prior to 2002 are estimates, original data were based on last test with a result, not last adequate test (as used currently) and have been adjusted to allow for

Notes:
1. National policy for the cervical screening programme is that eligible women aged 25 to 64 should be screened every three or five years (women aged 25 to 49 are screened every three years, those aged 50 to 64 every five years).
2. Jarrow constituency is within South Tyneside PCT, we are unable to identify Jarrow separately.
3. Data prior to 2006 have been estimated to match current SHA boundaries.
4. Data from 2002 to 2006 have been estimated to match current primary care organisation boundaries.

Table A2 and A3, The Information Centre for health and social care

Chemicals: Health Hazards

Mr. Hancock: To ask the Secretary of State for Health what research he has (a) commissioned and (b) evaluated on the (i) neurotoxic, (ii) genotoxic, (iii) mutagenic and (iv) carcinogenic effects of long-term exposure to polychlorinated biphenyls on (A) human foetuses, (B) young children and (C) adults. [196776]

Dawn Primarolo: The World Health Organisation' International Programme on Chemical Safety, with funding from the Department, has recently reviewed the data on the toxicity of polychlorinated biphenyls in their Concise International Chemical Assessment Documents Series. This is available at:

www.inchem.org/documents/cicads/cicads/cicad55.htm

Human studies have identified associations between exposure to polychlorinated biphenyl mixtures and adverse reproductive effects (effects on sperm motility, foetal growth rate and development and neurological function in the offspring), and cancer. However, the human studies are restricted by limited exposure data; inconsistency among some results, and the presence of confounding factors; these make it impossible to use them as a basis for risk estimations and thus cannot be assessed.

Data from animal and related experiments indicate that polychlorinated biphenyls do not have any significant mutagenic or genotoxic properties but they are carcinogenic. Neurodevelopmental effects have been observed in several animal species after exposure to polychlorinated biphenyls.

Coeliac Disease: Food

Gordon Banks: To ask the Secretary of State for Health (1) what the Advisory Committee on Borderline Substances' process is for reviewing the quality, range and availability of gluten-free food products on prescription for people with coeliac disease; [197760]

(2) which commercial and patient groups the Advisory Committee on Borderline Substances (ACBS) has consulted in the last six months; and when the ACBS next plans to meet such groups to discuss the provision of gluten-free food on prescription for people with coeliac disease. [197761]

Dawn Primarolo: It is not within the remit of the Advisory Committee on Borderline Substances (ACBS) to review the quality, range and availability of gluten-free food products on prescription for people with coeliac disease, or to meet with stakeholders to discuss the provision of gluten-free food on prescription for people with coeliac disease.

The ACBS's primary function is to advise general practitioners on the circumstances in which it would be reasonable to prescribe particular non-medicinal products—mainly foods such as enteral feeds and foods specially formulated for use by people with given medical conditions.

The ACBS have not met or consulted any commercial or patient groups over the last six months. The NHS Purchasing and Supply Agency and the Department, however, have been in discussions with

the Infant and Dietetic Foods Association in conjunction with a review currently taking place of the ACBS and its activities.

Gordon Banks: To ask the Secretary of State for Health what his Department's policy is on the provision of gluten-free food in hospital for people with coeliac disease; and if he will make a statement. [197772]

Ann Keen: As set out in Standards for Better Health (Core Standard C15(b)), patients' individual nutritional, personal and clinical dietary requirements should be met. Copies of the publication are available in the Library.

Patients who follow a gluten-free diet should be treated in exactly the same way as any other patient who, whether for clinical, religious or cultural reasons, requires a special diet. The way these needs are identified and met is a matter for local resolution.

However, effective admission or pre-admission procedures should ensure appropriate food can be provided as quickly as possible.

Dental Services: Greater London

Mr. Evennett: To ask the Secretary of State for Health how many dentists in (*a*) Bexley and (*b*) London are not accepting new NHS patients. [194153]

Ann Keen: Information on the number of dentists accepting new national health service patients is not collected centrally.

Departmental Pay

John Mann: To ask the Secretary of State for Health what the 24-hour overnight allowance for civil servants working for his Department and based in Leeds is when working in London. [197342]

Mr. Bradshaw: Accommodation in a hotel or guesthouse is usually booked through the Department's travel agent (Expotel). The normal rate for a hotel room under the contract is £95.00 for London. In addition, a meal allowance of up to £22.50 can be claimed for each full 24 hours.

All travel is undertaken in accordance with the Civil Service Management Code.

Disabled: Children

Mr. Swire: To ask the Secretary of State for Health what funding has been allocated to primary care trusts for services (*a*) to meet the needs of disabled children and their families and (*b*) to meet the additional needs of children with a life-limiting or life-threatening condition in 2008-09; and if he will make a statement. [196663]

Mr. Ivan Lewis: I refer the hon. Member to the answer I gave him on 4 March 2008, *Official Report*, column 2393W.

Headaches

Sir Nicholas Winterton: To ask the Secretary of State for Health (1) what estimate he has made of the percentage of the population that experience regular and severe migraine and other headache-related disorders; [194203]

(2) what assessment he has made of the effect of headache disorders on absenteeism in the NHS; [194204]

(3) what assessment he has made of the provision of NHS services for those who experience regular and severe headache disorders; [194205]

(4) how many specialist headache clinics there are. [194207]

Ann Keen: We have made no estimate of the percentage of the population who experience regular and severe migraine and headaches.

No assessment has been made of the effect of headache disorders on the national health service.

No assessment has been made of the provision of NHS services for those living with regular and severe headache disorders. The provision of services to meet the needs of those living with migraine and headaches is specifically covered by the National Service Framework (NSF) for Long-term Conditions. The NSF has a 10-year implementation programme from its publication in March 2005, with flexibility for organisations to set the pace of change locally to take account of local priorities and needs. A copy of the NSF is available in the Library.

Information on the number of specialist headache clinics is not collected.

Headaches: Health Services

Sir Nicholas Winterton: To ask the Secretary of State for Health how many headache (*a*) medical and (*b*) nursing specialists operate within the NHS. [194206]

Ann Keen: Medical and nursing staff working in the national health service who specialise in treating or diagnosing headaches are not identified in the NHS Workforce Census. There are a variety of causes of a headache and if a cause can be identified then the care of the patient will follow the appropriate clinical pathway.

In April 2003 the College of General Practitioners and the Department issued joint guidance "Guidelines for the Appointment of General Practitioners With Special Interests in the Delivery of Clinical Service - Headaches". This guidance has been placed in the Library.

Health Services: Expenditure

Mr. Lansley: To ask the Secretary of State for Health what percentage of (*a*) his Department's and (*b*) NHS expenditure central budgets held at (i) his Department and (ii) strategic health authorities have represented in each of the last five financial years. [191455]

Mr. Bradshaw: The following table details the level of centrally controlled expenditure as a proportion of total national health service revenue expenditure over the past five years.

	Total NHS revenue	Funding not allocated as part of Revenue Allocations	NHS bundle' funding under direct control of strategic health authority (SHA)		Departmental centrally controlled funding	
	£ billion	£ billion	£ billion	Percentage	£ billion	Percentage
2003-04	61.866	16.839	n/a	n/a	16.839	27
2004-05	66.874	17.546	n/a	n/a	17.546	26
2005-06	74.169	20.244	n/a	n/a	20.244	27
2006-07	78.467	14.157	5.400	7	8.666	11
2007-08	87.528	17.173	6.946	8	10.228	12

n/a = Not applicable

2003-04 to 2006-07 figures are outturn (the actual year end position); 2007-08 is the estimated outturn position

(1) Funding is the revenal centrally controlled funding after excluding the allocations to primary care trusts that were announced for 2003-04 to 2005-06 on 18 December 2002, and for 2006-07 and 2007-08 on 9 February 2005

(2) As part of the central budget setting for 2006-07 a strategic decision was to taken to transfer responsibility for a significant proportion of central budgets to the SHAs. This would allow them to be set at levels better aligned to meet local needs

Health Services: Havering

Andrew Rosindell: To ask the Secretary of State for Health what assessment he has made of the level of health service provision in the London Borough of Havering. [196668]

Mr. Bradshaw: No assessment has been made of the level of health service provision in the London borough of Havering. It is for primary care trusts (PCTs) to commission health services for their local population based on an assessment of local need. The hon. Member may therefore wish to raise this with the chief executive of Havering PCT.

Health Services: Immigration

Mr. Hoban: To ask the Secretary of State for Health to which (*a*) bodies and (*b*) individuals his Department has issued guidance on the effect of management of applications from non-EEA nationals based on their immigration status. [196516]

Mr. Bradshaw: The Department has issued guidance to its Executive agencies (human resources (HR) managers in the Medicines and Healthcare products Regulatory Agency and NHS Purchasing and Supply Agency) and within the Department to the HR director, HR managers, HR operational teams, the learning and development team, the procurement team (who engage suppliers and contractors) and the peripheral workforce team (working to manage and improve the use of contractors and agency staff).

Health Services: South Yorkshire

Jeff Ennis: To ask the Secretary of State for Health what progress has been made in implementing the targets for the National Service Framework for Long-term Conditions in Barnsley East and Mexborough constituency. [194434]

Ann Keen: It is for individual primary care trusts (PCTs), including Barnsley PCT, within the national health service to develop locally the levels of service described in the National Service Framework for Long-term (Neurological) Conditions (the NSF). The NSF has a 10-year implementation programme from its publication in March 2005, with flexibility for organisations to set the pace of change locally to take account of differences in local priorities and needs. A copy of the NSF is available in the Library.

Information on the progress that has been achieved locally with regard to the implementation of the targets set out in the NSF can be obtained direct from Barnsley PCT.

Health Visitors

Mr. Kidney: To ask the Secretary of State for Health (1) what assessment he has made of the likely effects on increased recruitment of midwives on the (*a*) training, (*b*) recruitment and (*c*) retention of health visitors; [194321]

(2) if he will take steps to recruit more health visitors to provide support through the pre-school stage of children's lives; [194322]

(3) what steps his Department is taking to change the number of training places for health visitors available (*a*) this year and (*b*) in the next three years. [194329]

Ann Keen: My right hon. Friend the Secretary of State has made a commitment to recruit more specialist nurses and health visitors to tackle public health issues in deprived communities.

It is the responsibility of local organisations to commission and develop services to respond to local needs, including the recruitment of health visitors and midwives. The Operating Framework for 2008-09 highlights the importance of maternity and children's services and the need for local organisations to commission and provide the necessary services and work force.

Hidradenitis Suppurative

Dr. Alasdair McDonnell: To ask the Secretary of State for Health what progress is being made in improving the treatment of hidradenitis suppurative; and if he will make a statement. [194745]

Ann Keen: No assessment has been made.

Home Births

John Mann: To ask the Secretary of State for Health how many home births there were in each of the last 10 years. [197338]

Angela Eagle: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 31 March 2008:

As the National Statistician I have been asked to reply to your question about how many home births there have been in each of the last 10 years. (197338)

The latest year for which figures are available is 2006. The table below shows the number of women who gave birth at home in England and Wales in the years 1997-2006.

Number of women who gave birth at home, England and Wales, 1997 to 2006

	Number
1997	14,412
1998	13,815
1999	13,271
2000	12,803
2001	12,115
2002	12,697
2003	13,590
2004	14,506
2005	16,501
2006	18,109

Human Fertilisation and Embryology Bill

Mr. Lansley: To ask the Secretary of State for Health whether *(a)* he and *(b)* Ministers in his Department have met representatives of the Catholic Church to discuss the content of the Human Fertilisation and Embryology Bill. [197451]

Dawn Primarolo: My right hon. Friend the former Secretary of State (Patricia Hewitt) met Cardinal Cormac Murphy-O'Connor on 21 June 2006 to discuss a range of issues including the Government's review of the Human Fertilisation and Embryology Act. Written correspondence relating to the provisions of the Bill has also taken place. In addition, organisations such as the Guild of Catholic Doctors and the National Board of Catholic Women submitted evidence on the review of the existing law and the Government's legislative proposals to the Department's 2005 public consultation and to the joint Pre-Legislative Scrutiny Committee.

Malaria

Mr. Lansley: To ask the Secretary of State for Health how many cases of malaria there have been in each of the last five financial years for which figures are available, broken down by region. [195745]

Dawn Primarolo: The number of cases of malaria by region are shown in the following table, with data from 2002 to 2006. Data for 2007 are not yet published.

	2002	2003	2004	2005	2006
Northern	7	4	5	17	8
North west	61	12	44	66	70
York/ Humber	79	63	67	74	57
West Midlands	86	47	53	65	55
East Midlands	34	22	18	43	47
East Anglia	43	33	34	25	37
South east	312	322	296	363	367
South west	60	50	54	53	56
Channel Islands	5	1	2	1	4
London	1,194	1,077	907	984	981
England total	1,881	1,631	1,480	1,691	1,682

Note:
Data are not collated in the format requested. However, they are presented by calendar year.
Source:
Malaria Reference Laboratory, Health Protection Agency, 19 March 2008.

Medical Records: Data Protection

Mr. Stephen O'Brien: To ask the Secretary of State for Health what information he plans to give to patients on the *(a)* procedures relating to and *(b)* format of data relating to them in the limited data sets of the secondary users service; and if he will make a statement. [195842]

Mr. Bradshaw: The NHS Care Record Guarantee identifies some of the uses to which limited, commissioning, data sets may be put. The formats of the data are accessible on the NHS Connecting for Health website at:

www.datadictionary.nhs.uk/web_site_content/navigation/commissioning_data_sets_menu.asp?shownav=1

Mental Health Act 2007

James Duddridge: To ask the Secretary of State for Health pursuant to the answer of 17 March 2008, *Official Report*, column 748W, on the Mental Health Act 2007, when the code of practice will be finalised; when the secondary legislation will be laid before Parliament; and what the timetable is for *(a)* the introduction and *(b)* the implementation of the programme by the Care Services Improvement Partnership. [197010]

Mr. Ivan Lewis: We intend that the majority of changes to the Mental Health Act 1983 (the 1983 Act) made by the Mental Health Act 2007 will be brought into force in October this year. Shortly after the Easter recess we intend to make secondary legislation needed in connection with those changes and to lay before Parliament a revised code of practice for the 1983 Act. The Care Services Improvement Partnership is already working with commissioners, providers, and practitioners to prepare them for the implementation of the changes.

Mental Health Services

Lynne Jones: To ask the Secretary of State for Health what steps will be taken to safeguard the provision of mental health advocacy services not linked to the operation of the Mental Health Act or Mental Capacity Act. [189262]

Mr. Ivan Lewis: "Putting People First: a shared vision and commitment to the transformation of Adult Social Care" sets out, for the first time, the vision, ambitions and components of the future system in one place. In particular, it recognises the need to empower citizens to shape their own lives, the support they receive, and the role that access to universal information and advocacy will play in making this a reality.

The Social Care Reform Grant provides three years of ring-fenced funding to support councils to undertake the necessary reforms to deliver this transformation. Councils will be expected to have made significant steps towards redesigning and reshaping their adult social care services (in the light of their Joint Strategic Needs Assessments), to have the core components of a personalised system in place by 2011.

One of the core components of a transformed adult social care system is a universal, joined-up information and advice available for all individuals and carers, including those who self-assess and fund. The grant determination is clear that links to advocacy and support services will need to be considered where individuals do not have a carer or in circumstances where they require support to articulate their needs and/or utilise the personal budget.

Mental Health Services: Sexual Offences

Anne Milton: To ask the Secretary of State for Health how many sexual assaults have taken place in NHS mental health accommodation in each year since 1997; and if he will make a statement. [178667]

Mr. Ivan Lewis: The Department does not collect information on sexual assaults centrally.

We take the issue of safety very seriously. We have made £130 million capital available over the past three years for improvements to the environment in psychiatric intensive care units and adult acute mental health wards. This includes £30 million for acute wards, particularly for women service users. On 5 February, my right hon. Friend the Secretary of State made a renewed commitment in the House to eradicate mixed-sex accommodation in mental health care.

The environment plays one part in ensuring safety; equally important are policies, procedures and training. We will be publishing guidance for mental health trusts on sexual safety later this year, as part of the revised management of violence guidance.

We are also improving advocacy services to make sure that service users can more easily bring up issues relating to their personal safety.

NHS: Finance

Mr. Lansley: To ask the Secretary of State for Health on what date his Department agreed planned levels of NHS spending from 2008-09 to 2010-11 with HM Treasury. [196817]

Mr. Bradshaw: The Department agreed planned levels of national health service spending from 2008-09 to 2010-11 with HM Treasury on 9 October 2007 on receipt of the 2007 comprehensive spending review settlement letter.

NHS: ICT

Mr. Stephen O'Brien: To ask the Secretary of State for Health how many and what proportion of Choose and Book *(a)* Phase 1 release 1, *(b)* Phase 1 release 2 and *(c)* Phase 2 release 1 deliveries have been made for the (i) NHS IT National Data Spine and (ii) local services in (A) the North Eastern cluster, (B) London, (C) Eastern and East Midlands, (D) North West and West Midlands and (E) Southern. [195853]

Mr. Bradshaw: Choose and book is a national service and Release 1.0 was originally delivered on 2 July 2004.

This was against the version of the Spine that was then known as Phase 1 Release 1 (P1R1).

Since this time, there have been a number of functional and patch releases, all to the National Choose and Book Service and all compliant with the National Spine and Patient Demographics Service. The most recent of these was a Release 3.6.3 delivered on 26 January 2008 and this is the current live version for all users, nationally.

The next release, 4.0, is a major release due in April 2008 and this will deliver exciting new functionality such as free choice of secondary-care provided services and the ability for service providers to describe their services using SNOMED clinical terminology.

The clusters A to E have now been superseded by 10 regional strategic health authorities. The original plan was for local service providers in each of these areas to make local General Practitioner and Hospital Patient Administration Systems (PAS) available to integrate with choose and book and the National Spine. The deliveries from each of these are ongoing but all acute trusts in England have services published on choose and book, over 140 of which do so using a compliant PAS system. These are provided in the main by existing systems suppliers that have aligned their systems with the choose and book application and that local acute trusts have chosen to retain.

NHS: Performing Arts

Gordon Banks: To ask the Secretary of State for Health (1) how much was paid by the NHS to the Performing Right Society for small premises licence tariffs in each of the last five years for which data are available. [197570]

(2) how many NHS premises held Performing Right Society small premises licences in each of the last five years for which data are available. [197580]

Mr. Bradshaw: The information is not held centrally.

Nurses: Schools

Tim Loughton: To ask the Secretary of State for Health how many *(a)* school nurses and *(b)* whole time equivalent school nurses have been employed in each of the last five years. [186740]

Ann Keen: The annual national health service workforce census collected accurate information on the number of school nurses employed by the NHS in England for the first time in 2004. The number of school nurses from 2004-06 is shown in the following table.

The 2006 census showed there were 2,968 qualified nurses in the school nursing area of work, an increase of 559 or 23.2 per cent. since 2004. Of these there were 1,129 school nurses with a post registration school nurse qualification. This is an increase of 273 or 31.89 per cent. since 2004.

School nurse numbers, England

Headcount

	2004	*2005*	*2006*[1]	*Increase 2004-06*	*Percentage increase since 2004*
School nursing service nurses	2,409	2,887	2,968	559	23.20
Of which:					
Nurses with a post registration school nursing qualification	856	943	1,129	273	31.89
Full-time equivalent					
School nursing service nurses	1,619	1,913	2,053	443	26.76
Of which:					
Nurses with a post registration school nursing qualification	607	665	815	208	34.31

[1] More accurate validation processes in 2006 have resulted in the identification and removal of 9,858 duplicate non-medical staff records out of the total work force figure of 1.3 million in 2006. Earlier years' figures could not be accurately validated in this way and so will be slightly inflated. The level of inflation in earlier years' figures is estimated to be less than one per cent. of total across all non-medical staff groups for headcount figures (and negligible for full-time equivalents). This should be taken into consideration when analysing trends over time.

Source:
Information Centre for health and social care, Non-Medical Workforce Census, general and personal medical services statistics.

Obesity: Children

Mr. Jim Cunningham: To ask the Secretary of State for Health what recent steps have been taken to address childhood obesity. [197354]

Dawn Primarolo: The Government's long-term ambition on obesity is to be the first major nation to reverse the rising tide of obesity and overweight in the population, by enabling everyone to achieve and maintain a healthy weight. Our initial focus is on children: by 2020, we aim to reduce the proportion of overweight and obese children to 2000 levels.

We have mapped out the first steps in delivering this ambition in a new £372 million cross Government strategy, "Healthy Weight, Healthy Lives: A Cross-Government Strategy for England" which was launched in January this year. A copy of the strategy is available in the Library.

From April 2008, tackling child obesity will be a national priority for primary care trusts (PCTs), working with their local partners. This was set out in the NHS Operating Framework in December 2007.

"Healthy Weight, Healthy Lives: guidance for local areas" was published on 19 March. It sets out actions PCTs and local authorities, in conjunction with their third and private sector partners, will want to consider to deliver their child obesity goals.

Patient Choice Schemes

Mr. Jim Cunningham: To ask the Secretary of State for Health what recent steps the Government has taken to increase choice for patients. [197353]

Mr. Bradshaw: Since March 2007 the Government have significantly increased choice for patients. In April 2007, the Department published "Maternity Matters: Choice, access and continuity of care in a safe service". A copy of this publication is available in the Library. It introduces new national choice guarantees for women so that by the end of 2009 all women should have choice over where and how they have their baby.

In June 2007 the Government launched NHS choices, a website that helps patients make choices, including providing more information to inform those choices.

The 2008-09 "Operating Framework for the NHS in England" includes a generic choice model for people with long-term conditions. A copy of the framework is available in the Library.

From April 2008 the implementation of 'free choice' means that patients will be able to choose to be referred to over 350 hospitals across England. A series of national health service branded advertisements will run in regional newspapers and on regional radio, designed to raise awareness of choice and to help patients make informed decisions about their choice of provider.

Royal Lancaster Infirmary: MRSA

Geraldine Smith: To ask the Secretary of State for Health how many in-patients have contracted MRSA in the Royal Lancaster Infirmary in the last 12 months. [194018]

Ann Keen: The information is not available in the requested format.

Screening

Mr. Lansley: To ask the Secretary of State for Health pursuant to the Answer of 15 January 2008, *Official Report*, column 1194W, on screening, when developmental work to identify an integrated set of tests will *(a)* start and *(b)* be completed. [184233]

Ann Keen: It is expected that vascular risk assessment will involve a number of well-evidenced tests for cardio-vascular disease and diabetes risk factors such as blood pressure and cholesterol measurement, body mass index and blood glucose testing (where clinically indicated).

The developmental work required is to work out the most cost and clinically effective way of offering an integrated set of tests. This is currently under way. Departmental staff expect to be in a position soon to bring forward proposals for discussion with a wide range of stakeholders.

Waiting Lists: Hemel Hempstead

Mike Penning: To ask the Secretary of State for Health how many people were waiting for operations in Hemel Hempstead constituency on 1 January 2008. [196865]

Mr. Bradshaw: Information on the number of people waiting for operations is not collected by constituency.

Information is collected by national health service organisations. As at 31 January 2008 there were 7,104 people waiting at the West Hertfordshire primary care trust, which serves the Hemel Hempstead area, compared to 9,247 people waiting at the end of January 2007.

Watford Hospital: Private Finance Initiative

Mr. Gauke: To ask the Secretary of State for Health what progress has been made on the private finance initiative redevelopment of Watford General Hospital; and if he will make a statement. [197658]

Mr. Bradshaw: The prospective £280 million private finance initiative scheme being undertaken by West Hertfordshire Hospital NHS Trust is tied to the wider redevelopment plan for Watford town centre and the football stadium. The trust is presently working on the options appraisal for their outline business case.

Written Questions: Government Responses

Mr. Spring: To ask the Secretary of State for Health when he expects to answer Questions 188518 and 188519 on aortic aneurysms, tabled on 20 February 2008. [197389]

Ann Keen: Answers will be issued shortly. I regret the delay in replying which is due to an administrative error.

Written Answers to Questions

Monday 31 March 2008

INNOVATION, UNIVERSITIES AND SKILLS

Adult Education

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills how many adults completed *(a)* part-time and *(b)* full-time level 3 courses in each year since 2001. [195310]

Bill Rammell: The following table shows the number of full level 3 achievements by adults in Further Education, Work-based Learning and Train to Gain for each year since 2002/03, the earliest year for which information is available. Breakdowns by full- and part-time are not readily available.

	2002/03	*2003/04*	*2004/05*	*2005/06*
Further Education	55,400	59,600	67,700	78,100
Work-Based Learning	11,900	12,100	13,200	17,100
Train to Gain				
Total	67,300	71,700	80,900	95,200

Source
Learning and Skills Council

Chevening Scholarship Programme

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills what discussions he has held with the Foreign and Commonwealth Office on the changes in funding for the Chevening and Commonwealth scholarship programmes. [196622]

Bill Rammell: I have had no discussions with the Foreign and Commonwealth Office on this issue. The FCO will be managing a consultation process with other Government Departments and business to inform the implementation of these changes and DIUS officials will participate in that exercise.

Departmental Domestic Visits

Mr. Willis: To ask the Secretary of State for Innovation, Universities and Skills what visits he made to *(a)* Harrogate International Centre, *(b)* International Conference Centre, Birmingham, *(c)* Manchester Central, *(d)* Scottish Exhibitional and Conference Centre, Glasgow, *(e)* Edinburgh International Conference Centre, *(f)* Bournemouth International Conference Centre, *(g)* the Brighton Centre, Brighton, *(h)* the Riviera Centre, Torquay, *(i)* Queen Elizabeth Centre, London, *(j)* Excel Conference Centre, Docklands, London, and *(k)* Business Design Centre, Islington, London, in the period 1 January 2005 to 31 December 2007; and what events he attended at each. [197151]

Mr. Denham: I have visited the following venues:

Date	*Centre*	*Reason*
8 November 2007	Queen Elizabeth Centre, London	To attend the Technology Strategy Board
22 November 2007	International Conference Centre, Birmingham	To attend the Association of Colleagues conference

Departmental Manpower

Mrs. May: To ask the Secretary of State for Innovation, Universities and Skills how many *(a)* men and *(b)* women of each Civil Service grade are employed by his Department. [172728]

Bill Rammell: The Department employs 784 staff in a wide variety of roles. It was formed as part of the 28 June 2007 machinery of government changes, taking in staff from the former Department for Education and Skills and Department of Trade and Industry. The following table sets out the numbers and proportions of men and women now employed in each of the general salary bands (percentages are rounded to the nearest whole number):

Grade	*(a) men*	*Proportion men (percentage)*	*(b) women*	*Proportion women (percentage)*	*Total*
Administrative Assistant	1	0	0	0	1
Administrative Officer	37	5	44	6	81
Executive Officer (EO) and equivalents	45	6	74	9	119
Higher Executive Officer (HEO) and equivalents	92	12	127	16	219
Senior Executive Officer (SEO) and equivalents	64	8	51	7	115
Grade 7 and equivalents	85	11	75	10	160
Grade 6	24	3	17	2	41
Senior Civil Service (SCS)	33	4	13	2	46
Special Adviser	1	0	1	0	1
DIUS Total	382	49	402	51	784

Education: Prisons

Mr. Rob Wilson: To ask the Secretary of State for Innovation, Universities and Skills how many and what proportion of the hours of education provided in prisons in 2005-06 were in a structured classroom setting. [196636]

Bill Rammell: The information requested in not collected centrally. Proposals for developing offender learning delivery arrangements were published in September 2007 in "Developing the Offenders' Learning and Skills Service: The Prospectus". The Prospectus described an intention to expand the provision of learning in prison settings outside a traditional classroom environment. In particular, the Prospectus outlined an intention to deliver more learning in production workshops, prison industries and other regime activities such as catering and horticulture

where, although learning is not the primary purpose of the activity, it is possible to acquire and put into practise new skills.

English Language: Further Education

Kelvin Hopkins: To ask the Secretary of State for Innovation, Universities and Skills what proportion of courses for qualifications in English for speakers of other languages were taught in further education colleges in the last 12 months. [195658]

Bill Rammell: The information is not readily available and can be provided only at disproportionate cost.

Further Education: Elderly

Mr. Laurence Robertson: To ask the Secretary of State for Innovation, Universities and Skills what his policy is on the provision of recreational courses for older people in colleges of further education; what funds have been made available *(a)* nationally and *(b)* in Gloucestershire, for providing recreational courses for older people at colleges of further education in each of the last five years for which figures are available; and if he will make a statement. [196162]

Bill Rammell *[holding answer 25 March 2008]:* We recognise the many wider benefits of participation in learning and its vital contribution to personal health and wellbeing, community involvement and quality of life as people age. Learning helps older people to fulfil themselves as active citizens and as members of their families and communities. People who keep mentally and physically active not only live longer, but live happier and more fulfilled lives and pursuing informal adult learning can play a real part in this. We remain fully committed to ensuring that older learners in every area can benefit from a wide range of informal adult learning opportunities, including learning for its own sake, for personal fulfilment and to sustain an active role in the community, through further education colleges and other learning providers, including the Third Sector. We have also safeguarded funding for learning for personal and community development at £210 million through to 2010/11.

In Gloucestershire, Informal Audit Learning programmes for older people are managed by Gloucestershire county council using funding provided by the Learning and Skills Council (LSC). These programmes are funded from the safeguarded Personal and Community Development Learning (PCDL) budget. It is up to local LSCs and their partners to determine the most appropriate balance and mix of provision for their communities, including opportunities for older learners, in the light of local needs and circumstances and national priorities.

Gloucestershire county council contracts with a range of providers, including FE colleges, private providers and voluntary and community groups, to ensure that county-wide provision across the county meets the needs of older learners in a large rural county. The following table shows total funding and participation figures across all providers for learners aged 51 and over engaged in informal adult learning programmes in Gloucestershire for the three years 2004/05 to 2006/07 for which information is readily available, together with the respective national budgets.

	2004/05	2005/06	2006/07
Total number of learners	14,924	11,550	10,573
Number of older learners (51+)	7,163	5,811	4,913
Percentage of older learners	48	50	46
Expenditure on older learners 51+ (£)	1,262,400	1,278,200	1,083,700
National budget[1] (£ million)	[2]234	[2]232	[3]210

[1] PCDL was developed by restructuring Adult and Community Learning (ACL). The two are not directly comparable.
[2] Adult and Community Learning
[3] PCDL

Overall Government investment in the further education sector has increased by 52 per cent. in real terms between 1997 and 2007. Participate funding for adults will increase to around £3.6 billion in 2010-11, an increase of over 17 per cent. compared with 2007-08. We have continued to realign funding towards basic literacy and numeracy, full level 2 and full level 3 qualifications providing skills for employment and further progression in learning away from, for example, very short or low quality courses. This has enabled us to support significant increases in participation for young people and adults in these key programmes, providing them with the education and skills they need to fully participate in an economically successful and socially cohesive society.

We want to develop a new vision for informal adult learning for the 21st century. In January, my right hon. Friend the Secretary of State for Innovation, Universities and Skills, launched a wide ranging consultation, "Informal Adult Learning: Shaping the Way Ahead", which re-affirms our commitment to this kind of learning and its importance in meeting the basic human need for creativity and stimulation—as well as improving health and well-being in our communities. We want to look at the many different ways in which Government and other organisations support adult learners and to understand what learners from all parts of society actually want. We have been greatly encouraged by the tremendous response of our partners, stakeholders and learners in taking this important consultation forward. I would strongly encourage individuals and organisations, both in Gloucestershire and across the country, to take this opportunity to contribute their views and ideas.

Higher Education: Admissions

Jim Cousins: To ask the Secretary of State for Innovation, Universities and Skills how many university students *(a)* in England and *(b)* at each university in the North East region were (i) mature students, (ii) part-time students and (iii) part-time students aged over (A) 21 years and (B) 40 years in each academic year from 2001-02 to 2007-08. [191664]

Bill Rammell *[holding answer 6 March 2008]:* The latest available information is given in the following table. Figures for the 2007/08 academic year will be available in January 2009.

Number of higher education enrolments in English and North East higher education institutions, postgraduate and undergraduate students: academic years 2001/02 to 2006/07

	Of all enrolments				Of part-time	
		Mature[2]

Higher Education: Enfield

Joan Ryan: To ask the Secretary of State for Innovation, Universities and Skills how many people went into higher education from *(a)* Enfield and *(b)* Enfield North in each of the last 10 years. [190259]

Bill Rammell: The latest information is shown in the table. Comparable figures for the 2007/08 academic year will be available in January 2009.

Entrants to undergraduate courses at UK higher education institutions from Enfield local authority and Enfield, North parliamentary constituency: academic years 1997/98 to 2006/07

Academic year	Enfield	Enfield, North
1997/98[1]	2,385	635
1998/99	2,625	720
1999/2000	2,875	750
2000/01	2,990	850
2001/02	3,210	925
2002/03	3,435	1,010
2003/04	3,470	1,070
2004/05[2]	3,695	1,185
2005/06	3,780	1,200
2006/07	3,540	1,125

[1] Figures for 1997/98 exclude the Open University because there are no figures available for enfrants to undergraduate courses at the Open University by parliamentary constituency or local authority for this year.
[2] Figures for the Open University for 2004/05 have been included but there are known to undercount entrants to undergraduate courses at the Open University.
Note:
Figures are on a snapshot basis as at 1 December excluding those writing up, on sabbatical or dormant and are rounded to the nearest five.
Source:
Higher Education Statistics Agency (HESA).

Overall, for all students from England, the UCAS figures show that, compared to 2006, applicants who have been accepted for entry in 2007, rose by 6.1 per cent. to 307,000, the highest ever. Latest figures for students applying for entry in 2008, show that applicants from England are up by 7.1 per cent. compared to 2007.

Overseas Students

Ben Chapman: To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the contribution to the UK economy made by students from overseas at educational institutions in the last five years. [195101]

Bill Rammell *[holding answer 18 March, 2008]:* The Department has made no specific assessment of the contribution to the UK economy made by students from overseas at educational institutions. However, global value surveys commissioned by the British Council estimate the total value of international students to the UK economy as nearly £8.5 billion in

2003-04, compared with £7.5 billion in 2002-03 and £6.2 billion in 2001-02. Information on later years is not available.

Particle Accelerators

Dr. Blackman-Woods: To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the effects on university physics departments and the physics community of withdrawal from the International Linear Collider. [193278]

Ian Pearson: I am informed that the Science and Technology Facilities Council (STFC) expects that it will continue to provide support for generic accelerator R and D at a reduced level. The precise level will be determined once it has completed its current review of its programme priorities.

Qualifications: Prisoners

Mr. Frank Field: To ask the Secretary of State for Innovation, Universities and Skills how many prisoners gained an (*a*) academic and (*b*) vocational qualification in each year since 1992. [191211]

Bill Rammell: Data on qualifications are set out in the following annexes. Data are labelled as academic and vocational, but some data are a mix of the two.

The Department for Innovation, Universities and Skills and its predecessors has been responsible for policy on offender learning and skills since 2001, with responsibility prior to then resting with the Home Office. Since the creation of the Department for Innovation, Universities and Skills and the Department for Children, Schools and Families in 2007, responsibility has been split, with this Department taking the lead on offenders aged 18 and over.

In England the Learning and Skills Council has been responsible for planning and funding offender learning through the Offender Learning and Skills Service since August 2005. This was introduced through a phased transition starting in three regions. As the period covered by the question includes the transition to these new arrangements, data collection has been from a variety of sources and therefore taken some time. Further information about the changes to the delivery arrangements is set out in the Annex D.

Annex A

LSC OLASS data

Adult Skills for Life qualifications for the period August 2005 to July 2006: (Offender Learning and Skills Service Development Regions only: south-west, north-west and north-east):

Skills for Life (academic qualifications)

	Number
Entry level	1,975
Level 1	8,309
Level 2	1,018
Total	11,302

Adult achievements in 'All Remaining Provision' for the period August 2005 to July 2006: (development regions only):

All remaining provision (a mix of academic and vocational qualifications)

	Number
Entry and level 1	2,391
Level 2	3,791
Level 3	112
Other	6,703

Adult Skills for Life qualifications for the period August 2006 to July 2007

Skills for Life (academic qualifications)

	Number
Pre-entry level	161
Entry level 1	3,005
Entry level 2	4,376
Entry level 3	7,188
Level 1	17,512
Level 2	10,650
Total	42,892

Adult achievements in 'All Remaining Provision' for the period August 2006 to July 2007

All remaining provision (a mix of academic and vocational qualifications)

	Number
Below level 1	10,851
Level 1	55,048
Level 2	28,956
Above level 2	2,848
Other provision not covered in above	9,127
Total	106,830

Through OLASS, (GCSEs are now reported separately and the following have been recorded from 1 April 2007 to 30 September 2007

GCSE, AS/A-level achievements (academic qualifications)

	Maths	English	Other	Total
AS/A level	0	0	18	18
GCSE A*-C	18	29	107	154
GCSE below C	91	56	162	309
Total	109	85	487	681

Annex B

Data from Her Majesty's Prison Service

The Prison Service data on GCSEs and AS/A level achievements by offenders in custody since 1 April 2007 to 30 September 2007 reflects only the GCSEs delivered by the establishments and not those examinations taken by young people in custody, on transfer from schools. In this case the school which has registered the young person will record the qualification.

The Prison Service estate reported 118 GCSEs and one AS/A level achievements by offenders in custody since 1 April 2007 to 30 September 2007.

Prior to OLASS, Her Majesty's Prison Service annual reports and the Prison Service Information for Managers Online (PSIMOn) data collection system recorded the following number of achievements:

Basic skills (academic qualifications)

April to March	Entry level	Level 1	Level 2	Total
2000-01			12,764	12,764
2001-02			16,133	16,133
2002-03	9,179	16,989	15,145	41,313
2003-04	12,529	17,864	13,338	43,731
2004-05	20,372	23,816	14,759	58,947
2005-06	15,808	20,080	12,381	48,279
2006-07	5,355	6,724	4,233	16,312

The figures in 2005-06 are for public prisons only, excluding those who transferred to the LSC as part of the implementation of GLASS In August 2005 (north-east, north-west, south-west, Frankland and Manchester completions for these prisons are included April to July 2005).

The figures for 2006-07 are for all public prisons April to July 06, excluding those who transferred to the LSC as part of the OLASS pilot activity in August 2005. Thereafter, the totals include Welsh public prisons only due to the full transfer of responsibility to the LSC.

Work skills (vocational qualifications)

April to March	Total
2000-01	
2001-02	56,320
2002-03	89,201
2003-04	103,583
2004-05	162,966
2005-06	146,053
2006-07	48,198

The figures in 2005-06 are for public prisons only, excluding those who transferred to the LSC as part of the implementation of GLASS In August 2005 (north-east, north-west, south-west, Frankland and Manchester completions for these prisons are included April to July 2005).

The figures for 2006-07 are for all public prisons April to July 06, excluding those who transferred to the LSC as part of the OLASS pilot activity in August 2005. Thereafter, the totals include Welsh public prisons only due to the full transfer of responsibility to the LSC.

Contracted Prisons

Basic skills (academic qualifications)

April to March	Entry level	Level 1	Level 2	Total
2006-07	2,024	2,404	1,544	5,972

Basic skills (academic qualifications)

April to March	Entry level	Level 1	Level 2	Total
2005-06	1,895	2,123	1,553	5,571
2004-05	1,977	1,570	1,169	4,716
2003-04	971	1,047	895	2,913

Work skills (vocational qualifications)

April to March	Total
2006-07	16,572
2005-06	10,131
2004-05	7,674
2003-04	5,654

Annex C

Data from the Open University

Open University (OU) courses open to prisoners are agreed by the Offenders Learning and Skills Unit (OLSU) working in collaboration with the OU and the Prison Service. Where a prisoner does not have sufficient funds to meet their own learning costs, the OLSU will fund an openings course and/or a first course for a prisoner accepted onto a programme of study leading to an undergraduate qualification. OLSU delivers this funding though an administrative arrangement operated on its behalf by the Prisoners Education Trust. The OLSU also meets the additional tutorial costs the OU incurs in delivering local support to prisoners. This latter support, unlike course fee support, can continue into second and subsequent courses leading to a qualification at undergraduate level.

Latest data available from the Open University show the following awards to offenders in custody, in England only:

Open University

Award level	2000-01	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07
Certificate	15	31	34	73	116	134	121
Degree with honours	4	12	13	8	12	16	14
Degree without honours	1	2	4	2	12	11	7
Diploma	17	12	28	18	20	32	20
Masters	1	0	1	1	2	0	1
Grand total	38	57	80	102	164	193	163

Annex D

It may be helpful to provide some additional background to contextualise the information presented in annexes A to C.

Transfer of responsibility for planning and funding offender learning provision to the Learning and Skills Council (LSC) from HM Prison Service was carried out in two stages. The LSC took responsibility for delivery in three development regions from July 2005, with HM Prison Service retaining responsibility in the remaining regions. Having trialled the new delivery arrangement in those three regions, the new service was implemented across England as a whole on 31 July 2006.

The following illustrates the changes and their timing:

	Responsibility
2005-06	HMPS managed Development regions[1]
2006-07	Development regions LSC managed
2007-08	(OLASS)

[1] Development regions - north-east, north-west, south-west

Students: Finance

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills what the variable threshold bands are for EU graduates who move abroad and who owe money to the Student Loans Company. [191164]

Bill Rammell: We have put in place variable threshold bands to provide a fair system to enable graduates who move abroad to contribute to the costs of their education. The bands are dependent on where the borrower lives and take account of differences in living costs.

The following table shows what the thresholds are for 2008-09 in other European countries as well as some other common destinations after graduation. The thresholds are updated each year to take account of price changes. This table is reproduced in the annual 'Student Loans: A Guide to Terms and Conditions' booklet and full details can be found at:

http://www.slc.co.uk/thresholds/index.html

Band	*Price level index (UK=100)*	*Repayment threshold (UK=£15,000)*	*Countries using the latest available price level index figures*
A	Less than 30	3,000	Currently does not apply to any countries but may change depending on price changes compared to the UK
B	More then 30 but less than 50	6,000	Bulgaria, Macedonia, Romania, Lithuania, Latvia
C	More than 50 but less than 70	9,000	Poland, Slovakia, Turkey, Czech Republic, Estonia, Croatia, Hungary, Malta, Slovenia
D	More than 70 but less than 90	12,000	Portugal, Greece, Spain, Cyprus, USA
E	More than 90 but less than110	15,000	Italy, Belgium, Austria, Germany, Netherlands, France, Luxemburg, Finland, Sweden, Japan
F	More than 110 but less than 130	18,000	Ireland, Switzerland, Norway, Iceland
G	130 or more	21,000	Currently does not apply to any countries but may change depending on price changes compared to the UK

Students: Identity Cards

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills (1) whether Scottish-domiciled higher education students will have to be in possession of an identity card in order to access student loans or other state or Institution-determined support related to their studies at English higher education institutions in 2009-10 or in any subsequent years; [195301]

(2) whether Welsh-domiciled higher education students will have to be in possession of an identity card in order to access student loans or other state or Institution-determined support related to their studies at English higher education institutions in 2009-10 or in any subsequent years. [195303]

Bill Rammell: There are no plans to require students to have an ID card to apply for a student loan or any other form of student support.

Students: Loans

James Brokenshire: To ask the Secretary of State for Innovation, Universities and Skills what notification is required to be given to recipients of student loans on changes in the interest rates charged on such loans. [190343]

Bill Rammell: In accordance with the requirements of the Consumer Credit Act 1974 the Student Loans Company (SLC) publishes details of the forthcoming change in the interest rate payable for Mortgage Style (MS) Student Loans before the new rate takes effect on 1 September each year. There is no similar requirement for advance notification for Income Contingent Repayment (ICR) Student Loans which have exemption from arrangements governing consumer credit agreements.

However, the SLC publishes notices of the change of interest rates affecting all student loan borrowers in national newspapers before 1 September each year. The change is also published on the SLC's and Government websites.

Borrowers with MS loans are individually informed of the change by the SLC and private sector debt owners before 1 September. This is important as a change in interest rate for these borrowers changes the payments they are required to make. Borrowers with ICR loans receive notification of the change with their annual statements. For the majority these are issued between September and December.

While any change in the interest rate applied adds to the overall balance of the outstanding loan it does not alter the income-related repayments of these borrowers.

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills if he will make an estimate of the cost to the public purse of introducing thresholds and rates of student loan repayments of *(a)* 0 per cent. on incomes below £20,000, *(b)* 5 per cent. on incomes of £20,000 to £29,999, *(c)* 7.5 per cent. on incomes of £30,000 to £41,225 and *(d)* 12 per cent. on incomes over £41,225; and if he will make a statement. [196030]

Bill Rammell *[holding answer 20 March 2008]:* Introducing repayment thresholds of £20,000, £30,000 and £41,225 with corresponding repayment rates of 5 per cent. 7.5 per cent. and 12 per cent. would have an estimated one-off resource cost of £2 billion (for existing loans) and on ongoing resource cost of £700 million per year (for new loans).

The income threshold is one of the main features of the income contingent loan scheme. This protects borrowers when they need it as they only pay their loan back once they earn over the threshold. Borrowers currently repay nothing until they earn over £15,000. This strikes the right balance, making payments affordable to the individual and student loans affordable to the public purse. We are committed to maintaining the repayment threshold at £15,000 until 2010 when we will review it.

HOME DEPARTMENT

Airguns: Injuries

Chris Huhne: To ask the Secretary of State for the Home Department how many injuries caused by firearms in each of the last five years were caused by airguns or airsoft guns. [193955]

Jacqui Smith: Available information relates to offences in which Air weapons and BB guns/Soft air weapons caused injury by being fired or used as a blunt instrument in crimes recorded in England and Wales.

Air weapon injuries from 2002-03 up to and including 2006-07 are given in the following table. Separate BB guns/Soft air weapons data are not available centrally for 2002-03 and 2003-04. Data for these weapons are only given from 2004-05 to 2006-07.

Injuries due to Air weapons and BB guns/Soft air weapons in crimes recorded by the police, England and Wales 2002-03 to 2006-07

	Air weapons	*BB guns/Soft air weapons*
2002-03[1]	2,377	[2]
2003-04	2,395	[2]
2004-05[3]	1,498	1,844
2005-06	1,182	1,534
2006-07	1,054	1,013

[1] The National Crime Recording Standard was introduced on 1 April 2002 Figures for some crime categories may have been inflated by this.

[2] These data are not available centrally. BB guns/Soft air weapons were separately collected from 1 April 2004. Figures prior to this date were included within 'imitation firearms'.

[3] More explicit guidelines for the classification of weapons introduced on 1 April 2004 may have increased the recording of firearm offences, particularly those committed by imitation weapons.

Asylum

Robert Neill: To ask the Secretary of State for the Home Department whether guidance has been issued to safer neighbourhood police panels on the role of councillors on such panels. [192319]

Mr. McNulty: The Metropolitan Police Service has issued a guidance document titled 'Guidance on Setting Up and Maintaining Neighbourhood Panels' which also contains advice on the role of councillors on such panels.

Asylum: Repatriation

David Davis: To ask the Secretary of State for the Home Department how much has been spent on the voluntary assisted return and reintegration programme. [195546]

Jacqui Smith: The Voluntary Assisted Return and Reintegration Programme (VARRP) commenced in 2002 as a development from the Voluntary Assisted Return Programme (VARP). The total cost of VARRP to 31 July 2007 is £37,803,669.80.

VARRP is co-funded with the European Refugee Fund. These figures include both Home Office and ERF funding.

As the VARRP 2007 is currently ongoing, the overall cost of this programme is not yet available.

British Crime Survey

David Davis: To ask the Secretary of State for the Home Department whether there are plans to transfer responsibility for the British Crime Survey to the Office for National Statistics, as recommended by the Statistics Commission. [193578]

Jacqui Smith: There are currently no plans to transfer responsibility for the British Crime Survey to the Office for National Statistics.

The Statistics Commission recommendation was part of a package of proposals to increase public trust in Home Office crime statistics and address any perception that there was a lack of independence in their production. The same issues were considered by the independent Smith review which included cross-party nominees. The Smith review concluded the Home Office should retain responsibility for the survey but recommended some changes to the governance of crime statistics.

Since the recommendation by the Statistics Commission was made, more fundamental changes to the governance of official statistics are taking place. The Statistics and Registration Service Act 2007, which comes into effect on 1 April 2008, provides a new statutory framework to ensure the independence of National Statistics of which the British Crime Survey is a part.

To further strengthen these arrangements, on the same date within the Home Office, responsibility for the production of statistics from the British Crime Survey and other statistics will transfer to the Chief Statistician who has direct professional accountability to the National Statistician for the political independence of such statistics.

Bureaucracy

Mr. Ruffley: To ask the Secretary of State for the Home Department who the winners of the Reducing Bureaucracy Awards Scheme were in each month since its inception. [176056]

Mr. McNulty: The Reducing Bureaucracy Awards Scheme was launched in 2003. The awards were held annually and were presented at the Police Federation annual conference. The winners and runners-up for each year are listed as follows:

2004

1st Inspector John Clucas, Lancashire Constabulary

2nd DC Andrew Tomlinson, Metropolitan Police Service, and Sgt Ian Robertson, Metropolitan Police Service, (joint 2nd prize)

3rd DS John McKee, Thames Valley Police.

2005

1st Chief Inspector Steve Radcliffe, Gloucestershire Constabulary

2nd Inspector John Clucas, Lancashire Constabulary

3rd David Kerr, Greater Manchester Police.

2006

1st Michael Lombardelli, Metropolitan Police Service

2nd Inspector John Clucas, Lancashire Constabulary

3rd Mark Crampton, Hertfordshire Constabulary

Special Award: Dorset Police.

Departmental Accountancy

Chris Huhne: To ask the Secretary of State for the Home Department pursuant to her answer of 18 March 2008, *Official Report*, column 930W, on accountancy, how many distinct budget lines relating to her Department's expenditure and forecasts were reported to the Treasury in each month of 2007-08. [196890]

Jacqui Smith *[holding answer 26 March 2008]*: The following table provides the number of data lines the Home Office uploaded on to HM Treasury's Combined On-line Information System (COINS), per month, for financial year 2007-08.

The change in the number of data lines from June to July is a result of a machinery of government change, the transfer of the National Offender Management Service and the Office of Criminal Justice Reform from the Home Office to the Ministry of Justice.

The data on COINS is the source of the numbers found in the tables that are published in both the departmental report and the supply estimates.

	Number
April	591
May	600
June	610
July	370
August	372
September	385
October	385
November	385
December	385
January	385

Departmental Advertising

Mr. Hoban: To ask the Secretary of State for the Home Department which of her Department's initiatives have been advertised to the public in each of the last 10 years; and what the cost of each such campaign was. [192231]

Mr. Byrne: The following table outlines Home Office advertising spend over the last five years, broken down by year and by policy area.

	Campaign	Total media (£)
2002-03	Child Protection on the Internet	705,194
	Drug Misuse	19,878
	Firearms Amnesty	506,283
	Police Recruitment	4,222,741
	Tackling Drug Abuse	38,014
	Vehicle Crime Reduction	4,362,887
2003-04	Child Protection on the Internet	736,878
	Domestic Violence	805,140
	Drugs (Including FRANK campaign)	2,184,499
	Police Recruitment	400,608
	Vehicle Crime Reduction	4,296,931
	Youth Offenders On Line	38,014
2004-05	Acquisitive Crime Reduction	6,100,808
	Antisocial Behaviour	366,553
	Child Protection on the Internet	290,225
	Clean Up Campaign 2005-06	25,722
	Domestic Violence	432,263
	Drugs (Including FRANK campaign)	2,049,593
	Gun Crime	162,042
	Police Specials Recruitment	1,885,559
2005-06	Acquisitive Crime Reduction	4,123,311
	Alcohol Misuse Enforcement Campaign	92,204
	Antisocial Behaviour	396,475
	Child Protection on the Internet	862,229
	Clean Up Campaign	39,819
	Crime Stoppers	82,182
	Domestic Violence	534,587
	Drugs (Including FRANK campaign)	1,524,701
	Park Mark Car Parks	94,260
	Police Specials Recruitment	1,389,166
	Rape	66,153
2006-07	Acquisitive Crime Reduction	3,266,192
	Alcohol Binge drinking	1,975,005
	Alcohol Misuse Enforcement Campaign	231,713
	Child Protection on the Internet	46,824
	Domestic Violence	800,384
	Drugs (Including FRANK campaign)	3,467,021
	Immigration	790,860
	Knife Amnesty	137,083
	PCSO Recruitment	1,748,743
	Rape	280,022
	Single Non-Emergency Number	780,325
	Stop and Search	134,501

Departmental Consultants

Mr. Hancock: To ask the Secretary of State for the Home Department how many (*a*) consultants and (*b*) agency staff were employed by her Department at the end of (i) 2004-05, (ii) 2005-06 and (iii) 2006-07 financial year. [192504]

Mr. Byrne: The Department does not hold a central record of the number of (*a*) consultants and (*b*) agency staff deployed, and to assemble the requested details from individual contract records would incur disproportionate cost.

Mr. Hancock: To ask the Secretary of State for the Home Department how much her Department spent on (*a*) consultants and (*b*) agency staff in the financial years (i) 2004-05, (ii) 2005-06 and (iii) 2006-07. [192620]

Mr. Byrne: The Home Department engages consultancy firms to support and augment civil servants in the delivery of a specific range of work, including large IT development programmes and, where more cost effective, longer term service delivery programmes.

The Department's expenditure on these services is allocated across a wide range of firms, from small, specialist companies with niche expertise and few employees, to global multinational organizations offering a broad spectrum and substantial depth of consultancy expertise.

The Department awards contracts in competition according to the EU Procurement Directives based on value for money. The Department uses OGC framework agreements where appropriate. The use of external consultants provides the Department with

specialist knowledge, skill, capacity and technical expertise that would not otherwise be available. Some expenditure is on consultants to whom we have outsourced services, such as IT.

Expenditure on *(a)* consultants in the financial years (i) 2004-05, (ii) 2005-06 and (iii) 2006-07 is as follows:

£

Financial year	HO headquarters	IPS	CRB	Total spend
2004-05	55,991,869	4,486,183	729,000	61,207,052
2005-06	128,000,000	10,912,741	50,462	138,963,203
2006-07	118,080,000	29,870,522	144,235	148,014,757

The Home Department uses a variety of externally resourced staff to fill roles in the Department that cannot readily be filled by permanent staff. The figures given are drawn from our financial reporting systems and represent various categories of agency and other externally resourced staff, but exclude consultancy services.

Expenditure on *(b)* agency staff in the financial years (i) 2004-05, (ii) 2005-06 and (iii) 2006-07 is as follows:

£

Financial year	HO headquarters	IPS	CRB	Total spend
2004-05	37,000,000	5,626,207	703,756	43,329,963
2005-06	38,000,000	7,746,589	354,756	46,101,345
2006-07	40,000,000	26,612,732	301,998	66,914,730

Departmental Information Officers

Mr. Jeremy Browne: To ask the Secretary of State for the Home Department how many *(a)* press and *(b)* communications officers her Department employed in each of the last 10 years. [182518]

Mr. Byrne: Press and Communications Officers in the Home Office are employed at the Information and Senior Information Officer grades. The following table provides information on the numbers of staff employed or managed by the Communication Directorate during the past 10 years. Data on staff numbers in earlier years and the rest of the department are not held centrally and could be collected only at disproportionate cost.

	Press Officers	Communication Officers	Total
1999	13	12	25
2000	16	15	31
2001[1]	31	19	50
2002	35	24	59
2003	39	18	57
2004	43	27	70
2005	38	20	58
2006[2]	34	23	57
2007	35	21	54
2008[3]	32	23	56

[1] Prison Service and Core Home Office Press Office merged.
[2] The total number of Press officers for 2006 onwards includes two part timers, who are employed as a job share.
[3] Machinery of Government changes May 2007, 11 Press Officer posts transferred to the Ministry of Justice. The total also includes 5 Borders and Immigration Agency Regional Press Officers, whose posts were created in 2007.

Departmental Official Cars

Mr. Kemp: To ask the Secretary of State for the Home Department what make and model of car *(a)* she and *(b)* each Minister in her Department selected as their official ministerial car; and what criteria were applied when making the decision in each case. [192380]

Mr. Byrne: I refer my hon. Friend to the reply my hon. Friend the Parliamentary Under-Secretary of State for Transport my hon. Friend the Member for Poplar and Canning Town (Jim Fitzpatrick) gave to him on 10 March 2008, *Official Report*, column 8W.

Departmental Parliamentary Questions

Mr. Harper: To ask the Secretary of State for the Home Department how many staff work in her Department's parliamentary branch; and what proportion of their time is spent on dealing with *(a)* Parliamentary Questions and *(b)* correspondence from hon. Members and Peers. [174965]

Mr. McNulty: There are seven staff in the Parliamentary Team, three of whom deal exclusively with parliamentary questions, two other post holders deal with parliamentary questions as part of their duties equating to approximately one post. Staff in the Parliamentary Team do not deal with Members or Peers correspondence.

Departmental Written Questions

Dr. Julian Lewis: To ask the Secretary of State for the Home Department whether it is her Department's practice to attach to Written Answers hard copies of earlier replies cited in such Answers where these were previously given to hon. Members other than the hon. Member to whom the Answer is addressed. [167791]

Mr. McNulty *[holding answer 26 November 2007]:* It is now the practice of the Department to provide hon. Members with hard copies of earlier replies referred to in answers where that reply was sent to another Member.

Deportation: Zimbabwe

Tony Baldry: To ask the Secretary of State for the Home Department (1) how many Zimbabwean nationals in detention pending deportation were detained because they were found to be working illegally; [196538]

(2) how many Zimbabwean nationals were in detention centres pending deportation at the most recent date for which figures are available. [196539]

Mr. Byrne: National statistics on persons detained solely under Immigration Act powers as at the last Saturday of each quarter are available from the Library of the House and the Home Office's Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html

The decision to detain is made on a case by case basis and may be appropriate in one or more of the follow circumstances: to effect removal; to establish a person's identity and claim; where a person presents a risk of abscond or where the application is capable of being considered quickly.

Information specifically on the number of those who are detained for the purpose of removal from the UK is not centrally collated and could be obtained through examination of individual records only at disproportionate cost.

Tony Baldry: To ask the Secretary of State for the Home Department when she expects to be able to deport Zimbabwean nationals in detention centres pending deportation. [196537]

Mr. Byrne: On 29 November 2007 the Asylum and Immigration Tribunal (AIT) promulgated the determination that Zimbabweans who have claimed asylum in the United Kingdom (UK) and who return to Zimbabwe, voluntarily or otherwise, are not at risk of mistreatment just because they have claimed asylum in the UK or otherwise been in the UK for an extended period. The Border and Immigration Agency will continue to defer enforced returns until the application for permission to appeal the AIT's determination is disposed of.

Domestic Violence: Ethnic Groups

Mr. Oaten: To ask the Secretary of State for the Home Department when she plans to publish the step-by-step guide for women in black and minority ethnic communities who are victims of domestic violence. [196765]

Mr. Coaker *[holding answer 25 March 2008]:* The step-by-step guide for women in black and minority ethnic (BME) communities who are victims of domestic violence, which will provide practical advice on steps which victims can take to protect themselves and their children, will be published in spring this year and made accessible to local agencies and community groups.

We recognise that more work needs to be done, and are currently developing a national BME Working Group of Government, statutory agencies and the third sector which will promote a partnership approach to issues such as domestic and sexual violence, forced marriage, so called 'honour' crimes and female genital mutilation. The group will identify and develop actions and practical tools to assist victims and potential victims.

Drinking Water

Mr. Spellar: To ask the Secretary of State for the Home Department how much her Department spent on bottled water in the latest year for which figures are available. [189807]

Mr. Byrne: There are no central records of spend on bottled water held by the Home Department. However our facilities supplier estimates that the cost of bottled water included in official hospitality supplied by them at the Home Office HQ in 2 Marsham Street was £16,125 during 2006-07.

Genetics: Databases

David Davis: To ask the Secretary of State for the Home Department whether people who voluntarily present themselves at police stations routinely have their details added to the national DNA database. [192073]

Jacqui Smith *[holding answer 6 March 2008]:* The police may, as part of their investigation of a crime, ask a participant in an intelligence-led screen, a victim, a witness, or some other person who has had legitimate access to a crime scene, to give a DNA sample voluntarily so that their DNA profile can be eliminated from those profiles found at the crime scene. Whether a person presenting themselves voluntarily at a police station is asked for a volunteer DNA sample will depend on the circumstances of the case.

Identity Cards

David Davis: To ask the Secretary of State for the Home Department what assessment she has made of the findings of the Crosby Review of identity assurance in respect of the Government's identity card proposals; and what further consideration she has given to the Government's policy on identity cards in the light of the Review. [193699]

Jacqui Smith *[holding answer 13 March 2008]:* On 6 March I published the National Identity Scheme Delivery Plan 2008. This reflects the priorities I have set out – national security, public protection; convenience for the individual and cost-effectiveness.

In developing this plan the Government have benefited greatly from Sir James Crosby's review.

Sir James Crosby strongly supports a universal identity scheme, including a role for identity cards, and makes a strong case for speedy and consumer-led introduction. He also argues that wherever possible the Government should use the market to deliver aspects of the scheme and this is reflected in our delivery plan.

Government will need to retain control of the overall quality and security of the scheme, as well as the ultimate decision on whether or not to issue an official identity document to any given individual.

But the private sector will be better placed to provide services relating to enrolment, such as fingerprint biometrics and digitized photographs, and the distribution of completed identity documents.

David Davis: To ask the Secretary of State for the Home Department with reference to Table 4 in the Identity Cards Scheme Cost report published in November 2007, (1) if she will provide a break down, by main budget heading of the costs which make up the £2,964 million in spending common to passports and ID cards; [182358]

(2) if she will provide a breakdown by main budget heading of the costs which make up the £1,005 million in spending specific to identity cards; [182366]

(3) if she will provide a breakdown by main budget headings of the costs which make up the £1,461 million in spending specific to passports. [182368]

Jacqui Smith: Providing a further breakdown of common, passport specific and identity card specific cost estimates set out in the Cost Report is commercially sensitive information.

The Identity and Passport Service is currently engaging in discussions with suppliers for the procurement of services required to operate the National Identity Scheme.

Many of these services are aligned to the same level of cost information that would need to be provided to answer these questions.

Illegal Immigrants: Compensation

David Davis: To ask the Secretary of State for the Home Department how many claims for compensation were made by illegal immigrants held in immigration removal centres in England and Wales in each year between 2000 and 2007; and how much compensation was paid. [195545]

Jacqui Smith: The information requested is not collected centrally and could be obtained through examination of individual records only at disproportionate cost.

Immigration

Damian Green: To ask the Secretary of State for the Home Department how many asylum seekers were recorded as having made a claim for asylum to a police constable in each of the last five years, broken down by police area. [196675]

Mr. Byrne: The information requested is not collated centrally and could be obtained only at disproportionate cost.

Mr. Hollobone: To ask the Secretary of State for the Home Department what her latest estimate is of the number of failed asylum seekers who are resident in the UK. [196698]

Mr. Byrne: No Government have ever been able to produce an accurate figure for the number of people who are in the country illegally and this includes failed asylum seekers. By its very nature it is impossible to quantify accurately and that remains the case.

Exit controls were phased out from 1994. As part of the Government's 10-point plan for delivery, by Christmas 2008 the majority of foreign nationals will be counted in and out of the country. This will build on the successes of our early testing of the e-Borders programme (Project Semaphore) which already covers over 30 million passenger movements and has led to 18,000 alerts and more than 1,500 arrests.

This is part of a sweeping programme of border protection which also includes the global roll-out of fingerprint visas, compulsory watch-list checks for all travellers from high-risk countries before they land in Britain and ID cards for foreign nationals.

Immigration Controls: Working Holidays

Damian Green: To ask the Secretary of State for the Home Department what estimate she has made of the number of people holding working holiday visas who wish to continue their current employment under the proposed points-based system. [196676]

Mr. Byrne: Details on the number of working holiday makers granted leave to enter the UK are published annually within the Control of Immigration statistics. No record is kept of the employment of WHM during their stay nor their future employment intentions. Copies of the Immigration statistics are in the Library of both houses and can also be found at:

www.official-documents.gov.uk/document/cm71/7197/7197.pdf

Any person wishing to transfer from the Working Holiday Scheme into the Points Based System will be expected to return home to make their application.

Immigration: Biometrics

David Davis: To ask the Secretary of State for the Home Department (1) when foreign nationals issued with biometric immigration documents will have their details entered on to the National Identity Register; [182354]

(2) whether foreign nationals already in possession of a biometric visa will be required to apply for an identity card. [182367]

Jacqui Smith: The Border and Immigration Agency will begin issuing identity cards in the form of biometric immigration documents to foreign nationals subject to immigration control later this year and this could include foreign nationals who already have had fingerprints recorded for the issue of a visa.

Foreign nationals details will not be recorded on the National Identity Register until biometric immigration documents are designated under the ID Cards Act 2006. This will take place when the National Identity Register is established.

Immigration: Children

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department what estimate she has made of the number of children under 16 years of age who have been brought to the UK by parents on a visitor's visa from *(a)* Pakistan and *(b)* elsewhere and left with relatives settled in the UK while the parents returned home since 1978; and if she will make a statement. [196225]

Mr. Byrne: This information is not available.

Immigration: Gurkhas

Damian Green: To ask the Secretary of State for the Home Department whether Ministers in her Department have had meetings with *(a)* Gurkha and *(b)* other ex-servicemen's organisations on the immigration status of Gurkhas and their right to apply for British citizenship. [197020]

Mr. Byrne: There have been no recent meetings between Home Office Ministers and Gurkha and other ex-servicemen's organisations on the immigration status of Gurkhas and their right to apply for British citizenship.

Damian Green: To ask the Secretary of State for the Home Department (1) how many Gurkhas who served in the Brigade of Gurkhas before 1997 have been granted UK *(a)* residency and *(b)* citizenship; [197021]

(2) how many Gurkhas who retired from the Brigade of Gurkhas since 1997 have been granted UK *(a)* residency and *(b)* citizenship; and what percentage of eligible persons this represents. [197022]

Mr. Byrne: I refer the hon. Member to my right hon. Friend's reply of 18 March 2008, *Official Report*, columns 935-36W.

Immigration: Housing

Mr. Clappison: To ask the Secretary of State for the Home Department pursuant to the answer of 17 March 2008, *Official Report*, column 806W, on immigration: housing, how many individual agreements have been reached with local authorities; what the cost of such agreements has been; how many schemes to prevent homelessness have been included in the reimbursement package; what the cost of such schemes has been; how many units of social housing have been occupied by households moving from asylum support as a result of the legacy exercise, broken down by housing sector; and what estimate she has made of the cost to the public purse of the measures outlined in the answer. [196267]

Mr. Byrne *[holding answer 25 March 2008]*: In recent months the Border and Immigration Agency has worked with the Local Government Association, Council of Scottish Local Authorities and Welsh Local Government Association, as well as individually with relevant local authorities to agree an approach to the family cases we have recently prioritised who have been allowed to remain in the UK.

The agreements themselves do not hold a particular cost. A 'transitional costs fund' has been made available where unavoidable, additional expenses have occurred. Local authorities need to submit claims to this fund. Claims will then be assessed on an individual basis and local authorities will be reimbursed appropriately. As yet, this work is not complete.

Ipsos MORI

Mr. Pickles: To ask the Secretary of State for the Home Department what payments *(a)* her Department and *(b)* its agencies have made to Ipsos MORI in the last 24 months; and for what purposes. [193962]

Mr. Byrne: Information on the Home Department and its agencies payments to Ipsos Mori in the last 24 months is as follows:

Department/Agency	*Total payment in last 24 months (£)*
Home Department	1,453,199
Identity and Passport Service (IPS)	13,659
Criminal Records Bureau (CRB)	110,000

Ipsos MORI has provided a wide variety of services to the Home Department in the last 24 months. They include Quarterly Opinion Polling on Crime and Immigration, Telephone Survey, facilitation of Young Witness Workshop, Local Victim and Witness Satisfaction Survey, Survey with Focus Group on Home Office Priorities, Arrestee Survey Review, EEA Nationals Survey and Multivariate Analysis of British Crime Survey (BCS) dataset.

The Identity and Passport Service (IPS) used Ipsos MORI for the 2006 staff survey and subsequent report.

Criminal Records Bureau (CRB) used Ipsos MORI for both staff surveys and customer surveys.

Last Resort Fund

Mr. Oaten: To ask the Secretary of State for the Home Department what funding was allocated to the Last Resort Fund to assist women who have experienced domestic violence in 2007-08; and how much is to be allocated in 2008-09. [196724]

Mr. Coaker *[holding answer 25 March 2008]*: As a short-term remedy for victims of domestic violence who have no recourse to public funds, the Government made special provision over 2004-05 and 2005-06, with grants of £145,000 to Women's Aid to bolster their 'Last Resort Fund'.

However, the Government want to see sustainable local solutions for those in need and, in February 2006, circulated a letter to local authorities alerting them to the key issues experienced by these women and how they can be helped.

Soon we will be announcing details of a new scheme where victims of domestic violence who have no recourse to public funds may be able to have their housing and living costs met. This will be linked to indefinite leave to remain criteria.

Local Government Services: South West

Mr. Liddell-Grainger: To ask the Secretary of State for the Home Department (1) what the terms of the agreement between Southwest One and Avon and Somerset police are; and if she will make a statement. [194157]

(2) what discussions she has had with the Secretary of State for Communities and Local Government on the outsourcing of local services in the South West to a joint venture partnership; and if she will make a statement. [194158]

Mr. McNulty: There has been no discussion between my right hon. Friends, the Home Secretary and the Secretary of State for Communities and Local Government on the outsourcing of local services in the south west. The terms of any agreement between Avon and Somerset police authority and Southwest One are a matter for the authority.

It is important that police forces and authorities identify and implement ways to increase value for money. To assist them in this, we have recently agreed with the Association of Police Authorities and the Association of Chief Police Officers a new efficiency and productivity strategy for the police service. In pursuit of this strategy it is appropriate for forces and authorities to seek ways to improve the delivery of corporate service functions. This may include implementing internal improvements, exploring outsourcing, or collaborating with other forces and authorities, or with other organisations.

Migrant Workers: EC Enlargement

Damian Green: To ask the Secretary of State for the Home Department (1) what estimate she has made of the number of self-employed workers from *(a)* Romania and *(b)* Bulgaria who arrived in Britain in 2007; [191194]

(2) how many seasonal agricultural workers' cards were issued to workers from (a) Romania and (b) Bulgaria in 2007; [191195]

(3) how many workers from (a) Romania and (b) Bulgaria were issued with a registration certificate in 2007. [191196]

Mr. Byrne: The Government publish quarterly figures on applications under the Accession (Immigration and Worker Authorisation) Regulations 2006 from Bulgarian and Romanian nationals. The publications provide a breakdown of the various schemes operating under the regulations.

The most recent publications, relating to the last quarter of 2007, were published on 26 February 2008. Each of the quarterly reports from 2007 are available on the Border and Immigration website:

http://www.bia.homeoffice.gov.uk/aboutus/reports/

Copies are available in the House Library.

Drinking Water

Mr. Peter Ainsworth: To ask the Secretary of State for the Home Department how many litres of bottled water were purchased by her Department in each of the last three years; and if she will make a statement. [191257]

Mr. Byrne: There are no central records of what volumes of bottled water are purchased by the Home Department. However our 2 Marsham Street HQ building purchased 7,500 litres during the 2006-07 financial year.

Offensive Weapons

James Brokenshire: To ask the Secretary of State for the Home Department how many (a) warnings, (b) cautions and (c) charges have been brought against persons for possession of knives in each of the last 10 years. [194275]

Mr. Coaker: The number of persons given a final warning, caution, or 'proceeded against' at magistrates courts for offences involving the possession of knives in England and Wales for the years 1997 to 2006 is shown in the following table. Court proceedings data for 2007 will not be available until the autumn of 2008. Charging data is not held centrally, so information on the number of individuals proceeded against has been provided in lieu of charging data.

Number of persons given a final warning, caution, and proceeded against at magistrates courts for offences involving the possession of knives in England and Wales for the years 1997 to 2006[1,2,3]

	Final warning	Caution	Proceeded against
1997[4]	n/a	1,629	4,888
1998[4]	n/a	1,976	4,566
1999	28	1,618	4,566
2000[5]	375	1,222	4,625
2001	519	883	5,823
2002	453	1,131	6,963
2003	433	1,070	6,928
2004	578	1,441	7,352
2005	736	2,094	7,319
2006	777	2,300	7,699

n/a = not applicable

[1] These data are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, other agencies, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] Data include the following statutes and corresponding offence descriptions: Criminal Justice Act 1988 s139(1) and (6): Have blade/article which was sharply pointed in public place. Criminal Justice Act 1988 s.139A(1): Having an article with a blade or point on school premises.

[4] The scheme of reprimands and warnings under the Crime and Disorder Act 1998 was piloted for 18 months from 30 September 1998 in a few selected areas. The scheme was rolled out nationally and replaced police cautions for juveniles from June 2000. Data for juvenile reprimands and final warnings are included in the 'total cautioned' figures presented in the table.

[5] Staffordshire police force were able to submit sample data only for persons proceeded against and convicted in the magistrates courts for the year 2000. These data are therefore excluded from the table.

Court proceedings data held by RDS Office for Criminal Justice Reform, Ministry of Justice. Our ref: IOS 165-08 (Table) [Contribution for PQ 194275]

Police

Mr. Ruffley: To ask the Secretary of State for the Home Department what definition is used of (a) operational and (b) policy issues in relation to the police service and its accountability to local communities, with reference to Sir Ron Flanagan's review of policing. [174225]

Mr. McNulty: Day to day operational policing issues in forces are the responsibility of each Chief Constable, who is in turn responsible to that force's police authority for their conduct. The Association of Chief Police Officers (ACPO), which represents Chief Officers, has defined best practice in areas such as recruitment practices and the conduct of certain kinds of operations. Policy on policing more generally is decided by the tripartite—the Home Secretary, Chief Officers and Police Authorities—in consultation. The final report of Sir Ronnie Flanagan's independent Review of Policing in England and Wales reinforced the importance of this distinction.

Police: Complaints

Mr. Ruffley: To ask the Secretary of State for the Home Department what proportion of complaints against the police were (a) upheld, (b) dismissed and (c) dropped by the complainant in each year since 1997. [195699]

Mr. McNulty: The responsibility for the collation and publication of complaints against the police rests with the Independent Police Complaints Commission.

Police: Crime Prevention

James Brokenshire: To ask the Secretary of State for the Home Department which (a) police forces and (b) other agencies will receive the portable knife arches and search wands referred to in her Department's Action Plan for Tackling Violence 2008-11. [194276]

Mr. Coaker: Search arches and wands are currently being supplied to the police in the Tackling Gangs Action Programme areas (London, Manchester, Birmingham and Liverpool) to supplement existing provision. We have committed to provide further search equipment to police and delivery partners across England and Wales over the next three years and arrangements for this are currently being finalised.

Police: Discipline

Mr. Ruffley: To ask the Secretary of State for the Home Department what progress she has made in implementing the Taylor review on police force discipline; and if she will make a statement. [195686]

Mr. McNulty: Much progress has been made and the new arrangements were recently approved by the Police Advisory Board for England and Wales. The new arrangements are designed to modernise the procedures for dealing with issues of misconduct and unsatisfactory performance in a proportionate and timely manner. The procedures are based on the ACAS principles for good employment practice. Provisions to enable the introduction of the new misconduct and unsatisfactory performance arrangements for all police officers in England and Wales are included in the Criminal Justice and Immigration Bill currently before Parliament. Once the Bill receives Royal Assent, the new Police (Conduct) Regulations 2008 and Police (Performance) Regulations 2008 that set out the detailed arrangements will be laid before Parliament to enable implementation of the new arrangements. Work is at an advanced stage with the National Police Improvement Agency to provide training to support the new arrangements.

Police: Pensions

Mr. Ruffley: To ask the Secretary of State for the Home Department what recent discussions she has had on the reform of police pensions; and if she will make a statement. [195688]

Mr. McNulty: Police pensions policy is kept under regular review and has only recently been subject to major changes. We have introduced the New Police Pension Scheme which applies to new entrants joining on or after 6 April 2006. We have also reformed the way police pensions are financed by introducing on 1 April 2006 a system based on employer contributions which takes away from police authorities the financial burden of meeting the cost of pensions in payment. There have been no specific discussions regarding reform beyond these developments.

Police: Vacancies

Mr. Ruffley: To ask the Secretary of State for the Home Department how many police officer vacancies of all ranks there were within *(a)* the Metropolitan Police Force and *(b)* other constabularies in each year since 1997. [195618]

Mr. McNulty: This information has not been collected since 1995 following the introduction of the Police and Magistrates Courts Act 1994 which abolished Home Office authorised establishments. It is a matter for the police authority and Chief Officer of Police to determine the number of police officers that each force has.

Racial Hatred: Internet

David Davis: To ask the Secretary of State for the Home Department how many prosecutions have been brought under section 21 of the Public Order Act 1986 for using the internet to distribute or play threatening, abusive or insulting images for the purposes of inciting racial hatred in each of the last five years. [195544]

Jacqui Smith: The Government take the view that the courts should prosecute the offence, and not the medium through which it is committed. Therefore no separate statistics are kept for offences committed over the internet. Since the Public Order Act 1986 was introduced, there have been a total of 86 prosecutions under the offence of racial hatred, resulting in 60 convictions.

Rape: Prosecutions

James Brokenshire: To ask the Secretary of State for the Home Department what mechanisms the Rape Performance Group will use to monitor local performance in relation to rape prosecutions. [194278]

Mr. Coaker: The Rape Performance Group uses a range of indicators spanning the criminal justice process. These are:

The rate of recorded rape offences per 1,000 of the population (a low rate of offences per 1,000 in a force may indicate a low level of reporting);

The proportion of offences that are categorised as 'no crime';

The proportion of recorded offences that result in a sanction detection;

The proportion of charged cases that are subsequently discontinued by the CPS; and

The proportion of cases going to trial that result in a conviction.

Its focus is on the system as a whole, with an assumption of shared police and CPS responsibility for the delivery of outcomes. Where the data suggests that the performance of a particular area differs significantly from the national and peer-group averages, the Rape Performance Group will raise this with the relevant chief constable and chief Crown prosecutor to seek further information on the approach to the investigation and prosecution of rape in that area and to offer support, where appropriate, in addressing any performance issues. These performance monitoring arrangements are complemented by the support functions of the joint ACPO/Home Office operational support team and CPS Rape Prosecutions Delivery Unit.

Serious Crime Prevention Orders

David Davis: To ask the Secretary of State for the Home Department when she plans to bring serious crime prevention orders into effect. [196839]

Jacqui Smith: The Serious Crime Act 2007 (Commencement No. 2 and Transitional and Transitory Provisions and Savings) Order 2008, which was made

on 17 March, will bring the serious crime prevention order provisions of the Act into force on 6 April 2008.

Sexual Offences

Chris Huhne: To ask the Secretary of State for the Home Department how many registered sex offenders there were in each police authority area in each year since 2004; and how many offenders were *(a)* cautioned and *(b)* charged for failing to comply with the notification requirements of the Sexual Offenders Act 2003 in that period. [195016]

Mr. Coaker: Table 1 gives the number of registered sex offenders in each police authority area for every year since 2003-04.

The Government do not routinely collect data on the number of sex offenders cautioned for failing to comply with their notification requirements. However, the Government do collect data on the number of sex offenders who were:

charged with a serious further offence;

found in breach of their licence conditions; and

found in breach of a Sexual Offence Prevention Order.

Tables 2 to 4 give these figures (in relation to sexual offenders managed at MAPPA levels 2 and 3) for each of the aforementioned categories, by area, for every year since 2003-04.

Table 1: Registered sex offenders by area

Area	2003-04	2004-05	2005-06	2006-07

Chris Huhne: To ask the Secretary of State for the Home Department how many registered sex offenders in each police authority area *(a)* failed to comply with the notification requirements of the Sexual Offences Act 2003 and *(b)* were found not to be residing at their registered address in each year since 2004. [195019]

Jacqui Smith: Data on the number of offenders convicted of a failure to comply with the notification requirements is not collated by police force area. Data on the number of offenders not residing at their permanent address is not collated centrally.

Figures by area for breaches of licence requirements, sexual offence prevention orders (SOPOs) and for those charged with a serious further offence (SFO) are provided in the following tables in relation to sexual offenders managed at MAPPA levels 2 and 3.

Statistics

Keith Vaz: To ask the Secretary of State for the Home Department what proportion of written answers by her Department were later found to contain erroneous statistics in the latest period for which figures are available. [163171]

Mr. McNulty: Records from the start of the current Parliamentary Session show that three parliamentary questions answered by the Department contained erroneous errors in respect of statistics which have since been corrected in the *Official Report*. This represents 0.1 per cent. of the 2,892 parliamentary questions tabled to the Department as of 17 March 2008.

Written Questions: Government Responses

Jenny Willott: To ask the Secretary of State for the Home Department when she will answer question 182622 on the national DNA database, tabled on 24 January 2008 by the hon. Member for Cardiff, Central, and if she will make a statement. [192955]

Meg Hillier: The question was answered on 26 March 2008, *Official Report*, column 273W.

TREASURY

Alcoholic Drinks: Prices

Justine Greening: To ask the Chancellor of the Exchequer what assessment he has made of the demand elasticity with respect to the price of (*a*) wine, (*b*) spirits, (*c*) strong beer, lager and cider, (*d*) normal strength beer, lager and cider, (*e*) fortified wine and (*f*) alcopops as defined by the Office for National Statistics; and if he will make a statement. [197608]

Angela Eagle: Demand elasticities with respect to the price of alcoholic beverages are based on research published in a Government Economic Service (GES) Working Paper (no. 140) in May 2003, available at:

http://www.customs.hmrc.gov.uk/channelsPortalWebApp/downloadFile?contentID=HMCE_PROD_008459

Bank of England: Banking Supervision

Mr. Soames: To ask the Chancellor of the Exchequer if he will re-instate to the Bank of England responsibility for banking supervision. [196518]

Angela Eagle *[holding answer 25 March 2008]*: The Financial Services and Markets Act 2000 established the Financial Services Authority as the UK's sole financial regulator and supervisor. The Act introduced a risk-based regulatory regime based on statutory independence, transparency, proportionality and rigorous assessment of cost and benefits, replacing the fragmented, overlapping and burdensome self-regulatory system that *had previously governed the financial services sector*.

The Tripartite authorities are, in the light of recent instability in financial markets, consulting on reforms to banking supervision and depositor protection. However, the Government and other authorities remain firmly committed to the existing regulatory framework.

Bowel Cancer: Death

Mr. Bone: To ask the Chancellor of the Exchequer what the survival rate for persons diagnosed with bowel cancer is; and what information he holds on survival rates in (*a*) Organisation for Economic Co-operation and Development countries, (*b*) EU member states and (*c*) other countries. [197632]

Angela Eagle: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 31 March 2008:

As National Statistician I have been asked to reply to your recent parliamentary question asking what the survival rate for persons diagnosed with bowel cancer is; and what information he holds on survival rates in (*a*) Organisation for Economic Co-operation and Development countries, (*b*) EU member states and (*c*) other countries. [197632]

Bowel cancer usually refers to the large bowel (colon and rectum) rather than the small bowel (small intestine). Bowel cancer survival is usually reported separately for the colon and rectum.

The latest available survival figures for 21 common cancers among adult patients in England diagnosed during 1999-2003 and followed up to the end of 2004 are available on the National Statistics website at:

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=14007&Pos=1&ColRank=1&Rank=192

One and five-year survival for colon and rectum cancer for England is tabulated in the following table:

One and five-year age-standardised[1] relative survival[2] percentages for adult patients[3] diagnosed with colon and rectum cancer during 1999-2003: England, by sex

Cancer[4]	Patients diagnosed during 1999-2003: England		
		One-year relative survival percentage	Five-year relative survival percentage
Colon	Men	69	50
	Women	69	51
Rectum	Men	76	52
	Women	77	55

[1] As cancer survival varies with age at diagnosis, the relative survival figures for all ages (15-99) have been age-standardised to control for changes in the age profile of cancer patients over time, thus making them comparable with previously published figures.
[2] Aged 15-99 years.
[3] Cancers registered in 1999-2003 are defined by codes in the International Classification of Diseases, Tenth Revision (ICD-10). Colon cancer is defined by code C18 and rectum cancer by codes C19 - C21.

Source:
Office for National Statistics.

Information on five-year survival for colorectal cancer in (a) Organisation for Economic Co-operation and Development countries is published in 'OECD Health Data 2007: Statistics and Indicators for 30 Countries' and available online at:

http://www.caliban.sourceoecd.org/vl=3345605/cl=36/nw=1/rpsv/health2007/6-3.htm

Information on cancer survival in (b) 17 EU member states (including the UK) and three other European countries is provided by the EUROCARE-4 study. The published data cover each of the four constituent countries of the UK. The most recently published results from this study provide information on survival up to five years after diagnosis for patients diagnosed with cancer during 1995-99 and followed up to the end of 2003. These results were published in:

Berrino F, De Angelis R, Sant M, Rosso S, Lasota M B, Coebergh J W, and Santaquilani M. 'Survival for eight major cancers and all cancers combined for European adults diagnosed in 1995-99: results of the EUROCARE-4 study'. Lancet Oncology 2007; 8: 773-783.

In addition, period analyses to predict cancer survival up to 10 years for patients diagnosed as recently as 2002 were published in:

Verdecchia A, Francisci S, Brenner H, Gatta G, Micheli A, Mangone L, Kunkler I. 'Recent cancer survival in Europe: a 2000-02 period analysis of EUROCARE-4 data'. Lancet Oncology 2007; 8: 784-796.

Information on survival for cancer in (c) other countries is currently being produced by the CONCORD project. This will compare survival among over two million patients diagnosed with cancer of the breast, bowel or prostate during 1990-94 and followed up to 1999 in 31 countries OB five continents. Results from the CONCORD project will be published later in 2008.

Mr. Bone: To ask Mr Chancellor of the Exchequer how many people died from bowel cancer in each year since 1997. [197635]

Angela Eagle: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 31 March 2008:

As National Statistician I have been asked to reply to your recent question asking how many people died from bowel cancer in each year since 1997. (197635)

The numbers of deaths where bowel cancer was the underlying cause in England and Wales from 1997 to 2006, the latest year for which data are available, are included in the following table:

Deaths from bowel cancer: England and Wales, 1997–2006[2]

	Number of deaths
1997	15,226
1998	14,980
1999	14,564
2000	14,230
2001	14,163
2002	14,289
2003	14,087
2004	14,163
2005	14,115
2006	14,022

[1] Underlying cause of death selected using International Classification of Diseases, Ninth Revision (ICD-9) codes 153-154 for the years 1997 to 2000, and Tenth Revision (ICD-10) codes C18-C21 for the years 2001 to 2006. The introduction of ICD-10 for coding cause of death in 2001 means that figures are not comparable with data for years before this date. Comparisons between the data before and after 2001 should therefore be interpreted with caution. An article examining the effects of the change in classification for cancer trends was published in Health Statistics Quarterly 23.* This estimated that the introduction of ICD-10 resulted in an increase in bowel cancer deaths of 1.5 per cent. when compared to ICD-9. *Brock A, Griffiths C, Rooney G (2004) The effect of the introduction of ICD-10 on cancer mortality trends in England and Wales. Health Statistics Quarterly 23, 7-17. [2] Deaths registered in each calendar year.

Civil Servants: Location

Mr. Gordon Prentice: To ask the Chancellor of the Exchequer whether the proposed relocation of civil servants as recommended by the Gershon review is progressing according to plan; and if he will make a statement. [197384]

Angela Eagle: As reported by the Chancellor on 12 March, 15,710 civil service posts have been relocated so far against the Government's commitment to relocate 20,000 posts by end March 2010. This represents strong *progress by Departments and demonstrates* that the initiative is being delivered according to plan.

Construction: Recruitment

Mr. Don Foster: To ask the Chancellor of the Exchequer (1) how many people were recruited into the construction industry in each year since 1997; [197444]

(2) how many people were employed in the construction industry in each year since 1997. [197445]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Jil Matheson, dated 31 March 2008:

The National Statistician has been asked to reply to your Parliamentary Questions asking how many people have been recruited into the construction industry in each year since 1997 and how many people were employed in the construction industry in each year since 1997. I am replying in her absence. (197444, 197445)

The definitive source for the number of people employed is normally the Labour Force Survey (LFS). However, the Workforce Jobs Survey is preferred for industry breakdowns of employment and has been used in the attached Table.

While estimates of the number of recruitments are not available explicitly, figures from surveys enable comparisons to be made of net changes in jobs from year to year.

Table 1, attached, provides an estimate of jobs in Construction (Standard Industrial Classification (1992) section F) in the United Kingdom for the month of June for each year from 1997 and the net change on the previous year.

Workforce Job statistics are published as part of the Labour Market Statistics First Release and can be obtained on the National Statistics website at:

http://www.statistics.gov.uk/statbase/product.asp?vlnk=8286

As with any survey, results from the Workforce Jobs Surveys are subject to a margin of uncertainty.

Table 1: Workforce jobs in construction industries[1]: United Kingdom seasonally adjusted

		Thousand
	Level	Net change on previous year
June 1997	1,780	
June 1998	1,835	55
June 1999	1,854	19
June 2000	1,900	46
June 2001	1,917	17
June 2002	1,948	31
June 2003	1,997	49
June 2004	2,069	72
June 2005	2,119	50

Table 1: Workforce jobs in construction industries: United Kingdom seasonally adjusted

		Thousand
	Level	Net change on previous year
June 2006	2,165	46
June 2007	2,230	65

Standard Industrial Classification (1992) section F

Notes:

1. Workforce Jobs figures are a measure of jobs rather than people. For example, if a person holds two jobs, each job will be counted in the Workforce Jobs total.

2. Workforce Jobs figures come from a variety of sources, and where possible from the employer rather than the individual. Employee Jobs (which is the largest component of Workforce Jobs) come from quarterly surveys of employers carried out by ONS.

3. Other data sources are as follows:

Self-employment Jobs are provided by the Labour Force Survey.

HM Forces figures are provided by the Ministry of Defence (MOD).

Government-supported trainees are provided from Administrative Sources.

Debts

Mr. Hoban: To ask the Chancellor of the Exchequer what estimate he has made of the average debt (*a*) excluding and (*b*) including mortgages of (i) women and (ii) men aged between 22 and 29 years in each income decile. [196641]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 31 March 2008:

As National Statistician, I have been asked to reply to your recent Parliamentary Question on what estimate has been made of the average debt (*a*) excluding and (*b*) including mortgages of (i) women and (ii) men aged between 22 and 29 years in each income decile (196641).

Although the UK National Accounts include balance sheet estimates of total financial liabilities of the household and non profit institutions serving households (NPISH) sectors, it is not possible to separate these two sectors. Examples of institutions included within the NPISH sector are charities, trade unions, universities, churches and political parties.

It is possible to identify loans secured on dwellings by banks, building societies and other types of financial institutions, but it is not possible to break this down by gender, age or income decile.

The estimates in the following table show total debt including and excluding loans on dwellings and averages using total population estimates. The balance sheet estimates are available up to 2007 and are consistent with data published on the 28th March 2008. Population estimates for 2007 are as yet not available so average debt is shown up to 2006.

Year	Total population (thousand)	Total financial liabilities (£ million)	Average financial liabilities per head of population (£)	Loans on dwellings by banks (£ million)	Loans on dwellings by building societies (£ million)	Loans on dwellings by other financial institutions (£ million)	Total financial liabilities less loans on dwellings (£ million)	Average financial liabilities less loans on dwellings (£)
1987	56,304	270,188	4,798	35,450	111,556	15,305	87,184	1,549
1988	56,616	321,144	5,672	45,335	155,276	22,178	100,355	1,773

Departmental Alcoholic Drinks

Mr. Weir: To ask the Chancellor of the Exchequer at how many events held by his Department (*a*) wine and (*b*) Fairtrade wine were served in the last three years, and what assessment his Department has made of the merits of serving Fairtrade wine at future events. [196948]

Angela Eagle: HM Treasury have held 147 events from January 2005 to December 2007 at which wine supplied by the PFI provider has been served. No Fair Trade wines were served at any of these events.

Fair Trade wine can be ordered on request by the event organiser. The Treasury encourages the PFI provider to make Fair Trade products available.

Departmental Conflict of Interests

Chris Huhne: To ask the Chancellor of the Exchequer how many officials notified his Department that they intended to work for (*a*) British Aerospace, (*b*) British Airways, (*c*) BP, (*d*) Shell, (*e*) Rolls Royce, (*f*) HSBC, (*g*) Standard Chartered, (*h*) RBS (*i*) HBOS, (*j*) Barclays and (*k*) another company on leaving his Department in each of the last five years. [195562]

Angela Eagle: Information on the future employer of officials is not held centrally and could be obtained only at disproportionate cost.

Departmental Official Hospitality

Mr. Philip Hammond: To ask the Chancellor of the Exchequer how much was spent by his Department and its agencies on (*a*) alcohol and (*b*) entertaining in the last 12 months. [187954]

Angela Eagle: The Treasury and its agencies do not separately record amounts spent on alcohol within official entertainment or hospitality spending and the information could be provided only at disproportionate cost. The amounts spent on official entertainment and hospitality in 2006-07 were as follows: HM Treasury (inc. OGC) £193,000; DMO £4,000; ONS £208,000; VOA £48,000; Royal Mint £323,000; GAD £4,000; NS and I £424,000; and OGCbuying.solutions £34,000. All spending on official entertainment is made in accordance with published departmental guidance on financial procedures and propriety, based on principles set out in "Managing Public Money".

Departmental Official Visits

David Simpson: To ask the Chancellor of the Exchequer what the cost was of overnight accommodation for (*a*) civil servants, (*b*) special advisers and (*c*) Ministers in his Department staying overnight in (i) mainland Great Britain, (ii) Northern Ireland, (iii) the Republic of Ireland and (iv) other countries in the last 12 months. [193538]

Angela Eagle: The latest audited data available on overnight accommodation was set out in the answer I gave the hon. Member on 11 July 2007, *Official Report*, columns 1485-86W.

Since 1999, the Government have published on an annual basis a list of all overseas visits by Cabinet Ministers costing in excess of £500, as well as the total cost of all ministerial travel overseas. Copies of the lists are available in the Libraries of the House. All travel is undertaken in accordance with the "Civil Service Management Code" and the "Ministerial Code".

Departmental Pay

Mr. Hoban: To ask the Chancellor of the Exchequer what the hourly rates of pay of all non-permanent staff working for his Department and its agencies were in each of the last 12 months; and how many staff were receiving each rate in each of those months. [196459]

Angela Eagle: Data are not held in such a way to allow access to hourly rates of all non-permanent staff. To attempt to gather these data would represent a disproportionate cost.

Departmental Training

Mr. Hands: To ask the Chancellor of the Exchequer how much was spent on speech coaching and related consultancy for Ministers in his Department in each of the last 24 months. [197473]

Angela Eagle: Speech coaching is not recorded as a separate category of expenditure within the Treasury's accounting system, so the information on spending, if any, is not held.

Emigration

Stephen Hesford: To ask the Chancellor of the Exchequer how many people emigrated from (*a*) the UK and (*b*) Merseyside between 2001 and 2007. [196924]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Jil Matheson, dated 31 March 2008:

The National Statistician has been asked to reply to your question about how many people emigrated from (a) the UK and (b) Merseyside between 2001 and 2007. I am replying in her absence. (196924)

The latest available estimates of Total International Migration (TIM) are for the calendar year 2006. In the six-year period, 2001 to 2006, emigration of UK residents from the UK for at least a year is estimated to have totalled 2,127,000.

TIM estimates are not available on this basis for geographical areas below the level of Government Office Region. However figures on international migration, used to calculate the annual mid-year population estimates, are available for local areas. These cover the period from one mid-year to the next. Between mid-2001 and mid-2006, emigration of UK residents from Merseyside for at least a year is estimated to have totalled 30,000 (compared to 1,768,000 from the UK as whole in this five-year period).

Employment Agencies

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the Answer of 7 February 2008, *Official Report*, column 1365W, on Employment Agencies, what recruitment agencies his Department has used in each of the last 10 years. [189367]

Angela Eagle: I refer the hon. Member to the answer given to him on 18 June 2007, *Official Report*, column 1496W by the then Financial Secretary my hon. Friend the Member for Wentworth (Mr. Healey).

Employment: Wales

Chris Ruane: To ask the Chancellor of the Exchequer how many people were in employment in Vale of Clwyd constituency in each of the last 11 years. [196176]

Angela Eagle *[holding answer 25 March 2008]*: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Jil Matheson, dated 31 March 2008:

The National Statistician has been asked to reply to your Parliamentary Question asking how many people were in employment in Vale of Clwyd constituency in each of the last 11 years. I am replying in her absence. (196176)

The Office for National Statistics compiles employment statistics for local areas from the Annual Population Survey (APS) and its predecessor the annual Labour Force Survey (LFS) following International Labour Organisation definitions.

Table 1, attached, shows the number of people aged 16 and over, resident in the Vale of Clwyd constituency, who were in employment in each of the last 11 years. Estimates are obtained from the annual LFS for each 12 month period from 1997 to 2004. For time series comparisons, the APS estimates from 2005

to 2007 are provided covering the 12 month periods ending in March, but the most recently released estimate is also included, which covers the 12 month period ending in June 2007.

As these estimates are for a subset of the population in a small geographical area, they are based on small sample sizes, and are therefore subject to large margins of uncertainty.

In order to produce estimates for small geographical areas, APS and annual LFS estimates are provided based on survey microdata. These are consistent with the UK population estimates published in February and March 2003, whereas the regional and national estimates published in the Labour Market Statistics First Release are based on more up-to-date population figures, so the two are not directly comparable.

Table 1: People of 16+ in employment in Vale of Clwyd constituency for the past 11 years

Employment: York

Hugh Bayley: To ask the Chancellor of the Exchequer how many *(a)* full and *(b)* part-time jobs there were in the City of York in each year since 1997. [197132]

Angela Eagle: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Jil Matheson, dated 31 March 2008:

The National Statistician has been asked to reply to your Parliamentary Question on how many *(a)* full and *(b)* part-time jobs there were in the City of York in each year since 1997.1 am replying in her absence. (197132).

The Office for National Statistics compiles employment statistics for local areas from the Annual Population Survey (APS) and its predecessor the annual Labour Force Survey (LFS), following International Labour Organisation definitions. This is the preferred source for estimates at the detailed level requested. Employment estimates are distinct from the number of jobs, which come from the Annual Business Inquiry.

Table 1 attached provides estimates based on people aged 16 and over, in full and part-time employment, resident in the City of York.

Estimates based on the most recent parliamentary constituency boundaries are only available from 2001. Figures for 2001-2004 are for the twelve months ending February that year. Figures for 2005-2007 are for the twelve months ending March the same year.

As these estimates are for a subset of the population in a small geographical area, they are based on small sample sizes, and are therefore subject to large margins of uncertainty.

In order to produce estimates for small geographical areas, APS and annual LFS estimates are provided based on survey microdata. These are consistent with the UK population estimates published in February and March 2003, whereas the regional and national estimates published in the Labour Market Statistics First Release are based on more up-to-date population figures, so the two are not directly comparable.

Table 1: Full-time[1] and part-time[2] employment for people aged 16 and over, resident in the City of York[3]

Thousand

12 months ending	*Full-time*	*Part-time*	*Total*
February 2001[4]	36	15	51
February 2002[4]	36	15	51
February 2003[4]	37	16	54
February 2004[4]	37	16	53
March 2005[5]	35	14	48
March 2006[5]	37	15	52
March 2007[5]	37	16	53

[1, 2] Includes those full-time and part-time on New Deal.
[3] 2005 parliamentary constituency boundary revision.
[4] Based on annual Labour Force Survey (LFS).
[5] Based on Annual Population Survey (APS).

Notes:
1. In order to produce estimates for small geographical areas, APS and annual LFS estimates are provided based on survey microdata. These are consistent with the UK population estimates published in February and March 2003, whereas the regional and national estimates published in the Labour Market Statistics First Release are based on more up-to-date population figures, so the two are not directly comparable.
2. As these estimates are for a subset of the population in a small geographical area, they are based on small sample sizes, and are therefore subject to large margins of uncertainty.
3. Due to rounding the totals may not sum.

Annual Population Survey and annual Labour Force Survey.

Excise Duties: Motor Vehicles

Mr. Goodwill: To ask the Chancellor of the Exchequer if he will estimate the annual cost to the Exchequer of resuming the rolling exemption from vehicle excise duty for historic vehicles over 35 years of age in *(a)* 2009-10, *(b)* 2010-11 and *(c)* 2011-12. [197404]

Angela Eagle: I refer the hon. Gentleman to the answer I gave on 30 January 2008, *Official Report*, column 403W. Licensing data does not completely disaggregate by applicable vehicle excise duty rate the population of vehicles manufactured prior to 1974, 1975 and 1976. It is therefore not possible to determine the cost to the Exchequer of extending the exemption on a rolling 35-year basis.

Food: Expenditure

Mr. Jamie Reed: To ask the Chancellor of the Exchequer what percentage of the average annual salary was spent on food at the most recent date for which figures are available. [196200]

Angela Eagle: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Jil Matheson, dated 31 March 2008:

The National Statistician has been asked to reply to your recent question asking what percentage of the average annual salary was spent on food at the most recent date for which figures are available. I am replying in her absence. (196200)

Figures on the percentage of the annual average salary spent on food are not available. However, information on household income and expenditure is available. In 2005/06 the average United Kingdom household spent 9 per cent of their disposable income on food and non-alcoholic drinks.

This estimate is based on data collected through the Expenditure and Food Survey, which is a sample survey covering

approximately 7,000 households in the UK. Spending on food and non-alcoholic drinks excludes expenditure on take-away meals and snacks, and meals purchased in restaurants. Disposable income includes income from all sources including salaries, self-employment income, benefits, and pensions after the deduction of income tax, council tax and employees' national insurance contributions.

Foreign Workers: Enfield

Joan Ryan: To ask the Chancellor of the Exchequer what his most recent estimate is of the number of migrant workers in Enfield North constituency in each of the last 10 years. [196799]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Jil Matheson dated 31 March 2008:

The National Statistician has been asked to reply to your Parliamentary Question on what the most recent estimate is of the number of migrant workers in Enfield, North in each of the last ten years. I am replying in her absence. (196799)

The Office for National Statistics compiles statistics on migrant workers for local areas from the Annual Population survey (APS) and its predecessor the annual Labour Force Survey (LFS). The National Statistics method for estimating the number of migrant workers employed in the UK is routinely based on the number of people at a given time who were born abroad, are of working age (16-64 for men, 16-59 for women), and in employment. This question has been answered on this basis. It means, for example, that some people who are UK nationals will be included in the total of "foreign born" and that people who are working but are above state pension age are not included.

The table attached shows the numbers of people of working age in employment who were not born in the UK and were resident in Enfield, North Parliamentary Constituency. Estimates are obtained from the annual LFS for each 12 months period ending in February from 1998 to 2004. For time series comparisons, the APS estimates from 2005 to 2007 are provided covering the 12 month periods ending in March, but the most recently released estimate is also included, which covers the 12 month period ending in September 2007.

When interpreting these figures, it is important to bear in mind that the APS is not designed to cover everyone who is present in the UK. The survey may undercount the numbers of people who were born overseas. The reasons are set out in the table footnote.

As these estimates are for a subset of the population in small geographical areas they are based on small sample sizes, and are therefore subject to large margins of uncertainty.

In order to produce estimates for small geographical areas, APS and annual LFS estimates are provided based on survey microdata. These are consistent with the UK population estimates published in February and March 2003, whereas the regional and national estimates published in the Labour Market Statistics First Release are based on more up-to-date population figures, so the two are not directly comparable.

Number of migrant workers[1] in employment resident in Enfield, North constituency in the last ten years

12 months ending	*Thousand Migrant workers[1]*
February 1998	[2]
February 1999	5
February 2000	7
February 2001	7
February 2002	10
February 2003	11
February 2004	10
March 2005	8
March 2006	7
March 2007	13
September 2007	14

[1] Includes males aged 16-64 and females aged 16-59 born outside the UK. Does not include respondents who did not answer the question on country of birth.

[2] Data on migrant workers not available for this period

As with any sample survey, estimates from the APS are subject to margin of uncertainty.

It should also be noted that the country of birth question in the APS may undercount the numbers of people who were born overseas

It excludes certain people who have been resident in the UK for less than six months.

It excludes students in halls who do not have a UK resident parent.

It excludes people in most other types of communal establishments (eg hotels, boarding houses, hostels, mobile home sites, etc.)

It is grossed to population estimates which exclude migrants staying for less than 12 months.

Annual Labour Force Survey/Annual Population Survey

HM Revenue and Customs: Bonuses

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 13 March 2008, *Official Report*, column 537W, on HM Revenue and Customs: bonuses, how many HM Revenue and Customs staff received *(a)* zero, *(b)* minimum (£3,000), *(c)* medium (9 per cent. of base salary) and *(d)* high (15 per cent. of base salary) bonuses in each of the last five years. [196644]

Jane Kennedy: These categories of bonus apply to the SCS grades in HMRC and data is available for the last three performance years.

Performance year	*Zero*	*Minimum*	*Medium*	*High*
2004-05	102	49	153	109
2005-06	149	19	124	82
2006-07	126	56	127	82

HM Revenue and Customs: Fraud

Mr. Philip Hammond: To ask the Chancellor of the Exchequer pursuant to his Answer of 22 February 2008, *Official Report*, column 1117W, on fraud in HM Revenue and Customs, what his estimate is of the cost to the public purse of the 35 investigations into suspected fraudulent activity by staff which have taken place since 1 April 2007. [193314]

Jane Kennedy: The information requested could be obtained only at disproportionate cost.

Immigration

Mr. Hoban: To ask the Chancellor of the Exchequer what the level of migration *(a)* into and *(b)* out of Britain by (i) British citizens, (ii) non-British EU citizens and (iii) non-EU citizens in each age cohort was in each of the last 10 years. [196652]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Jil Matheson, dated 31 March 2008:

The National Statistician has been asked to reply to your recent Parliamentary Question asking what the level of migration (a) into and (b) out of Britain by (i) British citizens (ii) non-British EU citizens and (iii) non-EU citizens was in each age cohort in each of the last 10 years. I am replying in her absence. (196652)

The most recent figures on levels of migration by citizenship and age are for 2006. Figures in the attached table are for the ten years 1997 to 2006 and are based on data from the International Passenger Survey (IPS).

The IPS has been used to provide information requested by citizenship and age because detailed cross tabulations such as these are not available using Total International Migration (TIM), the most comprehensive measure of long-term international migration into and out of the UK. This is due to the nature of the different data sources used to compile TIM estimates.

[1] Up to and including 2003, estimates are shown for the EU15 (Austria, Belgium, Denmark, Finland, France, Germany, Greece, the Irish Republic, Italy, Luxembourg, Netherlands, Portugal, Spain and Sweden). From 2004 onwards, the estimates are for the EU25 (EU15 plus the 10 countries of Cyprus, the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia and Slovenia). These countries are included in the definition for the whole of 2004. These data have been revised following changes to the TIM methodology. Therefore they may not agree with estimates that have been published previously.
[2] No data (or less than half the final digit shown).

Income

Mr. Hoban: To ask the Chancellor of the Exchequer what the average earnings were for each income decile of *(a)* men and *(b)* women aged between 22 and 29 years in each region in the latest five years for which figures are available. [196639]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Jill Matheson, dated 31 March 2008:

The National Statistician has been asked to reply to your recent Parliamentary Question asking what the average earnings were for each income decile of (a) men and (b) women aged between 22 and 29 years in each region in the latest five years for which figures are available. I am replying in her absence. (196639)

Average levels of earnings are estimated from the Annual Survey of Hours and Earnings (ASHE), and are provided for all employees on adult rates of pay whose pay for the survey period was not affected by absence.

I attach a table showing the mean, deciles and quartiles for gross weekly earnings for (a) men and (b) women aged between 22 and 29 years, for those working full time in each government office region, for the years 2003 - 2007.

The ASHE, carried out in April each year, is the most comprehensive source of earnings information in the United Kingdom. It is a sample of all employees who are members of pay-as-you-earn (PAYE) schemes.

Weekly pay - gross (£) - for male full-time employee jobs by age 22 to 29: United Kingdom

x = Unreliable.

[6] Employees on adult rates whose pay for the survey pay-period was not affected by absence.

There are two discontinuities in the ASHE results introduced by changes to the ASHE methodology. In 2004 supplementary information was included to improve coverage and in 2006 changes to the sample design were made to improve the quality of the estimates, (for more information see National Statistics website www.statistics.gov.uk).

x = Unreliable.

[a] Employees on adult rates whose pay for the survey pay-period was not affected by absence.

There are two discontinuities in the ASHE results introduced by changes to the ASHE methodology. In 2004 supplementary information was included to improve coverage and in 2006 changes to the sample design were made to improve the quality of the estimates. (for more information see National Statistics website www.statistics.gov.uk).

[b] 2004 results (consistent with 2003 results).

[c] 2004 results (consistent with 2005 results).

[d] 2006 results (consistent with 2005 results).

[e] 2906 results (consistent with 2007 results).

Annual Survey of Hours and Earnings, Office for National Statistics. 1997-2007

Mr. Meacher: To ask the Chancellor of the Exchequer how many people had annual employment incomes of *(a)* below £10,000, *(b)* between 10,000 and £30,000, broken down by £1,000 intervals, *(c)* between £31,000 and £100,000, broken down by £5,000 intervals, *(d)* between £100,000 and £500,000, broken down by £50,000 interval and *(e)* above £500,000 in the latest period for which figures are available. [196711]

Jane Kennedy: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Jil Matheson, dated 31 March 2008:

The National Statistician has been asked to reply to your recent Parliamentary Question asking how many people had annual employment incomes of (a) below £10,000, (b) between £10,000 and £30,000 broken down by £1,000 intervals, (c) between £31,000 and £100,000, broken down by £5,000 intervals, (d) between £100,000 and £500,000, broken down by £50,000 interval and (e) above £500,000 in the latest period for which figures are available. I am replying in her absence. (196711)

Annual average levels of earnings are estimated from the Annual Survey of Hours and Earnings (ASHE), and are provided for all employees on adult rates of pay who have been in the same job for more than 12 months. ASHE methodology cannot be used to provide estimates of the numbers of employees whose earnings are less than a specific amount, but can be used to provide estimates of percentages of employees in relevant categories. Estimates are for single jobs and not for total employment income.

I attach a table for 2007, showing the percentage of UK employees in the ranges stated.

The ASHE, carried out in April each year, is the most comprehensive source of earnings information in the United Kingdom. It is a sample of all employees who are members of pay- as-you-earn (PAYE) schemes.

Proportions of all employees[1] average annual earnings in the UK for 2007

£100,000 +	1.3

[1] Both full-time and part-time employees on adult rates who have been in the same job for more than one year.
* Coefficient of variation is >5% and <=10%
** Coefficient of variation is >10% and <=20%
x Coefficient of variation is >20%

Guide to quality

The Coefficient of Variation (CV) indicates the quality of a figure, the smaller the CV value, the higher the quality.

The true value is likely to lie within +/- twice the CV, for example, for an average of 200 with a CV of 5%, we would expect the population averagé to be within the range 180 to 220.

Annual Survey of Hours and Earnings, Office for National Statistics, 2007.

Income Tax

Mr. Gregory Campbell: To ask the Chancellor of the Exchequer what estimate he has made of the net effect on income tax receipts of imposing a 50 per cent. rate on those earning £100,000 and over per annum and raising the lower threshold for payment of income tax and national insurance contributions to £12,000 per annum. [196529]

Jane Kennedy *[holding answer 25 March 2008]:* The net effect of introducing a new higher rate band at 50 per cent. for incomes above £100,000 and raising the personal allowance to £12,000 would be a cost of around £65 billion for 2008-09. This figure excludes any estimate of behavioural response to the changes which could be significant given the scale of the changes, and which might eliminate a large proportion of the yield from any new higher rate band.

The estimates cover both income tax and national insurance contributions but assume the higher dividend rate remains at 32.5 per cent. and that the basic rate limit is unchanged.

The income tax information is based upon the 2005-06 Survey of Personal Incomes and 2008 Budget assumptions.

Income: Greater London

Mr. Hoban: To ask the Chancellor of the Exchequer what the decile boundary earnings were for *(a)* London and *(b)* each London borough in the latest 12 month period for which figures are available, broken down by age cohort. [196517]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Jil Matheson, dated 31 March 2008:

The National Statistician has been asked to reply to your recent Parliamentary Question asking what the decile boundary earnings were for (a) London and (b) each London borough in the latest 12 month period for which figures are available, broken down by age cohort. I am replying in her absence. (196517)

Levels of earnings including medians, deciles and quartiles, are estimated from the Annual Survey of Hours and Earnings (ASHE), and are provided for employees on adult rates of pay, whose pay for the survey period was not affected by absence. The ASHE, carried out in April each year, is the most comprehensive source of earnings information in the United Kingdom.

I attach a table showing the mean, deciles and quartiles for gross weekly earnings for full time employees in London by age for 2007. Figures for each London borough broken down by age group are not available. However, aggregate results for London boroughs can be obtained on the National Statistics website at:

http://www.statistics.gov.uk/ashe

Ipsos MORI

Mr. Pickles: To ask the Chancellor of the Exchequer what payments *(a)* his Department and *(b)* its agencies have made to Ipsos MORI in the last 24 months; and for what purposes. [193848]

Angela Eagle: The following Departments made payments to Ipsos MORI in the financial years 2005-06 and 2006-07.

Department	Purpose of expenditure	2005-06	£000 2006-07
HMRC	Qualitative research, evaluations and surveys	1,137	1,004
NS and I	Monthly Customer Satisfaction Survey, subscriptions to the Personal Finance Journalist Survey and Corporate Image Survey, usability research on parts of the NS and I website, and running bespoke Omnibus questions used in a media campaign	469	52
ONS	Website surveys	21	28

Life Expectancy: Essex

Bob Spink: To ask the Chancellor of the Exchequer what recent estimate he has made of average life expectancy for *(a)* men and *(b)* women in (i) Castle Point constituency and (ii) Essex in (A) 1997 and (B) at the latest date for which figures are available. [197640]

Angela Eagle: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Jil Matheson, dated 31 March 2008:

The National Statistician has been asked to reply to your recent question asking what estimate has been made of average life expectancy for *(a)* men and *(b)* women in (i) Castle Point constituency and (ii) Essex in (A) 1997 and (B) the latest period for which figures are available. I am replying in her absence. (197640)

Period life expectancies at birth for *(a)* males and *(b)* females for all local authority districts and unitary authorities in England and Wales, for rolling three-year periods from 1991-93 to 2004-06, are published on the National Statistics website at:

http://www.statistics.gov.uk/statbase/Productasp?vInk=8841

Life expectancy figures at parliamentary constituency and county level are not readily available.

Life Expectancy: Lancashire

Mr. Hoyle: To ask the Chancellor of the Exchequer what the average life expectancy is for *(a)* men and *(b)* women in (i) Chorley and (ii) Lancashire; and what it was in 1997. [197325]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Jil Matheson, dated 31 March 2008:

The National Statistician has been asked to reply to your recent question asking what the average life expectancy is for (a) men and (b) women in (i) Chorley and (ii) Lancashire; and what it was in 1997. I am replying in her absence. (197325)

Period life expectancy at birth for (a) males and (b) females for all local authority districts and unitary authorities in England and Wales, for rolling three-year periods from 1991-93 to 2004-06, are published on the National Statistics website at:

http://www.statistics.gov.uk/statbase/Product.asp?vInk=8841

Life expectancy figures at county level are not readily available.

Members: Correspondence

Mr. Winnick: To ask the Chancellor of the Exchequer when he will reply to the letter of 18 February 2008, from the hon. Member for Walsall North, regarding a constituent, ref: 4/31644/2008. [197933]

Angela Eagle: I have replied to my hon. Friend.

Mortgages

Danny Alexander: To ask the Chancellor of the Exchequer (1) what his estimate is of the number of people in mortgage arrears by *(a)* up to three months, *(b)* three to six months, *(c)* six to nine months and *(d)* nine to 12 months in each year since 1990, broken down by region; and what his estimate is of the cost to the Exchequer of paying 100 per cent. income support mortgage interest to all those eligible, under 60 years of age, who took out their mortage (i) before 2 October 1995 and (ii) after 2 October 1995 after eight weeks of the claim; [196542]

(2) what his estimate is of the cost to the Exchequer of paying 100 per cent. income support mortgage interest to all those eligible, under 60 years of age, who took out their mortage after 2nd October 1995 after *(a)* 12, *(b)* 14, *(c)* 16, *(d)* 18, *(e)* 20, *(f)* 22, *(g)* 24, *(h)* 26, *(i)* 28, *(j)* 30, *(k)* 32, *(l)* 34 and *(m)* 36 weeks of the claim; [196543]

(3) what recent estimate he has made of the average rate of interest charged on mortgages in the UK; [196760]

(4) what recent estimate he has made of the number of new mortgages sold in the UK worth *(a)* 0 to 10 per cent., *(b)* 11 to 20 per cent., *(c)* 21 to 30 per cent., *(d)* 31 to 40 per cent., *(e)* 41 to 50 per cent., *(f)* 51 to 60 per cent., *(g)* 61 to 70 per cent., *(h)* 71 to 80 per cent., *(i)* 81 to 90 per cent. and *(j)* more than 100 per cent. of the value of the property in each year since 1990, broken down by region. [196762]

Angela Eagle: According to figures published by the Bank of England, the average mortgage rate in January 2008 for existing mortgages was 5.88 per cent. and for new mortgages was 5.92 per cent.

The Government do not hold the other figures requested. The Council of Mortgage Lenders publishes a range of statistics on UK housing and mortgage markets, including the number of mortgages in arrears and the median loan to value ratio of loans for home purchase, available at:

http://www.cml.org.uk/cml/statistics

Northern Rock: Consultants

Mr. Austin Mitchell: To ask the Chancellor of the Exchequer how much his Department has paid to external advisers for advice on Northern Rock in 2007-08; and how much has been paid to each such adviser. [175532]

Mr. Hoban: To ask the Chancellor of the Exchequer how much has been paid by his Department for legal advice on Northern Rock. [188855]

Mr. Fallon: To ask the Chancellor of the Exchequer what fees have been paid by his Department for advice on Northern Rock to *(a)* Goldman Sachs and *(b)* Slaughter and May. [175652]

Angela Eagle *[holding answer 7 January 2008]:* As the Chancellor informed the chairs of the Treasury Committee and Public Accounts Committee on 11 October 2007, Northern Rock has indemnified the Treasury in respect of certain costs and expenses, including adviser costs. Slaughter and May have provided legal advice outside the scope of the indemnity. Fees of £139,000 have so far been paid for this advice.

Dr. Cable: To ask the Chancellor of the Exchequer if he will publish Goldman Sachs' assessment of his Department's plan to guarantee bonds for Northern Rock; and if he will make a statement. [178709]

Angela Eagle *[holding answer 30 January 2008]:* As the Chancellor of the Exchequer informed Parliament on 19 February 2008, *Official Report*, column 178, the Government will consider when and how the right information in relation to the Northern Rock situation should be put in the public domain.

Dr. Cable: To ask the Chancellor of the Exchequer what timescale has been identified for the repayment of loans advanced to Northern Rock; and if he will make a statement. [180033]

Angela Eagle: As set out in a written statement by the Chancellor of the Exchequer to Parliament on 18 March, one of the strategic priorities for Northern Rock is progressive repayment of the Bank of England loan and release of the Government guarantees over the next three to four years.

Richard Ottaway: To ask Mr Chancellor of the Exchequer whether Richard Branson's consortium for Northern Rock includes the Far Eastern Investment Corporation. [185712]

Angela Eagle: I refer the hon. Gentleman to the answer I gave on 5 February 2008, *Official Report*, column 1048.

Adam Price: To ask the Chancellor of the Exchequer whether the Government plan to underwrite the repayment of Northern Rock's entire subordinated debt. [187829]

Angela Eagle *[holding answer 21 February 2008]:* The Government have no plans to underwrite Northern Rock's subordinated debt. Holders of tier 1 and tier 2 capital instruments therefore remain at risk of loss ahead of the Bank of England and HM Treasury as providers of secured financial support to the company.

Dr. Cable: To ask the Chancellor of the Exchequer what estimate he has made of the cost of the advice provided to his Department by Goldman Sachs on Northern Rock; and if he will make a statement. [188250]

Mr. Hoban: To ask the Chancellor of the Exchequer how much has been paid by his Department to Goldman Sachs for its advice on Northern Rock. [188856]

Angela Eagle *[holding answer 25 February 2008]:* As the Chancellor informed the chairs of the Treasury Committee and Public Accounts Committee on 11 October 2007, Northern Rock has indemnified the Treasury in respect of certain costs and expenses, including advisor costs.

Adam Price: To ask the Chancellor of the Exchequer whether the Government plan to dispose of Northern Rock's Guernsey-based subsidiary, Northern Rock Guernsey Ltd., following nationalisation. [189887]

Mr. Drew: To ask the Chancellor of the Exchequer what corporate social responsibility standards Northern Rock will adopt while in temporary public ownership. [190549]

Mr. Hands: To ask the Chancellor of the Exchequer (1) what consideration he has given to the future of Northern Rock's Denmark subsidiary, Northern Rock Bank Danmark filial; and if he will make a statement; [190418]

(2) what his policy is on Northern Rock's approach to foreign exchange risk resulting from its deposits denominated in Danish Kroner; [190420]

(3) what discussions he has had with management at Northern Rock bank on the operation of the bank's Guernsey subsidiary. [194566]

Angela Eagle: During this period of temporary public ownership, Northern Rock is managed by its board at arm's length from Government on commercial principles.

The company is developing a full business plan, and will submit the final business plan to HM Treasury for approval by the end of March.

Mr. Hands: To ask the Chancellor of the Exchequer whether Northern Rock's Denmark subsidiary, Northern Rock Bank Danmark filial is subject to orders made under the Banking (Special Provisions) Act 2008. [190417]

Angela Eagle: Northern Rock's business in Denmark operated as a branch. This branch was a legal part of Northern Rock plc and was therefore subject to the Transfer Order made under the Banking (Special Provisions) Act 2008 along with the rest of the company. This means that the branch was also taken into a period of temporary public ownership as part of Northern Rock plc with effect from 22 February 2008.

Mr. Hands: To ask the Chancellor of the Exchequer how many depositors there are at Northern Rock Bank Danmark filial; and what the value of its assets is. [190419]

Angela Eagle: During this period of temporary public ownership, Northern Rock is managed by its board at arm's length from Government on commercial principles. It is a matter for the company's

management to release specific business updates or provide any required disclosures in their audited annual report and accounts.

Mr. Austin Mitchell: To ask the Chancellor of the Exchequer what the *(a)* dates of and *(b)* attendance at meetings between his Department and Goldman Sachs on the temporary public ownership of Northern Rock has been. [192983]

Angela Eagle: There were frequent meetings with our advisers throughout the period leading up to the decision to take Northern Rock into a period of temporary public ownership.

Mr. Meacher: To ask the Chancellor of the Exchequer how much he estimates his Department will pay to *(a)* lawyers and *(b)* bankers for advice concerning Northern Rock. [194241]

Angela Eagle: As the Chancellor informed the chairs of the Treasury Committee and Public Accounts Committee on 11 October 2007, Northern Rock has indemnified the Treasury in respect of certain costs and expenses, including advisor costs. Slaughter and May has provided legal advice outside the scope of the indemnity. Fees of £139,000 have so far been paid for this advice.

Northern Rock: Charitable Donations

Mr. Gray: To ask the Chancellor of the Exchequer what *(a)* charitable and *(b)* other donations had been committed by Northern Rock and remained unpaid at the entry into force of the Northern Rock plc Transfer Order 2008; and what plans the Board of Northern Rock has to honour such commitments. [195953]

Angela Eagle: During this period of temporary public ownership, Northern Rock is managed by its board at arm's length from Government on commercial principles. It is a matter for the company's management to release specific business updates or provide any required disclosures in their annual report and accounts.

The company is developing a full business plan, and will submit the final business plan to HM Treasury for approval by the end of March.

As the Chancellor of Exchequer informed the House, the Northern Rock Foundation will be guaranteed a minimum income of £15 million per year in 2008, 2009 and 2010, and this will be paid directly by Northern Rock. The board of the company has also been asked to identify a viable long-term future for the foundation.

Northern Rock: Guernsey

Mr. Hands: To ask the Chancellor of the Exchequer what value of deposits in Northern Rock Bank (Guernsey) are from *(a)* Egypt, *(b)* South Africa and *(c)* Zimbabwe. [194569]

Angela Eagle *[holding answer 14 March 2008]:* During this period of temporary public ownership, Northern Rock is managed by its board at arm's length from Government on commercial principles. It is a matter for the company's management to release specific business updates or provide any required disclosures in their annual report and accounts.

Northern Rock: Nationalisation

Adam Price: To ask the Chancellor of the Exchequer what assessment he has made of the likely effect of nationalisation of Northern Rock on holders of Northern Rock's callable debt securities. [188188]

Angela Eagle *[holding answer 22 February 2008]:* The Government have assessed the likely effect of temporary public ownership of Northern Rock on holders all of Northern Rock's debt securities. Northern Rock has no public debt securities which are callable by holders in the ordinary course.

Mrs. May: To ask the Chancellor of the Exchequer (1) when he first received a draft of the Banking (Special Provisions) Bill; [188406]

(2) when HM Treasury first consulted *(a)* the Bank of England and *(b)* the Financial Services Authority on the proposals for the Banking (Special Provisions) Bill; what subsequent consultations took place; on what dates consultations took place; and when each institution was first sent a draft of the Bill; [188408]

(3) on what date HM Treasury officials commissioned drafting of the Banking (Special Provisions) Bill from Parliamentary Counsel. [188409]

Angela Eagle *[holding answer 22 February 2008]:* Treasury officials undertook a range of contingency planning work in response to the events of September 2007 concerning Northern Rock, which included the development of possible legislative options. The Bank of England and the Financial Services Authority were involved in that work, including preparation of contingency legislation, and the Chancellor was kept informed throughout.

Mr. Hands: To ask the Chancellor of the Exchequer if he will make a statement on the extent and scope of his responsibilities and accountability to Parliament in relation to the activity of Northern Rock once the team responsible for day-to-day management of the bank under temporary public ownership of the bank is in place; what guidance he has issued to the Northern Rock management team on responding to correspondence from hon. Members; and on what matters relating to the policy, administration and operations of Northern Rock he will *(a)* answer parliamentary questions and *(b)* refer such questions to the Chief Executive of Northern Rock to respond (i) by a letter published in an answer in the *Official Report* and (ii) directly to hon. Members. [190568]

Angela Eagle: During this period of temporary public ownership, Northern Rock is managed by its board at arm's length from Government on commercial principles.

As the Chancellor said in a statement to Parliament on 18 February 2008, the framework agreement on the relationship between the Government and Northern Rock will be published shortly.

Operation Airbridge

John Mann: To ask the Chancellor of the Exchequer what the budget is for Operation *(a)* Airbridge and *(b)* Wentbridge. [197458]

Jane Kennedy: The current budget for Operation Airbridge, which is solely funded by HM Revenue and Customs, is £250,000 per year. The current budget for Operation Westbridge, which is jointly funded by the Foreign and Commonwealth Office and Home Office is also £250,000. Neither budget includes the cost of the salaries of the staff deployed overseas, or support staff in the UK.

Personal Care Services

Gordon Banks: To ask the Chancellor of the Exchequer what estimate he has made of the number of *(a)* hairdressers and *(b)* beauty salons in England. [197588]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Jil Matheson, dated 31 March 2008:

The National Statistician has been asked to reply to your recent question, asking what estimate has been made of the number of *(a)* hairdressers and *(b)* beauty salons in England. I am replying in her absence. (197588)

The Office for National Statistics publishes estimates of numbers of enterprises that are VAT traders based on the UK Standard Industrial Classification (2003 revision), which combines hairdressers and beauty salons within a single heading (9302: Hairdressing and other beauty treatment). Estimates are not available separately for hairdressers and beauty salons.

The total number of enterprises in England in 2007 that were VAT traders and classified to hairdressing and beauty treatment was 11,780. Enterprises not registered for VAT are excluded from this estimate.

Poverty: Children

Mr. Frank Field: To ask the Chancellor of the Exchequer with reference to paragraph 4.16 in the Budget document, Ending child poverty: everybody's business, what *(a)* high and *(b)* low estimates have been made for the financial value of the unemployment trap; and in what circumstances these transpire. [197766]

Angela Eagle: The Treasury has not undertaken any work to estimate the financial value of the 'unemployment trap'. This is because the precise point at which an individual feels that moving into work is worthwhile will depend on their circumstances and preferences, including their attitude to claiming benefits and the nature of the job itself. The same gain to work may therefore be sufficient to encourage one individual into work where another would choose to remain out of work.

Press

Mr. Laws: To ask the Chancellor of the Exchequer what the total annual cost of the press offices of *(a)* his Department, *(b)* its agencies and *(c)* its non-departmental public bodies were in each year since 1996-97; what the cost was in each quarter since 1 April 2007; and if he will make a statement. [189755]

Angela Eagle: I refer the hon. Member to the answer given on 20 June 2007, *Official Report*, column 1879W by the former Financial Secretary (John Healey).

The administration costs of the Treasury and the Office of Government Commerce are published in the annual report and accounts each year, copies of which are available in the Library and at:

http://www.hm-treasury.gov.uk/about/about_index.cfm

The Government Actuary's Department does not have a Press Office. Figures for HM Revenue and Customs, National Savings and Investments and the Office for National Statistics figures are given as follows:

			£000
	HMRC	*NS and I*	*ONS*
2001-02	3,870		663
2002-03	3,402	943	635
2003-04	2,526	801	580
2004-05	1,674	881	600
2005-06	2,022	1,080	556
2006-07	2,602	960	512

Private Finance Initiative

Mr. Betts: To ask the Chancellor of the Exchequer how many private finance initiative projects have included *(a)* a leisure component and *(b)* a library. [196756]

Mr. Sutcliffe: I have been asked to reply.

The Department for Culture, Media and Sport (DCMS) had been allocated private finance initiative (PFI) credits in previous comprehensive spending reviews to invest in our sectors. To this end, DCMS support *(a)* 11 leisure centre projects and *(b)* seven library projects.

Mr. Betts: To ask the Chancellor of the Exchequer what assessment he has made of the performance of private finance initiative projects that have included a leisure component. [196757]

Mr. Sutcliffe: I have been asked to reply.

The Department for Culture, Media and Sport (DCMS) has not made an assessment of the performance of private finance initiative (PFI) leisure centre projects that it has awarded credits. The local authorities, who are awarded the PFI credits, will manage and assess individual project performance.

Public Expenditure

Jim Cousins: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the needs assessment that preceded the introduction of the Barnett formula that the Prime Minister referred to in his oral answer to the hon. Member for Manchester, Blackley (Graham Stringer) on 19 March 2008, *Official Report*, column 921. [196522]

Yvette Cooper *[holding answer 26 March 2008]:* The Treasury published in December 1979 a "Needs Assessment Study—Report", an inter-departmental study co-ordinated by HM Treasury on the relative public expenditure needs in England, Scotland, Wales and Northern Ireland. A copy is being deposited in the Library. The system for determining changes in public spending by the devolved administrations is set out in the Statement of Funding Policy published by the Treasury in October 2007.

Research and Development Tax Credit: Video Games

Mr. Maude: To ask the Chancellor of the Exchequer how many UK video games development companies received the research and development tax credit in each year since its inception. [196975]

Angela Eagle: Information on claims for R and D tax credits by UK video games developers is not available because the data are broken down by industry sector using the UK Standard Industrial Classification of Economic Activities (SIC), and the computer and video games industry is not identified as a separate sector in this classification.

However, a breakdown is available for the National Statistics published on the total number of claims made for R and D tax credits and total cost of support claimed. This shows that companies in the computer and related services sector accounted for over a fifth of the total 6,180 claims made for R and D tax credits in 2005-06. While many companies involved in the computer and video games industry may appear in this industry sector, some may have other classifications.

Revenue and Customs: Appeals

Mr. Harper: To ask the Chancellor of the Exchequer what percentage of appeals against seizure of excise goods by HM Revenue and Custom officers resulted in the restoration of goods to importers in the most recent period for which figures are available. [196986]

Jane Kennedy: Between 1 April 2007 and 31 January 2008 HMRC made a total of 88,015 seizures.

Appeals against the legality of these seizures are heard by magistrates courts and information on the outcome of these appeals could be provided only at disproportionate cost.

Appeals against refusals to restore goods are initially made to HMRC's impartial reviewing officers. During this period 1,883 appeals were received and 237 were successful, around 0.27 per cent. of all seizures made.

Revenue and Customs: Boats

Mr. Philip Hammond: To ask the Chancellor of the Exchequer how many boats HM Revenue and Customs has; how much each cost to *(a)* purchase and *(b)* run in 2007-08; and what they are used for. [197119]

Jane Kennedy: HM Revenue and Customs has five offshore vessels, each costing an average of £4.5 million when first built. The overall budget for the maritime operation is £2.5 million per year. The primary role of these vessels is to prevent smuggling by ships and pleasure craft.

Revenue and Customs: Data Protection

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 18 March 2008, *Official Report*, column 1017W, on Revenue and Customs: data protection, how many hours per week data guardians are expected to spend on their work in that role. [197453]

Jane Kennedy: The time required to be spent on the data guardian role varies in line with the differing data handling and processing requirements of each HMRC business unit.

Schools: Uniforms

Mr. Evans: To ask the Chancellor of the Exchequer pursuant to the answer of 11 March 2008, *Official Report*, column 371W, on VAT: uniforms, what discussions he has had with his European counterparts on the introduction of a reduced VAT rate for those items of school uniform that are not already VAT zero-rated. [197916]

Angela Eagle: The Government have not recently discussed this issue with European counterparts. A new legislative proposal on reduced VAT rates, and further EU discussions of them, are expected later this year.

Smuggling: Fuels

Mr. Gregory Campbell: To ask the Chancellor of the Exchequer what estimate he has made of revenue lost due to fuel smuggling into Northern Ireland in the last 12 months. [197915]

Angela Eagle: Estimates of the revenue lost through the illegal consumption of diesel and petrol in Northern Ireland are not available because it is not yet possible to split revenue losses between those resulting from the illicit market and those from legitimate cross-border shopping. However, estimates of the total non-UK duty paid consumption are available, and are reported in 'Measuring Indirect Tax Losses—2007' which is published alongside the PBR and can be found in the House of Commons Library.

Unemployment: Greater London

Mr. Hoban: To ask the Chancellor of the Exchequer what percentage of the *(a)* male and *(b)* female population of each London borough were (i) unemployed and (ii) economically inactive in each year since 2000. [196514]

Angela Eagle: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Jil Matheson dated 31 March 2008:

The National Statistician has been asked to reply to your parliamentary question on the percentage of the *(a)* male and (b) female population of each London borough who were (i) unemployed and (ii) economically inactive in each year since 2000. I am replying in her absence. (196514)

The Office for National Statistics compiles estimates of unemployment and inactivity for local areas for women and men from the Annual Population Survey (APS) and its predecessor the annual Labour Force Survey (LFS) following International Labour Organisation definitions.

Tables 1 and 2 attached, show the percentage of males and females aged 16 and over, resident in each London borough, who were unemployed. Tables 3 and 4 attached, show the percentage of males and females, of working age, resident in each London borough who was economically inactive. Estimates are obtained from the annual LFS for each 12 month period from 2001 to 2004. For time series comparisons, the APS estimates from 2005 to 2007 are provided covering the 12 month periods ending in March, but the most recently released estimates are also included, which cover the 12 month period ending in June 2007.

These estimates, as with any from sample surveys, are subject to a margin of uncertainty. Changes in the estimates from year to year should be treated with particular caution.

VAT: Fraud

Lynne Jones: To ask the Chancellor of the Exchequer pursuant to the answer of 19 March 2008, *Official Report*, column 1227W, on VAT: fraud, which paragraph of the National Identity Scheme Delivery Plan 2008 provides an assessment of the potential contribution of the identity cards scheme to the tackling of missing trader intra-community fraud. [197096]

Jane Kennedy: The aim of the 2008 plan is to provide individuals with opportunities to protect themselves, including from identity fraud, and to access services more easily. It does not assess specifically the extent to which identity cards introduced on the proposed voluntary basis might protect the Government against missing trader intra-community fraud.

Voluntary Work

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 27 February 2008, *Official Report*, column 1490W, on voluntary work, what special leave entitlement is available to staff to take time off to volunteer. [195917]

Angela Eagle: Staff in HM Treasury may be allowed to take one day's paid special leave in any leave year and if staff wish to extend this, they can trade unused days with colleagues up to a maximum of five days per staff member per leave year.

In addition to this entitlement, there is also a category of special paid leave of up to 10 days per leave year for activities which are a "valuable public service or which promote the general good of the Treasury".

Welfare Tax Credits

Danny Alexander: To ask the Chancellor of the Exchequer which of the Parliamentary Ombudsman's recommendations in *(a)* Tax Credits: Putting things right and *(b)* Tax Credits: Getting it wrong have been accepted; when each of those was implemented; and which (A) were rejected and (B) are under consideration. [194471]

Jane Kennedy: I refer the hon. Member to the reply given to the hon. Member for Yeovil (Mr. Laws) on 25 June 2007, *Official Report*, column 402-04W. All the ombudsman's recommendations were accepted. Details are given in my letter to the parliamentary and health service ombudsman of 29 January 2008 setting out the Government's response to her 2007 report on tax credits which is deposited in the Library of the House.

Danny Alexander: To ask the Chancellor of the Exchequer at which locations staff operating the tax credit system are based; and how many staff worked at each site in each financial year since April 2003. [194479]

Jane Kennedy: Staff from a range of HM Revenue and Customs (HMRC) business areas work on tax credits.

It is not possible to isolate the numbers of staff deployed to tax credits work at each HMRC site in each year since April 2003.

The tax credit office operates from sites in Preston, Liverpool, Belfast, Glasgow, Washington and Newcastle.

Welfare Tax Credits: Compensation

Danny Alexander: To ask the Chancellor of the Exchequer (1) for what reasons HM Revenue and Customs pays compensation to tax credit claimants; and how the amount of compensation is determined; [194482]

(2) how many compensation payments have been made by HM Revenue and Customs to tax credit claimants for problems with their awards in each year since April 2003; what the sum of payments in each quarter was; and how many families have received *(a)* one, *(b)* two, *(c)* three and *(d)* more than three compensation payments. [194481]

Jane Kennedy: The circumstances in which HM Revenue and Customs will make compensation payments to its customers are explained in the Department's fact sheet C/FS 'Complaints and Putting Things Right' which is available at www.hmrc.gov.uk/factsheets/complaints-factsheet.pdf. The Department will pay compensation for reasonable costs incurred as a direct result of its mistakes or delays and to recognise worry and distress caused by those mistakes and delays. The value of each payment is decided according to individual circumstances.

For the number and value of such payments made to tax credit customers I refer the hon. Member to the answer given to the hon. Member for St. Albans (Anne Main) on 23 January 2008, *Official Report*, columns 2100-01W. The updated figures for 2007-08 to the end of February are:

	2007-08
Value (£ million)	0.414
Number	9,374

Information on the number of such payments made to each family is not available in that level of detail requested.

Welfare Tax Credits: Overpayments

John Hemming: To ask the Chancellor of the Exchequer how much tax credit has been overpaid as a result of the claimant not providing an annual return to HM Revenue and Customs in each year since the commencement of tax credits; and how many people were overpaid. [197326]

Jane Kennedy: The information requested is available only at a disproportionate cost.

However, HMRC does produce estimates of the number of overpaid terminated awards, which will include those that were terminated due to claimants not returning their annual declaration form by the specified date. This information for 2003-04, 2004-05 and 2005-06 is available in the main aggregates table in the HMRC publication "Child and Working Tax Credits Statistics. Finalised Annual Awards. Supplement on Payments 2005-06". This publication is available on the HMRC website at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-quarterly-stats.htm

Danny Alexander: To ask the Chancellor of the Exchequer what the average tax credit overpayment was in each year since 2003. [197977]

Jane Kennedy: Estimates of the number and amount of tax credit over and under paid awards in 2003-04, 2004-05 and 2005-06 are produced in the Main Aggregates Table in the HMRC publication "Child and Working Tax Credits Statistics. Finalised Annual Awards. Supplement on Payments 2005-06". This publication is available on the HMRC website at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-quarterly-stats.htm

Information for over and under payments in 2006-07 will not be available until May 2008.

CHILDREN, SCHOOLS AND FAMILIES

Academies: Finance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families whether academies will be included in the new funding regime announced in Raising Expectations: enabling the system to deliver; and if he will make a statement. [196427]

Jim Knight: Academies will continue to be funded directly by the DCSF on the basis of funding agreements. Like other providers, they will represent their interests and contribute expertise through local 14-19 Partnerships. We know for example that from September 2008, 54 per cent. of academies will be offering diplomas and from September 2009, 75 per cent. of academies will be offering diplomas. We expect academies to participate fully in these new arrangements. But where an individual academy is unable to agree with the local authority what its provision should be, the Secretary of State retains the right to fund the number of academy places which he deems to be appropriate, having first consulted the relevant local authorities. The academies will receive their funding directly from the DCSF in line with the agreed commissioning plan.

Apprentices: Enfield

Joan Ryan: To ask the Secretary of State for Children, Schools and Families how many apprenticeships were *(a)* available and *(b)* taken up in the London borough of Enfield in each of the last five years. [196793]

Jim Knight: Figures on the number of places available are not collected centrally.

Figures for those starting Apprenticeships can be derived from the Learning and Skills Council's (LSC) Individualised Learner Record (ILR) and are available at

http://www.apprenticeships.org.uk/partners/frameworks/apprenticeshipsdata

Following the Machinery of Government announcements, the LSC is working to update its systems so that data by local authority area are readily available. Residence-based data at a local authority level are something that will be built into reporting systems, however historic data based upon the contracting local LSG area are provided in response to this question.

The following table shows the starts on apprenticeships and in advanced apprenticeships in the London North LSC for each of the last 5 years for which data are available (based on home post code of the learner).

	Advanced Apprenticeships	*Apprenticeships*
2002-03	350	480
2003-04	440	610
2004-05	400	700
2005-06	670	400
2006-07	490	530

Source:
Learning and Skills Council (LSC) Individualised Learned Record (ILR). Numbers have been rounded to the nearest 10.

Building Schools for the Future Programme

Mr. Chaytor: To ask the Secretary of State for Children, Schools and Families when he expects to *(a)* receive and *(b)* approve the first Building Schools for the Future proposal for (i) Barnet, (ii) Bexley, (iii) Birmingham, (iv) Bournemouth, (v) Bromley, (vi) Buckinghamshire, (vii) Calderdale, (viii) Cumbria, (ix) Devon, (x) Enfield, (xi) Essex, (xii) Gloucestershire, (xiii) Kent, (xiv) Kingston, (xv) Kirklees, (xvi) Lancashire, (xvii) Lincolnshire, (xviii) Liverpool, (xix) Medway, (xx) North Yorkshire, (xxi) Poole, (xxii) Plymouth, (xxiii) Reading, (xxiv) Redbridge, (xxv) Slough, (xxvi) Southend, (xxvii) Stoke-on-Trent, (xxviii) Sutton, (xxix) Torbay, (xxx) Trafford, (xxxi) Walsall, (xxxii) Warwickshire, (xxxiii) Wiltshire, (xxxiv) Wirral, (xxxv) Wolverhampton and (xxxvi) the Wrekin local authority. [195595]

Jim Knight: In 2004, after wide consultation, we invited all authorities to submit expressions of interest for inclusion in the Building Schools for the Future programme. These included how their schools would be grouped into projects. Additionally, those authorities which wished early prioritisation were invited to provide evidence of their readiness to deliver the programme.

All projects were prioritised on the average educational and social need of the schools in them. For pathfinders and wave one authorities, we also appraised their readiness to deliver. All authorities were given an indication of where their projects are prioritised in the overall programme in early 2005. This information is available in the House Libraries.

We have now launched projects in the first six waves of the programme. In total, these include 90 projects in 72 authorities. These projects are being developed through several stages of development and scrutiny with the assistance of Partnerships for Schools, 4ps, the Sorrell Foundation and CABE, other bodies and the Department.

Bournemouth and Poole, Essex, Kirklees, Telford and Wrekin and Wolverhampton are now developing their proposals prior to submitting an outline business case.

Birmingham and Kent have had outline business cases agreed and are in procurement for their first projects.

Stoke-on-Trent is currently reviewing its proposals after the Council's Children and Young People's Services were placed under Government intervention in October 2006.

Lancashire and Liverpool have provided robust final business cases, and have signed procurement contracts and schools in their projects are now being built.

Details of the progress of projects in waves one to five can now be found on the Partnerships for Schools website, at: www.p4s.org.uk and following the 'Programme' and then 'Progress' links.

The following authorities are prioritised in waves seven to 15 of the programme and have not yet entered it: Barnet, Bexley, Bromley, Buckinghamshire, Calderdale, Cumbria, Devon, Enfield, Gloucestershire, Kingston upon Thames, Lincolnshire, Medway, North Yorkshire, Plymouth, Reading, Redbridge, Slough, Southend, Sutton, Torbay, Trafford, Walsall, Warwickshire, Wiltshire, and Wirral. These authorities will be given the opportunity for revising their expressions of interest later this year when we have consulted on management of these later waves of the programme, and detailed prioritisation will follow.

Capita

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 18 December 2007, *Official Report*, columns 1254-5W, on Capita, what the contract compliance process applied

by his Department in monitoring contracts with Capita and its subsidiaries is. [177165]

Kevin Brennan: The contract for the administration of the Teachers' Pension Scheme is managed in accordance with detailed governance arrangements set out in the contract. These include measurement against key performance indicators, service improvement plans and performance related payment. The management of these arrangements is subject to regular audit by internal and external auditors and assessment by the Office of Government Commerce, through its Common Assessment Framework. The same compliance process applies to the Capita contract for National Strategies. In this case there is no payment related to performance because it is difficult to relate the specific contractual outputs directly to the educational outcomes we are trying to achieve.

Children in Care: General Certificate of Secondary Education

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of 16-year-olds in care obtained *(a)* at least one GCSE at any grade, *(b)* at least one GCSE at grades A* to C, *(c)* five GCSEs at any grade, *(d)* five GCSEs at grades A* to C and *(e)* five GCSEs at grades A* to C including English and mathematics in each year since 1997; and if he will make a statement. [196882]

Kevin Brennan: Data collected since 2000 and published in 'Outcome Indicators for Looked After Children twelve months to 30 September' show the GCSE performance or equivalents of children who were looked after for at least 12 months. The available information for England is shown in the table.

GCSE performance or equivalents of children who are looked after continuously for at least 12 months in Year 11: 12 months ending 30 September 2000 to 2006, England

	1 GCSE at grade A*-G or a GNVQ		5 A*-C GCSE (or equivalent)		5 A*-G GCSE grades (or equivalent)	
	Number	Percentage[2]	Number	Percentage[2]	Number	Percentage[2]
2000	1,900	49.2	300	7.7	1,400	35.5
2001	2,100	49.6	330	8.0	1,400	33.1
2002	2,300	53.2	320	7.5	1,500	36.3
2003	2,400	52.9	400	8.7	1,700	36.8
2004	2,700	56.1	450	9.4	1,900	39.4
2005	2,900	60.2	510	10.8	1,900	40.7
2006	3,200	63.2	600	11.8	2,100	41.4

[1] Figures have been rounded to the nearest 10 if under 1,000, and to the nearest 100 if over 1,000.
[2] Expressed as a percentage of all looked after children in Year 11.
Source:
OC2 Survey

We do not collect information about the numbers of looked after children who achieve A*-C GCSE grades in English or mathematics separately. However, these data are available at a local level enabling local authorities to set targets for the attainment of looked after children at key stage 4 which include English and mathematics. These targets are negotiated with the National Strategies and Government offices and form a statutory part of a local authority's local area agreement.

At national level the DCSF is matching data on looked after children to the National Pupil Database (NPD) which provides a wide range of data on the educational attainment of children and young people. From 2009 an initial analysis of looked after children to attainment data along with a range of other data will be available, including English and mathematics at GCSE.

Not enough progress has been made on improving the educational achievement of looked after children (LAC). They often face a wide range of barriers to learning that most children do not experience. However, we are determined to do more and improving the education of LAC is a top priority. It is key to improving their life chances and a successful transition to adulthood.

We have set out our intentions in 'Care Matters: Time for change' and the implementation plan 'Care Matters: Time to deliver for children in care' published by the Government with the Local Government Association and the Association of Directors of Children's Services, on 26 March 2008.

Children: Armed Forces

Dr. Murrison: To ask the Secretary of State for Children, Schools and Families what data his Department holds on the comparative academic performance of children from armed forces families and civilian families. [195291]

Jim Knight: Information on academic performance of children from armed forces families is not yet available.

Children: Day Care

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many and what proportion of *(a)* childcarers in daycare settings and *(b)* childminders in (i) Basingstoke constituency, (ii) Hampshire and (ii) England were male in each year since 1997. [197482]

Beverley Hughes: The 2006 Childcare and Early Years Providers Survey estimated that the average proportion of male staff working in full day care settings in England was 2 per cent. In total, there were 2,500 male staff working in full day care settings in England. In 2006, 2 per cent. of childminders working in England were male, approximately 1,200 individuals. Data for each year available are shown in the following table.

Table: Male staff working in full days care settings or as childminders in England

	Full day care		Childminders	
	Average proportion of male staff per setting (percentage)	Total number of male staff	Proportion of childminders (percentage)	Total number of male childminders
1998	..	..	0.5	470
2001	2	1,900	1	400
2003	2	2,000	1	800
2005	2	2,500	2	1,000
2006	2	2,500	2	1,200

Note:
Different definitions of childcare providers were used in the 1998 survey; it is not possible to provide comparable figures on full day care staff for this year.

Data are not available at a local authority level.

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families (1) how many and what proportion of *(a)* male and *(b)* female childminders were classified as from socio-economic backgrounds (i) 1 to 3 and (ii) 4 to 8 in each year since 1997; [197483]

(2) how many and what proportion of *(a)* male and *(b)* female childcarers who work in daycare settings were classified as from socio-economic background (i) 1 to 3 and (ii) 4 to 8 in each year since 1997. [197486]

Beverley Hughes: The Childcare and Early Years Providers survey collects information on the key characteristics of child care and early years provision and the workforce in the different types of settings. However, the socio-economic classification of child minders and carers working in day care settings is not asked in this survey, and is not collected centrally.

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families (1) how many and what proportion of *(a)* male and *(b)* female childminders were (i) white and (ii) black and minority ethnic persons in each year since 1997; [197484]

(2) how many and what proportion of *(a)* male and *(b)* female childcarers in daycare settings were (i) white and (ii) black and minority ethnic persons in each year since 1997. [197485]

Beverley Hughes: The 2006 Childcare and Early Years Providers Survey estimated that 6 per cent. of childminders working in England were from a black and minority ethnic (BME) background, a total of 3,000 individuals. The average proportion of staff from a BME background working in full day care settings in England was 9 per cent. In total, there were 13,000 BME staff working in full day care settings in England.

Data for each year available are shown in the following table.

Table: Ethnicity of staff working in full day care settings or as childminders in England

	2001	2003	2005	2006
Full day care				
Average proportion of BME staff per setting (percentage)	8	8	10	9
Average proportion of staff per setting not from a BME group (percentage)	92	92	90	91
Total number of BME staff	7,500	8,800	13,550	13,000
Total number of staff not from a BME group	86,800	102,300	119,100	130,100
Childminders				
Proportion of BME childminders (percentage)	11	13	7	6
Proportion of childminders not from a BME group (percentage)	89	86	92	93
Total number of BME childminders	8,100	9,500	4,000	3,600
Total number of childminders not from a BME group	64,100	63,100	53,200	53,800

Note:
Full day care figures for 2005 and 2006 on the average proportion of staff per setting not from a BME group and the total number of staff not from a BME group have been estimated using the figures for staff from a BME group and the overall number of paid staff.

Data on the ethnicity of male and female childminders and full day care staff are not available.

Children: Protection

Tim Loughton: To ask the Secretary of State for Children, Schools and Families whether he plans to review the work of local Safeguarding Children's boards; and if he will make a statement. [186757]

Kevin Brennan: The Department has already stated its intention to conduct a stocktake of LSGB progress later in 2008. That will allow us to take account of the findings of the joint Chief Inspectors' Report on Safeguarding Children, due in July 2008, alongside other evidence.

John Bercow: To ask the Secretary of State for Children, Schools and Families what recent representations he has received from *(a)* the Association of Police Authorities, *(b)* the Crown Prosecution Service, *(c)* the Local Government Association and *(d)* children's charities on strengthening the law to protect children who have been groomed. [191441]

Kevin Brennan: I am not aware of any such recent representations.

Children: Sexually Transmitted Diseases

Norman Lamb: To ask the Secretary of State for Children, Schools and Families how many children under the age of 16 years were diagnosed with a sexually transmitted infection in each of the last five years, broken down by *(a)* region and *(b)* type of infection. [195450]

Dawn Primarolo: I have been asked to reply.

Information on the number of diagnoses of the five main sexually transmitted infections (gonorrhoea, chlamydia, syphilis, genital warts and anogenital herpes) in under 16-year-olds in the last five years by strategic health authority has been placed in the Library.

Citizenship: Curriculum

Mr. Paul Goodman: To ask the Secretary of State for Children, Schools and Families with reference to the answer to the hon. Member for Stafford on 23 October 2007, *Official Report*, column 213W, on the curriculum: citizenship, (1) how many one day regional training events *(a)* have taken place and *(b)* are planned to take place in 2008 in order to support the addition of the new strand to citizenship teaching; and how many citizenship teachers he estimates will attend these events; [197554]

(2) who has been appointed national subject lead for citizenship; and how this person plans to promote citizenship. [197550]

Jim Knight: Nine regional events (one per Government office region) have been delivered in 2008 in order to support citizenship teaching. 617 local authority representatives and subject leaders for citizenship attended these events. A follow up event is planned for June 2008, when around 50 subject leaders for citizenship are expected to attend.

A further 234 support opportunities will be delivered by regional subject advisors for citizenship to individual

schools or groups of schools, according to local need. We estimate that a minimum of 700 citizenship teachers and subject leaders will benefit from this support. Finally, on-line support materials are available to all citizenship teachers across the country.

The national subject lead for citizenship is Mr. Pete Pattisson. In order to promote citizenship, Mr. Pattisson has led on the development of the on-line support materials (including video case studies) and on the delivery of the nine regional events for citizenship teachers. Mr. Pattisson acts as the coordinator of the network of regional subject advisors for citizenship and provides a point of contact for all parties interested in the place of citizenship in the new curriculum.

Mr. Paul Goodman: To ask the Secretary of State for Children, Schools and Families (1) what plans he has to improve the coverage of citizenship in schools, with particular reference to the coverage of political literacy, as referred to in the National Foundation for Educational Research report Vision versus pragmatism; [197559]

(2) how many teachers teach citizenship in secondary schools; and how many of these are specialists in the subject; [197555]

(3) with reference to the answer to the hon. Member for Stafford (Mr. Kidney) on 23 October 2007, *Official Report*, column 213W, on the curriculum: citizenship, what steps he plans to take to raise the status of citizenship with head teachers; [197549]

(4) how many schools deliver citizenship courses through discrete classes. [197558]

Jim Knight: We are committed to improving the coverage of citizenship education and the quality of citizenship teaching within the school curriculum. Citizenship has been a statutory national curriculum subject since 2002. The recent review of secondary education provided an opportunity to look at the clarity of teaching requirements for this subject alongside all the other subjects in the national curriculum. The new secondary curriculum for citizenship was published in August 2007 for first teaching from September 2008. We are developing a new, full GCSE and A-level in citizenship studies, in response to demand.

The 2002 Secondary School Curriculum and Staffing Survey (SSCSS) estimated that there were around 9,000 teachers of citizenship in maintained secondary schools, with 6 per cent. of them holding a post A-level qualification in the subject.

Over 200 new specialist citizenship teachers are trained every year through initial teacher training courses (PGCEs) to teach in secondary schools. A programme of continuing professional development (CPD) was launched in 2006, in collaboration with higher education institutions across the country. The five-day course is free for teachers to access. It requires teachers to meet high standards for teaching citizenship in schools, with a particular focus on imparting knowledge and understanding of the subject area. We have made available 600 places a year in 2007-08. We have also funded the Association for Citizenship Teaching (ACT), established in 2003, which provides a focus for professional development among teachers and advice, training and support for schools.

Citizenship education makes an important contribution to developing young people's political literacy. It enables them to improve their understanding and develop skills of democratic participation while helping them to appreciate that they have a stake in society. Young people are taught about democratic institutions, processes and the importance of voting. We are keen to encourage active learning so that young people start early to experience democracy in action. We are also working with the Royal Geographical Society and the Historical Association to develop resources and support for schools for a new 'Who Do We Think We Are?' week in schools, which will provide a focus for activity around diversity and identify and offer schools the chance to explore these issues collectively.

DCSF guidance to schools on their new duty to promote to community cohesion (July 2007) highlights the importance of citizenship education and we have reinforced this message to heads through nine regional conferences and a resource pack for schools being produced in association with the Institute of Community Cohesion, due for publication in April. We will continue to look for ways to emphasise the importance of citizenship to school leaders.

Schools have developed various ways of delivering citizenship in the curriculum: as a discrete subject; within personal, social and health education (PSHE); as citizenship across the curriculum; and through days when the normal timetable is suspended. We do not collect data on how many schools deliver citizenship through discrete classes.

Citizenship: Qualifications

Mr. Paul Goodman: To ask the Secretary of State for Children, Schools and Families (1) what plans he has to develop (*a*) (i) full and (ii) joint citizenship GCSEs and (*b*) citizenship A-levels; [197561]

(2) what plans the Qualifications and Curriculum Authority has to improve standards for citizenship teaching in schools, with particular reference to the development of consistent practice in assessing, recording and reporting student outcomes. [197556]

Jim Knight: The new A-level in Citizenship Studies was accredited for use by the Qualifications and Curriculum Authority in 2007 and is now available from the Awarding Body, AQA. First teaching begins in September 2008.

The GGSEs for all national curriculum subjects are currently under review. It is likely that awarding bodies will submit full course GGSE qualifications for Citizenship Studies this year. If so, accreditation by QCA will be completed in the autumn of 2008 and first teaching would begin in September 2009. It is expected that the awarding bodies will also continue to offer their short course qualifications in Citizenship Studies.

Currently three awarding bodies, AQA, OCR and Edexcel offer short courses in Citizenship Studies. These have been used by schools since 2002. Last summer 75,000 students took the short course GCSE in Citizenship Studies. This summer it is estimated that 95,000 students will take the qualification. Citizenship Studies remains the fastest growing GCSE qualification.

The Qualifications and Curriculum Authority (QCA) is responsible for developing the curriculum. Citizenship has been a statutory national curriculum subject since 2002. The recent review of secondary

education provided an opportunity to look at the clarity of teaching requirements for this subject alongside all the other subjects in the national curriculum. The new secondary curriculum for citizenship was published in August 2007 for first teaching from September 2008.

Alongside the new curriculum, level descriptions for Citizenship were published for the first time. These offer a clearer framework of standards and were developed in consultation with teachers and the subject community and build on the work QCA undertook in 2006 which led to the publication "Assessing citizenship at key stage 3. Example assessment activities QCA/06/2294".

QCA is currently working with groups of schools on exemplification materials and support for teachers in using the new level descriptions. Schools will be required to use the new levels descriptions for citizenship to make judgments about student attainment from the summer of 2011, this being the first year the first cohort of pupils will complete the new key stage 3 programme of study.

Citizenship: Teachers

Mr. Paul Goodman: To ask the Secretary of State for Children, Schools and Families how many citizenship teachers studied citizenship *(a)* at initial teacher training and *(b)* in continuing professional development. [197562]

Jim Knight: The information requested is not collected centrally.

Civil Service Appeal Board

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how many and what percentage of appeals by employees of *(a)* his Department and *(b)* its agencies were (i) heard and (ii) upheld by the Civil Service Appeal Board in each of the last 10 years; how much was awarded in compensation by the Board to each successful appellant in each year; what the reason was for each compensation award; how many appellants were reinstated by the Board in each year; and what the reason was for each (A) dismissal and (B) reinstatement. [192526]

Kevin Brennan: The information sought is not held centrally and could be obtained only at disproportionate cost.

Departmental Anti-Semitism

Mr. Amess: To ask the Secretary of State for Children, Schools and Families how many officials from his Department, broken down by grade, attended the cross-government working group on anti-Semitism on 15 November; and if he will make a statement. [167393]

Jim Knight: I refer the hon. Member to the answer given by the Parliamentary Under-Secretary of State, Department for Communities and Local Government, my hon. Friend the Member for Gloucester (Mr. Dhanda), on 22 November 2007, *Official Report*, column 1012W.

Departmental Domestic Visits

Mr. Willis: To ask the Secretary of State for Children, Schools and Families what visits he made to *(a)* Harrogate International Centre, *(b)* International Conference Centre, Birmingham, *(c)* Manchester Central, *(d)* Scottish Exhibitional and Conference Centre, Glasgow, *(e)* Edinburgh International Conference Centre, *(f)* Bournemouth International Conference Centre, *(g)* the Brighton Centre, Brighton, *(h)* the Riviera Centre, Torquay, *(i)* Queen Elizabeth Centre, London, *(j)* Excel Conference Centre, Docklands, London, and *(k)* Business Design Centre, Islington, London, in the period 1 January 2005 to 31 December 2007; and what events he attended at each. [197188]

Ed Balls: Since the establishment of the Department for Children, Schools and Families on 28 June 2007 and up until 31 December 2007, I have visited the following establishments in my ministerial capacity: *(a)* International Conference Centre, Birmingham on 29 November 2007 to attend the Specialist Schools and Academies Trust Annual Conference, *(b)* Bournemouth International Conference Centre on 14 November 2007 to attend the Youth Justice Board Annual Conference, *(c)* Queen Elizabeth Centre, London on 10 July 2007 to attend the NASUWT Presidential Reception, 15 November 2007 to attend the NCSL New Heads Conference, 13 December 2007 to attend the NASUWT Presidential Reception, *(d)* Business Design Centre Islington, London on 18 July 2007 to attend a National Children's Bureau Conference.

Departmental Internet

Mr. Swire: To ask the Secretary of State for Children, Schools and Families if his Department will *(a)* follow the Internet Content Rating Association (ICRA) guidelines and *(b)* display ICRA's label on the websites for which it is responsible. [191780]

Kevin Brennan: The Department is committed to safety online for all users, including children and young people. We are already makes use of, or are working towards implementing, the ICRA guidelines and the use of the label across our portfolio of websites.

Departmental Public Expenditure

Mr. Laws: To ask the Secretary of State for Children, Schools and Families for what reasons his Department's spending detailed in the Budget 2008 Red Book was lower than that set out in the 2007 Pre-Budget Report; and if he will make a statement. [196431]

Ed Balls: The Department for Children, Schools and Families' spending plan set out in the Budget 2008 Red Book (see Table C11) is the same as set in the 2007 pre-Budget report (see Table B13). For the 2008-09 to 2010-11 period, DCSF's resource budget will be respectively £46.9 billion/£49.2 billion/£51.9 billion and the capital budget will be £6.0 billion/£6.4 billion/£7.7 billion. Changes to DCSF's 2007-08 outturn estimate are due to underspends, which will be available for the Department to use in future years.

Departmental Publications

Mr. David Jones: To ask the Secretary of State for Children, Schools and Families what guidance is issued to members of his Department on the authorship and publication on the internet of material relating to their official duties; and if he will make a statement. [196735]

Kevin Brennan: Members of the Department use the Department's website to communicate a range of policy information and related resources. The Department has established an online style guide which is available to all staff.

Family Fund: Finance

Bob Russell: To ask the Secretary of State for Children, Schools and Families how much was allocated to the Family Fund in each of the past 10 years; how much has been allocated for *(a)* 2007-08 and *(b)* 2008-09; and if he will make a statement. [171228]

Kevin Brennan: The Government have allocated, in relation to England, the following amounts to the Family Fund for grants to disabled children and their families:

	£ million
1999-2000	16.8
2000-01	19.8
2001-02	20.8
2002-03	21.8
2003-04	22.8
2004-05	22.8
2005-06	22.8
2006-07	22.8
2007-08	22.8

For 2008-09, the Department for Children, Schools and Families will increase funding to £24.4 million to enable the fund to extend its grants to disabled children and young people aged 16 and over.

Foster Care

Annette Brooke: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the level of diversity of foster care providers; and if he will make a statement. [196434]

Kevin Brennan *[holding answer 25 March 2008]:* A recent review of fostering provision commissioned by my Department reported that as at 31 March 2005, there were 188 independent fostering agencies, 146 total authority fostering agencies, 46 voluntary fostering agencies and five agencies categorised as "other"[1].

[1] *Source:*

RW74, DfES Children's Services: Children's Homes and Fostering (published by DfES/DCSF on 31 August 2006)

Further Education

Mr. Chaytor: To ask the Secretary of State for Children, Schools and Families what the post-16 education and training participation rate is in *(a)* Bexley, *(b)* Bournemouth, *(c)* Buckinghamshire, *(d)* Kent, *(e)* Kingston, *(f)* Lincolnshire, *(g)* Medway, *(h)* Poole, *(i)* Reading, *(j)* Slough, *(k)* Southend, *(l)* Sutton, *(m)* Torbay, *(n)* Trafford and *(o)* the Wirral; and what the equivalent figures are for each of their statistical neighbours in each case. [196182]

Jim Knight: Estimates of participation in education, training and employment in England for those aged 16-18 are published annually by the Department in a Statistical First Release (SFR) each June (see following link).

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000734/index.shtml

The Department also publishes local estimates of participation in England alongside the national figures, but these are only available for young people of academic age 16 and 17. The local participation estimates cover those in full-time education, part-time education, and Work Based Learning, but do not identify young people in employer funded training[1] or other education and training[2] apart from those on a part-time education course.

The most recent local estimates of education and Work Based Learning for local authorities relate to the end of 2005. Tables showing the rates and absolute numbers for 16 and 17-year-olds in the local authorities requested and their statistical neighbours are placed in the House Libraries.

[1] Employer funded training covers employees who have received training in the past four weeks, other than those in Work Based Learning.

[2] Other education and training covers young people who are studying but are not included in other categories. For example those attending independent colleges or training centres, or those at any college in part-time study not reported as released from job.

General Certificate of Secondary Education

Mr. Chaytor: To ask the Secretary of State for Children, Schools and Families which schools in each local authority achieved fewer than 30 per cent. A* to C grades at GCSE in each of the last two years; and what the *(a)* raw scores and *(b)* value added scores of each school were in each of those years. [195594]

Jim Knight: The percentage of pupils in each school achieving 5 A* to C grades at GCSE (or equivalent) and their scores can be found in the Achievement and Attainment Tables in the House of Commons Library.

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how many schools had fewer than *(a)* 25 per cent., *(b)* 30 per cent., *(c)* 35 per cent. and *(d)* 40 per cent. of children obtaining fewer than five A* to C grades in GCSE including mathematics and English in each of the last 10 years. [196691]

Jim Knight: The information on the number of maintained mainstream schools is given in the following table.

The number of schools with fewer than 35 per cent. and 40 per cent. of pupils achieving five A*-C GGSE grades, including English and Mathematics, can be provided only at disproportionate cost.

Number of maintained mainstream schools[1] with fewer than 15 per cent., 20 per cent., 25 per cent., and 30 per cent. of pupils achieving at least 5 A-C GCSE grades (or equivalent), including English and Mathematics, in 1996/97 to 2006/07*

	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007
Below 15 per cent.	566	513	399	340	305	247	254	207	138	91	47
Below 20 per cent.	922	835	695	637	583	482	495	426	338	279	162
Below 25 per cent.	1,262	1,141	993	924	862	778	800	734	608	500	376
Below 30 per cent.	1,610	1,507	1,310	1,241	1,154	1,089	1,098	1,054	924	789	639
Total number of schools	3,169	3,151	3,131	3,119	3,102	3,099	3,095	3,095	3,095	3,072	3,045

[1] Figures relate to all maintained mainstream schools published in Achievement and Attainment Tables, including Academic City Technology Colleges and City Colleges for the Technology of Arts.

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how many schools had fewer than *(a)* 25 per cent., *(b)* 30 per cent., *(c)* 35 per cent. and *(d)* 40 per cent. of children obtaining fewer than five A* to C grades in GCSE in each of the last 10 years. [196692]

Jim Knight: The information on the number of maintained mainstream schools is given in the following table. The number of schools with fewer than 35 per cent. of pupils achieving 5 A*-C GCSE grades can be provided only at disproportionate cost.

Number of maintained mainstream schools[1] with fewer than 15%, 20%, 25%, 30% and 40% of pupils achieving at least 5 A-C GCSE grades (or equivalent) in 1996/97 to 2006/07*

	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007
Below 15 per cent.	186	180	128	100	74	56	42	27	11	7	..
Below 20 per cent.	363	325	278	242	196	157	112	72	40	15	4
Below 25 per cent.	619	553	488	437	369	294	224	186	110	47	17
Below 30 per cent.	899	828	736	662	819	499	410	843	230	134	64
Below 40 per cent.	1,491	1,418	1,278	1,206	1,128	1,026	923	861	674	487	306
Total number of schools	3,169	3,151	3,131	3,119	3,102	3,099	3,095	3,095	3,095	3,072	3,045

[1] Figures relate to all maintained mainstream schools published in Achievement and Attainment Tables, including academies, city technology colleges and city colleges for the technology of arts.

Mr. Hayes: To ask the Secretary of State for Children, Schools and Families (1) what the 10 most commonly studied, non-compulsory subjects taken to GCSE level were in the latest period for which figures are available, broken down by type of school; and how many pupils studied each such subject to GCSE level in the same period; [196992]

(2) which 10 subjects were most commonly studied at A-Level in the latest period for which figures are available, broken down by type of institution; and how many pupils took each such subject in the same period. [196993]

Jim Knight: The readily available information has been placed in the House Library.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) what proportion of 16 year olds were entered for *(a)* GCSE English, *(b)* GCSE mathematics and *(c)* one or more GCSEs in 2007; [197253]

(2) what proportion of 16 year olds were entered for fewer that *(a)* five GCSEs and *(b)* five GCSEs including English and mathematics in 2007; and if he will make a statement. [197254]

Jim Knight: Numbers and proportions of pupils attempting GCSEs in each subject at the end of Key Stage 4 can be found in table 11 of the January Statistical First Release 'GCSE and Equivalent Examination Results in England 2006/07 (Revised)', available at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000768/index.shtml

The proportion of pupils at the end of Key Stage 4 entered for fewer than five GCSEs was 5.6 per cent. The proportion of pupils at the end of Key Stage 4 entered for fewer than five GCSEs including English and mathematics was 9.0 per cent.

These figures are not published for 16-year-old pupils; the figures provided are based on pupils at the end of Key Stage 4. The end of Key Stage 4 signals the end of compulsory education, and the majority of pupils at the end of Key Stage 4 are aged 15 at the start of the academic year.

General Certificate of Secondary Education: Home Schooling

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what percentage of children educated at home had achieved five GCSEs graded at A* to C by the age of 16 years in each year since 1997; and if he will make a statement. [196575]

Jim Knight: The information requested is not collected centrally.

Pupils who are educated at home and for whom the local authority is financially responsible are included in the Alternative Provision Survey. However, it is not possible to separately identify these pupils as they are reported in the category "Not a school" which also includes pupils educated in community homes or units, FE colleges or voluntary sector providers.

Head Teachers

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many *(a)* primary schools and *(b)* secondary schools were without a permanent head teacher for more than three months in the past 12 months. [196574]

Jim Knight: The information is not available in the format requested.

The following table provides the number of temporarily filled full-time head teacher posts in local authority maintained schools in England, January 1998 to 2007.

Temporarily filled full-time head teacher posts[1] in local authority maintained schools in England by phase, January of each year

	Temporarily filled as a percentage of head teachers in post										
	LEA maintained only		*All maintained*								*Number of posts*
	1998[2]	1999[2]	2000	2001	2002	2003	2004	2005	2006	2007	2007
Nursery and primary (percentage)	2.5	2.2	2.1	2.7	2.1	2.3	2.4	2.7	2.9	3.0	520
Secondary (percentage)	1.8	1.6	2.3	2.3	2.0	2.4	2.2	2.7	2.3	2.3	80
Special (percentage)	4.2	3.8	5.3	4.2	3.7	3.8	4.2	3.9	4.9	3.8	40
Total (percentage)	2.5	2.2	2.3	2.7	2.1	2.4	2.5	2.7	2.9	2.9	640
Total vacancies (number)	580	490	540	650	520	540	570	610	650	640	

[1] Temporarily filled full-time permanent appointments. The definition used is wider than the DCSF standard vacancy definition used elsewhere (bullet points b. and c. as follows are in addition to the normal definition). A post is included in this table:
a. where there is no incumbent who is expected to return to the post;
b. whether or not filled on a temporary basis, i.e. either without a contract or on a contract of less than one year;
c. whether or not advertised; and
d. where an appointment has been made but not yet taken up.
[2] Excludes vacancies in schools that were grant maintained.

Note:
Totals may not appear to equal the sum of the component parts because of rounding.

Source:
618g survey.

Inclusive Technology

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families what the value is of each contract his Department holds with Inclusive Technology. [196650]

Kevin Brennan: The Department does not hold a central record of the nature of individual agreements (be they contracts, consultancies or other services) nor of their value. However, our financial records show that the Department has not made any payments to this company in either of the last two financial years.

Ipsos MORI

Mr. Pickles: To ask the Secretary of State for Children, Schools and Families what payments his Department and its predecessor have made to Ipsos MORI in the last 24 months; and for what purposes. [193849]

Jim Knight: Details of the amount paid to Ipsos MORI by the Department for Children, Schools and Families and its predecessor, the Department for Education and Skills for 2006-07 and 2007-08 are set out as follows:

	£
2006/07	393,691.00
2007 to 18 March 2008	475,113.58

The expenditure relates to payments recorded in the Department's integrated financial information system and credited against Ipsos MORI and its predecessor Ipsos - RSL Ltd.

The purpose of the expenditure relates to a contract in connection with Teachers TV and covers audience measurement, impact and channel evaluation.

Ministers: Correspondence

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many times a Minister from his Department has written to all *(a)* primary head teachers, *(b)* secondary head teachers and *(c)* local education authorities since 18 December 2007; and if he will make a statement. [196571]

Jim Knight: It is departmental policy not to send written communications to schools or local authorities. All correspondence is via email.

We send a regular email once a week to local authorities. There have been 12 sent since 18 December 2007. On occasion we send a bespoke e-mail containing an item of significant importance. There have been three sent since 18 December 2007. We also send a Chief Executive update once a quarter. There has been one sent since 18 December 2007.

We send a regular fortnightly email to schools. There have been one sent since 18 December 2007. On occasion it is necessary to send a bespoke email containing an item of significant importance (or to schools falling within a particular category e.g. admission authorities). Four have been sent since 18 December 2007.

Music: Education

Anne Main: To ask the Secretary of State for Children, Schools and Families what assessment he has made of his Department's progress towards achieving the five aims of the music manifesto. [196195]

Jim Knight: The 2007 survey of music services estimated that 50 per cent. of Key Stage 2 pupils will be given an opportunity to learn a musical instrument, compared to 22 per cent. in 2006/07. To support the development of a world class workforce we contracted Open University and Trinity College to develop a training programme for classroom teachers and other

professionals involved in music education. Over 1,000 people have so far enrolled in that training.

The Music Manifesto published a report "Making Every Child's Music Matter" in October 2006. This report took stock of how music education in England had progressed since the launch of the Manifesto and made recommendations for further action by the Government and others involved in music education. In response to the recommendations in January 2007 we announced £10 million for a National Singing Programme. In November 2007 we confirmed a major new package of activity continuing funding for Sing Up (£10 million in each of the next three years) and a total investment in music education of £332 million over the next three years. Details of this can be found in the department's press release at:

http://www.dfes.gov.uk/pns/DisplayPN.cgi?pn_id=2007_0216

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how much each local authority has spent on educational music services in each year since 1997; and if he will make a statement. [196428]

Jim Knight: The available information on music services funding has been placed in the House Library.

Pupil Referral Units

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many pupils aged under 11 years were in pupil referral units in each year since 1997. [197613]

Jim Knight: The requested information is shown in the following table:

Pupil referral units: Number (headcount) of pupils aged less than 11, position in January each year1997 to 2007, England

	Solely registered pupils and pupils registered with other providers	*Pupils registered in more than one school*
1997	507	899
1998	464	866
1999	471	865
2000	380	998
2001	653	1,016
2002	486	997
2003	797	997
2004	749	1,336
2005	679	1,479
2006	771	1,449
2007	747	1,454

Source:
School Census.

Pupils: Per Capita Costs

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families what the average public expenditure per pupil on education for each age of pupil was in each *(a)* region and *(b)* London borough in each of the last 10 years. [196655]

Jim Knight: The Department is unable to answer the question in the way it has been asked. However, the available information on school based expenditure per pupil by local authority maintained primary and secondary schools in England from 1997-98 to 2006-07 has been placed in the House Library.

Pupils: Personal Records

Mr. Pickles: To ask the Secretary of State for Children, Schools and Families how many individuals have been allocated a unique pupil number (UPN); and whether data held on each pupil via the UPN record are deleted from the database when the child leaves education. [193860]

Jim Knight: The number of pupils who have been allocated a unique pupil number (UPN) to date since their inception is not available. The UPN number itself bares no resemblance to the number of UPNs issued. They are based on the local authority number, the school establishment number and a set of randomly generated numbers. UPNs were first introduced in the autumn term of 1999 and cover the maintained schools sector in England.

It was agreed with the Data protection Registrar when the UPN was designed that it would lapse when pupils completed their statutory phase of education. With this in mind, the current policy is that the national pupil database holds the UPN and associated pupil details until that point. After the pupil leaves maintained education the record is retained to enable lifelong learning analyses, but the UPN is removed.

Reading: Teaching Methods

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families which local education authorities participated in the *(a)* initial and *(b)* subsequent pilot using synthetic phonics to teach children to read. [197679]

Jim Knight: The Early Reading Development pilot (ERDp) ran in 18 local authorities during 2005/06.

The local authorities involved in this pilot were:

Barnsley
Cheshire
Coventry
Hertfordshire
Islington
Leeds
Liverpool
Luton
Manchester
Medway
Nottingham City
Peterborough
Redcar and Cleveland
Stoke-on-Trent
Tameside
Tower Hamlets
Waltham Forest
Wiltshire.

In 2006/07, the Communication, Language and Literacy Development (CLLD) programme was developed, implementing the recommendations from the Rose Review. 32 further local authorities participated in the programme (in addition to the 18 local authorities who had been involved in the ERDp):

Bath and North East Somerset
Birmingham
Blackburn with Darwen
Bury

Dorset
Ealing
East Sussex
Essex
Gloucestershire
Greenwich
Hackney
Hammersmith and Fulham
Haringey
Hartlepool
Kent
Kingston-upon-Hull
Knowsley
Lambeth
Lewisham
Middlesbrough
North Tyneside
Oldham
Sandwell
Sefton
Sheffield
Shropshire
Southampton
Southwark
Surrey
Swindon
Thurrock
Torbay.

From April 2008, a further 50 local authorities will join the CLLD programme:

Barking and Dagenham
Bolton
Bradford
Brent
Bristol, City of
Calderdale
Camden
Cornwall
Croydon
Cumbria
Derby
Derbyshire
Doncaster
Dudley
Durham
Enfield
Gateshead
Halton
Hampshire
Hounslow
Kirklees
Lancashire
Leicester
Lincolnshire
Newcastle upon Tyne
Newham
Norfolk
North East Lincolnshire
Northamptonshire
Northumberland
Nottinghamshire
Plymouth
Rochdale
Rotherham
Salford
South Tyneside
St. Helens
Staffordshire
Stockport
Stockton-on-Tees
Suffolk
Sunderland
Wakefield
Walsall
Wandsworth
Westminster
Wigan
Wirrall
Wolverhampton
Worcestershire.

School Improvement Partners

Sarah Teather: To ask the Secretary of State for Children, Schools and Families (1) who is responsible for *(a)* employing and *(b)* setting the salary of school improvement partners; [197089]

(2) what advice he has given to *(a)* schools and *(b)* local education authorities on the starting salaries for school improvement partners; [197090]

(3) what estimate he has made of the number of hours worked by school improvement partners in each local education authority in the last 12 months; [197091]

(4) what advice he has given to schools on the employment, recruitment and retention of school improvement partners; [197092]

(5) what the total cost was to each local education authority of school improvement partners in the last 12 months; [197093]

(6) how many school improvement partners were employed in each local education authority at the latest date for which figures are available; and what the cost was in the latest period for which figures are available; [197094]

(7) what estimate he has made of the average salaries of school improvement partners in each local education authority in the latest period for which figures are available. [197145]

Jim Knight: The information is as follows.

197089 and 197090

A nationally accredited school improvement partner (SIP) programme has been introduced into every school in phases, the final phase being in April 2008. The programme was made a statutory requirement in the 2006 Education and Inspections Act. The SIP works for, and on behalf of, the local authority (LA) and is the channel for LAs' engagement with schools on school improvement. LAs both employ and set salary levels for SIPs. Pay levels are not determined

centrally, because SIPs work under contract to the maintaining authorities of the schools with which they work. In each case it is for the individual authority to negotiate pay levels with their SIPs.

197091

We do not collect this information centrally. However, on average, we expect a SIP to devote five days to a school every year. Generally around three days of this support takes place in school, while preparation and data analysis occurs out of school and accounts for the balance of the time. In addition, every SIP is expected to set aside a total of four additional days a year for professional development and for attending national, regional and local events.

197092

The Department provides information, advice and guidance to local authorities about deploying, managing, developing and supporting the performance of their SIPs through "School Improvement Partner programme, Advice and guidance for local authorities (3rd edition, ref: 00633-2007BKT-EN)"; the guidance is regularly updated and circulated to local authorities. It fully recognises the unique circumstances and contexts in which each local authority operates, and builds on good practice found in LAs during the first two full years of the SIP programme.

197093

We do not collect this information centrally.

197094

Since September 2006 all secondary schools have had a SIP. Primary SIPs have been introduced in phases with the first phase being completed in April 2008. On 26 March 2008, there were 1,670 primary SIPs working in 114 LAs and 1,172 secondary SIPs working in 150 LAs. Decisions on the deployment of SIPs are determined by LAs. Information on the cost of employing SIPs is not collected centrally and is a matter for the LA that employs the SIP.

197145

We do not collect this information centrally.

Schools: Admissions

Mr. Chaytor: To ask the Secretary of State for Children, Schools and Families how many *(a)* selective places and *(b)* applicants for those places there were in each local authority with schools that selected wholly or partially by ability in each of the last three years. [195596]

Jim Knight: The information requested is as follows.

(a) There are 164 schools designated as grammar schools under section 104 of the School Standards and Framework Act 1998. The number of pupils in grammar schools during the last three years is as follows

	Number
2005	154,065
2006	155,484
2007	156,796

Some 40 schools that did so before 1997 operate partial selection by ability in various proportions. We do not have data on the numbers of selective places in such schools.

(b) The Department does not collect data on the number of applicants for selective places.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families which local authorities have submitted plans to his Department on how they will reduce the number of surplus places in their schools; and if he will make a statement. [196424]

Jim Knight: We have invited authorities to inform the Department of any proposed action to reduce surplus places in their agreed Primary Strategy for Change by 16 June 2008. To date, we have received no responses.

In developing their plans for Building Schools for the Future (BSF), we expect local authorities to think strategically about existing secondary school provision. They should consider factors such as demand for places (including the level of surplus places) and future population changes, as well as standards, diversity, parental preferences, and the condition of existing buildings, to ensure that they are providing the right schools in the right places at the right time. 58 authorities engaged in BSF have submitted proposals, in the form of a 'Strategy for Change' Part 1, or equivalent, for some or all of their secondary schools. These authorities are as follows:

Wave 1

Bristol (also W4)
Bradford (alsoW5)
Gateshead
Greenwich (also W5)
Knowsley
Lancashire
Leeds
Leicester
Lewisham (also W3)
Manchester (also W4)
Newcastle upon Tyne
Sheffield (also W4)
Solihull
South Tyneside
Stoke-on-Trent
Sunderland
Waltham Forest (also W5)

Wave 2

Birmingham (also W4-6)
Hackney
Haringey (also W4)
Islington
Kingston upon Hull
Lambeth (also W5)
Liverpool (also W5)
Middlesbrough
Newham (also W5)
Nottingham City (also W5)
Tower Hamlets (also W5)

Wave 3

Barnsley

Derbyshire
Durham (also W6)
Kent (also W4-6)
Luton (also W6)
North Lincolnshire
Salford
Sandwell (also W5)
Southwark
Tameside
Westminster

Wave 4

Barking and Dagenham
Cambridgeshire
Coventry
Essex
Hertfordshire
Telford and Wrekin
Rochdale
Blackburn with Darwen
Oldham
Somerset

Wave 5

Derby City
Camden
St. Helens
Blackpool
Hartlepool
Ealing
Wolverhampton
Wandsworth
Kensington and Chelsea

Schools: Closures

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many school days have been lost as a result of schools having to close temporarily during term-time in each year since 1997; what information his Department collects on the reasons for such closures; and if he will make a statement. [196426]

Jim Knight: The Department does not collect this information, and there is no requirement for schools to notify us when they close temporarily during term-time.

Schools: Construction

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what information his Department holds on the standard of existing school buildings; and if he will make a statement. [196425]

Jim Knight: Data on the suitability and condition of school buildings were supplied to my Department by local education authorities in 2005-06. Similar data were supplied in 2001 and 2003. Analysis of the 2003 data is included in the publication "Schools Asset Management: Data Analysis 2004", available at:

www.teachernet.gov.uk/sbamps

Central Government capital support for investment in schools has increased from under £700 million in 1996-97 to £6.4 billion in 2007-08 and will rise further to £8.0 billion by 2010-11.

Schools: Cycling

Mrs. Villiers: To ask the Secretary of State for Children, Schools and Families how many schools have received funding for Bikeability training, broken down by local authority area. [191703]

Ms Rosie Winterton: I have been asked to reply.

This information is not collected centrally.

The Department for Transport has provided funding to 36 local authorities outside of London, to Transport for London and to School Sports Partnerships, to enable around 46,000 children to-be trained to the Bikeability standard. We do not hold data on the number of schools who have received training paid for by this funding.

Schools: Fire Extinguishers

Lynne Featherstone: To ask the Secretary of State for Children, Schools and Families how many schools were *(a)* built and *(b)* fitted with fire suppression systems in each of the last five years; and if he will make a statement. [195158]

Jim Knight: In 2007, we gathered information from all authorities on the improvements to their school buildings over the previous 10 years. This "School Building Investment Data" is available in the parliamentary Libraries. We also published "Better Buildings Better Design Better Education, A report on capital investment in education" which summarises the headline data for the 10 years from 1997 to 2007. The information collected includes the numbers of new schools in the last five years set out in the following table. These figures include nursery, primary, secondary and special schools, and also academies; and both additional new schools and replacement schools.

	Number
2002-03	121
2003-04	122
2004-05	127
2005-06	171
2006-07	196

We do not keep information on the details of new school designs. However it is our expectation that all new and some refurbished schools designed after the introduction of our new policy in February 2007 will have fire sprinklers installed, although this is not a compulsory measure. There may be cases where local authorities or other promoters of schools consider that sprinklers are not needed. If so, they will need to be able to demonstrate that such schools are very low risk and that sprinklers would not represent good value for money.

Schools: Governing Bodies

Mr. Lancaster: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the likely effect of the proposal to reduce the size of school governing bodies contained within the recently published Children's Plan. [197341]

Jim Knight: We believe that smaller, more highly skilled governing bodies, alongside improved governor training will lead to more effective governance in schools. Smaller governing bodies can be consistent with the current stakeholder model of governance. As we indicated in the Children's Plan, we will be consulting stakeholders on reducing the size of governing bodies. Good governance and leadership at school level is essential if we are to achieve better outcomes for all children and young people.

Schools: Standards

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many schools were in Ofsted categories since 1997 and are no longer in such categories. [196626]

Jim Knight: The information is set out in the following table.

Schools placed in Ofsted categories between 1 September 1997 and 31 December 2007

Category	Number of schools placed in each category	Number of schools in each category at 31 December 2007	Number of schools no longer in each category
Special measures	1,806	245	1,561
Significant improvements[1]	667	305	362
Serious weaknesses[1]	1,873	0	1,873
Totals	4,346	550	3,796

[1] The designation of serious weaknesses applied until 31 August 2005. The Ofsted inspection framework was revised from 1 September 2005 and the new category of requiring significant improvement was introduced.

Note:
The table is based on the most recent information published by Ofsted last month.

John Mann: To ask the Secretary of State for Children, Schools and Families how many schools were closed on the grounds of poor performance in each of the last 10 years. [197465]

Jim Knight: The Department does not hold information on the reasons for school closure. School place planning is the statutory responsibility of the local authority (LA). Each LA must strive to secure high standards, diversity of provision and increased opportunities for parental choice. They must review school place provision regularly, ensuring there are sufficient places to meet the needs of the population. Where the LA propose to make any changes they must publish statutory proposals which are decided under local decision making arrangements and Ministers have no direct role in the process.

Since 1997, 264 schools placed in the Ofsted special measures category have closed. In addition since 2005, 14 schools placed in the Ofsted inadequate category of requiring significant improvement have closed.

Secondary Education: Admissions

Bob Spink: To ask the Secretary of State for Children, Schools and Families what undertakings on school placements have been given to parents on Canvey Island following the decision to close Furtherwick school. [196961]

Jim Knight: School place planning is a local matter. Where changes are proposed, a statutory process must be followed.

I understand that following a period of statutory consultation to address declining pupil numbers in Essex, Essex county council published a statutory proposal on 7 March 2007. The public notice stated that the following arrangements for pupils affected by the proposal to close Furtherwick Park School from 31 August 2011 would be made:

> Pupils currently attending Furtherwick Park School were to complete their education at the school;
>
> Pupils admitted to Year 7 in September 2007 were to spend all of key stage 3 (Years 7, 8 and 9) at Furtherwick Park, but transfer onto the roll of Castle View School, or to other schools which have places available, in September 2010 for the remaining two years of their statutory education (Years 10 and 11);
>
> No new pupils are to be admitted to Furtherwick Park from 1 September 2008. To accommodate pupils who might otherwise have attended Furtherwick Park, Castle View School is to expand to admit up to 240 pupils from September 2008 into Year 7.

Essex School Organisation Committee on 15 May 2007 approved the closure of Furtherwick Park School with effect from August 2011; an increase in the published admission number from 180 to 240 to Castle View School from 2008-09; and the enlargement and relocation of Castle View School from 904 to 1,200 places into new purpose built accommodation on the current Furtherwick Park School site with effect from September 2011.

Secondary Education: Teaching Methods

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families what plans there are to introduce small group tuition into secondary schools. [180468]

Jim Knight: I refer the hon. Member to the answer I gave him on 25 March 2008, *Official Report*, column 113W.

Special Educational Needs

Miss Kirkbride: To ask the Secretary of State for Children, Schools and Families what percentage of children have special educational needs; and what forecasts there are for the likely percentage in future years. [196261]

Jim Knight: Details of the percentage of children with special educational needs (SEN) are set out in the Statistical First Release "Special Educational Needs in England, January 2007" which was published on 26 June 2007 and is available from:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000732/index.shtml

In January 2007, 2.8 per cent. of pupils had a statement of SEN[1] and 16.4 per cent. of pupils had been identified as having special educational needs but without a statement[2]. Figures based on the January 2008 school census will be published in due course.

The Department has not made recent estimates of the percentage of children with special educational needs (SEN) entering primary and secondary education in forthcoming years. Previous estimates of the total

numbers with SEN are now out of date and will be updated later this year. These should be available in the autumn.

Specialised Diplomas

Mr. Hayes: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 5 February 2008, *Official Report*, column 1101W, on specialised diplomas, what estimate he has made of the cost of training teachers in preparation for the first teaching of diplomas in September 2008. [197054]

Jim Knight: In the financial year 2007-08, the Department has spent £2.63 million to provide face-to-face training for teachers in preparation for the first teaching of diplomas in September 2008.

Specialised Diplomas: Disadvantaged

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of pupils are entitled to free school meals in each maintained school that will not be offering the full range of diplomas from *(a)* September 2008 and *(b)* September 2009; and if he will make a statement. [196880]

Jim Knight: The vast majority of schools and colleges in England will offer some Diplomas from September 2009 with the support of local universities and employers. We therefore expect the number of maintained schools offering the full range of Diplomas to increase in line with the planned and phased roll out of Diplomas to 2011. All schools will be expected to play a full part in local consortia arrangements to offer all Diploma lines because the 14-19 Entitlement means that from 2013 every young person has the choice to pursue one of 17 Diplomas at an appropriate level for them, wherever they are in the country.

No schools within the Diploma consortia arrangements will be offering the full range of Diplomas in 2008 or 2009 as the full range of Diplomas will not be available until 2011 when the final three Diplomas will be available for first teaching, bringing the total Diploma Lines of Learning to 17.

Teachers: Documents

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many documents were sent from his Department to head teachers of *(a)* primary and *(b)* secondary schools either in hard copy or via e-mail since 18 December 2007. [196572]

Jim Knight: It is departmental policy not to send documents to schools either in hard copy or via e-mail. In communications to schools via e-mail we provide links to documents that can be downloaded.

We send a regular fortnightly e-mail to schools. There have been seven sent since 18 December 2007. On occasion it is necessary to send a bespoke e-mail containing an item of significant importance (or to schools falling within a particular category e.g. admission authorities). Four have been sent since 18 December 2007.

Teachers: Labour Turnover

Mr. Evennett: To ask the Secretary of State for Children, Schools and Families how many qualified teachers left full-time teaching in London in each of the last five years. [196413]

Jim Knight: The following table provides the number of qualified regular local authority maintained sector teachers who left full-time service in London Government office region in each year from 2000-01 to 2004-05, the latest year available at regional level. The numbers include teachers leaving service, retiring, entering part-time service or entering teaching service of any description outside of London.

Teachers leaving full-time regular local authority maintained sector[1] service in the London Government office region

	2000-01	2001-02	2002-03	2003-04	2004-05[2]
Out of full-time service in London[3]	5,550	5,360	5,300	4,530	3,990
Retired	740	660	670	700	830
Leavers to part-time service in London	1,120	1,390	1,240	1,300	1,410
Total	7,400	7,410	7,200	6,530	6,230

[1] Left full-time service in London but they may in service elsewhere or in other education sectors.
[2] Provisional. Figures are available for 2005-06 at the national level but not for individual regions.
[3] Excludes academies and CTCs.
Source:
Database of Teacher Records.

Teachers: Primary Education

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many and what proportion of primary school teachers joining the profession had a *(a)* C, *(b)* B, *(c)* A and *(d)* A* in (i) GCSE mathematics and (ii) GCSE English in each of the last 10 years; and if he will make a statement. [197252]

Jim Knight: The information requested is not collected centrally.

All initial teacher training trainees are required to have at least a GGSE grade C in mathematics and English or their equivalent.

Teaching Methods

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families pursuant to the Answer of 10 March 2008, *Official Report*, column 196W, on teaching methods, (1) how many secondary schools will have funding to support small group academic focused study support in 2009-10; [196561]

(2) what proportion of the money allocated to support the development of extended schools will be used to support small group academic focused study support. [196562]

Jim Knight: The provision of a varied menu of activities for children and young people, including study support, is part of the extended schools core offer, with the Government committed to every school delivering

extended schools core offer by 2010. The Department has made a significant investment in extended schools, and will make available more than £1.3 billion over the next three years to support the establishment of inclusive and sustainable extended schools. Schools are free to use this funding to respond to the needs of children and their community which can include providing study support activity. As part of this funding, £84 million in 2009-10 and £83 million in 2010-11 is to support small group academic focused study support. The funding will be targeted at the most deprived secondary schools, and is expected to support small group academic focused study support in around a quarter of the over 3,000 secondary schools.

Truancy: Penalties

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many fixed penalty notices have been issued in relation to condoned absenteeism of pupils; and if he will make a statement. [196573]

Jim Knight: The Department began collecting data in September 2004 on the number of penalty notices issued by local authorities to parents in respect of the offence of failing to ensure their children's regular school attendance. Between 1 September 2004 to 31 December 2007, the data show that 35,229 parents were issued with penalty notices.

Vocational Education

Kelvin Hopkins: To ask the Secretary of State for Children, Schools and Families how many 14 to 16 year olds spent time in a further education college studying for a vocational qualification in the last 12 months. [195655]

Jim Knight: We estimate that around 95,000 students aged 14 to undertook practical and applied learning in further education colleges in 2006/07, but detailed information by type of qualification is not available.

Information on students in further education colleges is collected by the LSC through the Individualised Learner Record (ILR). For 14 to 16-year-olds this information is not compulsory, so information from this will be incomplete. The ILR is a data return that is used primarily for funding purposes, but as 14 to 16-year-old provision is not directly funded by the LSC there has been no requirement for institutions to include details of 14 to 16-year-olds in ILR returns.

Unemployment

Mr. Hands: To ask the Secretary of State for Children, Schools and Families how many *(a)* males aged between 16 and 64 years and *(b)* females aged between 16 and 59 years were not in education, employment or training in (i) 1997, (ii) 2001, (iii) 2005 and (iv) 2007. [174637]

Bill Rammell: I have been asked to reply.

The UK has a dynamic and flexible labour market with one of the highest employment rates of the G7 nations. Under this Government youth unemployment has fallen and we now have more 18 to 24-year-olds in employment and full time education compared to 1997.

Government are not complacent and have set out how we will deliver an integrated employment and skills service that will include early skills screening of 18 to 24-year-olds, piloting of mandatory skills health checks and basic skills and job focused provision and new funding for a new adult advancement and careers service.

The following table shows estimates from the Labour Force Survey for England for the second quarter of each year of the numbers and percentage not in education, employment or training (NEET).

Not in education, employment or training (NEET) by gender (England)

Q2 of each year	Males aged 16[1] to 64			Females aged 16[1] to 64		
	NEET	*Total*	*Percentage*	*NEET*	*Total*	*Percentage*
1997	2,372,000	14,902,000	15.9	3,609,000	14,031,000	25.7
2001	2,166,000	15,151,000	14.3	3,294,000	14,342,000	23.0
2005	2,211,000	15,444,000	14.3	3,221,000	14,618,000	22.0
2007	2,296,000	15,602,000	14.7	3,302,000	14,667,000	22.5

[1] Lower age bound is based on academic age 16—that is those aged at least 16 on the previous 31 August and who will therefore have completed compulsory full-time education.

Labour Force Survey Q2 (April to June) of each year

COMMUNITIES AND LOCAL GOVERNMENT

Arms Length Management Organisations: Finance

Lembit Öpik: To ask the Secretary of State for Communities and Local Government when the remaining Round 6 arms-length management organisations will be informed of the results of their bids for decent homes funding. [195710]

Mr. Iain Wright: 10 of the 15 local authorities under round six of the arms-length management organisation (ALMO) programme have been informed of the results of their bids for decent homes funding.

Officials are in discussions with the remaining five authorities and expect to conclude those negotiations shortly.

Caravan Sites: Travelling People

Derek Wyatt: To ask the Secretary of State for Communities and Local Government what steps she plans to take on the absence of proposals from Kent county council for the provision of permanent gypsy sites. [197488]

Mr. Iain Wright: Local authorities in Kent have prepared Gypsy and Traveller Accommodation Assessments which have been submitted to the South-East Regional Assembly for consideration as part of the development of the Regional Spatial Strategy (RSS). The RSS will, in turn, inform the development of Development Plan Documents which will allocate specific sites to meet the identified need. Local planning authorities need not await the RSS to take steps to meet accommodation needs, and we expect authorities where there is clear and pressing need for accommodation to take such steps now.

Councillors: Allowances

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what requirements local authorities have to establish independent remuneration panels before increasing councillors' allowances above wage inflation; and what guidelines have been produced on *(a)* the composition of such panels and *(b)* how frequently they should report. [194342]

John Healey: Each local authority is required, under the Local Authorities (Members' Allowances) England Regulations 2003 to set up and maintain an independent remuneration panel. The independent remuneration panel will make recommendations as it sees fit about the level of basic allowance for all members and the level of special responsibility allowances, and to whom they should be paid.

Advice on establishing independent remuneration panels and their role is contained in "Guidance on Members' Allowances for Local Authorities in England"

www.communities.gov.uk/documents/localgovernment/pdf/153902

Departmental Sustainable Development

Norman Baker: To ask the Secretary of State for Communities and Local Government when her Department plans to publish its sustainable operations policy statement. [195890]

Mr. Dhanda: Communities and Local Government published its updated Sustainable Operations Policy Statement and more detailed Sustainable Operations Policy in February 2008. The statement is available on the Department's website.

The Department's progress against delivery of the sustainable operations targets is reported annually by the Sustainable Development Commission.

Fire Services: Accidents

Bob Spink: To ask the Secretary of State for Communities and Local Government how many accidents there were involving fire engines on emergency calls in *(a)* Castle Point constituency and *(b)* Essex in each of the last five years. [196800]

Mr. Dhanda *[holding answer 26 March 2008]*: The number of fire appliance accidents in Essex, while on emergency calls, is shown in the following table:

Fire appliance accidents in Essex while on blue light: 2001-02 to 2005-06

	Number
2001-02	76
2002-03	80
2003-04	n/a
2004-05	70
2005-06	79

n/a = Not applicable. *Source:* Annual returns to CLG.

Figures for Castle Point are not available separately.

First Time Buyers: Coastal Areas

Mr. Cox: To ask the Secretary of State for Communities and Local Government what assistance her Department provides to local first-time buyers living in smaller coastal communities. [192008]

Mr. Iain Wright: The Government's low cost home ownership scheme "HomeBuy2", introduced in April 2006 operates across England. It is open to social tenants, people on the waiting list (who would be a priority for a social rented home), key public sector workers through our Key Worker Living programme, and first time buyers prioritised for assistance by Regional Assemblies. It operates alongside the Right to Buy and Right to Acquire schemes which enable eligible social tenants to purchase their rented home.

The scheme includes three products: Open 'Market HomeBuy (shared equity), New Build HomeBuy (shared ownership) and Social HomeBuy. The First Time Buyers' Initiative scheme run by English Partnerships, the national regeneration agency, is part of the New Build product. These schemes help purchasers get onto the housing ladder with shares from 25 per cent. As announced in the 2007 Budget, from April 2008, we are offering two new equity loans which will be available through the Government's shared equity scheme Open Market HomeBuy. The loans will improve affordability for purchasers and provide more choice in the mortgage which buyers can take out.

As part of the Housing Green Paper we are increasing outputs of new affordable housing to at least 70,000 by 2010-11 which will include at least 25,000 new shared ownership and shared equity homes a year by 2010-11 mainly funded by the Housing Corporation.

Homebuy Scheme

Robert Neill: To ask the Secretary of State for Communities and Local Government how many homes have been sold or part-sold under Social Homebuy in each month since the commencement of the scheme. [191667]

Mr. Iain Wright: Social HomeBuy is a voluntary scheme, launched in April 2006, which enables tenants of participating local authorities and housing associations to buy a minimum 25 per cent. share in their rented home at discount. The scheme has been operating as a two year pilot until March 2008. The following table shows the number of sales in each month under the pilot scheme since its commencement.

The 176 sales up to the end of February 2008 have arisen from about 20 of the initial participating landlords, most of whom joined the pilot in late 2006. Since April

2007 a second phase of landlords has joined the scheme and now 77 housing associations and 10 local authorities are offering Social HomeBuy to their tenants. As with normal home purchases, Social HomeBuy transactions can take several months to reach completion.

Social HomeBuy is just one of a range of products which help social tenants into home ownership. Since 1997 the Government have helped over 95,000 households (including social tenants, key workers and other first time buyers) on to the housing ladder through both shared ownership and shared equity schemes.

Homelessness: Newcastle Upon Tyne

Jim Cousins: To ask the Secretary of State for Communities and Local Government how many households were accepted as eligible for assistance for homelessness in Newcastle upon Tyne in each quarter from 1 January 2006; and how many households were in temporary accommodation from 1 January 2006. [196109]

Mr. Iain Wright: Information about English local housing authorities' actions under the homelessness legislation (part 7 of the Housing Act 1996) is collected quarterly at local authority level.

Under the legislation, authorities have a duty to secure suitable accommodation for applicants accepted as eligible for assistance, unintentionally homeless and in priority need (or take steps to secure that accommodation does not cease to be available if the applicant is likely to become homeless within 28 days). These duties are referred to as "the main homelessness duties", and applicants who are accepted as owed a main duty are referred to as "homeless acceptances". Applicants who are eligible for assistance, but not owed a main duty (for example, because they are not in priority need), must be provided with advice and assistance in any attempts they make to secure accommodation for themselves; they are not recorded as "homeless acceptances".

An authority must secure suitable accommodation for an accepted household. If a settled home is not immediately available, the authority may secure temporary accommodation until a settled home becomes available.

Information on the number of applicants eligible for assistance (including a breakdown of those who are, and are not, accepted as owed a main duty) is published in our quarterly Statistical Release on Statutory Homelessness, which also includes data on the number of households in temporary accommodation at the end of the quarter. The Supplementary Tables give figures for each local authority, including Newcastle-upon-Tyne, and are published on our website and placed in the Library each quarter. The latest release was published on 10 March 2008 and contains data for the period October to December 2007:

http://www.communities.gov.uk/documents/housing/xls/714968
